POLICEMAN SHOT DOWN IN HEART OF THE CITY

OFFICER M'CUISTON KILLED WHILE IN THE DISCHARGE OF HIS DUTY

A THRILLING CHASE FOLLOWS TO APPREHEND THE MURDERER AND HIS ACCOMPLICES—OVERTAKEN ON THE BATTLE GROUND—SUMMERFIELD ROAD—TOM ROBERTSON SHOT AND KILLED, LEWIS EDWARDS CAPTURED AND EDDIE PAXTON ESCAPES IN THE DENSE WOODS—THE CITIZENS WERE AROUSED AND INDIGNANT AND SCORES IN AUTOS JOIN IN THE EXCITING CHASE.

Policeman W. Thomas McCuiston, a veteran member of the Greensboro force, was shot and instantly killed yesterday afternoon about 5.15 o'clock as he attempted to board a Dodge automobile which the police had been informed was a whiskey runner. Immediately following the murder of Mr. McCuiston one of the most thrilling chases and running fights in which local officers have participated in many years took place on the road between this city and Reidsville, resulting in the death of Tom D. Robertson, of Spray, and the capture of Lewis Edwards, who claims to be a son of Policeman W. S. Edwards, of Danville. Eddie Paxton, a third occupant of the death car, has so far eluded the officers but the search for him continues.

Policemen McCuiston and Oakes were on East Washington street, between Davis and Forbis, when the car for which they had been searching as a liquor suspect showed up. It was going at a slow pace and McCuiston attempted to step on the running board, directing the driver to halt. One of the men in the car placed a pistol at the chest of the officer, fired upon him and he rolled to the street, death following instantly. It is reported that 96 quarts of whiskey were found in the automobile.

The Chase Begins.

Within a few moments afterward Policemen Oakes joined behind the fleeing car. Around Forbis, through Frisco and toward the Battle Ground he followed. The news quickly spread through the city and within a short while other members of the police force, Sheriff Stafford and his deputies, together with private citizens who were incensed at the outrage, joined in the hunt, and the road was filled with automobiles or swift moving motor-cycles. A few of the pursuers, suspecting that an attempt would be made to reach Reidsville via Summerfield, headed for Reidsville along the Brown Summit road, expecting to beat the men to that point. Others followed along the Battle Ground road. As the fleeing Dodge reached the Guilford Battle Ground, the driver swerved into the road a short distance east of the station. Officer Oakes failed to take the turn but continued onward to Summerfield. Others following closely behind, however, were directed to the new road. The Dodge had suffered tire trouble and the men had just completed the job of making repairs when Officers Southern and Rankin came up. Robertson, the driver of the car, sped on through the Battle Ground arch and headed for Summerfield, while the two other men remained behind to battle with the officers. They quickly separated in the surrounding woods, a few shots being exchanged at long range by each side. Sheriff Stafford and other possemen arrived on the scene about this time and a skirmish line was quickly formed. About 6.30 o'clock Sheriff Stafford and Deputy Brown spied the two men, widely separated, along the creek bank near Jessup's

farm. Edwards took a stand behind a tree, as if determined to fight it out, but Brown circumvented him by detouring and getting the drop on the object of his quest before Edwards realized it. He gave up when Brown called for "hands up." The other man, later said by Edwards to be Paxton, escaped but the officers have continued the search for him throughout last night and the early morning.

Robertson Shot to Death.

Officers Oakes realized at Summerfield that he had missed the trail, so he stopped to replenish his gasoline supply and await developments. Within a short time the Dodge sped through Summerfield at a high speed. Other officers came up and the race led onward over the slippery roads of Rockingham county. At a point about three or four miles this side of Reidsville the driver cut into a farm yard, evidently intending to back across the road and cause a collision among the cars of possemen, but the officers were too close behind for this to have been accomplished. The officers swooped upon him and when he made as if to offer resistance, having refused to surrender, he was shot down and died within a few moments. The body was conveyed to Reidsville and turned over to officers of that city to await burial. Robertson was said to have been the son of Dave Robertson, of Spray. He was a young man of about 21 years of age.

Edwards Lodged in Jail.

Lewis Edwards refused to divulge any information when he was first lodged in jail at Greensboro. He claimed that his name was Dave Jones and that the other man with him in the woods was his cousin, Frank Jones, and that both of them were from Norfolk. When informed of Robertson's death, he became more communicative and stated that his name was Lewis Edwards, that he was a son of Policeman W. S. Edwards, of Danville, and that he himself was a former member of the Danville fire department. He bore the appearance of a "bad man."

City Aroused.

Greensboro was deeply aroused over the tragedy and groups of men congregated around police headquarters and the undertaking parlors of Poole & Blue, where the body of Mr. McCuiston lay, until a late hour last night. The veteran member of the force was one of the most popular members of the force and McCuiston was held in the highest esteem by thousands of friends in the city. It was feared that trouble might follow if the men were captured and returned to this city. Edwards was spirited into the county jail through a side door by Sheriff Stafford and a close watch was kept during the night for any eventualities.

Arrangements for the funeral of the dead officer have not been completed but it is expected that the service will be held tomorrow at Reidsville and that burial

CARL TALLEY, ALLEGED THIRD MEMBER OF GANG, CAUGHT

REPORTED TO HAVE BEEN CAPTURED BY LEAKSVILLE OFFICERS THIS MORNING.

Carl Talley, alias Eddie Paxton, alleged third member of the gang of desperadoes implicated in the murder of Policeman W. T. McCuiston, was captured this morning near Leaksville, according to a message from the chief of police of that place. Officers were immediately sent to Leaksville to identify and return the prisoner to this city.

Lewis Edwards, who was captured in the woods near the Battle Ground late yesterday afternoon, acknowledged this morning to Sheriff D. B. Stafford that the proper name of the third man was Carl Talley, instead of Paxton, as he had stated following his arrest yesterday evening. The officers of Spray and Leaksville were immediately notified to be on the lookout and within half an hour word was received that the man had been placed under arrest.

Talley, Lewis and Robertson were all well known to local officers as notorious liquor dealers. For several months the officers had been on the trail of the three men. They were known to be of desperate character, and in fact, Talley is reported to have sent word to members of the local police force that he would shoot the first man attempting to place him under arrest.

Policeman Ernest Boyles, who captured a cargo of whiskey belonging to the trio several months ago, was said to have been the object of their wrath, and it is reported that one of the men had boasted of the intention to kill him at the first opportunity.

Talley formerly resided at White Oak, having recently moved to Leaksville-Spray. The three men were well known to the officers of that community. Edwards was characterized by the police of Leaksville-Spray as being one of the worst criminals in North Carolina or Virginia, while Robertson is reported to have been under a bond at present for his appearance in Rockingham county on a charge of shooting an officer of that county.

Sheriff Stafford and the posse of officers and citizens searching last night for the third member of the gang, returned from the Battle Ground section this morning after spending the entire night in a futile search. Citizens of the Battle Ground community joined in the search but no trace of the man was found. Talley is said to have been well familiar with that section of the country, having many friends in the community, and it is believed that some friend conveyed him to his home.

WILL IMPROVE HITTING LOT ON SYCAMORE STREET.

The county commissioners on Tuesday morning adopted recommendations made by J. G. Foushee, who had been appointed as a committee of one to investigate, relative to improvements on the Sycamore street hitting lot maintained by the county for the use of farmers. A fence will be constructed around the entire lot, a rest room will be erected and other features will be added for the comfort and convenience of the citizens.

Committees from the Merchants' Association and the Chamber of Commerce appeared before the board and promised that they would assist in maintaining the hitting lot in a better condition. The hitting lot at the corner of Gaston and Greene streets, together with the old jail site, will probably be sold in the near future, and it was argued that the county should provide a suitable place for the farmers to hitch their teams and to make headquarters. It is expected that the city will also assist in the enterprise.

will follow in the church grave yard. Mr. McCuiston is survived by his widow, two children, Miss Lucille and Ralph McCuiston; three brothers, John, of Wallburg; Joe, of Jettersville, and Charles F. McCuiston, of this county.

FRANK A. BROOKS LEAD IN THE CITY ELECTION

KISER, GRIMSLEY, WHITE, MENDENHALL, HIATT AND PRICE WERE ALSO ELECTED.

In the election held Tuesday for the purpose of selecting the seven men that will constitute the council board for the city of Greensboro, Frank A. Brooks lead the race with a total of 2,001 votes. Other successful candidates and the order of their ranking were as follows: Claude Kiser, 1,907; George A. Grimsley, 1,800; David White, 1,286; E. J. Mendenhall, 1,075; R. G. Hiatt, 1,071 and Julian Price, 1,057. Seven other candidates were in the race, having survived the primary. These seven were R. D. Douglas, C. A. Hendrix, E. E. Bain, W. Y. Prayor, A. C. Davis, John R. Cutchin, T. D. Dupuy.

The council board will assume office on May 10 and the city manager plan of government will begin to function in Greensboro. No member of the present board of commissioners was a candidate for the council.

The vote of Tuesday showed decided variations in the strength of various candidates as displayed in the primary. In the initial contest Mr. Grimsley led the contest with a margin of over 200 votes. R. D. Douglas one of the defeated candidates, was among the first seven in the primary, while E. J. Mendenhall, who came out fifth in Tuesday's election, was not among the first seven in the primary.

A total of 2,357 votes were cast Tuesday. A drizzling, chilling rain kept a number of persons from attending the polls but considering the unfavorable elements, the vote was considered a large one. Interest reached a higher stage than at any city election in Greensboro since the first campaign following the adoption of the commission plan of government. The election was held without any disorders and without evidences of any bitterness on the part of the candidates or their workers. The polls were thronged throughout the day with friends of the different aspirants and there was a generous supply of cards soliciting the support of various aspirants to be had, even without the asking.

All of the men selected Tuesday stand high in the community and it is considered that the city has made a good choice. Three of the councilmen will be from South Greensboro, while the other four reside north of the railroad.

FARMERS' UNION WILL CARRY VALUATION FIGHT TO RALEIGH

COMMISSIONERS DECLINED TO GRANT PLAT REDUCTION OF 33 1-3 PER CENT.

In a resolution unanimously adopted by the county commissioners Monday afternoon the board wiped its hands of any further negotiations with the Farmers' Union representatives relative to the request recently made for a reduction of taxable valuations on farm property. The delegation had stated that it would accept nothing less than a full concession of its demand for a reduction of 33 1-3 per cent and the commissioners declared that such action would be unwise and unsound. The law provides that appeal may be made from the ruling of the county board to the state tax commission and Farmers' Union representatives have signified their intention of carrying the fight to the higher tribunal. C. T. Weatherly, president of the Guilford branch of the union, has led the fight for a reduction amounting to one-third of present valuations and it is understood that a fund is being raised to secure able counsel to represent the cause of the farmers. It is announced that a mass meeting will be held at the court house on the first Monday in June and at that time definite steps will be made toward perfecting an appeal to the state commission.

Members of the county board had heretofore intimated a willingness of reducing the tax valuations on farm property as much as 10 per cent. Chairman W. C. Tucker stated yesterday, however, that the board considered that it would be unfair to grant the request of the farm owners and inasmuch as the delegation had stated that it would have all or nothing, that the board considered it best for the state commission to pass on the question.

The resolutions adopted by the board were as follows:

"The board after considering the application to reopen the question of a revaluation of the real estate of the county and to make a recommendation to the state tax commission for a reduction of value of all real estate in the county determined that while it was the idea of some members of the board when the matter of this valuation was first before the board of review that there should be a reduction of 10 per cent and that they favored this course until yesterday when it was announced by the delegation before them that it was their purpose not to accept any reduction less than 33 1-3 per cent and that said delegation had determined if a less reduction should be recommended to carry the matter to the state tax commission. It is now the unanimous opinion of the board that the matter should be left entirely to the state tax commission and that no further action be had by this board."

W. H. JOHNSON DISAPPEARS IN A MYSTERIOUS MANNER.

Wade H. Johnson, of 424 Church street, disappeared Monday and since that time no trace has been found of his whereabouts.

The Johnson case is the second mysterious affair occurring in the county during the past two weeks. Mr. P. J. Penson, of the Battle Ground road, having disappeared last Monday a week ago, returning Sunday morning and stating that he had been doped by a gang of men and detained in a barn.

Mr. Johnson is 25 years of age and is employed by the Imperial Insurance Company. He is a son-in-law of W. W. Brady, and with his wife had resided at the Brady home. No reason is known to account for young Johnson having left home intentionally and it is feared that he may have suffered a fate similar to that experienced by Mr. Penson.

Funeral of Mary Paris.

Funeral services were conducted for Mary L. Paris, aged five years, at the home of her parents, W. M. Paris, 305 West Washington street, Monday afternoon at 6.45 o'clock. Rev. W. C. Wicker, of Elon College, and Rev. C. E. Hodgins, officiating.

The body was taken to Belev's Creek, Forsyth county, Tuesday morning for interment.

Whitted. Following this meeting they will march in a body to the scene where the exercises are to be held. After the program has been completed the wearers of the gray will be conveyed in automobiles to Greene Hill cemetery, where flowers will be laid on the graves of their departed comrades.

W. F. Clegg will have charge of the dinner served to the veterans and "Bill" Clegg's foods are always a feature of any program. THE TEXTILE WORKERS MAY GO ON STRIKE.

Knoxville, Tenn., May 3.—A general strike of textile mills workers, involving approximately 150,000 employees of textile plants in Tennessee, North and South Carolina, Georgia and elsewhere may be called, tying up the textile industry of the southeast, provided mill owners insist on making effective wage reductions varying from 20 to 60 per cent was announced here to-day by officials of the International Textile Workers' Union of America.

John Golden, president, and Frank McKosky, vice president of the international union, are in Knoxville endeavoring to settle the wage controversy between the employees and officials of the Brookside mills, where 1,500 employees quit work three weeks ago rather than accept a 22 1-2 per cent wage reduction.

During a conference between the union officials and representatives of the mills this afternoon both sides remained firm and when the conference was concluded the controversy was reported far from settlement.

The union officials say the workers will not resume their posts unless the management of the mills rescind the orders for the last 22 1/2 per cent reduction. Representatives of the mills say the plant cannot operate and pay the wages that prevailed previous to the announcement of the reduction.

Vice President McMahon is now at Charlotte and he has advised the local officials that a meeting of representatives of 45 local unions was held in North Carolina. The workers voted unanimously to strike rather than accept wage reductions. It was stated tonight that the strike may be called tomorrow or Wednesday at Charlotte, also at mills in other sections. A strike has already been called at Columbus, Ga., where 1,500 employees are idle.

NO COMPROMISE ON A REDUCTION IN PAY.

Washington, May 2.—Announcing a policy of no compromise on the question of a 15 per cent wage reduction in the settlement of the controversy between the shipping board, American shipowners and marine workers, Chairman Benson tonight called upon "all loyal citizens to rally to the support of their flag."

"Full protection," he said, "both now and after the controversy is settled will be given by the shipping board to all those who come to its assistance in keeping the ships in operation."

Economic conditions fully justify, he said, the readjustment in wage scales and working conditions as made effective by the board on May 1, when the old agreements with the men expired, and the "gratifying success" with which the board's efforts to keep its ships in operation are meeting, he added, indicates that the men aboard ship agree with the position taken by the board. The chairman said he was willing to meet and talk with the union heads here, but not to negotiate on the question of wage reduction.

Davis Continues Effort.
Chairman Benson's statement was made after a conference with Secretaries Davis and Hoover on the marine labor situation, although none of them would discuss the conference. In spite of the stand taken by Chairman Benson, Secretary Davis continued his efforts to settle the dispute by conciliation. Late today he called W. S. Brown, president of the Marine Engineers' Beneficial Association, into a conference at which present wage scales and working conditions were discussed at length and compared with previous figures.

Indications were that the labor secretary was pursuing the methods he has followed in previous labor disputes, of talking separately with representatives of the contending factions, in an effort to obtain concessions from each that would be acceptable to the other. He is expected to continue his conferences tomorrow.

No Commission Yet.

No further word on the appointment of a wage commission to arbitrate the dispute was forthcoming from the White House today beyond a statement by officials that it was their understanding that the matter was in the hands of Secretaries Davis and Hoover.

Brown predicted today that the shipowners "will come to terms" in a few days. "As yet," he said, "there are comparatively few ships tied up, but as they come into port and are unable to sign crews the owners will be anxious for a settlement. I know for a fact that a number of ships left port in the last few days with half cargoes in order to get to sea before the old agreement expired."

WAGES TO BE CUT BY THE STEEL CORPORATION.

New York, May 3.—A reduction of about 20 per cent in wages for day labor, effective May 16, and an equitable adjustment of other rates, including salaries, at the plants of the United States Steel Corporation, was announced today by Elbert H. Gary, chairman of the corporation's board of directors. It is estimated that between 150,000 and 175,000 employees of the corporation will be affected by the cut.

During 1920 the average daily wage of employees was \$6.95

against \$6.12 in 1919, according to corporation figures. Total salaries and wages disbursed by the steel corporation in 1920, when the total number of employees was 267,000, aggregated \$581,566,925.

On the basis of the reduction announced to-day corporation officials estimated the average cut in wages at approximately \$1.40 per day per man. Roughly, this will affect a reduction in the payroll, calculated on the present number of employees, of not less than \$150,000,000 annually.

TAR HEELS SEEM TO BE UNITED FOR BYNUM.

Washington, May 3.—The announcement that Republican National Committeeman John M. Morehead was giving his support to Judge William P. Bynum for the position of judge of fourth Circuit Court of Appeals, means that all factions are united upon him, and that he will have the solid support of the men who count in the councils of the Republican party in North Carolina, for former Senator Butler has spoken in the highest terms of Judge Bynum, and regards him as being able to win the approval of the administration upon his record as a jurist. The statement published by Committeeman Morehead that he supports Judge Bynum is clearly an intimation to former Congressman J. J. Britt that he had better step into the ring and get his hat from the judgeship circle and find some other ring into which to toss it.

HARDING ISSUES HIS FIRST PROCLAMATION.

Washington, May 3.—The annual Memorial Day proclamation setting aside May 30 as a holiday was issued by President Harding today. The text follows:

"Whereas, this nation has been conceived in prayer and devotion by men and women who were moved under God to found a nation where principles of right should form the lasting corner stone; and whereas, these principles, purchased at the price of great sacrifice, have been fostered by a worthy posterity; and whereas, the great war has lately laid its costly demands upon our land; now, therefore, I, Warren G. Harding, President of the United States, do hereby proclaim Monday, the thirtieth day of May, a day already freighted with sacred and stimulated memories, a day of public memorial.

"I invite my fellow citizens fittingly to pay homage on this day to the noble dead who sleep in home land, beneath the sea or on foreign fields that we who survive might enjoy the blessings of peace and happiness and to the end that liberty and justice, without which no nation can exist, shall live forever.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done in the District of Columbia this third day of May, in the year of our Lord 1921, and of the independence of the United States the 145th.

BURGLAR SPRINGS MAN TRAP AND IS KILLED.

New York, May 3.—A man trap consisting of a sawed-off shot gun connected with the knob of a cellar door by a cord and several pulleys in the home of Adolph Zukor, motion picture producer, at Nyack, was sprung late last night by a burglar, who was instantly killed.

The contrivance was designed by Patrick R. Murphy, superintendent of the estate after the place had been visited three times by burglars within the past ten days. Murphy explained that during the absence of Mr. Zukor, who is in Europe, he became alarmed by the frequent burglaries, and accordingly set the trap as a precautionary measure.

The dead man, who was found near the door of the cellar, was identified as Edward Coates, a former convict, who had served a term in Sing Sing prison.

EMERGENCY IMMIGRATION BILL PASSES SENATE.

Washington, May 3.—The senate today passed the emergency immigration bill, fixing admission of aliens to 3 per cent of each nationality resident in the United States in 1910. The bill is effective for 14 months, beginning fifteen days after enactment.

The vote on passage was 78 to 1, Senator Reed, Democrat, Missouri, opposing the measure.

The measure was sent to conference with the house to adjust differences made in it as passed by the house. Senators Calkins, of Rhode Island, chairman of the senate immigration committee; Dillingham, Republican, Vermont, and King, Democrat, Utah, also committee members, were appointed as conferees on the part of the senate.

New Director of Census.
Washington, May 3.—William M. Steuart, of Michigan, now assistant director of the census, was nominated today by President Harding to be director of the census.

Mr. Steuart succeeds Sam L. Rogers, of Franklin, N. C., who served as director of the census during the eight years of Democratic administration.

THE FORDSON TRADE MARK FARM TRACTOR

The Fordson saves from thirty to fifty per cent of the farmer's time. The Fordson plows, harrows, drills as much ground in the same time as from four to six horses. Many farmers say it does the work of eight horses.

The Fordson does for the farmer just what machine power does for the manufacturer—it enables him to manufacture his product at less cost. And that is what the farmer wants to do; grow his crops more cheaply and make his margin of profit greater. And the Fordson will help him do it.

Let us prove this to you by a demonstration ON YOUR OWN FARM. Just phone us or drop us a card.

FAITHFUL TO THE LAST DUTY.

The daily risk that is assumed by a fearless officer is seldom taken into consideration by the public until the community is shocked by such a tragedy as that which happened in Thomasville a few weeks ago or the one occurring in Greensboro yesterday. It often requires a shock for the matter of fact citizen to be brought to a true appreciation of facts, even though they be ever so apparent.

Tom McCuiston was a veteran member of the Greensboro police force. With the passing of years and the changes of administration he had continued on the job, ever faithful to duty, fearless of consequences, and with never so much as an insinuation against his character or integrity. As an officer of the law he had long since learned that arresting men and locking them in a calaboose was not always the only method of deterring crime. He knew enough about human nature to distinguish between the confirmed criminal and the fellow whose foot had merely slipped while hovering perhaps on the brink of a precipice. As an officer and as a man he was held in the highest respect and affection by his fellow citizens, and his murder has cast a pall of gloom upon the entire community.

NOT EVEN A GAMBLING CHANCE

Lloyds of London will insure against fire, drought, rain, triplets or any other event within earthly possibilities. As an insurer Lloyds has always prided itself on the fact that it was willing to share with the public the chances against any loss that it might sustain—provided, of course, an adequate premium was paid. Increased automobile thefts in Chicago, however, have forced Lloyds to withdraw from this class of risks in that city.

Chicago is not the only spot on the globe where it is a poor bet that the owner of an automobile may retain for long the possession of his property. From all sections of the country reports are current that this particular form of thievery is on the increase. Conditions may be aggravated in the Windy City because of condensed population and better facilities for disposing of the loot, yet it has no monopoly on the underground auto industry. Insurance companies in the local field, handling such risks, are reported to be losing money as a result of auto thefts, and the situation offers no hope for early improvement.

When Lloyds refuses to bet, even with unfavorable odds, it is time for something to be done. There is either something seriously wrong with public morality or else the laws and their enforcement are entirely too slack.

HARNESSING THE WINDS.

After experiments extending over a period of two years, scientists and engineers have pronounced as successful a device for the harnessing of the winds so as to produce electricity for small power plants. The scheme would provide for the storing of current so that even though the winds might fall a supply would be on hand at all times. It would do away with gasoline engines or other expensive motive power for operating generators, thereby reducing cost of maintenance and rendering more practical the home power plant.

It is encouraging to realize that the inventive genius of the nation is

turning its attention to means and methods of increasing man's power on the farms and at the same time making country life more attractive. The cities have a monopoly on the modern conveniences, very few of which can be enjoyed by rural dwellers. Gas, electricity, sewer, water system and various other devices lighten the burdens of the city housewife but for the woman of the country the old, old drudgery continues as ever. It is inconceivable that the resourcefulness of American ingenuity cannot overcome the difficulties and provide economical, practical relief for the millions of those who dwell beyond the boundaries of a closely populated city.

DEVELOPING AN IDEA.

"The United States Grain-Growers, Inc." is the name of a recently formed corporation, organized by the leading grain growers of the country in an endeavor to bring the producer and consumer closer together. The idea is but a further development of the co-operative marketing methods successfully carried out by fruit growers of California and other western states. The grain crop of the nation is of such greater value and the scope of operations being so much broader, the plans of those promoting the cause are of such magnitude as to appear at first sight as staggering. Prominent financial critics, however, are unable to see any reason why the project should not succeed.

The vast army of speculators and middlemen, who sow not yet reap a greater harvest of profits than the man who actually produces, appear to this farmer organization as a mere parasitic deterrent to commercial progress. The farmers are the original owners of the grain; combined, they should be able to pool their holdings and sell through a national association as market conditions justify.

If such a proposition is practical for fruit it should be practical for grain. If the grain corporation is a success, a similar plan will naturally follow for cotton, tobacco and other farm products. When the business of farming is recognized as such, when it is conducted on a basis that permits the farmer to actually sell rather than accept any tendered offers, there will be no occasion for "Back to the farm movements." Agricultural pursuits will offer other inducements than the mere pleasure to be derived from planting and watching the wonders that nature performs. And when such stage has been attained in the business of farming we will have made a decided step in economic progress.

CONVICTIONS IN NEWBERRY CASE ARE SET ASIDE.

Washington, May 3.—Setting aside the conviction of Senator Truman H. Newberry, of Michigan, and sixteen others for violation of the federal corrupt practices act, the Supreme court held to-day that the act was unconstitutional.

The court was unanimous in reversing the convictions, but divided five to four as to the validity of the law. Chief Justice White and Associate Justices Pitney, Clark and Brandeis dissented from the court's finding that Congress was without power to regulate state primaries, but concurred in the reversal, which, they thought, should have been based on the error of the trial judge's instruction to the jury.

Justice McKenna, while concurring in the majority opinion "as applied to the statute under consideration," reserved the question of the power of Congress under the 17th amendment—which provides for direct election of senators—to supervise primaries.

Future Course Uncertain.

Opinion was divided in the senate as to the effect of the decision upon future activities of the elections committee with regard to the Michigan election of 1918, in which Henry Ford, Democratic candidate, opposed Mr. Newberry for the senatorship. Senator Dillingham, chairman of the committee, said that since the corrupt practices law had been held unconstitutional, it appeared that the committee would have no further jurisdiction.

On the other hand, Senator Spencer, chairman of the sub-committee, which has been considering the

Ford-Newberry case, announced that despite the decision the inquiry would be continued to determine, he said, who was elected and as well as Mr. Ford's charge of fraud. The sub-committee has completed its recount of votes, which gave Senator Newberry a majority. Action, however, has not yet been taken on the recount.

SUPT. McCULLOCH DIES

SUDDENLY IN OFFICE.

Raleigh, May 3.—Supt. E. F. McCulloch, of the state prison, died suddenly in his office to-day following an illness that had dated almost from his appointment to the position by Governor Morrison two months ago.

Mr. McCulloch had been up street within a week, but remained only a short while. Barring an occasional drive out he had been confined to his room a good portion of the year. His illness was plainly of fatal character, but he had improved slightly and this morning expressed the opinion that he had improved. While talking to Mrs. McCulloch and Dr. Norman, prison physician, he sank into unconsciousness and died without regaining sensibility.

Mr. McCulloch came to the prison from Bladen county in 1913 and succeeded Capt. T. W. Fenner as head bookkeeper of the prison. He remained in that position during the Bickett administration and was chief to James R. Collie, whom he succeeded by appointment of Governor Morrison. The new superintendent had not been able to direct the policy of his own administration because his health was against him.

Prior to his moving to Raleigh he had been prominent in Bladen county politics and held acknowledged leadership in that county. He was a successful farmer and the administration would have looked to him to make the new prison farm near Raleigh produce well. His death leaves the prison superintendency vacant with no man of his training in sight.

Mr. McCulloch was born in Guilford county but had lived the greater portion of his life in Bladen.

He leaves a wife, daughter, Miss Maud McCulloch; Senator E. F. McCulloch, Jr., of Bladen; and Norman McCulloch. He was 59 years old, an elder in the Presbyterian church and a member of the Masonic order.

BLAIR'S NOMINATION

SENT BACK TO COMMITTEE.

Washington, May 3.—The nomination of David H. Blair, of Winston-Salem, as commissioner of internal revenue, was sent back to the finance committee by the senate in executive session late to-day. The committee will investigate charges brought by Senator Hiram Johnson, of California, in which he attacked the fitness of Mr. Blair to collect the nation's taxes and brought in an existing dispute between the government and Blair's family, by marriage, over income tax returns.

Senator Johnson attacked Mr. Blair from two angles in the executive session of the senate to-day. First, he said, Mr. Blair violated the law of his own state by refusing to obey the mandate of the Republican primary in which Johnson ran for the presidential nomination.

Second, he alleged, the Cannon family into which Mr. Blair married, is trying to wring from the government something like \$500,000 in tax refunds. Johnson said a commissioner of internal revenue should not pass upon the claims of his father-in-law, wife and other relatives.

Senator Johnson's allegations raised a row in the senate that did not subside until the nomination was sent back to the finance committee which had favorably reported it. There is still basis for the belief that Mr. Blair will be confirmed, but the inquiry into the Cannon tax returns will result in delay and possibly thrills.

SIX LITTLE CHILDREN

BITTEN BY MAD DOG.

Six children have been given anti-rabies treatment as a result of having been bitten by a mad dog, according to Dr. W. M. Jones, county health officer. The children were bitten last week by a dog belonging to Mr. H. H. Lassiter. Its head was sent to Raleigh and the information came back that the dog was rabid. It usually takes about 40 days, according to Dr. Jones, for bites such as these to have any effect, so Dr. Jones hopes to have the children immune in time to prevent serious results.

Four of the children are Mr. and Mrs. H. H. Lassiter's, and all of them live at his home at the fair grounds.

Dr. F. C. Craven attended the North Carolina State Medical Meeting at Pinehurst last Tuesday and Wednesday.

The closing exercises of Ramseur school took place April 26 in the presence of a very large audience. The literary address by Prof. Coleman, of the North Carolina College, Greensboro, was a powerful plea to the youth of his audience as well as to every one who heard him. These winning medals and prizes were Misses Lucile Forrester, Florance Kimry, Alleen Dixon, Lilly White and Messrs. Ray Campbell and Walleh York. Prof. Harrison and his able assistants have conducted a very creditable school the past year and we are pleased to learn they have been secured for the sessions of 1921 and 1922.

MCLEANSVILLE.

The McLeansville high school came to its close Friday, April 29 after a very successful year and began its commencement Thursday evening by giving its primary and elementary program which consisted of songs and recitations. Each child had a part in the program played his or her part well, reflecting great honor on their teachers, Misses Annie Fryar and Daphne Roach.

Friday evening the grammar grades under the leadership of their accomplished teacher, Mrs. J. M. Foust, gave the play entitled "Ye Sons of Long Ago," which delighted the large audience which had gathered for the evening.

Between the acts Miss Margaret Hines and Master Paul Hines, of the music department, delighted the audience with a beautiful piano solo each.

Saturday morning promptly at 10 o'clock people from every direction began to gather to hear and enjoy the community singing which was led by the school children of the school to perfection and to the delight of each present.

Rev. J. R. Priddy led the invocation, and the speaker of the morning, Dr. J. P. Palmer, professor of Bible exegesis, Chapel Hill, was introduced by the principal. His subject was "The Demands of Rural Community," and he won his way to the hearts of every one present by the wonderful way he handled his subject.

At the close of his address these people showed their loyalty to the school by spreading a community dinner—I mean a real dinner—it was a real one, and it goes without saying every one fully enjoyed it.

Saturday afternoon was taken up with the graduation exercises given by

the class of 1921. Each member rendered the following:

Chorus, by high school girls.
Welcome address, Percy L. Starr.
Class history, William S. Holt.
Class poem, Geneva C. Fryar.
Class prophecy, Ruthie Maie Anderson.

Oration, "How Shall I Answer," William K. Shaw.

Music.
Essay, "Life is Something to Do Not Something to Learn," Eva Payne.

Reading of class will, William Porter Kellam.

Valedictory, Sallie Welker.

Music.

The principal then delivered his final words to the senior class after which he delivered the diplomas to the four young men and four young women who were finishing the high school course, then he delivered certificates to two young men and young women in bookkeeping.

Rev. G. L. Whitely, former principal, then presented the Barber scholarship medal to Miss Sallie Welker in a very pleasing way. This medal was given by the principal in honor of his sister, Mrs. Lucy Maie Barber, who died October, 1918.

Miss Welker won this medal by being the best scholar of the school. Rev. Gurley Cobb, then showing in his usual way the continued love of the principal to each member of the class of 1921 by presenting to each one a scholarship to their chosen college.

NUMBERS OF TAR HEELS CLASSED AS DESERTERS.

Washington, May 2.—More than 4,000 North Carolinians are listed as deserters by the war department and within a few days their names will be made public.

In a final appeal to-day the secretary of war asked all who have any reason to believe that they were put down as in that category by mistake to report so they will escape the disgrace of being published with the real article.

In a statement to-day the war department declared:

"Wide publicity has repeatedly been given by the war department to the course to be followed by persons who have reason to believe that they stand charged with desertion from the draft, in order to escape the odium that will attend the publication of their names in the forthcoming list of draft deserters. There is still opportunity to follow this course if action be taken promptly. Men who are not actually deserters but who believe themselves charged with desertions upon the records, should communicate immediately with the adjutant general's office, setting forth all the facts in their cases. Those who are in doubt as to their status should follow the same course. Those who are actually deserters from the draft, and who are fully aware of the fact, may avoid publicity and subsequent arrest by voluntarily surrendering to the military authorities before the lists are published.

"The lists of names of men charged with draft desertion have been carefully checked against the records of the war department, navy department and marine corps, in order to ascertain if any of the men had enlisted and served in either the land or sea forces of the United States during the war. The lists have also been sent to those governors and adjutant generals of states who have notified the war department that they were in a position to assist in checking the lists. In addition, the lists have been sent to such former members of local boards as having signified their willingness to furnish any information coming into their possession, relating to the persons named therein, since the close of active operations of the draft.

"These lists are now being released for publication as soon as the work on any particular local board is completed. A communication was sent from this office to former members of local boards making inquiry as to whether or not they could assist in checking the lists with a view to removing the name of any man who had been erroneously reported as a draft deserter. Responses has been received from 3,344 local boards that would render assistance and from 60 boards which were not in a position to do so. There remains, however, 701 local boards from which no reply has yet been received, although each of these 701 boards has received two requests from this office."

PANAMA IS TOLD THAT SHE MUST ACT PROMPTLY.

Washington, May 2.—Unless Panama acts voluntarily within "a reasonable time," the United States will take measures to compel her to transfer jurisdiction of the disputed Coto territory to Costa Rica, Secretary Hughes says in a recent note to the Panama government. The text of the document was made public to-day at the state department.

"This government believes that it

would be inadvisable to interpret its obligations to the republic of Panama as embracing an obligation to support any claims for adjoining territory which might be advanced by the government of Panama, no matter what the opinion of this government might be as to the validity or justice of these claims," the note says.

The Panama claim that its title to the disputed territory had been unchallenged since colonial times, the note holds as in no way "entitling the government of Panama to demand the occupation of territory which is not a part of the republic of Panama and has been conclusively adjudged to belong to Costa Rica."

"That territory which was adjudged to be a portion of the territory of the republic of Costa Rica," the note declares, in accordance with a boundary line which the republic of Panama had formally declared clear and indisputable, "still remains in the opinion of the American government the territory of Costa Rica and is to be respected as such."

After stating that the American government desires Panama to take steps to turn over the territory in question to Costa Rica, the note says "unless such steps are taken within a reasonable time, the government of the United States will find itself compelled to proceed in the manner which may be requisite in order that it may assure itself that the exercise of jurisdiction is appropriately transferred and that the boundary line on the Pacific side, as defined by the Loubet award, and on the Atlantic side, as determined by the ward by the chief justice of the United States is physically laid down in the manner provided in articles 2 and 7 of the Porras-Anderson treaty."

The note concludes with an expression of regret that the United States "feels itself obliged to communicate to the government of Panama this determination," but states that it has been reached only after the most careful and friendly deliberation.

DAME FASHION WORRIED FATHERS IN OLDEN TIMES.

Boston, May 3.—Dress reformers of the present day, who deplore the abbreviated skirt and the peek-a-boo waist, may be astounded to learn that even in the good old Puritan times the lure of dame fashion had a bewitching effect on the young men and maidens. Researches into the ancient laws of the Massachusetts Bay colony have revealed that the fathers had their own troubles with their offspring who recognized a snappy style when they saw it.

In 1634, just four years after the arrival of Governor Winthrop's ships, the apparel question had become so pressing that the lawmakers tried their hands as fashion moulders. Here is the statute placed on the books in its original wording:

"The court, taking into consideration the greates, superfluous and

unnecessary expenses occasioned by reasons of some newe and immodest fashions as also the ordinary wearing of silver, golde, and silke laces, girdles, hat bands, etc., hath therefore ordered that no person, either man or woman, shall hereafter make or buy apparell, either woollen, silke or linnen, with any lace on it, silver, golde, silke or threed, under the penalty of the fafecture of such clothes.

"Provided—and it is the meaning of this court that men and women shall have liberty to weare out such apparell as they are nowe provided of, except the immoderate greate sleeves, slashed apparell, immoderate greate rayls, long wings, etc.

"This order to take place a fortnight after the publishing thereof."

Germany is undoubtedly willing to pay its debt to the allies if permitted to name the amount of the debt.—Roanoke Times.

THE WAGON THAT SPANS A CENTURY

Though a hundred years and more have passed since the "Nissen" first built Wagons—better materials for each part than those the first "Nissens" chose—have not been found. A hundred years—and more, of Wagon Building has but proved the wisdom of their choice. Before the days of Railroads these "Nissen Wagons" carried pioneer families over roadless mountains—through tangled forests—across swamps—to new homes further west. From seaport towns to inland settlements they made regular scheduled trips carrying supplies to hundreds of families. During the stirring days of 1861-65 they carried food and clothing to the men on the firing lines. They carried wounded soldiers across hills and mountains—in heavy rain before the overwhelming lines of Blue. With the grim-gray veterans they have been on the record-breaking marches of History. These old "Nissen Wagons" that carried the scars of the Indian's arrows—felt the sting of "Yankee" bullets—that started in at Bull Run and stayed straight through to Appomattox, had the same material in each particular part that the "Nissen" has today. The same tough, unbreakable Hickory Axles—the same sturdy, strong White Oak in all other Gear parts. It is still dried outdoors under cover from three to five years until the sap has condensed it together like Steel. It is still inspected and re-inspected. We still insist that every piece be flawless. The First "Nissen" used Wrought Iron where malleable or casting might suffice. The Irons were all forged in "Nissen" shops. Where other manufacturers use malleables—we still use Wrought Iron—forged in the "Nissen" smith-shops. The making of parts is not trusted to others. They all are made by—and judged by—"Nissen" standards. Ask your dealer to show you one of these "Nissen Wagons." The Wagon that helped make American history.

ULTIMATUM TO GERMANY
WILL EXPIRE NEXT WEEK.

London, May 2.—The supreme council to-day reached a substantial agreement on the terms to be imposed on Germany. In principle, it is agreed that Germany is under obligation to pay the allies 6,600,000,000 pounds sterling. She will be required to pay 100,000,000 pounds yearly plus 25 per cent on her exports.

This obligation on the part of Germany shall be acknowledged by the issue by Germany of bonds bearing five per cent interest. Of these, a certain amount shall be issued immediately, a second lot in November and thereafter as many more as she has ability to pay.

How the bonds are to be paid off is still a matter of discussion. These terms will be incorporated in the ultimatum, which expires on May 12 and which will be sent to Germany as soon as the details of the terms are definitely decided upon, probably at the meeting of the council tomorrow.

According to Ability.

When the German payments amount to more than the sum required to pay the interest on the bonds already issued, the reparations commission will be entitled to require the issue of further bonds. The intention of the plan, according to a British official, is to proportion the German obligations, after a certain figure, to her ability to pay.

The drafting committee is still at work on the details of the terms, but hopes to conclude its report in time for tomorrow's meeting, which will be attended by the military and naval experts. The protracted meeting to-day is understood to have been due to the long discussion over the guarantees to be demanded of Germany for payment of reparations, there being at the start a considerable divergence of opinion. Finally, however, an agreement was reached.

If Germany Refuses.

Should Germany fail to accept the terms within the stipulated time, the French plans for occupation of the Ruhr, with a possible real demonstration on the part of the British will be carried out and the proceeds of German revenue, as customs, will be appropriated towards payment of the annual obligation.

In addition to the chiefs of the delegations, there was a great array of financial experts present at today's meeting. Sir Robert Stevenson Horne, the British chancellor of the exchequer, was absent, but M. Briand, Count Storza and Foreign Minister Jaspard were accompanied by their finance ministers. Baron Hayashi by Kogo Mori, Japanese minister in London, and Mr. Lloyd George by Winston Spencer Churchill and representatives of the treasury.

M. Briand announced tonight that he must return to Paris Tuesday night, so the meeting tomorrow is expected to be final.

The supreme council sat for four hours this afternoon and then adjourned until 11 o'clock tomorrow morning. Premier Briand said the conference had "almost" reached an agreement.

After the conference adjourned, Premier Briand telephoned orders to Paris that the class of 1919 be mobilized.

TROOPS GUARD BORDER
TO PREVENT OUTBREAK.

Nogales, Ariz., May 3.—The 25th United States infantry to-day was guarding closely the international border here to prevent the spreading to the American side of disorders which broke out in Nogales, Sonora, just across the line, last night. The trouble was precipitated by the arrival at Nogales, Sonora, of 74 Chinese and two Hindu laborers from Hong Kong, China, officials stated. The foreigners were being shipped in bond from San Francisco.

Five Chinese were badly hurt, three of whom may die, a physician attending them at the Nogales, Sonora, hospital, said last night. An American Consular Agent Charles Murphy said that the situation was well in hand, in a statement issued shortly before midnight.

Six Persons Killed in Wreck.

Bluefield, W. Va., May 2.—Six persons were killed and 27 injured, some seriously late to-day when a Norfolk & Western railroad passenger train, backing up from Gary, W. Va., to Welch, W. Va., ran into an open switch and crashed into four loaded coal cars.

One of the passenger coaches was telegraphed.

Dear Mr. Norvell :—I am enclosing herewith orders for several car loads of Fertilizer to be shipped to some of my various tenants, which please get out at your earliest convenience.

I have been quoted much lower prices than yours by several companies, but I believe that this is a year that we cannot afford to take any chances on cheap Fertilizer, so I am putting my faith in Zell's, although my Fertilizer will cost me more money than I can buy elsewhere. I know what Zell's is and am afraid to take a chance for a few dollars difference in price.

SUPERIOR COURT DISPOSES OF MANY CRIMINAL CASES

GOOD PROGRESS MADE THIS WEEK IN CLEANING UP LARGE DOCKET.

Judge G. S. Ferguson, of Wayneville, who has been presiding over the criminal term of Guilford Superior court which convened Monday morning, has set a fast pace during the first three days of the term and a large number of cases have been eliminated from the heavy docket. Solicitor Bower, always a worker, has exerted himself with added vigor this week in an endeavor to cut down the customary number of cases that are left over at the end of every term and his efforts are showing good results. Yesterday afternoon the court had caught up with the calendar of cases scheduled for trial and it was necessary to adjourn court at 4 o'clock for lack of business.

The actions disposed of were as follows:
A nol pros with leave was taken by the state in the case against E. Traud.

Ransom Slade, driver of one of the Arctic Ice and Coal Company's wagons, was found not guilty on a charge of embezzlement. He was accused of having taken ice tickets to the value of \$108.

A. J. Jarrett plead guilty to a charge of wiring a house without license and judgment was suspended upon payment of the costs.

Hattie Jeter, negress, was found guilty of having whiskey for the purpose of sale and given a sentence of 60 days in the county jail, to be hired out by the county commissioners.

Wes Elvett was found guilty of manufacturing whiskey. Prayer for judgment was continued to the August term of the court, the defendant to pay the costs and furnish bond in the sum of \$200 for his appearance at the August term.

Charlie Chavis admitted that he had sold a pistol without a license. He was taxed with the costs.

George Pass admitted that he had purchased a pistol without a license and was also taxed with the costs.

Ernest Jones failed to appear to answer a charge of having whiskey for the purpose of sale. A capias was ordered issued.

John Huntley, also charged with having whiskey for the purpose of sale, was not in court. A capias for his apprehension was ordered issued.

Richmond Bagmon, High Point negro, admitted his guilt on a charge of reckless driving and was taxed with the costs.

J. B. Wilson, white, was charged with having cocaine for the purpose of sale. Wilson was arrested a short time ago following the find-

ing in a room he was occupying in a local hotel of a quantity of cocaine. The jury acquitted him.

Ed Thomas, who pleaded guilty to stealing two bales of hay, worth about \$3, was given 60 days on the county roads. Judge Ferguson charging him 30 days a bale.

Rose Perry, alias Georgia Perry, pleaded guilty to the larceny of a watch and was sentenced to serve four months in jail, to be hired out by the county commissioners.

Joe Wortham was convicted of breaking and entering Davis Furniture store, Greensboro, and sentenced to 12 months on the roads.

Henry Madden was found guilty of breaking and entering the Davidson-Klutz drug store and taking cigars, candy and other goods valued at \$300 or \$400. Judge Ferguson gave him a roads sentence of 12 months.

Severious Madden, white, pleaded guilty of stealing three chickens. Prayer for judgment was continued on payment of the cost, with the understanding that a capias is to be issued on recommendation of the solicitor if there is provocation.

Daniel Dean and C. C. Stanley, Jr., pleaded guilty of a simple assault, and prayer for judgment was suspended upon payment of the cost.

Mack Norman and M. C. Norman, charged with having whiskey for the purpose of sale, were called and both failed to appear, and an instant si fa capias was issued.

Will Southern entered a plea of guilty of carrying a concealed weapon. Prayer for judgment was continued on payment of the cost and the giving of a \$50 bond for his appearance at the September term of court.

M. A. Hall pleaded guilty of buying a pistol without a permit, and judgment was suspended upon payment of the cost of the action.

G. W. Little was fined \$10 and the cost for an assault with deadly weapon, the defendant pleading guilty to the charge.

Ruben Barbee was acquitted of a charge of breaking and entering.

W. M. Cummings, who pleaded guilty of reckless driving, had judgment suspended upon payment of the cost.

W. R. Fish entered a plea of nolo contendere to a charge of larceny and was discharged upon the payment of the cost to the court and \$3 to the man whose shirt and hose he was charged with stealing.

Clifton Miller failed to appear to answer a charge of larceny and receiving, and the court issued a si fa and capias for him. He is charged with being implicated in the theft of liquor from the Glenwood sanitarium.

Nora Hoskins was found not guilty of larceny and receiving.

Edna Baldwin was convicted of carrying a concealed weapon, but judgment has not yet been passed.

Eric Vincent charged with larceny was dismissed, the grand jury failing to find a true bill.

Jessie Sullivan pleaded guilty of having whiskey for the purpose of sale. Prayer for judgment was continued upon payment of the cost. The defendant was required, however, to give bond in the sum of \$400 for his appearance at each term of criminal court for the next two years and show good behavior.

L. J. Edwards, charged with having whiskey for sale and receiving more than a quart in 15 days, submitted to a plea of guilty at the conclusion of the evidence. Judge Ferguson has not yet passed judgment.

J. W. Coble pleaded guilty of an assault on a female. Judgment was suspended upon payment of the cost and the giving of a \$50 bond for the defendant's appearance at the next term of court.

Nol prosses were entered in the following cases: Henry Davis and Clarence King, larceny; Ernest Plack, abortion; John Holt, assault.

with intent to kill.

Two issued: Robert Hughes, abandonment; Frank Snipes, having and receiving stolen property.

Nol prosses with leave were taken in the following: Ames Turner, abandonment; Mary Moore, larceny; Robert Mendenhall, affray; Paul Nance and B. W. Ward, assault; Henry Roach, retailing; Ed Stack and Sam Stack, assault with deadly weapon; J. M. Stevenson, three cases of retailing.

ATLANTIC BANK MOVES INTO NEW QUARTERS.

The Atlantic Bank and Trust Company has moved from the old court house to the Southern Life and Trust building and is now occupying the former quarters of the American Exchange National Bank. The interior of the building was worked over and repainted and the offices present a most attractive appearance. The move was completed Monday night and by Tuesday morning the bank was open for business.

Boreen Cattle to be Auctioned.

A sale of registered cattle will be conducted on the premises of Cecil Boreen, Pomona, May 18, by R. L. England and Thomas Brothers, of the American Realty and Auction Company. Mr. Boreen has been collecting and developing this splendid herd of cattle during the past six years, and those who know cattle values say that no better aggregation of animals has been offered to the public in this section in a long time.

Mr. Boreen's home at Pomona was recently destroyed by fire, and for this reason he has decided to sell his herd.

OLEY KIDNEY PILLS

CATTLE, CATTLE!

AT AUCTION!

Wednesday, May 18, 10.30 A. M.

Owing to the recent fire at my place, destroying all my barns, residence, feed and everything, it forces me to throw my herd of cattle on the market at once.

My herd consists of eleven registered cows, sixteen registered heifers and four bulls, the herd bull being our oldest, and is a grandson of the Great Cow, Sophie, the 19th of Hood Farm 189743, the World's Champion Long Distance Dairy Cow, eight years authenticated tests, 100,557.2 lbs. milk and 7231.2 lbs. butter. Also, four Grade Cows and six Heifers. This herd has taken me eight years to build up, and I believe I have one of the best herds of Registered Jersey Cattle to be found anywhere. The purchasers will get Registration Papers on day of sale.

THE CATTLE HAVE ALL BEEN TESTED FOR TUBERCULOSIS RECENTLY AND FOUND CLEAR.

A great many of these cows are just fresh, and the ages of all just right to make good producers for the future.

Now if it is a first-class high grade Jersey cow you want, don't fail to attend this sale on the above date, as everything will be sold absolutely when the last bid is put on same, and any one desiring to buy several of these cattle and it does not suit them to pay cash, terms can be arranged where parties can give a good bankable paper.

The sale will be conducted at the old home place, 4 miles west of Greensboro, just west of Pomona Mills.
