

## AUTO THIEVES GET LONG SENTENCES IN THE PEN

WILLIAM WADE GOT SEVEN YEARS AND THREE ASSOCIATES FOUR YEARS EACH.

William Wade, W. E. Wooten, Bessie Logan and Dora Matthews, charged with the theft on an automobile, were convicted Saturday morning by a jury in Superior court and the four of them were sentenced by Judge Finley to serve terms in the state penitentiary. William Wade, son of J. E. Wade, of High Point, was committed to prison for the term of seven years, the other three defendants receiving sentences of four years each. Robert Wade, a brother of William Wade, was jointly indicted with the other four defendants, but he seems to have been dissatisfied with the progress of the trial when court convened Saturday morning he failed to appear and a capias was ordered to be issued. The case went to the jury Friday evening and the jury had not reached a decision Saturday morning, but after it appeared that one of the defendants had skipped out over night it was only a few minutes before a verdict was returned.

Notice of appeal to the Supreme court was entered by each of the four defendants. Bond for William Wade was placed at \$5,000, while \$2,000 bonds were required of the other defendants. None of them had raised bonds this morning.

W. A. Randleman, negro porter at a local hotel, found guilty of retailing, was sentenced to serve six months on the county roads, sentence to take effect upon the recommendation of the solicitor. He was required to give bond of \$200 for his appearance at the June term of court, 1921, to show good behavior.

Oscar Braine and G. C. Curry, found guilty of transporting whiskey, were each given a suspended sentence of 12 months.

Geneva Williams submitted to a charge of immoral vagrancy and was given four months in the county jail to be hired out by the county commissioners.

Ira Pinnix, negro youth, was given a suspended sentence of six months for throwing a railroad switch.

H. M. Holiday was given a suspended sentence of six months for an assault with a deadly weapon. He was fined \$50 and costs for carrying a concealed weapon.

The sentence of two years on the county roads given Sam Gordon earlier in the week on a charge of forcible entry was changed Saturday to a suspended sentence of two years.

Lemmy was sent to the county jail for four months for receiving stolen property. Permission was granted for the commissioners to hire him out. John Crawford was given a sentence of eight months for like offense with a similar provision.

Nannie Gentry was given a sentence of six months in jail to be hired out by the commissioners for carrying a concealed weapon. Earlier in the week she had been fined \$50 and costs but as she was unable to pay the fine the sentence was changed.

The original sentence of 18 months on the county roads imposed several days ago on Jim Walker for manufacturing whiskey was Saturday reduced to one year.

Clay W. Gable, charged with an assault with a deadly weapon, was discharged upon payment of costs. He had been given a sentence of 30 days on the county roads. Wellborne was charged with running over a woman with an automobile which he was driving. Evidence was given yesterday showing that he had made a satisfactory settlement with the prosecuting witness. George D. Kilopoulis, charged with trespass, was dismissed upon payment of costs.

Dr. H. L. Brockmann has returned to his home in Greensboro and will practice medicine here. Dr. Brockmann entered the navy medical corps immediately after war on Germany was declared, resigning in April 1920, since which time he has been doing post-graduate work in Philadelphia.

## MERCHANTS ELECTED OFFICERS AND ADJOURNED.

After electing officers for the ensuing year, deciding to hold the next convention at Wrightsville, resolving in favor of desired legislation, enjoying a brief respite from their labors by a sight-seeing tour Thursday afternoon, and winding up the business affairs of the meeting, the convention of the North Carolina Merchants' Association concluded Thursday night. It was declared by all to have been one of the most delightful, as well as beneficial meetings that the association has ever held.

Officers elected were as follows: B. F. Roark, Charlotte, president; A. A. Joseph, Goldsboro, vice president; J. Paul Leonard, Statesville, executive secretary; A. W. Bunch, Statesville, treasurer.

A number of invitations were received for the meeting place of next year and it may be that the warm weather of the past week influenced the delegates in deciding on a location where the breezes blow. Wrightsville won out easily.

A number of interesting addresses were heard Thursday morning, the principal speaker of the day being Dr. D. W. Daniels, of Clemson College. Dr. Daniels made a most entertaining and inspiring talk, the conclusion of which was the occasion for the most hearty applause.

During Thursday afternoon visitors were driven over the city and also carried to High Point. It was the first loading they had done during the three days of their stay, and they appeared to enjoy it. The session was officially concluded Thursday night and the several hundred delegates had mostly departed before the following morning.

## YOUNG PEOPLE'S UNION OF M. P. CHURCH ELECTED OFFICERS.

During Saturday's session of the Young People's Union of the Methodist Protestant church, which is being held in this city, election of officers for the ensuing year was the most important business transacted. Rev. L. W. Gerriager, of Asheville, was elected president of the association; Ferry L. Gibbs, of Burlington, vice president; Rev. C. B. Way, of Burlington, secretary-treasurer, and Miss Marie Goley, of Burlington, missionary worker. Department superintendents were elected as follows: Rev. G. L. Curry, adult work; Rev. N. G. Bethea, Christian stewardship; Mrs. J. E. Pritchard, children's work; Miss Carrie Hase, teacher training.

The meetings, which will continue through tomorrow, are being held at the Grace church in this city and over 100 delegates and ministers were present Saturday.

## Denny-Buchanan Invitations.

The following invitations have been issued to out of town friends: "Mr. and Mrs. Robert McChesney Denny request the pleasure of your company at the marriage of their daughter, Kathleen, to Mr. Walter Allison Buchanan on Wednesday evening the sixth of July at nine o'clock, 503 Fifth avenue, Greensboro, N. C."

## DR. J. W. PEACOCK COMMITTED TO ASYLUM FOR LIFE

ACQUITTED OF MURDER ON INSANITY, JUDGE WOULD PROTECT SOCIETY.

Dr. J. W. Peacock, of Thomasville, acquitted of the murder of Chief of Police J. E. Taylor, of Thomasville, on the ground of insanity, was committed Thursday afternoon to a life sentence in the state hospital for insane at Raleigh. The decision of Judge Finley was announced Thursday afternoon, following a hearing held in this city. The defendant appeared in person at the hearing, having been brought to this city by Sheriff Fred C. Sink, of Davidson county. The defendant had no word to say nor did he appear to have any great interest in the proceeding. A slight nervousness was the only display of emotion on his part.

E. E. Raper, appearing for the defendant, petitioned Judge Finley to restore Dr. Peacock to his freedom. He stated that the Thomasville physician was not now insane, that the crime had been committed on account of temporary insanity, and that his being at liberty would not endanger society. Mr. Raper, who had the right for the defense at the Lexington trial, made a forceful plea for his client but it was not sufficient to convince Judge Finley, who presided over the original trial of the case.

Solicitor John C. Bower and H. H. Sink appeared for the state, both of them having prosecuted at the Davidson county trial. It was argued by the attorneys for the state that the nature of the disease with which the experts testified Dr. Peacock was afflicted is incurable and that counsel for the defendant, in arguing to the jury, had declared that he would be confined to an asylum in the event of an acquittal. Solicitor Bower declared that it would be a travesty on justice for Dr. Peacock to be turned loose.

Following the decision of Judge Finley, decreeing that the defendant be committed to the Raleigh asylum for the criminal insane, Sheriff Sink left with his prisoner on train No. 22 for Raleigh.

## Y. W. C. A. CORNERSTONE TO BE LAID THURSDAY EVENING.

A. buildings in the state and it will be a significant date in the history of the Greensboro organization.

The home will contain administration offices, parlors, a gymnasium, swimming pool, club rooms, class rooms and also living accommodations for approximately 50 girls. Mrs. E. R. Michaux, president of the association, will have charge of the exercises Thursday and an interesting program has been arranged.

Mr. Plyler is looking for an interesting and helpful two days' session.

## SOUTHERN POWER WINS DECISION OF JUDGE BOYD

ADVERSE DECISION AGAINST PUBLIC SERVICE CO. RENDERED BY LOCAL JURIST.

Judge James E. Boyd, presiding over the hearing in the case of North Carolina Public Service Company and the cities of High Point and Greensboro vs. the Southern Power Company, rendered his decision Friday morning decreeing that the local distributor of electrical current had no right to force the power company to supply it with current. No decree has been signed in the case as yet, the attorneys having been unable to agree Friday on the draft of the judgment to be presented to Judge Boyd's signature.

In his oral statement, announcing his opinion as to the law of the case, Judge Boyd declared that it was not his intention to leave the cities of Greensboro and High Point in the dark; nor would he permit the North Carolina Public Service Company to be entirely destroyed. He declared that the company had made extensive investments in the two cities for the purpose of serving their patrons and that it would be unfair to render such investments as so much dead weight. He expressed as his opinion, however, that the Public Service Company is not a part of that general public, not a consumer of the products of the power company but that it is merely a middle man between the producer and consumer, and serving as such for a profit. Judge Boyd intimated that the decree to be signed would allow at least six months before becoming effective, in order that the local company could make provision for serving the citizens of Greensboro and High Point, and he suggested that the two litigants provide some arrangements to prevent the current from being shut off.

The case consumed a solid week and was attended with the greatest of interest throughout the state. The best legal talent of the state was involved in the controversy and each side was ably represented. Counsel for the plaintiff announced its intention of appealing to the Supreme Court of the United States and it is not likely that a final disposition of the case has yet been made.

A written judgment in the case was to have been signed Friday morning by Judge Boyd but at the appointed hour the attorneys had been unable to agree on terms and wording of the order. After a delay of several hours the court continued the matter until tomorrow, at which time it is expected the final judgment will be presented and signed.

Organization of the Greensboro military company is now assured, according to a statement made Saturday by Maj. Ralph R. Faison, sponsor of the organization task. ## WAREHOUSE CONSTRUCTION BEGAN THIS MORNING

WORK ON TWO BIG HOUSES WILL BE RUSHED TO COMPLETION BEFORE SEPT. 15.

Actual work on the construction of two new tobacco warehouses to be built on the old King property, near Greene street, began this morning and it is expected that both of them will be completed before the opening of the tobacco market in this city next fall. W. B. Enoch, local contractor, is in actual charge of the construction work while the building committee of the Greensboro Tobacco Warehouse Association is supervising the undertaking. This committee is composed of H. L. Cottle, chairman, L. M. Ham and J. D. Wilkins.

Plans for the two houses provide for substantial structures, to be built on the old King property, the roofs to be supported by steel girders. Ample parking space will be provided for wagons, horses and automobiles, while sleeping and eating quarters will be features of the interior plans. Each building will be 90 by 215 feet in dimensions, while in front of them there will be left open a space 100 by 300 feet.

Plans for the warehouses were drawn by C. C. Hartman, architect of this city. Specifications called for in the plans are modern in every detail and when the buildings are completed Greensboro will have two warehouses that will compare most favorably with anything in the state. Business men of the city who are responsible for the undertaking are expressing high gratification at the progress made so far and they feel encouraged in the belief that Greensboro will soon forge to her rightful position as a leading tobacco market of the Piedmont section.

## NEARLY NINETY-FIVE MILLION WHITES IN UNITED STATES.

Washington, June 24.—The racial composition of the population of the United States in 1920, as announced tonight by the census bureau, shows the country to contain 94,822,431 white persons, 10,463,013 negroes, 242,959 Indians, 111,025 Japanese, 61,688 Chinese and 9,485 others. The Japanese race exceeded by far the rate of growth in the last ten years of all other classes.

Unofficial estimates of the increase in the number of Japanese in the United States, particularly on the Pacific coast, were borne out in the official tabulation, which revealed a rate of expansion of 53.9 per cent during the decade of 1910-20. California absorbed 30,596 of the total growth of 38,868 Japanese in this period. January 1, 1920, there were 71,952 Japanese in California. The remainder of the increase was distributed largely in the states of Washington, where 17,388 make their home; Oregon, 4,151, and Utah, Colorado, and New York, with between two and three thousand each.

The white population showed only a 16 per cent expansion for the decade and the negro 6.5 per cent. Both the Indian and Chinese groups dwindled 8.4 per cent and 13.8 per cent, respectively. The growth of the white population was considerably less than the rate of the previous decade, which was 22.3 per cent. This decline, the statement said, was due principally to the marked reduction in immigration during the world war.

An estimate based on the excess of births over deaths and on the excess of immigration over emigration showed a difference by only a small fraction of one per cent from the total whites enumerated.

The rate of increase in the negro population, which was not perceptibly affected by immigration or emigration, was the lowest on record, according to the statement.

Georgia leads with the largest negro population, numbering 1,206,365. Other states having more than 100,000 negro population are:

Mississippi, 935,164.  
Alabama, 900,652.  
South Carolina, 864,719.  
North Carolina, 763,407.  
Texas, 741,723.  
Louisiana, 700,257.  
Virginia, 690,017.  
Arkansas, 472,220.  
Tennessee, 451,758.  
Florida, 329,487.  
Pennsylvania, 284,494.  
Maryland, 244,479.  
New York, 198,433.  
Ohio, 186,183.  
Illinois, 182,254.  
Missouri, 172,241.  
Oklahoma, 149,407.  
District of Columbia, 109,966.

Evidence of the migration of the negro to the north and west was found in figures showing nearly three-fourths of the increase in the negro population, or 472,418 of the 635,350 gain, in these sections.

A growth of only 162,832 per cent of the total negro race is still below the Mason-Dixon line. The percentage increase of the negroes in the west was 55.1; in the north 43.3 per cent and in the south 1.9 per cent.

Michigan, with 60,082 negroes, lead all states in percentage of increase with 251 per cent. Illinois and Ohio, with increases of 67.1 per cent, showed further evidence of the northward movement of negroes. Pennsylvania's negro population growth for the period was 64.7 per cent, its black race now exceeding in number those of Maryland and Kentucky.

## WOULD SPEED TARIFF AND TAX LEGISLATION.

Washington, June 23.—President Harding took a hand in the legislative program to-day in an effort to speed up enactment of tariff and tax legislation, by calling Chairman Fordney, of the house ways and means committee, to the White House to discuss the possibilities of early passage of such laws.

Meanwhile, the suggestion was renewed in the senate by Senator Watson, of Indiana, a Republican member of the finance committee, that tax revision should be placed ahead of tariff legislation. The question gave leaders some trouble early in the extra session and its revival to-day made it appear that another effort would be attempted to subordinate tariff to taxation in legislative program.

Mr. Fordney informed the President that the Republican committee draft of the permanent tariff bill would be ready by Monday or Tuesday for consideration of the full committee.

#### GOMPERS BRANDS HEARST AS A TRAITOR TO AMERICA.

Denver, Colo., June 23.—William Randolph Hearst was denounced on the floor of the convention of the American Federation of Labor today by President Samuel Gompers, as a "traitor to the cause of America, to the cause of freedom, an enemy of labor and of Ireland."

The statement, with many other denunciatory remarks regarding Hearst, made by President Gompers in reply to a question from the floor as to his stand on the Irish question, was cheered and applauded by the delegates.

The veteran labor leader declared Hearst had attacked him because he had declined to be "chained to his mad chariot for the president of the United States," and because he had tried to "see to it that Mexico shall go undisturbed and not overrun by the American forces."

Defining his stand on the Irish question, President Gompers declared that he had carried out every declaration of the federation extending sympathy and aid to the Irish republic.

"The only real charge against me," he said, "is that I have not freed Ireland."

"I challenge any man to show I have been faithless to any declaration made by the American Federation of Labor or that I have been false, faithless or negligent to any of its directions."

"When the American Federation of Labor declared that policies be pursued, even if they drove men to jail, I did not falter in the fight or in the faith."

President Gompers expressed regret that he had to discuss this matter before the election of officers.

The convention today voted down a proposal calling for an amendment to the constitution of the United States taking the power of declaring war from Congress and placing it in the hands of the people through referendum vote.

The declaration which went to a roll call after a stormy debate also provided that "all those voting in favor of the declaration be compelled to take up the active prosecution of the same before those who voted against the declaration of the war."

Government ownership of the railroads and nationalization of the mines are the two major issues on which John L. Lewis hopes to win the presidency of the federation, it was learned today. On the other hand, President Gompers was striving for re-election upon his record of the past 41 years as a leader in the American labor movement.

In his first public statement as to his platform, Mr. Lewis, president of the United Mine Workers, said:

"I stand for government ownership of the railroads and nationalization of the mines, and other progressive legislation that will give the workers and the toilers of America the freedom and justice in industry they deserve."

"I stand for health insurance, old age pensions, and unemployment insurance—all progressive measures for the relief of the working masses. The enactment of laws covering these subjects would give to the workers adequate protection and reward for service that they have rendered industry."

Mr. Lewis said that he had taken no definite stand on the subject of relations with European trades union movements.

While President Gompers issued no statement, supporters in his behalf declared that his "record in the American labor movement dur-

ing the past 41 years would re-elect him to the presidency."

This made the issues between the two candidates clear, as President Gompers already has gone on record against government ownership, unemployment insurance, health insurance and other similar proposed legislative measures.

Supporters of both candidates continued their campaigns at top speed today, carrying their electioneering to the floor of the convention, where they went from group to group of delegates soliciting their support. Little change, however, was shown in the line-ups for the candidates.

#### AN EXTRA SESSION HAS NO FRIENDS.

Raleigh, June 23.—Belief obtained in administration circles today that the governor and the council of state will not give final consideration to the proposed extra session of the legislature until after July 15, on which date Treasurer Lacy will open bids for \$8,372,500 state bonds.

There is a wave of strong opposition to calling members of the legislature back here—particularly so among the lawmakers themselves—and if any possible way can be found for the municipalities to get along without closing doors and nothing else interfering, the governor will not be disposed to make the call nor members of the council of state to concur in a call.

Administration officials today found a precedent upon which they hang the belief that the special session now threatening the state may be averted. It is recalled here that during Governor Kitchen's administration, in 1910, the state found it almost impossible to market refunding bonds amounting to more than four million of dollars. In view of the critical situation, a call was made for a special session of the legislature.

Before the date for the convening of the extra session, a conference of state bankers was held in Raleigh and by a half million dollars the refunding bonds were over-subscribed. The state then did not know its wealth until the test came and with a fine display of patriotism the bankers met a critical situation and avoided a special session of the general assembly.

Bankers here, too, who have been interested in pools, still cling to the opinion that the cities may be saved without an extra session of the legislature. There is so much opposition to a call all over the state until every effort within and without strict administration circles will be made to save the state the expense of the extra session and save the members the tremendous inconvenience.

#### FINDS WOMEN'S RIGHTS ARE LOWERING MORALS.

Milwaukee, June 24.—Women's moral standards have declined, according to Clara Burnside, of Indianapolis, the only woman police captain in the country. The condition, however, was inevitable, she declared today at the Social Work Conference here. She predicted the near future would show an improvement.

"Women have demanded equal rights and privileges with men," she said. "Although indications are that, instead of men coming up to women's moral standards, women have come down to men's, this is only the inevitable swing of the pendulum to extremes which occur before all great equalizations."

#### NORTH CAROLINA WOMAN TRAINED AFRICAN BISHOP.

New York, June 23.—From African tribesman to bishop of the Protestant Episcopal church is the remarkable record of Rev. Theophilus Momolu Gardiner, D. D., who will be consecrated Bishop Suffragan of Liberia in the Church of the Incarnation, New York, today.

An interesting feature to North Carolinians is the fact that Miss Lula Higgins, of Asheville, was formerly a teacher in St. John's school, Cape Mount, Liberia, and that it was under her instruction that Dr. Gardiner began his climb to fame.

Dr. Gardiner's elevation to the episcopate is one of the romances of the domestic and foreign missionary society of the Protestant Episcopal church in the United States, and by a curious coincidence it comes in the year of the centennial anniversary of the organization of the society. He was born about fifty years ago in the Vey Tribe, of Liberia. As a babe, he was carried about the jungle in his mother's arms, and lived the primitive life of his people. At the age of ten he came under the notice of the missionaries at St. John's Mission, Cape Mount, Liberia, who taught him his letters. That was in the early eighties. By 1890 he had learned to read and write, whereupon, to escape the influence of relatives who adhered to paganism, he was removed to Cape Palmas, where his education was continued.

By successive stages he served as catechist and teacher at Ghodibo, an interior station, and at Cape Palmas, and as one of the faculty of Cuttington Collegiate and Divinity School, being subsequently made a deacon and then advanced, in 1906, to the priesthood and put in charge of Mt. Vaughn Chapel, the historic station of the mission, when he was transferred to St. James church, Hocman. He was elected Suffragan bishop early this year; and it thus happens that, in the heart of New York city, this native of the African wilds will be made a bishop of the church and commissioned to go back to Africa and preach Christianity among his native tribesmen who are strong in the Mohammedan faith. Church men regard the elevation of this child of the jungle to Episcopal honors as one of the most significant exhibits of the importance of the missionary movement in this anniversary year of the Episcopal missionary society.

Dr. Gardiner will be consecrated by the venerable Bishop Daniel Sylvester Tuttle, presiding bishop of the church 84 years old, who for 54 years has been engaged in the mission field, 20 years of which were spent in the Rocky Mountain section of the United States in the days before the railroads penetrated that region. He will be assisted by Bishops Manning, of New York, and Matthews, of New Jersey, and by Bishop Overs, of Liberia, who has just been made a member of the educational commission of that state by the president of Liberia. Another participant will be the Rev. F. W. Alliger, rector of All Saints church, Williamsbridge, N. Y., who was a schoolmate of Dr. Gardiner's at St. John's school, Cape Mount, Liberia, in the early days.

#### FORTY MILLION PEOPLE DEPENDENT ON FARMING.

Washington, June 24.—Secretary Wallace today told the senate agriculture committee that the establishment of a government farm export corporation as proposed by the Norris bill was "a banking matter."

"We shall, of course, if this bill becomes law, do our best to work it out," he added, "but I suggest that Eugene Meyer, director of the war finance corporation, be called before you to discuss it."

"You have not in any way over-estimated the degree of the emergency or the danger which threatens our agricultural interests."

Secretary Wallace, in a letter to W. E. Holler, of the Flint, Mich., chamber, who had asked the secretary's judgment as to the thing of first importance to be undertaken by trade bodies, wrote:

"Kill off the fallacy that it is immoral for farmers to adjust their production to the probable demand by curtailing a particular crop in the face of oversupply and ruinously low prices—a thing manufacturers have been doing from the beginning of time."

Approximately 40,000,000 people are now living on farms or directly or indirectly dependant upon farming, the secretary said.

#### BEAUFORT COUNTY MAN BITTEN BY RATTLESNAKE.

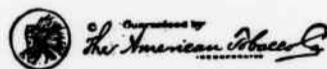

Washington, N. C., June 23.—John Buck, of Blounts Creek, was bitten by a rattlesnake Saturday and brought to the Fowle Memorial hospital here. It was thought at first that he was in a serious condition, but he is reported to be doing nicely.

As he was going to the field he saw a snake and took a step to get a stick to kill it with. As he took the step, the rattlesnake bit him on the leg, one of the fangs going through the trousers leg and into the flesh. After the snake had bit him, Mr. Buck stopped and killed it. The snake had 17 rattles and a button. It is one of the largest that has been killed in this section in a long time.

## A MODERN MARTYR.

There is an old, old saying about men being born great, achieving greatness and having greatness thrust upon them. The most typical case of the latter classification that has come within our observation is that of Frank A. Linney, who admits that he was not the author of the now famous "Linney letter," circulated by Republican campaign headquarters preceding the election last fall. While proving a perfect alibi as to responsibility for the letter, Mr. Linney undertakes to capitalize the opportunity by adopting the circular as his "sentiments."

Friends and sympathizers of Linney are making a tremendous stir in an endeavor to present him as a martyr to "Lily White Republicanism."

While we don't know and cannot conceive the meaning of that term, it is easily suggestive of martyrdom. Nor is it difficult to imagine that Mr. Linney or his associate pie-hunters would choose such a martyrdom in preference to an attorneyship, collectorship or such pickings as may have been distributed at the friendly pie-cutting party held in this city some time ago by the chosen few.

After so much greatness being thrust upon him, after realizing the extent of his heroism and the fact that he is a genuine martyr, it is most likely that Mr. Linney will spurn a mere district attorney job.

While the affair has presented an amusing situation, it has likewise indicated that there is no change in sentiment of the northern Republican bosses. After the Linney experience it may prove expedient for some of those who are yet to follow in his footsteps to claim authorship, or at least to adopt as their own, the "sentiments" as contained in the campaign letter circulated last fall and signed by the "Colored Women's Rights Association."

## WELCOME VISITORS.

While Greensboro is always glad to entertain conventions, extending a hearty and cordial invitation to all, the gathering of men that assembled here last week was especially welcome. The progressive merchants of the state are among her valuable assets and they occupy a most vital relation to the commercial life of every community.

The broad minded merchant, the merchant of vision, realizes that if he is to prosper, if his business is to develop, that his community must develop. We believe that the leading merchants of the state, certainly of this section, are impressed with such a realization and they are to be found incessantly working for the best interests of the commonwealth. While their charitable instincts or progressive dispositions are often imposed upon, it is indeed seldom that they fail to respond when a worthy undertaking or a righteous cause is proposed.

It was also encouraging to note the spirit of optimism that prevailed among the men who maintain a constant touch upon the business pulse of the state. While the average merchant has pocketed a considerable loss during the past year, there was no grouching to be heard. If any grouches were present they forgot about their belly-achings for the time being and their attentions were at least temporarily directed toward an improvement of the future.

The spirit of home, faith and good

courage was an inspiration and should serve as a helpful tonic to those who have entertained any misgivings concerning the immediate or distant future.

The noise of hammer and saw from down about the old King place, where the two new tobacco warehouses are being constructed, should be cheerful music to all who have at heart the best interest of a sure enough Guilford county tobacco market.

The severe rebuke administered to Admiral Sims may not have been so bad were it not for the fact that the rebuking was done by one who but a few short months ago would have been forced to recognize the admiral as his superior.

## WANTS NAMES OF ALL PROFITEERS PUBLISHED.

Washington, June 24.—Names of the profiteers in 1918 would be made public under a resolution introduced to-day by Representative Beck, Republican, Wisconsin, who said they had names of war slackers printed to divert interest from themselves.

Two lists are requested. One would comprise "all individuals, firms and corporations, together with the names of the officers and directors of such firms and corporations, who made during the year 1918 net profits amounting to more than 25 per cent of their outstanding capital," and the other would include those "who evaded, falsified or wilfully understated the amount of their incomes and profits during the period in which the United States was engaged in war."

"It is known," said Mr. Beck, "that there is more than \$1,000,000,000 in taxes being held back by these same profiteers." He declared certain big business interests, "in order to divert attention from themselves, prevailed upon the war department to publish a list of deserters, admittedly an incorrect one."

"In order further to divert the attention of the people, certain big business interests are sending tons of literature to congressmen yelling about 'reds' and 'radicals.' What the people want to know is, who are the 'blacks.'"

## HARDING'S REFUNDING BILL IS CRITICISED.

Washington, June 24.—Criticism of the administration bill for refunding the \$10,000,000,000 allied debt was voiced to-day in the senate.

Senator Ashurst, Democrat, Arizona, protested against giving the secretary of the treasury authority to extend payments of interest; Senator McKellar, Democrat, Tennessee, assailed provisions which he said would permit the secretary to "swap" America's good credit for "worthless German, Austrian or Turkish reparation bonds," and Senator Smoot, Republican, Utah, said "frankly," that the bill would confer "too much power" on Secretary Mellon.

The principal attack was made by Senator McKellar, who said the provision authorizing the acceptance from debtor nations of their bonds or those of any other nation, in the refunding process, should be stricken from the bill.

## COLOR LINE STILL STANDS WITH A. F. OF L.

Denver, Colo., June 24.—The convention of the American Federation of Labor to-day voted down a constitutional amendment designed to give women "equal rights and privileges of membership in the union of their trade or industry." All affiliated unions, however, were urged not to discriminate against the woman wage earner and admit her to membership.

Efforts to wipe out the "color line" in organized labor organizations also failed. The convention took the stand that national and international unions could not be compelled to recognize negro workers and that this was a matter to be adjusted by conferences between the negro wage earners and the various organizations.

Both questions were the subjects of long and stormy debates in which discrimination by certain unions against the negro and woman wage earners was bitterly denounced.

## Cloudburst in Tennessee.

Bristol, Va.-Tenn., June 24.—One woman was killed and several severely injured when Kingsport, Tenn., was visited by a cloudburst this afternoon. Several streets in the business section were flooded and great damage was done to property.

## PINEHURST WOMAN NOW DENIES GRAVE CHARGE.

Carthage, June 23.—Although Jim Maples, of Pinehurst, is in the Moore county jail held in default of \$5,000 bail for criminal assault, the charge being that he held his wife and forced her to submit to an assault by a negro, Jake Smith, later facts brought to light cause many to doubt the man's guilt. His wife was in Carthage yesterday consulting an attorney and she denied the charges, stating that while he was drunk she had trouble with her husband and had had him placed under a peace bond.

After they had "made up" and returned home and were sitting together talking, she said a crowd of men approached their house in the Pinehurst neighborhood and carried Maples away. He was taken to Aberdeen and given a hearing before Justice Wilker, who held him for trial in the Superior court. The negro in the case, Jake Smith, who drives a gasoline wagon out of Aberdeen, was freed.

## FARMER KILLED BY HIS THREE-YEAR-OLD CHILD.

New York, June 24.—Michael Grene, a farmer of Oil City, N. J., is dying in the Somerset hospital at Somerville of a bullet wound in the abdomen, received when his three-year-old child shot him yesterday. Grene had cleaned his .38-calibre revolver, loaded it and left it on a table in his home. The child grabbed the weapon and discharged it.

Physicians at the hospital say Grene's intestines have been punctured by the bullet and he cannot live.

AND when you decide to bake or stew you'll be able to do either on a New Perfection Oil Cook Stove—with the least possible trouble. All the heat you

want for any kind of cooking is ready in an instant. No waiting for the coal fire to "come up".

The white-tipped New Perfection flame produces quick, clean heat and the long blue chimney drives it all up to the cooking utensil or oven. All the heat is used to cook with. None of it is wasted in the form of soot on your pans; only a negligible amount is radiated about the

kitchen, which makes for comfort, even on warm days.

Then, too, the three million and more housekeepers who use New Perfections are not bothered in their kitchens with coal, ashes, dust, wood and litter. And they know what a saving of time and labor that means.

The New Perfection is sturdily built throughout, is equipped with brass burners and will last for many years with ordinary care.

For best results use clean, pure Aladdin Security Oil—it's economical—for it's all heat.

## IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all.

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish.

"I was . . . nervous and easily upset.

I couldn't rest well at night and was . . . just lifeless.

"I heard of Cardui and after reading I decided I had some female trouble that was pulling me down. I sent for Cardui and began it . . .

"In a very short while after I began the Cardui Home Treatment I saw an improvement and it wasn't long until I was all right—good appetite, splendid rest, and much stronger so that I easily did my housework.

"Later I took a bottle of Cardui as a tonic. I can recommend Cardui and gladly do so, for if more women knew, it would save a great deal of worry and sickness."

The enthusiastic praise of thousands of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it. J. 78

#### A BAND OF AUTOMOBILE THIEVES ARE CAUGHT.

Columbia, S. C., June 23.—A wedge has been inserted into an organized band of automobile thieves, said to number at least fifty, operating in the southeastern states, by the arrest of four alleged principals in the traffic by the authorities of Richland county, the recovery of nine stolen automobiles and the location of six others which will be in the hands of the officers shortly.

Likewise, the arrest of members of the particular branch of the major gang revealed that at least 20 others are scattered from Richland, Va., to Tampa, Fla., and there are assurances that many of these will be recovered and returned to their owners. Warrants for five others of the clique have been sworn out and they will be arrested in a few days, in addition to arrests to be made by North Carolina authorities of lesser members of the band.

Those arrested and incarcerated in the Richland county jail are William Burn, alias Charles Mitchell, alias Thomas Harris, whose home is six miles from Asheboro, N. C.; Emory Rickard, a farmer of Lexington county, this state; J. E. Williams, of near Asheville, N. C., and Will Calhoun, of Greensboro, N. C. It is known by the authorities that the last two men have given aliases.

Of the cars located and recovered are nine Ford roadsters and touring cars stolen from Columbia; two automobiles from Spartanburg, one from High Point, N. C., one from Randleman, N. C., and one from Rutherford, S. C.

When apprehended the gang had in its possession a complete set of tools for changing tires, wrenches, paints, parts of cars.

#### ADMIRAL SIMS REPORTS TO SECRETARY OF NAVY.

Washington, June 23.—Secretary Denby expects to announce tomorrow his decision in the case of Rear Admiral Sims, recalled from London to tell the secretary exactly what he said in a recent speech. Reports of which quoted him as severely criticizing Irish sympathizers in the United States.

The admiral reported to Mr. Denby this morning and declared that he had been inaccurately quoted in accounts of his speech. The secretary promptly instructed him to state in writing specifically, as far as possible, the instances in which he had been misquoted and to give, as far as he could, a text of what he actually said. Less than two hours later the admiral had transmitted his report to Secretary Denby, who returned to a local hotel to await the outcome.

Secretary Denby carefully studied the admiral's report this afternoon and then took it with him for study this evening.

"Admiral Sims has submitted the statement I asked him to give me," Mr. Denby said, "and I have read it. I cannot discuss any feature of it at this time. My final decision will be made public soon, probably tomorrow afternoon."

Washington, June 24.—President Harding's first nomination of a woman to be collector of customs was sent to the senate to-day when he named Jennie P. Musser to be collector for district No. 48 with headquarters at Salt Lake City, Utah.

#### FRANCE SUES FEDERAL RAILWAY DIRECTOR.

Atlantic City, June 24.—Hearing before a special examiner of the interstate commerce commission of the suit for \$2,500,000 instituted by the republic of France against the federal railway director has begun at the Marlborough-Blenheim hotel.

The French republic sues because of alleged unreasonable storage charges at the port of New York on munitions belonging to France during the period of actual warfare between the time this country was engaged in the war and the armistice.

The contention of the French government is that France was one of the allies of this country during the war and the charge of \$2,500,000 storage charges by the railroad director was unreasonable.

The only witness heard has been C. E. Bell, of Washington, D. C., traffic expert for the French republic. C. R. Marshall, of Washington, is attorney for the complainant and John F. Finerty, of Washington, assistant general counsel for the director general of railroads, represents the government.

The hearing may continue for the remainder of the week. One of the interstate commerce commissioners will be present tomorrow.

#### BIG PLANTERS FAIL TO SIGN TOBACCO CONTRACTS.

Farmville, June 24.—Co-operative marketing is not popular with the farmers of this section. The campaign for co-operative tobacco marketing will almost surely fail here this year at least.

But this does not mean that no farmers are signing the "co-operative contract." A goodly number have done so including some prominent planters. But there is a larger number who have not. The sentiment, however, is not against the new system. All the planters fear making a mistake at a time when a false move might be unwise. Times are so critical that they consider any risk as very unwise.

It is a fact that hardly any of the big land owners who live in this city have signed the contract. And yet hardly one of them is really hostile to co-operative marketing.

Also the farmers' co-operative tobacco warehouse company, an organization composed of 225 planters, is neither supporting nor opposing the plan. Among the prominent and influential tobacco growers who have not yet signed the co-operative marketing contract are Messrs. R. L. Davis, W. H. Moore, L. C. Lumage and McD. Horton.

#### CONFEDERATE REUNION TO BE HELD IN AUGUST.

Wilmington, June 24.—In a general order issued to-day, General James I. Metts, commanding the North Carolina division, United Confederate Veterans, called the annual veterans reunion in Durham, August 23, 24 and 25. The order accepts the Durham invitation of several days ago.

General Metts states that reduced railroad fares have been applied for and that veterans unable to pay for accommodations at the reunion will be cared for free of charge.

No camp can have representation at the gathering unless its dues have been paid to Adjutant General Booth in New Orleans and appointment of official ladies for the reunion is limited to descendants of loyal Confederates, the order says.

# SECRETARY DENBY GIVES SIMS PUBLIC REPRIMAND.

Washington, June 24.—Secretary Denby to-day "publicly" reprimanded Rear Admiral William S. Sims as a result of the speech the admiral made in London in which he criticized Sinn Fein sympathizers in America.

In the reprimand, Mr. Denby pointed out that once, before the navy department had found it necessary to take similar action against the officer for an address delivered in London in 1911, and referring to the text of that reprimand, added:

"Your remarks on the occasion now under discussion, therefore, constitute a flagrant and deliberate disregard of specific instructions."

While the naval secretary was making public the reprimand, Admiral Sims was calling on President Harding at the White House. It was explained that the admiral called to leave his card, as is the custom when high naval officers return from a trip abroad, but that the President invited him to chat for a few minutes.

Upon leaving the White House Admiral Sims, referring to the reprimand, said:

"I got what I deserved, the same old thing."

He added that he regretted having caused the administration any inconvenience, but said that he now considered the incident closed.

So far as could be learned, the reprimand was not mentioned during the admiral's visit to the President. Upon leaving the White House the officer joked with newspaper correspondents. Asked if his conversation with the executive had been pleasant, he replied, sharply, but with a smile:

"Of course it was."

Admiral Sims left tonight for Newport, R. I., where he will resume his duties as president of the Naval War College. He went abroad several weeks ago to receive a degree from an English university. After his London speech his leave was revoked by Secretary Denby and he was ordered to return to America immediately.

The officer will be furnished with a copy of his reprimand, and, it was explained, another copy will be attached to his record. Other copies, naval officers said, will be distributed to the naval service in the form of a general order to be read to the crews of all vessels and stations, along with other orders, on the first Sunday of the month after promulgation to the service.

## LINNEY EXPLAINS LETTER; WILL BE CONFIRMED.

Washington, June 24.—Frank A. Linney will be confirmed as district attorney of the western district of North Carolina. The negroes will offer no more opposition to him. Linney secures this by having "explained" his letter to the women of North Carolina, the sum and substance of his explanation being that he did not mean what the negroes thought he meant, that they had placed the wrong interpretation on it, that he would as district attorney see that they had every political right preserved for all who were qualified to register and vote, that he did not stand for violation of the law, and had not intended to have it so expressed in the letter which he had fathered, that it was a "Meekins-Grisson-Holton" letter over his signature as Republican state chairman that he stood by it with the interpretation that he placed upon it.

The explanation of Mr. Linney was accepted by Henry Lincoln Johnson, the negro national committeeman for Georgia, who appeared before the sub-committee in behalf of the North Carolina negroes who protested the Linney confirmation. It was accepted by Prof. D. C. Suggs, of Salisbury, spokesman for the North Carolina negroes. They agreed that they had not understood the Linney letter as he explained that he meant, that they had thought he had intended to connive at their disfranchisement, to shut them out from the ballot box, but that they found that he was going to stand for their participation in voting as they were qualified to vote. And so they laid down their weapons of offense, and the hearing before the sub-committee became a veritable "love feast" as one who was on the inside put it, for newspapermen were excluded from the hearing, which was executive in part, only representatives from the opposing black and white wings of the Republican party being left in the room with the sub-committee, after the big crowd which had gathered for the hearing moved out by invitation of Senator Ernst.

# HEAVY CHARGE DYNAMITE PLAYS HAVOC IN DANVILLE.

Danville, Va., June 24.—Several people had narrow escapes early this morning when a very heavy charge of dynamite discharged to loosen earth in the foundation of the new Masonic temple blew a cloud of dirt and shattered timbers into Main street. Fragments of wooden boards laid over the charge to prevent flying debris landed on the roofs of buildings and half a dozen windows were shattered. Nobody was hurt but there was a rush for cover as the debris went up. Smaller charges had failed to have the desired effect and the heavier charge did more than was expected.

We begin to suspect that the war department mislaid the slacker list and printed the roll of honor as a substitute.—New York World.

REFRESHMENTS SERVED FREE.

### THIS FARMER CONVINCED THAT THERE IS A HELL.

S. H. Everitt, a farmer, of Penny Grove farm, Garner, N. C., thus writes the Raleigh News and Observer:

On an advance market cotton was selling 2 1/2 to 11 cents per pound. One bale in every 500, I am told, grades up to the 11-cent standard. You pay at any clothier's \$1.50 for a pair of cotton breeches by the yard or piece. None of our cotton bolls run a session without a market, yet every man who has ever bought a pair of these breeches sacrifices 20 bales of cotton.

Points sell for 9 cents per pound, single, or by the dozen, as the dealer says. After you have worn the pair off you can sell them back to the laundry for 15 cents per cwt. The dealer made into more points, to be sold at 5 cents per pound.

But sells for 5 cents on foot. The dealers say they could pay for the live carcass but for the dealer's hides are too low to pay for or butchering. Still enough to make you half-sole your plow shoes for 50 cents.

The lacrimal organs collapse with the hide of the man who carried the hide to Raleigh, paid a dealer to put his mule up at a stable and while he was there, the dealer stole his hamstring. He took the nickel his wife gave him to get the children some candy, but another string for 25 cents. But why worry? The mule is new tie and no doubt was a hell.

But rates are so exorbitant that the dealer predict that this season's crop of melons will have to be sold at the hog's. Things too numerous to mention are holding on with a tenacious grip to wartime prices, while others are having to sell one-fourth to one-half cost of production.

A modern Jacob asked with seeming sincerity if there was a hell where had business gone. I would like to take that lost sheep of the house of Israel by the hand and add him to the flock. I would like to give him to the flock along that score for, undoubtedly there is a hell. In the language of the amateur debater, I declare most emphatically there is a hell. An all-wise and just Creator could not have fixed it otherwise

without doing violence to His attributes.

I know the above argument is altogether conclusive and convincing, hence there will be no more doubt in the mind of any one who may chance to read it, as to the certainty of a future place of eternal punishment.

### WANTS UNRESTRICTED AUTHORITY FOR MILLIONS

Washington, June 23.—Unrestricted authority for the secretary of the treasury in refunding the approximately \$10,000,000,000 owed by the allied nations to this country was asked by President Harding today in the first administration bill sent to Congress.

The bill, drafted at the treasury department, was forwarded by the President to chairmen of senate and house committees with urgent recommendations for enactment. It was introduced immediately in the senate by Senator Penrose and committee hearings ordered for next Wednesday.

Complete powers for settling with the allied nations would be vested in Secretary Mellon under the bill. With the President's approval, he would be authorized to accept the securities of debtor or other nations in exchange for their notes. The bill also would confer unlimited authority to defer payment of interest or principal, and to settle outstanding claims against the United States.

### WOMEN ASK CONGRESS FOR EQUAL RIGHTS.

Washington, June 24.—The National Woman's Party announced today that it would demand that Congress adopt a resolution to submit a constitutional amendment providing for equal rights for men and women.

The amendment will say that equal rights shall not be denied to women or abridged on account of sex or marriage by the United States or by any state or territory subject to the jurisdiction of the United States.

### WINSTON-SALEM MAN ABOUT TO STRIKE OIL.

Winston-Salem, June 23.—L. K. Mathews, who has run a passenger engine on the Norfolk and Western between this city and Roanoke for several years, and one of Winston-Salem's highly esteemed citizens, last year bought 160 acres of government land near Page, Okla. Recently he was advised that oil had been discovered on land a few miles north and west of his place and now he is receiving requests to grant leases on his farm, the prospectors desiring to dig wells thereon.

One well has been dug on his land and he has been informed that a fine coal vein was struck only eight feet below the surface. An expert has advised Mr. Mathews not to lease more than half of his plantation, insisting that he will certainly discover either coal, oil or gas when developments are made.

The engineer is inclined to the belief that his investment in Oklahoma, which cost four dollars per acre, besides \$450 he paid to a company to secure the title, will prove a wise one. One expert has predicted that the Oklahoma farm will make Mr. Mathews a rich man.

Before a most appreciative audience at Cone park Saturday afternoon the Greensboro nine took a clean victory from the Durham Bulls, the score board at the end of the contest showing 10 runs for the home team and nothing but goose eggs for the visitors.

O'Quinn was on the mound for the Patriots and he had everything his way during the entire game. Caviness did the twirling stunts for Durham.

## GOMPERS RE-ELECTED PRESIDENT A. F. L.

Denver, June 25.—President Samuel Gompers and his entire administration was returned to office for another year by the annual convention of the American Federation of Labor, after overwhelmingly defeating opposition for the presidency, and one of the vice presidencies.

Daniel J. Tobin, of Indianapolis, was re-elected treasurer and Frank Morrison, of Washington, was re-elected secretary.

Cincinnati, Ohio, was selected as the place for the 1922 convention. Fort Worth, Texas, was the only other city considered.

This sweeping victory, the labor chief said tonight at the close of the federation's 41st annual convention, demonstrated that the American trade union movement "will not submit to dictation from the forces of corruption or greed—neither the Hearsts nor the Gays can chart our course or select our leaders."

## STOLEN PACKARD LOCATED SATURDAY IN PENNSYLVANIA.

Thos. C. Hunt, local distributor of Packard automobiles, received information last week that the Packard automobile stolen from him in Durham last Tuesday had been located in Harrisonburg, Pa. The message received by Mr. Hunt stated that the driver, who gave his name as J. O. Carter, had been arrested and was being held. The chief of police of Durham left Saturday afternoon to take charge of and return the thief to Durham county, where the theft was committed.

It is said that the arrest in Harrisonburg was made Wednesday evening, about twenty-four hours after the car was missed at Durham, which would indicate that the driver wasted no time in leaving this section of the country.

## DAVID R. SETTLE RECEIVES CLEMENCY FROM GOVERNOR.

Violation of the terms of the parol will re-instate the sentence on the county roads.

## GERMANY TO RETURN ALL SEIZED PROPERTY.

Washington, June 23.—All American property sequestered by the German government during the war will be returned to its owners immediately, the state department officially was advised to-day. The property now held is understood to be mostly cash on deposit in German banks when war was declared.

It was said at the department to-day that under the provisions of an act passed by the Reichstag in January, 1920, repealing certain war measures, and the release of alien property held by the trustee of enemy property, the German government had been returning some of the property taken over, upon application of the legitimate owner. It is the understanding of the department, however, that American cash holdings have not been generally released up to the present time.

According to information in the hands of the department, American property taken over by Germans at the outbreak of the war totalled about \$25,000,000. It was said at the office of the solicitor that there is no information obtainable as to just how much has been returned.

Officials of the office of the United States alien property custodian said to-day that enemy property still held by the custodian is valued at approximately \$450,000,000. Just how much of this is property of German nationals, it was said, cannot be told at this time, as it includes property of other foreigners then living in Germany.

The alien property originally taken over by the United States government totalled nearly \$1,000,000,000, but much of this has been returned to former owners, who under the law were entitled to it, and to American women whose husbands were of German descent.

Senator Knox said this afternoon that the action of the German government will have no effect whatever on the pending peace resolution, which provides for the protection of all American rights. There will be no change in the resolution as framed.

It is held by senators that German claims against the United States for damages resulting from the war constitute a small item compared with those of American citizens. For that reason the matter of adjustment will be worked out while the property taken during the war remains in possession of the government.

## Law Regarding Threshers.

The North Carolina commissioner of agriculture announces, in co-operation with the U. S. department of agriculture, that the law requires each thresher of grain to secure a threshing license, from the register of deeds before operating. This license is free—no cost for same.

In the same way that the operator has to have a license, it is also necessary for each farmer to see that the party threshing his grain has a license. Each thresher must keep and report the bushels threshed and the acres from which the grain was harvested.

All thresher operators should at once get their licenses, when a notebook for keeping the records required, as well as the report sheets, will be given them. These books are to be retained permanently by the operators for personal records. But at the close of the threshing season or not later than September 15, a complete report up to that date must be made to the register of deeds. The thresher's reports are not to be sent to Raleigh, but to the register of deeds of each county where the threshing is done.

A word to the wise is: Operate with a license and be sure the operator is licensed. Failure for a thresher to report means \$25 fine, although the license costs nothing—is free. The records made will be a business memoranda for reference in later years and for making collections from farmers.

This information is used as a check on how much grain we produce and where it is made. It is a good business and educational provision.

## BANDITS FAIL IN ATTEMPT TO ROB BANK.

Elgin, Ill., June 24.—Three bandits who attempted to rob the Farmers' Bank, of Schaumburg, near here, to-day, not only obtained no loot but left their own money.

The bandits were foiled by H. W. Freise, president, who although shot by one of the robbers, set off the burglar alarm. The robbers, who had given Freise a dollar to change and then commanded him to hold up his hands when he turned his back, ran from the bank when the alarm sounded.
