

EVERYBODY INVITED TO ATTEND THE FIREMEN'S September 26-27.

The Daily Patriot.

GRAND TOURNAMENT IN GREENSBORO September 26-27

Patriot.

VOL. I. GREENSBORO, N. C., SEPTEMBER 12, 1888. NO. 97.

DAILY PATRIOT.

GREENSBORO, N. C.: WEDNESDAY, SEPT. 12, 1888.

SPECIAL PARAGRAPHS.

Cleveland says the labor interest should be looked into.

Cleveland's letter of acceptance is a regular "sock dologer."

Verily Cleveland's letter of acceptance is a warning to monopolies.

The Farmers' Alliance opposes a high protective tariff for North Carolina.

Harrison's letter of acceptance is out, and falls upon the members of the g. o. p. like a wet blanket.

A call for a Democratic caucus of the members of Congress is being circulated in the House.

Doctor Robey says he cannot support the Walker-Third Party ticket. Sensible.

When you get you a new hat costing \$1, you pay the hat monopolists just 60 cents tax. Remember this, when you put on your hat to vote.

When you buy a suit of clothes costing \$23, you pay \$9 tax. This is according to the eternal fitness of a Republican protective tariff.

Cleveland characterizes Trusts as conspiracies against the people. Blaine says they are private affairs with which Mr. Cleveland has no right to interfere. Which will you follow?

The PATRIOT suggests that there be a joint meeting of the Clubs of the 5th Congressional district held at some central point during the month of October and have a grand torch light procession and speeches from distinguished statesmen. Do we have a second?

The Farmers' State Alliance in convention assembled at Raleigh last month refused to endorse Dockery as their choice for Governor, one of the chief reasons being that the aforesaid gentleman was in favor of a high protective tariff.

As a matter of policy and with a view of placing upon the Senate the responsibility for the further prolongation of the current session of Congress, the Democrats in the House have determined to hasten final action upon the remaining appropriation bills so far as it lies in their power; the adoption of the Conference report upon the Fortification Appropriation bill, today, marked the inauguration of this policy.

"TWO SOULS WITH BUT A SINGLE THOUGHT."

"I want to see the day come when placing my right hand on the head of a little white child, and my left hand on the head of a little colored child, I can pass them into Sunday School together."—Oliver H. Dockery, Republican candidate for Governor of N. C.

"Down with the White Man's party." "That the right of suffrage rests on no mere circumstance of race, color, sex or nationality."—7th plank of the National Prohibition platform and slogan of the organ of the Prohibition party in North Carolina.

White or black—it matters not—where do you stand?

LATEST NEWS.

BY TELEGRAPH.

Destructive Floods in Spain. Madrid, September 11.—The rivers Xenil, Guadalquivir and Granada have overflowed their banks, causing great destruction to property in the adjacent country. Villages have been destroyed and bridges swept away. The people have become panic stricken and have taken refuge in the mountains. Many people have been drowned. Twelve corpses have already been recovered.

Well What of It?

Augusta, Maine, Sept. 11.—Blaine has just telegraphed to Gen. Harrison as follows: Augusta, Sept 11th., 1888. To Gen. Benjamin Harrison, Indianapolis.

Returns up to 9 o'clock indicate that the Republican Candidate will have more than twenty thousand majority over the Democratic Candidate. This is the largest majority since 1866. The Prohibition vote falls off everywhere. (Signed) JAMES G. BLAINE.

The Maine Election.

Portland, Sept. 11.—Returns from yesterday's election show that the Republicans have gained one Senator in Knox county, one in Waldo county, and two in York county. This makes the Senate unanimous, unless possibly one or both of the nominees in Knox county may have escaped the general slaughter. These two nominees were Stephen S. Gushee, of Appleton, member of the present Senate, and Randall J. Conden, of Friendship. In the House the Democrats gain a seat in Cumberland and another in Lincoln so far, and lose two in York county. If the gains and losses continue to offset in this manner, the House will divide as now—122 Republicans and 27 Democrats.

Too Much Water In Theirs.

Staunton, Va., April 11.—It has rained here 12 days in succession. Wheat in stacks is sprouting and is much damaged, and clover seed is seriously injured.

Augusta, Ga., Sept. 11.—Heavy rains Sunday along the Savannah Valley caused the river to rise rapidly last night and this morning. Three inches of rain fell from one o'clock Sunday morning until last night. The city is covered with water in many places to a depth of several feet. All mills are stopped on account of the high water. At noon the river is 39 feet 5 1/2 inches and still rising slowly.

In 1865 the river was 37 feet above low water mark. In 1872 it was 33 feet, and in 1884 was 36 feet 7 inches. The grades of streets having been raised several feet it is thought the present freshet will do no serious damage to property. The weather is now clear and wind from the Northwest.

Yellow Fever.

Jacksonville, Fla., Sept. 11.—The official bulletin for yesterday reports only thirty-two new cases of yellow fever for the twenty-four hours ending at 6 p. m., and six deaths.—Mrs. Laura Jenkins, J. L. McKinnon, E. Davidson, brother of Congressman Davidson; Mrs. Christopher, of Campbell's Hill; J. C. Wright and Mrs. J. H. B. Bourse. Total number of cases to date 636; total number of deaths 78. Some regard the reduction in new cases as the effects of the storm, but the physicians see no reason to hope for any abatement of the disease on that account. Mrs. J. H. Bourse died last night. Her son James R. Bourse is very critically ill. Hon. H. A. L'Engle was reported quite ill yesterday. Col. J. J. Daniel was in town yesterday and attended the executive committee meeting, though still quite weak. There is still a great want of physicians, and nurses are needed. The mortality is still very light where the cases are promptly and properly treated and nursed. Several persons have died from want of proper nursing, being in charge of field hands who professed to be nurses. The Board of Health have issued a circular giving a formula of self treatment that will be the occasion of much good.

Fire in Vanceville.

Vanceville, N. C., Sept. 10.—Our village was started at 12 o'clock by the city of fire. It was soon found that the storehouse of Mr. J. W. Vaughn was beyond saving. This house was one of a group of three, all stores, Florence, Harrelson & Co., and George G. Wilson & Co., having their stocks in the other two. The last building of this group was the old Masonic Lodge. All three were burned, only the walls of two remaining. It was at one time feared that the residence of Mr. Julius Johnstone and Capt. James Poicat would go. The furniture in the first was moved and some was made ready for moving in the second. These precautions proved unnecessary. A crowd of men, women and children are watching the conflagration—it is nothing less for this village—as I write. The losses are estimated at \$18,000. Insurance, \$7,900. It is raining heavily and has been all night. There are scraps of evidence for believing that Vaughn's store was set on fire.

THE PRESIDENT'S LETTER ON TRUSTS.

Trusts and combinations are permitted and fostered, which, while unduly enriching the few that combine, rob the body of our citizens by depriving them as purchasers of the benefits of natural competition.

Such combinations have always been condemned by the Democratic party. The declaration of its National Convention is sincerely made, and no member of our party will be found excusing the existence, or belittling the pernicious results of these devices to wrong the people. Under various names they have been punished by common law for hundreds of years, and they have lost none of their hateful features because they have assumed the name of trusts instead of conspiracies.

We believe that these trusts are the natural offspring of a market artificially restricted; that an inordinately high tariff, beside furnishing the temptation for their existence, enlarges the limit within which they may operate against the people, and thus increases the extent of their power for wrong doing. With unalterable hatred of all such schemes, we count the checking of the baleful operations among the good results promised by revenue reform.

While we cannot avoid partisan misrepresentation, our position upon the question of revenue reform should be so plainly stated as to admit of no misunderstanding.—We have entered upon

NO CRUSADE OF FREE TRADE.

The reform we seek to inaugurate is predicated upon the utmost care for established industries and enterprises; a jealous regard for the interests of American labor, and a sincere desire to relieve the country from the injustice and danger of a condition which threatens evil to all the people of the land. We are dealing with no imaginary danger. Its existence has been repeatedly confessed by all political parties and pledges of remedy have been made on all sides. Yet when in the legislative body, where under the Constitution all remedial measures applicable to this subject must originate, the Democratic majority were attempting with extreme moderation to redeem the pledge common to both parties, they were met by determined opposition and obstructions, and the minority, refusing to co-operate in the House of Representatives, or propose another remedy, have remitted the redemption of their party pledge to the undoubted power of the Senate.

Pilot Mountain Hotel,

PILOT MOUNTAIN, N. C.

Is open for the traveling public, and especially pleasure seekers, being near the famous Pilot Mountain. Good fare, and first class rooms. Concessions to suit from the mountains at day and all hours. DANIEL MARIAN, Proprietor.

CORONER: DR. R. W. TATE.

SURVEYOR: J. G. GAMBLE.

THE PRESIDENT'S LETTER.

Not until last evening could we find leisure to read Mr. Cleveland's letter of acceptance of the Presidential nomination, and its careful perusal gives unmixed pleasure and admiration. The President's methods of dealing with the questions which form the subject matter of his letter are in keeping with the nature of the man—simple, direct, earnest and honest. Every paper which has yet emanated from his hand and pen during the course of his administration has been singularly free from the tor-

trous, devious ways of the politician; and this last, while perhaps less deliberately weighed and carefully prepared than his inaugural address or memorable message of last January, is in some respects the most remarkable utterance of his career, so far. A little of the selfishness or personal vanity would be pardonable in even the President of the United States, at the moment of accepting a renomination at the hands of his fellow-citizens, but Mr. Cleveland fails to pose as a candidate from beginning to end of his letter. There are certain things he deems it proper to say—he says them in clear, explicit terms; there are dangers and evils confronting the country—and these he attacks with the straightforwardness of purpose which characterizes his every official act.

Surely the Democratic party has everything to hope for with such a man at its head. We have been reared in that school of politics which teaches devotion to "principles not men;" but this man—unless we would charge him with a mere simulation of good which would be marvelous is one not a patriot—is the embodiment of the best principles of the best of government; word and act—letter, message and address—all proclaim him the conscientious, able, courageous chief magistrate of a whole people, whose vital interests and great destinies he holds in his hands, deeply imbued with the sacredness of the trust imposed upon him.

CROSSING THE ATLANTIC.—One hundred years ago our fathers were content to hear from Europe once in two or three months—that was better than the six months of their fathers. It took at least a month to cross the Atlantic. The early steamers reduced this time to three weeks. This was considered speed. The Great Western brought the passage down to fourteen days, which was a miracle. In 1850 the Britannia reduced the time to twelve days; then in 1870 the White Star Line crossed in nine days. It was but a nine days' wonder. The Alaska cut the record to seven days and a half, and then the Oregon to six days and a half, and the Umbria is a quarter of a day better yet. The ideal time seems to be five days. Probably that will be about the maximum and soon attained. Then the balloon.—Globe Democrat.

A DAKOTA BLIZZARD.—Little or no snow falls in Dakota, from November to April. It is too cold to snow, and the blizzard is not a snow storm (in the ordinary sense of the word), but a cold wind which comes sweeping down from Behring Strait, with a velocity of from fifty to sixty miles an hour, bringing with it a blast of finely powdered ice. Imagine a thick fog, all of ice, blown along by a high wind; the tiny particles, coming with such velocity, sting like a blow from a whip-lash.

Nothing can stand before it. Those buffalo and cattle, who are used to it, make for the lee side of the nearest hill, haystack or building, and huddle close together for safety, trusting to being covered by the snow, and thus keep warm, when, if the storm does not last too long, they may escape alive.

You cannot see across the street from one house to another, and men have been frozen to death within a few feet of home and safety. The thermometer falls many degrees below zero, beyond the power of mercury to measure it; only the best spirit thermometers can be used for these low temperatures. When going with the wind you are driven along with resistless force; if against it, you are knocked down and buffeted about; unless you are so fortunate as to find speedy help and shelter, you are almost sure to be frozen to death.—St. Nicholas for September.

THE LEE AND THE NATCHEZ.—The race of the Lee and the Natchez, which occurred in June, 1879, was one of the greatest events of steamboat history. The latter was built at Cincinnati and was commanded by Capt. Leathers. In June, 1879, she made the trip to St. Louis from New Orleans, a distance of 1,278 miles, in three days, twenty-one hours and fifty-eight minutes, which was the fastest time on record. The Lee was built at New Albany during the year, and was towed across to Louisville to have her name painted on her wheel-houses, a precaution necessary on account of the exciting times. She was commanded by Capt. J. W. Cannon, who died at Frankfort a few years ago. There was a great rivalry between the boats, and when the

Natchez made her great run Capt. Cannon determined to beat it. The Lee was stripped of her upper works, and all the rigging that could be dispensed with was taken off. In fact, on the bright June day when they pulled out both boats were in superb condition. but the Lee had the advantage because she had arranged for steamboats to meet her at regular distances up the river and supply her with coal. In order that she would lose 10 time in receiving her fuel.

The whole country watched the race with great interest, as it had been extensively advertised by the press, and the telegraph attested its progress along the river at every point. At all the principal cities—Natchez, Vicksburg, Helena and Memphis—people from many miles were present to see the racers pass, and the time of passing was cabled to Europe. When Cairo was reached the race was virtually ended, but the Lee proceeded to St. Louis, arriving there in three days, eighteen hours and fourteen minutes from the time she left New Orleans, beating by 3 hours 43 minutes the previous record of the Natchez. The latter steamer had run into a fog and grounded between Memphis and Cairo, which delayed her more than six hours. It is said that 30,000 people crowded the wharf, the windows and the housetops to welcome the Lee on her arrival at St. Louis. Captain Cannon was tendered a banquet by the business men of the city, and was generally honored while he remained there.

It is estimated that more than \$1,000,000 changed hands on the result of the race.

FULL OF BUSINESS.—"Mr. Sampson asked me to be his wife last night, papa."

"And what did you say?" "I told him he must give me a little time, and he said I could have the usual thirty days or 5 per cent. off for cash, and then he stopped and apologized. What am I to think of him, papa?"

"Think of him!" shouted the old man. "That young fellow is full of business, and you can't say, 'yes' too quick."

SCIENCE IN CHICAGO.—Disgusted Husband (eating breakfast)—"Maria, what do you call this?" Wife.—That is a loaf of Boston brown bread of my own baking, John.

[John opens window and throws loaf of bread out. It kills a street car horse. Great excitement. Missile inspected by local scientists and unanimously pronounced an aerolite.]

STEAM POWER.—The force equivalent to the working steam engines represents, in the United States, 7,500,000 horse power, in England 7,000,000 horse power, in Germany 4,500,000, in France 3,000,000, in Austria 1,500,000. In these the motive power of the locomotive is not included, whose number in all the world amounts to 105,000, and represents a total of 3,000,000 horse power. Adding this amount to the other figures we obtain the total of 26,000,000 horse power.

For further information address us, P. O. Box 11, Greensboro, N. C. Office in Benbow Block, South Elm Street. Yours truly, J. C. LINDLEY & CO. may 21-3m

S. H. HAWES' COAL ELEVATOR, Richmond, Va.

The Only Coal Elevator South!

There are 72 screens in the Building. No dust or dirt can possibly get into the Coal as it passes the screens in passing from the Elevator into the cars.

Consumers get their Coal dry and "Perfectly Clean." I have now, and shall always keep on hand a large quantity of Coal best suited for Foundry, Factory and Family use, selected and of best quality. Prompt shipments, either by

The railroad cars run alongside the Elevator, and the Coal is put into them there, thus lessening the cost to the trade. June 29 d&wtf

MR. VERNON SPRINGS HOTEL.

Summer and Winter Resort

J. M. FOUST, Gen'l and Proprietor. Dr. J. C. KIRKMAN, Resident Physician.

Mt. Vernon Springs is situated in Clinch Co., N. C., about 10 miles from Greensboro, N. C., within two hours ride of Greensboro, N. C. Here one finds Mineral Water of fine quality in a scenic spot, surrounded by mountains, Carbonates, Alumina, Iron, Magnesia and Sulphur. It is possible to tell which predominates. It is pleasant to the taste, and it is our care in Greensboro have been effected by the use of the water, and the fact that the water has been analyzed by the State Geologist and the location is true from all Medical authorities.

Dr. J. C. KIRKMAN, Resident Physician.

NOTIONS AND DRY GOODS

And almost daily adding to their large stock of

GROCERIES.

MERCHANTS are invited to call in person or send their orders by mail.

The Register's Books show for the six months ending Jan. 1st, '87, that our purchases were greater than any other two houses in the city. All buyers know that this fact gives us decided advantages both in buying and in selling.

Very Respectfully,
J. W. SCOTT & CO.

The Acme Manufacturing Company,
 MANUFACTURERS OF
Fertilizers, Pine Fibre,
 AND
Pine Fibre Matting,
Wilmington, N. C.

The reputation of our Fertilizers, the ACME and GEM, is now established and the results of three years use in the hands of the best farmers of this and other States fully attest their value as a high grade manure.

The MATTING, made from the leaves of our native pine, is considered superior to any wool carpet for comfort and durability, and the demand for it is daily increasing. It has virtues not found in any other fabric.

The FIBRE or wool is extensively used for upholstering purposes, and as a filling or mattresses is almost equal to hair, being light, elastic, and producing no heat.

WAINMAN & CO.,
 CONTRACTORS AND BUILDERS,
ASHEBORO, - - NORTH CAROLINA.

July 15-18

The Daily Patriot.

GREENSBORO, N. C.

WEDNESDAY, SEPT. 12, 1888.

BUSINESS NOTICE.

We have this day placed our DAILY PATRIOT subscription list in the hands of Messrs. T. H. Tate and W. C. Sullivan, who are duly authorized to receive subscriptions and collect all moneys due thereon. This arrangement has been made in the interest both of our patrons and ourselves—insuring more direct supervision of the city carriers and promptitude in the delivery of the paper, while it leaves us more time to devote to the editorial and literary work of the office.

We commend these gentlemen to the liberal support and patronage of the reading public.

Local News.

Index to New Advertisements.

W. E. BEVILL.—Notice to Builders!

HERE IT CULMINATED.—From what we can gather, Greensboro and the country contiguous had the force of the late storm. The rainfall and wind were heavier at this than at any other point from which we have heard.

ATTENTION, PLEASE.—Mr. J. J. Thornton announces in another column that on account of his expected absence from the city during the ensuing year he has turned his jewelry business over to Mr. A. B. Frey, who is ever ready to serve the people in his line.

Builders and contractors should read the advertisement elsewhere for sealed bids for the engine house.

Farmers' Meeting.

A special meeting of the Farmers' Association of Guilford county will be held in Benbow Hall, Greensboro, on the second Saturday in October, at 2 o'clock, p. m. THOS. E. COOK, Ch'm'n. Ex. Com.

OUR REPRESENTATIVE.—Dr. J. A. McLean is in the city today, and paid us a pleasant visit this afternoon. Nominated at the County convention, without his solicitation, with remarkable unanimity, Democrats will endorse the nomination, as a tribute to his high character, by a fine majority.

THE HOOK AND LADDER.—The Greensboro Volunteer Hook and Ladder Company engaged in practice, in full uniform, on West Market street yesterday evening at 7 o'clock. The time made in the trial racing was satisfactory.

Mr. Jas. Donnell made the best time, 150 yards in 16½ seconds.

THE DEAF, DUMB AND BLIND.—Prof. Blair arrived here this morning with 22 pupils, who had been spending their vacation at home, and were on their way to the Institute for the Deaf, Dumb and Blind at Raleigh. They were courteously received at the depot by a committee consisting of Mr. P. L. Ray and others, and assisted in their transfer to the train, etc.

FROM CUMBERLAND.—A friend who has lately traveled through a great part of Cumberland county informs us that the crops there are mixed. On the east side of the Cape Fear river corn and cotton are generally good, though in a small area about Blockersville the drought damaged both very considerably; in the western part of the county corn is turning out better than was expected, though there is by no means a good yield.

FROM MOORE.—Accounts now reach us from the Jonesboro and Sanford section of Moore county that the corn and cotton crops amount to almost nothing; the best of rains or the worst of floods could not help or hurt it now. In the Deep River country the farmers are better off, as small grain was nearly up to the average, and a good deal of corn has been made.

Advertise in and subscribe for the DAILY EVENING PATRIOT.

CLEAR AGAIN.—The trains are now running into the city regularly from different points, three freight trains coming into the depot on the R. & D. R. R., within seven minutes of each other, this forenoon. The Fayetteville train passed on down last evening, pulling out from Greensboro at 8:45, and after to-day there will probably be little or no delay on that line. The work has been very promptly done, considering the circumstances, and much credit is due the companies for the comparatively little inconvenience suffered by the public.

LOADS OF FUN.—The Fire department were out on practice and parade this afternoon—the steam, chemical and hand engines in line, and the hook and ladder and fire companies in uniform. There were time races, bag races, practice with bucket and hose, etc., attracting a large crowd, and affording much amusement, as the applause and laughter throughout attested. The practice was very good, and satisfactorily displayed the fine physique and efficiency of the commands.

HAD NOT HEARD OF IT.—Many people from the surrounding country were in town to-day, not having heard of the postponement of the Firemen's Tournament, in the pleasures of which they hoped to participate. We regret their unavoidable disappointment, but hope that, after informing themselves of the varied and attractive amusements which we intend to offer when the celebration does take place, they will repeat the visit week after next. Anyhow, this is beautiful weather, a jaunt into town cannot be other than pleasant—barring miry hills and swollen streams—and farm-work is at a standstill for a few days.

JOINT DISCUSSION.—It gives us pleasure to be able to announce that arrangements have been made between Col. Jno. N. Staples and Col. Jas. E. Boyd, Republican elector for the State-at-large, for a joint discussion at High Point at some time during the campaign—possibly at an early day. This, from the accessibility of the point chosen and the well-known ability of the "high contracting parties," will doubtless attract a large gathering of people. Col. Boyd has few equals in his own party as a forcible speaker and ready debater. Col. Staples is among the foremost of the Democratic leaders of North Carolina: thoroughly informed as to all the great questions at issue in the campaign, a close student through many years of public life of the principles which have made his party so great, he adds to this the qualities which combine to make an impressive and persuasive speaker. The Democracy of North Carolina will not soon forget his inestimable services in the campaign of 1884.

THE FLORIDA SUFFERERS.—We trust that an organized and systematic effort will be made in this city to raise a fund for the relief of the sufferers by yellow fever at Jacksonville, Fla. Blessed as we are in this section, and absolutely free, by position and climate, from the desolating effects of epidemic, it is impossible for us to fully realize—it is difficult for us even to imagine—all the horrors of the condition of that devoted people. Weary hours of watching, days and nights full of bereavement and tears and lamentation, every branch of business paralyzed, all avocations unsettled and the means of making a livelihood at an end—naught but death working steadily always, as his victims hail the morning light with the cry: "Would God it were night!" and shrink from the gloomy shadows

of evening with the prayer: "Would God it were morning!"—is there a heart that does not bleed for the stricken people in that beautiful land in the far South that rises, a resplendent jewel, from the waves of ocean and Gulf?

Even if the offerings of many of us be small, the aggregate from this community, if the contributions be general, will effect great good, and there are trustworthy relief associations there who will see that every dollar, every ounce of medical supplies, is rightly applied; there are men and women laboring there with the true heroism that God blesses and finally crowns, who will receive our donations with their grateful tears and fervent prayers.

FROM STOKESDALE.—In addition to our reporter's account of Saturday's meeting at Stokesdale, a valued correspondent, "Democrat," sends the following interesting notes:

There was a great turnout of the citizens of Stokes, Forsyth, Rockingham and Guilford, the people commencing to gather long before the train arrived from Greensboro.

In his speech of two hours Col. "Jim" told the people of things they had never heard before, and he has made stronger friends here and doubtless more of them. After him, "Uncle Frank" came up in strong force, but, for the want of time, had to make quick and short work of it.

On account of wash-outs on the railroad, "Uncle Frank" remained with us until Tuesday morning, making good use of his time in explaining to private citizens matters of which they were before ignorant. He has made many more and faster friends. One man said that he did not see how he could be anything but a Democrat.

This is the first time Stokesdale was ever blessed with a political speaking, and if Sheriff Wheeler would make an appointment for this place, and bring the county candidates here in making his rounds for collecting taxes, it would be no bad thing for the Democratic party. What say you, Mr. Sheriff?

FROM THE EAST AND THE CAPE FEAR SECTION.—It is not pleasant reading—the summary of news from the flooded districts which it is our duty to lay before our readers. From points in the tobacco belt the news is not yet definite, though the damage to the full and rapidly-ripening leaf must be very great. The destruction in the cotton country seems to be beyond computation, and necessarily a large portion of the cotton ginned and put on the market this season will be stained and inferior. From the interesting columns of the Wilmington Messenger we extract the following:

The heavy and continuous rains of the past week or ten days wrought incalculable damage to the crops over the Eastern section of the cotton belt, and delayed the season from two to three weeks. In many places the seed of open cotton has begun to sprout in the boll, which is almost as injurious as the rot. A few weeks, however, of good weather now will do wonders toward bringing the crop out and getting it ready for market, and the prospects for this are favorable.

From the excellent and enterprising Wilmington Star we glean unfavorable tidings from the territory along the line of the Carolina Central and Atlantic Coast Line Railroads, as follows:

The crops in many sections of the country have been seriously injured by the heavy and continuous rains.

As showing the damage to cotton, a gentleman who had just returned from a trip up the Carolina Central railroad, brought into the Star office last night a number of cotton bolls with the seeds sprouting. Some of the sprouts were an inch or more in length, and had partially developed leaves on them. The samples shown came from near Lumberton, but the injury to cotton from this cause is said to be general in all sections where the continuous wet weather has prevailed.

Mr. Jas. P. McRae, of Laurinburg, sending a sprouting boll to

the Star, writes: "Farmers are at sea as to what it will amount to. Besides the open cotton being in this condition, the bolls that are just matured are rotting and cannot open."

A correspondent of the Star writing from Goldsboro, says: "The rains throughout the cotton section have injured the cotton crop very materially. In Edgecombe, Nash, Wayne, and other sections on the line of the W. & W. Railroad, cotton is actually sprouting in the boll. Tar and Neuse rivers bid fair for a large freshet, and if so, a good deal of corn and cotton will be destroyed."

Personal.
Senator Ransom passed through this morning going South.

Mr. T. T. Dudley, of Friendship, made us a pleasant visit to-day.

L. W. Springs, of Forsyth, was here this morning on his way to Raleigh.

Judge Phillips was in the city last night en route to Harnett county.

Mr. G. T. Glasscock left this morning on a visit to Spartanburg, S. C.

Rev. Dr. Bobbitt passed through the city this morning on the way to Winston.

Mr. W. P. Fife, of Fayetteville, spent a few hours in Greensboro yesterday.

Mr. C. D. Sedberry, of Fayetteville, passed through the city on his way to Baltimore.

The Misses McGee, Battle and Allston, of Raleigh, breakfasted at the McAdoo this morning.

Mr. W. J. Armfield, President of the High Point National Bank, was on our streets to-day.

Mr. J. S. Battle, of Raleigh, arrived in the city this morning, and left on the south-bound train.

Miss Pattie Dodson, of Winston, who has been on a visit to Miss Mary Dodson, returned home this morning.

Mr. J. Cary Donnell and family, of Missouri, are in the city visiting Mr. D.'s many friends and relatives.

Miss Alice Weatherly returned this morning from a pleasant visit to relatives and friends in Madison. Mrs. A. Weatherly returned with her.

Messrs. J. E. Thacker, H. W. Smith, Lacy Wharton and Prof. H. L. Smith, left this morning for Davidson College.

Col. Lot Humphrey, of Goldsboro, spent a few minutes in the city last night and left for his home on the through freight.

Dr. Edward Rondthair, of Salem Academy, was in the city to-day on his return from the North.

The many friends of Mr. Charley Davis, now of Asheville, but for a long while a resident of this city, will be pleased to know that he is on a visit here.

Miss Jeanie Kyle, of Fayetteville, was on the south-bound train on the C. F. & Y. V. R. R. last night, returning home from the western part of the State.

Messrs. Holmes, of Columbus, and Sessoms, of Cumberland county, were registered at the Benbow House the first of the week, on their way to enter Trinity College.

Messrs. J. R. Mendenhall and A. Hagan left this morning for Graham. Mayor Barringer was detained at home on account of professional business, but wrote a strong letter to the Board of Directors of Graham College, setting forth the many advantages of Greensboro as a suitable point for the location of the college.

Mr. Pepper, of the Danbury Reporter-Post, made us a pleasant visit this morning. He was on his way to Winston, where the railway syndicate will convene to-day. Ever alive, individually and

by the columns of his excellent paper, to the interests of his section, Mr. Pepper wishes to lay before the syndicate an exhibit of the great mineral resources of the Danbury section, and to this end carries with him a wealth of ore in specimens.

Notice to Builders.

The city of Greensboro will receive sealed bids for the erection of a fire engine house, until Friday, the 21st of September, 1888. Specifications may be seen at the law office of J. A. Barringer, mayor of the city. Bidder must give bond for the performance of his contract. City reserves the right to accept any bids or reject all, if deemed necessary. Bidders will put in the highest price they will allow for the old building.

W. E. BEVILL,
Ch'm'n. B.T.d'g. Com.
sept 12-tf

A CARESS.

Having other business that will largely occupy my attention and probably call me away from the city at intervals during the next year, I have arranged with Mr. A. B. Frey, of Millersburg, Ohio, to take charge of my jewelry store. Although recently from Ohio, Mr. Frey is a Virginian and a gentleman whom I am proud to introduce to my customers. He has a thorough knowledge of the jewelry trade. If you want a new watch, or the time piece you have needs repairing, call and make his acquaintance.

The ladies especially will find him courteous and attentive. He will sell them new goods or repair their broken jewelry at the lowest prices possible for fine quality and superior workmanship. The science of optics is one of Mr. Frey's specialties. A careful study and long experience have made him one of the best practical opticians in the country. If you require an expert to fit you with a pair of spectacles or eye-glasses, don't fail to call and see him, and no matter what the defect of vision may be, if it is possible to receive assistance from the use of glasses, he will supply you with just what is best suited to your eyes. Engraving is another specialty, and in fact for anything you ordinarily require at a jewelry store you cannot go wrong if you call. Very Respectfully,

JNO. J. THORNTON,
Greensboro, Sept. 11, 1888.

Notice to Gas Consumers.

The bills of the Gas and Electric Light Co. will be payable at office of the Co. A deduction of 5 per cent. will be made on all bills paid by the 6th of the month, except when special contracts are made. After the 6th until the 10th your bill may be presented, and if not paid by the 10th the flow of gas may be closed from the premises. By order of the Company. B. S. JOHNSTON,
H. B. PETERS, President.
Manager.

For Rent.

The store room on West Market street, now occupied by S. S. Mitchell, will be for rent Sept. 1st, 1888. Apply to
aug 22-1m W. F. TROGDON.

Notice to the Citizens.

All the citizens of Greensboro are hereby notified that the Board of Commissioners of the city of Greensboro have appointed a Sanitary Committee, and that the citizens are invited to communicate to R. M. Rees, Chief of Police, all nuisances, noxious smells or other causes which are likely to injure the health of the citizens. Notice is further given that the city authorities have determined to enforce the sanitary ordinances of the city vigorously.
R. M. REES,
Chief of Police.
