is preparing to build a nice dwelling
house on Summit avenue, near Mr.
W. T. Stewart's residence.

A number of people from Greensboro
attended the marriage of Mr. Word H.
Wood and Miss Fannie Burwell at
Charlotte last Thursday evening.

The new World's Fair stamps were
put on sale at the postoffice yesterday.
There are five denominations in the
series—ones, twos, threes, fives and
tens.

The J. Van Lindley Nursery Com-
pany will double the size of its busi-
ness office next month. A large safe
deposit vault will be a feature of the
addition.

Some exceptionally nice decorative
work is being done on the lobby of the
Hotel Guilford. The painting of the
exterior of the building has improved
its appearance wonderfully.

Mr. John A. Hodgins is preparing to
build three houses on West Lee street
and a large brick business house on
South Elm, adjoining the Gorrell and
Ross lively stable buildings.

Capt. McIver's state convict force is
doing excellent work on the James-
town road grading. The abutments
for the new bridge at the Armfield mill
will be completed this week.

All citizens who have flowers are re-
quested to save them for the Memorial
Day celebration May 10th and send
them to Mrs. Jos. M. Morehead, chair-
man of the flower committee.

In the Federal court this week evi-
dence is being heard in the Milton
fraud cases involving defendants T. M.
Angle, B. F. Sprinkle and William
Young. The case of Mr. Mebane goes
over to next term.

The Trinity College Glee Club gave a
fine concert here last Friday evening
before an audience that filled the opera
house. A portion of the proceeds were
applied to the building fund of Greens-
boro Female College.

Mrs. Dr. Scales, who has been here
on a visit to her father, the venerable
R. M. Sloan, returned to New York
last week accompanied by her niece,
Miss Paisley Ellington, who will be
her guest for several weeks.

The street cars hauled 5,376 people
Saturday and 4,555 Sunday. The record
is something over 14,000 and this when
they had only five motor cars and two
trailers. With the present equipment
they can easily handle 18,000 or more.

Mr. W. A. Fields is preparing to
erect a large brick building on Fay-
etteville street, near the Columbia
steam laundry. Messrs. W. O. Strat-
ford and Leslie Cartland will also erect
houses in South Greensboro at an early
date.

THE JONES-STUART MEETINGS.

The South's Two Leading Evangelists to
Spend Two Weeks in Greensboro.

Greensboro is to be favored with the
presence of the South's two leading
evangelists, Rev. Sam Jones and Mr.
George Stuart, during the first two
weeks in May. A series of meetings to
be conducted by them will begin at the
Banner warehouse, on West Market
street, next Sunday afternoon, May 1st.

Already the big warehouse is being put
in readiness for the meeting by elec-
tricians and carpenters. The driveway
in the warehouse will be raised to a
level with the floor, thus adding to the
seating capacity, which will be about
4,000. An order for 2,400 chairs was
placed with a Thomasville factory
some days ago, and most of the chairs
are now here. Bench seats will be pro-
vided for 1,500 people, while the plat-
form will seat about a hundred people,
including the choir. It is expected
that thousands of people from the
country round about and surrounding
towns will attend these meetings. A
morning service will be held each day
at 11 o'clock, preceded by a song ser-
vice of half an hour. There will also
be preaching at 3 o'clock in the after-
noon, in addition to the regular ser-
vices at night, which begin at 8 o'clock,
making three sermons each day. The
program of services is liable to
change, however, subject to require-
ments. The invitation to these meet-
ings is general. Everybody will be
welcome. Come.

Two more raised bills, clever forgeries
both of them, were detected last week.
There seems to be considerable of this
money floating about Greensboro, and
it is only a question of time until some-
one will have to answer to the govern-
ment for its presence.

Mr. R. J. A. Power, who has already
erected a score or more of nice tenement
houses here, is preparing to
build several more. In all he may put
up two or three hundred houses before
he stops, as the demand seems to in-
crease with the supply.

Jacob Clapp, the young man who
was accidentally shot some months
ago while out hunting, was operated
on at the Greensboro hospital the first
of the week and is since doing nicely.
A part of the gun was taken from the
wound, which had never healed properly.

Hundreds of voters in Guilford have
not yet paid their poll tax for this year
and are liable to be disqualified at the
approaching county, state and national
elections. Then they will growl about
the law, when in reality it is one of the
best ever devised. The time's up Sat-
urday night.

Rev. C. E. Hodgins, pastor of West-
minster Presbyterian church, went to
Richmond last week to attend a series
of lectures delivered by Dr. Stawker,
of Scotland, at Union Theological Sem-
inary. Sunday evening Rev. Hodgins'
pulpit was filled by Rev. S. M. Rankin,
pastor of Alamance church.

Mr. J. R. Jones, of Fern, recently
sold for \$35 a brood mare that he paid
\$12.50 for twenty-two years ago. Since
that time he has raised from her fifteen
colts, one year cultivating with her a
corn crop that measured up 710 bushels.
Mr. Jones doesn't believe there is a
mare in the county with a better record.

The fire committee of the board of
aldermen purchased an additional
thousand dollars' worth of equipment
for the fire department Monday, buy-
ing 1,000 feet of double-jacket waxed
hose, a number of extinguishers, noz-
zles, rubber coats, boots, etc., of which
the department has been in need for
some time.

Housekeepers looking for carpets,
matting, rugs, floor or table oil cloth,
lace curtains, window shades, counter-
panes, towels or table linens will find
a very complete line of these things at
Thacker & Brockmann's. And when
you buy anything from this firm you
can depend upon it that the quality
and price are both right.

Invitations will go out this week for
the marriage of Mr. A. E. B. Alford
and Miss Mattie Satterthwaite, both of
this city, which occurs Wednesday
evening, May 18th, at the First Pres-
byterian church. News of the ap-
proaching marriage of these young
people is of general interest, as they
have a large circle of friends.

C. C. Townsend & Co. have bought
from a bankrupt stock a job lot of 36
buggies at prices that no factory will
make, and they say they are going to
sell these jobs at prices never before
equalled on the Greensboro market.
They will have them opened up ready
to show by Saturday, the 30th of April,
and they will go like hot cakes. See
them early if you want one. 17-4t

A young man named Hinshaw, from
Winston, was the only base ball en-
thusiast that exhausted the patience of
the police force Saturday. He put up
\$18 for his appearance Monday, but
evidently lost his calendar. Generally
speaking the crowd here Saturday was
good natured, though inclined to be
boisterous at times, and there were few
incidents that merited real criticism.

The adjustment of the differences
between the telephone subscribers and
the Bell Telephone Company is still in
abeyance. At a conference between
the citizen's committee and the Bell
people last week no argument or com-
promise was reached, but a final propo-
sition was made the company, the an-
swer to which is expected tomorrow
night, when a meeting will be held for
the purpose.

THE GREENSBORO TOBACCO MARKET.

MARKET REPORT.

The receipts on our market for the
past week have been the smallest for
any week in quite a long time, which
we think is due to the fact that farm-
ers are very busy with their crops and
the weather has been very harsh for
the past ten days. However, we had
a good sprinkling of tobacco through-
out the entire week, which was very
eagerly sought for by all of our buyers
and bidding was quite spirited, with
prices about the same to a shade better
and the market very active. The qual-
ity of the tobacco on the market was
about in keeping with previous weeks
and farmers, as a rule, were highly
pleased with their sales. We think
the tobacco is so nearly sold out that
prices will remain about as they are
now for the remainder of this season,
but we would advise farmers to market
the remainder of their crops as early
as convenient for the reason that old
tobacco rarely ever sells as well when
carried over into the next crop as it
does in the current crop, and we think
the sooner you sell out what you have
on hand the better it will be for you.

Through the kindness of Messrs.
Smith & Stone, proprietors of the Ban-
ner warehouse, that house will be closed
from today until May 16th for the great
meeting to be conducted by Rev. Sam
P. Jones and George R. Stuart, which
will begin next Sunday afternoon, and
last for about two weeks. The ware-
house is about ready to be occupied by
these great preachers and Greensboro
is expecting a great time. Our sales
will continue at the other houses, but
will begin promptly at nine o'clock, so
it will give everybody an opportunity
to go to the meeting. We hope that
patrons of the Banner warehouse will
continue to patronize that house for
their kindness in letting us have it.

COMMITTEE.

H. B. Smith, of this county, made a
very satisfactory sale here last week.

Lee Davis was here with 653 pounds
of working tobacco for which he re-
ceived \$62.68.

T. H. Overman, of eastern Guilford,
was here last week and was highly
pleased with his prices.

W. J. Groome made his regular
weekly trip here last week and was
very highly pleased with his sale.

A. C. Lloyd, of Alamance county,
was here with tobacco during the past
week and made a very satisfactory sale.

Iseley & Williams, of Alamance,
were here with a load of good tobacco
last week and made a very satisfactory
sale.

J. W. Hudson, of Rockingham, made
a very satisfactory sale on this market
yesterday. Rockingham tobacco al-
ways sells well with us.

J. T. Lineberry, of this county, sold
a load of tobacco here during the past
week at \$6.75 to \$14 and was very high-
ly pleased with his prices.

J. C. Gant, of northern Guilford, one
of Greensboro's old stand-bys, was
here last week with a load of tobacco
and was well pleased with his prices.

G. T. Barnett, A. G. Garrison, J. D.
Kernodle and J. J. Barnett were among
our good patrons from Alamance coun-
ty last week and made very satisfac-
tory sales.

J. Ham Smith was here with a good
load of working tobacco and averaged
about \$9 per hundred. He expressed
himself as being very highly pleased
with his prices.

Sheriff R. T. Kernodle sold two loads
of good tobacco at the Planters' ware-
house last week and looked very natu-
ral at the old stand. He got good prices
and was well pleased.

W. H. Lester, of Rockingham, sold
a load of that good working tobacco
from that section. His prices ranged
from \$6.75 to \$19.50. He was very
much pleased with his sales.

Reopening of the Banner May 16th.

We want to call the attention of our
friends to the fact that the Banner
warehouse will reopen on Monday,
May 16th, and we will appreciate any
sales that are held up until that date,
pending the close of the Jones-Stuart
meetings. Tobacco is advancing in
price, and nothing will be lost by our
patrons who will show us this consid-
eration. SMITH & STONE, Props.

Plato Stevenson, a young white man
from Mechanicsville, a suburb of High
Point, was arrested Monday for robbing
freight cars in the Southern yards here.
Stevenson had a permit to learn the
road preparatory to becoming a brake-
man, and was not suspected of the ro-
beries until he began selling cigars
taken from the cars. He admitted un-
hesitatingly that he had broken open
three cars, taking a bucket of candy
from one, but he says the cigars were
taken from a car that had first been
opened by two white men and two
negroes. He also admitted forging
trainmaster C. S. Lake's name to a sec-
ond permit to learn the road, his first
having expired in the meantime. Squire
Collins put him under \$200 bond for
his appearance at court and he was
locked up.

John Deaton, of Proximity, was
fined five dollars and costs in Squire
Collins' court Monday for disorderly
conduct and interfering with an offi-
cer. That afternoon Deaton went on
the war path for the officer who had
made complaint against him, Mr.
Walters, and threatened to get even
with him. Yesterday morning the
men met and settled their differences
in a fistic combat in which the officer
came off with the honors.

LOCAL NEWS.

Oil, needles, parts and attachments for all sewing machines at McDuffie's Furniture Store.

B. MacKenzie, of this city, has been awarded the contract to install a hot-water heating apparatus in the elegant colonial residence of J. S. Carr, Jr., in Durham.

Mrs. Minnie Wrenn, who was known here as Alice Lee, died at the Rescue Home, on West Lee street, last week of consumption. She professed religion two weeks before her death.

Kemp P. Battle, the third, has returned from Charlotte to take a position as clerk at the Hotel Guilford. He has been with the Buford at Charlotte since leaving the Hotel Hufine here.

A few weeks ago we made mention of the fact that someone stole a nice bicycle from Dr. Turrentine's porch. Last week two small boys fishing in the creek near the water works pulled part of the wheel from the water. The police, after investigating the case, founds other parts of the wheel at the home of Joe Hays, a negro who is under arrest for stealing a saddle from Capt. Neil Ellington.

Circulars issued by the Atlantic & Birmingham Railroad last week announced the appointment of two excellent young Greensboro men to responsible positions with that company, with headquarters at Brunswick, Ga. Mr. G. Cam Smith is made trainmaster of the first division of the A. & B., and Mr. Tom C. Coffin is made commercial agent. Both gentlemen have been with the company for some time and have demonstrated exceptional ability, as their promotions show.

An old-fashioned prairie schooner, drawn by two horses, stopped in front of the Benbow hotel one day last week and attracted much interest. The wagon contained Mr. Joseph Trueblood, his wife, two children, a dog and a valued family rooster. Mr. Trueblood had left northern Nebraska six months ago and had traveled all the way with his family and dog and rooster, going to Virginia to make his home. He stopped here simply to inquire the way to Danville, Va., and said he liked this country so well he wished he had known about it before he made his purchase in Virginia. He could not be prevailed upon to stop with friends overnight and take a rest, saying he was so near the end of his long journey he was anxious to move on. He said he was an invalid when he left Nebraska, but the trip across the continent in the open air, even through the winter, which had been so severe, had already made him strong and well.

New Sleeping Car Line to St. Louis, Mo.

Effective with first car leaving Greensboro at 7:20 P. M. April 26th the Southern Railway will inaugurate a sleeping car line from Greensboro to St. Louis, Mo., which will be operated daily throughout the World's Fair. This arrangement will enable passengers from this point to go through without change of cars, and also carry them through the most desirable route, this car being handled throughout on fast schedule via Asheville, Knoxville and the famous Blue Grass region of Kentucky, and across the world-famous high bridge, 388 feet high.

Guilford's First Strike.

The records of the old county court of Guilford county show that as far back as 1850 not only were strikes known, but also punishment for the "conspiracy against the employer" meted out. The indictment includes about twenty employees of the Russell gold mine. They are charged with surrounding the door of the superintendent in a body, and declaring that they would quit work unless the hours were reduced from ten to eight, night shifts seven and no regular Sunday work. The indictment sets out that these men and "strikers" had agreed to work ten hours, and their conduct was declared a conspiracy against the orderly conduct of the mine's operations. In the papers of the case is the original written agreement, signed by about twenty men, obligating themselves to stand together in the demand for a reduction of hours. There is no charge of any assault or breach of the peace. The strikers were fined \$5 each, "said fine to be remitted upon good behavior in future."

Out of the Fryingpan, Etc.

Durham Recorder.

Mr. E. O. Patterson, who was so very bitterly opposed to vaccination and who was fined in the mayor's court for refusing to comply with the much-cursed and discussed vaccination ordinance, has moved his family to Greensboro, where they expected to reside in the future, but information came to Durham yesterday that Greensboro was experiencing compulsory vaccination, and Mr. Patterson will pull up from there. It is not known where he will go next.

Testimony of a Minister.

A startling incident, is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at all druggists.

New High School Building Needed.

In order to fully explain the school conditions of the city, Superintendent Broadhurst has published a 36-page pamphlet reviewing the development of the graded schools since their establishment, together with facts and figures showing the absolute and immediate need for a new central high school building. His argument is unanswerable and the city may as well prepare to meet the crisis gracefully, rather than wait to be forced to act in a matter of such import. In a sort of summary to his recommendations Prof. Broadhurst calls special attention to the following points:

1. During the present scholastic year every available class room known to the school board has been crowded to the point of impeding good work, and of doing violence to the child's health.

2. During the present scholastic year the doors of our public schools have been open to a school census exceeding 3,000 children at an expense of \$7.43 per child—about 80 cents per month.

3. We have advert ample school facilities for all new comers. A study of published facts and figures relative to our schools will show that it is time preparations were being made for the "delivery of the goods."

4. Whenever a man with a family moves to Greensboro, ten to one the change is made because of his desire to reach a good public school.

5. The child's name goes on the school register long before the father's name goes on the city's tax list.

6. If property is too high priced now, what will it be next year when people, whose children are turned away from the schools because of a want of seating capacity, refuse to pay taxes for the support of a public school that does not reach and care for every child that wishes to enter.

7. The board of aldermen has prepared for the white race thirty class rooms to house an enrollment exceeding 1,500 children; thereby causing an average enrollment of more than fifty for each teacher. Without a vacant room in any of the present buildings, what is to be done with the natural increase of the coming year, to say nothing of the new families that will move here in search of good schools?

8. The public school and the public library go hand in hand. Why not place them on the same lot in the central part of the city?

9. Greensboro enrolled a greater percentage of her school census than any other North Carolina school district represented at the recent Greensboro meeting of the state association of city school superintendents.

10. Thus far, money expended out of the city treasury, during any one year, for the support of our public schools has not reached a two mill tax—has not equalled a tax of 20 cents on the \$100 worth of property. No town or school district in the state has such a record for progress and economy.

11. Very few children like to sit all day on the front seats or in chairs scattered about the vacant space of a crowded room.

12. No teacher ought to be required to try to teach a class numbering more than forty; it is neither fair nor just to the child or to the teacher.

Letter to Chisholm, Stroud, Crawford & Rees, Greensboro, N. C.

Dear Sirs: Clothing is just like paint. It fits or it don't; it wears or it don't; turns weather and water or not; and goes out of fashion.

What do we wear clothes for? Did you ever think of it? Different persons have different reasons, no doubt, but one paints Devco for beauty, to be in the fashion, and keep-out water.

Fashion says paint: we all paint. There is beauty in paint; we paint a good deal for that. And buildings are costly and fashionable; put on a water-proof two or three coats of paint, and your buildings last as long as you keep them dry. It costs nothing to paint; it costs your buildings not to.

Devco is the paint that lasts; disappearing paints are the paints that cost.

Yours truly,

F. W. DEVCO & Co.

A Wonderful Saving.

The largest Methodist church in Georgia, calculated to use over one hundred gallons of the usual kind of mixed paints in painting their church. They used only 32 gallons of the Longman & Martinez Paint mixed with 24 gallons of linseed oil. Actual cost of paint made was less than \$1.20 per gallon.

Saved over eighty (\$80.00) dollars in paint, and got a big donation besides. Every church will be given a liberal quantity whenever they paint.

Many houses are well painted with four gallons of L. & M. and three gallons of linseed oil mixed therewith.

PRESIDENT MOREHEAD'S REPORT.

Official Statement of the Guilford Battle Ground Company's Affairs: A Concise Record of Wonderful Achievement—Bright Prospects of This Patriotic Organization.

Gentlemen: Your president, with real pleasure, congratulates the company upon its progress and prospects and will endeavor to suggest future achievements within our reach, and that are imperatively demanded at our hands.

For reasons sad and beyond the control of anyone you have had no annual report for some years just past, and this must therefore partake to an extent of a review.

Since, and including the year 1901, we have erected or caused to be erected on our grounds five granite memorials with their bronze tablets, and one exquisite marble monument, two each year, to revolutionary heroes. Some of these are very handsome, and all entirely creditable, costing from \$1,200 to \$2,000 each, about two-thirds of their value because of the great liberality to the grounds of the Messrs. Woodruff, lessees of the wonderful Mt. Airy Granite quarry. Within this time we have bought nearly thirty acres of land immediately adjoining our park, essential to its completion and that many had supposed, but erroneously, were already part and parcel of the grounds. All this with other labors has been effected on a fixed income of not one-half the value of several of these monuments.

You are entitled, gentlemen, to the remuneration and confidence so liberally bestowed upon you by the state and community in which you live and labor, and which sustain you by an annual, but wholly inadequate, contribution to your cause. Upon each receding Fourth of July you have assembled an immense concourse of our fellow citizens of this and other states, given the people excellent historical addresses, published these in neat pamphlet form, and distributed the same widely throughout our school and college and other libraries, and throughout the union. Photographs of the ground have been judiciously as we could distributed. These have excited the admiration and even the astonishment of both individuals and societies of influence throughout the country at large and our efforts commended the warm approval of all.

Because of your labors the general government has voted the grounds \$50,000 for monuments to Generals Nash and Davidson soon to be erected and to the sites for which a deed has been made to North Carolina. The influence of the powerful state of Rhode Island, General Greene's native state, has been thoroughly aroused in behalf of our project and the bill introduced by Senator Aldrich in the present session of Congress giving the grounds \$25,000 for a monument to General Greene. By general consent through the influence of Senator Aldrich and that of many other men, and newspapers of great influence it is confidently believed this will be passed at the present Congress. We are assured those in position and best informed on the subject, and upon whom the passage of the bill will depend, that after the Presidential election now pending is over this bill will be taken up and the fall session and passed. Thus we are creeping up on both "Uncle Joe" and "Uncle Sam."

Annually your acquaintanceship and sympathy with your labors extends abroad, through publication in the center of news. I regret, however, to say that a letter from headquarters informs me that the proposed Southern Edition of Harper's Weekly has been "indefinitely postponed." We regret much, as we had expected to have had an article in it and perhaps some kind words from others on our cause. I wish to urge upon you, gentlemen, and especially upon the City of Greensboro in reference to movements yet to be effected the old tale of the lark and the anxious little cock—if you want your wheat cut, cut yourselves. It is right and just that all communities, ours should bear the brunt of the expenses in the upbuilding of a grand park at the Guilford Battle Ground—located within our own suburbs. Besides, the patriotic and liberality everywhere help those who evince the disposition to help themselves.

Your needs are far beyond our ability to meet them. Your president is advised, even urged, by good men to convey parties of the first men of the land to Washington City, and there entertain them; to fertilize and seed to grass fifty acres of land, and to build a trolley line to the Battle Ground—all of the fixed income of only a few hundred dollars. I am sure on reflection these gentlemen, some of whom prove by their action their interest in the cause will see, however desirable such might prove, their suggestions are utterly impracticable, and that your company is sadly in need of funds. For several years past you have expended in permanent improvements from two to three times your fixed income upon which you could rely with certainty. Yet such is the fact, and you owe not one dollar. Notwithstanding your very flattering outlook, and present progress, it entails too much labor upon the few and too much time in accomplishing the work. It is sincerely hoped that the thinking and liberal men of the city, who always subscribe, will double their subscriptions and that others will try to help us this year. We hope that our military company, bands, and other institutions of like kind will contribute their presence to the extent that it may be practicable.

We will erect a handsome monument to Judge Schenck's memory on the coming Fourth, and are able to pay for it upon delivery, with a very little help. We ought to place iron tablets upon granite posts over the grounds bearing inscriptions upon them that will enable the very many visiting strangers to readily understand and appreciate the battle field; to turf and manure a number of monuments; to place a wire fence around part of the grounds, to mound a number of dead-top oaks that we may lose otherwise, and their loss have forever to regret. On July Fourth last your celebration brought to your town officers in high position in the Southern Railroad, to which railroad we acknowledge obligations for very great kindnesses shown. Your celebration brought into your midst influential citizens of different sections of the union—Mr. Ware, United States commissioner of pensions from Kansas, others from Tennessee, Virginia and Massachusetts. Entering citizens of the city effected last fall a grand reunion of the absent sons and daughters of the Old North State. These were entertained one half their stay at the Battle Ground, giving the same a very broad advertisement and of course interesting all, as the spot does every patriot in the union. You need and you deserve a more liberal contribution now than you have ever heretofore received. The scope of your efforts are broader than heretofore and the promise of handsome returns for expenditures made are indeed first rate and most encouraging.

The Battle Ground committee on subscriptions will wait on the community in due time. It is hoped that our citizens will remember the importance of their mission, and, as everyone knows, its unpleasantness, will give the committee cheerful welcome and a liberal response to their appeals. The expenses of hospitalities to be shown to the convention will not amount to \$200 as I am informed, and need not therefore interfere with subscriptions to the Battle Ground committee. For any amount raised for the Battle Ground Company the community may rest assured you will give it a good account in returns.

In conclusion, gentlemen allow me to express the conviction that the loftiest commission yet entrusted to the hands of mortal man is that of preaching the Gospel of the Prince of Peace. Next to this is your mission of fixing for all time in the hearts and minds of American youths the hopes and aspirations and the principles and the practices of the Revolutionary fathers of 1776. Respectfully submitted,

JOSEPH M. MOREHEAD.

BRAVE HEARTED MISS SMITH.

She is Going to Raise the Money for Greensboro Female College.

Raleigh News and Observer.

Raleigh had as a visitor yesterday one of the bravest hearted young women in the state, a young woman whose life has been thrown into the cause of education.

It is Miss Nannie Lee Smith, of Greensboro, treasurer of the Board of Trustees of Greensboro Female College, who was here. You have heard of Miss Smith, for she is the noble young woman who valiantly took up the fight to hold the Greensboro Female College for North Carolina Methodism when it was about to be sold, and she is the young woman who has not despaired even when it is in ashes, but is going to make it a rebuilding a reality.

She is a petite woman. But you forget it when you look in her eyes—they are they a steadfast blue or determined grey, bless me, I can't tell, but they look like business—and hear her tell of her purpose and learn of her love for Greensboro Female College.

"And how are you getting on, Miss Smith?" I asked her.

"Splendidly," she replied. "Things are going on unusually well and the college is going to be rebuilt."

"What has been accomplished?"

"Oh, we have raised about \$12,000 in pledges that are good, and we are going to raise \$18,000 more for the building fund, as we must have \$30,000 in hand before we begin to build. I expect we will have this by the 1st of May."

"Is \$30,000 all you need?"

"No, we need \$50,000 and with this and the \$15,000 in the walls of the burned building as they stand we will have a \$75,000 modern building, a plant that will be so arranged as to do the best educational work."

"What places have you visited in your canvass for funds?"

"Graham, North Wilkesboro and Newton, all of which gave liberally. I have also visited Roxboro, have just come from there and the contribution from that place was a thousand dollars."

"How did you succeed in Raleigh?"

"I have not canvassed Raleigh yet. I am going back to Greensboro today and will visit Raleigh later. It is certain to do its full share. My purpose here today was to make certain a tentative promise of \$500 made by a gentleman of another place."

"And you feel sure that Greensboro is the place for the college?"

"Certainly I do. It is an ideal place, the location can't be improved on and the college will grow. Why last session without a canvasser in the field we had a hundred girls. We will canvass this year and will go forward."

"When do you expect to open the college?"

"On the fifteenth of September, if everything goes right, and I believe it will go right, for the great heart of Methodism in North Carolina is behind the Greensboro Female College."

And then the train came and took Miss Smith onward towards Greensboro. She is earnest and enthusiastic, and she impresses you. She is going to rebuild the Greensboro Female College.

OUR RALEIGH LETTER.

Correspondence of the PATRIOT.

Gorman News Bureau,
Raleigh, N. C., April 25, 1904.

The A. & N. C. railroad investigation committee will finish up its work during the present week and the formal report will be in the hands of the governor in a few days, and (presumably) will be given to the public through the newspapers by his excellency without delay. Until that is done the people must be content to bide their time by the exercise of whatever degree of patience they can command. No one has any authority or right to say in advance what the findings and recommendations of the committee will be.

But it is safe to predict that an eager public will not be entirely disappointed, and that when printed certain portions of the report will be found to contain some "highly entertaining" literature. However, I have received a tip to the effect that the document as a whole will not be filled quite as full of "sensations" as some evidently have anticipated.

A well informed gentleman who has recently returned from an extended trip through the rural sections of central and eastern North Carolina makes a very interesting statement. Part of it I will quote, because a great deal of similar information has come to my knowledge during the last year or two. Said he:

"There's likely to be something doing in the next legislature on the subject of negro education, especially with reference to the country negro. The farmers have for years been complaining of the present system, which they say is all wrong, and which is more largely responsible than any and everything else for the present and yearly increasing scarcity of farm labor. They declare that the country negro schools as now conducted are depopulating the farms of their normal and natural supply of labor. That thousands of country negroes every year 'graduate' into town loafers and criminals because of the false notions instilled into their minds at these country schools. That unless the tide of emigration from the country to the cities is stemmed very soon the owners of farm lands will be ruined, and the jails, workhouses and penitentiaries, and hell itself, will be overrun with former country negroes."

"Again, they say they are very tired of being taxed for the privilege of stripping their own farms of labor—being required to furnish the weapon actually with which their business is being ruined. They demand a change for the better for the negroes themselves are ultimately ruined also and say that this year they intend to send men from their respective counties to the legislature pledged to do something along that line. And they are very much in earnest. I assure you," concluded my informant.

It is a remarkable fact that it is a very rare occurrence for a negro to return to the farm after having left it for any considerable length of time—no matter how great the inducement held out to him, and however poorly he may be fixed "in town." The farmers say this is accounted for by the determination of that class not to ever again perform "hard work" if they can possibly live without doing so. Not so with the white country boys. Hundreds and thousands of these, who accepted work in cotton mills and some other manufacturing industries when cotton was so low that no money was to be made in growing it, have returned to the farms this spring and are now hard at work. Simply because they can make more money on the farm, as long as cotton will fetch even 10 cents or more—although they hope to get 12 cents or more for this year's crop.

But the farmers who come to Raleigh tell me they have not seen or heard of any of the former negro farmers, or "stopovers" or field hands returning to the farms. And there are plenty of them, too, that ought to do so. There are at least over a thousand able-bodied country-bred negroes in Raleigh today who could very materially better their condition by a return to life on the farm. Yet, not one of them will do so.

President Kilgo, of Trinity College, accompanied by Prof. R. L. Flowers of the college faculty and Mrs. Kilgo, leaves this week for California, where Dr. Kilgo will attend the General Conference of the M. E. church, as fraternal messenger from the Southern church general conference. The debate between Trinity and Randolph-Macon takes place next Friday night, 29th, in Craven Memorial Hall, Durham. Registrar D. W. Newsom will send a copy of the new college catalogue for 1904-05, just out, if you will write him at Durham, requesting same.

It looks like the state ticket, to be named two months hence, will with the exception of the gubernatorial candidate, who cannot succeed himself, read very much like it did four years ago, with the names of two Supreme court judges added. All the executive officers, including Railroad Commissioner Samuel L. Rogers, whose term expires in January next, will all have served just one full term, and it seems to be the general opinion that all will be given a second term. The corporation commission has never had a more efficient and able and useful member of that body than Mr. Rogers. The valuable knowledge and experience acquired by him during his present term makes him more useful and valuable to the state than ever, and it is gratifying to know that he will accept a renomination and continue to serve as one of the corporation commissioners.

The Supreme court of the United States has refused to hear the case of the negro Alfred Daniels and he will be executed, for the murder of the father of Senator Simmons, on Thursday, May 19, at Trenton.

The illness of United States Circuit Judge Simonon, of this circuit, is expected to terminate fatally, and his successor is already being discussed. It is generally believed that former Senator J. C. Pritchard, now one of the justices of the Supreme court of the District of Columbia at Washington, can have the place if he desires it. But his friends think he prefers his present position. The ex-senator has made a great success on the bench and his friends in North Carolina are proud of him. Indeed, Mr. Pritchard has been a success ever since he entered public life, and today he enjoys a reputation and record that far surpasses that of any other Republican ever representing this state at the national capital. And there are many Democrats who, though not agreeing with him in polit-

ical matters hitherto, who realize and appreciate and admire him.

Reminder No. the last: If you don't settle that little poll-tax matter by Saturday night next you are a disfranchised man!

LEWISAM.

JUDGE SIMONON'S ILLNESS.

Physicians Declare the Jurist's Condition to be Hopeless.

Philadelphia, April 21.—Charles H. Simonon, of Charleston, S. C., judge of the United States Circuit court, who is critically ill at the Orthopaedic Hospital, in this city, is suffering with brain trouble. Physicians say there is no chance of his recovery.

Judge Simonon, with Judge Goff, of West Virginia, comprises the Federal circuit bench of the Fourth district, which includes Maryland, West Virginia, North and South Carolina. The court sits in Baltimore in April and November.

MAY LIVE SOME WEEKS.

Philadelphia, April 23.—The condition of Judge Charles H. Simonon, of Charleston, who is ill at the Orthopaedic Hospital here, was unchanged late tonight. It is stated that recovery is impossible, but he may live some weeks.

Butler to Quit Politics.

Washington, April 21.—Hon. Marion Butler, who not such a great while ago represented North Carolina in the United States Senate, has eschewed politics, more especially Populist politics. Mr. Butler had a talk with President Roosevelt today, and on leaving the White House informed the assembled newspaper men that he would not again serve as chairman of the national Populist executive committee, and moreover that he could henceforth be counted out of politics. "It is pretty well established," said The Star this afternoon, that Mr. Butler is not as fully committed to Populism as he was a good many years ago. In his own state, North Carolina, where the Populist bug deposited bacteria a number of years ago, Populism is dead, and the only two parties are the Republican and the Democratic." Mr. Butler has for some time affiliated, in a personal way at least, with the Republicans of that state. He has called at the White House a number of times in the last few months in connection with North Carolina appointments, and has made some recommendations. Personally Mr. Butler is an admirer of President Roosevelt.

Appointment of Non-Resident Illegal.

Chicago, April 20.—In a sweeping opinion as to the eligibility of non-residents to become public officials in this city, Judge Elbridge Haney, in the Superior court today decided against the certification of Charles H. Ball, of New York, who was appointed chief sanitary inspector of this city by the Chicago civil service commission. Instead, Perry L. Hedrick, of Chicago, is ordered to be certified to the office.

In the opinion Judge Haney declared it to be "against the fundamental laws and the common sense common policy of the people of Chicago with its population of over 2,000,000 abundantly able to supply competent help for any office to say that some department or any department should be permitted to go to New York or any other place to get employees to perform services to be paid for by the tax-payers of Chicago."

Ewart Nominated on First Ballot in the Tenth District.

Asheville, April 20.—Ex-Congressman H. G. Ewart was nominated for Congress on the first ballot by the Republicans of the Tenth district at Hendersonville this afternoon. There was considerable applause when Thomas Settle, who has been prominently mentioned as a possible candidate, arose and placed Judge Ewart in nomination. Benbow, of Macon county, was nominated for presidential elector from this district and Thomas Settle was recommended for elector at large. Thomas Settle and Virgil S. Lusk were elected delegates to the national convention and were instructed for Roosevelt.

Ancient Mortuary Chapel.

New York, April 23.—A Times dispatch from London announces the discovery through excavations in behalf of Egyptian explorations, a find of the most ancient shrine yet uncovered at Thebes. The find is a mortuary chapel of the eleventh dynasty, 2,500 B. C. It is in unexpectedly good preservation and doubtless will be valuable to a students' history and art of that dynasty.

Legislature Solidly Democratic.

New Orleans, April 20.—Later returns increase to more than 15,000. Judge Blanchard's majority in this city, out of a vote of less than 20,000. The vote in the country yesterday was light, the total of the whole state being between 40,000 and 50,000, of which Blanchard's majority will be not under 30,000. Every parish was carried by the Democrats and every member of the legislature is Democratic.

Bright Outlook for Gold Mine Near Ashboro.

Ashboro, April 23.—Mr. J. A. Spence, a rising young lawyer of this town, is interested in the development of a gold mine near this place, and in the immediate vicinity of what is known as the Gray mine, which was extensively and profitably worked prior to the war. A vein has been opened southwest of the old mine, and the outlook is exceedingly encouraging.

Gov. Russell Leaves Hospital.

Baltimore, Md., April 21.—Former Gov. Daniel L. Russell, of North Carolina, who has been under treatment at the Johns Hopkins Hospital for several weeks, left that institution tonight for Washington, D. C., where he will spend a few days with friends. He will return to his home in Wilmington, N. C., early next week.

A Cure for Headache.

Any man, woman or child suffering from headache, biliousness or dull, drowsy feeling should take one or two of DeWitt's Little Early Risers night and morning. These famous little pills are famous because they are a tonic as well as a pill. While they cleanse the system they strengthen and rebuild it by their tonic effect upon the liver and bowels. Sold by Howard Gardner.

WHAT WAR COSTS RUSSIA.

Daily Expenses Average \$750,000 and Year's Total \$250,000,000.

St. Petersburg, April 21.—Russia has made a new issue of \$15,000,000 in paper currency against free gold in the state bank. At the ministry of finance it was explained that it was an ordinary issue and in no sense was forced. All sorts of figures of the cost of the war are printed abroad. The correspondent of the Associated Press is authoritatively informed that the daily expenses are averaging \$750,000, and it is estimated that a year's expenditures for the war will total \$250,000,000.

To meet this there existed a free balance of \$50,000,000, which was increased to \$115,000,000 by reductions of the ordinary budgets, leaving ostensibly \$135,000,000 to be found. But a portion of the latter is made up by the increased earnings of the railroad owned by the government. It being in reality a question of bookkeeping, how the balance is to be raised not yet been determined.

No foreign loan has been arranged and none is desired, if it can be avoided, as practically the total of the war expenditures will be raised at home. The ministry of finance believes it may be easy to loan an internal loan late in the summer or fall.

DISASTER DUE TO JAPANESE.

Alexieff's Report on Petropavlovsk Practically Admits Togo's Claim.

St. Petersburg, April 22.—All doubt as to the cause of the destruction of the battleship Petropavlovsk and the damage to the battleship Pobieda at Port Arthur is dissipated by the report submitted by telegraph to the Czar April 21.

In it Viceroy Alexieff stated in a way that leaves the matter no longer an open question that mines were responsible for the disaster. The admission of the presence of Japanese ships off Port Arthur on the night preceding the going out of the Russian ships, which were watched by Admiral Makaroff, tends to establish Vice Admiral Togo's claim that his ships laid mines on which the Russian battleships struck.

The viceroy's report was sent only after a thorough investigation, ordered by the Emperor, had been made. It was published this morning through the war-commission. It explicitly states that "under the starboard side of the Petropavlovsk there was an explosion," and specifically declares that a mine exploded under the Pobieda.

That the Russian ships did not run on their own mines is shown by the failure of the viceroy to mention anything of the kind and by the positive statement of the port admiralty that Admiral Makaroff was familiar with the location of the torpedoes defending the port.

The Russian officials also fail to understand the surprising blunder caused by the mistake of the Russian torpedo-boat destroyers in taking the Japanese torpedo-boats for a Russian flotilla, which resulted in the loss of the Strashni.

THE DISCOVERER OF

SEVEN BARKS

Was, thirty-five years ago, one of Germany's foremost physicians, besides he was a celebrated botanist and chemist. His discoveries were many and invariably successful. Perhaps his most important discovery was that of the great and popular preparation called **Seven Barks**—extracted from the bark of a specially grown Hydrangea plant. This bark grows in seven layers, each division possessing wonderful individual curative values. One acts as a gentle cathartic, another as an alterative, the third as a diuretic, the fourth as an expectorant—while the other three layers produce wonderful, upbuilding tonic elements.

Most All Disease

Emanates from the drainage system (the stomach, bowels, liver and kidneys). When one of these organs becomes clogged or congested the others naturally suffer in sympathy, and it requires a thorough cleansing and the restoration of all of them before each can again fully perform its natural function.

Seven Barks

Contain nature-giving principles that will effect immediate relief and, in good time, a permanent cure of all such disorders. One 50-cent bottle will demonstrate its phenomenal value.

Talk with your druggist about it. He will back up all we claim. If you are ill and cannot spare 50-cents for a bottle, write a postal and we will send you a bottle free.

THE DEMOCRACY.

Saturday, in Washington Post.

For the past six months the conservative elements of the Democratic party have been content to let things drift, and the radical element took advantage of that condition to assert itself. The Hearst people were very active, and it appeared that Mr. Hearst would receive the support of the Bryan forces everywhere. The time came for the conservatives to do something, or go out of the political business. Olney, Parker, Gray, Gorman, McClellan, Cockrell, and others were urged by their respective partisans. There was a loud and pronounced demand for Grover Cleveland. The South was looked over for a candidate, and favorable mention was made of Williams and Bailey and Hoke Smith. All the while the Hearst people were organizing, and the Hearst movement became formidable, not for its strength so much as for its activity, that was in such marked contrast to the universal apathy in the ranks of the conservatives.

Now it was that a change came over the situation. The Hearst movement forced a concentration on the part of its adversaries. It might have been any one of all those spoken of—Gorman or Olney or Gray or McClellan, or even Cleveland—it was bound to be somebody, and Judge Parker appears to have drawn the prize. If the Democratic party were half as well disciplined as the Republicans, the thing would be settled. It is not that the party is greatly in love with Parker so much as it is a declaration that the party will not have Hearst.

Mr. Cleveland has made a statement that is equivalent to a declaration in favor of Judge Parker for the Democratic nomination. It is amusing to read the reception certain of our statesmen gave this interview. Some people talk too much. This world of ours is much given to bigotry. Grover Cleveland is the most distinguished Democrat now living. In his time he has suffered office on more Democrats than all the other Democratic Presidents from Jefferson to Buchanan, both inclusive, and including also Andy Johnson. The eight years he was President the South was a full sister in the national household. There never was a moment of doubt as to this man's principles. He was known of all men as opposed to silver inflation before he was nominated in 1892, and it was known of all men that he would sustain the public credit and maintain the party before gold, silver and paper currency at all hazards and at whatever cost.

He believed with all the intensity and persistence of a strong character in certain principles that had been Democratic for more than 100 years—home rule, sound money, taxation for public purposes, frugality and honesty in public expenditures, and a safe rather than a splendid government. To conserve these he knew of but one way—obedience to the laws, and their rigid and impartial enforcement. It was absurd to suppose that such a man should be subject to an amalgamation of the Democratic and Populist parties. It was impossible that Grover Cleveland should have a political thought in common with a blatant demagogue like William A. Allen, or a dangerous Southernizer like Eugene Debs. He had no room for aversion for the repulsive combination, and nothing but scorn for the shameless adultery of 1896. He would not be a party to it, refused to be a party to it, refused to be a party to it. He does not realize that a Democrat is not most likely a Southern man, and that the President of the United States should have prevailed the period of 1892.

Now we have it laid down that a man, who conferred office on more than 100,000 Democrats, is not to be asked even to offer advice to the party he twice led to victory and whose principles he believed a dollar was worth. He believed a dollar was worth, and he refused to support the Democratic States. They do him dishonor. They would visit upon the vicious punishment and the Republican bigotry meted out to Jefferson Davis.

It is, however, the remark that David Higginbotham Smith made in the Cleveland interview is not only timely, but eminently correct. "It will not," says the Hon. Mr. Smith, "have a tendency to strengthen the party in Kentucky. Mr. Cleveland is not in very high favor with the Kentucky Democrats."

And he is not! And as I am myself a Kentuckian, I will tell you the reason. Kentucky is powerless in the grasp of Goebelism. There is all the

difference between Clevelandism and Goebelism as there is between despotism and liberty, or between right and wrong. Goebelism is bossdom in its most virulent form and contemptuous of the rights of the people. It took from the people the right to hold their own elections. It put fraud in the ballot box and politics in the jury box. It masqueraded in the ermine and made partisan judgments from the bench. It reversed the election of the people and made the public records a notorious lie. It packed the box of the legislature which contained the names from which were drawn the committee of contest, and then, without shame and with a chuckle of triumph, it destroyed that evidence of its own infamy.

I think Mr. Smith is superlatively right—Clevelandism is not popular where Goebelism prevails. Clevelandism is Democracy. Goebelism is oligarchy.

The writer of this has not been in favor of Judge Parker's nomination, but is willing to acquiesce in it if it be the party will. Do these folks who resent the declaration of Mr. Cleveland for Judge Parker understand what a poor compliment they pay their constituents? What a whimsical lot it is. "If this man Cleveland is to play, then we will go home." Of course, if Jerry Simpson, or any other demagogue of that ilk, had declared for Parker he would have been hailed a Daniel; but Grover Cleveland is to be barred from the Democratic altar by men reeking with the agrarianism, the heresy, and the damnable foolery of all sorts of paternalism and un-Democracy, as it is illustrated in the "principles" of Debs and that governor of Oregon who cut such capers and shines, and that governor of Colorado, who talked of riding in blood up to his bridle bits.

Parker! If the next President is a Democrat, his election will be compassed by the men who twice elected William McKinley, and who think as Grover Cleveland thinks on political questions. As it now appears, either Parker or Hearst will be the Democratic nominee. What do those gentlemen who assume that Grover Cleveland has no right to free speech expect to gain by abuse of him? He is no more guilty of party treason than the million of other Democrats who voted for, and elected, McKinley. Even Mr. Bryan has forgiven some of these—notably Mr. Clark, of Ohio, whom Bryan laid hands on last fall and pronounced cleansed. Why should Clark be given a nomination for United States Senator, and Mr. Cleveland not allowed to tell his sentiments to a newspaper?

Pymies will be pymies, Though perched on Alps.

A REMEDY FOR PNEUMONIA.

New Jersey Health Board Publishes What is Called a Sure Cure.

Morristown, N. J., April 20.—Owing to the prevalence of pneumonia and the great mortality it has caused this spring the health board of Little Washington has published a remedy which is said to be a cure for pneumonia. The formula is as follows:

"Take six to ten onions, according to size, and chop finer; put in a large spider over a hot fire, then add about the same quantity of rye meal and vinegar enough to form a thick paste. In the meantime stir thoroughly, letting the mixture simmer five or ten minutes. Then put into a cotton bag large enough to cover the lungs and apply to the chest as hot as the patient can bear it. In about ten minutes apply another and thus continue by repeating the poultices, and in a few hours the patient will be out of danger."

"Usually three or four applications will be enough, but continue always until the perspiration starts freely from the chest. The remedy was formulated many years ago by one of the best physicians of New England."

PREACHED TO 165,000.

Former Baseball Star Chasing the Devil Into the Mississippi.

Chicago Special.

"Billy" Sunday, the chum of "King" Kelly, "Silver" Flint, "Ed" Williamson and "Tom" Burns, 18 years ago, on the Chicago champion ball team, is now, at 41 years of age, "chasing the devil into the Mississippi river."

He has closed his great work at Sterling, Ill., where 165,000 persons attended his meetings in 40 days and half as many more heard him by telephone. Whole towns and communities were converted by him.

After one sermon on "Amusements" the effect of his work was quickly seen. The next day it was announced that 14 whist clubs had been abandoned, that two dancing classes had been broken up, that one merchant had bought his partner's share in a stock of 250 decks of playing cards that he might carry them out into the street and burn them, that card tables were smashed and burned at scores of homes in this city and that in Rock Falls plans made for several dances by the wealthiest people had been abandoned.

The disruption of the whist clubs began on the night the sermon was preached. At the close of the sermon Miss Clara Cochran, president of the Young Women's Club, the most beautiful and most popular young woman in Sterling, publicly announced that she would never again play a game of cards. The members of every other card club in the city made a similar announcement next day and now there is not left a single club in the city.

Every woman's club is abandoned. The business houses have been closed in the evening. The crowds have disappeared from the streets and saloons are deserted.

Mr. Sunday is a medium-sized but powerful man. His height of 5 feet 5 inches and his sturdy frame holds out promise of unusual activity or unusual endurance. When he preaches he works.

He has a voice like the thunder. His eyes flash lightning. His arms beat the air incessantly. His feet carry him continually from side to side of the platform as the words roll out in never-ending denunciation of wickedness and a never-ending appeal for righteousness.

With his voice he could preach to 30,000 as well as 5,000. Though a choir of 200 voices may stand singing on the platform, yet his voice rings clear above the combined voices of the choir.

The Democrats of Alamance county will present the name of Mr. Robert L. Holt to the congressional convention of the Fifth district as a delegate to the St. Louis convention.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root, the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp Root, and the address Binghamton, N. Y., on every bottle.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Bryan Attacks Judge Parker.

Chicago, April 25.—Judge Parker, as a Presidential candidate, was held up to the ridicule and scorn of the Democrats of the nation by William J. Bryan from a Chicago platform Saturday. At the same time the twice defeated Nebraskan explicitly disclaimed that he was for Hearst or any other candidate now in the field, asserting that his position is one of absolute neutrality except when such neutrality will interfere with the party zeal or the common good. Judge Parker, he pointed out, as one upon whose candidacy he could not afford to be neutral. With invective and sarcasm the New York platform, which Mr. Bryan declared was practically the handiwork of Judge Parker, was analyzed plank by plank, and contemptuously tossed aside as absolutely colorless and without a spine. "He on guard against a surrender to Wall street," a capitulation to money interests of the country," was the burden of the speech. Such surrender, he asserted, was contemplated by those back of Parker's candidacy, and he sought to prove his charge by stamping the New York platform as "ambiguous, uncertain, evasive and dishonest."

Golden Key to Set the World's Fair in Motion.

Washington, April 25.—At 1 o'clock (eastern time) on the afternoon of April 25, the President of the United States will press the key of the Morse telegraph instrument in the east room at the White House and through direct wire connection which will have been arranged by the Postal Telegraph Company will convey instantaneously to the great central switchboard on the World's Fair grounds, the electric energy which will release the 40,000 horse power required to operate the cascades, the great engines in the machinery hall and other mechanism of the great exposition.

A national salute of twenty-one guns will be fired on the monument grounds, just south of the White House, immediately following the official opening of the exposition. The Marine Band will be in attendance at the White House during the ceremonies. The telegraph company will furnish a golden telegraph key for the President's use.

Paschal-Long.

Muir's Chapel was the scene of a beautiful wedding which was solemnized at that place on the evening of April 13th at 8.30 o'clock, the contracting parties being Mr. James A. Paschal and Miss Diele Long. Mr. Paschal is one of the worthy and faithful employees of Pomona Terra Cotta Company, with which company he has been for some time, and his many friends wish him great success in his business and congratulate him on winning such an esteemed and charming bride. She is the daughter of Mr. and Mrs. C. L. Long, of Greensboro. The popularity of the young couple was manifested by the large assembly who came to witness the ceremony and by the deep interest which prompted their friends to decorate the church with evergreens and arches, all of which were brilliantly illuminated. The ceremony was performed by Rev. A. G. Kirkman, the contracting parties standing under the beautiful bell which was made by Mrs. Mollie Edwards. The groom was attended by Mr. T. Harvey, who acted as best man. Miss Mary Long, sister of the bride, was maid of honor. The attendants were Miss Daisy Dean with Mr. Sylvester Edwards, Miss Rosa Case with Mr. L. W. Jackson, Miss Lillie Dean with Mr. J. C. Hockett. After the ceremony had been performed the bridal party repaired to the home of Mrs. W. J. Edmondson, where a sumptuous repast was served by that worthy lady, assisted by Mesdames Mollie Edwards, Gertrude Smith and others. May the choicest blessings ever attend this happy young couple in the earnest wish of a host of friends and admirers. N.

Archer-Everett.

A beautiful home wedding took place at the residence of the bride's parents Mr. and Mrs. J. J. Everett, at Sealeville, on April 20th, the contracting parties being Mr. Charles T. Archer, of Greensboro, and Miss Maud Everett, of Sealeville. The bride is a very winsome and pretty young woman and has a host of friends who regret that she has chosen to leave their midst but rejoice to see her happiness increased by joining her lot with the one whom she loves best. Mr. Archer is a son of the late Dr. Wm. Archer, of Hillsdale, and is the popular rural mail carrier between Greensboro and Hillsdale. Miss Lee Delapp, of Hillsdale, was maid of honor and Mr. J. E. Sockwell, of Greensboro, acted as best man. The attendants were Miss Lola Everett with Mr. Wm. Clayton, Miss Susie Clayton with Mr. Oscar Weatherly, Miss Lula Miles with Mr. R. V. Harris. After the ceremony, which was performed by Rev. A. G. Kirkman, an elaborate supper was served which was enjoyed by the fifty friends who were present. The guests were entertained until about 10 o'clock, when they left the happy pair wishing for them joy always and that their sunshine of happiness should have but few clouds to overshadow its brightness. Good for Children.

The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and LaGrippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissue. One Minute Cough Cure is pleasant to take and it is good alike for young and old. Sold by Howard Gardner.

Mr. W. N. Irwin, of Warren, Indiana, one of the reunion visitors last fall whom it was our good pleasure to meet, writes us that the ex-North Carolinian Society of Indiana, of which he is secretary, will hold a reunion at Warren July 4th which promises to be a success. The society is making extensive preparations for the annual homecoming next October and will undoubtedly add largely to the interest of the gathering. Mr. Warren states that the winter has been severe in Indiana, even the hardy grain crops suffering from the continued cold. The ground there was frozen nearly every morning last week, and but little plowing for corn has yet been possible owing to the cold and wet weather.

In the Superior court last week the case of Phlegar vs. Mendenhall resulted in a mistrial, owing to the failure of the jury to agree on one of the issues involved, while virtually agreeing to sustain the contention of Mendenhall. S. C. Dodson was awarded \$500 for damages sustained at the hands of the city of Greensboro because of an overflow of water from East Market street. He sued for \$1,500. The city appeals.

T. W. WOOD & SONS Are Headquarters For Cow Peas and Soja Beans

Cow Peas make a large yielding and most nutritious hay crop even on poor or medium land, and the roots and stubble plowed under improves both the condition and productivity of the soil leaving it in much better condition than before the crop was grown.

Mammoth Yellow Soja Beans unquestionably make the richest and most nutritious feed crop grown on the farm. Equally valuable grown either as a hay crop or for the beans. Better than linseed or cotton seed meal for fattening stock.

For information about these valuable crops, write for a free copy of Wood's Seed Book for 1904. Write for it and Special Price List of Seasonable Seeds.

LAND SALE.

By virtue of an order of the Superior court of Guilford county, I will offer for sale, to the highest bidder, at the late residence of Mrs. Margaret P. Summers, in the village of Whitsett, Guilford county, N. C., on

Saturday, May 21st, 1904.

a house and lot, in said village, where Mrs. Summers resided at the time of her death, and also a tract of land situated near the said village of Whitsett containing about one hundred and sixty acres (100), and being a part of what was known as her home tract. The house is a new one, situated near the Whitsett school, and is a very desirable home. The tract of land has upon it a large body of fine oak timber, and the land is in a good state of cultivation and very productive. This property is very desirable on account of its location near a good school and in a splendid neighborhood.

Terms: One-third cash; balance due in six months with interest from day of sale; and the sale subject to the confirmation of the court. The title is good.

April 18, 1904.

GILBERT M. HOLT, Commissioner.

MORTGAGE SALE.

Pursuant to the power vested in the mortgagee by virtue of a certain mortgage deed executed by the Prigley Sons' Lodge, No. 1299 of the Grand United Order of Odd Fellows, a corporation, by authority given by the lodge at a regular meeting held May 18, 1894, to Sammie C. Weatherly on the 21st day of May, 1894, duly recorded in the office of the Register of Deeds of Guilford county, state of North Carolina, in book 186, page 168, the undersigned will expose for sale at public auction at the court house door in the city of Greensboro, N. C., on

Monday, May 23rd, 1904.

at 12 o'clock noon, a certain tract or parcel of land lying and being in the county of Guilford, state of North Carolina, city of Greensboro, Gilmer township, adjoining the lands of the Richmond and Danville Railroad Company and others, and bounded as follows: Beginning at a stone on Percy street at the corner of Percy and East Market streets and on the north side of East Market street and thence west along East Market street 66 feet to the property of the Richmond and Danville Railroad Company, thence north, with said railroad line 125, 200 feet to the lot bought by James W. Dick from Mendenhall, thence east 66 feet to Percy street, thence south along Percy street to the beginning.

Terms of sale cash.

This the 18th day of April, 1904.

NANNIE C. WEATHERLY, Mortgagee.

The Biggs Treatment

It Stands for
Health and Strength

The Biggs method of curing disease which has attracted so much attention because of its success in the cure of chronic cases that were generally considered to be incurable is a system in which Swedish Movement, Physical Culture, Scientific Massage and the best features of Osteopathy are ingeniously combined. In addition to this special treatment, Dr. Biggs employs as auxiliaries every other natural agency that will assist in the cure of his patients. He has made a thorough study of the various German nature cures and applies them in modified form in the treatment of certain diseases. Thermotherapy, or the Dry Hot Air Bath, is employed in connection with other treatment in the cure of obesity, rheumatism, sciatica and affections of the spine. Vibrational treatments are administered by mechanical appliances which produce from 5,000 to 7,000 vibrations per minute. This form of treatment is especially beneficial in diseases of the nervous system (such as neuritis, exhaustion, paralysis, neuralgia, etc.), muscular atrophy, goiter and chronic constipation. The individual cases of each patient are carefully considered and every effort is made to effect a complete cure in the shortest possible time.

Patients come to Greensboro from all parts of North Carolina and from other states to get the benefit of the Biggs Treatment. Of the hundreds of people afflicted with chronic ailments who have been restored to health by this method, many had been given up by other doctors before they came here for treatment. Women, after being assured that nothing but an operation would cure them, have been successfully treated without resorting to the knife.

The following statements made by well-known people furnish convincing evidence of the wonderful success of the Biggs Treatment:

RHEUMATISM.

I suffered from rheumatism for a long time, but couldn't find anything or anybody that could cure it. I finally decided to give Dr. Biggs' new method a trial. I commenced to improve at once, and after the second treatment I was able to place one leg over the other, that is "cross my legs," something I had not been able to do for three years. I took a few weeks' treatment and am now entirely relieved of rheumatism and my health is the best it has been for fifteen years.

WILSON KENDLEY,
Greensboro, N. C.

NERVOUSNESS.

Mrs. M. S. Jeffreys, 429 W. Bragg street, Greensboro, under date of September 10, 1901, writes as follows: "For twelve years I suffered with a severe form of stomach trouble and extreme nervousness. I was treated by the best physicians of this city and other places with no benefit. After taking a course of treatment under Dr. Biggs, my stomach is well, and I do not suffer from nervousness. I take great pleasure in recommending his system of treatment to all."

CATARRH OF STOMACH.

For several years I was afflicted with a severe form of stomach trouble, suffering excruciating pain. The attacks gradually became so frequent and violent that life seemed worth nothing to me. Finding no relief from medicine, I decided to try Dr. Biggs, the non-medical physician. He pronounced my malady a catarrh of the stomach. I began taking treatment from him about the last of May and continued till about the second of August and during that time I was up to the present, I have not taken a single dose of medicine nor have I had one of those terrible attacks. I feel as if I am in the best of health. I am sure that I am not the only one who has been similarly afflicted, to state these facts to the world.

Mrs. E. J. LYNCH,
Washington street, Greensboro,
January 2, 1901.

CONSUMPTION.

Three years I was afflicted with a severe cough, and was so weak that I could do any work. In November, my cough became much worse, and I was compelled to remain in bed for several months. I had hemorrhages frequently and chills and fever every day. I had no appetite, and my feet and limbs were swollen. All the best doctors in Winston-Salem said that I was in the last stages of consumption and would never be cured. I heard of Dr. Biggs' success in curing consumption and went to him immediately. After two or three days I commenced to improve, and in a little while I was able to eat a hearty meal. He soon cured the fever and chills entirely, and I gained strength every day. When I commenced treatment I could not go any distance at all, but after ten or twelve weeks I was able to walk miles without being fatigued. I felt like a different woman. Because of what Dr. Biggs has done for me, I advise every one who has consumed to place themselves under his treatment.

Mrs. J. F. MILLER,
Winston-Salem, N. C.

Dr. Biggs has written a book in which he explains the philosophy of his method of treatment. He will send a copy of this valuable little treatise free to every reader of the Greensboro News who will write for it. Please send all letters to

THE FIFTY-EIGHTH CONGRESS.

Important Accomplishments Confined to Cuban Reciprocity and the Panama Canal Legislation.

Washington, April 24.—The important legislative accomplishments of the first and second sessions of the 58th Congress, were confined to the Cuban reciprocity treaty and the ratification of a treaty by the Senate and the subsequent initiation of legislation which committed the United States to the construction of the Panama canal, connecting the waters of the Atlantic and Pacific oceans. The special sessions were called for the express purpose of carrying out the pledge of the nation to Cuba. The Panama development was one which arose suddenly and received decisive and immediate action at the hands of President Roosevelt and the Senate. The conservatism incident to the approaching Presidential campaign as usual was manifested by those responsible for the acts of the national legislative body. The annual supply bills were made up with an eye to economy. Incidentally, they were passed with greater dispatch than heretofore has been the case at a long session.

The Senate ratified the treaty negotiated with Cuba to carry out the terms of the Platt amendment. It also ratified the Chinese commercial treaty, which provides for two open ports in Manchuria.

Chairman Hemenway, of the House committee on appropriations, in a statement compiled under his direction, gives the total of all supply bills (subject to slight change in pending bills), as \$37,902,393, to which must be added \$81,971,820 for interest on the public debt. The estimated revenues are \$704,472,000. No river and harbor bill, making provision for new projects of improvement in the rivers and harbors of the country, was undertaken. Likewise, no omnibus measure carrying provision for new public buildings, was allowed to pass.

While a total of over 1,400 bills became laws during the two sessions, less than 150 of them were "public" bills, and of this latter number one-half simply authorized the bridging of rivers and such like. Several amendments have been made to facilitate the administration of the public land laws. A step in the direction of "world peace" has been taken through the formation of an American group affiliated with the inter-parliamentary union for international arbitration, and the official recognition of this "group" by the passage of a joint resolution extending an invitation to the union to hold its next annual meeting at St. Louis, and appropriating \$50,000 for expenses. A joint resolution was enacted providing for the transportation aboard a government vessel of not exceeding 600 of the public school teachers of Porto Rico to the United States during the coming summer. Provision was made for the extension of the coastwise shipping laws of the United States to the Philippine Islands after July 1, 1906.

It was made a crime to "crim" seamen of the United States, by soliciting them as lodgers or charging a fee for shipping them.

The only general pension legislation which became a law makes the pension of those who totally lost their sight in the military or naval service \$100 per month.

There was agitation for a service pension bill, but it stopped when the executive issued a general order making age an evidence of physical disability to perform manual labor. The Louisiana Purchase Exposition Company received a loan of \$4,000,000 from the government, of which \$100,000 is to pay the expenses of a board of lady managers. An act was passed to protect foreign exhibitors at the exposition in their copyright and patent rights.

The government is to participate in the exposition to be held at Portland, Ore., in 1905, for the commemoration of the one hundredth anniversary of the exploration of the Oregon country, to the extent of an exhibit to cost \$50,000, and an Alaskan exhibit to cost \$25,000. The only direct dealings which the Congress had with the "postal scandals" was the investigation by the House of the connection of its members with clerk hire, increases in third and fourth-class postoffices and representations regarding leases. This investigation cleared every member from any improper conduct in the matter. The House, by independent action, directed an investigation of the alleged "beef trust" by the Department of Commerce and Labor.

The extension of the east front of the capitol building was provided for in the sundry civil appropriation bill, and provision was made for an office building for senators. These buildings are to cost in the neighborhood of \$5,000,000 each. Impeachment proceedings were begun in the House against Federal Judge Charles Swayne, of the northern district of Florida, but after a majority report from the committee favoring impeachment, the matter was sent back to committee and made a special order for the next session.

The creation of two additional states in the Union was provided for in a bill which passed the House, but not the Senate. Oklahoma and the Indian Territory were united as Oklahoma, Arizona and New Mexico as Arizona.

Legislation directly affecting the labor interests of the country received consideration by both Houses, but final action was not taken.

In the Senate the confirmation of Gen. Leonard Wood as major general was accomplished, after much inquiry and objection.

The right of Senator Reed Smoot, of Utah, to his seat in the Senate resulted in an investigation still in progress, involving Mormon religion and practices.

Senator Hanna and seven members of the House have died, namely, Representatives T. H. Tongue, of Oregon; Vincent Boering, of Kentucky; Fordner, of Pennsylvania; W. W. Skiles, of Ohio; G. W. Croft, of South Carolina, and C. W. Thompson, of Alabama. T. H. Ball, of Texas, resigned. His place is filled by J. M. Pinckney. George B. McClellan, of New York, resigned, and was succeeded by W. Bourke Cockran. Charles Dick, of Ohio, resigned to succeed Senator Hanna in the Senate. George Howell, of Pennsylvania, was unseated, in favor of William Connell, and J. F. Shafer, of Colorado, resigned in favor of R. W. Bonying, who contested his election.

In the House there were 15,398 bills, 349 resolutions, 152 joint resolutions, and 61 concurrent resolutions introduced. Of these 2,253 passed the House. In the Senate 5,143 bills were introduced.

LEXINGTON HAS A \$90,000 FIRE.

Dixie Furniture Company, Electric Light Company and Four Dwellings. Go Up in Smoke.

Lexington, April 24.—A fire, which originated in the dry kiln or engine room of the Dixie Furniture Company's factory, destroyed that plant, the electric light plant, four dwelling houses and two cars belonging to the Southern Railway Company tonight. The loss is estimated at \$90,000.

At Spencer tonight passengers on train No. 12 got word that Lexington was on fire, and the news passed quickly through the cars. At Linwood the conductor received a message to approach Lexington carefully, as the track was blocked by fire. Soon after leaving Linwood the glare of the flames against the sky could be plainly seen, and passengers crowded to the windows to get a view. Fortunately for the railroad, the track was clear and the train lost no time. There was nothing better than a water-bucket to fight the fire with.

The fire originated in the engine room or dry kiln of the Dixie Furniture Company, which plant was totally destroyed, with about all the valuable lumber on the yard. Close by was the electric light plant, which soon went up in smoke, with four dwelling houses near by, and two cars of the Southern Railway. With nothing to combat the flames, they burned everything in reach. Fortunately for the town the wind was favorable. The Lexington Grocery Company's building caught on fire, but was put out. The losses are: Dixie Furniture Company, \$75,000; insurance \$30,000; electric light plant, \$8,000; insurance not known. Holt Walker, Frank Clodfelter, Frank Osborne and James Adderton each lost a dwelling, worth, all told, about \$3,000. Their household effects were saved. The town is in total darkness.

County Boards Cannot Pay Teachers' Summer School Tuition.

A number of the summer schools in the state have been for some weeks inducing the boards of education in the various counties to pass orders proposing to pay the tuition of the teachers in their respective counties to attend some certain one of the principal summer schools in the state, and the matter has been brought to the attention of the superintendent of public instruction, with the result that after consultation with the attorney general he issues a circular letter to the county boards to the effect that there is no warrant of law for county boards to take any such action unless such summer school is held in the county making the appropriation or in one contiguous thereto.

Here is the letter in full, in which the state superintendent makes the ruling:

"I regret that after consultation with the attorney general I am compelled to say to you that, in my opinion, there is no warrant of law under section 25 for appropriating money for an institute or summer school unless such institute or summer school is held in the county or is held by agreement between two or more adjoining and contiguous counties for those adjoining and contiguous counties at some convenient and satisfactory point in one of said counties. I am satisfied that it would be very helpful to your teachers to attend a good summer school like that at the University and the A. and M. College and other places in the state where they would have the benefit of instruction by strong faculties and the benefit of association with a large number of teachers from all parts of the state, and I regret to be compelled to seem to throw any obstacle of any sort in the way of ambitious teachers who are seeking larger opportunities for improvement and who ought to be encouraged in every effort to avail themselves of such opportunities. But it is my duty to obey the law, and I do not believe that the law, under any reasonable construction, will permit the appropriation by the county board of education of any county of funds for paying the tuition or expenses of teachers at a summer school in a distant county not adjoining or contiguous."

EXAMINERS OF COLORED NORMALS.

Will Hold Three Weeks Summer School at the A. & M., Greensboro.

At a meeting of the board of examiners of the State Colored Normal and Industrial Schools held in the office of the state superintendent of public instruction Saturday morning, it was decided to hold a summer school for three weeks at the colored A. & M. College at Greensboro for the members of the faculties of the four schools, all teachers in these institutions being required to attend. The schools, it will be remembered, are at Winston-Salem, Franklinton, Fayetteville and Elizabeth City.

The board decided to hold an examination of all these teachers at the close of the summer school and it is understood that any teacher who fails to pass a creditable examination will be dropped from the faculties.

The board of examiners is composed of State Superintendent of Public Instruction J. Y. Joyner, Prof. J. I. Foust, of Greensboro; Prof. F. L. Stevens, of Raleigh and Prof. M. C. S. Noble, of the State University.

Are You a Dyspeptic?

If you are a dyspeptic you owe it to yourself and your friends to get well. Dyspepsia annoys the dyspeptic's friends because his disease sours his disposition as well as his stomach. Kodol Dyspepsia Cure will not only cure dyspepsia, indigestion and sour stomach, but this palatable, reconstructive tonic digester strengthens the whole digestive apparatus, and sweetens the life as well as the stomach. When you take Kodol Dyspepsia Cure the food you eat is enjoyed. It is digested, assimilated and its nutrient properties appropriated by the blood and tissue. Health is the result. Sold by Howard Gardner.

The number of rural free delivery mail routes has now passed the five hundred mark in North Carolina, and the indications are that there will be a considerable increase by the first of June.

Then the sea captains, watching the beacons of the false lights, would drive their boats upon the rocks and be wrecked. The pirates would then drown the bodies as they would float upon the shore, and gather together the wrecked cargoes. They were murderers — murderers who

The store of W. A. Wilson, on East Washington street, was robbed of several dollars' worth of goods Monday night.

Mrs. S. F. Coe went to Liberty Sunday to see her aged mother, Mrs. Abraham Haley, who was critically ill at the time.

Mr. John E. Sharpe, of Greensboro, and Miss Laura Davis, of Churchland, were married today at the home of the bride.

Farm conditions were improved yesterday by a fairly good rain. For a week or more it had been too dry for general farm work.

Winston-Salem has organized an aggressive Glenn campaign club and will promote the candidacy of the valiant son for governor.

High Point is sorely troubled with black thieves. A reward of fifty dollars has been offered for evidence that will convict the gang.

Rev. J. Willie Smith went to Kernersville last week to see the wife of a kinsman, Rev. J. H. Totten, who was critically ill with paralysis.

Miss Minnie Brigham, who has been at the Rescue Home about two months, died Monday night. Her remains were sent to South Carolina for interment.

John Shaw, a carpenter employed at the White Oak mills, fell a distance of twenty feet while placing a cross-beam last Wednesday and sustained painful injuries.

Mr. Percis Tilley, of Durham, who was in Guilford on a visit to his sister, Mrs. W. R. Lambeth, was among our callers last week. He returned home Thursday.

Mrs. Spencer Blackburn has returned from Wikesboro to her home on Summit avenue, the climate of the state of North Carolina being too severe for her health, which is delicate at present.

Mrs. J. A. Isely, of Burlington, who had been here for a week or more visiting her sister, Mrs. L. M. Clymer, returned home Thursday. Mrs. Clymer, who has been quite ill, is much better.

Salisbury Sun, 23rd: Mrs. W. H. Worth, who has conducted a boarding house at Spencer, leaves next week for Greensboro, where she has leased a building which will be known as "The North House."

The colored base ball championship of the state rests in Greensboro, a team from Raleigh making an ineffectual attempt to wrest the honor from the Greensboro team in a series of games played here last week.

The body of a colored infant was found in a field near the eastern city limits last week. A thorough investigation failed to reveal the identity of the person responsible for the inhuman disposal of the child's remains.

The Winston Journal says the farm-ers along a certain road in Forsyth are hauling, without pay, rock for road work faster than a force of forty convicts can handle it. There is nothing of the kind to report in Guilford.

Jesse Patron, a colored man employed about the premises of Solicitor Brooks, was arrested yesterday for theft. A coat belonging to Mr. Brooks, and considerable other stolen wearing apparel, was found in his possession.

Webster's Weekly: Mr. G. T. Gossett spent several days on his Guilford county plantation last week. He thinks Guilford is one of the coming counties of the state and that she will hum when her macadam roads are completed.

Mr. John F. Jarrell, whose illness was mentioned last week, died Saturday night at the age of seventy-five years. He was among the last of the old time carpenters and builders of the city and was a good citizen. His wife, who survives, is critically ill.

William Henry, a Chatham county negro, stole a purse containing about two dollars and a half from Frank McLean, another of his race, the other day, and was arrested yesterday for the theft. He had the purse concealed in his underclothing when arrested, but the money was gone.

Mr. A. H. Beard, of Kernersville, who had been quite ill for some time, died Friday night at the age of 78 years. He was the father of Capt. C. H. Beard, a Southern Railway conductor who made his home in Greensboro for several years but is now on the Winston-Mt. Airy run.

Mr. Ernest King, of Pleasant Garden, whose critical illness was mentioned in these columns last week, died Wednesday, the sixth of eight children to die within a period of two years. He had been married but a month previous to his death, thus adding another element of sadness to his untimely demise.

Mrs. Laura M. Sanders died Monday night at the home of her daughter, Mrs. G. R. Rastall, at 435 West Gaston street, and the remains were shipped on the noon train Tuesday to Newark, N. J., for interment. Pneumonia caused her death. Mrs. Sanders was 63 years of age and had been living here with her daughter for several months.

Squire Collins and Squire Lyon heard the evidence yesterday in a seduction case from northwestern Guilford that attracted a large crowd from that section. The plaintiff was Annie Howlett, a young lady who has made her home for several years with a family named Pegram. The defendant, John Wray, was bound over to court in the sum of \$100.

Mr. C. S. Cude is preparing to move to Alamance county the latter part of the week, where he will manage a large farm and saw mill located five miles east of Liberty for a company composed of Messrs. A. W. Vickery, of this city, A. E. Lewis, of Liberty, and himself. They have a fine timber tract there which they can readily turn into cold cash.

Sparks from a passing railroad engine set fire to some pine woodland belonging to Mr. W. N. Kirkman, living a mile and a half west of Pomona, one day last week, and before the flames were extinguished over fifty acres of good timber were burned over. It was with difficulty that his house and barn were saved, as the fire came within a few feet of the buildings.

This advertisement will appear only one time because there are not enough of the shoes to go round and one ad. will clear them all out. We have 25 pairs of men's \$1.50 plain toe shoes (no cap) to close out at one dollar a pair. They are good solid shoes, but slow sellers, and there is no room in this store for slow sellers of any kind.

THACKER & BROCKMANN.

The Retail Grocers' Association has petitioned the board of aldermen to pass an ordinance requiring all merchants who offer green trading stamps to pay a license tax of \$50 annually. The matter was presented to the board Friday evening by Mr. J. M. Rankin, president of the grocers' organization, and was referred to a special committee, of which the city attorney is a member, for a report at the next meeting.

John Mabe adopted strenuous methods Saturday night to induce his wife to return to her home, which she had left because of ill treatment. Mrs. Mabe had taken refuge at the home of her son, and John went there Saturday night for his spouse. Finding the door locked against him he proceeded to shoot a few holes through it, and finding that ineffectual finally kicked it down and scattered the inmates of the house by brandishing a huge knife. The police were notified and they soon put an end to the infuriated husband's demonstrations. Before the case was heard in mayor's court Monday Mabe and his wife had adjusted their differences, Mabe going so far as to give his wife two dollars, so the charge of disorderly conduct was dropped, but he was put under a bond of fifty dollars for carrying concealed weapons. So far there has been no mad rush to get on John's bond.

A Thoughtful Man.

M. M. Austin, of Winchester, Ind. knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at all druggists.

Notice.

Having decided to go into another line of work, I will no longer give my personal attention to the business of the Southside Hardware Company. I still retain my stock with the company, and will appreciate it if my old customers and friends will continue to give the Southside Hardware Company their trade, and assure them that they will continue to receive the same careful attention as in the past.

I wish to extend to one and all my thanks for your patronage, and assure you that I appreciate it.

Yours truly,

A large hanging lamp fell from the ceiling in W. T. Pike & Sons' grocery store, out Asheville street, Saturday evening about 8 o'clock and set fire to the place. Persons in the store at the time scarcely had time to gather up the books and make their escape before the room was filled with flames. The fire department readily extinguished the blaze, but not until the stock had been almost totally ruined. The loss is covered by insurance.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by holding up the constitution and assisting nature in doing its work.
