AYER'S Sarsaparilla "For eight years, I was, most of

the time, a great sufferer from constipation, kidney trouble, and indigestion, so that my constitution seemed to be completely broken own. I was induced to try AYER'S Sarsaparilla, and took nearly seven bottles, with such excellent results that my stomach bowels, and kidneys are in perfect condition and, in all their functions, as regular as clock-work. At the

time I began taking AYER'S Sarsaparilla, my weight was only 129 pounds, I now can brag of 159 pounds, and was never in so good health. If you could see me before and after using, you would want me for a traveling advertisement. I swear by AYER'S and believe this preparation to be the best in the market to-day."-S. P. Smith, 312 Poplar st.,

"I cannot forbear to express my joy at the relief I have obtained from the use of AYER'S Sarsaparilia. I was afflicted with kidney troubles for about six months, suffering greatly with pains in the small of my back. In addition to this my body was covered with a pimply cruption The remedies prescribed for me by the doctors did me no good. I then began to take AYER'S Sarsaparilla, and after using two bottles of it, I felt like a different man-the pains ceased and the pimples have disappeared. I advise every young man and woman, in any case of sickness resulting from impure blood, no matter how long standing the case may be, to take AYER'S Sarsaparilla."—H. THOROUGH INVESTIGATION.

Resolution for an Investigation of the Chicago Strike.

Washington, July 11.-The House committee on Inter-State and Foreign Commerce to-day agreed upon the following:
WHEREAS, The Constitution of

the United States gives to the Congress of the United States alone the power to regulate commence among the several States; and,

WHEREAS, The said commerce has been and is now interrupted and interfered with without the authority of Congress; therefore, Resolved, That the Committee

on Inter-State and Foreign Com-merce be and is hereby directed to investigate said interference and interruption, and the causes thereof, and inquire as to what addi tional legislation, if any, is necessary to prevent a recurrence thereof. Said committee shall have the power to delegate a sub-committee from its members to visit the places where such interference and interruption have occurred, if, in its judgment, the same be necessary. It may send for persons and papers, examine witnesses under oath, employ stenographers, sit during the recess of Congress, and do all things necessary to ascertain the facts connected with the subject of inquiry. It shall report to the House at as early a day as practicable the result of its investigations and shall make such recommendations as it may deem

The expense of the investigation is to be paid out of the contingent fund of the House.

Long Farms in Maine.

Maine has probably many oddlyshaped farms, but we doubt if one can be found more peculiar in form than that in the east part of Dexter. formerly owned by the poincer blacksmith, Elijah W. Sprague. This was eight rods wide and a half mile long, with a highway cutting it at right angles into unequal portions. The inconvenience of so narrow a farm, with pasturage and woodland at one end, is obvious to any one, but in this form it has continued, from the days of the forefathers to the present, time, in use as a farm all the time. A farm half a mile long was in use a great many years near Farmington Falls, and may be so used yet for all the only twenty rods wide and about writer knows, but the Dexter farm beats it by nearly two thirds for narrowness and general oddity. Farms of this shape are numerous in Canada -Lewiston Journal.
