JEFFERSON STANDARD HAS GOOD TITLE TO COUNTY LOT

WILL BEGIN WORK SOON ON FIFTEEN STORY OFFICE BUILDING.

The Supreme court of North Carolina having handed down a decision, the result of which will give the Jefferson Standard Life Insurance Company a full and complete title to the old court house lot at the corner of Elm and Market streets. President Julian Price announced last night that work will begin in the early future toward the construction of a 15 story office building on the present site of the old court house.

The cases decided on yesterday by the Supreme court was that of W. P. Bynum et al vs. Guilford county and the Jefferson Standard Life Insurance Company. The plaintiffs sought to prevent the insurance company from erecting a building on the entire lot, asking the court to compel an alley way to be left open in front of the row of office buildings skirting the western edge of the old court house lot. The Superior court, Judge Finley presiding, ruled in favor of the insurance company and his decision was affirmed by the higher court.

It is estimated that the cost of the new office building will total \$1,500,000. The 15 story building will have a frontage of 60 feet on Elm street, with a depth on West Market street of 125 feet. A two story building will also be erected with an Elm street frontage of about 115 feet. The foundation to this building will be made so that additional stories up to the height of the main building can be added when local conditions justify it. C. C. Hartman is architect for the sky scraper.

The ground floor of the building will be used for banking offices and stores, while the other 14 will be equipped for offices. It is stated that work will begin on the tearing down of the old court house building just as soon as the Atlantic Bank and Trust Company moves from the building to its new quarters in the Southern Life and Trust building, the offices formerly occupied by the American Exchange National Bank.

CIVIL TERM SUPERIOR COURT IS MAKING SLOW PROGRESS

RUNNING BEHIND SCHEDULE, WHEELS TURN SLOWLY THIS WEEK.

Guilford Superior court convened Monday morning for the second week of the April civil term, the court beginning Monday with the cases calendered for last Thursday morning. At the conclusion of last week the calendar had been cleared only to the cases set for Wednesday and Thursday's cases were moved up until Monday of this week.

On Monday morning the case of G. W. Hicks, administrator of Lester Hicks vs. the Southern Railway Company was begun. The plaintiff sought to recover \$25,000 for the killing of his son, whose death occurred in early 1920 while young Hicks was walking along the track of the railroad's main line between the fair ground and this city. The case was submitted to the jury Tuesday morning and the verdict returned by the jury awarded the plaintiff no damages.

Tuesday afternoon trial was begun in the case of Miss Sadie Stern vs. A. C. Davis, trustee of the G. C. Ashmore estate. The action involved a gas heater, valued at \$30, and five lawyers appeared for the two parties to the suit. The case came to the Superior court from an appeal from a justice of the peace. Judge Finley dismissed the plaintiff's action on the ground that the justice of the peace had no original jurisdiction. Yesterday afternoon attorneys for Miss Stern filed summons out of the Superior court and the case will begin as a Superior court action.

Most of yesterday's session was consumed in the trial of D. R. Huffine vs. J. W. Bloxton. The plaintiff claimed \$625 rent money alleged to be owing by the defendant. Mr. Bloxton claimed that the amount should have been \$200, which amount he testified had been offered the plaintiff.

The jury returned a verdict last night in favor of the plaintiff for \$625.

This morning the court began trial of the case of W. W. Neal vs. N. C. Railroad Company. Mr. Neal is asking for \$1,000 damages on account of the collision of freight train with his automobile at the West Market street crossing on the morning of February 20, 1920.

STOKESDALE BANK ENTERED AND ROBBED OF SMALL SUM

BURGLARS SMASHED HOLE IN WALL OF BUILDING—ONLY \$200 MISSING.

Burglars entered the Commercial Bank of Stokesdale at an unknown hour Tuesday night and it is believed that \$200 was taken by the thieves. Entrance to the bank was gained by smashing a hole in the side of the wall next to the vault. The hole was eight inches high and 12 inches long, and the belief is entertained that a child assisted the burglars in making the haul. The opening was too small to permit the entrance of a grown person. The burglars failed to get into the vault, the money taken being a small amount not placed in the vault at closing time Tuesday afternoon.

A battering ram was secured from a nearby junk pile and the instrument made an effective tool. It is believed, however, that the job was done by amateurs. Blood hounds from Martinsville, Va., were placed on the trail yesterday morning but the heavy rain interfered with their work.

A. B. Bray, brother of C. A. Bray, of this city, is cashier of the Stokesdale bank.

P. J. PENSON DISAPPEARS, FOUL PLAY SUSPECTED.

P. J. Penson, white man 30 years of age, disappeared last Monday night from his home on Battle Ground road and has not been seen by friends or relatives since. Foul play being suspected, a searching party, headed by Deputy Sheriff George T. Lane, made a thorough inspection of the surrounding country but no trace of the missing man was found.

Mr. Penson was employed at Thacker's Piedmont dairy, sleeping at Mr. Thacker's place except week ends. Last Monday night he left the Thacker home for a nearby store in order that he might telephone his wife, a daughter of I. F. Bennett, a prominent farmer on the Battle Ground road. Since leaving the Thacker place Mr. Penson has not been heard from. He is reported to have been a man of excellent habits, about 30 years of age, low and heavy set in build, and was wearing overalls at the time last seen. Z. V. TAYLOR LEAVES AN ESTATE VALUED AT \$150,000.

Charlotte, April 25.—The American Trust Company was today named as administrator of the estate of the late Zebulon Vance Taylor, president of Southern Public Utilities Company and P. and N. lines. The appointment was made by C. C. Moore, clerk of the court on application of Dr. C. W. Taylor, of Stokesdale, father of Mr. Taylor, Dr. Taylor and Mrs. Edwards, sister of Mr. Taylor, spent to-day in the city conferring with trust officials relative to Mr. Taylor's estate which is estimated in the application filed, with the clerk as approximately \$150,000.

Paul C. Whitlock, trust officer of the American Trust Company, and John Fox, assistant trust officer, have begun an inventory of the estate. They have 90 days under the state law to complete their task. The bulk of the estate is in stocks and bonds, some in the companies in which Mr. Taylor was interested. Mr. Whitlock is of the opinion that the estate may prove considerably more than \$150,000. Mr. Taylor's next of kin are his parents, Dr. and Mrs. Taylor, of Stokesdale, and Mrs. Edwards, a sister.

COLLECTOR J. W. BAILEY CITED TO SHOW CAUSE

HAD LEVIED TAX AGAINST PERSONS WHEN STILL FOUND ON PREMISES.

Judge James E. Boyd, of the United States Federal court, signed an order Tuesday afternoon directing Collector J. W. Bailey, of Raleigh, to appear here in Federal court at 10 o'clock on May 4, 1921, and show cause why he should not be restrained from levying on the property of Thomas Reading, of New Castle, N. C., pending a final hearing of the cause at issue. A similar order was signed in the case of J. M. Ledbetter vs. J. W. Bailey.

The action of these plaintiffs arose over an alleged attempt of the collector to levy on the property of these men in satisfaction of a distiller's revenue tax. It was claimed that the tax had been assessed because a distillery was found on the premises of Reading and also on the property of Ledbetter. The assessment against Mr. Reading was \$2,907 while Mr. Ledbetter was charged with \$3,083.

The petition filed by Mr. Reading asserts that he was notified of the assessment in May, 1920. He claims that he filed affidavit with Collector Bailey in which he denied ownership of the distillery, that if the plant was operated on his premises that it was without his knowledge or consent; that he has never sold, bought or had any dealings with whiskey, and that affiant is a school teacher and is opposed to the illegal sale and manufacture of liquor. The plaintiff also alleges that the Volstead act, by virtue of which the collector is endeavoring to collect a tax, permits such an assessment only after the conviction of the manufacture or permitting the manufacture of whiskey on one's premises. No such conviction, he asserts, has been made. Mr. Reading stated that he received in February a notice from Collector Bailey advising that unless a penal bond was furnished to the amount of the tax, that his property would be seized.

It is reported that several similar cases have been brought to the attention of the court and the outcome of the issue will be awaited with interest.

VOLSTEAD WOULD PUT A BAN ON BEER.

Washington, April 25.—As the first step of the fight in Congress to tighten up the Volstead prohibition enforcement law, a bill designed to prohibit the sale of beer to the sick on a doctor's prescription was introduced in the house to-day by Chairman Volstead, of the judiciary committee.

The measure would not prohibit use of wine for medicinal purposes but would make more specific and stringent the regulations on this subject.

Declaring there was no real necessity for beer as a medicine, Mr. Volstead announced that this bill, described as supplemented to the national prohibition act, was put forward at this time to meet the situation created by the opinion of former Attorney General Palmer that beer and wine, under the Volstead act, could be prescribed for the ailing.

In tentative regulations announced last week by Prohibition Commissioner Kramer, which await approval of David H. Blair, the new commissioner of internal revenue, an arbitrary limit of 4 7-8 gallons of beer and three gallons of wine was fixed as the maximum that might be prescribed by a physician at one time. Mr. Palmer had ruled that the law fixed no limit.

Regardless of what Commissioner Blair may rule, Mr. Volstead indicated that the prohibition forces in the house were prepared to take the beer bill by the horns and let the world know that there will be no beer. The bill will be referred to Mr. Volstead's committee for hearing and report. Members opposed to any modification of the dry law, said tonight it probably would be reported to the house substantially as drawn. There were predictions from many dry quarters that its passage was certain.

NATION-WIDE STRIKE OF 175,000 UNION SEAMEN.

New York, April 25.—Lines tending toward a nation-wide strike May 1 of more than 175,000 unionized marine engineers, firemen and seamen were closely drawn here to-day when the unions refused to consider a new contract, proposed by the owners, carrying wage cuts averaging 25 to 35 per cent.

The engineers, through their national president, William R. Brown, followed their refusal by issuing a strike order effective that date. If the cut is put into effect, the firemen and seamen, through Andrew Furuseth, president of the International Seamen's Union, said their men already had voted on the matter and they, too, would quit work if the wage cut was made effective. Overseas and coastwise American flag ships on the Atlantic, Gulf of Mexico, Pacific will be involved unless the differences are adjusted.

At the close of the conference to-day, it was announced that Admiral Benson, chairman of the United States shipping board, had called a conference of representatives of the owners and the unions Wednesday at Washington. This announcement was made by Darragh Delaney, head of the board's department of industrial relations. It was indicated that federal influence would be used to bring about an agreement and prevent a strike.

Decline to Accept Cut.

The conferences to-day were the culmination of a series of meetings between representatives of the unions and the owners. The engineers last week announced that a wage cut would not be accepted, and to-day the declaration was reiterated. At previous conferences, the firemen and seamen insisted that wage questions be made secondary to enforcement of alleged violations of the LaFollette law, abolishment of the shipping board's sea service bureau, and preference in employment of union men. The answer of the owners to-day was that the LaFollette seamen's law was a federal statute, and the sea service bureau was a governmental agency. It was further stated that his bureau was furnishing American ships with seamen, 80 per cent of whom were American citizens, while the seamen's unions were furnishing a negligible percentage of Americans. Preference in employment of union men was declared to be discrimination against Americans, and the demands were refused.

To Refuse to Work.

As a result of the refusal, Mr. Furuseth and his associates left the meeting, and declared the men would refuse to work after May 1 if the wage reduction was put into effect.

Ships on the Great Lakes and bays, barges and other craft employed in harbor transportation would not be affected by the strike, union leaders said, as they are under separate contracts.

Recent reports of American shipping show that the United States shipping board owns 1,773 ocean-going ships, of 7,790,736 gross tons, the majority in the hands of private owners. In addition, 1,917 ships of 5,225,273 gross tons are owned by private companies. Of these, approximately 50 per cent of the shipping board tonnage and 25 per cent of the privately owned ships already are tied up, due, the owners and operators said, to lack of cargo. American flag passenger vessels which possibly would be affected by a strike include those of the International Mercantile Marine, Hamburg and Antwerp service; the U. S. Mail Steamship Company, and the United

American Lines in the European trade, and all coastwise lines operated on the Atlantic and Pacific coasts, and between cities on the Atlantic and Gulf coasts.

GERMANY IS TO OFFER TWO HUNDRED BILLION INDEMNITY

Berlin, April 25.—The ultimate total indemnity which Germany agrees to pay the allies is 200,000,000,000 gold marks, as against 226,000,000,000 demanded by the allies in their Paris terms.

This is positively stated by those close to the government although the German counter proposals have not been made public here.

Dr. Simons, the foreign secretary, did not present the new proposals to the Reichstag to-day, because of an understanding with the American embassy and for the additional reason that there is a paragraph in the note to President Harding suggesting that he feel free to query back for further information or the elucidation of any point not clear, if he so desires, before submitting the note to the entente.

Proposals Yet Secret.

Consequently, the German press and public, and even the party leaders, have not seen the counter proposals, and their publication is eagerly awaited.

The Germans suggest making the annuities in the payment of the reparations flexible, dependent upon the recovery of German industries. An international loan is suggested, to be floated immediately, to place ready cash at the disposal of the entente, but no sum is named.

Pledges Guarantees.

Germany expresses her willingness to pledge the customs revenues as guarantees, and further offers to deliver manufactured articles to the allies with the understanding that Germany will pay the producers and get credit on the indemnities. Germany also offers immediate participation in the work of restoration in the devastated areas; labor and materials to be supplied by Germany and credited against the indemnities.

No suggestion is made of Germany's willingness to assume the indebtedness of the allied powers to the United States.

Germany's counter proposals are so intricate and involved that the experts who have read them express the opinion that they may be misinterpreted, as the London offer was by persons who did not analyze them carefully and work out the total amount that would have been yielded.

THREE PER CENT DROP IN WHOLESALE PRICES.

Washington, April 26.—A decline of three per cent in wholesale prices during March was announced tonight by the federal reserve board on the basis of index numbers compiled for the purpose of comparison.

On the basis of prices in 1912 indexed as 100, the board said, commodities imported shifted from 113 in February to 114 during March. Prices of exports declined from 235 in February to 125 in March.

The all-commodities index stands at 150 as compared with 154 in February.

Watermelons Instead of Cotton.

Wendell, April 26.—No less than 300 acres of watermelons will be planted in this immediate section this spring. The farmers are going strong on the melon crop with the idea that it will pay better than raising cotton. Practically every farmer is putting in a "patch."

BUSINESS SECTION OF BRAXTON DESTROYED.

Hattiesburg, Miss., April 26.—A tornado hit the town of Braxton at 3.30 o'clock this afternoon and demolished every business house except the bank.

There is no wire connection with Braxton from this point tonight. The report came from Mendenhall, the county seat of Simpson county, in which Braxton is situated, that eight persons were killed and a number injured. The injured are being cared for at a hospital at Dlo, Miss.

Braxton is a town of about 600 inhabitants on the Gulf and Ship Island railroad, 30 miles from Jackson.

Dozen Persons Killed.

Jackson, Miss., April 26.—Reports received here tonight stated that a dozen or more persons were killed and a number injured in a storm which struck the town of Braxton, 18 miles from this city, late to-day.

Every business house in the place was destroyed and many of the residences wrecked or damaged, according to the meager details received here.

Among the dead are:

Dr. J. H. Chandler, T. M. Everett, president of the Bank of Braxton; Mr. Kelley, a farmer; Mr. Kimball, a farmer.

The wind lasted only a few minutes and was followed by a terrific rain which has overflowed the streams in that vicinity. Property damage is estimated at \$100,000.

A party of five took refuge in the bank vault and escaped unhurt, according to reports.

Not Forgotten.

A widower ordered a headstone for his wife's grave. The inscription concluded with: "Lord, she was thine." When it was finished it was found that the stone-cutter did not have room on the stone for the "e" in "thine."—The Drexler.

TRADE MARK

FARM TRACTOR

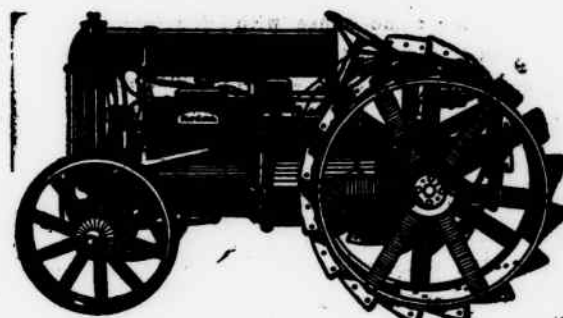

What Henry Ford Says About 'Machine Power Farming':

"In the Tractor the Farmer now has a machine in which is harnessed one of the most adaptable, efficient, economical sources of power in the world—the internal combustion engine.

"The Tractor will multiply the productive capacity of each individual farm worker from three to four times over.

"It will put the farmer on a par with the city manufacturer. It will put his produce-producing factory—for that is what a farm is—on to an efficient production basis.

"It will enable each worker to earn so much more that he can be paid more and still have a greater profit for the man who hires him. It will enable the farmer to work fewer hours in the day, giving him more time to enjoy life. I believe the Tractor will make farming what it ought to be—the most pleasant, the most healthful, the most profitable business on earth."

Have you joined the Farm Bureau yet? Better come in while the joining is good.

A New York man, the father of twelve children, has been arrested for living in the same house with two wives, as if the courts or even a jail might hold any fears for such a spirit.

France has figured it all out and finds that \$600,000,000 must be derived this summer from the tourist trade. A cordial welcome therefore, has been extended to the traveling public of America.

The municipal primary happened without much politics being displayed. Without putting one's ear to the ground, however, it appears that things will liven up a bit before the election next week.

Carolina took a third victory from Virginia in the baseball game played at Chapel Hill Monday. Three straights in a single season ought to put a little humility in some of those F. F. V. boys.

With prevailing prices for tobacco, corn, wheat and cotton below the cost of production, dame nature has come along and wiped out most of the fruit crop. It looks as if there is a general conspiracy against the farmer.

That fellow Volstead has now introduced in Congress a bill that would prohibit the sale of beer to the sick, even on a doctor's prescription. Volstead seems to be in dead earnest on this matter of converting the nation to a Sahara desert.

Dr. Walter Simons, German foreign minister, announces that Germany will make provisions for the reparations due the allies. Lloyd George and Clemenceau have long since made similar announcements but it required many months for the fact to soak into the German brain.

With various counties and individuals of the state offering to furnish from \$5,000.00 to \$15,000.00 for state roads and other developments, it seems that North Carolina is not entirely dependent upon Wall Street financiers. And it is a situation that should be gratifying to every true Tar Heel.

Mrs. Teddy Roosevelt, Jr., has been announced as a possible candidate to succeed her husband in New York general assembly. Young Teddy recently resigned, not to quit politics, far from it, but to accept an appointment from the Harding administration. It looks like the whole Roosevelt family is infected with the habit forming disease of being a "candidate."

A LONG AND TEDIOUS JOURNEY.

Men are often inclined to take a narrow view of their earthly relation. They worry or fret or display an irritable disposition when things go contrary, and about the only thing accomplished is the development of indigestion or neurasthenia. Every human individual is created for a purpose, has some importance in the world, but there has not yet appeared any one man upon whom the world depended for existence. Great men there have been, men of world wide fame, yet the old ball has continued to revolve even after they had "shuffled off life's mortal coil."

When we read of the evolution of

the world during the period of millions of years, when we see in museums the skeletons of mastodons or other animal types which once thrived but are now entirely extinct, when we think of the thousands of years required for the evolution of modern mankind, we are constrained to conclude that the average individual doesn't cut much ice, with apologies for the slang.

This world evolution is a slow process. At times we become impatient, some of us lose our tempers and declare that the whole creation is headed for disaster and ruin. We would expect over-night the achievement of a condition, when perhaps 10,000 years of cultivation has been required to inspire a single individual with even a wish for so lofty an ideal. Every human that has ever lived, all now living, all that may hereafter live, all have had and will have an earthly mission. Mankind is moving toward some grand, triumphant goal. A most casual study of the centuries that have passed must force this conclusion.

It behooves no man, therefore, to wax impatient at the ordained evolutionary pace. Worries will make gray hairs, but they will add no impetus to the whirling of the terrestrial orb or hasten the advancement of the human family. Each cog is an essential element, each has a duty to perform. The performance of duty cancels the obligation, nor is there a further liability upon the individual. When that mission has been performed, regardless of presumed importance or imaginary distinction of the person, the world will continue to move along in its slow yet onward pace toward that glorious end we know not of.

SIGNIFICANT FIGURES.

A report of the savings made in Greensboro banks during the year ending January 1, 1921, showed an increase over the preceding year of \$558,000, while in the entire state the increase of savings deposits amounted to a gain of over \$4,000,000.

These figures do not represent the entire savings of this community or the state at large. Building and Loan Associations, government bonds, war stamps, reliable trust companies and mortgage loans would add innumerable more millions representing safe and sound savings investments.

It is extremely encouraging to realize that people are learning the habit of storing their money in savings banks. Four per cent might be regarded as an arduous route to wealth and independence, yet it is far more certain than gold bricks or wild cat stock. Moreover, 4 per cent is not to be despised, and the habit of systematic saving is within itself worth as much or more than the interest.

In addition to the personal gains, money placed on deposit in reliable banks means for the community development. The banks are the very life of modern business and their relation to community progress is vital. Money hid under a hearth stone or tucked away in a stocking is absolutely idle. Deposited in a reliable savings bank it will earn for the depositor and its continued circulation will prevent a money shortage. The recent report would indicate that many people are getting away from the hoarding habit and it is a healthy, encouraging sign.

TEXTILE UNION HEADS START FOR CAROLINA.

New York, April 26—Vested with full power to act, three general officers of the United Textile Workers of America will leave tomorrow for North Carolina and Tennessee, where textile unions are said to be preparing to resist proposed wage reductions.

John Golden, president, and Thomas McMahon and Frank McKoskey, vice presidents, were selected to make the trip at a meeting here of the emergency committee of the organization. Mr. Golden announced they would immediately call meetings of the local unions in the states to get the sentiment of approximately 20,000 workers.

DEMANDS 1,000,000,000 MARKS BY NEXT SATURDAY.

Paris, April 26.—The allied reparations commission to-day sent a note to the German war burdens commission demanding that 1,000,000,000 gold marks be deposited in the Bank of France on or before April 30.

The note, after reciting the results of the previous demand and Germany's failure to transfer the Reichsbank gold reserve to the Rhineland, concludes:

"In view of the attitude the German government has seen fit to adopt in the matter and in view of its failure to fulfill the obligations arising from article 235, the reparations commission is obliged to exercise the powers conferred upon it by the treaty and to demand that 1,000,000,000 marks in gold be placed at the disposal of the reparations commission in the vaults of the Bank of France on or before April 30.

"The reparations commission does not consider it necessary to discuss at this juncture the relations of the commonwealth government with the Reichsbank, since it is assured that the commonwealth government has in any case the means of complying with the demands of the reparations commission if it wishes to employ them."

Representative Kelly to Speak Here.

Washington, April 25—Representative M. Clyde Kelly, of Pennsylvania, has promised President Foust, of the State College for Women, to deliver the commencement address June 7. Mr. Kelly is an independent Republican who is well liked by the Democrats. He makes a good speech and will be a real attraction. Dr. Foust, who was here to-day, is delighted to have him.

IMPORTANT MEETING OF THE FARMERS OF GUILFORD.

Since our county commissioners have practically denied our request for a thirty-three and one-third per cent horizontal cut on all real estate in Guilford county, our next chance is to carry our individual complaints to them and if they turn us down we shall still have the right of appeal to the state tax commission.

I therefore call on all the farmers to meet in the court house at Greensboro Monday, May 2, and in mass there we will formulate plans to have this matter settled in a more satisfactory way.

Since a very large per cent of the counties of the state have lowered the value of the real estate in the respective counties it would be nothing short of a calamity for Guilford to leave the present values as they are.

If the next legislature was to levy an ad valorem tax we would be paying much more of the state tax than the counties lowered.

Very respectfully,
C. T. WEATHERLY.

TRAIN PLUNGS THROUGH BUILDING AT TERRIFIC SPEED.

Corning, N. Y., April 25.—The railway station at Corning, N. Y., a short distance from here, was completely demolished early to-day when a fast Erie railroad passenger train from Cleveland to New York crashed through it. Only one man, John J. Delaney, a baggage man, of Buffalo, was injured.

A spreading rail was believed to have caused the wreck, which ditched six cars containing 75 passengers.

After tearing through the station the cars piled themselves against an embankment, all standing upright. This is believed to have prevented loss of life and serious injury. The train was said to be running more than sixty miles an hour at the time it left the track.

HIS COMRADES MISS HIM AT THE FAREWELL MEETING

Chicago, April 25.—The farewell meeting of the I. W. W. comrades was a doleful event to-day. "Big" Bill Haywood had been scheduled for an inspiring speech, but his farewell was said under other circumstances.

One orator cheered them up a bit when he shouted "that he would rather be in the penitentiary with good I. W. W. than in Chicago with poor wage slaves." In the penitentiary we'll have no wage system to fight, no high cost of living to contend with, no capitalists to oppose. We'll be good I. W. W. together.

Forty-six members of the organization are scheduled to report at the Leavenworth penitentiary or to federal officials in various parts of the country tomorrow.

Major Stedman Protests Delay in Mails.

Washington, April 25.—Representative Stedman protested to the postoffice department to-day against the delay in moving the Reidsville mail. It is said that letters posted at Reidsville at night are not carried out of town until the next morning. Mr. Stedman told the postal authorities this system was causing great inconvenience to business men.

BYNUM STOCK APPEARS
TO BE GOING STRONG.

Washington, April 25.—With a profound quiet existing so far as the outside of the same goes, there is still an undercurrent of rumor concerning the selection of the late Judge Pritchard as judge of the fourth circuit of the court of appeals. Though there has been much blowing of horns concerning the candidacy of Judge Edmund Wadsworth of Virginia for the position and though there has been a report that Judge Ashley M. Gould, of the District of Columbia Supreme court, has the ear of President Harding in his candidacy, there comes from one of the astute politicians at the capital a tip that the stock of Judge William P. Bynum is looking for and that in his opinion, as well as in that of numbers with whom he has talked, there appears to be even better than an even break in Judge Bynum's favor.

"Take it from me," said a prominent Washingtonian, "the outlook as I see it is that Judge Bynum will land the position, provided North Carolina gets solidly behind him and in this case I refer to the Republicans of North Carolina."

Figures It Out.

Here is how he figures out the matter:

"The selection of David H. Blair, of North Carolina as commissioner of internal revenue came about by the process of elimination and the fight that came on between the supporters of the other candidates. I learn that there is the same sort of a fight on now among the candidates from other states besides North Carolina and I believe they will eat each other up, and leave the plum for Judge Bynum. Just watch the game as it goes along and you will see that I have not missed it." And then he gave me a significant wink, and walked away saying:

"I am betting on Judge Bynum."

Endorses Judge Connor.

There has come to Washington a remarkable tribute to the even-handed justice handed out by Judge Henry Groves Connor, of the eastern district court of North Carolina. Charles N. Hunter, of Raleigh, editor of the Raleigh Independent, a negro weekly, has written to Congressman Charles M. Stedman enclosing a letter to be delivered to President Harding endorsing Judge Connor, a Democrat of Democrats, for the position on the bench of the circuit court of appeals. His letter addressed to President Harding reads:

"Permit me to add my hearty endorsement to the proposal of the name of His Honor, H. G. Connor, of North Carolina, for your consideration for the vacancy on the bench caused by the death of the late Judge Pritchard."

"Judge Connor is a distinguished citizen of this state. He is a man of high attainments, a learned jurist, a just judge, an upright Christian citizen, and his elevation would do far toward strengthening the judiciary in the respect and confidence of our people of all classes, races and parties."

"I am a negro Republican. I have always voted the Republican ticket. In the appointment of judges of our courts, however, I am fully convinced that men so appointed should be eminent, not for their partisanship, but for their fitness, their learning, their high sense of justice."

"This endorsement, I am sure, will meet the hearty concurrence of the great body of the negro citizens of North Carolina, as well as all other not directly interested."

"I have no personal acquaintance with Judge Connor, never having met or spoken to him personally. I am moved by a desire and hope that this appointment may secure one of the best and purest judges in North Carolina."

"I have no personal acquaintance with Judge Connor, never having met or spoken to him personally. I am moved by a desire and hope that this appointment may secure one of the best and purest judges in North Carolina."

There has come to Washington a remarkable tribute to the even-handed justice handed out by Judge Henry Groves Connor, of the eastern district court of North Carolina. Charles N. Hunter, of Raleigh, editor of the Raleigh Independent, a negro weekly, has written to Congressman Charles M. Stedman enclosing a letter to be delivered to President Harding endorsing Judge Connor, a Democrat of Democrats, for the position on the bench of the circuit court of appeals. His letter addressed to President Harding reads:

"Permit me to add my hearty endorsement to the proposal of the name of His Honor, H. G. Connor, of North Carolina, for your consideration for the vacancy on the bench caused by the death of the late Judge Pritchard."

"Judge Connor is a distinguished citizen of this state. He is a man of high attainments, a learned jurist, a just judge, an upright Christian citizen, and his elevation would do far toward strengthening the judiciary in the respect and confidence of our people of all classes, races and parties."

"I am a negro Republican. I have always voted the Republican ticket. In the appointment of judges of our courts, however, I am fully convinced that men so appointed should be eminent, not for their partisanship, but for their fitness, their learning, their high sense of justice."

LINNEY WILL BE NOMINATED
FOR DISTRICT ATTORNEY.

Washington, April 25.—Frank A. Linney will be nominated for district attorney in the face of opposition from the National Association for the Advancement of the Colored Race, and regardless of his aspirations to succeed Judge Jeter C. Pritchard.

The nomination will be sent in within the next week or ten days. It would have been made earlier had it not been for the protests of the negroes who charged him with conspiring to deprive them of their rights at the ballot box last fall. The attorney general and the President desired to give the colored people an opportunity to be heard.

The Linney boom for the circuit judgeship was scotched by some powerful Republican in North Carolina, who took a hand in the contest last week, but no one in the state outside of the negro organizations that made complaint opposed his appointment to the district attorneyship. That part of the Morehead-Linney slate will go through without a hitch unless something unlooked for now bobs up to stop the wheels of the patronage mill.

It was said at the department of justice and the White House to-day that the "Morehead" and the "Butler" factions were united on Linney. This declaration is significant in that it shows a recognition of two groups in the state. It gives Marion Butler a standing some observers here claimed he did not have. This makes a more interesting situation for the state. It indicates that unless the "Morehead" and "Butler" Republicans are united recommendations will be held up and nominations delayed. Mr. Butler is opposed to some of the Morehead-Linney slate, and will say so when the time comes.

Slightly Mixed.

IT DOES NOT PAY TO VULCANIZE YOUR TIRES if you take them to inexperienced shops to have the work done, where they use cheap repair materials that cannot stand up under the hard road wear and soon blow out; where they do not know how to do a good piece of work even if they did use good material. You cannot afford to have your tires experimented with, so bring them to us in the first place and let us show you the difference in the work. We use the best repair material that we can buy; we have twelve years experience back of every piece of work we turn out, and we have the best equipped Vulcanizing Shop in the State.

Cheap Fertilizer

GREENSBORO, N. C., April 1, 1921.

The American Agricultural Chemical Co., Greensboro, N. C.

Dear Mr. Norvell:—I am enclosing herewith orders for several car loads of Fertilizer to be shipped to some of my various tenants, which please get out at your earliest convenience.

I have been quoted much lower prices than yours by several companies, but I believe that this is a year that we cannot afford to take any chances on cheap Fertilizer, so I am putting my faith in Zell's, although my Fertilizer will cost me more money than I can buy elsewhere. I know what Zell's is and am afraid to take a chance for a few dollars difference in price.

Yours Truly,

PITABLE CASES AT THE CRITTENTON HOME.

Raleigh, April 26.—An unusually large number of girls are going wrong, declares Miss Elizabeth Biggs, field secretary of the Florence Crittenton Homes. Miss Biggs says whether it is the aftermath of the war or some other cause there is no getting around the fact that many girls are falling. She told of a moderate-sized town in North Carolina where she was told that there were nine girls to go to an institution of some sort if they were to have even a chance to be saved from lives of shame. She sees a tremendous need for preventive steps. But her immediate problem is caring for the girls who are knocking at the door of the Florence Crittenton home in Charlotte. She tells of pitiable cases—"maddening" was the word she used.

"Do you know?" she asked, miming no words, "that we have four little girls now, little mothers, or expected mothers who are under fourteen years of age. Think of that! Two of these girls are sisters, no father or mother. They lived with an old grandmother and uncle twenty-one years of age. He is the father of their two babies who are six weeks apart. We have one girl, nineteen years old, who cannot read or write, with a baby; two feeble-minded girls, with feeble-minded babies; one girl, not fourteen years old, whose own brother-in-law was the cause of her downfall."

"I was asked last week if the home could take a fifteen-year-old girl, whose own blood father was the father of her two-weeks-old baby. These things are not pleasant to talk of, but these conditions exist and demand attention. It is North Carolina's own problem and must be solved and met by North Carolinians."

"Virginia has raised \$150,000 for its Crittenton work, and is being backed by the state board of health. South Carolina is raising \$45,000; North Dakota, \$50,000. What will the Old North State do for its Florence Crittenton Home and work? About five years ago we added twenty rooms to the house; there are times now when we cannot take one girl because we have no room. Our family to-day numbers 32 girls and 18 babies. We have been in existence sixteen years in North Carolina and helped over 800 girls and over 700 babies born there. We could have helped three times that many, if we had had the equipment and money. We could use \$50,000 for equipment and maintenance this year. Remember, this home only takes first offenders."

"Among some of the most urgent needs at the institution are a maternity room and equipment; \$1,800 will furnish it. They also need beds, sheets, towels, cribs and, in fact,

everything a large family needs, and a few acres of land. Charlotte must soon build more rooms, and our land has given out. In fact, we have outgrown our plant."

Many are not giving to this work. We often wonder why. Hundreds of thousands of dollars have been freely and cheerfully given by the people of North Carolina, but last year, our biggest year, financially, North Carolina Florence Crittenton Home only had \$10,213 to work with. Can any one recall any more urgent or more worthy cause?"

Miss Biggs is a representative of the national organization. Before coming to North Carolina she had travelled all over South Carolina in the interest of the home in that state. Before going to South Carolina she had been working in New York state. Prior to that time she had been in North Dakota engaged in the same work. There are eighty-two of the Florence Crittenton homes in the United States. She keeps steadily at work soliciting subscriptions for the salvation of erring young women.

NOTHING YET HEARD OF MISSING NEWTON MERCHANT

Newton, April 26.—The strange disappearance of L. C. Bickett, prominent wholesale merchant here, has cast a pall of gloom over Newton and not for years has the town been so stirred up. Former Governor T. W. Bickett, of Raleigh, was here last week to investigate the matter and get his business affairs in such shape as they could be handled by an outside party.

Mr. Bickett was a man of lovable disposition and was universally liked here. He is married but has no children and it is generally known that his home life has been beautiful and that true hospitality was administered there as in the old days. His residence is one of the most beautiful in the city.

There is no doubt in the mind of those acquainted with Mr. Bickett that he was mentally deranged when he left the city and they believe that he is wandering around somewhere suffering from the pains that are racking his body.

The financial condition of his business is not causing any great alarm, as his condition in that respect is considered as good as the usual run of dealers in North Carolina, who have recently lost heavily in the general depression of the market.

John P. Yount has been named receiver by Judge Fraley and is now engaged in operating the business.

Mr. Bickett lived here for several years, coming here from Monroe to engage in the wholesale grocery business. He had varying success in that enterprise and had just recently opened up a retail business as a side line and was rapidly succeeding in getting it on its feet.

He was an indefatigable worker, at his place of business for 16 hours every day, always pleasant, and affable and friendly.

When sugar slumped, he was one of the wholesalers caught in the drag net of the jobbers, but he carried out his contracts though it cost him money and the general depression placed a terrific strain upon him.

He suffered acutely with his eyes and has frequently remarked to friends that he had to find some cure or that he would die. He consulted specialists in Charlotte and other cities with indifferent success. He took his affliction in the best of spirits and always thought of his home life and his friends in preference to his personal feelings.

Unconvinced.

West—"Well, mine is quite a trial, but I can't say I believe in it especially."—The American Legion Weekly.

CONGRESS WILL END WAR—SOON BY RESOLUTION.

Washington, April 25.—Progress on the initial administration peace policy—to end the state of war by resolution of Congress—was made to-day in both branches of Congress.

In the senate the Knox peace resolution, revised in minor detail, was reported favorably by the foreign relations committee, and announcement was made by Senator Lodge, of Massachusetts, Republican leader, that it would be called up tomorrow.

Resolution in House. Two similar resolutions, dealing separately with Germany and Austria, were introduced in the house by Chairman Porter, of the foreign affairs committee, who announced that they would not be taken up until after the senate acts on the Knox measure.

Although the senate is to begin formal consideration tomorrow of the Knox resolution, it was not certain tonight that actual debate would start before Wednesday. Neither Senator Knox, of Pennsylvania, author of the resolution, nor other Republican leaders contemplated debating the measure tomorrow and Democrats also were not ready to begin discussions.

Democrats Meet To-day. An informal conference tomorrow between Senator Underwood, of Alabama, Democratic leader, and minority members of the foreign relations committee with a few other prominent Democratic senators was planned to discuss a course of procedure. Senator Underwood said he expected Democratic action would be similar to that with regard to the first Knox resolution, which was vetoed by Former President Wilson. The resolution was at that time opposed by a majority of the Democrats, but supported by a number.

That senate debate would ensue only a few days was predicted by both Republican and Democratic leaders. A final vote late this week was regarded as possible.

A. C. L. FLYER AND BOAT NECK AND NECK.

Miami, Fla., April 25.—Gar Wood, driving the speed boat Gar II, Jr. and the Havana special, Atlantic Coast Line flyer, were racing neck and neck tonight, with Wood leading by about eleven minutes, according to a telegram to the Miami Herald tonight from C. F. Chapman, editor of Motor Boating, who is accompanying Wood on the dash to New York.

Wood passed Jacksonville at 1 P. M. to-day, the telegram said, and arrived at Fernandina, Fla., to refuel at 1.45 P. M.

At sundown he had reached Savannah. Rough weather was encountered and the loss of a log line, bit off by a huge fish, forced the boat to hug the shore after passing Jacksonville. Chapman's wire said.

SENATE PASSES BUDGET BILL; NO RECORD VOTE.

Washington, April 26.—Without a record vote, the senate late to-day passed the budget bill.

Brief debate preceded the final vote on the measure, which was introduced originally by Senator McCormick, Republican, Illinois, passed by both the senate and house during the 66th Congress, vetoed by President Wilson and then repassed by the house with the section found objectionable by the executive stricken out. The senate, however, failed to act on the measure after the President's veto.

The measure as passed to-day now goes to the house, where prompt action has been promised.

The bill provides for a bureau of the budget in the treasury department to prepare the estimate of appropriations needed by the various departments. The bureau would have as its head a director of the budget, appointed by the President with the consent of the senate for a term of seven years with an annual salary of \$10,000.

The offices of comptroller and assistant comptroller of the treasury would be abolished under the revised bill and in their stead offices of comptroller general and assistant comptroller general would be created. The measure approved to-day by the senate would permit their removal by joint congressional resolution, which requires the President's signature.

Intimidation.

Sometimes we think that the threat of these splendid women reformers to take away our tobacco is just intended to make us forget the greater issues and wear our rubbers meekly during the spring rains season.—Grand Rapids Press.

Rob Girl of \$1,500 in Street. Cleveland, April 26.—Two armed bandits snatched a handbag containing \$1,500 from Miss Margaret Talbot, restaurant cashier, as she was entering a bank in a crowded section of Euclid avenue to deposit the money this morning and escaped. One of the robbers knocked Miss Talbot down and then grabbed the bag.

Price \$3.50 per bushel. \$1.00 per peck. J. E. Latham Company, Greensboro, N. C.
