EDITORIAL BRIEFS.

Anything to down Jay Gould and Wall street.

The big fire at Suffolk, Va., was very disastrous, entailing a loss of nearly a half million dollars.

"An English athlete has beat the record in turning somersaults." Where are the cross roads politicians?

"A German woman has established a 'dolls' hospital in New York." Most hospitals are dolorous places.

Rumor says that Mr. Brower will be asked to step down and out. But Johnny's reply is: Few die, none resign.

The United Labor Party of Indiana has declared for Cleveland and Thurman. Convey the news down the line.

"The Chicago Tribune chuckles over its discovery that not a single baby born in that city has been christened Grover." Mr. Cleveland is to be congratulated.

Congressman Brower is at present in about as comfortable a position as the boy on the orchard fence with a dog on one side and the farmer on the other.

The people of Wilmington are making elaborate arrangements for the Firemen's Tournament, a lesson that Greensboro might follow with profit.

It is said that Judge Russell's letter terming the negroes savages has created considerable indignation among the colored people of the Cape Fear section.

After the Paris Exposition Sarah Bernhardt will go to India and Australia. Siberia is the only inhabited portion of the globe which has not helped to pay Sarah's debts.

And Mr. Battle's office is to be moved to Raleigh. Well, until it can be run by Simon-pure Democrats, we have no objection to the removal of the United States Marshal's office to Raleigh or somewhere else.

The elections in Alabama for Governor and members of the Legislature resulted in an overwhelming Democratic victory; the Republicans carry only a few counties.

A new telegraph company, with principal office in Richmond, Va., has been organized with a capital stock not to exceed \$15,000,000; it will be operated under the Gray system.

What next? The news comes now that a portion of the Third Party ticket nominated in Wake the other day declare they will withdraw because two colored men were nominated on the same ticket.

They say that "Democrats sneeze every time Thurman takes snuff." That's all right. Thurman's snuff is made of the best North Carolina tobacco, but Morton uses a base imitation that is a stench in the nostrils of the people.

The Indianapolis Sentinel says: The Standard Oil Trust, the Pacific Railroad Ring, the Public Land Trust, the Sugar Trust, the Steel

Rail Trust, the Coal Trust, the Lumber Trust, Jay Gould, the Land Grabbing corporations are all for Harrison, free whiskey, and the forty-seven per cent. tariff.

LATEST NEWS.

BY TELEGRAPH.

Mr. Cleveland's Surprise.

Washington, D. C., August 8.—People who daily pass Oak View, the President's country residence, were greatly surprised a few days ago by the sudden appearance of a new building in the landscape. It went up almost in a night while the President was absent on his recent fishing excursion, and is a perfectly finished, ornamental cottage, 27x30 feet, with wide piazzas and complete equipment. It is made of Michigan wood, painted stone gray, with brown trimmings and red roof, and is a present from Western Michigan friends of the President to himself and Mrs. Cleveland. It will be used as an office and summer-house. It is a decided addition to the charm of the landscape and is much admired.

Suicide of a Prominent Farmer.

Danville, Va., August 8.—J. M. Hundley, a prominent and well-to-do farmer, living near Mount Cross, Pittsylvania county, committed suicide Monday by shooting the top of his head off with a double barreled shot gun. He was missed from the house, but being a bachelor, and only hired people on the place, they attached no importance to his absence till Tuesday, when search being made the body was found near the burial ground on the premises. He had in his pocket a sharp razor and a bottle of laudanum, and a gun lay by his side. Ill health and consequent despondency was the cause of the act.

Posey Lester, Democratic candidate for Congress, paid his first visit to Danville to day on his way to a general meeting of the Primitive Baptist Association. Hundreds of people called on him and much enthusiasm was shown.

Yellow Fever.

Washington, August 8.—Surgeon-General Hamilton, of the marine hospital bureau, received the following telegram this evening:

"Jacksonville, Fla., August 8.—Two cases of yellow fever were discovered this morning. One of them had been in the city six days from Orlando, when taken sick. The other had been out of the city. Other two suspicious, traceable to same store where others were taken sick. Health authorities are taking action in matter. The cases will be sent to Sand Hills hospital. I fear this is the beginning of the outbreak." (Signed) GUITERAS."

Broad Figures.

Washington, August 8.—Mahone held an informal conference with several Republican Senators at his hotel last evening, the subject being the retirement of Mr. Wise from Virginia.

Senator Riddleberger, speaking of Mr. Wise's retirement, says: "Senator Mahone now has the whip hand of the situation. The district conventions to be held shortly will endorse the Mahone elector, or select new ones, who recognize his authority. Gen. Brady will be ignored. It is my opinion that Virginia will go Republican by 20,000 votes. Came on carried the State by 12,000. Wise then lost it by 10,000. At the last Congressional election we carried the State by 19,000 and we will do it again this fall."

Indian Troubles.

Washington, August 8.—Gen. Howard has telegraphed to the secretary of war that General Miles's last dispatch to him did not signify a premeditated outbreak of any extent on the part of the Indians on the San Carlos reservation. Assistant Adjutant General Kelton in speak of the Indian trouble at San Carlos to day said that the recent outbreak was merely a drunken squabble among disaffected Indians and that there was every prospect that they would remain on the reservation and return to their camps.

Another Horror.

New York, August 8.—At ten minutes past 4 o'clock this morning the four story tenement house at No. 1020 Avenue A caught fire. The family of Gustave Berg, who lived on the top floor, were burned to death. They were Gustave Berg, 40 years, his wife, aged 36 years, his mother-in-law and his 12-year old daughter, Gertie. Other occupants of the building were Peter Block, John Ruffin, Samuel Stern, Thomas Fitzgerald and Oliver Kitcher. All their furniture was burned, but they escaped. The building was owned by Peter Block. Damage \$20,000. Insured.

A Brakeman Killed.

Danville, Va., August 8.—Mr. Dong Tanner, employed as brakeman on the Virginia Midland railroad, while attempting to jump from the tender to a freight car near Lawyer's yesterday morning, missed his footing and falling to the track the entire freight train passed over his body, mutilating it in a most horrible manner. The remains were gathered up and placed on the passenger train going north and taken to Lynchburg where they were placed in charge of an undertaker and prepared for burial.

Strong for Tariff Reform.

Chicago, August 8.—A News special from Detroit says the vote of the State Assembly of Knights of Labor at Jackson, Mich., yesterday was the report of the statisticians. It gives the canvass of forty-three assemblies on the tariff issue. It shows only nine assemblies in which over twenty men favor protection, while in twenty four there are no protectionists. Six declare for free trade, and all are strong for tariff reform.

Terrible Cyclone.

Kansas City, August 8.—By a cyclone near Wellington, Kansas, yesterday morning, whole fields of corn were torn up by the roots and the stalks stripped and ears husked. Many chickens were found entirely devoid of feathers miles from their homes, and other strange freaks are reported. One girl was hurt, but no one was killed. Half the tombstones in a cemetery were blown entirely away and cannot be found.

The Indiana Republicans.

Indianapolis, August 8.—The Republican convention nominated Gen. A. P. Hovey, at present member of Congress, for Governor.

Local News.

PUBLIC SPEAKING.—Hon. R. B. Glenn, of Forsyth, will address the Young Men's Democratic Club in this city on Tuesday night, August 21st. Everybody invited to come.

SLOWLY RECOVERING.—We are pleased to know that Mr. W. M. Dodd, of the firm of Dodd & Holton, who has been for some time dangerously ill at his former home in Fayetteville, N. C., is gradually recovering.

REBUILDING.—The "waste places" remain not in our midst long enough for the grass to grow and the dank weeds of decay and neglect to cover the scattered debris of brick and mortar where lie buried the hard-earned fruits of man's toil and industry.

Mr. Kirkpatrick, builder and contractor, now has a force of workmen on the foundations of the new stores to be built by Mr. Bailey on the site of the structures destroyed by fire a few weeks since. The buildings will be handsome, durable edifices, three stories high with dimensions of 70x37 feet.

LAST DAY OF THE INSTITUTE.—There was a good attendance this morning, with the weather a decided improvement, Jupiter Pluvius having climbed the thermometer and cooled its brain. Prof. Martin—whose handiwork with the pen received the enthusiastic praise of all the teachers—gave an exceedingly interesting talk on penmanship, with examples of his principles and mode of writing.

Prof. McNeill followed on the teacher's preparation, emphasizing not only general but special preparation to meet his classes. Books are only tools, and the teacher the power behind them for efficient work. The pupil should be the especial study of the teacher, different minds requiring different training and treatment.

Prof. Blair followed on the important subject of physiology, which should be taught in an attractive way to children, who should know something of their own bodies.

After a brief recess Prof. Atkinson made a brief talk on some things in geography not clearly taught in the text-books.

History was the next topic, and Prof. McNeill made it interesting. A resolution was unanimously adopted commending the use of reading charts, and especially for primary work in the county schools.

Prof. Blair made a farewell talk, commending the teachers to hard work and greater success, and at 1 o'clock the institute was closed, all feeling that the two weeks had not been lost. "The clock strikes one! We take no note of time, but by its loss." But there is another more inspiring stanza:

"There's not in this life a pleasure more sweet
Than just sitting down to the table to eat,
For when it is crowded with dainties rare
'Tis the bliss of life for a chap to be there!"

LIVELY TIMES IN DANBURY.—Danbury is all aglow with enthusiasm. Superior Court convened there Monday, and at noon Col. J. T. Morehead and J. H. Dobson made two cracking good speeches. Tuesday C. B. Watson followed suit, and on Wednesday Mr. S. M. Holton, (Rep.) of Surry county, spread himself against the Mills bill and John Brower. There are between 200 and 300 people at the Springs, and the year 1888 has thus far painted the brightest page in the history of Piedmont Springs. The two hotels are taxed to their utmost capacity,

with new recruits coming in daily. Varalla's string band, of Winston, one of the best in the State, has been employed by the Taylor House to furnish music for that pleasant resort, whose popular proprietor, Capt. S. B. Taylor, and manager, J. S. Taylor, delight in catering to the wants of their patrons.

THE FRUIT OF EFFORT.—At the last meeting of the Chamber of Commerce the question of a joint stock company for the manufacture of spokes, handles, &c., was discussed and met with such sentiments of approval that already the papers are drawn for a subscription stock of ten thousand dollars. This is one of the oldest and most profitable industries of Greensboro and has never flagged except for the want of necessary capital to keep the machinery in motion.

The Madison branch of the C. F. & Y. V. Railroad is opening up a splendid territory for a supply of hickory timber. Now why let this pass right by our doors to Richmond and other points, when our mechanics might get the wages for manufacturing it and capitalists the handsome profit in its sale?

It is perhaps not generally known that the factories now running here have a foreign as well as domestic trade, and are unable to fill the orders received for their goods.

Let us take hold with vim and energy such enterprises as this; it not only adds material growth to our city, but has paid and will pay a larger dividend to investors than any enterprise yet tried.

THE PISTOL IN DANBURY.—An altercation occurred in Danbury yesterday evening between Mr. J. S. Taylor and a colored man, which resulted in Mr. T.'s firing two shots from a 38 calibre Smith & Wesson revolver at his adversary, both of which took effect, one in the hand, and the other in the thigh just above the knee joint, inflicting, however, only flesh wounds. The trouble, we learn, grew out of the negro's persistent efforts to insult Mr. Taylor, when the latter turned fire and made the "feathers fly." The wounds were dressed by Dr. McCannless, and in default of bail the negro was committed to jail to await trial.

CLUB ASSOCIATION.—The Young Men's Democratic Club of Raleigh has taken action upon the letter of Mr. Spier Whitaker, opposing the formation of a State Association of Clubs, and has passed the following resolution, which will be interesting reading to a great many different kinds of people:

Resolved, That inasmuch as the State Democratic Executive Committee has, through its chairman, publicly expressed an opinion unfavorable to the organization of a State Association of Democratic clubs, at this particular time, it is the sense of this club that in support of the executive committee and chairman, such association should not be formed; and that at this time this club will not send delegates to any such association or convention. Adopted.

THIS TELLS!—A citizen of this city—emphatically a "man of affairs," with large property interests in Greensboro and elsewhere—wrote some time since to an agent conducting large real estate operations, with regard to the disposal of certain of his mining and timber lands. In reply he received a letter from which we make the following extract:

"Nothing can be done in the way of making a sale until after the election in November. If we again succeed in electing Cleveland, we may then hope to see confidence restored, and in a short time thereafter the Democrats will have a majority in the Senate, and be in full control of the government, for the first time in twenty-eight years. The Democrats have achieved wonders in the way of reform for the last four years, with

a Republican Senate, and, for the most of the time, with a majority of the office-holders. Stability and confidence have as much to do with the prosperity of the country, in my opinion, as anything else. The Democrats have done much, and are justly entitled to great praise from all classes."

We read here the plain, practical view of a business man, who surveys the political field with an eye only to the effect produced by the election upon his and other material interests—and it is remarkable that the reelection of that man is looked for with eagerness in business and commercial circles whose administration, it was predicted by the Republicans four years ago, would prove disastrous to trade and prosperity.

THE STATE FRUIT FAIR.—No part of North Carolina is more deeply interested in the exhibition of the State Horticultural Society at Raleigh next week than the county of Guilford, and no people are better able to reflect honor upon themselves and their section than are its nurserymen, truckers and fruit-growers. We hope and confidently expect to see Guilford holding its merited prominent place among the exhibitors, and for the information of all who may expect to participate in the enjoyments of the fruit fair, we publish the following rules and regulations:

No specimen of fruit shall compete for more than one premium.

No premium will be given except the article shall be of sufficient merit to deserve the same, to be determined by the awarding committee.

Tickets of admission will be issued on the day of the fair at 25 cents for adults; children under 12 years of age 10 cents. Season tickets (not transferable, allowing the owner to come and go at will), 75 cents.

Articles entered for premiums must have the owner's name on them. They will be known by class and number.

Nothing will be allowed to be removed from the hall until after 5 o'clock p. m. on the second day of the fair, unless by permission of the president and secretary given in writing.

All correspondence regarding entries, &c., should be directed to S. Otho Wilson, secretary State society, or W. R. Womble, secretary of Wake county society, Raleigh, N. C. Entries can be made at the hall up to 10 a. m., August 15th.

Articles for exhibition will be carefully guarded, and not to be used without owners' consent. Canned goods will not be opened.

All green fruits to the fair will go by Southern Express Company free, provided they are put up in packages of forty pounds or less. All packages, &c., intended for exhibition should be addressed to the "State Horticultural Society, N. C., for exhibition," with full instructions by mail to the secretary.

WELL SAID.—We heartily endorse the following from the Daily Workman:

"The Provident Savings Life Assurance Society of New York, of which J. S. Jones is general agent for this State, can be commended to the patronage of the people for its financial soundness, its liberality and promptness in the payment of its claims. It is no less distinguished for the unquestioned indemnity offered its policy holders than its low rates of premium, which are the lowest of any old line company in America.

It has about sixty millions of insurance in force, two millions of which has been placed by its enterprising General Agent in N. C. in the incredibly short space of two years' time.

Mr. Jones desires us to say that its phenomenal success must not be set down, by those unacquainted with him, to his signal capacity in presenting its claims to the insurance public, but because of its being what the people want, namely: insurance at cost, and that cost the lowest of any regular insurance company; and so far as insurance experts, and the leading financiers of the day can see, offers the strongest security.

See card of Mrs. Annie Foard, of Salisbury, a recent beneficiary, to be found in another column. Mr. Jones desires to engage several expert specialists to write in-

surance, and may be addressed at Greensboro by any parties interested.

The Radical Challenge.

EDITORS OF THE PATRIOT.—Dear Sir: I see the editors of the North State continue to dare the Democratic press of the State to publish the Republican and Democratic platforms in their papers until after the day of election. Bully for Messrs. Keogh and Boyd; their proposition is both chivalrous and brave, and the Democratic editors of the State need not shrink back with fear and trembling from publishing the Democratic and Republican platforms in their papers, for every one of ordinary intelligence who knows anything of the Republican platforms for the last 30 years or more know that they all are, as is the present one, infamous for lies, and the party that put them forth and was elected while standing on them, could, if the criminal law was rigidly enforced against them, be indicted and convicted and sent to the penitentiary for at least 20 years for obtaining power upon false pretences.

This being the case, and the editors of the North State are challenging the editors of the Democratic press to publish the platform, it is hoped that some one or more of them will take the trouble to review their present platform and contrast it with the platform they have had before and show how inconsistent they are and how little regard they have paid to the promises they have made.

TO THE PUBLIC.

On Saturday night, when the Buchanan and McDonald block was destroyed by fire, I had one of Ferrell & Co.'s Herring Safes in my office, on second floor. It fell to centre of main floor and was subject to the hottest part of the fire. Upon having it opened I found all valuable papers, books and monies preserved, and in as good condition as when I put them in.

I cheerfully recommend Herring Safe to the public.

Respectfully,
THOMAS BAILEY.

The undersigned is agent for the above Safes, and solicits orders which will be promptly filled, with satisfaction guaranteed.

Prompt.

Mr. J. S. Jones, General Agent of the Provident Savings Life Insurance Company, of New York, was in town last Tuesday and paid to Mrs. Annie Foard \$2,000 the amount of the policy held by her late husband, Mr. Robert Foard in the above named company.

The amount was not due until 90 days after proof of death had been filed, but the company issued the check the day the proofs were received.

This promptness must be a source of gratification to the many policy holders of the Provident in Salisbury.—Salisbury Watchman.

Important!

The Provident Savings Life Ins. Co.,—J. S. Jones, General Agent—is the only company that insures lives just as fire insurance companies insure property; that is to say, at actual current cost. Rates 50 per cent. less than other old line companies issuing guaranteed policies. Over \$200 cash assets to each \$100 liabilities. It ranks first in solvency, economy in management and low cost of insurance. Investigate, even if you are insured.
