—The Greensboro Hardware Company has a new advertisement calling your attention to the merits of Buck's stoves. This company also handles the Chattanooga plow and the Osborn disc harrow. Your past patronage is appreciated by this live firm and they hope to be favored with a continuance of the same.

—We learn that Mr. E. D. Kyle, the genial soliciting freight agent of the Seaboard Air Line at this place, is to be transferred to some other point when the Atlantic Coast Line takes charge of the C. F. & Y. V. road. Mr. Kyle is a clever gentleman, and has made many friends during his sojourn in Greensboro.

—Rev. J. W. Lee, who spent last year in Georgia and Florida doing evangelistic work, has been spending a few days at home. He left this morning for Asheville, where he will deliver a temperance lecture tonight and also organize an anti-saloon league. It is his intention to spend this year in North Carolina.

—Last year the total number of deaths in Greensboro was 115, of which 42 were white and 73 colored. On a basis of a population of 12,000 the percentage of the death rate is about 9.15. This is a better showing than can be made in most towns, and only shows that Greensboro is ahead on the health record as well as many other things.

—Mr. J. W. Chapin, of Aurora, Beaufort county, came up Monday, accompanied by his bright little thirteen-year-old daughter, who entered school at Guilford College. Mr. Chapin lived in Greensboro many years ago, but of course he saw few familiar sights on this trip, so great have been the changes wrought here during the past few years.

—Mr. Joseph C. Hardin, of Kennard, Ind., left yesterday for home after spending two weeks in the county visiting friends and relatives. Mr. Hardin moved to Indiana when quite a young man, engaging in farming. His many friends are glad to know that fortune has smiled on him in the Hoosier state. We were pleased to receive a call from him while here.

—S. H. Coltrane, of Summer, killed two hogs weighing 610 and 500 pounds respectively. Besides these he killed eight others with an average of 231 pounds each. He has more to kill. Mr. Coltrane is one of the best farmers in the county, and his success is an illustration of what energy and willingness to work can do. Men like him are a success anywhere.

—Sunday night as the Winston train was nearing Kernersville some miscreant threw a rock at the moving cars, the stone smashing one of the windows and striking on the opposite side of the car. These outrages have occurred frequently, but so far the authorities have been unable to apprehend the perpetrators. If captured the guilty parties should be dealt with summarily.

—Jordan, Sinclair & Macdonald, real estate agents, have an advertisement in the PATRIOT that may be of interest to you. They have opened offices in the old Keeley Institute building, with entrance at 106 South Elm street. When the handsome insurance building on East Market street is completed these offices will be vacated and they will occupy rooms on the ground floor of the new building.

—J. M. Hendrix & Co. thank their friends and patrons for the generous patronage accorded them during the past year, and solicit the same generous patronage in the future. They claim to be in a position to sell you honest dry goods and shoes lower than they have ever been sold in Greensboro. Their terms will continue to be strictly cash. You will make no mistake by giving them a share of your patronage.

HON. D. F. CALDWELL DEAD.
Another of the Old Landmarks of Greensboro Passes Away.
Hon. D. F. Caldwell died at his home in this city Thursday evening at 8 o'clock. "Uncle Frank," as he was affectionately known, had been in failing health for a number of years, being afflicted with some spinal trouble. Some months ago he suffered a partial stroke of paralysis, his strong constitution enabling him to recover from this somewhat, though his age and increasing infirmity precluded any permanent improvement. For some time he was unable to walk, though he would take occasional drives, attended by his nurse. A few days previous to his death he suffered a second stroke of paralysis, from which he never rallied. Wednesday he sank into a state of unconsciousness, in which he remained until the summons of death came as a welcome relief to his suffering. The funeral was held from the First Presbyterian church Saturday at 2:30, and the remains laid to rest in the burying ground of Buffalo church, where many of his ancestors sleep.

In the passing away of Mr. Caldwell Greensboro loses one of its oldest and most honored inhabitants, for, since the early history of the town, he had been a prominent factor in its upbuilding and development. His means were freely invested in many substantial business enterprises of the city, and his opinion and advice upon business matters were often sought. It was through his efforts that the Bank of Guilford was organized and put in successful operation. He was its largest stockholder, and president of the institution until a few weeks ago, when he was forced to resign on account of ill health.

Mr. Caldwell was much in public life, as will be seen from a short biography following this article. On numerous occasions he was called to the leadership of his party, always winning the respect and confidence of the people by his sterling honesty and manly independence. Previous to the Civil war he was an uncompromising Whig, serving his party as a representative in the legislature for several terms. After the war he allied himself with the Democratic party, developing into a trusted leader and one of its strongest advocates.

For a time he was editor of the PATRIOT, and our older readers remember with what ability and success he conducted the paper. He was a ripe scholar, a vigorous thinker, and a strong and original writer.

He was an earnest christian and a devout member of the Presbyterian church. Never bigoted or selfish, he believed in and practiced practical christianity in its broadest sense. Those in the poorer and humbler walks of life were the special objects of his care and kindness, and many acts of charity and benevolence were traceable to him. Mr. Caldwell was one of those rare characters who delighted not in having his praises sung to the world, and it was because of this trait of modesty that many people never knew of his widespread benevolence.

Mr. Caldwell was never married, his nearest relatives being two nieces—Misses Bettie and Fattie Caldwell—who lived with him, and nephews, who reside in Tennessee. Through his wise and prudent investments he succeeded in accumulating a large fortune, being one of the wealthiest men in Greensboro.

David Franklin Caldwell, son of Thomas and Elizabeth Caldwell, was born one mile west of the city of Greensboro, N. C., Guilford county, on the 5th day of November, 1814. His parents removed to Greensboro when he was but one year old, and his scholastic training was obtained in the schools of this city. For a time he worked on his father's farm, and in 1841 left the farm to enter the mercantile business in Greensboro, and continued in that enterprise until 1849. In 1848 he was elected to the house of representatives of the State, and was re-elected for five successive terms, only retiring in 1861. In 1860 he began the study of law, and one year later was admitted to the bar. He practiced at Greensboro until the new code was adopted, when he abandoned his profession in disgust. In 1861 he was elected county attorney and served until his retirement from the law. He was a delegate to the constitutional convention of 1865, and in the same year was nominated for Congress, but was counted out by Gen. Canby, at Charleston, S. C. In 1872 he was a delegate to the convention that nominated Greeley and Brown for the presidency and vice-presidency, respectively, of the United States, and in 1879 was sent to the State Senate, where he remained one term, and in the same year was appointed a member of the committee chosen to compromise the State debt. Mr. Caldwell's course as a member of the legislature was dignified and able. In 1848 he framed, and had passed a tax bill, revolutionizing the tax system of the State, and despite the bitterest opposition, finally brought his measure into so great favor with the people that he was practically their unanimous choice for the legislature until his voluntary retirement from public life. He was more than prominent in the organization and building of the North Carolina railroad, and was a prime mover in the establishment of the Greensboro & Cheraw and Cape Fear & Yadkin Valley railroads.

At the outbreak of the Civil war, Mr. Caldwell was engaged in a lucrative law practice with the late James A. Long. He was opposed to secession, and like many another Southerner who proved loyal to his people when the test came, yet foresaw too far into the future to think that good could come of the disruption of the Union. When his State seceded David Caldwell went with the majority, and in 1861 enlisted in the Confederate army, he being at that time captain of Senior reserves, but owing to the refusal of the Governor to issue his commission, he served as a private. He was refused a captain's commission because of his previous opposition to secession, and because the Governor of the State had doubts of his loyalty. Mr. Caldwell proved his love for his people, and his name was vindicated by them when he was elected to the legislature by an overwhelming majority. As a financier, Mr. Caldwell was able and safe. He had large landed interests, was a stockholder in various railroad enterprises of the State, and was extensively interested in different cotton factories. In 1889 he organized the Bank of Guilford, and was made its president, which office he held until a few weeks ago, resigning on account of his health. Thomas Caldwell, the father of our subject, was the first clerk of the Superior Court of Guilford county, having been first appointed to that office by Judge Duncan Cameron, at Martinsville, in 1806. For more than fifty years he discharged the duties of that important office.

Apportionment of Public School Funds.
The board of education met Monday and made the following apportionment of the public school fund to the different townships:

Washington	\$ 513
Rock Creek	764
Greene	719
Madison	531
Jefferson	846
Clay	484
Monroe	549
Gilmer	1,217
Fentress	506
Centre Grove	617
Morehead	1,001
Sumner	709
Summerfield	410
Friendship	826
Jamestown	768
Oak Ridge	566
Deep River	586
High Point	605
Greensboro city schools	4,530
High Point city schools	1,752

The number of school subjects in the county as per census—12,169—an increase of 915 over last year, 600 of which increase was in the city of Greensboro. The amount of money distributed is \$18,500. Although this is larger by \$500 than that received from the county, yet as the state gave \$978 last year and nothing this year, the total is not so large and the per capita, in consequence of the increased number of children, is about 13 cents less than last year. So that most of the townships fall off something in amount, though the city schools gain because of the large increase of school population.

It is easily observable that as a rule the towns increase while the country merely holds its own. If the increase of population had been distributed uniformly over the county there would have been about the same amounts credited to the country districts as last year. The law requires the township committees to meet on the second Monday in January and redistribute the money among the schools of their respective districts, and the secretary should report this distribution to the supervisor as soon thereafter as practicable. The number of the school district and not simply the local name should be given.

J. R. WHARTON, Supervisor.

Deafness Cannot be Cured
by LOCAL APPLICATIONS, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

COUNTING THE COST.

Senator Gorman Says the Expansion Policy Will Prove a Heavy Burden.

WASHINGTON, Dec. 30.—Anti-expansionists are piling up official estimates and figures to show that the proposed policy of imperialism will impose great burdens of taxation upon the people. Senator Gorman, who is prominent against expansion and also against a large increase in the standing army of the United States, will definitely employ the official figures to support his position.

As a member of the Senate committee on appropriations, now engaged in formulating the annual money bills, the Senator is able to obtain something like a fair estimate of what expansion is going to cost the United States. The cost of peace has not yet figured to any extent in the discussion growing out of the proposed policy of expansion. Senator Gorman suggests that enthusiasts seldom stop to count the cost of an experiment until it is too late.

Senator Gorman said tonight that while it is probable the treaty will be ratified, the country will realize later on what an enormous amount of money we are about to pay out for peace. To maintain an army of 100,000 men, it will cost, Senator Gorman says, \$120,000,000 a year, to say nothing of the incidental expenses attending the various forms of provisional government proposed. When the people settle down to a calm consideration of the immense debt now being piled up, and which we must continue to pile up to carry out the present policy of the government, Senator Gorman contends there will be a material change of sentiment on the subject of expansion.

There will probably be, he says, a stronger disposition to let the Filipinos work out their own salvation, without calling upon the United States to pay all the bills.

KILLED BY A TRAIN.

Miss Stanback Meets an Awful Fate at High Point.

HIGH POINT, Dec. 28.—A horrible accident occurred here today about 1 o'clock, in the railroad yard in front of the Jarrell Hotel, Miss Eleanor Stanback, daughter of Mr. and Mrs. J. F. Stanback, of Trinity, was struck and instantly killed by the Asheboro train as it was backing in the yard, getting ready to leave on its afternoon trip. Miss Stanback, in company with two young lady friends, was going towards the waiting room, when a freight train, north-bound, came in sight. The young ladies, at the sight of the freight train stepped to the left. This put Miss Stanback on the Asheboro track. The moving cars were close behind her and many people saw her danger, but the noise of the moving trains prevented her hearing the shouts of alarm. She was struck on the shoulder by a flat car, knocked forward and one of the trucks passed over her head and arm. The other ladies had a narrow escape.

The deceased was a student of Greensboro Female College and has many friends in the state. Our community has never had as great a shock, and the sympathy of all goes out to the sorrow-stricken parents.

The young ladies who were with Miss Stanback were badly shocked by the accident.

Sam Small a Chaplain.

SAVANNAH, Ga., Dec. 30.—Rev. Sam Small, the noted evangelist, is now chaplain of the Third engineers, United States army. He arrived here today, and one of the first things he did was to give out an interview.

Among other things he said: "The chaplains are a sort of sop to the church sentiment without much substance to them. They just take a minister and put a uniform on him with a silver cross on the shoulder, pay him \$200 a month and turn him loose on 1,200 men without any of the implements of the spiritual warfare to fight with. I've been disappointed.

"When I get out I am going to suggest that they do away with the chaplains. I suppose there may be a howl, but it is better to raise the issue and have the whole system revised. When we get down to Cuba I'll wager most of the men would rather go to a cock fight or a bull ring than attend services. To tell the truth, I am beginning to think that there is a heap of balderdash about what the chaplains do accomplish outside of meeting the sentiment that calls for their presence with every body of troops."

To the Public.

We are authorized to guarantee every bottle of Chamberlain's Cough Remedy and if not satisfactory to refund the money to the purchaser. There is no better medicine made for a gripple, colds and whooping cough. Price, 25 and 50 cents per bottle. Try it. C. E. Holton.

A BURIED FORTUNE.

A Suicide Leaves a Letter in Which He Declares the Treasure is Sunk on the Coast of Cuba.

Philadelphia, Dec. 28.—Harry E. Moore, who committed suicide by inhaling illuminating gas at the Keystone hotel, Fifteenth and Market streets, Saturday, left a letter addressed to his father, H. O. Moore, of No. 1,725 Delaware avenue, Wilmington, Del., in which he wrote of a fortune buried near Santiago de Cuba.

The letter, which is dated December 23, said:

"When you receive these few lines I hope to be dead. The reason for this act I don't like to tell, for it may hurt the feelings of other people. A few months ago I had a fortune in my grasp, but I sunk it on the coast of Cuba, and have not been able to rescue it on account of the misplaced confidence I had in people I considered to be my friends.

"If you haven't enough money to bury me, write to Captain Stewart M. Brice, No. 80 Broadway, New York, and tell him that I am dead. Also inform him that the treasure is at the second little inlet from the inlet from Santiago entrance toward the wrecks. Your son, HARRY."

On the leaf on an advertising pamphlet found in Moore's room was the name of J. B. Trainer, of No. 1,835 Seventh avenue, New York. In one of the pockets was an express draft for \$20 on S. M. Brice, of New York.

Moore, who was twenty-six years old, was a seafaring man, and his parents has not seen him for two years. His father, who came to the city today, knew nothing of the fortune referred to in his son's letter nor any reason that would lead him to take his life. Moore came to the hotel last Tuesday, but little was seen of him by the patrons. He told the proprietor that he had been in Havana several months and left the impression that he had served the United States in some capacity during the Spanish war.

SENSATION AT RALEIGH.

Russell Appoints a Democrat as Superintendent of the Penitentiary.

Raleigh, N. C., Dec. 28.—A sensation was created here this morning by the announcement in the Observer that J. M. Mewborne, the fusion superintendent of the penitentiary had resigned, and Captain W. H. Day, a Democratic lawyer, had been named by Governor Russell as his successor. Mr. Mewborne's resignation takes effect January 1st.

Not even the most intimate friends of the interested parties knew of the contemplated change in the management.

Captain Day has accepted the position and to-day announced that he would fill all the subordinate offices with Democrats. He has already appointed R. J. Tillery, of Halifax county, as manager of the State farms, and F. B. Arendell, of Raleigh, manager of the central prison.

Governor Russell's political friends are severely criticizing him for appointing Democrats to office. Only two weeks ago he appointed a Democrat as adjutant general of the State, and since then has made the boards of directors for several institutions Democratic.

The Columbus Tunnel.

COLUMBUS, O., Dec. 31.—All the survivors of General Morgan's party who escaped from the Ohio penitentiary during the war, have been invited here to inspect the recently discovered tunnel through which it is claimed the raiders escaped, and settle for all time the dispute as to whether Morgan and his men escaped through the tunnel or by the connivance of the officials of the penitentiary. A car load of dirt taken from the tunnel from under the walls was found in the air duct near the cells which Morgan's men occupied. After the men made their escape the hole was filled up with loose dirt and the clay around this shows the exact dimensions of the tunnel.

It's a Sign of Danger

when pimples, blotches and eruptions appear on the skin, no matter how slight. It warns you that your blood is not pure. Heed the warning while there is yet time; clear up your system and purify the blood by taking Dr. Pierce's Golden Medical Discovery. It routes every organ into natural action, purifies and enriches the blood and through it cleanses and invigorates the whole system. It attacks all scrofulous, skin and scalp diseases in the right way—by purifying the blood.

A Naval Governor for Guam.

The Island of Guam will probably be different from the other colonial possessions or dependencies of the United States in having a naval instead of a military governor. The sole reason for the requirement of the island was to obtain a conveniently located naval station for our warships, and that being the case the navy will have exclusive control. The command will be of importance, for the island has a population of more than 8,000 people, about 1,400 of whom are of European extraction.

COAST LINE GETS THE C. F. & Y. V.

After Lively Competition the Property Was Knocked Down at \$3,110,000.

FAYETTEVILLE, Dec. 29.—A large number of prominent railroad men were here today. The Cape Fear & Yadkin Valley Railroad, in the hands of Receiver Gill, was sold under a decree of court, by Commissioners Martin and Manly. The bidders were Messrs. Blackford, for the Baltimore bond committee (Seaboard Air Line); Spencer, for the Southern Railway; Walters, for the Atlantic Coast Line. The contest was lively and the competitors stayed together past the \$3,000,000 mark. The Atlantic Coast Line finally acquired the road at \$3,110,000. The Philadelphia & Reading made no effort to purchase. The result of the sale is a surprise in this city. It was generally believed hitherto that the Seaboard Air Line would be the successful bidder.

The Cape Fear & Yadkin Valley extends from Mt. Airy, Surry county, to Wilmington, via Greensboro and Fayetteville, and has short branches in several directions. It traverses some of the best sections of North Carolina and will no doubt prove a valuable feeder to the Atlantic Coast Line. The road has been operated by Receiver Gill for several years.

How to Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la gripple. During the epidemic of la gripple a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la gripple to result in that dangerous disease. It is the best remedy in the world for bad colds and la gripple. Every bottle warranted. For sale by C. E. Holton.

Claims amounting to \$97,000,000 have been filed with the State Department for damages to the property of American citizens in Spain, former possessions. The United States has assumed the payment of all claims of this character.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by "NEW GREAT SOUTH AMERICAN KIDNEY CURE." It is a great surprise on account of its exceeding promptness in relieving pain in bladder, kidneys and back, in male or female. Relieves retention of water almost immediately. If you want quick relief and cure this is the remedy. Sold by C. E. Holton, druggist, Greensboro, N. C.

A Virginia Mother

says she used five bottles of Mother's Friend, beginning six months before confinement. She felt perfectly well up to a few hours before the baby was born, and was in labor less than two hours. She had no morning sickness, no headache, no distressing tightness, no swollen or rising breasts. Her baby was strong and the picture of health.

Mother's Friend is the only remedy known which relieves the expectant mothers. It is a liniment to be applied externally. Nothing but harm can come from taking medicine internally at such times. All internal preparations said to relieve coming mothers are not only humbugs, but positively dangerous.

WEDNESDAY, JAN. 4, 1899.

The Democratic members of the legislature met in caucus last night and agreed upon Judge H. G. Connor, of Wilson, for speaker of the House, and Senator R. L. Smith, of Stanley, president pro tem, of the Senate. The contest for the speakership was spirited, but friendly. Both branches of the legislature are composed of a fine body of men and they have made a fine impression.

The city attorney of New Orleans has stirred up the railroad men there by stating that the railroads cannot operate warehouses under their charters as common carriers. In other words, although they can store goods, they cannot charge for storage, as the companies have all been accustomed to do, especially when goods have been left on their hands after a certain length of time. Such a practice is in vogue in this state, and should the New Orleans attorney be successful in his contention the question may be brought up in North Carolina and many other states. At any rate the fight will be watched with interest.

The purchase of the C. F. & Y. V. railway by the Atlantic Coast Line gives much pleasure to the people of Greensboro and Guilford county, for it means much to the future development of this section. The Atlantic Coast Line is a great railway system, controlled and operated by some of the best railroad men in the United States. For years they have been anxious to secure connection with the great Northwest, and a few years ago a road was surveyed from Wadesboro, in Anson county, to Winston with this end in view. The acquisition of the C. F. & Y. V. running from the seacoast to the mountains, not only gives them this connection, but opens a territory which will be of considerable importance to the road. We are assured that, under the new management, the C. F. & Y. V., will be a first-class road in every particular. In point of equipment the Coast Line is inferior to no road, and the service they will give will be second to none.

WE ARE pleased to know that the suggestion in last week's PATRIOT, that the proper machinery be purchased and the convicts utilized for macadamizing the public roads, has met with favor. Mr. A. B. Hinshaw, who lives two miles west of Pomona, was in our office yesterday and stated that he was willing to devote a week to hauling crushed stone from the rock crusher to the roadbed between Greensboro and Pomona, the work to be done at any time when his farm work is not so pressing as to require his presence and attention. Mr. Hinshaw is animated by the proper spirit, and we have reason to believe there are others filled with the same spirit of progressiveness. This work can be accomplished without any great outlay of money or levying burdensome taxes. Several years ago Mr. Hinshaw's township voted a small tax for road improvement, and the small amount thus secured has been of great benefit to the people of this locality. It is reasonable to suppose that the benefits derived from a more extended improvement would be greater in proportion. Let those

who are most interested take the initiative in this matter, going about it in a common-sense way, and it will be but a few years until the public roads of Guilford will be second to those of no county in the state.

In an address at the emancipation celebration in Raleigh Monday Prof. L. B. Capeheart, one of the most intelligent colored men in the state, spoke some plain truths in regard to the negro and his future. He maintained that the growth and development of the negro had been hindered rather than helped by politics, declaring that "the negro has built upon politics to his ruin." The fact that such a sentiment as this is gaining ground among the more intelligent members of the race speaks volumes for the future happiness and prosperity of the negro. Prof. Capeheart declared that the emigration and colonization schemes were impracticable, and advised the colored people to remain in the South and try to make the best of their lot. He counseled them to avoid politics, to exercise patience and moderation, and devote their time to industrial and educational development. In regard to the colonizationists who say: "Let us go to the North, to our friends, to our liberators, to the champions of our rights," the speaker said: "We answer that it is true the North stands for equality of rights in the South, and sheds copious tears over any seeming breach of them, but at the same time it throws its countless millions against us when it comes to equality of opportunity to earn the 'staff of life' within its own borders. She opens her doors, bids you welcome, but the workshops are hermetically sealed against you. When you come begging she listens attentively to your plea, and often gives generously to relieve your suffering, but when you seek to earn your bread by the sweat of the brow, in obedience to the divine injunction, your sphere is far more limited than in the South." It is gratifying to know that these sentiments, notwithstanding their boldness, were well received and heartily applauded.

GENERAL NEWS.

Theodore Roosevelt was Monday inaugurated governor of New York. The American flag has been hoisted over the wreck of the Maine in Havana harbor.

Senor Don Matias Romero, the Mexican ambassador to the United States, died in Washington City Friday.

Major-General Brooke does not recognize the Cuban army and will do everything possible to secure its disbandment.

The jury in the Botkin case in San Francisco returned a verdict of murder in the first degree, with the penalty fixed at life imprisonment.

The Spaniards on the island of Guam refused to recognize the authority of the Governor appointed by the Americans, and Jose Sisto was declared Governor.

Funeral services over the late Senator Morrill, of Vermont, were held in the Senate chamber at Washington Saturday. The remains were taken to Montpelier Sunday for interment.

Dr. John O. Keener, president of the Southern University, died at Greensboro, Ala., Saturday from a stroke of paralysis. He was a son of Bishop Keener, of the Methodist Episcopal Church, South.

Mr. H. W. B. Glover, traffic manager of the Seaboard Air Line, gives notice in a circular just issued, that Mr. L. S. Allen has been appointed general passenger agent of the railroads comprising the Seaboard Air Line, to succeed General Passenger Agent T. J. Anderson, resigned. Mr. Allen's headquarters will be at Portsmouth, Va., and he assumed his duties January 1st.

STATE NEWS.

Judge F. Carroll Brewster, a noted Philadelphia lawyer, died suddenly on a Southern railway train near Charlotte Friday morning. He was on his way to Florida to spend the winter.

The executive committee of the State Farmer's Alliance met at Hillsboro Friday night and decided to run the shoe factory during January and work up the stock on hand and then shut down until next fall.

WASHINGTON LETTER.

Special Correspondence.

WASHINGTON, Jan. 2, 1899.

Mr. McKinley is so anxious for the Senate to promptly ratify the treaty of peace that he took occasion to broach the subject to a number of Senators who shook hands with him at the New Year reception, at the White House, today. It is the antics of Aguinaldo, believed to have both Spanish and German inspiration, which are causing Mr. McKinley anxiety. He told the Senators that his hands were tied, outside of the territory already occupied by our troops, until the treaty was ratified. Democratic opposition to the treaty itself has almost entirely disappeared, but Democratic opposition to our keeping the Philippines permanently appears to be increasing. Present indications are that whatever delay there may be in reaching a vote on the treaty, which will go to the Senate this week, will come from Republican senators, such as Hoar, Hale and Perkins. Nearly all the Democrats say that the treaty should be promptly ratified because it does not commit this country to keeping the Philippines, and delay may result in serious trouble.

Col. Denby, one of the Democratic members of the War Investigating Commission, dropped a hint that indicates a surprise for somebody when the report of the commission is made, which will be inside of four weeks, he thinks. He said: "When they make their report I think that all fair minded people will admit that they have performed their work conscientiously and that it is not so much of a whitewash commission as many persons have imagined."

The magnates of the beef trust have been trying to scare General Miles ever since he told the investigating commission that the "embalmed" beef sent to Cuba and Porto Rico was utterly unfit for use and expressed the opinion, backed up by that of physicians, that the enforced eating of it had been responsible for much of the sickness, but they have not succeeded, and are not likely to. As a feeler, they threaten to sue General Miles for heavy damages, but the threat was quickly dropped when General Miles said that a court of law was precisely where he would like to get the men who sold that "embalmed" beef to the War Department. Swift & Co. and Armour & Co., members of the beef trust, have sent long communications to the commission, telling how good the beef was that was condemned by General Miles and other officers, and an ex-Sergeant of volunteers, now in the employ of the commission, has overdone the thing by testifying that the beef sent to Cuba and eaten by his regiment was better than most of the men have had since they were mustered out. This same witness was made to admit that a lot of beef issued to his regiment was condemned by physicians, but tried to qualify the admission by saying that he didn't see anything the matter with the beef. A Board of Survey, composed of army officers, has been appointed to investigate the beef, both canned and refrigerated furnished the army.

Senator Mason, of Illinois, is the latest Republican senator to declare against expansion. He said: "I am not an expansionist, but I think the treaty will be ratified at this session. The ratification of the treaty, however, will not commit this country to the expansion idea. The retention or disposition of the Philippines and other matters relating to expansion will have to be settled later on. The subject is too big to be passed upon hastily. I admit that popular sentiment seems to be in favor of the expansion idea at present, but later I look for a change. The people apparently do not comprehend just what expansion means."

The announcement from New York that Mr. Croker had selected representative Sulzer as a candidate for speaker of the next House and consequently the leader of the Democrats in that body, was not received any too pleasantly by Democrats in Washington. There is no personal objection to Mr. Sulzer, who is extremely well liked, considering the short time he has been in Congress, but resentment is expressed towards Mr. Croker for trying to meddle with this matter. There has been more or less talk among Democrats about this or that man being selected to fill the place in the next Congress that representative Bailey, of Texas, does in the present House, but, according to Mr. Bailey's friends, he will be the man. Representative Swanson, of Virginia, said: "Friends of Mr. Bailey have made a most careful and conservative canvass of the Democrats elected to the next House. He has pledged and assurances from more than ninety and when the time

comes will get more than 100 votes. Outside of about twenty-five men he is the second choice of all those who will vote for other candidates on account of local considerations."

Pressure upon the administration was strong enough to cause the cabinet to instruct secretary Hay to squelch the Pacific Cable Company, by exercising his right to disapprove the concession for a cable monopoly obtained by this company from the late Government of Hawaii, inside of six months from date of concession. The six months expired today. This is the company that wanted this Government to grant it a subsidy of \$100,000 a year for twenty years—enough to build the cable—for the free use of the cable from California to Hawaii.

WILL REORGANIZE C. F. & Y. V.

Name of the Road to be Atlantic and Yadkin Valley--
President Walters
Tells His
Plan.

The Cape Fear and Yadkin Valley Railroad, which was sold at auction last Thursday, under foreclosure proceedings at Fayetteville, N. C., will be reorganized as soon as its new owners, the Atlantic Coast Line, can get possession.

The name of the road is to be changed to the Atlantic and Yadkin Valley Railroad.

Mr. Harry Walters, president of the Atlantic Coast Line, has returned to Baltimore. In an interview with him, the Baltimore Sun of Saturday says:

"President Walters is busy with plans for the completion of the purchase of the property. Judge Simonon, of the United States Circuit Court, under whose jurisdiction the road has been in the receivership stages, is quite sick in Philadelphia, and is unable to give his attention to business. It is hoped that he will designate some one to act for him in conveying the property, so that the new purchasers may take possession as early as possible.

"The new company to succeed the Cape Fear and Yadkin Valley will be known as the Atlantic and Yadkin. Its management will be merged with that of the Atlantic Coast Line system.

"President Walters, of the latter company, is well pleased with the purchase. 'Before the sale I made a thorough examination of the Cape Fear and Yadkin Valley,' said he, 'and am convinced that it will be a valuable adjunct to our system. I found that under our management we will be able to save \$50,000 a year in operating expenses. For that reason we were able to pay what we did for the road.

"Our financial plans have not been fully developed. We will issue bonds to the extent of the present issue, and, perhaps, a little more bearing a lower rate of interest. They will be first-class securities in every way. These may be disposed of to the old bondholders, although it is probable that a syndicate will be formed to handle the issue.

"We will discontinue the Cape Fear and Yadkin Valley's present terminus at Wilmington, N. C., and will turn the tracks of the road into the Atlantic Coast Line terminals there. This in itself will effect a considerable economy, as the Cape Fear and Yadkin Valley terminals are not now conveniently located, and require the maintenance of a water ferry. Instead of having two sets of offices at Fayetteville, as now, we will have only one set, and we will close the Cape Fear and Yadkin Valley shops and use our shops. We will be able to introduce a number of other economies of a like nature and operate the road at the least possible cost. We will assume control of the property as soon as it is turned over to us by the court.

"The total amount of the first mortgage bonds of the Cape Fear and Yadkin Valley Railroad is \$3,054,000.

There is also a consolidated mortgage for \$1,868,700, covering income bonds. The capital stock was \$1,972,900."

The Baltimore American of yesterday says of the future of the road:

"The Cape Fear and Yadkin Valley Railroad, which was sold at master's sale on Thursday, will not become the property of the Atlantic Coast Line in its corporate capacity. The general impression at the time of the purchase was that the corporate entity of the Atlantic Coast Line itself had become the new owner of the sold road. That impression arose from the fact that Mr. Harry Walters, who is the president of the Atlantic Coast Line, is the one to whom the road was struck off at the conclusion of the competitive bidding. Mr. Walters did not represent the Atlantic Coast Line corporation. His bid was placed in behalf of distinct interests, which interests are nevertheless in the closest sympathy with the Atlantic Coast Line. In fact, the financial supporters back of the purchase are parties who are likewise large holders in the Atlantic Coast Line.

"As matters are, however, the Cape Fear and Yadkin Valley Road will be operated as a distinct company. While it will be intimately associated with the Atlantic Coast Line, and will be included in the family of Atlantic Coast Line roads it will still maintain its individual and independent status. It may be possible that the name will be changed, the title Atlantic and Yadkin Valley Railroad having already been suggested."

Mileage of Our Railway Systems.

The acquisition of the Cape Fear & Yadkin Valley railway by the Atlantic Coast Line now gives that great system of 2,237 miles of railway, including the leased lines, viz: The Charleston and Western Carolina road, 340 miles in length, and the Wilson and Summerton railroad, 41 miles in length. The mileage of the Atlantic Coast Line, without the leased lines, is 1,856 miles, including the Cape Fear & Yadkin Valley railway.

The Southern railway controls railways embracing 5,259 miles of track.

The Seaboard Air Line has 949 miles of railway.

CUBANS IN HAVANA JOYOUS.

Murcurial People Quickly Forget Their Recent Disappointment.

Havana, January 2.—The people of Havana are in a joyful mood to-day, in spite of the disappointment experienced over the fact that the projected festivities have been postponed. The resentment quickly subsided and gave place to composure. The city was tranquil last night.

Major General Brooke's impressions of Cuba are pleasing. He regards the people as being emotional, mild and orderly. Americans are now conducting the customs, postoffice and telegraphs; in fact, all public business, with Spanish and Cuban employees. Col. Bliss, the American collector of customs, has been instructed by the authorities at Washington not to appoint Americans to subordinate places in this or the other custom houses. Only Cubans are to be appointed.

After the general takes up his headquarters in the palace, Mrs. Brooke will arrange a series of social functions. The headquarters for the present will be at the general's hotel. Generals Brooke and Ludlow see many of the prominent Cubans. They are easily accessible and wish to make a wide personal and official acquaintance.

As the civil police is slowly formed, the American troops will be sent into the country. The batteries of the Second artillery have been landed from the United States transport Chester. One battery was sent to Morro castle, another is garrisoned at Cuban fortresses, a third is stationed near the palace, and the other three batteries are camped at Vedado.

The United States transport Saratoga arrived here to-day from Charleston, S. C., with the Third Nebraska regiment on board.

Two Cuban soldiers carrying rifles were stopped by a patrol of the Tenth United States regular infantry on Galliano street last night, and were required to give up their weapons. They did so after an argument.

It developed to-day that the company of the Indiana regiment which waved Cuban flags during the parade yesterday was not arrested as cabled last night. Investigation showed that the flags were distributed to them by Cubans in the crowd and that the act of waving them was thoughtless and not pre-arranged.

Three blue jackets from the Texas rowed to the wreck of the Maine and hoisted a large Stars and Stripes to the peak of the wreck. An immense American flag was also hoisted on top of the 300 foot shears at the naval dock, where it could be seen for miles around.

If you want to sow Fresh Garden Seed soil for Gardners. They are expected to arrive about January 10th or 15th.

SENSIBLE SUGGESTIONS.

Hon. John L. King Points Out How a Needed Reform Can be Accomplished.

To the Members of the General Assembly:

During the short time I was president of the Senate in 1893, I had the opportunity to learn more about the cost of a session of the Legislature than my experience as a member had afforded me, and to learn that we were getting a little more extravagant with the tax-payer's money than we should as faithful representatives of the people, and upon investigation, I found that the session of '93 was costing about \$5,000 more than it should. I thereupon drafted a bill regulating the number of employees, their pay and how they should be selected; as the law was not sufficiently clear on these points, I submitted my bill to Lieutenant Governor Doughton, Hon. Lee S. Overman (the presiding officers of the two houses), the principal clerks and the doorkeepers; they all agreed that it was a good bill, and should become a law. I introduced the bill in the Senate and it passed without a dissenting vote, but hung fire in the House and is now, I guess, among the pigeon-holed bills of that branch of the General Assembly.

As I understand, the session of '97 under fusion rule, cost \$6,000 to \$8,000 more than the session of '93, so you see by saving these two amounts, the session of '99 would have cost between \$10,000 or \$15,000 less than the last session.

The first work of this session should be to pass this bill or one similar, and save the above sum to the people, which could be used for the other purpose much more beneficial to the people generally.

If the members of the Legislature wish to economize, there is no place to commence, which would be more appropriate and make a better record for themselves. I will give just one case to show where a part of this money is wasted. For the first two weeks of the session, I will venture to say that there will not be a half dozen bills to enroll, yet the enrolling clerk will have for all this time 5, 6, 7 or 8 assistants at \$5 per day if you will allow him. He promises all these places to secure his own election. The bill alluded to above remedies this practice also as it to some extent takes the appointment of these assistants out of the hands of the principal clerks, except the first assistant, and requires him to consult the Speaker of the House and President of the Senate, as to the others. Very often incompetent men are put in by this log-rolling practice, and it should be broken up.

Respectfully submitted,

JOHN L. KING.

EFFECTS OF LIQUID AIR.

Chemists Witness Experiments With Metals Immersed in the Fluid.

New York, Dec. 29.—At the session of the American Chemical Society in the College of the City of New York last evening Charles E. Tripler gave an interesting demonstration of the manufacture and properties of liquid air. Among those present was Prof. Raoult Pictet, of Geneva, who was one of the first scientists to liquefy oxygen.

Great interest was manifested by the spectators in the extraordinary experiments made by Mr. Tripler. Several gallons of liquid air were brought into the laboratory and Mr. Tripler sprinkled it over the crowd. The liquid, which is extremely cold to the touch, evaporated in a moment.

Curious effects of the liquid air on different metals were shown. Copper, immersed in the steaming liquid, in a few moments became soft. Steel grew brittle as glass and was as easily broken. Mr. Tripler filled a tin cup with the liquid, gave the cup a squeeze and it fell at his feet in fragments.

A piece of steel bicycle tubing, plunged into the liquid and then struck with a hammer, crumbled to pieces. A rubber ball, dipped into liquid air, froze white and hard, and when thrown to the floor cracked like an eggshell.

Whiskey poured into a glass containing liquid air at 312 degrees Fahrenheit froze in a few moments. Alcohol requires a temperature 200 degrees below zero to freeze it, but Mr. Tripler formed an icicle out of a glass of alcohol by pouring it into the extraordinary fluid.

To show the paradoxical nature of the fluid, Mr. Tripler filled a tea kettle with it and placed it on a lighted gas stove. Then he poured a glass of water into the kettle. As the heat of the stove increased the liquid grew colder, until the water was taken from the kettle in the form of a lump of ice.

"This is the air we breathe, nothing less," said Mr. Tripler. "It is oxygen and nitrogen, and the nitrogen boils off first." He obtained pure oxygen by pouring the liquid from one glass to another to hasten evaporation. Then, placing some of the liquid in a rock salt cup, he showed that oxygen gas is magnetic, the fluid attaching itself to a magnet overhead.

Prof. R. Ogden Doremus, at the close of the session, performed an interesting experiment by burning a diamond in liquid oxygen. He placed the diamond in a coil of platinum and passed an electric current through the coil until the diamond became white hot. When plunged into the liquid oxygen, the little gem burned away with a brilliant glow.

White teeth are those usually well kept. See the large assortment of Tooth Brushes and preparations for the teeth at Gardner's, cor. opp. postoffice.

IN NORTHERN GRAVES.

Chairman Evans' Report Shows that 22,000 Confederate Soldiers are Buried at the North.

Atlanta, Jan. 2.—General Clement A. Evans, of this city, who was chairman of the commission appointed by the Governor in response to a resolution adopted by the last Legislature requiring the members to secure information as to the location of the graves of Confederate soldiers who died in Northern military prisons, has sent a copy of their report to General Marcus J. Wright, the agent of the War Department, whose letter to the Adjutant General of Georgia has already been made public. This report is by no means complete and it is lacking in essential details because the work of the commission was hampered by the lack of a suitable appropriation of funds to meet necessary expenses, but it shows that nearly 28,000 Confederate dead are buried in Northern States.

Authority of Lee and Ludlow.

WASHINGTON, Dec. 30.—The War Department tonight issued an order establishing two departments in and about Havana—the Department of Havana, comprising the city property, suburbs and an area of about ten square miles, and the Department of the Province of Havana, comprising the territory outside of the city proper. General Ludlow is assigned to command the department comprising the city and suburbs, and General Lee is assigned to the department outside of the city.

Capt. W. H. Day, who was last week appointed superintendent of the penitentiary, took charge of the institution Monday. The liabilities of the penitentiary amount to about \$20,000 more than the assets, but Captain Day is hopeful of being able to raise the debt and make the penitentiary self-sustaining.

NEIGHBORHOOD NEWS.

Matters of Interest Reported by Our Corps of Correspondents.

Gibsonville Items.

Mr. John Kestler has recently moved his family here.

It seems that our people nearly all have an epidemic of la grippe. Our young people have enjoyed several socials during the passed two weeks.

Miss Sallie Roney spent Christmas in Graham, returning last Monday morning.

Prof. A. M. Garwood opened his school again Monday morning after giving a week's holiday.

Mr. Gus. Shepherd, of Oregon, arrived here on a visit to the late Mrs. W. H. Kestler last week.

Mr. Thomas Moser had the misfortune to fall and very badly injured himself last Saturday night.

Mr. J. T. Hire moved from here to Greensboro the first of the week, having closed out his grocery business to Mr. E. Ligon.

Messrs. E. H. Curtis and C. F. Bradshaw are each erecting splendid new residences in the east side of the city, and Messrs. Banks Fowler and Zack Yontz will commence their new houses in south-side within a few days.

Mr. Charles Kestler has come to our city from Davie county with his family to make this his home. He has moved into the C. C. Curtis house in east Gibsonville. We are always glad to have such men come to our city.

Our progressive town commissioners have at last decided, bought and are having shaped out a cemetery about three-quarters of a mile from town, surrounding the old original Gibson graveyard, which will be included in the new cemetery.

We are sorry to report the death of one of our citizens Mr. W. H. Kestler, who was stricken last Tuesday a week ago with apoplexy. He arose in the morning as well as usual, seemingly, and started out to his barn but only got about half way when he fell, living only a few minutes. His remains were interred the next day in the new cemetery. He leaves a wife and three small boys to the mercies of a cold and cruel world. The sympathies and kind feelings of our people are with them.

Jamestown Items.

Mr. W. N. Rush is making preparations for rearing a new building in Jamestown.

There is a good old farmer in our section who commenced sowing wheat last week.

Mrs. W. G. Sapp, who has been sick for some time, is not thought to be any better.

Miss Cora Lewis went to Greensboro last week to spend New Year with her uncle and family.

Mr. George Johnson, who has been on a visit to Salisbury, returned home Saturday night.

The Jamestown Sunday school presented their superintendent, Mr. J. S. Ragsdale, with a nice present last Sunday.

Germananton Items.

Mr. Will Fogleman, of Greensboro, spent several days with his brother, A. W. Fogleman, here during the holidays.

Mr. and Mrs. Chas. M. Bowman have the sympathy of this community in the death of their son, Tom, who died of pneumonia aged 21 years.

We are sorry to announce the death of Mr. Nat Sullivan at the age of 76. Mr. Sullivan was much loved and respected by all who knew him.

Mr. R. V. Harris, who resided here for a number of years, now in business at Summerfield, spent several days in our village last week. We presume he was here on business.

The eleven-year-old son of Jeff Bishop, living near Rural Hall, got his father's whiskey bottle a few days since and drank something like half a pint of the liquor and died before medical aid could be procured.

The wife of James Young, having been in bad health for some time, we learn procured strychnine from some source and committed suicide. The husband and wife are well connected and we lament her sad fate.

We noted in a former correspondence that corn raised last season was damaged by dry rot. Since then three mares have died here, it is said, from the effects of a germ in the corn similar to the ergot in spurred rye. We would advise people to be careful in feeding, especially to milch cows and breeding mares.

The New Year was ushered in on our community very brightly, a nice snow—enough to cover the ground—succeeding the cold northeast rain of Saturday and Sunday night. This correspondent sends his greetings to the PATRIOT, wishing your valuable paper and its many readers a happy and prosperous New Year.

Stokesdale Items.

Mr. R. S. Williams went to Greensboro Monday.

Rev. J. R. Hutton, of Greensboro, was in town Sunday.

The new year came in company with a little snow here.

Mr. M. O. Nelson, of Danville, Va., was in town Thursday.

We are glad to state that Rev. W. F. Kennett is improving.

Messrs. Oscar Payne, of Madison, and Tommie Simpson, of Gentry, were here last week.

Miss Alice McCrorie returned Saturday after spending the holidays with her sister at Asheboro.

We learn that the "Atlantic & Yadkin Valley" will be the name of our road since the sale last Thursday.

Miss Georgia Simpson and her friend, Miss McCrackin, were here Saturday on their return to the State Normal.

Mr. James S. Cook returned to Chapel Hill Monday after having spent the holidays here with relatives and his many friends.

Cards have been received here announcing the marriage of Miss Pearl Knox Ogburn to Mr. Henry R. Laney, both of Monroe. Miss Ogburn has many friends here, having visited here last summer.

Alamance Items.

Mrs. D. W. Cochran and son, of Troy, are the guests of Mr. Robert Phipps.

Prof. John Gilmer and wife, of Henderson, have been visiting in the community.

Messrs. Ed. Forbis and Jas. Bostick, of Richmond county, are visiting in this neighborhood.

Prof. Wilson's school opened Monday morning in full force. We feel assured that he will accomplish much good during the coming session.

Miss Bettie Whiteley has recently returned from an extended visit to friends and relatives in the Pleasant Garden and Tabernacle neighborhood.

Miss Lizzie Parker, of Guilford College, Messrs. Chas. and Henry Donnell, Everette Hobbs, Eddie Allred and Mr. Robert Stewart, of Charlotte, were among the guests or friends here during the holidays.

We expect our Garden Seed to arrive about the 10th or 15th of January. Howard Gardner, druggist, cor. opp. postoffice.

Ramsour Items.

Ernest Trogdon, of Marion, came home Christmas.

Pierce and Orlando Jennings, of Burlington, spent several days here last week.

Dr. H. M. P. Clark is spending some time with relatives in Franklinton.

Mrs. J. E. Cole and Miss Etta Watkins returned from a trip north on last Saturday.

Mr. and Mrs. H. B. Carter spent several days last week with relatives in Greensboro.

Misses Lilly Hurley, of Kimesville, and Flora York, of Staley, visited here last week.

Mr. Noah Womble, of A. C. L., and Mr. Roy Phillips, of C. F. & Y. V., visited relatives here last week.

Messrs. Geo. White and Herbert Reid, of South Carolina, visited at Mrs. M. L. Crutchfield's last week.

Mr. W. H. Watkins, Jr., of Greensboro, and his friend, Mr. Ben King, of Charlotte, spent the holidays here.

Miss Cattie Parrisi, formerly of this place, but now of Moore county, is spending some time with friends here.

Messrs. E. F. and W. A. Chisholm, two promising young men, now students of Wake Forest college, spent the holidays here.

Mr. Preston Covington and bride, of Fredericksburg, Va., spent a few days here last week, and Mr. Joe Covington, of Charlotte, also. Messrs. Phillips and Elkins have sold out their store to Mr. Geo. M. Kimry. We regret very much to see Messrs. Phillips, Elkins and Bowden leave our community.

Summerfield Items.

Mr. B. V. Harris went to Germananton last week.

Now is a good time to mend broken resolutions.

Master Clyde, a little son of Mr. J. B. Smith, is convalescent.

Miss Ellen Ogburn visited friends at Oak Ridge last week.

Misses Clara and Maude Willson, are visiting relatives at Roxboro.

Mrs. H. C. Brittain visited her brother, Prof. E. E. Craven, at McCall, S. C., last week.

Prof. and Mrs. C. C. Teague, left the 24th ult. for Fremont, where they will make their home in the future.

Miss Ellen Ogburn returned to the State Normal and Industrial College Monday. Miss Cary, member of the senior class in the same school, returned a few days earlier.

Miss Whitaker, of Enfield; Mr. and Mrs. G. S. Foster, of Greensboro; Mr. and Mrs. Willis Harris, of Germananton; Dr. Joy Harris and Misses Willis and Joy Belle Kime, of Burlington, visited friends and relatives in Summerfield during the Christmas holidays.

Mr. N. W. Ogburn, one of Summerfield's most popular merchants and Miss Elma, the beautiful and accomplished daughter of Mr. Wm. Hoskins, are to be married tomorrow, at the home of the bride's uncle, ex-sheriff Hoskins. We extend them in advance our heartiest congratulations, and best wishes for a long and happy life.

Thom's Mill Items.

Miss Lillie Thom, of Winston, spent the holidays at home here.

Miss Carrie Keith, of Winston, visited Miss Nina Glass recently.

Mr. and Mrs. Z. T. Smith have a new comer at their home; it's a boy.

Miss Donnie Allred gave her friends a good time at her home one day last week.

During the past year Mrs. Elvira Scott sold 502 pounds of butter and 300 gallons of milk.

Mr. W. C. Kirkman, who has been sick with grippe for some time, is able to be out again.

The students at Cedar Hill presented their teacher, Mr. W. C. Rankin, with a nice walking cane, Christmas.

Quite a number of men from this community who enjoy hunting, spent a pleasant day near McLeansville last week.

A social was given at Mr. G. M. Glass' last Wednesday night and an oyster supper at Mr. J. C. Kennett's on Friday night.

Among those who have visited around here since our last writing were, Mr. Will Jordan and Mr. J. F. Starr and family, all of Greensboro; Mr. and Mrs. John Tucker and Miss Kate Low, of Whitsett; Misses Flora and Blanche Anthony, of Vandalia; Prof. J. E. News comes from some of the eastern counties that the Mormons are very active in that section. Their missionaries have been laboring there for the past year or more among the poorer and more ignorant class of people, with some success. Recently the number of missionaries has been doubled, and a Mormon colony somewhere along the coast is talked of. This is the part of the State in which the Lynchites operates some two years ago, and created such a sensation by their peculiar doctrine and mode of living.

A Changed View of a Changed Man.

~~I am completely discouraged, after trying so called specialists and different advertised remedies, I feel that I am getting worse instead of better and have about given up hope of ever being cured of my kidney trouble.~~

I have changed my mind, for, after reading of the positive guarantee of Foley's Kidney Cure, as a forlorn hope I tried a bottle, and the result was so favorable that I continued its use until I had taken three bottles which effected a thorough cure, and I am a changed man.

Sulphur for the Grip.

In view of the prevalence of grip in New York the health board has decided to take advantage of the holiday season to thoroughly cleanse and fumigate the public schools. "The abnormally large number of children absent last week because of sickness," says the New York World, "was a cause of anxiety to the health board, and while it was not believed the school buildings were infected with grip germs, it was thought best not to take any chances. Every class room in every school building in the five boroughs of the city will be fumigated. The rooms will be sealed up and quantities of sulphur burned in them. Liquid disinfectants will also be used. Doctors say that the effects of the epidemic are apparent, and that for weeks to come illness and death will result. In fact, the result of grip is in many cases more serious than the disease itself. Pneumonia, bronchial troubles, diphtheria, rheumatism, heart failure, even paralysis and consumption, follow an epidemic of grip. Many deaths have already been reported in New York from grip, and many have been reported from other causes which were from diseases which followed an attack of grip."

The determination of the New York health board to fumigate the school buildings is a wise one and the example might be followed with advantage in Baltimore. In connection with the grip, Mr. George T. Angell, of Boston, president of the American Humane Education Society, makes a suggestion which we give for what it is worth, although our friends, the doctors, will probably greet it with derision. In a circular just issued he says:

"It is a fact that when grip was prevailing as an epidemic largely in our city a few years ago, I ascertained, by inquiry of my officers at a match factory, that of the forty-three persons employed there not one had been troubled by it. I have at various times told the press how many at Memphis, Tennessee (including the agents of the Howard Benevolent Association), escaped the terrible epidemic of yellow fever there (as they claimed) by wearing powdered sulphur in their shoes—also the evidence of a distinguished German medical writer, translated into English, that wearing sulphur in this way has proved a complete protection against cholera and other epidemic diseases—also that those working the sulphur mines of Italy escape the malaria which prevails all about them—also that sulphur in the shoes has cured various cases of rheumatism—also that sulphur taken internally or worn in the shoes has sufficient power to pass through the body, the clothing and the pocketbook, blackening the silver there. I find in the London Lancet that no less authority than the president of the Institute of Civil Engineers of London declares that the sulphurous vapor produced by the combustion of coal in that city kills the disease germ in the atmosphere. It seems to me a duty, at this time, to again suggest as widely as possible that sulphur is very cheap, and whether it destroys or keeps out germs of disease from the body, or only acts upon the imagination, it cannot do much harm to try it. Half a teaspoonful of powdered sulphur in each shoe or stocking is considered to be sufficient. As our readers know, we did our best last spring to put these facts (for the protection of our soldiers) before our army and navy officials at Washington. We do not know whether anything was done about the matter by our medical officers there, but we have received letters from army officers and men that, with sulphur in the shoes, they had no fevers and also found the sulphur a complete protection against fleas. On this same December 22 we receive in a letter from Capt. Julius A. Palmer, of this city, the following: 'By the way, in view of your frequent recommendations of common sulphur, it came to my notice recently that on California ranches where walnuts are prepared for the market the shells are bleached by the use of brimstone fumes, and that the men having charge of that work are never touched by the grip, influenza or other epidemics which attack their fellow-laborers on the same estates.'"

While it is not safe, as a rule, for persons to attempt to doctor themselves, and it is wiser to consult physicians before taking suggested remedies, the preventive advised by Mr. Angell is at least not likely to do much harm. If it does not kill the grip, it may, at least, keep off fleas, if one is in a neighborhood where they are troublesome. If General Alger had worn some of it in his stockings during the recent war with Spain, perhaps his record now would not need so much fumigation.

Reputation and Character.

When the Kentucky soldiers returned to Louisville the other day Mr. Henry Watterson in his speech of welcome said of the commanding officer that if he had been at Kartoum his name would have spelled Gordon, at Obdurman, Kitchener, or as Solomon said, "Time and chance happeneth to them all."

Every man makes his own character, but every man is not by any means the "architect of his own fortune." The element of chance is to be taken into account, for it is often some special occasion that makes a man's reputation.

Admiral Dewey was unknown to the American public twelve months ago. He is described as being a man of no pretensions, a man of modesty, and a man of so little assertiveness as that on one occasion, so it is said, his friends were vexed with him because he had permitted himself to be imposed upon by the authorities in Washington without showing resentment. Had there been no war with Spain, Dewey would have moved along "in the even tenor of his way," would have discharged his duty, and in the course of time would have gone down to the grave, respected and beloved within his own little circle, but without reputation, without fame. But the war with Spain came, and Dewey, against his protest it is said, was sent with his fleet to Manila. One day he went into the harbor and destroyed all the Spanish ships there, nor lost a single man. A little later Dewey's name was on every man's tongue, and he was known not only all over the United States, but all over the civilized world, and was the hero of the age. Time and chance happened to Dewey that day and he turned it to good account. We would not detract from his glory, but there are other men in the navy who are obscure and who will remain in obscurity forever, any one of whom in Dewey's place would have given quite as good an account of himself and he would have been famous, while Dewey would have remained obscure.

We would not detract aught from the fame of Lieutenant Hobson. But it is a well-known fact that there were hundreds of young men in the navy who were anxious to sink the Merrimac, and if fortune had favored any one of them, he would have been famous while Hobson would have been denied the honor. Time and chance happened to Hobson in the early morning at Santiago and Hobson improved his opportunity to do a gallant act and to write his name among the heroes of the century. But there is nothing discouraging in all this to the man who esteems character a greater thing than reputation. Character is not made by accident. It is made by careful cultivation, by self denial and by everlasting training. Dewey was just as great, just as noble, just as fine a character before he fought the battle at Manila as afterwards. Character is worth more than reputation for reputation is temporary, while character is eternal.—Richmond Times.

"The Man Who Never Slept" Dead.

Millionaire Edward Bain, president of the Bain Wagon Company, whose death is announced from Pasadena, Cal., was familiarly known as the "man who never slept," and it is doubtful if another case like his existed. It is virtually a fact that for the last sixteen years he did not sleep an hour in his bed.

Constant devotion to business was the cause of his sleeplessness, he having been known to remain in his factory, up to sixteen years ago, as late as 4 and 5 o'clock in the morning, and when he would seek rest he found it impossible to sleep.

For the greater part of the last ten years it was his custom to take daily trips to Chicago to pass the time away in street car riding and driving during the day, and at night he was always to be found either at a theatre or billiard hall, which were the only places he was able to get a short nap, the music at the theatres and the clicking of billiard balls alone affording him short spells of repose. He was born in Kinderhook, N. Y., seventy-five years ago.

I believe the first test of a truly great man is his humility. I do not mean by humility doubt of his own power or hesitation in speaking his opinions, but a right understanding of the relation between what he can do and say, and the rest of the world's sayings and doings. All great men not only know their business, but usually know that they know it; only they do not think any better of themselves on that account.—John Ruskin.

The Staley-Tressler Wedding.

The happy event of the season was the celebrating of the marriage of the youngest daughter of the late A. J. Tressler, long associated with the First National Bank of Bryan.

On December 14, 1898, at noon, a large assemblage of friends and relatives gathered at the spacious home of Mrs. Emeline R. Tressler, Lynn and Bryan streets, to witness the marriage of her daughter, Emma Louisa, a charming and cultured young lady, whose purity and sweetness of character have won her the highest esteem, to Augustus Eugene Staley, from Baltimore, Maryland.

The floral decorations were of palms, ferns, smilax, holly and cut flowers, arranged with artistic designs, the prevailing hues being verdant and scarlet, most prettily shown on the pier glass, in front of which the solemn vows were to be made; giving to it all an idea of beauty and loveliness.

Promptly at 12 o'clock Mrs. F. W. Ingalls began the wedding march from Lohengrin. The groom entered the room and took his place, followed by the bride leaning on the arm of her brother, A. R. Tressler, of Chicago.

The bridal toilet was of rich white Dutchess satin, entrain. A veil of tulle was worn, with brooch of pearls and diamonds. The flowers carried were white roses. The ceremony was performed by Rev. M. L. Tressler, Third Presbyterian church, Cincinnati, a relative of the bride, assisted by Dr. Doggett, of Bryan. The scene was a beautiful and impressive one, followed by a pleasant and happy reception, after which most delicious refreshments, in varied courses, were served. The whole affair was sweetly and harmoniously arranged. The bride received many beautiful and valuable presents in silver, pearl and cut glass, and a bank check.

The guests from out of town were Mr. and Mrs. McElhanie, of Toledo, Ohio; Miss Daisy Helwig, of Kendallville, Indiana; Mrs. J. M. Webb and Miss Mary Chandler, of West Unity, Ohio; A. R. Tressler, of Chicago, Illinois; Mrs. J. G. Parcher, of Toledo, Ohio, and Rev. M. L. Tressler, of Cincinnati, Ohio.

Mr. and Mrs. Staley left on the afternoon train for Baltimore, their future home, where they are followed by hosts of loving wishes and the good thoughts of the many friends who are interested in the happy pair.—The Bryan, Ohio, Press.

La Grippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexico, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.' Hobson Talks of Kissing.

Lieutenant Richmond Pearson Hobson sailed for the Philippines yesterday on the steamer Gaelic. He will undertake the work of raising and preparing for service under the flag of the United States, vessels of Admiral Montijo, which were sunk in the battle of Manila Bay. An immense crowd was at the dock to witness Hobson's departure.

Before his departure Lieutenant Hobson drove to the park with Mayor Phelan, and there received a crowd of about 9,000 persons. He made a twenty-minute speech on the events of the recent war. In the course of his remarks he deprecated statements in regard to his kissing of women in different cities he has visited.

"I have suffered deeply through printed reports of my actions," he said. "These reports are untrue. It is a fact that I have kissed in public some of my relatives, and also children who have offered their rosy faces to me. But I cannot express too strongly my feeling at exaggerated accounts of my actions. I have thought of making a formal statement concerning this matter, but I fear that even this might be misconstrued."—San Francisco Dispatch, 25th.

Curing the Affliction.

"Justice," said the proverb-afflicted boarder, "is blind." "Yet," said Asbury Peppers, "I saw one taking an eye-opener yesterday."—Indianapolis Journal.

Woman Rejected.

Woman is so generally conquering the fields of employment formerly held exclusively by man that one is shocked to learn that the Chicago and Northwestern Railway is discharging all its women clerks and stenographers instead of taking on more. The reason assigned by the company may or may not be deemed a good one. Its women employees, it says, are efficient enough as clerks and stenographers, but they do not advance beyond that status, whereas the company wishes all its employees to be advanced, if capable, from lower positions to higher ones, "and who can imagine a woman as general superintendent of a great railway system?" They block the movement all along the line, lessening the number of persons from which selections must be made for exacting duties in the active, outside management of affairs. But who says a woman may not make a good general superintendent, or even a railroad president?

Many a household is saddened by death because of the failure to keep on hand a safe and absolute certain cure for croup such as One Minute Cough Cure. See that your little ones are protected against emergency. Howard Gardner.

What it Cost.

The expenses of the war up to October 31 were \$164,932,228, exclusive of the amount spent on army and navy last year. Up to June 30 next the total outgo on account of the war and garrisons in our "colonies" is estimated at \$253,000,000. Excess of expenditure above ordinary cost of the peace establishment marks the war expense. The Cleveland "emergency fund" of \$50,000,000, the \$200,000,000 raised by the war loan and the proceeds of the war taxes will, it is thought, meet the bills and leave an estimated surplus in June next. The cash balance at that date, including the gold reserve, is figured at over \$280,000,000. War taxes cure the failure of the Dingley act and the monthly deficits are now growing very small.

Don't buy your Cabbage Seed. Wait and get fresh seed from Gardner. His seed are expected to arrive about January 10th or 15th.

Banner Warehouse

GREENSBORO, N. C.

We desire at the beginning of another new tobacco year to return our thanks and express our appreciation to our friends and customers for their past favors and liberal patronage. It is known to most of you that we have the best market in this country and that

The Banner Leads in Big Averages.

Our buyers are now ready for all grades and kinds of your tobacco and we claim the advantage of having a buyer for every kind. Some of them ship to foreign markets and are in a position to pay the very highest market price for all export grades, while others are representative of the largest manufacturers in America. There is active competition between these buyers. The buyer for the American Tobacco Co. and our home manufacturers use all classes of stock. While this is true we feel safe in saying that

YOU CANNOT FIND A BETTER MARKET

than Greensboro for your entire crop, from the commonest filler to the finest bright and mahogany wrapper.

The Banner Warehouse is fully equipped and operated by experienced warehouse men. No one will give your tobacco more careful attention or exercise better judgment in selling than will "Bill" Brander, our auctioneer, and W. J. Blackburn, who has charge of the sales. They have had many years experience in the warehouse business. They know the worth of tobacco and will get you its full value. John Willie Smith, our weigh and paymaster, discharges his duty correctly and conscientiously. W. L. Wharton and "Shell" W. Porter, our book men, are thoroughly competent and dispatch business with correctness. James M. Sharp, Will R. McKinney and W. J. Branch are all at the Banner to see that you and your stock are properly cared for day and night. Hoping to see you soon, we remain your friends,

—The force of brick-masons employed on the new insurance building, on East Market street, went on a strike this morning because of the refusal of two brick-masons employed on the building to join the labor union of which their fellow workmen were members. The union men had offered to pay the initiation fee of the two men, and upon their refusal to become members of the union the entire force struck. The two "scabs" were then discharged, after which the union men went back to work. The brick-layers' union of Greensboro numbers about fifty members and has been organized since October. They have inaugurated the nine-hours-a-day system, which goes into effect today.

—The annual gathering of the representatives of the Cone Export and Commission Company in this city last Thursday night was a most enjoyable occasion. It is a custom of the house to call their representatives from all parts of the United States together once a year to discuss various matters of interest pertaining to their business. The gathering was held in the parlors of the Benbow House, and a most enjoyable occasion it proved to be. An elegant supper was served, after which a number of timely toasts were responded to by various gentlemen present. The Cone company is the largest of its kind in the United States, occupying a position equaled by none in serving the various interests it represents. The removal of the principal offices of the concern from New York to Greensboro, together with their establishment of various other enterprises, has proven most beneficial to this city.

A Good Woman Gone.

Mrs. S. W. Dilworth, widow of the late A. Dilworth, died at her home on East Market street last Friday morning in the eighty-first year of her age. She had been in feeble health for some time, suffering from old age and general debility, and her death, therefore, was not unexpected. She was an earnest christian and a devoted member of the Methodist church, her daily life being an example of godliness to all with whom she came in contact.

Mrs. Dilworth was born in Camden, S. C., moving to Greensboro some forty years ago. She was the mother of five children—one son and four daughters. Her husband and one daughter preceded her to the great beyond several years ago.

The funeral was held from the late residence of the deceased Saturday afternoon at 3 o'clock, the services being conducted by Rev. J. H. Weaver, D. D., who was, until a few weeks ago, her pastor.

The body was laid to rest in Greene Hill cemetery.

An Elegant Spread.

The New Year's dinner at the McAdoo House last Sunday would have done credit to a hotel of twice its size and pretensions. Mr. Perkins, the genial proprietor, had taken special pains in the preparation of the repast, and well did he succeed. In addition to the guests of the hotel, quite a number of visitors were present to enjoy the meal. The following tempting bill of fare was served:

Lynn Haven Oysters	Puree Bretonne
Cream of Celery	Boiled Pompano, Maitre d'Hotel
Lettuce Celery	Queen Olives Cold Slaw
Oyster Patties	
Magnolia Ham, Sauce Robert	
Orange Fritters, au Vin	
Prime Cut of Western Beef, Natural Gravy	
Roast Mallard Duck, Apple Sauce	
Young Turkey, Cranberry Sauce	
Creamed White Potatoes	Scolloped Tomatoes
Candied Yams	
Corn Pudding	Early June Peas
Green Apple Pie	Chess Custard
Junket Vanilla Ice Cream	
Lemon Jelly, with Whipped Cream	
Pound Cake	Marble Cake
Assorted Fruits	Mixed Nuts and Raisins
Cheese	Crackers
Coffee	Tea
	Milk

The Bank of Guilford Closed.

The Bank of Guilford has gone into voluntary liquidation, and Mr. J. S. Cox has been appointed temporary receiver. He will wind up the affairs of the bank, paying the depositors in full. The institution is perfectly solvent and will be able to pay off all its obligations. The doors were closed this morning pending the necessary arrangements being made for the receiver to take charge of affairs.

Notice.

Notice is hereby given that application will be made to the next General Assembly of North Carolina to amend the charter of the town of Gibsonville, N. C.

THE GREAT

Manufacturer's Sale

OF

CLOTHING

CONTINUES

10 DAYS LONGER!

Owing to the recent recovery of our goods lost on the railroad transportation, the late arrival of which made it impossible for us to dispose of them in the time expected, we are compelled to remain with you 10 days longer and sell these goods at a great reduction.

This sale will undoubtedly result in a great loss, but the railroad company, solely responsible for their delay, must suffer the consequences and you purchasers will derive the benefit from it.

Everyone, whether in need of Clothing or not, should avail himself of this most remarkable opportunity, for such another will never be offered again. Remember that for the excessive business we have been doing ten days is all sufficient to close out balance of our stock, while for you it is a short time in which to purchase.
