## THE PRESIDENT VETOES PROHIBITION MEASURE

BOTH HOUSES PASS IT OVER VETO BY A SUBSTANTIAL VOTE.

Washington, Oct. 27.—President Wilson unexpectedly vetoed the prohibition enforcement bill to-day and within three hours the house had repassed it over his veto by a vote of 176 to 55. The total vote was barely more than a majority of the entire membership.

Dry leaders in the senate immediately began laying plans to repass the bill there. They expect to ask unanimous consent for its consideration tomorrow, claiming enough votes to put it through. They expect to act on it by Wednesday at the latest.

The President refused to sign the bill because it included the enforcement of war-time prohibition.

The objects of war-time prohibition, the President said in his veto, had been satisfied, and "sound public policy makes clear the reason and necessity for its repeal."

It would not be difficult, the President held, for Congress to deal separately with the two issues.

House is Surprised.

The veto hit Congress unexpectedly. The house, getting on its feet again, deserted its leaders, who wanted to defer consideration until Thursday so as to round up all the dry members. But the drys swept into the chamber and showed there was overwhelming sentiment among them to give the government ample weapons for dealing with the liquor traffic.

Nobody had really professed to know the President would veto the bill. Republicans and Democrats alike and the countless multitude that had sorrowfully watched the passing of the bars, thought it would become a law without his signature.

Attorney General Palmer, it was said, had declared it constitutional. However, the President propped up bed, dictated and signed a veto message and sent it to Congress without worrying, apparently what Congress might do.

No Big Wet Spell.

With repassage of the law by the house and the prospect of the same thing happening in the senate, hope of the big "wet" spell that would run over the Christmas season vanished.

Prohibition leaders predicted refusal of the house to accept the President's veto meant that the sale of liquor would not be permitted again in this and many other generations.

Passes the Senate.

Washington, Oct. 28.—The senate passed the prohibition enforcement bill over the President's veto to-day and made immediately effective machinery for preventing sale of beverages containing more than one-half of one per cent alcohol.

The vote was 65 to 20, or eight more than the necessary two-thirds majority. While there was a wrangle over taking up the measure in place of the peace treaty, which had the right of way, there never was doubt as to how the senate stood. It was overwhelmingly "dry" like the house, which repassed the bill three hours after the President had vetoed it.

Sugar Consumption.

Sugar available in the markets of the United States for the year 1918 and 1919 is estimated by the department of commerce at 9,855,000,000 pounds. The net amount retained for consumption in the United States after deducting exports and re-exports is put at 8,790,000,000 pounds by the report. This gives an average per capita consumption of 82 pounds in 1919, says the report, as against 86 pounds in the fiscal year of 1914.

Man of 93 Injured by Auto.

Kinston, Oct. 28.—William Taylor, who has watched with interest all the "new-fangled" things which people run around in nowadays, is suffering from injuries sustained when an automobile backed into him on Queen and Blount streets here. Mr. Taylor is 93 and resides in a rural part of Lenoir county. One of Mr. Taylor's hips and his dignity were hurt. The physical injury is said to be not serious.

## JUDGE JAMES E. BOYD ASKS TO BE RETIRED.

After serving almost two decades as presiding officer of the United States court for the western district of North Carolina and following 40 years spent in public life, Judge James E. Boyd, of Greensboro, has decided to retire to less active life. His request for an additional judge under the Carlin law went forward yesterday to President Wilson at Washington.

"His physical condition renders him unable to do all the necessary court work in the district," Judge Boyd advises the President, and suggests that "the appointment of an additional judge be made without delay."

It is regarded as certain that the additional judgeship will go to Congressman E. Yates Webb, of Shelby, and that the appointment will be made in the immediate future. Under the provisions of the Carlin bill the additional judge will perform the major portion of the court duties. Judge Boyd virtually retiring. The Greensboro jurist will continue to receive an annual salary of \$7,500.

Judge Boyd's letter to President Wilson follows:

"To the President:  
"I feel that I should request the appointment of an additional judge in this district under the provisions of the Carlin act.

"I am passed 70 years of age and have been on the bench as United States district judge in this (the western district of North Carolina) for nearly 20 years. As long as I was capable of performing the duties of the office efficiently I did not think it proper that an additional judge should be provided but now that I am in a condition physically which renders me unable to do all the necessary court work in the district and I, therefore, suggest that the appointment of an additional judge be made without delay.

"I have the honor to be, with very great respect,

"Your obedient servant,

"JAS. E. BOYD,

"United States District Judge."

## JOHNSON AMENDMENT TO THE TREATY IS BEATEN.

Washington, Oct. 27.—The Johnson amendment to the peace treaty, designed to equalize American and British voting strength in the league of nations, was rejected in the senate to-day by a vote of 38 to 40.

On the roll call, which came unexpectedly during a lull in the debate, two Democrats joined the Republicans supporting the amendment and nine Republicans voted with the Democrats against it. Of 18 senators absent or paired, four Republicans and two Democrats were recorded as favoring it and 12 Democrats as opposing it.

The senate then took up the Moses amendment on the same subject, the last survivor of 46 recommended by the foreign relations committee. Over the opposition of the administration leaders, action on this measure was postponed, the senate adopting, 43 to 36, Republican Leader Lodge's motion for a recess until tomorrow.

When the senate met, the leaders had not hoped for a vote before tomorrow, but after a rambling debate of an hour and a half, during which nearly every current subject except the league had been discussed, it was decided not to wait on the senators who announced they would speak on the amendment this week. When Democratic Leader Hitchcock asked that a time be set for a roll call during the afternoon, Mr. Lodge replied that he saw no reason why the vote should not be taken at once.

The suddenness with which the roll roll began apparently took the administration forces by surprise and although they had counted on a majority of six or eight, so many senators were absent that a sign of relief went up from the Democratic side when the result was announced. It was by far the narrowest margin by which any of the committee amendments had been beaten.

## FOURTEEN ARE KILLED WHEN STEAMER SINKS

HURRICANE LIFTS BOAT AND HURLS IT CRASHING TO PIECES ON PIERS.

Muskegon, Mich., Oct. 28.—With 14 known dead and six more missing, only time can bring an accurate count of the toll of the great seas which early this morning bodily lifted the Crosby passenger steamer Muskegon, formerly the City of Holland, and smashed her to pieces on the piers at the entrance to Muskegon harbor. The list of dead is added to almost hourly.

The steamer, a wide-wheeler, bound from Milwaukee, after outriding a night of gale, made for the harbor in the early morning darkness but it is said by Captain Edwin Miller to have struck the bar at the entrance. The wheel paddles jammed in the sand, checking headway, and the great combers threw the ship about and hurled her on the pier. There she hung, momentarily, pounding into wreckage, and then slipped off into the deep channel, going down in 50 feet of water. The vessel lies a storm-torn tangle of steel and splintered wood, effectually blocking the harbor entrance.

Fifty of the 72 passengers and crew, guided to safety by a single flashlight in the hands of a coast guard, were tonight known to have been saved from the vessel. It was feared several were caught between decks. Survivors, most of whom escaped only in their night clothing, were being cared for by the Red Cross, while in the city morgues lie the bodies of the recovered.

Graphic stories of terror, suffering and heroism were told by survivors and the bravery of Captain Edwin Miller and his officers and crew, who remained at their posts to the last was recounted. Captain Miller, sensing disaster as the vessel was driven toward the pier, ordered all to leap for their lives and the time-hallowed sea rule, "women first" was followed. Only four women, one of whom was employed on the boat, were tonight known to have been lost.

The women, fearing to venture over the rail, were bravely led by Mrs. Fred L. Beerman, who leaped from the ship. Others jumped or were handed down ropes by men passengers and crew.

Captain Miller, hard stricken by the disaster, and loss of lives, declared the undertow swung his ship after she struck the bar. "I told the cabin boys to waken the passengers and crew and ordered all over the rail," he said. "Those who moved quickly were saved. The ones who held back lost their lives."

To R. J. Kahnorsky, a coast guard, many of those saved owe their lives, according to survivors. Approaching as closely as possible to the suspended steamer, Kahnorsky, while others of the coast guard struggled to free men and women from the tangle of wreckage, held a flashlight, directing the way to safety.

## MINERS GET \$8 TO \$12 A DAY, SAYS BREWSTER.

St. Louis, Oct. 27.—Thomas F. Brewster, chairman of the mine operators' scale committee, in a statement tonight declared the operators would do anything "within reason" to avert the threatened strike of coal miners Saturday, and declared the statement of John L. Lewis, acting president of the United Mine Workers of America, that the miners averaged only \$75 a month during the last year was misleading.

No attempt will be made by the owners to operate the mines if the strike materializes, he said.

Mr. Brewster's statement follows: "Mr. Lewis' statements as to the earning powers of the miners and the present wage scale are misleading and made with intent to mislead the public. The present scale is the highest ever received by the miners' union, and the demand for coal during the ensuing six months will give the men the highest earning power they have ever had.

"The operators believe that the present wage scale is fully compensatory, affording to the miners of the central competitive coal field from \$8 to \$12 a day, coupled with which we have for day labor paid a minimum scale of \$5 a day."

## WILL THE COAL MINERS QUIT WORK SATURDAY?

GOVERNMENT PREPARED TO MEET EMERGENCY WITH TROOPS IF NECESSARY.

Indianapolis, Ind., Oct. 29.—That "a strike of bituminous miners cannot be avoided," was the outstanding conclusion of a statement issued late to-day by the conference of United Mine Workers' officials. Blame for the situation was laid at the feet of the operators because "they had refused to negotiate a wage agreement, notwithstanding the fact the mine workers' representatives had urged and beseeched them to do so."

The miners, the statement claims, will be exercising constitutional rights in striking. The statement also set forth that the union officials gave profound consideration to the statement of President Wilson as it appeared in the newspapers and added that no communication on that subject had been received from the federal administration.

Will Meet Strike Situation.

Washington, Oct. 29.—The government moved swiftly tonight to meet the nationwide coal strike order for Saturday.

Refusal of the miners' organization at Indianapolis to withdraw the order calling out half a million men, brought instant announcement, that drastic action would be taken to keep the mines in operation.

As to those miners who go on strike and thereby curtail production, the food and fuel control law, with its recently added criminal penalties of fine and imprisonment, will be enforced without regard to persons.

Every resource of the government in the words of Attorney General Palmer, will be used to prevent the "national disaster" certain to follow the stoppage of work.

Adequate police protection, with troops as a last resort if necessary, will be given those men desiring to remain at work. Reports from government agents show that a big part of the miners ordered to quit work want to stay on the job.

## SEAPLANE SERVICE FROM NEW YORK TO HAVANA.

New York, Oct. 28.—The inauguration of an aerial freight service between New York and Cuba took place to-day when a seaplane, carrying \$100,000 worth of fountain pens, left Bath Beach, Brooklyn, for Havana. Stops will be made en route at Atlantic City, Norfolk, Wilmington, Charleston, Savannah, Jacksonville, Miami and Key West.

At each of these cities a gold fountain pen will be presented to the mayor and a silver one to the president of the local Rotary Club. The seaplane was piloted by James Farnham and Robert Hewitt, former military aviators, and carried three passengers.

Will Get 1,000,000 Pounds Sugar.

Winston-Salem, Oct. 29.—The Gilmer Bros. Company, which owns a chain of stores in North Carolina and Virginia, has been advised that it will secure more than 1,000,000 pounds of white sugar, purchased through an agency in Cuba. Permission has been secured from the government for the shipment, which is expected to be made within the next few days. It will be distributed through a local wholesale firm to the various stores owned and conducted by the Gilmer Bros. Company. If it is found necessary to rush the shipment, John L. Gilmer, president of the company, will make a personal visit to Cuba.

K. K. K. Monuments Proposed.

Fort Worth, Tex., Oct. 27.—Headed by the Robert G. Lee camp, whose membership includes Gen. K. M. Van Zandt, commander-in-chief of the United Confederate Veterans, a movement has been launched by local veterans for the erection of a monument to the Ku Klux Klan, which flourished in the South in reconstruction days.

After all, a statesman has a hard lot. It is easy enough to pick the right side, but so very difficult to pick the side that will hold the most votes.—Toledo News-Bee.

## YOUNG ARMY ON GUARD AT KNOXVILLE STRIKE.

Knoxville, Oct. 28.—Whether Knoxville is to have a general strike of all labor unions in connection with the striking street car employees will not be known until Friday night. Voting of individual unions proceeded to-day as ordered by the central labor union last night, and at a mass meeting tonight this action was indorsed formally and all locals were directed to complete their vote by Friday night.

No time has been set for the sympathetic strike should one be called, but it is understood that if sufficient unions favor the war-out it will be called to start Saturday. There are nearly 8,000 union workers in the city. The resolution calling for the vote on the sympathetic strike declared that it shall continue "until the troops are withdrawn."

Eight hundred national guardsmen who have been held in the army here 48 hours awaiting possible duty, were augmented this afternoon by the arrival of 600 regulars from Camp Gordon, Ga. These troops are two companies of the 11th infantry and one company of the 13th machine gun battalion. The regular army troops are in command of Col. Preck, of the 11th infantry. Maj. Gen. E. M. Lewis, commanding Camp Gordon, accompanied the regulars and the state military forces were placed at his disposal by Adjutant General Sweeney. General Lewis will be in command if any troops are placed on duty here. The regulars went into camp on the court house lawn in the heart of the city.

An effort will be made by Governor Roberts tomorrow to bring the officials of the Knoxville Railway and Light Company, and officials of the carmen's union into conference looking toward a settlement of the strike which has continued since October 17 and left Knoxville without street car service for eight days.

Street car service with non-union crews continued during the daylight hours to-day without any serious disturbances being reported. No effort will be made to move cars at night in the near future.

A state guardsman to-day caused the arrest of a man whom he charged told him it would be advisable for him to leave the city within 24 hours.

Governor Roberts to-day addressed largely attended meetings of the East Tennessee Law and Order League at which local leagues were formed for 32 counties of this section of the state. The governor pledged himself to maintain law and order with all the resources of the state. The most serious question considered was the threatened strike of coal miners, of whom there are several thousand in this immediate vicinity. It is understood that troops will be held here indefinitely not only to watch the local situation, but to be ready for use if necessary should disorder in the mine districts develop.

At the labor mass meeting tonight, John P. O'Connor, president of the Tennessee Federation of Labor, charged that the refusal of the local street railway company to meet with the striking employees is part of a general plot on the part of capital "to break the backbone of trades unionism" and that organized labor must fight to the last ditch to preserve its existence.

## "MAY BE WON EVEN THOUGH IT IS LOST."

Chicago, Oct. 28.—Following a statement to the effect that the steel workers had lost the strike, made to military leaders in Gary by L. E. Titus, a member of the steel workers' council here, John Fitzpatrick, chairman of the national committee directing the strike, said:

"The strike is won, no matter what the outcome may be."

"There is no use pretending," Titus had said to Col. W. S. Mapes, commanding the regular troops. "The men are going back to work. The strike is lost and the army is responsible."

In explaining his statement, Mr. Fitzpatrick said:

"The strike may be won even though it is lost. This struggle is only laying the ground work for future battles."

The laborer feels worthy of his higher.—Boston Herald.

## NATIONAL FARMERS IN ARRAY AGAINST "REDS"

THE ONLY WAY TO HANDLE THEM IS TO "SHOOT 'EM OR SHIP 'EM."

Hagerstown, Md., Oct. 28.—Activities of political agitators and labor leaders of the "unscrupulous" sort were denounced as a menace to the political and economic security of the nation by speakers at the opening session here to-day of the 39th annual meeting of the farmers' national congress.

The need of an effective assertion of "100 per cent" Americanism by the farmers of the country in combatting the attempt of radical elements to undermine the political institutions of the country was impressed upon more than 1,500 farmer delegates, representing all sections of the country, who attended the opening session of the congress.

Responding to the sentiment of its speakers, the congress, by unanimous resolution, pledged its "steadfast" support of the government in the strict enforcement of law and order in combatting "certain radical elements that would vitiate the fundamental principles of our government and tear down its institutions." To prevent the spread of anarchistic and radical theories, the resolution asserted, "the conservatism of the American farmer must be eternally on guard."

Welcoming the delegates on behalf of the state of Maryland, Governor Harrington declared the farmer must accept his full responsibility in directing the course of the nation and "make himself heard in all councils which seek a settlement of industrial conflicts." In a plea for "unadulterated Americanism" among all classes, the governor declared "both capital and labor must be taught that they cannot jeopardize the sovereignty of the nation." Anarchists and other agitators who have "assumed our citizenship without sympathy for our form of government" must be put down, he asserted and "the farmer must take an emphatic hand in meeting the emergency."

J. H. Kimble, president of the congress, told the delegates that the farmer must "exert a greater influence if we are to win the battles of peace." His strength, both politically and economically, the speaker said, lies in more thorough organization and co-operation.

Declaring that the only way to treat "preachers of anarchy" and the "irresponsible" among labor leaders, was to "shoot 'em or ship 'em," A. P. Sandles, of Sandusky, Ohio, elicited vociferous cheers from the assembly.

## CHARLOTTE'S ENTIRE POLICE FORCE IS ON TRIAL.

Charlotte, Oct. 29.—The state had not concluded the introduction of witnesses when adjournment for the day was called at 7 o'clock this evening of the preliminary hearing of Chief Walter B. Orr and 30 members of the Charlotte police department on charges of murder, growing out of the shooting at the street car barns here on the night of last August 25, during the strike of the carmen, when five persons were killed and a dozen wounded. The hearing was convened this morning at 10 o'clock.

The defense scored the chief point of to-day's session when just before the adjournment a woman witness for the state testified that the crowd at the car barns said that the only way trouble there that night could be averted would be for the strikebreakers, who were in the car barns, to be taken from the city. She testified that she telephoned Mayor Frank McIninch to come to the scene and take the strikebreakers away so that trouble might be averted.

State to Get Road Machinery.

Washington, Oct. 28.—It begins to look as if the state would get a lot of the war department road building machinery after all. Representatives of the various highway associations of the country think that under the laws the original plan to donate to the state motor machines suitable for construction work can be carried out.

This would mean a great deal to North Carolina road builders. The secretary of war and the attorney general may get together on the proposition.

The list of deeds filed Tuesday at the county court house was a long one and described the transfer of some very valuable pieces of real estate. The most valuable apparently were two lots opposite the Southern passenger station in Greensboro fronting on Buchanan street, these having been acquired by Roy C. Millikan from the Southern Life and Trust Company, executors of the estate of the late W. B. Allen. The consideration was \$10,224.

#### LARGE OFFICE BUILDING WILL BE ERECTED SOON.

Architectural plans for a magnificent three-story brick building to serve as the home of the Cone Export and Commission Company, and the erection of which is expected to involve an expenditure of about half a million dollars, already have been approved and the construction work will be started in the early future, it was learned Tuesday. The building will be erected on South Greene street, near the intersection of that thoroughfare and West Washington street.

This new building will be erected a short distance from the new 10-story hotel to be constructed at the corner of South Greene and Washington streets. The Cone office building will be located on South Greene, between West Washington and Buchanan streets. It is contemplated that McGee street will be continued, from the point where it intersects South Eugene street to South Greene street, and the Cone building will be located at the corner of South Greene and McGee. It may be feasible later to continue McGee from South Greene to South Elm.

At present the Cone Export and Commission Company offices are housed in a building on West Washington street, between South Elm and South Greene. When the new office building of the Cone Company is completed, the present building will, of course, be vacated. What disposition will be made of that valuable property cannot now be foretold.

It is expected that the new office building of the Cone Export and Commission Company will be one of the most beautiful business structures in the city. With the work beginning at an early date and carried forward to completion, together with other projects, that section of the city will soon become a business center instead of a residential section, it is suggested. The ever widening lines of the business district are causing much favorable comment even among the most optimistic citizens of Greensboro and are synonymous with the steady forward march of this city as an industrial center of remarkable magnitude. Building projects of ambitious scope are disclosed almost daily.

#### SUPT. FOUST RETURNS FROM INSPECTION TRIP.

Thomas R. Foust, Guilford county superintendent of public instruction, has returned from Maryland and Ohio, where he inspected a number of consolidated schools and made other inquiries relative to county educational systems. The Guilford superintendent had a most interesting trip and gained ideas which will doubtless prove helpful in the solution of local school problems.

In Baltimore county, Maryland, Mr. Foust found supervisory activities developed to a marked degree. Not a great deal of consolidation has been effected in that county, but efficient supervision was observable everywhere; it appeared. At Columbus, O., Mr. Foust visited the offices of the state department of education, and he also visited schools in two counties in southern Ohio. In those counties he found a large number of consolidated schools, all of which were being operated with evident success. Mr. Foust also paid a visit to the Pennsylvania state educational department at Harrisburg.

Even more strongly than before, Mr. Foust is convinced of the necessity of further consolidation of rural Guilford schools.

President Gomer's secretary is named Guy Oyster. He ought to be a quiet guy.—Corvallis, Oregon, Gazette-Times.

## TEST OF THIS GOVERNMENT HAS COME.

Some time ago we said the testing time of this country was rapidly approaching—and it now seems that the test has come since the coal strikers have paid no attention to the words of the Commander in Chief of the American Army as well as the President of the United States—both officials being one and the same man—Woodrow Wilson.

Word comes that when the words of the President of the United States were considered by the strikers and their crowd, that there was "no defender in the conference" for the government, as it now exists under the constitution of the United States.

The President said to these miners: "Any attempt to carry out the purpose of this strike and thus to paralyze the industry of the country with the consequent suffering and distress of all the people, must be considered a grave moral and legal wrong against the government and people of the United States." Furthermore the President said to them: "The law will be enforced and the means will be found to protect the interests of the nation in any emergency that may arise out of this unhappy business."

These words of the Commander in Chief of the American Army as well as President of the United States had no defender among the coal strikers and their leaders.

The leaders of the strike organizations have committed the blunders that have been made for the last two years or more—and they are the ones who ought to have to suffer. But if nothing else will do these organizations than that they shall be beaten by force—then the responsibility is their own and not that of the President of the United States or any one else.

Eighty per cent of the people of this country belong to no class or organization—and these eighty per cent stand for their government.

What a great pity that organization should fall into hands of false leaders and be made to destroy the very people that they were intended to help and defend—but this is the condition that is now in sight.

## HOW THE SENATE MOVES.

We have been given an example of how the "most dignified body in the world," does business. The New York World says:

Just 102 days after it was presented by President Wilson, the official reading of the German peace treaty was completed in the United States senate, now we are promised "uninterrupted" consideration of that document.

Another reason for the high cost of living is that we no longer make little Willie's pants out of dad's old ones.—Greenville, S. C., Piedmont.

You can now get an excellent five-cent cigar for a quarter.—Wall Street Journal.

## GIRL CAPTURES BURGLAR IN BROAD DAYLIGHT.

Detecting a burly negro burglar and then relieving him of valuables which he had stolen is an achievement of which many men doubtless would be proud. That a slip of a girl could accomplish such a thing is regarded as remarkable, but that is exactly what Miss Irene Hiatt, aged 19, did Monday morning about 10 o'clock, according to reports made to the police station.

Miss Hiatt heard strange noises in the Hiatt residence, 362 West Lee street, Monday morning. Upon investigation she found the negro, Charles Moore, standing on the porch. When she inquired as to the reason for his presence the negro stated that he had stopped at the wrong house. Suspecting that the home had been burglarized, Miss Hiatt called her mother and seized the negro, who sought safety in flight, carrying the young lady with him. She clung to him tenaciously and finally succeeded in securing a watch and a bracelet which she found in the negro's pockets. Frazier Blanchard, postman, arrived at the Hiatt home then and the negro eluded his former captor.

However, the police were notified and Moore was finally captured near the corner of Houston and McGee streets.

The watch and bracelet were identified as property of the Hiatts. A small amount of currency—a few dollars—found on the person of Moore was alleged to have been stolen from the Hiatt home. R. G. Hiatt, Miss Irene's father, was not at home at the time of the burglary, but later after viewing the room in which the negro was alleged to have obtained the articles, he stated that the room had been ransacked.

## Go to the Limit.

Raleigh, Oct. 28.—Replying to a metropolitan newspaper's inquiry as to the best method for President Wilson to put in executing his declared purpose to control, for protection of the public, the impending coal miners' strike, Governor Bickett wired:

"The President has given assurances that means will be found for operating the mines. I assume the President knows exactly what he is talking about, and it is the patriotic duty of every true American citizen to line up behind the President and urge him to put forth all the legal, civil and military power of the nation to stamp out this unholy conspiracy to freeze people to death."

## ANOTHER LARGE MODERN HOTEL TO BE ERECTED

TEN STORY STRUCTURE WITH ROOF GARDEN IS ASSURED FOR GREENSBORO.

Rumors of another large, modern hotel for Greensboro were confirmed Tuesday by announcement from J. P. Sanders that papers of incorporation had been sent to Raleigh, organization of the building and operating company perfected, site secured and the name of the hotel agreed upon. The incorporators are J. P. Sanders and C. C. Hudson, of Greensboro; Thomas Gresham, of Richmond; A. A. Williams and W. E. Hockett, of Charlotte. The site selected and already secured from the Cones is at the corner of West Washington and South Greene streets, with a frontage of 113 feet on Washington and 125 on Greene. The name of the new hotel will be the General Greene, selected as a tribute to the Revolutionary hero who turned the British back at Guilford court house and for whom the city of Greensboro is named. Besides the gentlemen named as incorporators it is stated that several other Greensboro and Charlotte capitalists are interested.

The General Greene will be a 10-story, fireproof structure, of modern construction in every detail, and its completion will give to Greensboro the enviable prestige of offering the best hotel equipment of any city in the South. There will be 250 bedrooms. In addition to the 10 stories providing rooms, an additional story will make provision for an attractive roof garden and promenade.

Plans for the splendid structure, entailing a cost that will run between a quarter million and a million dollars, are now being completed, and it is confidently expected that the work of construction will be under way before January 1. Actual service is predicted by March 1, the plan being that as soon as the concrete for the foundation and first floor is poured the basement, with grills, cafeteria, etc., and the first floor, with main dining room, can be opened. Safe entrance while construction work is underway will be provided by a spacious canopy one of the attractive features of the entrance. Complete meal service will be inaugurated in this manner, while rooms will be provided as each floor is completed. Before the end of next summer it is believed the building will have been completed.

## STATE SOLONS COCKING EARS FOR HOME GOSSIP.

Washington, Oct. 27.—North Carolina congressmen are beginning to cock their ears for news from "back home."

They take fright at every little flurry in the political arena. Most of them realize that youngsters in their districts are restive, and eager to have a hand in law making for the nation.

Three of the Tar Heel congressmen have not announced their purposes to run. They are Representatives Stedman, of the fifth; Robinson, of the seventh, and Doughton, of the eighth district. It is generally understood that they will offer themselves again but it would surprise no one that all of them would quit voluntarily. Many a negro tenant farmer in North Carolina will save more off of a small farm this year than the average congressman makes. It is an interesting fact that the two leading North Carolina delegations in the house constantly fret

to return to the soil and forget the petty worries of Congress. Mr. Doughton is one of the leading farmers of the state. He likes his business. Therefore, his friends doubt if he will become a candidate to succeed himself. Representative Robinson has a good law practice but loves his farm.

Representative Stedman has rounded out a long public service. He may decide to take a rest. No man in Congress has been more faithful to his task. He can stay on if he likes. His mind is not yet made up.

Representatives Small, Kitchin, Brinson, Pou, Godwin and Weaver are planning to come back. Some of them have opposition. Representative Webb will be named judge when the President is able to attend to details of his office.

The Democrats nominated will come to the next Congress. North Carolina will not send any Republicans unless conditions change.

The petty, mean partisan fights conducted here now are hurting the G. O. P. The legislative program is suffering.

## Webb's Nomination Looked For.

Washington, Oct. 28.—The nomination of Representative Webb for judge of the district court of western North Carolina may reach the senate tomorrow. It is ready for the President's signature.

Senator Simonse has asked Secretary Baker to make a final decision on the question of removing the dead bodies of American soldiers from France. This was done at the instance of Attorney General James S. Manning.

Monday, November 3, 1919, at 12 o'clock noon, a tract of land containing about 50 acres, known as the Boone Greeson home place.

H. E. Greeson, Commissioner.

## NEIGHBORHOOD NEWS

### GIBSONVILLE.

Well, well! The little complaint in The Patriot last week, about the road from here to the Nury Summers mill place, up by Friedens, had wonderful effect; because, before it came out in the paper, the main road and the big trucks were unloading crushed rock for a two-surface road, on the worn-out macadam, between here and Friedens. Now was that not wonderful? Another thing is that some timely cleaning of the roads has been very well done. Gibsonville appreciates these favors, or rather duty done; and will gladly pay taxes necessary for improvements.

E. E. Wade has made his house safer and more comfortable by putting on a new roof.

Mrs. M. L. Fogleman, who has been ill, is not so well; but is up and doing part of her work.

There was continued services a short time ago conducted in the M. E. church here. Student Lindley, of Elon College, serves the church as pastor.

The Baptists are holding continued services, in their church here, this week. Rev. Wilson, of Greensboro, is pastor.

Rev. Charlie Story, of Asheville, brother of our neighbor, C. D. Story, while on vacation from his Presbyterian pastorate, preached last Sunday in the M. E. church and in the Baptist church, morning and evening respectively. He made a good impression, and old friends who were boys with him, in days gone by, were out to hear him.

At Friedens, last Sunday, was held a service of interest and appreciation. It was a welcome home service for the returned soldier and soldier boys from Friedens and Shalom Lutheran churches. There were twenty-six stars on both service, but not nearly all were present; because some are off at school, and others are off at work. There were eleven or twelve fine looking, strong, brave boys on front sets of honor, to whom Prof. J. H. Joyner and Rev. Y. Von A. Riser has something interesting to say. A part of the program was touching: (1) when reference was made to how the boys felt when sailing out of New York harbor for France, and (2) when all stood with bowed heads while mention was made of the two heroes who died in France; viz., Roy House and Edmund Cook.

Some of our smaller schools are having a time getting teachers. What do you think is going to be done about it? Can we Guilford County folks, neck and neck with the folks in the race for all noble and worthy things, let children grow in ignorance? It may be the opportunity of the churches and the teachers to do some missionary work. Without the schools, the churches cannot do much in the way of education.

There was visited the Gibsonville school, recently, and went into Miss Wade's room. This lady is an experienced teacher of experience, and is as any in these parts. She has the children busy all the time. They read and sang and wrote and the sounds of letters of the alphabet, though they do not know the name of "A" or "Z." An "L" is "Lullaby" is a kind of grunt, "N" is another kind of a grunt, "C" is "Cee" is "kee" with a broken back. The reader can guess the other things that might be written about such things. But there is one thing: Those children are doing something, love their teacher, and will move up in due time.

### CENTER.

The recent rains have put the farmers very much behind with their fall work.

The common slogan is how is your "rhumatiz" this damp weather, is hitting rather hard in this respect. Quite a number of our young people are away teaching or attending school in different places. Miss Muriel Lowe and Mrs. H. W. Reynolds are teaching the school at Sumner this year. Miss Huhannah Coltrane will teach at Three Forks this winter. Miss Telah Hodgins is with the Meyer's department store. Miss Esther Marley is on the clerical force of Gilmer Brothers.

Miss Ruth Hockett has accepted a position as stenographer with R. C. Bernau Jewelry Company.

Our pastor, Mrs. Hackney, is on a leave of absence to Tennessee for some evangelistic work there. Her place here is being filled temporarily by Rev. S. R. Pickett, of Greensboro. Mr. Pickett is well liked as a preacher by the congregation here.

Now that the clock has been switched back to the Lord's time it is to be hoped that the "tool-killer" will get in his work and let it remain so.

The church at this place has been turned round so that instead of the side fronting the road the end will front the road and a bit of remodeling is to be done inside.

Friends quarterly meeting will be held here Saturday and Sunday, November 8 and 9. Everybody invited.

Our next oldest member, Aunt Catherine Frazier, died October 17, and was buried the following day at Ebenezer. Hers ends a long and faithful life. She had been an invalid for quite a while. She was a life-long member of the Society of Friends.

In the matter of annexation we hope the insiders will allow the outsiders the privilege to go to the polls and vote. That seems to us is about all the privilege they will get.

Mr. C. H. Whitesell and family recently visited relatives in Randleman.

Mr. and Mrs. T. J. Shoffner and children spent Saturday afternoon with Mrs. Shoffner's parents, Mr. and Mrs. J. S. Greson.

### Infant Left on Farmer's Steps.

Lexington, Oct. 28.—Roused by the cries of an infant about 4 o'clock one morning last week, E. A. Miller, who lives near Midway church, between Lexington and Winston-Salem, discovered on his porch an infant apparently about a month old. There is no clue whatever, it is said, as to who the parents of the child are, and it is not known how long it had been on the porch before its presence had been discovered although it is thought it was left on the porch some time between midnight and the time its cries aroused the sleeping family.

## WITH OUR BUSY ADVERTISERS

—Mr. Hagan has several good second hand cream separators for sale. See his notice in the bargain column.

—You should have a little "Mas-cot" on your farm. It will increase your crops and put money in your pockets. See ad. on the fourth page to-day of the American Limestone Company.

—Thacker & Brockmann have an unusually good line of shoes for boys and grown up young men, both for dress and outdoor work. They have one lot carried over from last season that, if you can find your size, they are selling at bargain prices. See ad. on the eighth page to-day.

—The McGlamery Auto Company is selling life insurance in the form of tire chains, which prevents many accidents on slippery roads and pavements. If you haven't a pair give Mr. McGlamery a call at once and let him show you their great advantage. His new ad. will be found on the eighth page.

—The "Imperial" tillage farm implements are second to none, and give universal satisfaction to users. The Imperial "X" series plows are famous for smooth running, light draft and clean-cut furrows. They are designed right and built right. This plow as well as all the other "Imperial" farm implements are sold in Greensboro by the Beall Hardware and Implement Company. Drop in and take a look at them and get prices. You will be pleased with both. See illustrated ad. on the fifth page of to-day's Patriot.

—These cool nights are reminders that you need more covering on your beds. The Burtner Furniture Company has just received a most excellent line of good warm blankets and comforts, to be sold at astonishingly low prices, considering their quality. Mr. Burtner has spent a life time in the furniture business and knows when and how to buy for the advantage of his customers. If you need anything for the home you will find it at Burtner's, and the quality and price is always right. See his new ad. in another part of The Patriot to-day.

—There may or may not be a strike of coal miners Saturday; but there is one thing assured if you sell your tobacco at the Farmers' warehouse you will certainly get the top notch price for it, for Mr. Whitt sees to it personally that every pile is displayed on his well lighted floor to the best advantage, and the buyers are anxious for every pound you can bring them. The averages at yesterday's sale were all good, and farmers were more than pleased with the prices and fair treatment they received at the Farmers'. Take your next load there and get these high prices, which are waiting for you. See a few of yesterday's averages at the Farmers' warehouse in Mr. Whitt's announcement on the third page.

—Store rooms are scarce and hard to get, as well as dwellings, and Mr. N. Lutfy, proprietor of the Guilford Bargain House, has been notified by the owner of the building he is now occupying at 534-536 South Elm street, that he must vacate not later than January 1. Mr. Lutfy finds himself with a large and well selected stock of merchandise with no place to go. So in order to turn over the building as soon as possible he has decided to close out his entire stock and store fixtures at and below cost, and to do this quickly he will begin a big sale tomorrow morning and continue until the last article is disposed of at some price. See his page announcement in another part of The Patriot to-day for details.

## Designed Right! Built Right!

### Imperial Plows For Clean Cut Furrows

Imperial "X" Series Plows are famous for smooth running, light draft and clean-cut furrows. There are solid reasons for this—Imperial Plows are designed right and built right. The post or standard, which is the foundation of the plow, is strong and rigid. It is impossible to spring an Imperial "X" Series Plow out of line. It always runs level and true and when worn parts are replaced the new parts always fit exactly.

The easy upward slope of the share cuts the furrow with the least draft. The long, wide and gradually curving moldboard turns it with the least friction.

The high, perpendicular land-side most effectively resists the pressure of the furrow slice against the moldboard. It holds the plow level and leaves a clean, straight walled furrow. Come in. See these plows. Ask about Imperial Cultivators, Harrows, Disk Harrows, etc.

## LOCAL NEWS IN BRIEF FORM

### MATTERS OF INTEREST TO THE READERS OF THE PATRIOT FAR AND NEAR.

#### Premiums Checks Ready.

Secretary J. L. King, of the Central Carolina Fair Association, announces that the premium checks for exhibitors at the 1919 fair are all ready to be mailed out. He also suggests that all persons with claims against the association present them to him for payment.

#### Brown-Hilton.

A quiet but impressive wedding was solemnized at 6 o'clock Tuesday morning in the White Oak welfare house when Miss Margaret Brown became the bride of C. M. Hilton. Rev. E. Frank Lee, pastor of the Buffalo Presbyterian church, spoke the words that united these two lives. After a bridal trip to Asheville Mr. and Mrs. Hilton will be at home in White Oak.

#### Richardson-Chapin Nuptials.

Among the many autumn weddings none has created a wider interest than that of Miss Janet Lynn Richardson and Chester F. Chapin which took place Tuesday night at 9 o'clock at the home of the bride on Smith street. Owing to recent family bereavement, it was a quiet home wedding and only relatives and a few close friends witnessed the nuptial vows. Dr. Egbert W. Smith, the bride's uncle, and Dr. Charles F. Myers, pastor of both bride and groom, officiated, making of the beautiful Presbyterian ceremony a deeply impressive service.

#### Given Birthday Dinner.

Mr. and Mrs. S. A. Jones, of this place, were given a delightful surprise Sunday when they were given a bounteous dinner in compliment of the 75th anniversary of Mr. Jones and the 72nd of his wife. The feast was spread upon the lawn of their home. Present and giving the big dinner were J. B. Underwood, J. W. Underwood, Frank Bettin, U. B. Paise, Lindsay May, Lewis Jones and Vinton Jones and their families and Frank Waters' family, all of Guilford county. There were 40 kinspeople to partake of the dinner. When the time came for departure it was the mutual regret that the old folks bade their guests goodbye, and best wishes for another such reunion were expressed.

#### James W. Brown Dies.

The remains of James W. Brown, aged 70, whose death occurred at his home in Woodland last Friday, arrived Monday night, accompanied by the following nephews of Mr. Brown: J. P. Parker, J. W. Peele, J. W. W. T. and J. R. Brown, of Woodland, and H. S. Brown, of University. Until about 15 years ago Mr. Brown lived at Guilford College. He then moved to Woodland, where he had lived since that time. His wife preceded him to the grave. A niece, Miss Deborah Brown, teaches in the Pleasant Garden school. Funeral services were held at Guilford College Friends church at 11 o'clock Tuesday morning. Rev. Waldo Woody officiating. Interment was in the church cemetery.

#### Farmer's Neck Broken.

Lexington, Oct. 28.—J. Adam Hedrick, of Thomasville township, was thrown from his buggy and his neck broken.

Tracks indicate that his horse ran out of the highway into a field, thence on toward home, and he was found lying in the road with his neck broken. It is supposed that his horse, which is a spirited animal, became frightened at an automobile, although this is not known to be a fact. Mr. Hedrick was about 65 years of age, and has a number of relatives here and throughout the country.

## BLOCKADE STILL FOUND ON OLD BENBOW FARM.

A blockade still of 20-gallon capacity, which might have had a long and "useful" life if the officers had not chosen to investigate, was found Monday afternoon by Sheriff D. B. Stafford, Deputy Sheriffs John Hobbs, Boatman Clark and Mike Caffey at a point between Guilford Battle Ground and Summerfield. This illicit booze factory was in a thicket on the property known as the old Benbow farm, with a branch conveniently near.

The operators evidently had been warned of the approach of the officers for when the latter arrived not a person was to be found. Ashes under the still disclosed the fact that business-like operations had been planned; in fact, it was believed that one "run" had probably been made. The raiders destroyed about 100 gallons of beer which they found and the still was brought to the city.

## PROFIT-SHARING PLAN IS ADOPTED BY MEYER'S.

Every employee of the Meyer's Department Store Company will be taken into a limited partnership and will receive a share of the profits of the company, according to announcement made Monday night at the O. Henry hotel where all of the employees gathered at a delightful banquet. The announcement was made by W. D. Meyer, president of the company. A portion of the sales will be divided at quarterly intervals among all the employees, regardless of the length of their service, Mr. Meyer stated.

Another important announcement was made by C. L. Weill, who stated that an agreement had been reached with officials of the company whereby life insurance was written for every employee of the company. Those who have been in the service less than five years are named as the insured in policies of \$500 each, while those who have been in the employ of the company five years or more are holders of \$1,000 policies, provided by the company. When the five-year stage of employment is reached those employees' insurance policies will be automatically increased from \$500 to \$1,000, it was stated.

Announcement of the profit-sharing plan by Mr. Meyer was enthusiastically received. The distribution of profits is independent of the salaries of employees, it was pointed out, although the division would be made upon a pro rata basis in accordance with the amount of salary drawn.

Brief talks were made by executives of the company, while singing was a pleasing feature of the evening. Covers were laid for 101.
