Congressional Convention.

Our Democratic friends in the

5th Congressional District should

bear in mind the fact that the

Convention to nominate a candi-

date for Congress, also a candi-

date for Presidential Elector will

meet in the Court House at

Greensboro, at noon on Thursday,

the 5th day of August next.

The State Agricultural Department.

[Charlotte Observer.]

The State Agricultural Department is still without a head. The board of commissioners did not elect a commissioner at its meeting in Raleigh this week. No reason is assigned for the postponement of this important duty. The longer it is deferred the more candidates there will be. It was intended that the Department should have a commissioner to manage its affairs. Two months or more have elapsed since the resignation of commissioner Folk. In the meantime the cotton worm is playing the devil with our great staple.

It was rumored in Greensboro, last week that it was the intention of the Board of Agriculture not to fill the vacancy until after the fall elections, and then—a re-election of the late incumbent would follow. We tell this just as it was told to us, and don't vouch for its correctness.

The Raleigh Observer pays Judge Merrimon a very distinguished compliment in naming him as a member of Hancock's cabinet. The Observer will have a voice in the making of the next cabinet, and its nomination of Judge Merrimon, therefore, is no empty compliment.—Charlotte Observer.

A correspondent of the PATRIOT writing from Chicago, was the first person to suggest the name of Judge Merrimon for a seat in the Cabinet. The *Nebernerian*, and other papers endorsed the views of our correspondent. Now, the Raleigh Observer receives credit for naming the distinguished North Carolina statesman for the high and honorable position of Post Master General. Is it right?

However, let us all work together, and elect Hancock first, and then it will be time enough to talk about Cabinet appointments.

Frank Caldwell has announced himself an independent candidate for the Senate and declares that he belongs to no party.—North State.

When Mr. Caldwell announced himself as an independent candidate for the Senate, from Guilford and Alamance! When did Mr. Caldwell declare that he belongs to no party?

The PATRIOT is authorized by a friend to state that Mr. D. F. Caldwell is not an independent candidate for the Senate, on the contrary—while a candidate for the position he will abide by the action of the Democratic County Convention, which meets in this city on the 21st day of August.

Gen. Scales will be re-nominated without opposition in the fifth district. His congressional career has been a long and honorable one. Its initial in the 38th Congress was marked by unusual activity. After the removal of his disabilities he was again returned to Congress, serving in the 43rd, 44th, 45th and 46th Congresses. He will be elected to the 47th.—Charlotte Observer.

Our esteemed contemporary is right; Gen. Scales will be re-nominated without opposition on the 5th day of August, and he will be re-elected by a handsome majority on the 2nd day of November next.

Well informed Democrats estimate that Jarvis will fall behind Hancock at least five thousand votes. This is a very significant straw.—North State.

Yes, a "very significant straw." It is confidently expected that not less than five thousand Republicans in North Carolina will vote for Gen. Hancock on the 2d of November next. Let's see: that will give Hancock about 25,000 majority over Jarvis in North Carolina. Jarvis and Robinson and the entire Democratic ticket will be elected by not less than 20,000 majority. Mark the prediction.

Special Paragraphs.

—Senator Cameron desires to have it understood that crow isn't such a very bad dish when you get accustomed to it. *Philadelphia Times, Ind.*

—A German Hancock and English Association in New York numbers about 8,000 members, at least 1,000 of whom were formerly Republicans.

—Dr. Tanner, after he gets through his fast should start a Daily paper. We think a man who can live without eating would make quite a success in that line.

—Ex-Gov. Brogden, it is said, has announced himself as a candidate for Congress in the second district. The other Republican candidate is Mr. O. Hubbs, the postmaster at Newbern. The Democrats have not yet held their convention.

—Judge W. B. Rodman, long a prominent Republican in North Carolina, has declared for Hancock. The Democrats are on the broad road to success and will sweep this country in November next.

—The colored people of North Carolina will hold their second industrial fair under the auspices of the North Carolina Industrial Association at Raleigh, commencing September 27th and continuing six days. There will be a brief military display in connection with the fair, and Fred. Douglas has been invited to deliver the annual address. The fair last year was a decided success, and it is anticipated that the one this year will give gratifying evidences of progress made since that time.

—Cincinnati can well claim to be a great trading and manufacturing city. Her iron manufactures are now valued at \$17,000,000 yearly, while other metals she produces to the value of over \$5,000,000. The extent of her pork-packing is shown by the fact that her food supplies are valued at \$2,500,000, while her beer and wine are worth \$263,300 yearly. In wood manufactures her annual output is estimated at \$15,000,000. Her leather product is worth \$10,000,000, and of soap, candles and oils she makes and sells to the extent of \$8,640,000 yearly. Cincinnati expects to handle 325,000 bales of cotton this year.

—From the *Albany Enquirer* of the 22nd inst. we learn that E. C. Copeland, a colored man, who lives at Boykin's, Va., and who was during the war in Gen. Hancock's army as a servant, says there never was a better and nobler man, that drew the breath of life, than Gen. Hancock and he would vote for him if it was the last thing he ever did. He works about twenty hands in the single business, and says if Gen. Hancock don't get every one of their votes, you may count on his influence being worth but very little among them!

A CAMPAIGN SONG.

Miss Perry, a daughter of General Perry, of General Hancock's staff, has composed a campaign song, which, to the tune of "My Darling," is being sung on Governor's Island with stirring effect. It compares the two sides, and the following is a specimen verse:

In the war he led his soldiers
Skillfully the battle through,
Yet while fighting still delighting
In the peace he brought them to.

CHORUS:
Hurrah for Hancock! hurrah for Hancock!
For he is the people's man,
Hurrah for Hancock! hurrah for Hancock!
Let Garfield beat him if he can.

So rally, freemen around the banner
Of our party now we lead—
"Twice ten glory to Hancock!"
O'er all things we should lead.

There will be a grand demonstration in connection with the fair, and Fred. Douglas has been invited to deliver the annual address. The fair last year was a decided success, and it is anticipated that the one this year will give gratifying evidences of progress made since that time.

Guilford County Democratic Convention.

Delegates to the regular annual Democratic Convention of Guilford county will convene at the Court House, in Greensboro, on Saturday, the 21st of August, at 12 M.

The Democratic voters of the several townships will meet at their respective voting places on Saturday, the 21st day of August, at 2 o'clock P. M. to appoint delegates to the County Convention, and to elect five Executive Committees for each township.

In Monroe township the voters will meet at Brown Summit.

The presiding officers of the Township meetings are requested to forward the proceedings of their meetings, including a report of the number present at the meeting, to the Chairman of the County Executive Committee, on Monday next after the meeting.

It is hoped that every Democratic voter will attend these meetings that the sentiment of the party may be fully and truly expressed.

By order of the County Ex. Com., J. T. Morehead, Chm'n.

Greensboro July, 20th, 1880.

—All communications intended for publication in the PATRIOT should be accompanied by the real name of the author, in order to receive attention. We have one to-day about a tournament to take place in Alamance—no name accompanies it—we have also another about political matters in Guilford, with no name—also another concerning a certain candidate for sheriff, no name—of course we must decline to print them.

—The people who have come back from Beaufort report that shark fishing is now one of the chief sports. They have caught several of these dangerous creatures which measured 8 or 10 feet in length and the number does not seem to have been diminished much either.

—The town of Monroe, in Union county, in this State is well supplied with negroes, horse traders, cigar makers, ginger cakes and string chickens. It is just had an ice factory, beer garden and singing school, the citizens would feel much better and happy.

—A correspondent writing from Rome to the *Paris Register*, says that the poor Italian workmen are actually worse off than the Irish and Irish, and as a rule, he works and lives upon a scanty provision of Italian corn, which, after a few years, brings an disease which renders him incapable of working at all. It is only a few years ago that the Italian was a contented, happy, and contented, that he was not, nor does he have any political views.

—It is pleasant to be appreciated when one is engaged in trying to do your duty. A citizen of Missouri, writing to a friend here, says: "I am in the habit of doing my duty, and I am not doing it for any other reason than that I believe it is my duty."

Further information about the Western North Carolina Railroad.

Maj J W Wilson, constructing engineer of the Western North Carolina Railroad Company, passed through Greensboro Sunday on his way home from New York, where he had been during the past ten days in the interest of the company which he is ably representing. During his brief stay in Greensboro, the Editor of the PATRIOT gathered the following facts from him in regard to the Western North Carolina Railroad.

1 That all matters pertaining to the settlement of the contract for the purchase of the Western North Carolina Railroad by W J Best and his associates have been adjusted.

2 That the entire indebtedness to the employees, and others along the line of the road, will be paid within the next few days, probably during the present week.

3 That the amount due the State of North Carolina on the 1st day of August 1880, will be promptly paid to the State Treasurer.

4 That Maj Wilson in behalf of the management has already made a requisition upon the Governor of the State for the convict labor named in the contract, which he intends to put on the route beyond Asheville, and push forward the work of construction without any further delay.

5 That the road from its present terminus to Asheville will be completed within the next three weeks, probably earlier, certainly just as soon as the iron arrives, which President Best will purchase and send forward at once.

Maj Wilson spoke in the highest terms of President Best and assured us of his ability to carry out his contract with the State. There had been delay by Mr Best, owing doubtless to some misunderstanding between him and his associates in the purchase, but all these difficulties had been removed, and now the work would be pushed forward to completion as rapidly as possible.

Fatherly Advice.

Don't buy what you don't want.

Don't spend all your salary what ever it is.

Don't cold children or servants if you want to get any good out of them.

Don't think swearing will make the carpet fit the rooms in your new house.

Don't imagine the world wouldn't go on as usual if you slipped out of it to day.

Don't cut up your heavy clothing for carpet rags; they may come handy next year.

Don't leave business affairs altogether to clerks, or household affairs to servants.

Don't expect other people to take the good part if you flare up for nothing.

Don't run in debt.

Don't try to suit all your relatives when you name the baby; suit yourself and stop there.

Don't imagine the harmony of the solar system will be upset if there's a wrinkle in the back of your new coat.

Don't commit suicide if the girl you want won't have you; she wouldn't care a fig and you might be sorry too late.

Don't expect to do a thriving business if you don't tell people through the papers where you are and what you have to sell.

Paul and Nero.

The following passage, from Canon Farrar's Life and work of St. Paul, furnishes one of the finest assemblages of antithetical figures that we remember to have seen in our language:

Paul before Nero! if indeed it was so, what a contrast does the juxtaposition of two such characters suggest—the one the vilest and most wicked, the other the best and noblest of mankind! Here indeed, we see two races

The Sponge Family's Holiday.
[Philadelphia Times.]
The summer holiday is each year
becoming more and more of a social
necessity. Whether for a long or
short term all city folks must go to
the country. Some patronize the
large and costly hotels, while others
with less expensiveness, but with
stomachs of equal capacity, put
with those of the people who put
more money in circulation seek
health and leisure in the private
boarding house. But there is a
large class of pleasure seekers, more
thrifty than either of these, who
are averse to squandering their
precious dollars on hostilities of
any kind. Having relations who
live in the country, these people
plan a visit, the only expense of
which will be the transportation of
themselves and their baggage. In
the assurance that their country
cousins will be delighted to see
them, they go in full force—father
mother, reverend young children and
the baby. It is by no means an
unusual thing for such people also
to inflict on their rural relations a
narrow whose business it is to take
care of the house. When the re-
lations are plain people who live on
a farm and intend in person to do
their household work, the nurse-
girl is one of the chief burdens
involved in the entertainment of
the party, especially if she be given to
putting on city airs, as she general-
ly is.

over the discomforts of the country.
As they say farewell to the country
cousins, who have, at great incon-
venience, entertained them, old Mr.
Sponge remarks to the farmer's
wife: "Now Maria, remember that
if you should ever happen to come
to the city you will call on us, won't
you?" As a small shrinks into her
shell Maria withdraws into her own
inner consciousness, and as the
Sponge Family disappear over the
hill on the road to the railroad sta-
tion, she and all hers speed the
parting guests by shaking their fists,
discovering their faces and using
several wrathful expressions which
would not appear well in print.

Mining Notes.
A correspondent of the Mining
Recorder writing from High Point,
N.C., says:
"In close proximity to this mine
(Fentress Copper Mine), five miles
from the railroad, quite recently a
considerable amount of free gold
was found on the surface, including
some nuggets weighing upward of
an ounce, and, prospecting the
ground, I traced several veins run-
ning conformably to the strata, the
quartz in a schistoidal charac-
ter, with free gold and sesquioxide
of iron, but no traces of sulphur.
The cross-cuts show the veins to be
4 to 6 feet wide, dipping slightly to
the east, encased on both sides in a
hard blue clay slate. On several of
them I have commenced shafting.
The owners are mostly farmers in
moderate circumstances, who are
willing to part with their tract for
a small advance on the value of a
farm. The climate is very healthy,
with plenty of pure running water
for milling purposes. There is a
large field, where, with very little
outlay, productive mines can be
established. I think this location
offers particular advantages to
those who have acquired skill in
hauling free milling establish-
ments on a large scale in the Black
Hills of Dakota.

Juvenile Smokers.
A British physician, observing
the large crowd of boys under fif-
teen years of age on the streets with
cigars and pipes in their mouths,
was prompted to examine the breath
of this class of smokers, and for
that purpose selected thirty-eight
boys between the age of nine and
fifteen. In twenty-two of these
cases he found various disorders of
the circulation and digestion; pal-
pitation of the heart and more or
less marked taste for strong drink.
In 12 there was frequent bleeding
of the nose, and twelve had slight
ulceration of the mouth caused by
tobacco. The doctor treated them
with little effect until the habit of smoking
was discontinued, when breath and
taste were restored. The effect
of tobacco in creating a taste for
strong drink is unquestionably
very great. If the testimony of
many tobacco users and medical
men is of any weight, one of the
most radical methods of keeping
the young from being led to in-
temperate drinking is to deny them
tobacco.—The Sanitarian.

A Duel Between Boys.
[London Telegraph.]
A very novel description of a duel
which is reported from France tends
to show that the rage for fighting
is attaining to inconvenient propor-
tions. Two lads, each about 16
years of age, were, it seems, break-
fasting together in a factory near
the Rue Notre Dame de Nazareth,
Paris, and, having quarreled, agreed
to settle their dispute in what is
now the prevalent fashion. They
were, however, in possession of
foils, and, as a consequence, deter-
mined to fight with knives. Snow-
ing them at each other in the Span-
ish fashion. Standing three paces
apart, they began the battle and
soon one of them fell, covered with
blood. Thereupon the victor de-
scended to the basement of the
building for medical aid and
brought a doctor upon the scene
just in time to witness the death of
the wounded lad. Dumont—for
that is the name of the survivor—is
now incarcerated at the Police
Depot, while the body of his friend
has been taken to the Morgue for
examination. It is noted that the
whole affair is more than ordinari-
ly sad, since the father of the boy
who lost his wife and daughter and
has been deprived of reason by this
fresh misfortune.

A Fearful Disaster.
Two Excursion Boats Collide on the
Detroit River.
[By Telegraph to the Patriot.]
DETROIT, July 24.—A terrible
accident occurred about 10 o'clock
Thursday night on the Detroit
River, 9 miles below this city. The
excursion steamer, Garland, with
1,200 persons on board, under the
auspices of the Detroit Molders
Union, while going down the river
collided with the steam yacht, Ma-
mie, coming up, cutting her in two,
so that she almost instantly sank.
The latter had on board 24 persons,
consisting mainly of Father Bleyen-
burgh, pastor of Trinity Roman
Catholic Church, of this city, and a
number of acolytes and boys, of-
ficiating in various capacities in the
service of the Church. They had
been on their annual excursion to
Monroe, and were returning home.
The night was bright with moon-
light, and there could have been no
reason save that of criminal neglect
why the accident should have oc-
curred. Of those on board the
Mamie, the following were drowned:
Mrs. Lizzie Marbury, housekeeper
of Father Bleyenburgh, Miss Mary
Hahn, of the Domestic Porcelain
School, of Trinity Church, and 9
altar boys of the Church, aged
from 11 to 14 years. Thos. Kelly,
sexton of the Church, Jim Kelly,
organ blower, and Andrew Boran,
a boy who was invited to accom-
pany the excursion. Thos. McLo-
gan, another boy is missing, and
probably lost. Capt. Hoffman,
Engineer Martin, Father Bleyen-
burgh, Miss Lizzie Duseau, of
Monroe, and four others were saved
and reached this city about two
o'clock this morning. None of the
bodies have yet been recovered.

Another Strike Threatened.
[By Telegraph to the Patriot.]
LONDON, JULY 24.
The interview between the mas-
ters and the cotton operatives of
Bolton and that district yesterday,
resulted in the operatives declaring
their intention to strike on Wed-
nesday next, unless an advance of
five per cent. on their wages is con-
ceded. The Masters said they would
in such an event enforce a general
lock out. This dispute directly af-
fects four thousand spindles and
ten thousand operatives.
Two thousand operatives are now
out on strike at Rockdale.
A strike also is probable at Old-
ham.

HOW WATCHES ARE MADE.
It will be apparent to any one, who will
examine a Solid Gold Watch, that aside
from the necessary thickness for engraving
and polishing, a large proportion of the
precious metal used, is needed only to stiffen
and hold the engraved portions in place,
and supply the necessary solidity and
strength. The surplus gold is actually need-
less so far as UTILITY and beauty are con-
cerned. IN JAMES BOSS' PATENT GOLD
WATCH CASES, this waste of precious
metal is overcome, and the SAME SOLIDITY
and STRENGTH produced at less than one-
half of the usual cost of solid cases.
This process is of the most simple nature,
as follows: a plate of nickel composition
metal, specially adapted to the purpose, has
two plates of solid GOLD soldered one on
each side. The three are then passed between
polished steel rollers, and the result is a
strip of heavy plated composition metal,
which the cases, licks, centres, bezels, &c.,
are cut and shaped by suitable dies and
formers. The gold in these cases is solidi-
fied by the heat of the rollers, and is not
engraved and enamelling: the engraved cases
have been carried until worn perfectly smooth
by time and use without retouching. the gold.
THIS IS THE ONLY CASE MADE
WITH TWO PLATES OF SOLID GOLD,
& WARRANTED BY SPECIAL CERTIFI-
CATE.

trated Catalogue, and see watch
