Z. B. Morris, one of the three defendants in the suit instituted by Jim J. May in which the plaintiff asks for \$19,000 damages for alleged false arrest on the charge of stealing chickens, on Friday answered to the complaint. Mr. Morrison, who is a Davidson county deputy sheriff, denies that it was a false arrest. He declares the warrant served on the plaintiff was valid one and that he was simply assisting Deputies Mingo and James Guilford county, in making a lawful arrest. The defendant asks that the action be dismissed and that the plaintiff be taxed with the costs of the case.

## SENATE REJECTS SALES TAX PLAN

Washington, Nov. 4.—The sales tax as a source of federal revenue, at this time was definitely rejected today by the senate, but there was further evidence that it was the purpose of Republican congressional leaders to bring it forth later as a means of raising funds to finance the proposed "five way" plan for adjusted compensation of former service men.

The majority today against the Smoot amendment to the tax revision bill proposing a business sales tax of one-half of one per cent, was even larger than was that last night against the Smoot one per cent manufacturers' sales tax. The vote today was 46 to 25 last night.

As was the case with the manufacturers' tax, the Democrats voted solidly against the business tax. They were joined by 22 Republicans.

The senate continued consideration of the tax bill at a session tonight but with the soldier bonus and other important amendments yet to be disposed of, Republican leaders abandoned hope for passage of the bill this week. They sought to obtain unanimous consent for a final vote at 3 p. m. Tuesday with debate limited after 3 p. m. Monday, but the plan fell through after some debate.

## TWO ARRESTED

And Whisky Flows Freely  
From Bottles Badly  
Broken

Once upon a time—'twas last Thursday morning about the time that roosters are wont to crow most vociferously in salutation to the coming dawn—Deputy Sheriff Boatman Clark displayed a lot of perfectly natural curiosity and, as often of yore, p. n. c. was rewarded, as shall presently be set forth.

The officer on Wednesday night had received a grapevine wireless to the effect that in all human probability a liquor-laden automobile would wend its way through the Revolution mill village in the wee sma' hours immediately preceding the dawn. Mr. Clark located the automobile betimes, but the occupants were no college chums of his'n, and they stepped on the gas.

The ensuing race was of a piece with the wild western movie stuff. After breaking about 'steen hundred speed records, the men in the car which lacked Mr. Volstead's blessing found themselves in a few additional pecks of trouble, for the machine, refractory as machines sometimes will be, suddenly capsized—it no it wasn't a boat; it simply turned over.

The occupants turned over, too, and the dratted machine settled down comfortably atop its late occupants. When the pursuing officer arrived the men implored him to have a heart, or words to that effect. Would he be so good as to lift the car so that they might arise?

Being an obliging officer, Mr. Clark acceded to the fellows' request and without the formality of an invitation to do so he placed the two men under arrest. The crisp early morning October air was redolent of the spirit of John Barleycorn. The fragrance, it was discovered, was due to the breaking of a number of bottles from which liquor flowed more or less fantastically.

Claude Jones and Lum McLeod, the men who had been pinned underneath the car, were given a preliminary hearing Thursday before Justice of the Peace D. H. Collins, and they were held for Superior court.

A number of able Sunday school leaders are instructing the class.

Both men were hurried to a local hospital by the Hanes ambulance. After receiving medical attention D. D. Jessup was discharged from the institution. It is feared that his brother's injuries are serious.

## SUIT AGAINST MILLS

Southern Power Company  
Files Complaint in Federal Court

Complaint was filed Friday in Federal court by the Southern Power Co., against 1 North Carolina cotton mills, asking that the mills be required to pay the company \$68,000, that sum representing the difference between the old contract rate at which the S. P. company supplied electricity to the mills and the increased rates authorized by the state corporation commission last July.

The cotton mills refused to pay the increase authorized by the commission, appealing from that decision on the ground that the rates were excessive. As a matter of fact, the power company also appealed from that decision, contending that the increase was insufficient. The matter will be stoutly contested by both sides in the courts. It is generally understood that the litigation will finally be determined by the Supreme court of the United States.

The action of the Southern Power company is directed against the following textile concerns: Amazon Cotton Mills, Thomasville; Cannon Manufacturing company, Kannapolis; Kessler Manufacturing company, Salisbury; Wicasset Mills company, Albemarle; Efrid Manufacturing company, Albemarle; Jewell Cotton Mills, Thomasville; A. M. Smyre Manufacturing company, Gastonia; Groves Mills, Gastonia; Patterson Manufacturing company, China Grove; Cabarrus Cotton Mills, Concord.

RED CROSS OFFICERS  
ARE RE-ELECTED HERE

Oettinger, chairman; Mrs. D. H. Blair, vice-chairman; Mrs. W. C. A. Hammel, secretary, and Miss Clyde Peele, treasurer. Mrs. Dorothy Hayden was re-elected county health nurse and Miss Peele was again chosen home service secretary. Excellent reports regarding the work of the year were submitted by Mrs. Hayden and Miss Peele.

Truly, expert cooks roll their own—dough.

As this is written the Watson charges anent hanging are hanging fire.

New York's milk fight is described as a "finish fight." Finish with water?

It's a dull day which fails to bring another rebuke for Ambassador Harvey.

Some folks would probably like to send their coal bills to Judge Anderson.

Former Emperor Charles may think he's hard-boiled, but he may yet find himself French-fried.

Thanksgiving day approaches and a number of turkeys are first-class prospects for the casualty list.

Making amends for the tax bill's shortcomings is not so easy as making amendments to the tax bill.

The statement that the grain market is back to normal may be taken without the proverbial grain of salt.

Apropos of the unemployment situation, it may be noted that the senate is "working" on the tax bill.

If freight rates and armaments were reduced simultaneously it is doubtful if we could stand the shock.

Sinn Fein prisoners in the Bally Kinkar district have been released. It is to be hoped that they are not bally-heo artists.

Hyde county now has the first passenger train in its history, and no longer will railroad rates be an academic question down there.

German marks are now worth about one-half of one cent. In other words, a mark is worth just about as much, as the unlamented ex-kaiser.

Champagne is said to be selling at 65 cents a bottle in Germany. And many members of the American Army of Occupation do not appear to be anxious to come home.

Just when our hopes regarding the possibility of reduction of armaments were beginning to soar, Lord Northcliffe came along and said he was optimistic as to the conference to be held in Washington.

## AN INESCAPABLE DUTY

The movement looking to the erection of a tuberculosis sanatorium in Guilford county is now assuming tangible form, it is gratifying to note. Late Friday afternoon a representative body of citizens from various sections of the county, meeting in this city, reached the unanimous conclusion that such an institution should be established without delay. It was also agreed that the matter would be presented tomorrow afternoon to the county commissioners. Those gentlemen will be asked to authorize a special election upon the question of issuing bonds to finance the enterprise.

As Dr. Rankin, head of the state health department, and others pointed out at Friday's conference, the need of a tuberculosis sanatorium in Guilford is acute. Last year, according to Dr. Rankin, more than 125 people in this county died from tuberculosis. Placing the value of human life at a minimum, he calculated that the county thus incurred an economic loss of a quarter of a million dollars or more. It is generally agreed that the situation cannot properly be handled unless greater facilities for treatment of tubercular patients are provided. The sanatorium offers the ideal plan.

The county commissioners are not unaware of the importance of the question. There evidently is ground for the belief, confidently advanced by many observers, that they will authorize the special election.

Then the matter will be in the hands of the citizens of Guilford county. When the people become familiar with the state of affairs they will surely ungrudgingly vote the bonds which will insure establishment of the tuberculosis hospital. The issue is entirely clear: Are we going to throw our full strength into the battle against tuberculosis, or shall we be guilty of indirect torture of unfortunate tubercular persons? Guilford is a great and progressive county, one in which the tide of humanitarianism runs high. Guilford can hardly fail to see its duty and perform it. It is inconceivable that the project should fail.

Of course the actual working out of the plan should be perfected with great care in order that the greatest possible returns on the money invested may be realized. It is apparent, however, that there need be no apprehension along that line. The bleached bones of tubercular victims and the wasted bodies of living sufferers make a mutually eloquent appeal for the utmost wisdom and care in executing each and every detail, just as they appeal to the big hearts and the loosening purse-strings of Guilford people everywhere for sanction of the great program which is being projected here.

## OVERLOOKED GEORGE

What a terrible mistake President Harding made in selecting the American delegates to the disarmament conference! Surely it must be apparent to everyone, especially to George Harvey, that he should have named only one delegate and that delegate should have been George Harvey. Then the manifold perplexing problems would have been solved with a few eloquent gestures from the Harvey hand. This away-ladies and gentlemen, see Colonel Harvey, the only living man who knows all the secrets of America's past, present and future, the only man who can state America's position on the thousand and one weighty matters of state, the arc and only great American diplomat! With a simple twist of the wrist and a few soft-spoken words he settles all the great international problems. Sure, let George do it!

The American ambassador to Great Britain has again been telling the Britons what this country will do and what it will not do. This diplomatic encyclopedia has diagnosed the case perfectly, of course, notwithstanding the fact that millions of his fellow-countrymen have not the perspicacity to

agree with him. No entangling alliances—no, a thousand times no! As for entangling diplomats, well that is a different story. Ask the American legion which a few days ago told George Harvey what a shrimp the American legion considered him.

How on earth President Harding could have overlooked such a fine bet is a mystery of the century. But perhaps George Harvey, who can most assuredly explain everything, will be good enough to explain why he was not made the King Bee of the disarmament conference.

## SAFETY FIRST

We are living in the hope that the cost of life insurance will not increase, notwithstanding the alarming increase in the number of children driving automobiles. Perhaps we are constitutional optimists. Many persons, observing the increasing tendency of those dashing drivers of tender years to treat 'em rough, doubtless would admit that such hope is not based upon the right foundation. Pedestrians do not need to take courses in physical culture; they can get all the exercise they need while dodging the cars driven by boys who know as much about automotive mechanism as George Harvey knows about the international position of the United States.

Yes, there is a law on the books, but, like many other laws, it seems to remain largely within the covers of the municipal volume. The statute needs some exercise, as well as pedestrians and automobilists who are duly licensed to drive. Some of Greensboro's streets are really wide, but some of the youthful drivers need half an acre in which to operate if the element of hazard is to be reduced to a reasonable minimum.

Certainly something should be done about it. And it should be done before obituary-writing time.

## MORE PLAIN WORDS.

Senator LaFollette, Republican, has been stating some unpleasing truths in connection with his assault on Secretary Mellon, Republican. Hear the Wisconsin senator:

"We have heard here from day to day that wealth degrades the government, that it will not pay its taxes, but the fiscal head of this government has laid it down as a proposition—and I am going to bring it before the country—that we cannot make wealth pay and that we might as well accept that proposition; that we have got to establish a system of taxation that will make the people pay; that wealth will not bear its share. That is the declaration and it comes loudly and bravely from the head of the fiscal department of this government. He ought to be retired from his place for making that sort of declaration."

Such language naturally irritated Senator Penrose, Republican leader, best friend of the big financial interests and trusted associate of the secretary of the treasury in the business of reducing the cost of taxation—for those of great wealth. However, Senator LaFollette advised the Pennsylvania senator and political boss to "keep his seat."

It is evident that Mr. LaFollette has Secretary Mellon's number.

## STRIKE EVIDENTLY AVERTED

As this is written it appears highly improbable that there will be a general strike of the coal miners. In Chicago the United States Circuit Court of Appeals has suspended the order recently issued by District Judge Adams prohibiting the check-off system in the mining regions. While the litigation has not been definitely determined, it is indicated that a decision may reasonably be expected in the early future. In the mean time the check-off system continues in force.

Judge Anderson's action in issuing the order prohibiting continuance of the system referred to has naturally evoked a storm of protest from various sections of the country. In effect he declared that unionization must be crushed. Such a position certainly is untenable. The miners

have a right to unionize and to continue their activities as members of unions. It appears inconceivable that the order of Judge Anderson would be upheld by the higher courts.

At the same time it may be observed that the miners were somewhat hasty in preparing to strike before the validity of the Anderson order could be determined. In other words, they were borrowing trouble—not only for themselves but also for millions of coal users throughout the country.

Naturally the people will draw a sigh of relief as a result of the decision of the United States Circuit Court of Appeals and the apparent prevention of a general coal strike.

## PREMIER HARA

What effect the assassination of Premier Hara will have upon the deliberations of the disarmament conference at Washington naturally is problematical. In some quarters there is much apprehension as to the possible outcome. It is generally agreed that Takashi Hara was a real statesman. Certainly he was the real ruler of Japan. He was considered a man of splendid judgment, one exceptionally well qualified to direct the affairs of state in that empire. Will his successor be committed to liberal policies, or will he be a plain militarist and expansionist? These are questions which cannot be answered now. Upon their answer may depend in large measure settlement of the vexing eastern problems.

The slaying of Premier Hara was indeed untimely. Observers everywhere will await developments with an unusually keen degree of interest.

## UNVEIL TABLET

Greensboro Folks Honor  
Memory of Dr. James  
E. Brooks.

Sanatorium, Nov. 5.—The District Nurse and Relief committee, of Greensboro, appreciating the pioneer work of Dr. James E. Brooks in the fight against tuberculosis in North Carolina, presented a memorial tablet to the North Carolina sanatorium, which was placed on the wall fronting the main entrance. The unveiling ceremonies were held this afternoon, in the presence of the staff of patients and a goodly number of personal friends of Dr. Brooks from Greensboro and elsewhere.

Dr. L. B. McBrayer, superintendent of the sanatorium, in accepting the tablet said:

"Dr. Brooks was a pioneer in sanatorium work in North Carolina. He went before the general assembly in 1907 at his own expense, spending the greater part of two months with this assembly, and secured the small appropriation of \$15,000 for the purchase of land and the erection of buildings to be known as the North Carolina Sanatorium for the Treatment of Tuberculosis.

"Dr. J. R. Gordon, of Guilford county, was chairman of the appropriation committee in the house at that session and collaborated with Dr. Brooks in securing this first small appropriation. Dr. Gordon was made a member and chairman of the first board of superintendents of the sanatorium and Dr. Brooks was elected by this board superintendent of the sanatorium and took up his duties immediately.

"These men had much to do with the selection of the site on which the sanatorium now stands and it is agreed by everyone, both medical and lay, who visits the sanatorium that a better site could not have been selected in this or any other state.

"It was under Dr. Brooks' regime that many of the buildings now being used at the sanatorium were erected and the present management mindful of the foundation work, both physically and in the public mind, that Dr. Brooks had done for our people, named the last building erected by Dr. Brooks 'Brooks Hall.' This building was unfortunately destroyed by fire, caused by a defective flue, some four years ago.

"We are prone to be unmindful of the builders of our civilization in North Carolina, particularly the foundation builders, and it is with the deepest gratitude that the sanatorium accepts this token of appreciation and love of the life and work of Dr. Brooks by his home people of Greensboro and Guilford county. It is a fitting place for this fitting memorial."

## SENTENCED TO DIE

Bonnie Andrews Convicted  
of Criminally Assaulting  
Little Girl.

Greenville, Nov. 5.—Bonnie Andrews, young white man of Pitt county, was sentenced this afternoon to die in the electric chair in the state penitentiary on Friday, December 23, between 10 a. m. and 3 p. m., for criminally assaulting Estelle Briley, 12-year-old school girl of the Stokes section of the county. The assault of which Andrews was convicted in Superior court here this afternoon at 4 o'clock is alleged to have taken place in a body of woods near Washington, N. C., last Monday.

Two hours and a half from the time the jury was given the case the verdict that Andrews was guilty of the felony and rape as charged was returned, the jury adding a recommendation for mercy. This, Judge C. C. Lyon, of Elizabethtown, informed them was a matter that could not be considered by the court, that the governor of North Carolina was the only person who could consider the plea of mercy.

Twenty-four hours from the time the girl went on the witness stand and related the story of Monday's happenings, the judge was speaking the death sentence. Andrews, while not in such good spirits as on the previous day, smiled as he left the courtroom between four deputies on his way back to the jail.

Throughout the trial he has shown no signs of any uneasiness, although his life was at stake.

## MISS HELEN FRASER

TALKS OF ARMS AND  
OF BRITON LEADERS

Intimate word pictures of Premier David Lloyd George, Winston Churchill, Austin Chamberlain and other leading figures in the political life of Great Britain were presented at the O. Henry hotel Saturday night in an address delivered under the auspices of the Woman's club of Greensboro by Miss Helen Fraser, of London, one of the three women asked by the British premier to stand for election to the house of commons.

Miss Fraser, who is intimately associated with the coalition government in England, declared that Mr. Lloyd George is essentially a political strategist. He enters a discussion with his mind made up as to what he wants, but without any unrelenting views as to obtaining all that he wants. He is ever ready to compromise. That willingness, the speaker thought, had proved the greatest single factor in his success in directing the destinies of the British government for almost five years.

Winston Churchill will probably play a highly important part in affairs of state in Great Britain in the future, Miss Fraser predicted. His is not a likeable personality, but he has great ability. Austin Chamberlain, the Unionist leader, possesses marked ability, but he is not a great man. Nor did the speaker find much of greatness in Mr. Asquith, the Liberal leader.

Englishmen, Miss Fraser said, are entering the disarmament conference in the firm and confident belief that it will result in material reduction of naval armaments, although land forces may not be greatly reduced at an early date. However, she believes that eventually land armaments will be decreased in proportion to naval arms.

The friendship of the people of Great Britain for the United States was emphasized by Miss Fraser, who also expressed the conviction that the English people will never consent for Ireland to become a separate nation.

# SHALL GUILFORD BUILD A TUBERCULOSIS SANATORIUM ?

**T**HIS question must be answered by the voters of Guilford. Tuesday a delegation of citizens and officials from all sections of the county will appear before the Commissioners with a request that an election be called to authorize the issuance of Bonds for the purpose of properly providing for the treatment of those afflicted with Tuberculosis. Every citizen of the county who feels this to be a public duty is invited to join the committee and give the movement the support of his or her influence. The hour set for the hearing is Tuesday, November 8th, at 3 o'clock.

## Not a Business Proposition, but a Moral Issue

Dr. W. S. Rankin, head of the State Health Work, declares the building of a Sanatorium to properly treat such cases as develop in the county to be a moral issue, rather than a business one. But Dr. Rankin also points out that Guilford last year had 125 deaths from this disease—he estimates the number of tuberculars in the county to be 900; the cost of treatment annually of these patients to be \$350,000, and the loss to the community in lost earning power, etc., to be \$250,000. The County can take a forward step in the prevention of this annual loss by the issuance of bonds in the sum of \$100,000 for the crection of a modern Sanatorium, and levying a small tax rate for the maintenance of the institution. This the delegation is striving for. If the commissioners call the election, the people of the county must rally to the support of this movement, must see that Guilford takes the forward step—that the county officially recognizes its duty to provide for the sick—and protect the well. The Sanatorium, Dr. Rankin told his hearers, was the one recognized method for the treatment and prevention of the spread of the disease. He declared it to be the duty of each county to take this step, because it will be many years, if ever, before the state can be properly equipped to take care of all of its sick. Other counties, notably Mecklenburg and Forsyth, are also working on the idea of a county institution.

## It is a Question Others Cannot Solve for Us---We Must Help Ourselves

It is not claimed that a Sanatorium for the treatment of tuberculosis will immediately remove from us this great plague. But authorities are firm in the belief that hundreds of cases that become incurable would have responded favorably under proper treatment. It is recognized that only through the medium of Sanatoriums can this disease be treated properly, and experts believe that through this method the disease will finally be wiped out. The forward looking men and women of the world are engaging themselves in the fight against Tuberculosis—it is recognized by economists that it is vastly cheaper to prevent the disease than to have it. Those people, those communities, who are properly providing for its treatment are showing the correctness of the theory of Sanatorium treatment by almost unbelievable lessening of their death and infection rates.

Only a small proportion of our people can afford private treatment. Those who cannot must remain at home, and the rule is they gradually grow worse, whereas under proper conditions incipient cases usually require only about three months treatment. We can well afford to build this Sanatorium—can we afford not to? It is a movement in which the thinking men and women of the county, those who believe in helping those who cannot help themselves, can well engage in. Will you join us in the movement?

## It Is a Moral Issue We Cannot Evade--- Will You Help Us Meet It ?

(This advertisement, printed in order that the voters of the county may be thoroughly advised of the movement and plans to date, is placed by the special committee of citizens appointed to further the movement for a County Tubercular Sanatorium.)

CHILD AND MOTHER

O Mother-My-Love, if you'll give me your hand,

And go where I ask you to wander,

I will lead you away to a beautiful land—

The Dreamland that's waiting out yonder.

We'll walk in a sweet-posie garden out there

Where moonlight and starlight are streaming

And the flowers and the birds are filling the air

With the fragrance and music of dreaming.

There'll be no little tired-out boy to undress,

No questions or cares to perplex you;

There'll be no little bruises or bumps to caress,

Nor patching of stockings to vex you.

For I'll rock you away on a silver-dew stream,

And sing you asleep when you're weary.

And no one shall know of our beautiful dream

But you and your own little darling.

And when I am tired I'll nestle my head

In the bosom that's soothed me so often.

And the wide-awake stars shall sing in my stead.

A song which our dreaming shall soften.

So, Mother-My-Love, let me take your dear hand,

And away through the starlight we'll wander—

Away through the mist to the beautiful land—

The Dreamland that's waiting out yonder!

—Eugene Field.

TRAVELERS OBJECTING TO CAFETERIA PRICES

General complaint against the prices charged for food in certain eating places in Greensboro, especially the Guilford cafeterias, was registered by members of the Greensboro Council No. 296, United Commercial Travelers, at a meeting of the council last Saturday night.

The council appointed a committee to investigate the S. and W. cafeterias at Charlotte and Winston-Salem, and if such action be considered advisable, to ask the management to consider the establishment of a cafeteria in Greensboro. Travelers declared that one may eat in Charlotte or Winston-Salem at about half the cost of eating in Greensboro. It was also asserted that Greensboro hotels, the O. Henry and Guilford being mentioned specifically, had not complied with the state law requiring all hotels to post their rates in the various hotel rooms.
