Mr. Seymour Smith has returned

from a trip to Philadelphia and Can-

ton, O., where he purchased the

equipment for a wholesale and re-

tail ice cream business he will con-

duct in one of the new McAdoo st.

rooms on South Davis street.

The Chamber of Commerce is plan-

ning to have a "farmers' day" in

Greensboro some time during next

October, when extensive exhibits of

farm products of this section will be

made. Special efforts will be made

to induce farmers and investors from

other states to attend.

Mr. W. O. Stratford is advertising

his real estate for sale with the in-

tent of moving to Raleigh, where

he will engage in the brick manufact-

uring business. Mr. Stratford has

resided in Greensboro many years

and has been a prominent factor in

the life of the community.

The Junior Order, Knights of Py-

thias and Odd Fellows of Proximity

are preparing to show by stereopti-

con pictures the work of the three

orders. The three lodges will joint-

greatly stimulate interest in the fr-

aternal orders.

A party of northern capitalists

spent Sunday and Monday in the

city looking over the field with a

view of making investments here.

In the party were: I. C. Reed, W. H.

Peck and E. E. De Barr, of Syracuse,

N. Y., and George C. Marshall, Crales

Wayte, Sam Strong and Walter Shep-

pard, of New York City.

The Southern Real Estate Company

has taken over the business of the

South Greensboro Insurance and Real

Estate Company and the latter cor-

poration will be dissolved. Mr. W.

P. Hutton, who was the manager of

the South Greensboro Insurance and

Real Estate Company, gave up that

position to take one with the Bank

of South Greensboro.

The program committee of the Re-

tail Merchants' Association is ar-

ranging for a meeting of the associa-

tion on the evening of March 5, in

the reception hall of the Guilford

hotel. The subject for the evening will

be "Our Association, What It Has

Done, What It Is Doing and What It

Should Do." The discussion will be

led by Mr. W. B. McGregor.

The Proximity Mercantile Company

is advertising an exceptional sale of

remnants this week. This enterpris-

ing company operates four immense

general stores and can supply your

needs in everything. They want to

buy beef cattle, hogs, lambs, etc., and

will send their buyer anywhere, pre-

pared to make cash offers on every-

thing they can use. See their big

adv. on page 4.

The hearing on Senator Barringer's

resolution looking to the removal of

the state capital from Raleigh to

Greensboro has been postponed until

Friday, and it is expected that a

number from Guilford county will be

present when the matter comes be-

fore the committee on propositions

and grievances. The Chamber of

Commerce made an unsuccessful ef-

fort to charter a special train to be

operated for the occasion.

A young white man giving his name

as Harry W. Tate is in jail here

awaiting trial in Superior court on

the charge of obtaining money under

false pretenses. The young man has

been in the habit of obtaining money

from traveling representatives of the

Sherwin-Williams Paint Company,

claiming to be a near relative of an

executive officer of the corporation.

He tried the game on Mr. J. P. Mini-

tree, of this city, who, having been

apprised by his house that the young

man was an imposter, caused his ar-

rest.

A Statesville special says "Mr. C.

W. Pearson, a traveling salesman for

the Odell Hardware Company, of

Greensboro, became ill quite sudden-

ly at Hotel Iredell Friday night and

was removed to the Long Sanatorium

Saturday. He is suffering with ap-

pendicitis and peritonitis and is un-

dergoing treatment preparatory to an

operation. His condition is consid-

ered very critical. Mr. Pearson is a

son of Mr. and Mrs. John H. Pear-

son, of Morganton, and his parents

have arrived to be at his bedside.

Mrs. Pearson was in Washington

when notified of her son's illness."

It has been understood that the

traveling public generally disapproves

of the rule of the Southern Railway

requiring mileage to be exchanged for

tickets before the passengers board

trains, but if what Mr. T. A. Lyon, a

well known traveling shoe salesman

of this city, says is true, such is

not the case. Mr. Lyon says that

every legitimate traveling man of his

acquaintance, and his acquaintance

stretches from Maine to Mexico,

heartily approves of the regulation

and would not see it otherwise. Mr.

Lyon declares that the real traveling

men have no sympathy with proposed

legislation requiring mileage to be

"pulled" on the train.

CRIMINAL TERM OF COURT.

Docket of 250 Cases for Trial—50

Prisoners in Jail.

The February criminal term of Guil-

ford Superior court convened Monday

morning, with Judge B. F. Long, of

Statesville, on the bench. The term

is for one week only, and it is a fore-

gone conclusion that it will be im-

possible to dispose of the docket.

The opening of court found 250 cases

for trial, exclusive of sci. fas., and

50 prisoners in jail.

The grand jury is composed of 18

leading citizens of the county, Mr.

D. W. Moore, of Jamestown, being the

foreman. Judge Long's charge to the

grand jury was an exhaustive and in-

elligent treatise of the law and a

full explanation of the duties of the

jurors. Judge Long impressed upon

the jurors the fact that their duty

does not end with making present-

ments and passing upon bills of in-

diction, but that they shall examine

closely into the affairs of the coun-

ty, with special reference to the man-

ner in which the county officials are

performing their duties and conducting

their offices. The court made it clear

that the grand jury is expected to

make more than a perfunctory exami-

nation of the court house, the jail,

the home for aged and infirm, etc

Kernersville News: Mr. D. P. Kern, formerly of this place, now located in Greensboro, has recently been elected assistant secretary of the Wyson and Miles Company, manufacturers of woodworking machinery.

Mr. Claude Robeson has resigned as organist at the First Baptist church and will be organist at West Market Street Methodist church, succeeding Mrs. John D. Turner, Jr., who has resigned. Mr. Robeson's successor has not been appointed.

Work is progressing satisfactorily on the new building being erected by the Independent Ice and Coal Company on the corner of West Lee and Litch streets. The equipment has been purchased and the new ice factory will be in operation in ample time to meet the demands of the next season.

Mr. Grover C. Wagoner, of Brown Summit, and Miss Jennie Strader, of this city, were married Thursday night at the home of the bride's father, Mr. G. G. Strader, on West Lee street. The ceremony was performed by Rev. J. Ashley, of Liberty, in the presence of a few friends and relatives.

"Prof." Earle Vantaure, the smooth crook who fleeced a number of Greensboro people about two years ago, has been heard from again. Chief of Police Neelley is in receipt of a letter stating that he recently operated in San Jose, Cal., where he made a big haul, getting away with about \$60,000 in money and jewels.

The Carolina Real Estate and Investment Company has completed arrangement for the development on a big scale of Glenwood, an attractive residence section in the southwestern portion of the city. The plan is to sell investors lots and erect for them residences to be paid for in easy installments with "rent money." Already many people have bought property and built homes in this suburb.

Mr. E. D. Grubb and Miss Nettie Dean, popular young people of Proximity, were married at Walnut Street Methodist church last Wednesday night, the ceremony being performed by Rev. J. W. Ingle in the presence of a large crowd of friends. Upon their return from a bridal trip to New York and other cities, the young couple will be at home at Proximity. Mr. Grubb is buyer for the Proximity Mercantile Company and his bride is one of the most popular young ladies of the community.

The annual meeting of the stockholders of the Greensboro Life Insurance Company was held at the company's home office in this city last Wednesday afternoon. The reports submitted by the officers were very gratifying and showed the business of the company to be in a flourishing condition. The stockholders re-elected the entire board of directors, who in turn re-elected the officers as follows: J. W. Fry, president; R. R. King, vice president; E. Colwell, Jr., secretary; Dr. J. T. J. Battle, medical director; A. B. Kimball, general counsel; W. E. Allen, treasurer.

The funeral of Mrs. J. W. Allred, who died at St. Leo's hospital Tuesday night of last week from the effects of an operation, took place at Alamance Presbyterian church, of which she had been a devout member since childhood, Thursday morning at 11 o'clock and was attended by a large number of bereaved relatives and friends. Mrs. Allred was 62 years old and a woman of piety and strength of character. She is survived by a daughter, Mrs. George Shaw; two brothers, Messrs. D. P. and John May; and two sisters, Mrs. M. E. Kirkman and Mrs. J. W. Schofield.

In sickness, if a certain hidden nerve goes wrong, then the organ that this nerve controls will also surely fail. It may be a Stomach nerve, or it may have given strength and support to the Heart or Kidneys. It was Dr. Shoop that first pointed to this vital truth. Dr. Shoop's Restorative was not made to dose the Stomach nor to temporarily stimulate the Heart or Kidneys. That old-fashioned method is all wrong. Dr. Shoop's Restorative goes directly to these failing inside nerves. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these failing organs. And it is indeed easy to prove. A simple five or ten days test will surely tell. Try it once, and see! Sold by Greensboro Drug Co.

Prosperous Stokesdale.

It is to be doubted if there is a more prosperous little town in the state than Stokesdale, the metropolis of northwestern Guilford. The place has taken on new life and the outlook for the future is most encouraging. The Stokesdale Commercial Bank, which was organized recently by Mr. C. A. Bray, president of the Home Savings Bank of Greensboro, and a number of substantial citizens of the Stokesdale community, is proving a valuable addition to the business life of the place, and it is understood that several other new enterprises will be established during the present year. The Southern Railway has made an appropriation of \$2,296 to build a new depot at Stokesdale to replace the building that was burned a few weeks ago. Work on the new building will begin in a short time.

If you would have a safe yet certain Cough Remedy in the home, try Dr. Shoop's—at least once. It is thoroughly unlike any other Cough preparation. Its taste will be entirely new to you—unless it is already your favorite Cough Remedy. No opium, chloroform, or any other stupefying ingredients are used. The tender leaves of a harmless, lung-healing mountainous shrub, give to Dr. Shoop's Cough Remedy its wonderful curative properties. It is truly a most certain and trustworthy prescription. DRUGGISTS SELLING OUT.

Quitting Field Before Kansas Prohibition Storm Breaks.

Topeka, Kan., Feb. 19.—If you want to buy a drug store at your own price come to Kansas and take your pick of more than 2,000 which are on the market. Nearly every country paper these days has from one to a dozen advertisements reading: "For sale, cheap, drug store, owner desires to retire from business."

The secret of the sudden determination of so many druggists to retire is that the legislature is to pass a law cutting them out of their chief source of revenue, their liquor trade.

The senate bill already passed stops the sale of liquor by drug stores for any purpose whatever. It is the most drastic law enacted in Kansas on that subject. It not only provides for absolute prohibition, but also restores the inquisition and gives immunity to persons who testify in joint cases. Legislators say the measure is bound to become a law. Kansas druggists seem to think so, too.

This is practically a "one price store." You pay the same that other people pay, no more, no less. We price every article as low as we can afford to sell it and then stick to the price, same as the postmaster does with stamps, and the ticket agent does with railroad tickets. We think that's the best and fairest and only right way to sell goods. You can send a child or a servant here and depend upon getting the right goods at the right price. At the same time we are not hide bound about this "one price" idea, and you can't remember ever seeing Thacker & Brockmann's advertising as a strictly iron clad one price cash store. If a customer picks out say ten dollars worth of goods and finds he has only \$9.98 in cash in his pocket, he is mighty likely to get the goods. And that's why we don't advertise it as a "strictly" one price store, because "what we say we do, we do do." Spring trade is opening very early this year and we are already showing many new goods in every department. There is a big demand for ladies' oxford ties and the new ankle-strap pumps and sailor ties. We have never before sold so many in February and have already placed duplicate orders for several of the most popular styles in tan, patent colt and vicid kid. It promises to be the biggest season yet for low shoes in both ladies and children's and men's styles. Yours for a big spring trade.

Read the Following Unsolicited
Testimonial

Pomona, Guilford County, N. C.,
March, 27th, 1902.

Mr. Sides,
Dear Sir:

I am thinking you would like to hear how I am getting along after using the new remedy you and Mr. Yates so kindly had me to use.

After nearly four months of suffering with rheumatism and kidney complaint, and everything done for me which only relieved for the time being, I am now using the Band, which seemed to help me at once.

At the time my feet, knees and hips were so swollen that I could not walk a step. As soon as I put it on there was a heating sensation all over my system, and in one week I was surprised that the swelling was going out, and I could sleep. In two weeks I could walk around the room, the third week I could go where I pleased. I feel stiff in my knees somewhat, but that is going out fast. You may think this is quick work, but it is nevertheless true. My family and neighbors will testify the same. They all know I have suffered all winter, and I feel very grateful to you both, for what this remedy has done for me, and will recommend it to all suffering as I have.

(Signed)

Respectfully yours,
A. D. V. LEIGH.

Why don't you profit by the experience of others? Your family doctor is all right, and will do all he can for you, but he cannot cure that rheumatism.

I have cured hundreds of hopeless cases with my wonderful Band, dozens of them right here in Greensboro, and in Guilford county.

A SENATOR REBUKED.

LaFollette Scored by Penrose for Alleged Neglect of 1917.
Correspondence of the Patriot.

Washington, Feb. 22.—The president has signed the joint resolution of Congress removing the constitutional barrier to the appointment of Senator Knox to the premiership in Mr. Taft's cabinet, and it is to be hoped that this tempest in a teapot has been settled for all time. Mr. Knox will now certainly become secretary of state under the new administration and it is probable that the new Congress will pass a law increasing his salary from \$8,000, the amount to which Mr. Knox is eligible to the \$12,000 which was the amount agreed upon in the general salary raise. Mr. Knox is a rich man and the salary is a matter of small importance to him. The technicality, though, by which having been a member of the body that voted the increase, he became ineligible for the position has been made the most of by a Congress which would rather debate a whole session on a technicality than to get down to real work on a simple, uncomplicated problem providing a necessary appropriation or the solution of a vital question.

Senator LaFollette has been accused of taking upon himself the task of being the conscience of Congress. He has spent several summers in chataqua lecturing, and he has not hesitated to use the names of those senators whom he declares have been guilty of neglecting their duties. He came in for a withering rebuke last week when Senator Penrose, of Pennsylvania, uncorked the vials of his wrath and charged the Wisconsin senator with neglect of his senatorial duties. He named four committees upon which Mr. LaFollette is assigned and declared that he has not attended the meetings of any of them this session. These charges were not taken seriously by the senate, probably because no senator is guilty of neglecting the work of all the committees upon which his name appears except that one or two of which he is chairman, but the members who have been so often and severely scored by the Wisconsin senator were delighted in hearing him publicly rebuked.

The last and farewell reception of President Roosevelt was given Thursday night, when the army and navy were the guests of honor. When the presidential party retired after the reception it was with the doubtless happy consciousness that its official entertaining was at an end. The reception was exactly like all that have preceded it for the past seven years except for the general adieu that were made during the handshaking. Early in the administration it was Mrs. Roosevelt's boast that, like the president, she enjoyed her job and it must be said that both she and the president have never shown any signs of diminishing interest or enthusiasm, but there has been no disguising the fact this winter that they have both been looking forward to their release, especially from the social requirements of it and that they are happily anticipating the trip

which will follow almost immediately on their retirement. The original plan was for Mr. Roosevelt to take the trip alone and for Mrs. Roosevelt to join him next year on the continent. This has been altered so that Mrs. Roosevelt and her daughter will accompany him to Naples and to the scene of the recent earthquake at Messina. They will be much entertained in Southern Italy and will proceed from there to Egypt, where a dahabiah will be placed at their disposal and that they will go in a large party up the Nile to the second cataract. Mrs. Roosevelt will then return in time for the London season, and with her debutante daughter, will be presented at court. There will follow leisurely visits in the other capitals of the old world, and sixteen or eighteen months later the president will join them for the voyage home. More of a change and relaxation from the exactions of the life of the past seven years could not well be imagined.

Bold Robbery Attempted.

Three masked men attempted a bold hold-up of Express Messenger Tom Hubbard, who runs on Southern Railway train No. 731 between Sanford and Mount Airy, Monday night about 8 o'clock at a point about four miles this side of Mount Airy, but the bandits were repulsed and fled without securing any booty.

The robbers entered the car while the train was standing at the Ararat tank taking on water. They called on Hubbard to throw up his hands, but instead of doing this he snuffed out the light and reached for his pistol. A number of shots were exchanged by the four men, and it is believed that one of the bandits was wounded. Hubbard was not hit. The robbers became alarmed at the noise made by the firing and fled without securing any booty.

Taft's Cabinet.

With the exception of secretary of the treasury, which position has not been filled, President-elect Taft's cabinet will be as follows:

Secretary of State—Philander C. Knox, of Pennsylvania.
Attorney General—George W.ickersham, of New York.
Secretary of War—J. M. Dickinson, of Tennessee.
Secretary of the Navy—George von L. Meyer, of Massachusetts.
Secretary of Commerce and Labor—Charles Nagel, of Missouri.
Secretary of the Interior—R. A. Ballinger, of Washington.
Postmaster General—Frank A. Hitchcock, of Massachusetts.
Secretary of Agriculture—James Wilson, of Iowa.

AN ALLEGED "BLACK HAND."

Young Man Arrested near Goldsboro on Serious Charge.

Goldsboro, Feb. 21.—Charlie Wilkins, a rather notorious fellow about town, was arrested this afternoon two miles from this city as an alleged "black hand," it being charged that he threatened the life of Mr. J. W. Cole, a merchant of this city, unless Mr. Cole paid over to the "black hand association" the sum of \$100. Wilkins is in jail, but will not discuss the affair.

Several weeks ago Mr. Cole received a letter informing him that he was one of a number of men who would be killed unless he placed \$100 at a certain designated place. The letter was signed "Black Hand Association." Little attention was given it by Mr. Cole, and a few days later he received a second missive to the same purport.

This aroused Mr. Cole and he at once secured a detective from New York. On advice of the detective Mr. Cole decided to comply with the requests of the letter by placing the money at the spot named. This was in an old house, about two miles from here, and the money was to be buried. The "black hand" was informed that the money could be found this afternoon at 3 o'clock in the old house.

The detective and several other men this afternoon hid near the house before the appointed hour and in a short time a man was seen approaching. He came and uncovered the money, and just as he was ready to depart the posse came out from hiding and he was placed under arrest. It was Charlie Wilkins, who a short time ago was arrested on suspicion of having murdered Graves Speight, but the evidence against him was not sufficient to hold him to court. When arrested he said that some time ago he had gone to the home of Mr. Cole for the purpose of killing him, but that Mr. Cole's daughter prevented his carrying out his intentions, as he had been instructed to kill only Mr. Cole.

Wilkins is an unmarried man of about 33 years, and has no known occupation. He has been a rather notorious character about Goldsboro and it is believed that he is mixed up in some sort of a secret society.

Davis' Name Restored.

Washington, Feb. 22.—Official amends for the sensational elimination of Jefferson Davis' name from the stone tablet on Cabin John bridge, six miles west of this city, during President Lincoln's administration, is given in directions the president issued today through the secretary of war to the chief of engineers of the army to restore the name.

The tablet is on the bridge that arches Cabin John run on the Maryland side of the Potomac river, a structure famous for years as the longest single span stone bridge in the world. The bridge carries the conduit which brings Washington's water supply from the upper Potomac. It was begun under Davis as secretary of war and when he joined the Confederacy and became its president, his name, under government orders, was chiseled from the tablet.

Concord Woman Burns Herself to Death.

Mrs. Alida Burkhead, a widow 50 years old, committed suicide at her home in Concord by burning herself to death. At 2:30 o'clock in the afternoon she complained and told her 17-year-old daughter that she wanted to lie down, going to her room at the head of the stairway. There she saturated her clothing with kerosene oil and set fire to herself. Before any one could reach her, the flames had burned the flesh on her face, neck and body to the waistband into a crisp. She was conveyed to a room in the lower part of the house, where she was attended by physicians until death, which occurred at 7:45.

The cause assigned for the irrational and shocking deed is her very bad physical condition, she having been in poor health for several years, the effects of which had somewhat impaired her mind.

Troubles of a Married Man

Graham Tribune.
J. L. Andrews, of Melville township, was tried before Squire McCracken Tuesday for assaulting his wife. The warrant also charged him with making and selling whiskey, but the only evidence brought out at the trial was that Andrews had hit his wife on the knee with the fire tongs. The squire attempted to pour oil on the troubled waters, that the sea of matrimony might again be calm, but Mrs. Andrews didn't want it that way. She demanded that "he" should go away and not bother her anymore, but that he should help her support the children. He promised to do this and upon the payment of a small fine, he was permitted to go, taking the six o'clock train for Greensboro.

Taft Becomes a Mason.

Cincinnati, O., Feb. 18.—President-elect Taft arrived here from Washington at 8:30 o'clock this morning and found the city full of Masons. This was the high sign town today. Grand masters and all the other dignitaries of Masonic lodges came from all directions to see the next president made a Mason "on sight" at 5 o'clock this afternoon.

Grand Master Charles S. Hoskinson, of Zanesville, Ohio, and William B. Melish, of this city, were in charge of the initiation of Mr. Taft. From 6 to 7:30 o'clock this evening Charles P. Taft gave a reception and buffet luncheon at his house in honor of the grand master of the Ohio, and the new Mason, William H. Taft. All of the visiting Masons were invited to this function.

FOR SALE!

City and Suburban Property!

ONE.

My home 311 Ashboro street, lot 56x200. Ten room house, lighted by gas, lavatory, bath and toilet above, lavatory and toilet below. Both gas range and range with hot water. House, not new, but good, convenient and in fine state of preservation and very desirable neighborhood. If one should want to convert it into a large first class boarding house \$1,000 to \$2,000 added would make it ideal, for it is on car line, 5 minutes walk to depot and ten minutes to postoffice. A very desirable place and if you want it you can have it for \$6,000, by paying one-third cash, balance divided into equal payments, one, two and three years, with 6 per cent. interest on deferred.

TWO.

Twenty-three acres four miles from Southern depot, on Battle Ground macadam road, situated beautifully and susceptible of very fine improvements, now valuable and to be more valuable in near future, for 'tis only a question of time when there will be a trolley line to the "Battle Ground," which will be accepted and cared for by the United States government as one of its national parks. The price for the 23 acres is \$2,500. If you think it is too much you are not compelled to buy it, but the purchaser who does buy it will possibly be able to sell it for as much per acre as the land on Spring Garden towards Lindley Park, somewhere along \$1,000 per acre.

There are two classes of buyers who should consider this attractive offering, to-wit: The man who is able

to pay for what he fancies and the other the young man who invests judiciously and can wait for developments and rise in value.

Terms, one-third cash, balance in one, two and three years, with 6 per cent. interest on deferred.

THREE.

A lot with well and chimneys, house burnt, fronting on Southern Railway near Fair Grounds, size 60x200. Price \$200; one-half cash, balance 6 and 12 months with 6 per cent. interest.

FOUR.

2 lots on Julia, 55 feet each by 166. 2 lots on Broad avenue, 55x166. Julian lots very desirable; price \$225 each. Those on Broad avenue not so attractive, but good. Price \$150 each.

Terms, one-third cash, balance one, two and three years, with 6 per cent. interest on deferred.

FIVE.

One lot fronting on Perkins street along side of C. D. Benbow's farm, eastern side of city. Size 75x275 with 2 room house on it. Price \$500. Terms, one-half cash, balance in one and two years, with 6 per cent. interest on deferred.

SIX.

Brick plant, consisting of 3 acres of land with side track, engine, boiler, brick machine, disintegrator, steam drier, etc., all in good condition (except air shaft on steam drier), one mile east on North Carolina Railroad. Price \$2,500. Terms to suit purchaser, if reasonable.

Reader, you may judge this property and its value for yourself. I have simply expressed my opinion and defined it by figures, called dollars, by which we measure values. You do not have to buy nor do I have to sell, but I hope you will want to buy this property for I want to sell it and shall.

STOCK POWDERS FRAUD.

Stringent Law Needed to Put End to Evil Practices.

Clarence H. Powe, in the Charlotte Observer.

A word of public appreciation is due Commissioner of Agriculture W. A. Graham for the splendid service he has rendered the farmers of the state in urging upon the legislature the need of a stringent law for the inspection and registration of patent or condimental stock and poultry foods, powders, etc.

Experiment stations and agricultural department workers have long denounced this patent stock food business as one of the most outrageous frauds ever perpetrated upon the American farmer—common meal, bran, etc., with a little cheap sulphur salt, Epsom salts, pepper, saltpeter, etc., added to change the taste, and the mixture (hardly more valuable than ordinary shipstuf) put up in flaming packages, advertised in big illustrated ads in farm papers and sold to gullible farmers at from \$250 to \$2,250 a ton—and yet until now there has been no legislation looking to the protection of the farmer against this colossal swindle.

And now that inspection and branding is at last proposed, the manufacturers are, of course, protesting that they have "secret formulas," and no doubt they are "secret"—as "secret," for example, as that "horse and cattle powder" which analysis shows to be more than 95 per cent. common feeding stuff and less than 5 per cent. hardly less common sulphur, saltpeter and Epsom salt, the entire mixture having a market value of less than \$40 a ton, while the "secret formula" scheme enables them to swindle farmers into paying exactly \$816.75 a ton for it! It is high time to stop such robbery.

That I do not speak too strongly in this matter the almost unanimous testimony of experiment station and agricultural department workers will amply show. For instance, take eight or ten instances that have recently come to my attention:

(1) Bulletin No. 80 of the Minnesota station reports that steers without patent stock food gave better results than those with them.

(2) The Hatch experiment station, Massachusetts, says: "In the great majority of cases where tonic foods or condition powders appear to be necessary, they can be dispensed with, and usually to the advantage of the animal."

(3) The Kansas experiment station reports that a bunch of sheep without patent stock food gained 117 pounds more than those with it.

(4) The Maine station declares: "It is significant that no experiments conducted by disinterested parties have shown a return equal to the cost."

(5) In New Jersey in sixteen tests out of nineteen these patent or condimental stock foods gave no benefit at all, and in the other three not enough to pay for the cost.

(6) In the Iowa station steer-feeding tests \$1.40 a steer was lost by feeding one patent stock food, \$5.16 a steer by using another, and \$8.92 a steer by using another.

(7) The Wisconsin station reports that "in twenty-one out of twenty-three experiments nothing was gained by including these stock foods in a ration and they were a detriment in that the cost of the ration was increased by their addition."

(8) Gardening and Farming of New York summarizes some experiment station tests, and concludes: "One-half or more of these foods is composed of common feeding stuffs and are worth about \$1.50 per 100 pounds. About one-tenth is composed of common salt, another tenth of charcoal, which leaves only about three-tenths of the bulk to be made up of such simple drugs as anise, sulphur, ginger, red pepper, saffron, and Epsom salts, all of which possess mild medicinal properties, but because they are fed in such small daily quantities really do no good."

(9) State Chemist Magruder, of Virginia, was recently quoted as saying: "The patent stock food manufacturers ought to make money enough to spend a half-million in advertising, for they are selling at something like \$1,000 a ton stuff that costs only \$30 or \$40 on an average. The few medicinal ingredients are of the cheapest sort, and the whole business is a miserable fraud."

(10) Prof. W. F. Massey recently declared: "One of the greatest embarrassments I had in editing a Northern farm paper was that while I wrote matter denouncing the stock food swindle on the farmers, I was never allowed to print it, for the stock food people paid about \$3,000 a year in advertising."

(11) Prof. R. W. Clothier, of the Kansas experiment station, says: "If you have \$229, you don't know what to do with, give it to your boy and let him use it in obtaining an education at an agricultural college instead of investing it in a ton of condimental stock food worth less than linseed meal."

These are but samples of a much larger mass of testimony that might be given. The bill as proposed by Commissioner Graham has already passed the house and now comes up for action in the senate. The patent stock food interests are willing to spend thousands of dollars to defeat the house bill, but I do not believe they can do it.

Let the senate stand by the house of representatives and Commissioner Graham in the valiant service they have rendered the farmers of the state and the cause of common honesty.

Native of North Carolina.

Charlotte Observer.

We don't mind saying, as we go along, that the young senator from Montana, Mr. Dixon, who made an attack Tuesday upon the policy of stringing navy yards along the Atlantic and gulf coasts, and whom Senator Tillman assailed, coming out of the encounter without any laurels, was torn in North Carolina.

Senator Dixon was born in the Snow Camp section of Alamance county and educated at Guilford College.—Patriot.

NOTED INDIAN CHIEF DEAD.

Geronimo Passes Away at Advanced Age of 85 Years.

Geronimo, the noted Indian chief, died last Wednesday at Fort Sill, Okla., where he had been confined as a prisoner of war for a number of years. Geronimo was chief of the Apaches, was captured with his band at Skeleton Canyon, Ariz., twenty-two years ago, having surrendered to General Nelson A. Miles after a 3,000 mile chase.

It is a curious coincidence that news of Geronimo's death was sent out from Lawton, which was named after the late Major General Henry F. Lawton, who, as a Lieutenant in General Miles' command, led the 3,000-mile chase that resulted in the Apache chief's surrender. The chase after Geronimo was begun at Omaha in January, 1885. General Miles in command of the department of the Missouri, received instructions to rout the band of Indians headed by Geronimo and kill or capture his chief. General Miles began operations by organizing an expedition consisting of the Second, Eighth and Ninth Infantry and Fourth, Fifth, Sixth and Eighth Cavalry, the horsemen being in charge of Lieutenant Lawton. The expedition was gotten under way in January, 1885, but the capture of Geronimo and his band was not made until nearly two years later. Since he has been confined at Fort Sill, Geronimo has made many attempts to gain his liberty. Early in 1908 he made a trip to Washington with some of his followers in an effort to interest President Roosevelt in his case. The old Indian was unsuccessful, however, and to the last he was full of bitter hatred for the white man.

RURAL PARCELS POST.

Postoffice Bill Carries Appropriation for an Experiment.

Washington, Feb. 19.—The establishment of an experimental rural parcels post system is authorized by a provision in the postoffice appropriation bill reported today to the senate. The provision authorizes the postmaster general to establish the system for experimental purposes in two counties to be selected by him and to operate it under rules and regulations, including the fixing of rates, to be prescribed by that official.

The bill as passed by the house carried \$234,436,370 and this amount was increased by the senate to \$234,492,370, an increase of \$56,000. The house provided for the promotion of 50 per cent. of the supervisory employees in first-class offices receiving salaries between \$1,200 and \$1,800 a year, 50 per cent. of clerks and carriers receiving from \$1,000 to \$1,200, and 50 per cent. in second-class offices receiving from \$1,000 to \$1,500. The senate committee added an amendment for the promotion of 50 per cent. of the carriers in second-class offices from \$1,000 to \$1,100.

An amendment reducing the appropriation for the pneumatic tube service from \$1,000,000 to \$900,000 was inserted in the bill by the senate committee and the authority to extend the service in cities where it is now in operation was eliminated.

The senate committee also inserted a provision directing that the mails be weighed annually instead of every four years.

Bank Teller Charged With Embezzlement.

R. B. Carraway, teller of the National Bank of Newbern, was arrested last week on a United States warrant issued by National Bank Examiner Hull charging Carraway with embezzlement. Carraway was taken before United States Commissioner Hill and released on \$5,000 bond, which was furnished. Carraway states that the shortage can all be accounted for in overdrafts. The amount alleged to have been embezzled has not been authoritatively stated, but is not believed to be large. A note was posted on the bank door at 5 o'clock announcing that the teller had defaulted but that the funds and deposits were secured and that the business will not be affected in any way whatever.

New York's Death Rate is 16.4.

Albany, N. Y., Feb. 19.—New Yorkers will be surprised to learn that they are dying at the rate of from 60,000 to 80,000 a year. But such is the fact, as shown by statistics compiled by the state department of health and made public yesterday.

Scrutiny of the records shows that in the last ten years nearly 50,000 residents of New York City have been killed, have committed suicide, or met death in some other unnatural way.

For the year 1908 the health department gives New York's death rate per 1,000 inhabitants at 16.4, and holds this up as an annual average. The annual birth rate, based on returns from December of last year, is 30.8.

House Burned to Hide Murder.

Richmond, Va., Feb. 18.—Seven persons are in jail as a result of the investigations by the authorities of the county of Powhatan of the burning of the home of Mrs. Robert Skipwith, in that county, Friday night, and the death of the owner of the place, and also that of Walter G. Johnson, a young married man and farmer of the county, who, with his family, lived in the home of Mrs. Skipwith.

The fact that Johnson's wife and baby were not burned to death at the same time is regarded as an act of Providence. They had gone from the home to spend the night.

Robbery was the motive for the crime.

The Secret of Long Life.

A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolonged life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c at all druggists.

IN MEMORIAM.

Miss Ora A. Warden.

Miss Ora A. Warden, youngest daughter of Mr. V. E. and Mrs. H. M. Warden, died at her home in this city February 5, 1909, after a lingering illness of consumption. Although the end had been expected at any time within the last few months, nevertheless the news of her death brought sorrow to the hearts of her many friends. She had been sick for nearly a year, and during all this time bore her affliction with patience and resignation. She was a favorite among her many friends. She was 22 years 10 months and 18 days of age. The sympathy of the entire community goes out to the family in their affliction. The funeral services were held on the 6th at New Garden.

A sweet and precious flower, We thought was ours to love, Was gathered by the angels Into the home above.

Secure from all temptations, No sin in heaven is found, For these complete redemption, A spotless robe and crown.

Our hearts are sad and lonely, Our tears must often flow, But would we call her earthward, To suffer more? No, no.

She's reached the many mansions He promised to provide, Her eyes have seen the Savior And she is satisfied.

While in the bloom of womanhood 'Tis beautiful to die, And with the flowers of summer, To bid this world goodbye.

A COUSIN.

Tax on Bachelors Asked.

Topeka, Kans., Feb. 18.—Kansas bachelors more than forty-five years of age are to be taxed \$25 per year, if a bill to this effect introduced today by Representative Cron is passed. It was immediately advanced on the calendar, and a telegram forwarded to President Roosevelt by its author.

Mr. Cron says that when a bachelor reaches the age of forty-five there is no hope of his getting married, and that he ought to be taxed as a penalty for not raising a family.

C. R. Kluger, the jeweler, 1060 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to my business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." S.S.S. FOR S.S.S. BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues.

Your S. S. S., in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as fireman for a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place. Your S. S. S. has been of great service to me and I do not hesitate to give it the credit it deserves.

W. F. VANDYKE.

315 Fifth Street, Beaver Falls, Penn.

Bad blood is also responsible for Anemia, Boils, Malaria, etc.; the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results. S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs. It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write.

SOMETHING TO THINK OF

Did you ever hear of a family having pneumonia who had GOOSE GREASE LINIMENT in their home?

Did you ever hear of a child dying of croup or cold who had rubbed Goose Grease on their chest?

This is something to think of.

Mother, don't be without this liniment for the sake of your little one.

NATURE'S
GREAT BLOOD TONIC
Piedmont-Bedford Concentrated
Iron & Alum Water

(Representing the Famous Bedford Alum & Iron Springs of Va.)
contains 17 of the most powerful Mineral Tonics.

An 18-oz. bottle contains all the minerals in a barrel of the average water. We furnish the minerals, you furnish the water.

We have certificates both from the public and from eminent physicians, telling of its virtue in **Dyspepsia, Rheumatism, a large variety of Female Diseases, Chronic Diarrhea and Dysentery, General Debility, Anaemia, Malaria, Ulceration of the Throat, Diabetes, Piles, Chronic Eczema, Nervousness, Chronic Constipation**, and many showing the wonderful cures in that dreadful disease, **Scrofula**.

DR. T. L. KABLER, for fifteen years a resident at the Springs, says: For Scrofula, that fearful destroyer of human health and happiness, we have in this water a remedy which neither science nor fortune accident has hitherto found an equal. It is in this malady, and some forms of secondary and tertiary Syphilis, that this water when carried to its full alternative effect, displays its highest curative powers. In all forms of disease peculiar to females, this water will be found to exert a curative influence second to none in Virginia.

I have given your Concentrated Water a fair trial, and say with pleasure I have been greatly benefited. For some years I have suffered more or less with Indigestion, followed by Constipation and other attendant ills. Within the past two months I have found such relief from your remedy that I have improved in strength and weight; have eaten what I have not dared to do for a long time, and have done harder work than I have been able to do before for years.

Rev. OSCAR LITTLETON,
Presiding Elder, Lynchburg, Va.

Since 1894 I have been afflicted with Chronic Diarrhoea. About six months ago I commenced using your Concentrated Iron and Alum Water with the most wonderful and satisfactory results. For three or four years past I have been deprived of the privilege of visiting friends or going to church, as my trouble kept me in constant apprehension, having lost almost entirely the control of my bowels; but now I am happy to state that after using about a half dozen bottles of your remedy I am entirely cured, not having used any for the last four months. I can confidently and most gladly recommend your remedy for Chronic Diarrhoea.

CAPT. RUFUS AMIS, Virginia, Va.

I was an intense sufferer for some months with Indigestion, and could get no relief from the ordinary remedies. During the month of January I began the use of your Concentrated Water, and one bottle has entirely relieved me. I can now digest any diet and am entirely free from suffering. I take great pleasure in giving this testimonial.

Rev. H. M. BLAIR,
Editor N. C. Christian Advocate,
Greensboro, N. C.

I have used and prescribed waters from several Iron and Alum Springs, but none of them begin to come up to your Concentrated Water in all that goes to make the ideal alternative, strengthener, appetizer and restorative. It is at once a fine tonic and flesh-builder. Have advised several recently to try it, and always with fine and quick results. In January I had a bottle sent from one of your dealers to a lady, with the understanding that if it did not at once improve her digestive apparatus, I would pay the \$1.00 myself. She not only willingly paid the bill, but used a part of one-half dozen more bottles, and is now completely cured of a long and annoying Stomach Trouble. This seems to be the case with all who try it.

IN THE STATE LEGISLATURE.

Matters That Have Occupied the Attention of the Law-Makers During the Past Week.

Reviewing the more important matters before the legislature, the Raleigh correspondent of the Charlotte Observer says:

First and foremost is the question of bond issues—bonds for the completion of the plans launched by the 1927 legislature for adequate enlargement and equipment of the state hospitals for the insane under the direction of the Bickett commission, this calling for \$500,000; then the million dollar bonds declared to be absolutely necessary to attain anything like proper capacity and equipment for the state educational institutions, the University of North Carolina, the A. & M. College, the State Normal and Industrial College and the Eastern Carolina Teachers' Training School, these being embraced, along with the state hospital needs, in the \$1,000,000 Manning bond issue bill. The \$500,000 for the hospitals is regarded by the leaders as absolutely imperative and separate bill for bonds in this amount for the hospitals are also pending. Then there is the measure contemplating an enlargement of the state house and carrying \$500,000 bonds; and another bill for \$750,000 bonds for a state office building as opposed to the plan of enlarging, or in any way disturbing the present artistic and historic old state house.

Anti-Trust Legislation.

Another matter of rather questioned importance is the anti-trust legislation which is to come squarely before the senate Tuesday under the special order for the Lockhart subsection "A" bill and the "Blow-Bassett substitute," the latter having the majority favorable report from the judiciary committee. If either of these gets through the senate, they will have to be another long and hard contest in the house in threshing out the same issues.

The question of salaries for solicitors in lieu of fees they now receive is looming rather large again just now also with a probability that the senate will give the house another opportunity to take a stand for or against the salary principle. The senate takes up the question Thursday under the special order for the Grond-Blow bill, which as amended by the judiciary committee proposes a salary of \$2,250. This matter is sure to take up very considerable time in the senate and, in the event it goes over to the house on passage by the senate, very considerable more time will be required to finally settle the matter.

The bill for the electrocution of all felons sentenced to death in the penitentiary here that passed the house with really surprising ease Saturday is regarded as a most important, if not questionable, measure by several of the leaders in the senate, and this is sure to take up considerable time in that wing of the assembly.

The appropriations bill carrying the appropriations for maintenance and otherwise for the state institutions, still in process of formation in the hands of the joint appropriations committee, is of most vital and far-reaching importance.

Omnibus Education Bill.

The joint committee on education, too, is preparing what might be termed its omnibus education bill which will be sprung on the assembly during the last days of the session with ridiculously little time for proper consideration.

These and other highly important measures, along with minor bills with out number, each considered by the respective members from local viewpoint of vital importance, will crowd the calendars from day to day and make it practically impossible for any of them, even those of most statewide importance, to have anything like the consideration the interests of the people would seem to require most imperatively.

The matter of more adequate provision for the old Confederate soldiers is another that is being pressed upon the law-makers and that must be settled before the adjournment, and most carefully and deliberately, too, if the interests of the veterans who sacrificed so much for the state are rightly considered. There are a number of pension bills pending.

Resolutions are pending now in both the senate and the house for final adjournment March 3, three days short of the constitutional limitation, and in the house for no more bills to be introduced after February 26th.

Anti-Trust Bills Discussed.

The senate discussion of anti-trust legislation, "teeth" and no "teeth," or rather what character of "teeth" shall be given the present anti-trust act, began yesterday. There were two speeches, Senator Lockhart for his original substitution "A" bill and Senator Bassett, of the "Blow-Bassett substitution," which superseded the Lockhart bill in taking favorable report at the hands of the judiciary committee. The speeches really drew

the lines of demarcation between the two bills, one or the other of which promises to become law at this session, both being urged by their advocates as the embodiment of the anti-trust plank of the state Democratic platform. Senator Lockhart claimed also for his bill that it alone would be effective in dealing with the situation in bringing trusts to terms if they would profit by North Carolina business, and claiming further that incipient movements for a waterpower trust, leading to a cotton mill trust, called for his bill as a curb.

Senator Bassett urged the substitute as being effective for punishing real offenders, "conspirators," while Lockhart's bill might give much and serious trouble to innocent parties with its term "agreement." He declared that the feature of the Lockhart bill, to prevent putting up prices after once put down by a trust in competition would operate against tobacco growers in keeping down the price of raw material. The violation of the law should not be a felony, but remain a misdemeanor. Also the Lockhart bill opens the way for the continual harassing of corporations through the power of the attorney general to make demands for proof of non-violation of the law four times a year. He warned the legislature that the business interests of the state are not in a receptive mood for Texas and Missouri legislation of this sort.

Revenue Bill.

The house spent the greater part of yesterday on the revenue bill. The most important results were taxing automobile dealers \$25 privilege tax; including marine railway in the section taxing ship brokers; putting the \$25 tax on liverymen who sell more than five horses in six months; increasing the tax on sewing machine manufacturers and dealers from \$350 to \$450 and raising the 50-cent fee for each agent to \$2, applying the peddlers' tax to all those having free or paid shows to draw business; and exempting blind peddlers from the tax; reducing the tax on lightning-rod agents from \$50 to \$25; reducing the slot machine tax from \$2.50 to \$1.50 and exempting those where drinking water is sold at a cent a glass; including under packing house tax of \$100 all wholesale dealers in meat packing house products who own and operate cold storage plants in the state and exempting all not handling over 25,000 pounds a year; putting on dealers in beerine, near-beer and all drinks containing as much as one-half of one per cent. alcohol a tax of \$20.

Officer's Wound Results in Death.

Salisbury, Feb. 17.—Policeman W. A. Monroe, who was shot in the abdomen last Saturday night between 10 and 11 o'clock by the negro John Jackson, at the latter's home on North Church street, where he had gone with Officer Sicheloff to arrest Johnson for beating his wife, died at 4 o'clock this morning at the Whitehead-Stokes Sanatorium. No hope had been entertained for his recovery at any time since the fatal wound was inflicted.

Officer's Slayer Captured.

Salisbury, Feb. 22.—John Jackson, wanted here for the murder of Police man W. A. Monroe on Saturday night the 17th, has been arrested at Clifton, Tenn., and is in jail. This information was received by Chief of Police D. W. Julian this afternoon and it is certain that the night man has been arrested, as Jackson was traced nearly to the place of his capture. Capt. Frank Cauble left tonight for Clifton to bring the prisoner back.

Charles Latham, a son of ex-Congressman Latham, of Greenville, has been appointed to a consularship in Colombia, South America.

OAK HILL ITEMS.

St Valentine's day left pleasant remembrances with many in this community.

We are glad to see Master Fred Sockwell at school again after an attack of chicken pox.

We were pleased to have with us recently as visitors in the school Miss Lizzie Lohman, to spend the day, and Mr. James West, an afternoon call.

At their home some days ago Mr. and Mrs. William Buchanan entertained a large gathering of young people. Music was provided, and a variety of games were participated in, which made it a very pleasant evening indeed for those present.

One evening recently at the home of his parents, Mr. and Mrs. George West, Mr. Leslie West gave a reception to quite a number of the young people of the community. Phonograph playing, together with a variety of interesting games, was the order of the evening.

Several visitors had a pleasant time at Mr. James and John West's on the evening of the 18th.

One evening recently Mr. and Mrs. John Heath entertained several visitors at their home. There was splendid music, led by Mr. Perry Fleming, and interesting games were played.

Mrs. Minnie Buchanan and Mrs. Mary Sockwell were visitors at Mr. George West's Wednesday, the 17th.

The weather permitting, on Wednesday evening, March 3, at 7:30 o'clock, there will be a spelling match at the Oak Hill school. The public is cordially invited.

Several from this community attended the entertainment and box social at Glenwood school Saturday evening. All had a pleasant time.

Mr. James Kellam, who holds a responsible position in High Point, visited relatives and friends in the community the first Sunday.

We are sorry to note the death of Mrs. Mabel Marsh, a daughter of Mr. Denny Aydtette. She died on the evening of the 15th and was buried at Midway church at 11 o'clock the 17th. Rev. J. W. Goodman conducting the funeral. Mrs. Marsh gave every indication to her many friends of being perfectly resigned to the will of her heavenly father. Our heartfelt sympathy is extended to the bereaved husband and relatives.

HILLSDALE ITEMS.

The farmers of this community are very busy breaking up corn land.

\$5,445,869 More a Year for Tobacco Farmers

The total value of the tobacco yield for the eight Tobacco States is over \$59,554,131 annually. With the same acreage the tobacco growers in these States could, by improved methods of cultivation and fertilization, undoubtedly increase the total value of the crop to \$65,000,000.

Virginia-Carolina Fertilizers

are compounded with the utmost care, containing only such elements of plant foods as can be taken up and properly assimilated by the plant without causing injury to its quality. Years of investigation of the cultivation and fertilization of tobacco enables the Virginia-Carolina Chemical Company to furnish fertilizers of superior quality for the production of this crop.

Mr. J. W. Rogers, R.F.D. No. 4, Durham, N.C., writes: "I have been using your fertilizers this year and the crops are the best looking I have ever seen—especially the tobacco crop. I have never seen any other fertilizer which acted so quickly as yours does. The leaf is large and waxy, cures bright, and I am satisfied will bring a big price. Also, my neighbors in this district use your fertilizer with the best results."

Is there any reason why you couldn't do as well? Be sure and ask your fertilizer dealer for a copy of the 1909 Virginia-Carolina Year Book or Almanac, or write our nearest sales office and a copy will be sent you free.

A Brief History of the Organization and Development of the Trust.

Washington, Feb. 19.—In a report transmitted to President Roosevelt yesterday, Herbert Knox Smith, Commissioner of Corporations, presents some highly interesting history of the organization of "The Tobacco Combination," which, in its magnitude of its business operations, is one of the greatest organizations in America. The report is a result, in part, of an extensive investigation into the tobacco industry made by the Bureau of Corporations. Subsequent reports will deal with the control of the tobacco industry, with prices and profits, and with competitive methods.

Today's report sets forth the rise of one of the great combinations of the country. In his letter of transmittal, Commissioner Smith says that it "deals with the history, from the standpoint of its organization, of the great tobacco combination. Starting in 1890 as the American Tobacco Company, a manufacturer of cigarettes, with a capital of \$25,000,000, the combination has now a net capitalization (excluding inter-company holdings) of \$316,346,821. It has absorbed about 250 separate concerns, and now controls substantially four-fifths of the output of each important kind of tobacco manufactured in the United States, with the exception of cigars.

"Its history also presents important features of stock manipulations. The financial transactions centering round the organization of the Consolidated Tobacco Company in 1901 are especially noteworthy. At that time a small body of directors and stockholders in the combination believed that the profits of the combination could be greatly increased in the immediate future. They organized the Consolidated Tobacco Company and offered its bonds in exchange for the common stock of the American and the Continental, in order thus to secure for themselves most of the increased profits about to accrue. The profits accruing to the common stock of the American and the Continental, after its acquisition by the Consolidated, increased greatly, and the small body of men controlling the last named company—so small, in fact, that six of them held a majority of its stock and thus controlled the entire combination—became entitled to millions of dollars which, had it not been for the Consolidated transaction, would have gone to the original common stockholders."

Commissioner Smith says that "in fairness, it should be added that this offer of exchange was made with no concealment of the fact that that offer came from the principal officers and directors of the two companies," but, he adds:
"The conduct of this group of men is a proper subject for criticism, however, because they could foresee much better than outside stockholders the large profits about to accrue. They occupied the judiciary relation in the outside stockholders, and should have shared with them equally the special knowledge acquired by their position."

The report discusses at length the methods by which the tobacco combination has been developed, including the "bogus independent concerns" of the combination. It points out clearly that "the leading purpose of the men who have controlled it has been to dominate the tobacco industry. The report contains not only the details of the financial operations of the combination in its rise, but also many interesting sidelights on the schemes employed to make the combination paramount in the tobacco industry."

Taft Buys a Horse.

Washington, Feb. 19.—President-elect Taft has purchased from Tate Sterrett, of the Fassiern Farm, Hot Springs, Va., a stalwart horse of good pedigree for his personal use after he takes up his residence in the White House. The animal is a powerful blood bay gelding, with black points, six years of age. He is the hunter type 17 hands high and 1,250 pounds in weight and is described as an ideal weight carrier with the best of manners. Mr. Taft rode him frequently during his visit to Hot Springs last summer. The president-elect has named the horse "Tate Sterrett."

President Not Authorized to Permit Absorption of Steel Company.

Washington, Feb. 20.—By a vote of 3 to 2 the sub-committee of the committee on judiciary which has been investigating the merger of the Tennessee Coal and Iron Company and the United States Steel Corporation today decided to report to the full committee that the president was not authorized to permit the absorption. The committee found also that President Roosevelt was equally unauthorized to direct the attorney general not to interfere with the merger and not to enforce the federal statutes against it. It was decided also that as both companies were engaged in interstate commerce the absorption was in violation of the Sherman anti-trust law. It was found that the effect and purpose of the absorption were to monopolize the iron ore supply of the country and generally to eliminate the Tennessee company as a competitor of the United States Steel Corporation.

Severest of Rebukes.

The fact that such a report was to be made created consternation in the senate. It was realized that if the full committee subscribes to the findings of the sub-committee the effect would be to administer the severest of rebukes to President Roosevelt and practically to direct the attorney general to bring proceedings against the steel corporation under the Sherman law. Leaders in the senate make no secret of the fact that they are unwilling to go that far.

STATE NEWS.

J. Zeb Waller has been re-appointed postmaster of Burlington.

Charles A. Reynolds, former lieutenant-governor, was Friday re-appointed postmaster of Winston-Salem for a third term.

The Bank of Carteret, located at Morehead City, was closed Saturday by order of State Bank Examiner Doughton. The bank has a capital of \$20,000 and has been organized about seven years. The resources are about \$60,000. The present trouble is caused by general depression in business and inability to realize on loans.

A portion of the building of the Gibson cotton mill, at Concord, collapsed Saturday afternoon, but fortunately no one was injured.

W. A. Stewart, a well known lawyer of Dunn, was run over and instantly killed by an Atlantic Coast Line train at that place Saturday evening.

Mebane Leader: Among the many creditable industries the progressive citizens of this section are engaged in is that of a pickle factory. This is operated under the management of Mr. Charles Cates, whose place of business is about one mile north of Mebane. We learn that Mr. Cates has already sent out about 100 barrels of sauerkraut, 150 barrels of pickles, a large quantity of vinegar and jelly, all of which is of superior make and commands a ready sale. Mr. Cate's factory is named the Swathmore.

GENERAL NEWS.

Vive President and Mrs. Fairbanks are contemplating a trip around the world shortly after the adjournment of Congress. While their arrangements have not been finally made they will probably take a steamer at San Francisco, visiting Hawaii and the Philippine islands, then China and Japan and returning via Europe. Their trip will not be a hasty one, the exact time of their return not being definitely fixed.

A dispatch from Greenville, S. C., printed in Sunday morning's papers says: "F. Martin, an operative at the Vardry Mills, committed suicide at his father's home near this city today by taking morphine. He left Greenville Monday and went to Spartanburg to secure a job. He failed to secure one and last night came from Spartanburg to his father's home. This morning he was found dead in bed and it was found that he had taken 15 grains of morphine. He is survived by a wife and one child."

Temperance Measure in Congress.

The house of representatives last week passed the amended Knox bill, which had previously passed the senate, forbidding the transportation of liquor in interstate commerce unless it is consigned to bona fide consignees and unless the package is labeled plainly with the name of the consignee and the exact character of the contents is shown. The amendment prohibits shipment of liquor C. O. D.

Speaker Cannon took his place on the floor and voted every time with the "temperance" forces.

Mr. Jordan's Money Talked.

Expended \$8.35 for L. & M. Paint to fix up his house. If for sale it will fetch a good price. The painters said it was the 3 gallons of oil they mixed with 4 gallons of L. & M. that did the job at 1-3 less cost than ever before. Its coloring is bright, beautiful and lasting. It won't have to be painted again for 12 to 15 years, because the L. & M. Paint is Metal Zinc Oxide combined with White Lead and wears and covers like gold.

Weighed 20 Pounds at Birth.

Wadesboro, Feb. 19.—Wadesboro claims the prize for the biggest baby in the Old North State. Walter Little and wife, of this place, have a child born this week which weighed at birth 20 pounds and was apparently healthy. The baby is doing well and the parents, well-known colored people here, are the proudest of all the people.

Threatening feverishness with children is quickly and safely calmed by Preventives. These little Candy Cold Cure Tablets should always be at hand—for promptness is all-important. Preventives contain no quinine, nothing harsh or sickening. They are indeed, "the stitch in time." Carried in pocket, or purse. Preventives are a genuine safeguard against Colds. Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient I successfully treated many cases of Rheumatism; but now, at last, I uniformly cure all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real help—no actual excuse to suffer longer without help. GUILFORD COLLEGE ITEMS.

President Robert L. Kelly, of Earlham College, Indiana, will make the annual address at commencement on May the 26th. Dr. Kelly is one of the leading educators of the state of Indiana, and is a distinguished speaker.

Mr. Charles E. Tebbets, general secretary of the Friends' American Board of Foreign Missions, has been engaged for nearly a month in North Carolina holding missionary conferences among Friends' meetings in the state. Mr. Tebbets has for many years been engaged in educational work, and resigned the presidency of Whittier College, Cal., to accept the secretaryship of the Friends' Missionary Board. Last week he visited Guilford College and made several addresses, one of great force and interest on "The Uplift of the World."

Mr. Tebbets speaks from a wide range of knowledge and discusses with great ability the questions that pertain to the elevation of humanity. Mr. Charles E. Jacob, after a visit to Pinehurst, returned to the college last week and spoke to the students Tuesday morning. On Wednesday he left for Florida, where he will spend two weeks and return to Philadelphia early in March and sail for his home in Dublin on the 13th.

While here Mr. Jacob showed much interest in the educational work of the Southern states, and before leaving made a donation for the purchase of books for the library.

President and Mrs. Elliott and Mr. Joseph Warrar, of Harvard University, will visit the college on the 24th of March, arriving at 10.45 A. M. President Elliott will make an address in Memorial Hall at 11.30, and he and his party will afterwards take luncheon at Founders' Hall, leaving in time to take the train from Greensboro to Durham at 3.30 in the afternoon.

Wednesday evening the senior class, in company with President and Mrs. Hobbs, were entertained by Mr. and Mrs. W. A. White.

Louis L. Hobbs, Jr., is slowly recovering from a recent attack of fever.

Mr. Jesse H. Stanley spent a few days during the past week with his son at Biscoe.

Miss Lillian Jinnett, who is teaching at Longview, spent last Sunday and Monday at the home of Dr. Millis.

The amount of mail handled at the postoffice at this place has made it necessary to have more room, so an addition has been built for the special accommodation of the rural carriers. We hope to see the time in the near future when a nice commodious postoffice building will be erected here in keeping with the progressive improvements of the place.

Mr. Frank Edgerton, a former resident of this locality, died last week at his home in St. Augustine, Fla. He leaves a widow and three children in Florida and several relatives and friends at this place to mourn his death.

Rev. J. A. Bowles has been on the sick list during the past week. We hope, however, he will soon be out again.

Mr. W. C. Hammond, of Asheboro, visited friends at the college last Saturday.

The W. C. T. U. of this place had arranged an interesting program for the Willard memorial service to have been rendered on last Sunday evening, but owing to the heavy storm of wind and rain coming up about the time for the people to leave their homes, only a few living near by got to the church, and the memorial exercises were not carried out.

Mrs. N. D. Andrews, with her son and daughter, formerly of Goldsboro, but now living in Greensboro, are visiting at the home of Prof. John W. Woody.

Mrs. Velina Millis has been suffering from an attack of rheumatism in her foot some days past, but is some better now. We hope she will soon be out again.

BRIGHTWOOD ITEMS.

The people of this community are busy burning plant beds.

Brightwood school house was the scene of a merry time Friday night, when a box party was given by the girls of the school. They realized about \$16.

We are badly in need of a detective in this neighborhood. While attending the box party Friday night Mr. William Osborne had his horse badly done up. Some one cut off the animal's tail and mutilated it otherwise. The guilty party is being closely watched.

Reedy Fork's baseball team is undergoing some stiff practice. They have games scheduled with High Point, Burlington, Elon College and Reidsville. They also have a chance to give the Greensboro league team some practice. Any one desiring games with the team should write to any of the following: C. W. Walker, M. D. Coffey, J. R. Beville or Henry Fulton. The line-up of the team is in very fine shape. The players probably will be: C. N. Dalton, M. D. Coffey, Cony Beville, Joseph Hardie, Jr., Jack Hardie, Henry Fulton, Exton Florence, Ernest Rudd, V. A. Scott, S. G. Rudd and E. W. Walker.

RAMSEUR ITEMS.

Mr. John W. Black, one of our best citizens, died at his home on the 15th inst.

Miss Eula Hayes, one of Randleman's fairest daughters, came over Saturday to visit the Misses Slack.

Miss Ora Scott, of Shiloh Academy, spent Saturday and Sunday at home. She was accompanied by Miss Daisy Moffitt.

Miss Ida Turner, of Greensboro, spent last week with her parents.

Miss Annie Black, of the High Point graded schools, returned to her work Monday.

Miss Josie Johnson and Mr. J. S. Wylie were happily married on the 17th inst.

A son and daughter respectively came to the homes of Messrs. W. H. King and Bert Brady last week.

Croup positively stopped in 20 minutes with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by Greensboro Drug Co.

McLEANSVILLE ITEMS.

Mr. and Mrs. H. V. Cobb, of Greensboro, visited Mr. Cobb's parents, Mr. and Mrs. W. G. Cobb, Sunday.

Miss Mary Hendrix, of Concord, who formerly taught music here, and who is now a member of the graded faculty at Burlington, is the guest of Prof. and Mrs. C. D. Cobb and other friends here.

Miss Ellen Brandt, of Greensboro, has been spending the latter part of the week with her cousin, Miss Sadie Gardner, at this place.

Miss Alma Medley, of Richmond, Va., was the guest of Miss Mattie Hines here Saturday and Sunday.

Miss Sadie Gardner and guest, Miss Ellen Brandt, were guests at Mr. and Mrs. W. L. Lindsay's Sunday and Monday.

Mr. Chas. A. Hines, of Greensboro, spent a few hours here with his mother Sunday afternoon.

Messrs. K. L. Whittington, Waldo D. Holt, students at Guilford College, and W. G. Cobb, of Elon College, are visiting their respective parents who reside near this place.

Mr. J. R. Evans and his friend, Mr. Wiley Dildy, spend Sunday in Greensboro visiting friends.

Messrs. H. M. Taylor, J. E. Murrow and S. B. Blackwood attended the entertainment given at Glenwood Saturday night, returning Sunday. They report a very pleasant sojourn with friends in that community.

Misses Daisy and Vannie Howerton and their guest, Miss Wellinger, of Elon College, are spending a few days at their home some distance north of this place.

The hospitable home of Prof. and Mrs. C. D. Cobb was the scene of a most pleasant social gathering Saturday evening last. The evening's entertainment was entirely informal which no doubt added much to its enjoyment by the guests. Some very interesting games, interspersed with a large variety of musical selections played upon various instruments supplemented by some rare voices among the guests went to make up an occasion long to be remembered by those present.

Quite a good sized audience greeted Mr. Karl Jansen, the impersonator and lecturer, Thursday evening, and as usual Mr. Jansen gave a very entertaining and instructive program. His is a field in which he is hard to excel.

At the meeting of the Y. W. C. A. held by the young ladies of the village Sunday evening in the academy chapel, the principal address by Rev. J. D. Andrew, of Burlington, upon the subject "Beauty as the crown of womanhood." It was a splendid practical plea for that which is most admirable in the character of all young women, viz: The practice of such lovely traits as go to make facial or outward beauty very insignificant when compared with them. It is seldom we have ever heard a better address than that by Rev. Andrew.

A Letter From Kansas.

Editor Greensboro Patriot—Through your paper please allow me to say to my many friends and relatives in Guilford and Randolph counties that after finishing my protracted visit to the haunts of my boyhood days of more than fifty-three years ago, I boarded a train at Greensboro February 5 at 6.20 P. M. homeward bound, via of Atlanta, Ga., Birmingham, Ala., Holly Springs, Miss., Memphis, Tenn., and Springfield, Mo. But for stopping off at Springfield, Mo., to visit cousin T. C. York, formerly from near Gray's chapel, Randolph county, I would have made the trip from Greensboro, to Wichita, Kan., in a little less than forty-eight hours. Connections were just fine and my visit with my old chum cousin schoolmate, etc., was pleasant indeed after over a fifty years separation. At this writing we are having some pretty cold weather, with quite a fall of snow on the ground which will be of great benefit to wheat. I find Wichita forging ahead in building and opening up new industries and doing that which beautifies the city and adds to the permanency of its improvements. The big one hundred thousand dollar cement wagon bridge across the big Arkansas river is nearing completion. So is the addition to the federal building, etc., and so on.

L. M. JULIAN.

MT. HOPE ITEMS.

Rev. J. L. Bowers will fill his regular appointment next Sunday.

Our people are still cutting and hauling logs to the saw mill.

The measles has been around. It has visited nearly every home in this community. In some families every one had it, and as many as six in one family have been in bed at one time.

Rev. J. L. Bowers' incubator froze during a cold night, or the lamp ceased to burn, and now he has put it to work again. We hope he will have much success this time.

Our debate Saturday evening was proclaimed to be a success by all who were present. People from Mill Point, Alamance and Julian were present for the contest. Query, "Resolved, That the United States Congress should pass a national prohibition law." The affirmative won. Congress should be notified.

Engineer Scalded to Death.

Greenville, S. C., Feb. 22.—In the wreck of Southern Railway express No. 35 from Washington to Atlanta, at Harbina, a block office 50 miles south of here, early tonight, Engineer W. J. O'Neal was scalded to death and Fireman Joe Clay, a negro, was injured so badly that he will die. The engine and baggage car turned completely over and the passenger coaches turned on their side. No passengers were injured. The track was obstructed until late this afternoon and the passengers were transferred around the scene of the derailment. The wreck is a mystery as the switch was properly set.

NYAL'S
Stone Root
COMPOUND

FOR **KIDNEYS, BLADDER & LIVER**

Does Your Back Hurt?

This is one of the symptoms of kidney trouble that is almost unending. You may think the pain comes from a cold settling in the back, but such pains do not recur at regular intervals. Do not neglect kidney disease. It is not ordinarily dangerous if treated in time and not allowed to run into some incurable form such as Bright's disease.

At the first symptoms of kidney trouble commence taking Nyal's Stone Root Compound, the most efficient of all preparations for diseases of the kidneys, bladder and urinary organs. We do not claim it to cure Bright's disease, but we do claim it will check the progress of kidney trouble which might, if neglected, run into this dreaded disease.

Stone Root is not a remedy discovered by chance but is a standard drug that has been known for many years. It gives best results when combined with drugs that aid its action. Nyal's Stone Root Compound is a scientific combination of this valuable remedy with other entirely vegetable treatment of all diseases of the kidneys. Price, 50 cents and \$1.00.

Mount Airy Man Has Lincoln's First Law Book.

Mount Airy, Feb. 18.—Mr. C. S. Hanks, of this city, has in his possession a book very valuable from the fact that it was probably the first law book ever used by Abraham Lincoln. The book is in a splendid state of preservation, and shows that it in years past has seen actual service. This book came down to Mr. Hanks from his ancestors, who were closely related to Nancy Hanks, the mother of Lincoln, and together with other important relics he prizes this one very highly.

Ask W. H. Rees about that manure spreader which the Townsend Bug Company sells. It is truly a new idea.

MORTGAGE SALE

By virtue of a power contained in a mortgage deed executed on the 1st day of January, 1880, by John Pass and wife, Hannah, to William O. Donnell, to secure a debt since assigned to Moses T. Stafford, default having been made, we will sell to the highest bidder for cash at the court house door in Greensboro, N. C., on

SATURDAY, MARCH 6, 1909,

a tract of land in Bruce township, Guilford county, containing 69 acres more or less and bounded as follows, viz: On the west by the lands of W. H. Bunch and Cam Moore, deceased; on the north by the lands of James McQuiston; on the east by the lands of John M. Bunch, deceased, and H. M. Stafford, deceased; on the south by the lands of Thos. Stanley, deceased, situate on the waters of Reedy Fork; for greater particularity see said mortgage recorded in Book No. 88, Page 338, in the office of the register of deeds of Guilford county.

February 1st, 1909.

North Carolina, Guilford County, In the Superior Court.

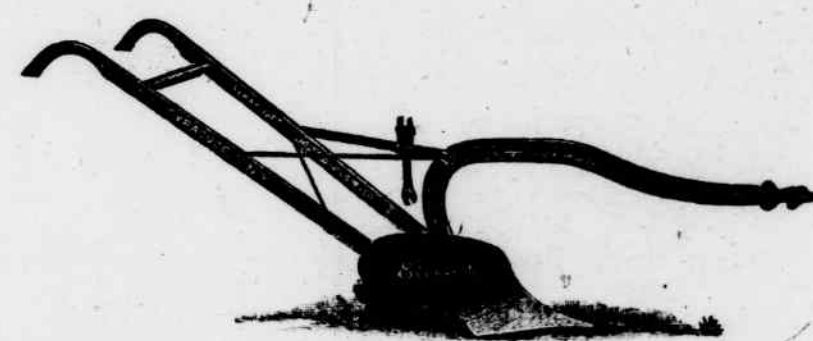

Before Ernest Clapp, C. S. C.

In the matter of the will of James Kirkpatrick.

To Mary A. Miller and John J. Power, You and each of you, as persons interested in the estate of the late James Kirkpatrick, are hereby notified that Thomas W. Kirkpatrick, having entered a caveat to the probate of the paper-writing purporting to be the will of the said James Kirkpatrick, and having filed the bond required by law, and the cause having been transferred to the Superior Court for trial at term, you will appear at the April term, 1909, of the Superior Court, which said term convenes on the 12th day of April, 1909, and make yourselves proper parties to the said proceedings if you choose. This, the 29 day of January, 1909.

RELIGIOUS THOUGHT.

Gems Gleaned From the Teachings of All Denominations.

The word "worry" is not found in the Bible and should not be found in the experience of any child of God.—Rev. Herbert J. Weaver, Lutheran, Los Angeles, Cal.

Temptation.

If you cannot remove temptation from the boy, then reverse the order and take the boy away from temptation.—Rev. Roby Day, Methodist, Kansas City.

Why We Lose Choice Gifts.

We fail to secure the choicest gifts because we do not sincerely desire them and are not willing to pay the cost.—Rev. Dr. Warren G. Partridge, Baptist, Pittsburg.

Religion a Joy.

Religion does not consist in drawing a long face and heaving sighs as we pass on the journey of life, but in brightness and joy, the outcome of a Christian career.—Dr. William Spurgeon, Evangelist, London.

Materialism.

Materialism as a philosophy of life is dead, but materialism as a habit of life was never more dangerous. Rich and poor alike both need to know the sources of spiritual wealth.—Rev. Caleb S. S. Dutton, Unitarian, Brooklyn.

A Great Peril.

The peril is great to the man of force who has made money. It is much greater for the son of that man who inherits high power without self control and the capacity to endure hardship.—Rev. William Horace Day, Congregationalist, Los Angeles, Cal.

Value of Forgiveness.

Let us learn a lesson of forgiveness from our Master. It is far more noble to pardon than to be avenged. It is part of the animal man to retaliate an injury. It is only God and the Son of God that have the magnanimity to forgive.—Cardinal James Gibbons, Roman Catholic, Baltimore.

Rainbow of Promise.

The rainbow of promise lights up even the darkness of death, for over the shadows that gather above the last resting places where lay the Christian dead are bent those luminous hopes that make the grave the gateway to endless peace and joy.—Rev. J. A. Norris, Presbyterian, Glen Cove, N. Y.

Ensign of All Nations.

Christ cannot be thought of as belonging either to the orient or the occident. He is the ensign of all nations and the African leaves his fetish, the Chinaman his idol, to turn to him. All arts are inspired by the Christ thought, and all minds attracted by it.—Rev. Bishop Galloway, Methodist, Savannah, Ga.

The Message of Salvation.

Jesus brought the message of salvation. This was his supreme purpose—to save men from their sin. Under the darkness and burden of sin the world had long lain. Hopelessness and despair were the recurrent notes of that age. Into this gloom came the promise of forgiveness and salvation. No message was ever more needed.—Rev. A. C. Smith, Christian Church, Los Angeles, Cal.

Carrying Our Troubles to God.

Let the dead past bury its dead. Jesus wants us to carry our troubles to him. Be careful in nothing, but with supplication and thanksgiving make known your petition unto God. Each man will have a cross to carry in this life. God help the man who takes his own life to get rid of it when Jesus is at his right hand ready to help.—Rev. Byron H. Holley, Episcopalian, New Orleans, La.

Bright Side of Things.

There is a bright side of things, and it is the factorship of hope to find the bright side, to dwell among the bright things, to rejoice evermore and to keep this old earth ringing with gladness; music. As the searchlight pierces the black night with its blazing shafts, so must hope run its aisles of brightness through all the gloom and despair of life.—Rev. Charles Edward Locke, Methodist, Los Angeles, Cal.

Interpreter of Life.

There must be the religious imperative to furnish the proper appraisal for the value of life. Without it every life is endangered by the overestimating of secondary values. Some of the most painful of life's tragedies arise from the inability to appraise life's values at their real worth. There must be the religious imperative for the choice of the best ideals. An idea with the religious element eliminated can never prove satisfactory, for it would never make a demand upon that which is best in us. Religion is needed as the interpreter of life.—Rev. Dr. E. N. Hardy, Congregationalist, Quincy, Mass.

Abominations Unto the Lord.

Wherein is the difference between a poisoned well and a poisoned air shaft? Suppose, deliberately and knowingly, we allow our fellow men to inhabit rooms, to live under conditions, which mean a lingering death. The thing has to be proved to us beyond question; then the moment that it has been proved beyond question it becomes not simply a scientific question; it becomes a question of morals, a question ultimately of religion. I like that phrase in the Old Testament where, speaking of those who violate certain fundamental principles of health and well being, the statement was made that such a man was "an abomination unto the Lord." Now, we want that taught to the landlord as well as to the tenant, that there are some things which are abominations unto the Lord, and there are persons who are abominations unto the Lord.—Rev. S. M. Crothers, Unitarian, Cambridge, Mass.

CENTER OF POPULATION.

Its Movement Westward Uniform in Rate and Direction.

The center of population in 1900 was in the state of Indiana. In 1790 the center was twenty-three miles east of Baltimore, in the state of Maryland, or virtually on the Atlantic shore line.

Its migration has been slow and remarkably uniform both in rate and in direction, says the Geographical Journal. It has hovered for 110 years along the thirty-ninth parallel of latitude, and its total variation in latitude has been less than one-third of a degree.

The westward movement has averaged less than a degree in a decade notwithstanding the incredibly swift occupation of a vacant continent by a movement of population westward. The easterly position of the center of population is in part due to the fact that the eastern part of the continent was first settled and was settled from the east. The easterly position of the center of population is also due to the more evenly distributed and more abundant resources of the eastern half of the United States.

It should not be forgotten that the geographical center of the United States lies some hundreds of miles west of the Mississippi river. The eastern half of the country, therefore, embraces the Atlantic lowlands, the prairies and great lake plains, the Gulf lowlands and the forests and minerals of the Appalachian mountains and Appalachian plateaus. Over against these are the arid and mountainous areas of the west.

Certain areas will be reclaimed to incredible productiveness, and the mineral wealth is vast, but the center of population may be expected to remain permanently to the eastward of the geographical center of the land.

LOADS BARREL ON TRUCK.

Simple Device Enables One Man to Handle Heavy Packages.

Have you ever seen three or four men trying to load a barrel on a truck, one man pulling down on the handles and the others lifting with all their might? If so, you will appreciate the device, as shown in the illustration, to make it easy for one man to load the barrel, says American Blacksmith.

A flat piece of iron five-sixteenths inch thick and an inch wide and as long as the truck is wide, with an eye

made on one end and a hook on the other (Fig. 1), is bolted or screwed to the bottom side of the truck just behind the middle cross piece. A chain with five-sixteenth inch links is then fastened to the eye end of Fig. 1.

With this simple contrivance one man can shove the nose of the truck under a barrel, tip the truck up close to it and place the chain around the barrel, as shown in Fig. 2, fasten the link on the hook end of Fig. 1 and by pulling down on the handles can with ease accomplish what otherwise would require three or four men to accomplish.

Biggest Noise Invented.

Miller R. Hutchinson of Alabama is credited with having invented the most effective noise producer in the world. It is called the Klaxon horn. One of them, weighing only five pounds, makes a racket that can be heard for five miles. It is estimated that it can be heard as far as the ray from the average lighthouse can be seen and that the direction from which the sound comes can be accurately ascertained. The main features of this interesting mechanism are a steel diaphragm struck on an anvil so attached to its center by the teeth of a cam wheel that the power from a small battery will produce 24,000 vibrations of the diaphragm a minute. This gives forth a penetrating shriek, which is directed and concentrated by a horn.

Health and the Auto.

Judiciously used the automobile may offer a remedy for nervous and mental afflictions, says the Scientific American. Dr. A. Monteyrat, a French physician, ventures the opinion that motoring is a cure for anemia and sleeplessness. He conducted some experiments during several tours of eight days each and states that he found a decided increase in the number of red corpuscles. The average increase figures out at 26 per cent. The effect of a week's touring is much the same as that of residence on high altitudes.

Acetylene For Blasting.

Acetylene is being used in Germany as an explosive for blasting purposes. Each cartridge contains slightly less than two ounces of calcium carbide, yielding about sixteen quarts of acetylene. After wetting the carbide the confined mixture of generated gas and air is exploded by an electric spark. Rock, when blasted in this way, is not thrown out, but is broken up into pieces small enough to be readily removed.

PLEASANT GARDEN ITEMS.

Deferred from last week.

The pleasant afternoons afford much enjoyment and pastime to the baseball team and the lovers of the sport. The grounds are in excellent condition and the players are anxious to practice.

On the evening of February 13 the members of the Cravenian Literary Society of the high school gave a play entitled "The Chaparral." Besides former members, a large number of friends were present to enjoy the entertainment. The play at intervals sparkled with wit and humor, and the frequent applause showed clearly that the efforts of the Cravenian girls were not put forth in vain.

Miss Fannie Perdue is spending some time with Mrs. Sarah Gray.

Among the former members of the Cravenian Literary Society present at the High School Auditorium on February 13 were Misses Leta Hodgins and Lucie Kennett, of the State Normal College; Miss Stella Fields, of Climax; Mr. John Woosley, of Guilford College; and Misses Oio Whitley, Beatrix Neeley, Lizzie Gorrill and Beulah McCulloch, Messrs. J. C. Ross and Neil Kirkman, of our vicinity.

Miss Alleen Hodgins, of Greensboro, spent Sunday with relatives near Pleasant Garden.

Miss Kate Lee Owen, of the State Normal College, spent Saturday and Sunday with Miss Ada Michael.

Mr. Coy Dull, of Vale, Ore., is visiting a "friend" in our village.

Mr. Eugene Coltrane, of Jamestown, was a caller in our town Sunday evening.

The high school is hard at work. The midterm examinations are over. Our enrollment has reached 195. Almost all available places are taken—not only boarding places, but also seats in the different class rooms.

Miss Beatrix Neeley is visiting friends at Jamestown.

The new Methodist parsonage on Main street is complete. It adds much to our town and the people of this charge should be commended for taking this step.

ELON COLLEGE ITEMS.

Deferred from last week.

Saturday evening, February 6th, the intermediate department in music gave its annual piano-forte recital in the college chapel to a large and appreciative audience of music-lovers. Twelve young ladies of the pupils of Miss Elsie Ramsey, assistant in piano, took part in the program and rendered to the delight of all present choice selections from the master composers of instrumental music. The following young ladies figured in the program: Misses Estelle Butler, Newport News, Va.; Annie Laurie Wick, of Greensboro; Wilmer Winn, of Greensboro; Aileen Patton, of Greensboro; Lillian Aldridge, Union Ridge; Ruby Michael, Gibsonville; Virgie Beale, Windsor, Va.; Jessie Brinkley, Norfolk, Va.; Macie Farmer, News Ferry, Va.; Louise Davidson, Gibsonville; Beulah Foster, Burlington.

Dr. Moffitt has received from Rev. F. S. Child, D. D., Fairfield, Conn., secretary of the Francis Asbury Palmer foundation for the uplifting of education in America colleges and institutions, a check of \$500 to be applied to current expenses in the institution. This gift comes at a most acceptable moment for the institution and is very much appreciated.

Dr. J. U. Newman, professor of Greek and Biblical literature, has been giving for the past three months a series of studies in the Psalms on the first and third Sundays in each month. These addresses are highly entertaining, richly instructive and profoundly inspirational and spiritual. They have received the favorable comment of all who have heard them. President Moffitt is a busy man these days occupied with plans and interviews with reference to raising the \$50,000 endowment. Encouraging reports are coming in every week with reference to this great work and Dr. Moffitt is meeting with encouragement on every hand.

McLEANSVILLE ITEMS.

Deferred from last week.

It truly seems as if spring is here. The weather since February 2nd would indicate that the "ground hog" failed to see his shadow at all, hence the nice weather continues.

Miss Stella Toague spent Saturday in Greensboro on a shopping expedition.

Messrs. S. H. E. T. and William H. Gordon visited their parents, Mr. and Mrs. R. P. Gordon, near Hillsdale, Friday and Saturday.

Prof. B. B. Slaughter, a member of the academy faculty here, spent Sunday in Burlington with friends and relatives.

Messrs. C. G. Phibbs and J. A. Payne spent Saturday and Sunday as the guests of Mr. G. S. Miles and Messrs. Gordon, near Summerfield.

Messrs. L. D. Hines, of Durham, and Edgar T. Hines, of Elon College, were here on Friday last week to attend the funeral of their uncle, Mr. W. J. Hines, of Reidsville, which took place at Hines' chapel, near this place.

Misses Emma and Ludie Swink and Miss Moreland, of Greensboro, were the guests of their relative, Mr. A. J. Swink, here Sunday afternoon.

There will be a meeting at Jefferson academy on Saturday afternoon, February 27th, in the interest and for the betterment of the schools in North Jefferson township. All who are interested, especially parents, are requested to be present. The meeting will be presided over by the county superintendent of instruction, Prof. Foust, of Greensboro, and others.

Soldier Barks Death Plot.

It seemed to J. A. Stone, a civil war veteran, of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that struck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds. Hemorrhages, asthma, and to prevent pneumonia it's unrivaled. 50c and \$1. Trial bottle free. Guaranteed by all druggists."

L. MEMORIAM.

Hattie Rosna Trogdon.

On the 6th of February, 1909, as the angels were gathering up their precious jewels, they entered the home of Mr. and Mrs. I. L. Trogdon, of Climax, R. 1, and took their daughter Hattie, aged 15 years 2 months and 25 days. Hattie was a sweet girl and was loved by all that knew her. She had been sick for more than a month, but death was not expected until a few days before. Her sickness and death cast a gloom over the entire community, but we feel that our loss is her eternal gain. She was a faithful member of the Tabernacle Sunday school and church and will be greatly missed. It seems that we can almost hear her alto voice ringing from the choir. No one can fill her place. She was also a student of the Tabernacle public school. She always won the esteem of both teacher and student, and we feel that we have lost one of our most valued members.

She leaves a father, a mother, three sisters and one brother, besides a host of relatives and friends to mourn their loss. May God comfort them in this time of bereavement. Her funeral was conducted in a most impressive manner by her pastor, Rev. H. L. Powell, assisted by Rev. Filmore McCulloch, in the presence of a large number of sorrowing friends, and her body was laid to rest in the Tabernacle cemetery to await the resurrection morn.

"While in life's spring time of beauty, Jesus called her spirit home, She could linger here no longer For the guiding one had come." O, how happy they must be When from Heaven they shall see, None can ever tell But those who've gone above to dwell."

Resolutions of Respect.

Resolutions of respect concerning the death of Miss Hattie Trogdon, who was an honored member of the Tabernacle public school:

Whereas, It has pleased our almighty God to take from our midst one of our most valued students; and

Whereas, We the teacher and classmates of the deceased desire to show our appreciation of her high character and our sympathy for the loss that we have sustained, be it

Resolved, That in the death of Miss Hattie Trogdon, which occurred on the 6th of February, 1909, we have lost one of our most valued members.

Resolved, That his calling was of a divine power, and her departure was a sad blow to our community.

Resolved, That we extend to the bereaved family our deepest sympathy, and pray God's richest blessings upon them.

Resolved, That a copy of these resolutions be sent to the family, one to the Greensboro Patriot, one to the Church Record, and one be placed in the history of our school.

Sallie L. Fentress, teacher; Pearl Reynolds, Lillian Dezan, Eddie Horney, Purvis Neece, Committee.

Rate of Taxation—State, 21 cents; Pensions, 4 cents; County, 23 1/2 cents; Schools, 18 cents; Road Tax, 12 1/2 cents; Poll Tax, 20 cents. All persons are earnestly urged to pay their taxes promptly. The money is needed to pay current expenses of the county.

Remember, that a failure to pay taxes is made a misdemeanor. And this is also applicable to lawyers, doctors, undertakers, dealers in bicycles and musical instruments, car dealers, real estate dealers and others who are liable to pay a license tax. All such persons who have not paid this tax should call at my office and pay it at once.

This is positively the last round that I shall make for these taxes, and it is very important that all tax payers pay up in full, under the penalty of a much heavier settlement with me than has heretofore been the custom, and in order to comply with their demands I shall be compelled to levy and sell property after March 15th to satisfy all unpaid taxes. Please do not ask me to hold your tax for a later date, as I cannot do so.

Very Respectfully, B. E. JONES, Sheriff Guilford County.

NOTICE.

United States of America. In the District Court of the United States, For the Western District of North Carolina. IN BANKRUPTCY.

In the matter of W. C. York, bankrupt. BANKRUPTCY PETITION FOR DISCHARGE. To the Honorable James E. Boyd, Judge of the District Court of the United States for the Western District of North Carolina: W. C. York, of High Point, the county of Guilford and State of North Carolina, in the said District, respectfully represents: that on the 20th day of December last past, he was duly adjudged a bankrupt under the acts of Congress relating to bankruptcy; and that he has duly surrendered all his property, and is in compliance with all the requirements of said acts and all the orders of the court touching his bankruptcy.

Wherefore he prays that he may be decreed by the court to have a full discharge from all debts provable against his estate under said bankruptcy acts, except such debts as are excepted by law from such discharge.

Dated this 5th day of February, A. D. 1909.

W. C. YORK, Bankrupt.

ORDER OF NOTICE. On the 5th day of February, A. D. 1909, on reading the foregoing petition, it is

Ordered by the court that a hearing be had upon the same on the 23rd day of February, A. D. 1909, before said court, in Greensboro, in said district, at 11 o'clock, in the forenoon, and that notice thereof be published in the Greensboro Patriot, a newspaper published in said district, and that all known creditors and other persons in interest may appear at the said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

It is further ordered by the court that the clerk shall send by mail to all known creditors copies of said petition and this order, addressed to them at their places of residence as stated.

Witness G. S. Ferguson, Jr., referee of the said court at Greensboro, in said District, on the 15th day of February, A. D. 1909.

G. S. FERGUSON, JR., Referee in Bankruptcy.

NOTICE.

To whom it may concern: This is to notify the public that a petition for a pardon of D. M. Stevenson will be presented to the governor, asking that he be released.

S. W. STEVENSON.

Suffering Ladies

are urged to follow the example of thousands of their sisters and take Cardui. Cardui is a non-mineral, non-intoxicating medicine for women. It is for sick, weak ladies, with sick female organs.

TAKE CARDUI

It Will Help You

It is a genuine, curative medicine, that builds up the female system and relieves female pain.

Mrs. M. A. St. Clair, of Eskdale, W. Va., writes: "Before taking Cardui, I had given up all hope of getting well. I had suffered for 3 years with my left side and was confined to my bed, so I took Cardui, and now Cardui has about cured my female trouble."
