He is an optimist. He believes in
his country and his people, and he
means to do all he can to prove his
faith.

Texas is to be congratulated upon
Dr. Winston's acceptance. The
people of that young empire will
find that he will soon become a
leader in education. He is adapt-
able, will quickly grasp the condi-
tion in Texas and master them, and
prove a power and a leader there as
in North Carolina. If Texas will
do her part, he will make in Austin
a University second to none on the
continent.—News and Observer.

Sketch of Our Next Governor.

Cyrus B. Watson, "Our Cy," as
he is popularly known throughout
Western North Carolina, is a son
of the late John Watson, Esq., and
was born January 11, 1841, near
Kernersville, in what was then a
part of Stokes, but forming now a
very important section of this (For-
syth) county.

From early childhood he was ex-
ceptionally bright and gave prom-
ise of great mental activity and ca-
pacity. His educational advan-
tages were only those afforded by
the common schools of that day.

When the dark clouds of the late
civil war arose and hovered threat-
eningly over this Southland, al-
though only 16 years of age, he was
one of the first to shoulder
arms and go out from the home of
his boyhood to fight, suffer and, if
needs be die for the Confederate
cause. He served most valiantly
as sergeant of Company K, Forty-
fifth Regiment, N. C. troops. He
was seriously wounded at both
Williamsport, Md., and Spotsylvania
Court House.

When the war closed Mr. Wat-
son laid down his arms and came
back to his Kernersville home. He
served both there and at High
Point for a year or two as a clerk
in general merchandise stores. He
afterwards studied law under the
late J. M. Leach at Lexington, and
was admitted to the bar in 1868.
During the next year, 1869, he was
united in marriage to Miss A. E.
Henley, daughter of Mr. and Mrs.
W. P. Henley.

Since the war, while loyal in
every way to the Federal Govern-
ment, he has at all times, by both
word and action, shown himself an
earnest defender of the South and
her interests. He is an active
member of the Norfolk Camp, No.
126, United Confederate Veterans.
Mr. Watson rose rapidly to prom-
inence in his chosen profession,
developing into an able practitioner,
especially adroit and successful in
the conduct of criminal cases.

In 1883, Mr. Watson was elected
to the North Carolina State Senate,
Thirty-second district. He served
as an efficient member of the Com-
mittee on Internal Improvement,
the Code, Redistricting the State,
Judiciary and several others. He
was a hard working Senator, in
every way representing his district
with much credit to himself and
constituency. It is to Mr. Watson
that is due the credit for originat-
ing and engineering, to successful
enactment, the most notable and
salutary law of that year, the fa-
mous anti-lynch law. He was
elected to the Senate by a majority
of 1,305.

About 1875 Mr. Watson formed
a partnership for the practice of
law with the late W. B. Glenn, with
whom he was associated until 1885,
when the present well known law
firm of Watson & Buxton, which
ranks as one of the foremost legal
combinations in the state, was
formed.

Again in 1893 Mr. Watson was
called into public life, having been
elected to the lower House of the
Legislature. In this position he,
as in the Senate of 1883, labored
diligently for the best interests of
his constituency and state at large.
He was the author and earnest
advocate of the famous anti-trust
measure introduced in the House
by himself, and passed that body
by a good majority, but was
defeated and defeated in the Senate
by a bare majority. The direct
aim of this measure was to throw
off the heavy yoke of trusts and
combinations, which have for sev-
eral years been sapping the life
from North Carolina industry and
hindering her material prosperity.
It aimed an especial blow at that
arch enemy of the tobacco planter,
the American Tobacco Company.

Mr. Watson during this term of
the Legislature served as chairman
of the Committee on Banks, and
was quite active in the passage of
a law providing for the re-estab-
lishment of State banks, which was
to go into effect when the Congress
of the United States should have re-
pealed the 10 per cent. tax on in-
stitutions of this character.

It was during this session that
Mr. Watson made his deepest and
most favorable impressions upon
the people of the state at large as
an uncompromising Democrat and
as Forsyth's recent convention ex-
pressed it, "the ancient and earnest
foe of monopoly and trust—the
friend of silver—the defender of
the people's rights." It was with
commendation like unto the quota-
tion just used, that the Forsyth
county convention, held in this
city June 20th, most enthusiastically
endorsed Mr. Watson for the
nomination as Democratic candi-
date for Congress from the Eighth
district.

It was with unfeigned yet reluctant
pleasure that Forsyth's delegation,
in obedience to the State conven-
tion, yielded their favorite as a
Congressional candidate, for the
higher and more responsible posi-
tion of Governor of the Old North
State.—Winston Sentinel.

Principles and Policies.

In these days of political con-
ventions one hears a great deal
about principles—party principles.
The word has a deeper meaning
than practical politicians give it,
for they nearly always confound it
with policy. Yet the foundation
of all great parties is to be found
in some great principles, and the
party cannot be held together by
the utmost political craft except
by adherence to its principles.
They are, in fact, a rule of action
or the basis of a system of politics,
and, whether true or not, must be
held by those who undertake to act
together politically. They may not
be expressed in platforms; the
voters may not be able to formu-
late or give them expression, but
they exist and have a greater con-
trolling influence over the results
of elections than the policies of
unscrupulous leaders, who start out
to catch votes without regard to
principles. The differences be-
tween the Democrats and Republi-
can parties are based upon funda-
mental principles, which differences
originated during the organization
of the government. The two par-
ties have not always held their
present names, but they have exist-
ed from the beginning, and a change
of names only leads to a little tem-
porary confusion, the voters soon
gravitating to that party which
represents their principles. These
differences relate to the nature of
the union as originally formed,
the limitations put upon the several
branches of government, (including
the States,) the theory of govern-
ment, and the nature of its func-
tions. Without thinking deeply
upon the subject men become Demo-
crats or Republicans according to
their views upon these subjects, and
the treatment of social, economical
and financial subjects by both par-
ties is almost unconsciously based
upon the bearing of their principles
upon a particular subject. A poli-
cy, more or less ephemeral, is very
different from a principle. Policies
may change, but principles are
eternal. The politicians who talk
most freely about principles usual-
ly pay very little regard to them
except as they may serve their pur-
pose, but they have great regard for
policy. Is it wise at this time to
take decisive ground on a present
issue? Can we win more votes by
advocating or opposing a proposed
measure? These are the questions
that the mere politician asked him-
self, and, though he may sometimes
gain an advantage by following
policies rather than principles, he
is sometimes shown to be singularly
short-sighted because he has not
taken into account the almost un-
conscious adherence of the mass of
voters to principle. The so-called
"tidal waves" which sometimes
sweep the country to the surprise
of the politicians are not, as a rule,
mere accidents, or due to the whims
of voters. They generally result
from a departure from principle by
the leaders or from a conviction of
a party, the voters remaining steady.
This would be more manifest
if it is except for the fact that
all men are inclined to stand by
their old party and to work
with their old political associates
even after a cause for separation
has arisen. Sometimes the threat-
ened defection does not take place
at all, the party returning to its
moorings before the estrangement
of those who are guided by prin-
ciple has been effected, but there is
always danger to party organization
when principles are abandoned for
the sake of vote-catching policies.
As long as this government shall
last there will be two great parties,
(their names being of little impor-
tance,) divided upon principles
which can be applied to all issues
as they arise. Other parties may
branch off to the support of particu-
lar policies, but they cannot be-
come formidable until they have
established broad principles enter-
tained by a great number of voters.
The lesson to be derived from this
observation is the great value and
importance of principles, not merely
in the political but in the social
and religious world. Every man
should make sure of the foundation
of the faith that is in him. Then
he will not be disturbed by doubts
even when new questions arise, but
will have with him a sure guide to
rational opinion.—Exchange.

Unprecedented Resolution—Something Wrong With the Man.

In another article we have re-
ferred to the demonstration made
over Cyrus B. Watson at his home
in Winston Friday upon his return
from Raleigh. In striking contrast
to it is the following resolution
adopted by the recent Democratic
convention of New Hanover county
the home of Judge Russell:

"That we declare to the people
of this State that we believe that
the act of the Republican conven-
tion in nominating D. L. Russell
for Governor is attended with all
those threatened evils that all ques-
tions should be subservient to one
purpose and end, to-wit: that of
his defeat. Living in our midst
and exercising an almost despotic
power over white and colored men
alike of his party, and having,
therefore, many opportunities to
exert a beneficial influence in this
community, his influence has been
exerted to retard rather than ad-
vance the progress of our people."

The best estimate of any man is
that put upon him by his own
neighbors, and he must be a bad
man of whom his neighbors say,
when he becomes a candidate for
a great office, that the possibility of
his election is attended with so
many evils that, whatever their dif-
ferences upon any or all other ques-
tions, these must be forgotten and
everything made subservient to the
defeat of this man.

It will not do to say that this is
mere partisanship. Partisanship
does not go this far. Let us go
back for twenty-four years; the
Democrats of Burke county made
no such threat arrangement and
there is no reason why it should be
different now. Speaking of the
importance of saving the state to
Democracy, General Ransom said:
"It is highly important that we
should carry North Carolina this
year. I do not underestimate the
value of a national victory to Demo-
cracy but first of all we should
look to the redemption of the state.
When one is thoroughly aroused to
the importance of good state gov-
ernment apathy is seldom found
over national affairs. I believe the
ticket nominated at Raleigh can
and will win."

A BIG DEFICIT FOR THE YEAR.

Government Expenditures Exceed
the Receipts by \$26,042,244.
WASHINGTON, July 1.—The com-
parative statement of the govern-
ment receipts and expenditures
issued by the Treasury department
today shows the total receipts from
all sources during the fiscal year
just closed to have been \$32,189,
226, and the expenditures \$58,231,
157, which leaves a deficit for the
year of \$26,042,244. Although
there was a surplus for June of \$2,

THE PATRIOT, Greensboro, N. C.

WEDNESDAY, JULY 8, 1896.

ANNOUNCEMENTS.

EDITOR PATRIOT:—We beg to put before the voters of Guilford county Mr. C. A. Wharton as a suitable candidate for the office of sheriff. Mr. Wharton is a gentleman of high character, an intelligent, energetic and progressive citizen, and a man of unusual influence not only among his own party friends but with Republicans and Democrats as well. Let his friends rally around him at our Democratic county convention and give him the nomination and he will be our next sheriff. June 23, 1896. Voter.

OK RIDGE, N. C., June 30, 1896.
EDITOR PATRIOT:—Without disparaging any of the good men whose names have been mentioned for the office of Treasurer of Guilford county, I wish to present the name of Mr. A. S. Clark, of Oak Ridge. I have known A. S. Clark since he was a boy, and have found him "square" every time and every where. He is honest, kind, obliging, painstaking, accurate; looking after even the smallest details of his own business and that of others in his care with conscientious fidelity. As a citizen he is public spirited, and as a neighbor he is honored and respected by all. He is a life-long Democrat, has always worked for the interest of the Democratic party and has never held office. But he is as capable and as deserving of office as the hands I hope to see him nominated. Respected and trusted by his neighbors and by all with whom he has come in contact, he will add strength and confidence to his ticket.
Very Respectfully,
W. O. DONNELLY.

Forty-five stars now grace the blue field of the United States flag, Utah having been formally admitted to the sisterhood of states July 4th.

The Prohibitionists will hold their State convention at Salisbury on Wednesday, August 19, and will nominate a full State ticket. Unless Russell comes down there will be four tickets in the field.

Some of the leading Republican papers of the West have slipped their party halters far enough to permit an expression of contempt for the men and methods that prevailed at St. Louis. The Denver Republican recently said: "When he (McKinley) accepted the nomination of the money power he justly forfeited the respect and the support of all true believers in bimetalism, and we hold that the Colorado delegates and others who went out with them are entitled to the lasting gratitude of their constituents for the courage and independence they displayed in this matter."

The departure of Dr. Winston from North Carolina will, in our judgment, be the most distinct loss the State has sustained in many years. He is not only a profound scholar and great teacher, but he is a man of the broadest culture and brilliant attainments and is all things considered probably our foremost citizen. His genius and ability have been equal to any emergency and his activity and industry were most remarkable. If he does not achieve very brilliant success in the great and progressive state to which he is going, North Carolina people will be disappointed. We sincerely hope that the people of Texas may from the outset give him that cordial sympathy and support to which his great talents and abilities entitle him. If Texas will give him a chance, he will build there the greatest University in the South.

The Winston Republican tells the truth when it says, in speaking of Cy. Watson, the Democratic nominee for Governor: "While accounted by all a good lawyer, he is as universally pronounced a poor politician." Worse things might be said about a candidate. Watson wasn't nominated with the expectation of electing him through political chicanery. He was chosen as the Democratic standard bearer because he fulfills the requirements of the hour, possessing in a marked degree the rugged manliness and honesty of a broad minded, upright christian gentleman. The fact that he is not a politician, in the sense implied by the Republican, will bring him the votes of thousands of honest men outside his own party. The contrast between him and Russell, in that respect, is glaring.

The New York Journal is a fearless and independent newspaper. The Journal is against the free coinage of silver, but it does not hesitate to tell the truth about the

silver movement and about political conditions generally. Speaking of the coming national convention, it says: "The difference between the two great political conventions this year is very striking. While the Republicans dragged their leader feet reluctantly toward St. Louis they knew, and all the world had known months before, that they went to consummate a bargain they had no hand in making, and nominate a man who was not their choice, but his own. Every one knew exactly what was to happen at St. Louis. No man living knows what is to happen at Chicago, but there is a well-founded belief that the convention will be the most important and dramatic since that which nominated Lincoln in 1860."

The Charlotte Observer aptly remarks, in a recent issue: "If the sound money cause in the Democratic party were not already lost it would be if it had a few more fool friends like the New York jack, a banker and bond dealer, who wrote the Colorado delegates to Chicago threatening the withdrawal of investments from the State on account of its free silver sentiments, and like the asinine directors of the Mercantile National Bank of New York, who, at the very worst moment imaginable, forced President St. John to hand in his resignation because of his silver sentiment. Such things as these have no other effect than to set the hair on the free coiners. American people cannot be coerced, and when argument has failed on them it is not worth while to try to drive them."

GOLD MEN ON HAND.

The Tariff Plank Perplexing—A Bait for Free Silver Protectionists.

CHICAGO, July 4.—The climax of today's ante-conventional developments was the mass meeting of the gold men in the Auditorium this evening. The speeches of ex-Governor Russell, of Massachusetts; Senator Gray, of Delaware, and District Attorney Fellows, of New York, were vigorous enough in their denunciation of the line of action which the convention is bent on taking on the silver question, but they stopped short of suggesting a remedy or any plan by which the sound money advocates could hope to stem the current now setting so strongly against them. Governor Russell's remarks particularly brought out in strong relief the difficulty which is beginning to loom up before the silver managers—what to do with the tariff. Nearly all the bolting Republican delegates at St. Louis declare that their states were sold for free silver and protection. Governor Russell seized upon this point and asserted that if Republican protection was right in principle, then silver legislation was equally so, but if protection was wrong in principle, unjust and oppressive in practice, as the Democratic party had ever declared and still declared, then silver legislation was equally so and ought to receive equally emphatic condemnation. This point was obviously directed against the arguments advanced in favor of Senator Teller as the free silver standard bearer, he being also an earnest advocate of protection, and as such its force was appreciated. The effect will undoubtedly be to augment the perplexities which the managers are finding in dealing with the tariff plank of the platform.

Quite a number of our young folks and a few older ones went to Red Springs on the excursion and report having had a most delightful time.

Defaulting Cashier Heard From.
CHARLOTTE, July 4.—Ex-Cashier Brady, of the Loan and Savings Bank, who has been missing ever since the discovery of his shortage of \$4500, has been heard from. He is in the Presbyterian Hospital at Chicago, it is said, in a semi-delirious condition. He will be brought home at once. His friends have felt great uneasiness as to what had become of him.

Escaping Convict Wounded.
WINSTON, July 4.—Two white county convicts, Hartgrove brothers, attempted to escape to-day when they were fired upon by the guard. One was shot and mortally wounded. Officers are in pursuit of the other one. The men were serving a term on the county roads for breaking in and robbing a store.

WILL NOT BE A CANDIDATE.

Senator Daniel's Name Will Not Be Presented for Second Place.

CHICAGO, Ill., July 4.—The name of Senator John W. Daniel, of Virginia, will not be presented to the convention as a candidate for second place on the ticket. The statement was made to-day by Congressman Swanson, a delegate-at-large and Mr. Frank Hume, an alternate. The Virginia State convention instructed the delegation to urge Daniels for the Vice-Presidency if its members thought best and consultation with the Senator has led to the decision not to present his name.

Mr. Swanson said: "Senator Daniel has asked us not to nominate him for the place and we will follow his wishes. He prefers his seat in the Senate, where he can take an active part in legislation and exercise his power as an orator, to any position which will remove him from an active part in affairs."

Mr. Hume spoke in the same strain and added that Senator Daniel thought that his record as a Confederate soldier might render his candidacy inadvisable.

NOT PARTICULAR ABOUT MEN.

But the Southern Delegates Are a Unit for Silver.

CHICAGO, July 4.—There has been no general effort on the part of the Southern delegates to stand together in the convention except upon the one question of the financial utterances. They are a unit for free silver, and say that if they can get what they want on that point, they are comparatively indifferent as to the candidate, provided his convictions are known to be in a line with the platform on the silver question. The Southern delegates of course have their presidential preferences, but they are divided on this point. Most of them say, however, that any strong man will be satisfactory to them, and a number of them have expressed themselves as being willing to allow the doubtful Northern States in the Mississippi to name the candidate, provided they can agree.

HIS BOOM WON'T BOOM.

The Administration Democrats Can't Inflate the Stevenson Boom.

CHICAGO, July 4.—Some of the administration Democrats are advocating the nomination of Adlai E. Stevenson for President. They have as yet received no encouragement from the free silver advocates, and are, to all appearances, making no headway with the boom. Atgird said that Mr. Stevenson could not carry a single silver State. W. H. Hinrichsen, chairman of the State Central committee, concurred in this opinion.

He served gallantly till the close and was as good a soldier as wore the gray.

—Advertising goes a long way sometimes. A gentleman went into Scott & Co's store yesterday and before making his purchases asked if that was J. W. Scott & Co's establishment. On being informed that it was he remarked that he lived in Texas and took the Patriot and read their advertisements every week, and as he was passing through Greensboro thought he would give them a call for a few things he needed.

—The showing made by the Southern Stock Mutual Insurance Company, a Greensboro enterprise, as will be seen by reference to the first article on the fourth page of this issue, is certainly one of which any company, new or old, might be proud. The active officers of this company are "home folks," our own townsmen, men who enjoy the confidence of their neighbors, who know them best, and Greensboro takes pride in their attainments.

—Mr. S. K. Shelton, of Covington, Tenn., made glad many old friends and acquaintances by his presence at the Battle Ground celebration. He had been over at Richmond for the big reunion and came back this way, stopping over until Monday. The blood of his ancestors was spilled at Guilford Battle Ground more than a century ago, and he takes an active interest in the events that are calculated to immortalize the heroes who fell there. His visits are always enjoyable and we sincerely hope they may extend over many more years.

—The residence of Walter Wharton, on West Gaston street, was burglarized three nights in succession last week, a quantity of clothing being taken each time. Mr. Wharton and his family were away from home, but two young men were sleeping there at night. The burglaries were committed before they would reach the house. A colored woman who worked nearby and knew the habits of the occupants of the house planned the job, which was executed by two ex-convicts, Henry Hunter and Henry Jones, also colored. The police succeeded in capturing the gang, and have recovered a considerable portion of the stolen goods. A heavy sentence awaits them at the next term of court.

Another Successful Celebration at the Battle Ground.

Saturday's celebration at Guilford Battle Ground equaled if not eclipsed its predecessors in the way of attendance, while the program was up to the usual high standard. The annual address, delivered by Senator Marion Butler, was listened to with marked attention by a vast assembly that exceeded the capacity of the big pavilion. This gifted speaker was introduced by Judge Schenck, who acknowledged the valuable services of the Senator in behalf of the Battle Ground Company. Mr. Butler spoke for over two hours. When he had finished he was presented with a beautiful souvenir given by D. Schenck, Jr. Judge Bynum followed with a short interesting address.

Mr. D. L. Clark, of High Point, and Miss Mary Rameau, artists of recognized ability, presented the Company with two beautiful paintings, the first a portrait of Joseph Hewes, one of the signers of the Declaration of Independence, and the latter a scene taken from the battle field. They were acknowledged on behalf of the Company by Maj. J. M. Morehead. At the monument of Lt. Hal. Dixon an original poem by Mrs. H. C. Martin was read by Mr. A. M. Scales, followed by appropriate unveiling exercises. After dinner the Confederate Veterans held their annual reunion and elected officers for the coming year. The day passed without anything to mar the pleasure of the thousands of visitors.

A bicycle race from the Battle Ground to the court house was witnessed by an immense crowd. Rob. Wharton won the first handicap prize, with Simpson Schenck a close second. Herman Buchanan won the first prize, riding against time.

It was a glorious day throughout.

Mr. Bogart's name is a sufficient guarantee that everything will be pleasant on the trip. The accommodations will be the best, while the attractions are unsurpassed. Write to the manager or any of the committee for further particulars.

—Last week was an eventful one, matrimonially. Among those assuming the yoke were Mr. C. L. Van Noppen, of Washington city, and Miss Adeline C. Donnell, of this city. The ceremony was solemnized at the residence of the bride's father, Mr. George Donnell, on West Gaston street by Rev. Drs. J. H. and E. W. Smith. Shortly after the ceremony the bride and groom left for an extended trip. North. Mr. W. T. Smith and Miss Roe Petty, two well known young people of this city, were also married, the ceremony taking place at the residence of the bride's mother at Archdale, Rev. S. H. Hilliard, of High Point, officiating. After a sumptuous feast they came to Greensboro, where they will make their home, occupying the residence of Mrs. Field, on Washington street. The many friends of both these happy couples wish them much joy.

—Mr. John E. Howerton, of the Hines Chapel neighborhood, committed suicide Saturday evening about five o'clock by shooting himself through the head. His mind had been affected since the latter part of the winter and firearms were kept from him for some time. Taking a gun he started out ostensibly to shoot squirrels, but before he had gotten over half a mile from his home he placed the gun to his head and fired, the bullet entering between the eyes and causing instant death. His body was found in the woods early Sunday morning by a nephew, Rudolph Howerton, who had started out to look for him. The unfortunate man leaves a widow and five children. His remains were buried last Sunday evening.

—Guilford County Camp, U. C. V., held their annual reunion at the Battle Ground Saturday. Officers for the ensuing year were elected, viz.: Commander, J. W. Scott; 1st Lieutenant, Commander, C. M. Moberg; 2nd Lieutenant, Commander, Jesse R. Wharton; 3rd Lieutenant, Commander, Dr. A. P. McDaniel; Adjutant, T. J. Sloan; Surgeon, Dr. J. E. Logan; Assistant Surgeon, Dr. D. A. Armfield; Quartermaster, O. S. Hanner; Commissary, L. E. Duffy; Officer of the Day, O. C. Wheeler; Historian, Col. Jno. Gray Bynum; Treasurer, James R. Pearce; Sergeant Major, Peter Brown; Color Sergeant, W. D. Wharton; Color Guards, Richard Quate and George Lane; Foreign Correspondent, James W. Albright.

—The first jail breaking here in several years occurred last Wednesday night. Henry Burns and William Boyd, both colored, cut their way through the plank at a window on the north side of the jail and escaped unnoticed. Four other prisoners confined in the same cell refused to take advantage of the "good opening." Saturday Burns was captured at Salisbury and brought back, his partner remaining at liberty as yet. Ordinary precautions on the part of the guard would have made the escape impossible.

SILVER WINS AT CHICAGO.

The First Day's Session of the National Convention—Jno. W. Daniel Temporary Chairman.

CHICAGO, Ill., July 7.—It was war to the knife today for 5 hours between the gold and silver forces. The East was arrayed against the South and West, and for the first time in 25 years the Eastern delegates were forced to bite the dust. The National committee by a small majority is for gold and it was determined to put a gold man in as temporary chairman. They hoped to catch on to Senator Hill's popularity and elect him. Then he was to make a red hot speech. The silver men resolved to permit no man to speak officially who was not a silver man. Upon this the issue was joined. The debate was hot and long, but threats and appeals alike failed to get more than 3 out of the 554 silver delegates in the convention.

The silver men are divided as to the best man to nominate, but there is division upon nothing else. The people need not be alarmed, to-day can make no division. There is continued talk of a silver caucus in order to secure the nomination of a silver man by silver votes alone; but, Boies Matthews and McLean are opposed to it, fearing Bland would have a majority and they would be out of the race. The same fear will prevent the immediate abrogation of the two-thirds rule.

The dark horses and candidates with few votes hope to be nominated if the two-thirds rule prevails, and therefore they favor it. If necessary the rule will be abrogated.

The silver men lack about forty of a two-thirds vote but it is believed they will get the needed thirty-six after the first few ballots. If Bland is not nominated on the first few ballots a stampede to Bryan is possible. North Carolina delegates will welcome this stampede. Most of them think Bryan the strongest candidate. There is no chance to nominate Boies or Matthews. Bland is far in the lead. He is the most probable nominee. If he fails Bryan is the probable nominee, with Clark or Blackburn for Vice-President. The A. P. A.'s are fighting Bland.

At 1 p. m. the convention was called to order by Mr. Harry, of Pennsylvania, chairman of the Democratic National Committee, who asked that all present should arise and stand while prayer was offered by Rev. Ernest M. Stivers, rector of Grace Episcopal church, Chicago.

Then Chairman Harry, in slow, deliberate tones, said: "Gentlemen of the convention: By direction of the Democratic National Committee, I desire to report the following as the temporary organization of the convention: Temporary chairman, David B. Hill, of New York."

Then there was an outburst of applause which lasted for two minutes.

The rest of the organization was read as follows: "For temporary secretary, Simon B. Sheerin, of Indiana; for sergeant at arms, Col. John I. Martin, of Missouri."

"What is the pleasure of the convention," Mr. Harry asked, on the report as made from the Democratic National Committee?"

On this report, a delegate from Alabama, arose, advanced to the platform and said: "Gentlemen of the Democratic National Convention: In behalf of 23 members of your national committee as opposed to 27, and, as I believe, in accordance with the great majority of the nation (cheers), I am authorized to present to this convention a minority recommendation, which I shall move as a substitute for a part of the motion made by the chairman of the national committee."

Mr. Clayton then read the minority report.

To the Democratic National Convention: The undersigned members of the Democratic National Committee respectfully recommend that the name of Hon. John W. Daniel, of Virginia, be substituted in the committee report for that of the Hon. David B. Hill, of New York, and that the Hon. John W. Daniel be chosen temporary chairman of this convention.

After a heated discussion the minority report was adopted and a great demonstration followed.

On assuming the chair Senator Daniel made an able speech, counseling harmony and deliberation. At its close the temporary organization was completed, committees announced, and adjournment taken until 10 o'clock today.

The silver men are poorly organized but they win by force of numbers.

The committee on permanent organization met after the adjournment of the convention. E. B. Finley, of Ohio, was elected chairman; J. P. Brown, of Georgia, secretary; and Dr. W. E. Webb, of Missouri, sergeant-at-arms. After the organization it was decided that a recess until evening be taken. When the committee reassembled at 8 o'clock the slate, which it was understood had been prepared, was all ready and was a surprise. Instead of the veteran Isham G. Harris, of Tennessee, who had been conceded to be the probable choice, Senator Stephen M. White, of California, was substituted. The only reason mentioned informally for the change was that members thought it undesirable to have both the presiding officers from Southern States. Senator White was chosen by a vote of 33 to 6 for Senator Hill.

Senator Butler declares that the Democratic State ticket will be beaten, and he asserts that the majority of the voters of the State demand a non-partisan supreme court. It is more clear now that the bold and prompt action of the Democratic State convention has badly rattled the Populists and Republicans. The Populists have deeply at heart the capture of the legislature and are ready to swap Congressmen with the Populists to do this. The silver question has torn the Republican party to pieces in North Carolina. Speaker Waiser, of the lower house of the Legislature, admits this.
