The Counties of Alamance, Alexander, Forsythe, Gaston, Union and Watauga, will receive their portions from the counties respectively out of which they have been erected.

*In adjusting the federal population of Henderson and Rutherford counties, according to the enumeration of the inhabitants made under the act of 1846, and assigning to Henderson that portion of the School Fund, to which she was entitled under that act and which had been received by Rutherford, the sum of \$228 is taken from the distributive share of Rutherford and added to that of Henderson, as exhibited in the above table.

The following counties having had pupils at the Deaf and Dumb Institute, for the last year of that School, ending on 1st May, 1850, and having failed to pay to this Board the tax of \$75, for the education and support of each scholar, that sum is now deducted from the shares of those counties respectively, according to the act of the General Assembly, to wit:

Where shall the Second Nashville Convention Meet?—This is a question which seems to puzzle the Disunionists not a little. It will be remembered that every member of the Tennessee delegation in the House of Representatives voted for the Texas boundary bill, which was in fact the turning point of all the measures of settlement, so far as Southern satisfaction with them was concerned. The "degradation" of the alleged dismemberment of Texas is one of the most serious counts in the formidable indictment which indignant gentlemen in Congress have drawn up against a majority of their southern fellow-citizens. Tennessee's going for the Texas bill, therefore, may be received as unquestionable proof that she is not for Disunion. But to hold an avowedly Disunion Convention in a Union State would be eminently unseemly and inappropriate. Some have therefore, suggested that the adjourned Convention be held at Milledgeville in Georgia, under the immediate eye of the hopeful Governor of the State. This change, however, is not unanimously approved. The Columbia (S. C.) Banner, one of the most conspicuous lights in the little Disunion firmament, protests roundly against going any where but to Nashville. It will not do for the delegates to be divided in opinion about this matter: for if they meet in squads at different places, the world may never hear of their assemblages.

By the way, we wonder if the delegates appointed from Virginia to attend the first Convention, will deem it their duty to attend the second. Rich. Times.

Gov. Quitman, of Mississippi, has appointed a State Central Committee, consisting of twelve gentlemen, to select such articles as may be submitted by the citizens of that State as most suitable for exhibition at the great industrial Convention to be held in London in May, 1851.

THE PATRIOT

GREENSBORO, N. C.

SATURDAY, OCTOBER 12, 1850.

No northern mail again last Thursday! Failure has become the rule, and success in coming through in proper time is an exception. But it is not a lucky thing that we've got no news!—you see we have no room for it. Don't care, in fact, if news should continue to be scarce until we finish "laying down the law" for Uncle Sam.

Nevertheless, we do not advocate this wretched system of mail failures—much as we may be accommodated by it!

TEMPERANCE CELEBRATION.—MR. WHITE'S ADDRESS.

Last Tuesday was a big day in our town for the Temperance folks, and an interesting day for all present, no matter whether properly classed as "Temperance men" or not. Among the pleasant events which we are occasionally called upon to chronicle, none have for a long time occurred more pleasant and profitable than the proceedings of that day. The Sons of Temperance from their several Divisions in this county, and a delegation from the county of Rockingham, assembled to receive and to hear PHILIP S. WHITE, Esq., late head officer of the Order in North America. At 1 o'clock they formed procession, together with the juvenile Order of Cadets, and were cordially joined by the Odd Fellows and Masons of this place, in full regalia, for the purpose of paying fitting respect to the distinguished stranger and guest of the "Sons." We have heard the Temperance speakers talk about the "cold water army,"—we saw it last Tuesday—or, if not the entire "army," the strongest and longest detachment thereof ever seen here before—all wide awake and duly sober!

The procession moved to the Methodist church, the floor of which was soon fully occupied by the various Orders and by the ladies. The galleries were crowded with male spectators. And it is not out of place here to remark, once for all, that a larger, finer looking, and more intelligent and orderly audience we have never seen assembled in Greensboro'. The services of the day were opened with a song appropriate to the occasion, with a beautiful instrumental accompaniment. The Rev. CYRUS K. CALDWELL offered up prayer. Mr. Jesse H. Lindsay then introduced PHILIP S. WHITE to the audience, who proceeded to deliver an address which riveted the attention of the large concourse for upwards of two hours.

Considering the hacknied subject of Temperance, we looked for public expectation to be disappointed on this occasion. But far otherwise was the fact. It was an intellectual treat (if we may speak of "treats" in this connexion,) such as we seldom enjoy. Every body present, no matter whether friendly to Temperance organizations or not, enjoyed Mr. White's address. With complete self-possession and self-confidence; a full, clear, mellow voice, and appropriate action; a mind thoroughly stored with information and argument on his subject; an exhaustless fund of incidents and anecdotes, gathered during extensive intercourse and travel in Europe and America; and that facile power of changing at a word from the pathetic to the humorous, and from the humorous to the pathetic—he was certainly the finest master of his subject our people ever had an opportunity to hear. It would be folly to attempt an analysis of his discourse. In order to be appreciated, he must be heard, not read. There was perhaps too much of the emotional—too much excitement to laughter, and to tears,—to suit the taste of an assembly of prudes or scholars. But the speech was a fine model of an effective popular harangue—arousing to thought and to action more effectually than a whole book-full of dry and labored essays.

Not being ourselves members of the Order, we have no prejudices in the way of an impartial judgment; and we advise the good people of Raleigh, and down east generally, to prepare for a "feast of reason and flow of soul." We regretted to learn that Mr. W. failed to reach any appointments west of this place in North Carolina except Lexington. An accident to his conveyance from Wytheville to Mt. Airy prevented his reaching that place and Rockford in time. At the latter place he failed to procure means of conveyance to Mocksville and Salisbury, and consequently had to make the best of his way to Lexington. Thence he was brought here by a deputation of the Greensboro' Division; and he was met here by a delegation of the Order from Wentworth. His future appointments will probably be punctually met.

Pardon this lengthy notice;—it has not been often, of late, that the monotony of our community has been broken in upon by so enlivening an incident as the celebration of last Tuesday and the address of Mr. White.

WHITES OF NEW YORK.—The majority of the late Whig State Convention in New York attempted to pass resolutions for the glorification of Mr. Seward,—insisting upon a distinct approval of the course of that Senator, and a consequent censure of those who differed from him,—whereupon a respectable minority disagreed and seceded. "To this," say the gallant seceders in a spirited address, "the undersigned could not consent; they could not consent to rebuke those whom they believe to have been right, and to praise him whom they believe to have been wrong; they would not do this either directly by their votes or indirectly by acquiescence in the proceedings of the convention."

ELECTIONS.—The following list exhibits the date of the elections for the present year, in the States mentioned, and the political character of the present Congressional delegations:

State.	Election.	Whig.	Dem.	F.S.
Arkansas,	Oct. 7	0	1	—
Georgia,	Oct. 7	3	5	—
Florida,	Oct. 7	1	0	—
S. Carolina,	Oct. 14	0	7	—
Ohio,	Oct. 8	8	11	1
Illinois,	Nov. 5	1	6	—
Wisconsin,	Nov. 5	1	1	—
Pennsylvania,	Oct. 8	13	8	2
New York,	Nov. 5	32	2	1
New Jersey,	Nov. 5	1	1	—
Michigan,	Nov. 5	1	2	—
Massachusetts,	Nov. 7	0	0	1
Delaware,	Nov. 12	1	0	—
Total,		72	43	7

There are two vacancies in the present Congress in the Massachusetts delegation, and one in that of Pennsylvania.

EXCELLENT ADVICE.—We commend to all whom it may concern the following sensible paragraph from the Salisbury Watchman:

We have noticed that in several democratic papers regrets are expressed that various Whig papers had copied articles from Abolition papers, showing what these papers think of certain political characters, and representing it as injurious, while at the same time, the Southern Press and other papers of the same party have lately copied large extracts from the address of an Abolition Convention held in the State of New York to the Slaves of the South, containing language which no man ought to utter, or paper publish. This we consider the climax of all insincerity, and calculated to do more harm than any thing else these misguided guardians of the South could do. Let them, we say, as all good citizens should, cease to trouble the public mind any longer upon this question, by publishing such stuff. Let them devote their time and talents to the advocacy of measures at home, which alone can make the people of the South prosperous and contented. This is the duty of every man, and when they fail to do this, they become enemies of those very measures and ends, which they, in their fanatical zeal, profess to be striving to attain. Now that Congress has done all that can be done, we trust that these shall hear no more on this subject. Let us for the future see evidence of the practice of the doctrines which they put forth for others to be guided by, before they raise their voices in condemnation of the Whigs on this score.

A note from the writer of the communication signed "A Healer," (Rev. Mr. Montgomery,) repeats that what he has said "is substantially true, and that it is in vain for Mr. McBride to say to an intelligent public to the contrary."

The appointments of Hon. D. M. Barringer as Minister to Spain, and James W. Osborne superintendent of the Branch Mint at Charlotte, were both confirmed by the Senate.

Henry Mc. Dusenberry, Esq., has been appointed Clerk and Master in Equity for Davidson county, in place of Alfred Foster, Esq., resigned.

THE RIGHTS OF THE SOUTH.—The Baltimore American has the following excellent remarks relative to the vindication of the rights of the South:—

"The best mode we have seen suggested yet for vindication of Southern rights and protecting Southern interests, is set forth in several judicious journals of the South, and is sometimes hinted at by Southern representatives in Congress. The Richmond journals are fully awake to the matter; so are the best journals of Georgia, nor are those of New Orleans behind hand. The mode we refer to looks to no other force than the force of industry, enterprise and the genius of labor. 'We go in most heartily,' says the New Orleans Bulletin, 'for the development of the Southern resources, and have long been preaching against the ruinous policy, which has been so strenuously enforced by the anti-tariff and non-protection party of the South which, unfortunately, have had the control in this respect. 'Let the South then throw off her lethargy and arouse herself to exertion, and no longer remain in slavish dependence upon others for nearly all the luxuries, and even for the larger portion of the necessities of life. Let her establish manufactories of all kinds, increase her commerce, construct railroads, erect and endow colleges, and develop, generally, her immense resources, which have so long been permitted to lie dormant. This is the true and only mode to fight the North, and not by blustering speeches and idle threats and declarations, to secede and dissolve. The steam engine, the shuttle, the loom, the anvil and the work-shop, are the only weapons which the South should employ, and they can be used with more effect and with greater results than either cannon or bayonets.'"

This is to the purpose: this indicates the true basis of independence and points out the sources of a sure prosperity.

For the Patriot.

Messrs. Swain & Sherwood: As a number of the citizens of Guilford annually seek the mountain air and seclusion to try the medicinal properties of some mineral springs to restore their health and strength, I would call their attention to a strong and bold chalybeate which has lately been discovered on the land of Mr. Thornton Riddick, two miles and a quarter due west from Danbury in Stokes county, immediately at the foot of the Sauratown mountain, two miles from the Hanging Rock, two miles east of Schweinitz Cascade, and but four miles from Moore's Nob—the highest peak of the Sauratown, being some hundred feet higher than the Pilot, from the top of which the landscape is much more beautiful, varied and extensive.

The wildness and grandeur of the mountain scenery of the surrounding country—the delightful and healthy climate—the cheapness of living, and considering the roads are long will be made good in nearly every direction, as the public buildings will soon be completed at Danbury, it is believed by many who have seen Riddick's spring and who have attended other watering places, that it certainly will be one of the most desirable and fashionable places of resort for the invalid and pleasure-seeker in Western North Carolina. Many persons who have been to other mineral springs unobtainably declare that it is not only stronger but much bolder than any other they have seen east of the Blue Ridge.

The proprietor, Mr. Riddick, is a plain, honest, industrious, straight forward sort of a man; and has with a very accommodating spirit, and no doubt will make ample preparation to receive boarders, and will erect cabins to rent to families who may desire that mode of living. An analysis of the water will shortly be made and published by an eminent Professor.

Stokes county, Oct. 4, 1850.

NEWSPAPER ARTICLES.

The following remarks upon newspaper writing are taken from a pleasant article on "Pseudonyms and the Literary Profession," in the last number of the North British Review:

Now, Galsworthy says, that there are many doll fellows who write books; whereas Thackeray says, that there are many clever fellows who don't. For our own parts, we can see nothing worth quarrelling about in one dictum or the other. Both as we have stated them, are undeniably true; but we have not equal confidence in the truth of the assertion that thousands of these clever fellows can write articles, review books, &c., if they would. They may be very clever fellows—cleverer than those who write articles, for anything we know to the contrary; but we strenuously protest against the assumption that they can all write articles if they would. Lord Lyndhurst once said, at a public dinner, with reference to the numberless marvels of the Press, that it might seem a very easy thing to write a leading article, but that he would recommend any one with strong convictions on that point, only to try. We confidently appeal to the experience of all the conductors of the leading journals of Great Britain—from the quarterly reviews to the daily journals, convinced that they will all tell the same unvarying tale of the utter incompetency of thousands of very clever people to write articles, review books, &c. They will all have the same experiences to relate of the marvellous failures of men of genius and learning—the crude cumbersome state in which they have sent their so-called articles for publication—the labor it has taken to mould their fine thoughts and valuable erudition into comely shape—the utter impossibility often of doing it at all.

Now there are many very able and learned men, who compass greater efforts of human intellect than the production of a newspaper article, but who cannot write a newspaper article, at all because they are not newspaper writers, or criticise a book with decent effect, because they are not critics. Article-writing comes "by art and not by nature." The efforts of chance writers, if they be men of genius and learning, are things to break one's heart over.

It is not enough to think and to know. It requires the faculty of utterance, and a peculiar kind of utterance. Certain things are to be said in a certain manner; and your amateur article-writer is sure to say them in any manner but the right. Perhaps all styles of writing there is none in which excellence is so rarely attained as that of newspaper-writing. A readable leading article may not be a work of the loftiest order, or demand for its execution the highest attributes of genius; but, whatever it may be, the power of accomplishing it with success, is not shared by "thousands of clever fellows."

Thousands of clever fellows, fortified by Mr. Thackeray's opinion, may think that they could write the article which they read in the morning journals; but let them take pen and paper and try.

The Plank Road.—The tolls for the month of September, on the 18 miles on which tolls are collected, amounted to \$217. And for the month of October, thus far, they have averaged about \$16 per day.

Considerable portions of the Road, beyond the 18 miles, are finished, but not being connected, (owing to the necessary delay in sawing the lumber,) tolls cannot be charged except on the 18 continuous miles. The whole route to Carthage is progressing rapidly, and we hope will soon be completed. West of Carthage, three steam mills will be in operation shortly.

In the last Ashborough Herald we notice a suggestion that the Road, instead of going to Salisbury, should terminate at Salem. This would certainly be unjust to those in Salisbury, Lexington, &c., who have subscribed to the Stock. We altogether approve of the alternative proposition of the Herald, that a branch should be extended to Salem. We hope to see that and many other branches made; for instance to Davis, Iredell, Surry, &c.—Fayetteville Observer.

Statistics of Fayetteville.—We have already stated the population of this town, by the present Census, at 4,509,—an increase of 218 over the Census of 1840. We have further been informed by E. L. Congress.—This body adjourned on the 20th ult., after one of the longest and most arduous sessions ever known in the Country, having adjourned the question of slavery with many others of minor importance. The first, at one time, was regarded by all, as the one upon which the existence of the Union and the perpetuity of peace and liberty depended. But notwithstanding the efforts of factionists of the North and the South, the issue has been arranged satisfactorily to the great majority of the country, forever we trust. All that appears necessary now, is that the agitation and discussion of the question should cease, that it should be forgotten, and a faithful obedience given to the laws by every section of the Union. The discussion of the subject can do no good, but must do much harm, as we have already had abundant evidence, from the conversations in various parts of the country of the negroes themselves, and suspicious white men in various sections of the South.—Salisbury Watchman.

General Intelligence.

Wisconsin.—Hon. H. L. Dodge, of Wisconsin, in a recent letter to the Hon. R. J. Walker respecting the project of a railroad through the valley of Rock river, remarks as follows respecting the progress of that State:—"The total population of Wisconsin in 1840 was 30,935, and her population in 1846—the beginning of the year—was 155,277. At the same ratio of increase, being about eighty per cent. per annum, our population would now be six hundred and twenty-two thousand, and the influx of emigration since 1846 is believed to be equal to that of any previous given number of years. My own opinion is that we now have about 400,000 inhabitants."

Wine Making in Missouri.—At Hermann, a small German village in Gasconade county on the Missouri river, there are four hundred acres in vines. All around Hermann are hills and nothing but hills—the village being built in the only plain to be found. These hills are covered and crowned by fresh and luxuriant young vineyards, and from them will be produced this year from 30,000 to 40,000 gallons of wine, which is sold at the press at from one dollar to one dollar and a half per gallon. Some sanguine persons are calculating that the produce of Hermann, this year, will go even to 50,000 gallons.

First Case Under the New Fugitive Slave Law.—Before the U. S. Commissioner at New York, last week, James Hamlet, a fugitive slave, the property of Mary Brown, of Baltimore, was delivered up and sent back to Maryland. He is a married man, and his wife and children are in New York, where he has resided for several years. The Fugitive Slave Law has excited the most intense excitement among the colored population of Pennsylvania, New York, Massachusetts, and other northern States.

Nobility Declined.—Robert Stevenson, the celebrated Englishman, the projector of the Britannic tubular bridge, has been offered a knighthood and has refused it. Mr. Farrer, one of the greatest of the living chemists, has also declined a similar offer. Sir Robert Peel, it is already known, not only persisted in refusing nobility, but also, in his will, instructed his sons to imitate his example. "They are all nature's noblemen, and well know it."

Wonders of the Telegraph.—The steamship Pacific, of the Collins line, touched her dock in New York at a quarter past six on Saturday evening last. At half-past seven the foreign news which she brought was in Chicago, Illinois, a distance of more than a thousand miles from this city. This is the greatest telegraphic feat that has come to our knowledge. What would our fathers have said to it?

Practical Annexation.—The opening of the Fitchburg railroad has done more to annex Canada to the United States than any number of political speeches. At Boston, on Wednesday, a party of thirteen hundred and fifty persons left that city, in one train, on a visit to Montreal. It was composed of substantial citizens from various parts of New England. What will the Canadians think of such an irruption?

Mr. Benton has written a letter to some one in Missouri, in which he consents to be a candidate for President, if he should be nominated. He is particularly hostile, it seems, to Mr. Ritchie, the editor of the Union, and thinks if he remains as conductor of the "organ," the "Democracy" will be "ruined." BENTON is now about to play a strong game—but he will be beaten.

Maryland Election.—Enoch Louis Lowe (Dem) has been elected Governor of Maryland by a majority of about 2,000. His majority so far over his Whig competitor, Clarke, is 3,153. There are seven counties to hear from, which gave 1,352 majority for Goldsborough, the Whig candidate, at the election for Governor in 1847.

Mississippi.—Gov. Quitman has issued his proclamation, calling a session of the Legislature, on the 23d of November. He gives as his chief reasons, the admission of California into the Union as a State, and the passage of the bill for the abolition of the slave trade in the District of Columbia.

Non-Interference.—Seventy-one citizens of Beaufort, S. C., have pledged themselves never to employ a coaster owned by a citizen of the North, or manned by a northern crew. "The Charleston Mercury" commend their course as a "worth example!"

Public Lands.—The amount of the public lands already granted by the present Congress, and those which have been asked for in aid of various projects, and for various gratuities, will not be less than fifty millions of acres.

Daily Papers on the Lakes.—Six daily papers are now published at Milwaukee—two of them in German. In Chicago there are five dailies, in Detroit three, in Cleveland three, in Buffalo five, and in Toledo two.

Special Agents.—Congress has authorized special agents to be sent to Nicaragua and to the Dominicans of Hayti. The latter is to open diplomatic relations with the Dominicans.

There are a million cows in New York, and the annual product of the dairy of that State is estimated at \$50,000,000.

"Well, farmer, you told us your woods was a good place for hunting; now we've tramped it for three hours, and found no game." "Just so—well I calculate as a general thing, the less game there is, the more hunting you have."

ANTHONY & EMERSON'S DOUBLE ACTING ROTARY CHURN.

We always take pleasure in recommending to the public all labor-saving and useful inventions. One of the best which we have seen for a long time, is Anthony & Emerson's Double Acting Rotary Churn. At the churning yesterday at 12 o'clock, good butter was made from sweet milk in three minutes. We understand that the proprietors are rapidly disposing of the rights for the different States, and it seems to us to afford an admirable opportunity for a safe and profitable investment.

A Valuable Invention.—In despite of the wisdom of Solomon, there is something new "turning up" almost every day; but we have seen nothing in the way of inventions for agricultural purposes that has promised such valuable results as does a new and extremely simple Churn, which has been invented and patented by a couple of Eastern gentlemen. The machine is exceedingly simple, and the object is effected by the chemical action of the atmospheric air introduced through the milk by suction and agitation, with a common crank, and by which means from sweet milk an abundant stock of butter is produced in THREE MINUTES! We shall have more to say of this hereafter.—*American Courier.*

The public are invited to call and examine the machine at J. R. & J. Sloan, Greensboro'. It combines the following valuable qualities:

1st. It produces more butter from the same amount of milk or cream, than the ordinary method, as it does its work in a more thorough and scientific manner.

2d. It is the cheapest, simplest, and most convenient Churn ever invented, embodying the true philosophical principles of butter-making.

3d. New milk after being churned is sweet and suitable for family use.

4th. Instead of feeding the calf with milk direct from the cow—churned sweet milk will answer every purpose. By this process the butter is all profit!

5th. It is a great labor-saving machine. By simply turning a crank, butter is produced from fresh milk in from three to six minutes, and from cream in less time. (It requires longer time to produce butter if the cream is cold. The best temperature is 65 degrees.)

6th. It acts upon philosophical principles. The butter is produced by the introduction of the Mechanical and Chemical Action of the Air. By the revolution of the dasher, the air is forced between the globules of the cream upon the one side, and the production of a vacuum on the other, sucks up the particles of cream by the cavities causing a breaking up of the globules, and a separating of the butter particles of the cream from the buttermilk, or more fluid portions—producing more butter from the same amount of milk or cream than any other churn, for the simple reason that it does its work in a more thorough manner.

Application for the right to make and use the above valuable churn in Guilford county, must be to John Sloan. For sale at the store of Sept. 1850. 21st. J. R. & J. SLOAN.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM: VIZ:

Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pus-tules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Sciatica or Lumbago, and Diseases arising from an injudicious use of Mercury, Acetates or Dropsy, Exposure or Impudency in Life. Also, Chronic Constitutional Disorders.

In this preparation are strongly concentrated all the Medicinal properties of SARSAPARILLA, combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and it has been so fully tested, not only by patients themselves, but also by Physicians, that it has received their unqualified recommendations and the approbation of the public; and has established on its own merit a reputation for value and efficacy far superior to the various compounds bearing the name of Sarsaparilla. Diseases have been cured, such as are not furnished in the records of time past; and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of life, and infuses new vigor throughout the whole animal frame.

The diseases for which this article is recommended are those to which it is known from personal experience to be adapted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the Sarsaparilla is adapted, but experience proves its value, and each succeeding day is adding new trophies to its fame.

ANOTHER CURE OF SCROFULA.

The following striking and as it will be seen, permanent cure of an inveterate case of Scrofula, commends itself to all similarly afflicted:

Symptoms.—Sympathy for the afflicted induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the scrofula on different parts of the body; the glands of the neck were greatly enlarged and her limbs much swollen. After suffering over a year and finding no relief from the remedies used, the disease attacked one leg, and below the knee suppurated. Her physician advised it should be laid open, which was done, but without any permanent benefit. In this situation we hesitated not, and were induced to use Sarsaparilla. The first bottle produced a decided and favorable effect, relieving her more than any prescription she had ever taken, and before she had used six bottles, to the astonishment and delight of her friends, she found her health restored. It is now over a year since the cure was effected, and her health to this good, owing the disease was thoroughly eradicated from the system. Our neighbors have all known to these facts, and think very highly of Sarsaparilla. Yours with respect

JULIUS PIKE.
Extract from a letter from Mr. Ingraham, a gentleman well known in Delaware county. It commends itself to all similarly afflicted:

ROXBURY, N. Y., March 26, 1847.
Gentlemen:—My wife has used several bottles of your Sarsaparilla, which I obtained of your agents in this place, from which she has received such the cial benefit, that I am induced to write you to speak in testimony now before the public in favor of this medicinal virtues. Her father, mother, and many other relatives have fallen victims to consumption, and it was supposed that she too was inclined the same way. She had several turns of raising blood, &c., and at length became so reduced that her life was despaired of from day to day. We were induced to try your Sarsaparilla, as before mentioned, from the use of which her health has been restored; so that for the past year she has been able to attend to her very usual duties.

Respectfully yours, **JOHN B. INGRAHAM.**

BLACKWOOD'S MAGAZINE.
AND THE BRITISH QUARTERLY REVIEWS.
OWING to the late revolutions and counter-revolutions among the nations of Europe, which have followed each other in quick succession, and of which "the end is not yet," the leading periodicals of Britain have become invested with a degree of interest hitherto unknown. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect records of the newspapers, and the elaborate and ponderous treatises to be furnished by the historian at a future day. The American publishers, therefore, deem it proper to call renewed attention to these periodicals, and the very low prices at which they are offered to subscribers. The following is their list, viz:

THE LONDON QUARTERLY REVIEW, THE EDINBURGH REVIEW, THE NORTH BRITISH REVIEW, THE WESTMINSTER REVIEW, and BLACKWOOD'S EDINBURGH MAGAZINE.

In these periodicals are contained the views, moderately though firmly expressed, of the three great parties in England—Tory, Whig, and Radical—"Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review" Liberal. The "North British Review" owes its establishment to the last great ecclesiastical movement in Scotland, and is not ultra in its views on any one of the grand departments of human knowledge; it was originally edited by Dr. Chalmers, and now, since his death, is conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order.

The "Westminster," though reprinted under the title only, is published in England under the title of the "Foreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has therefore the advantage, by this combination, of uniting in one work the best features of both, as heretofore issued.

The above Periodicals are reprinted in New York immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—"Blackwood's Magazine" being an exact fac-simile of the Edinburgh edition.

BRANDRETH'S PILLS.

YELLOW, SHIP, AND TYPHUS FEVERS—DYSENTERY AND DIARRHÆA.—In the commencement, it is of absolute importance, in view of a speedy cure, that a full dose of pills be taken at once, because the humors which produce diseases of this class, are always of the most malignant poisonous quality, and no safety to life exists while any portion remains in the bowels or the blood. Should the first dose not cure, be not alarmed, but reiterate the dose. Should the evacuation be very purged, of bad odor, unnatural color, &c., &c., besides using four or six pills twice a day, take also, a teaspoonful of powdered charcoal, in water, every day, while these symptoms continue. Let your diet be light, and of easy digestion, as arrowroot, rice pudding, Indian meal gruel; also, sheep's head broth with rice and a piece of cinnamon boiled in it, or calves' head broth. Sheep's head makes the best diet if it be boiled until the bones are clean. As a rule, the first dose of pills cures when timely used. Some
