Neal R. Anderson, of Winston-Salem,
in the afternoon. The church was
organized three years ago and has a
membership of 185. The pastor is
Rev. R. Murphy Williams, who or-
ganized the congregation.

GUILFORD'S EDUCATIONAL DAY.

Pupils of the Public Schools Unite in
Great Parade and Make Big Dem-
onstration—Many Thousands in the
Line of March.

The educational parade and rally
in Greensboro Friday was without a
doubt one of the greatest demonstra-
tions for the public schools ever wit-
nessed in the state. The parade of
thousands of bright-eyed, ruddy-faced
pupils of the public schools of Guil-
ford was an inspiration and thrilled
with pride the great throng of people
who lined the sidewalks and cheered
the boys and girls who came from
their homes in all sections of the
county to join in the great demon-
stration for public education.

The parade was longer and more
attractive than the one given during
the centennial celebration last year
and furnished visible evidence of the
marked progress of Guilford's public
schools. The pupils of many of the
schools were attired in attractive uni-
forms and costumes, and all of them
made splendid showings and elicited
unlimited praise from the multitude
that viewed the imposing pageant.

Estimates as to the number in the
line of march vary from 8,000 to 12-
000. The parade formed on the cam-
pus of Greensboro Female College
and moved down West Market street
to South Elm, down South Elm to
East Washington, down East Wash-
ington to South Forbis and up South
Forbis to the auditorium. It was 11
o'clock when the head of the parade
passed the reviewing stand in front
of the court house, the entire parade
requiring 45 minutes in passing this
point.

Several hundred members of the
Jr. O. U. A. M. marched at the head
of the parade, a float bearing the
"little red school house" filled with
young children bringing up their rear.
Following came an imposing float
bearing a number of little tots from
the Proximity kindergarten. The
county schools marched in the fol-
lowing order: Proximity, Revolution,
State Normal and Industrial College,
Whitsett Institute, High Point, James-
town, White Oak, Pleasant Garden,
Bessemer, Hillsdale, Guilford, Rocky
Knoll, Mill Point, Alamance, Pomo-
na, McIver, South Buffalo, Pine
Grove, Tucker, Sunnyside, Gethse-
mane, Brightwood, Battle Ground, Glen-
wood, Piney Grove, Sharp's, Spring-
field, Welch, Gibsonville, Normal
training school, Asheboro Street
school, Davie Street school, Lindsay
Street school and the Greensboro
high school, the high school state
championship football team bringing
up the rear.

Every seat in the auditorium was
occupied and several thousand people,
including the pupils of the city
schools, stood during the exercises.
Rev. R. Murphy Williams, pastor of
the Church of the Covenant, opened
the exercises with an invocation, af-
ter which the school pupils sang, "My
Country, 'Tis of Thee." This was fol-
lowed by "The Old North State,"
sponsored by the young women of the
State Normal and Industrial College.

The pupils of the Proximity, Revolu-
tion and White Oak graded schools
sang "The Bonnie Blue Flag." The
children of the city schools sang
"Hail, Greensboro," and after a se-
lection by the audience the formal ex-
ercises were brought to an end.

The judges of the parade were:
C. M. Vanstort, chairman; Mrs. G.
W. Whitsett, Mrs. R. C. Hood, Mrs.
J. Sterling Jones, Mrs. F. P. Morton
and Mrs. J. W. Faisley. Prizes were
awarded as follows:

For the best appearance in the line
of march, Proximity graded school,
first prize; Asheboro street school,
second prize, with honorable mention
for the Davie street school, the Nor-
mal training school, Whitsett Insti-
tute and the Pleasant Garden high
school.

For the most unique appearance in
the line of march, the Gibsonville
graded school, first prize; White Oak
graded school, second prize. The de-
cision between these two schools was
so close that the committee drew
straws to determine how the prizes
should be divided.

The other prizes, which are based
on numbers in the line of march, the
greatest percentage of average at-
tendance, etc., cannot be awarded un-
til County Superintendent Foust re-
ceives reports from the various
schools. Blanks for these reports
have been mailed from the county
superintendent's office and the awards
should be announced within the next
few days.

TWO FINE ADDRESSES.

Superintendent Joyner and Dr. Knapp
Spoke to Guilford People.

The program of Greensboro's edu-
cational day included addresses by
Prof. J. Y. Joyner, state superintend-
ent of public instruction, and Dr.
Seaman A. Knapp, of Austin, Tex.,
who is employed in the co-operative
demonstration work of the United
States Department of Agriculture.

Prof. Joyner spoke in the Grand
opera house at 3 o'clock in the af-
ternoon to a number of teachers,
committeemen and others interested
in the progress of public education.
He congratulated the people of Guil-
ford upon the development of the
schools of the county and said the
splendid parade of the forenoon was
a stronger argument for education
than could be made by any orator.

The speaker impressed upon the
teachers and committeemen the re-
sponsibilities of their positions and
stressed the fact that the purposes
of the home, the church and the
school have for their object the prop-
er training of the children.

Following Prof. Joyner's address,
Dr. Knapp spoke to a small but ap-
preciative audience in the Smith Me-
morial building. Dr. Knapp spoke
on the general theme of education,
saying true education is only that
knowledge which renders one better
equipped for his particular vocation
in life; knowledge that enables one
to develop and utilize the hidden
treasures of earth and air which the
Creator has designed for his pleas-
ure or comfort.

Dr. Knapp pictured the American
farmer as a king and showed how
millions of money could be saved an-
nually if the American women, who
spend the larger share of the money
earned by the American work-
men, were properly instructed in the
matters of food and clothing from a
scientific and hygienic standpoint.

He wanted to see the American wo-
man educated up to a standard where
her taste would be sufficiently devel-
oped to create her own styles and re-
fuse to wear an inverted dishpan on
her head simply because some for-
eign manufacturer offered it for sale.

IMPROPER CONDUCT CHARGED.
Sensational Occurrence in Superior
Court—Verdict Set Aside.

There was a sensational occurrence
in Guilford Superior court Monday
morning when the jury returned a
verdict for the defendant in the case
of J. D. Helms vs. C. E. Holton, and
ex-Judge R. C. Strudwick, of counsel
for the plaintiff, asked that the ver-
dict be set aside on account of im-
proper conduct on the part of one of
the jurors. When asked by Judge
Biggs to specify his charge, ex-Judge
Strudwick stated that he desired to
submit affidavits showing that Mr.
Thomas S. Groome, a member of the
jury, had held conversation with Mr.
Holton, the defendant, during the
progress of the trial.

Mr. Groome hotly resented the al-
legation of improper conduct on his
part and requested the court to make
a full investigation of the matter at
once. He was joined in this request
by counsel for Mr. Holton and Deputy
Sheriff Lane, the officer in charge of
the jury. Judge Biggs stated that he
would return to Greensboro im-
mediately upon the adjournment of Al-
amance court, his week and give both
sides a hearing.

Judge Biggs returned from Graham
yesterday evening and heard the mat-
ter last night, the hearing lasting
from 8 until 11 o'clock. The peti-
tioner for a new trial was represented
by Maj. Charles M. Stedman and
ex-Judge Strudwick, the motion being
resisted by Messrs. R. R. Kink, A.
B. Kimball and Thomas S. Beall,
representing Mr. Holton and Mr.
Groome.

Attorneys for Mr. Helms introduced
affidavits from Mr. W. B. Sellars
and Mr. T. G. Snell to the effect that
Messrs. Holton and Groome had been
seen in conversation in Holton's drug
store last Wednesday night, after
the trial of the case had begun. Other
affidavits were introduced to show
that Mr. Groome visited the drug
store during the progress of the trial.

Both Mr. Holton and Mr. Groome
made affidavit that they had not con-
versed with one another during the
trial. In addition, several affidavits
were introduced to show that, on the
night in question, Mr. Holton did not
leave his home except to attend pray-
er meeting and a church conference
at the First Baptist church, return-
ing home before the time of the al-
leged conversation with Mr. Groome.

Mr. Groome's fellow jurors also made
affidavit that no improper influence
had been exerted upon them.

After extended argument of counsel
for both sides, Judge Biggs held
that, while the evidence did not show
that any improper influence had been
exerted upon Juror Groome, the cir-
cumstances surrounding the case
were such as to cast suspicion upon
the verdict. Therefore the verdict
was set aside and a new trial ordered.

By the very nature of the case, the
hearing on the motion to set aside the
verdict was of especial interest and
attracted much interest on the part
of members of the bar and the pub-
lic.

The suit of Helms vs. Holton was
one of the most hotly contested heard
in Guilford Superior court in a long
while and grew out of a transaction
between the litigants when they were
engaged in business together eight or
ten years ago. Mr. Helms sued for
\$6,000 on notes he held against the
defendant. Mr. Holton admitted giv-
ing the notes, but charged that he
was defrauded in the transaction and
set up a counter claim for damages
alleged to have been sustained by
him. The case was given to the jury
Saturday afternoon, and after wrest-
ling with the matter until Monday
morning a verdict of \$3,000 in favor
of Mr. Holton was returned. The case
has been on the docket for several
years, this having been the second
trial.

YOUNG WOMAN ENDS HER LIFE.

Drowns Herself in Lake at Battle
Ground in Order to Escape Life of
Shame.

Heart sick and weary of life, Mrs.
Maggie Poe, a young woman about 25
years old, yesterday committed sui-
cide by drowning herself in the lake
at Guilford Battle Ground. The act
was committed shortly before 12
o'clock and about 1 o'clock the body
was recovered from the water. The
young woman left behind evidence
showing that a wined life was re-
sponsible for the desperate deed.

Mrs. Poe, who was known to her
associates in Greensboro as Miss Mag-
gie Poe, left her boarding place on
Dick street yesterday morning and
walked a portion of the way to the
Battle Ground, traveling the remain-
der of the distance in a wagon driven
by two colored boys. She left the
wagon at the Battle Ground and was
seen by Mrs. Robert Thomas and
daughter walking in the direction of
the lake. While the woman's action
appeared a little peculiar, no particu-
lar attention was paid to her.

While returning from a corn-shuck-
ing at a neighbor's shortly after 12
o'clock Mr. Thomas saw a woman's
cloak and hat on the dam of the lake,
and when told by his wife of the pres-
ence of a strange young woman in
the vicinity, he became suspicious
and organized a searching party to
drag the lake. With the assistance
of Messrs. Martin, McNairy and other
neighbors whom he summoned, Mr.
Thomas soon recovered the body from
the water.

The county authorities were notifi-
ed immediately and late in the af-
ternoon the body was brought to
Greensboro and carried to Undertaker
Poe's establishment, where it was
identified by friends.

It was learned that the dead wo-
man was the daughter of Mr. and
Mrs. William L. Poe, who reside
about three miles from Siler City,
and the divorced wife of Mr. Carey
Poe, a young farmer of the same sec-
tion. The couple separated by mutu-
al consent about three years ago,
a divorce being procured later. Mrs.
Poe had resided in Greensboro about
two years and had been employed in
the cigar factory until Saturday night.

One of the first persons to identify
the body was Arthur Martin, a young
man who came to Greensboro about
three months ago and who had been
with the young woman frequently of
late. Martin stated that he had
known the young woman about two
months and that it was his intention
to marry her. When he called on her
Saturday night, she told him she was
in great trouble and intended to end
her life.

Monday night Martin called again
and was told by the young woman
that she had written two letters—one
to him and one to her mother—which
would explain everything after she
was gone. Martin secured possession
of the letters, and under promise that
he would help her in her trouble, ex-
acted a promise from the young wo-
man that she would do nothing rash.

In the letter to her mother Mrs.
Poe exonerated Martin from all
blame in connection with her mis-
fortune and named as the author of
her ruin a young man who recently
left the city.

The father of the unfortunate young
woman arrived in the city this morn-
ing and arranged to carry the body
home for burial.

MEDEARIS-WHARTON WEDDING.

Greensboro Couple Plight Their Troth
in Kentucky Today.

The friends of the young couple
will be interested in the announce-
ment of the marriage of Mr. J. I. Me-
dearis and Miss Hattie Wharton, of
this city, which is scheduled to take
place at noon today at the home of
the bride's brother, Rev. C. N. Whar-
ton, in Morganfield, Ky. Rev. Mr.
Wharton performing the ceremony.
Arrangements for the wedding had
been made before Miss Wharton left
Greensboro recently on a visit to her
brother's family.

Mr. and Mrs. Medearis will visit a
number of points of interest and be
at home in Greensboro after Thurs-
day of next week.

Mr. Medearis is a member of a
well known family at Summerfield
and has made his home in Green-
sboro for several years. He is a prom-
ising young business man and is a
member of the firm of the Ricks-
Donnell-Medearis Company. His bride
is a member of one of Guilford's old-
est families, being a daughter of the
late W. D. Wharton, and is a young
woman of many graces and accom-
plishments. The friends of the young
couple extend to Mr. and Mrs. Me-
dearis congratulations and best wish-
es for a long and happy life.

Rockefeller Tells Sunday School Class How He Learned to Swim.

Cleveland, O., Nov. 7.—"Often I
meet nothing but struggle," John D.
Rockefeller told the Euclid Avenue
Baptist Sunday school today. "But I
think it is a great blessing. I remem-
ber when I first learned to swim in
New York 60 years ago. I had to kick,
splash and struggle. I have been
struggling ever since. If we do not
have to struggle, we will be weak-
lings; to be strong we must struggle
always."

He might have added that we are
all mariners on the great sea of
mortal life, and that a good savings
bank account is the best life pre-
server. The "saving habit," like the
"swimming lick," is not easily for-
gotten; but to be a good savings bank
depositor, one must continue to
"kick, splash and struggle" and add
to it every day. Begin today for
yourself, and teach your children to
swim in the great sea of humanity
by starting a savings account at the
Home Savings Bank, Greensboro.

Mr. Hal Hayes, a former resident
of Greensboro, died Thursday after-
noon at the home of his brother, Mr.
J. M. Hayes, in Burlington. The re-
mains were brought to this city and
carried to the home of Mr. W. F.
Causery, from which place the funeral
was held Friday afternoon. Mr. Hayes
had resided in Richmond for several
years, holding a position with the At-
lantic Coast Line.

The ten-months-old infant of Mr.
and Mrs. W. J. Smith, who live on
the Patterson place a few miles south
of the city, was found dead in bed
Thursday morning about 10 o'clock.
The child had been left in bed while
its mother was attending to her
household duties. Later the mother
was horrified to find it dead. The
baby had rolled between the bed and
the wall, the cover smothering it to
death.

The funeral of Mr. L. D. Hicks,
whose death was noted in last week's
Patriot, was held from the First Re-
formed church Thursday, the services
being conducted by Rev. Shuford
Peeler and interment made in Greene
Hill cemetery. Mr. Hicks is survived
by two sons and three daughters—
Mr. H. L. Hicks, of this city; Mr. T.
A. Hicks, Atlanta, Ga.; Mrs. Laura
Low, Charlotte; Mrs. Sallie Turner,
Charlotte; Mrs. Petty Blanchard,
Burlington.

The board of trustees of Greensboro
Female College held a meeting at the
college Thursday and found the af-
fairs of the institution in excellent
shape. The \$100,000 endowment fund
has been completed and the trustees
were very much gratified over this
fact. They addressed letters of
thanks and appreciation to Messrs.
B. N. Duke and Andrew Carnegie for
their liberal gifts, which enabled the
college authorities to raise the en-
dowment fund.

It isn't so difficult to strengthen a
weak stomach if one gets at it
correctly. And this is true of the
Heart and Kidneys. The old fash-
ioned way of dosing the stomach or
stimulating the Heart or Kidneys is
surely wrong! Dr. Shoop first point-
ed out this error. "Go to the weak
or ailing nerves of these organs,"
said he. Each inside organ has its
controlling or "inside nerve." When
these nerves fail then those organs
must surely falter. This vital truth
is leading druggists everywhere to
dispense and recommend Dr. Shoop's
Restorative. A few days test will
surely tell! Sold by Greensboro Drug

For More Strict Sabbath Observance.

At a quarterly meeting of the
Greensboro City Union of Christian
Endeavor, held in Grace M. P. church
Thursday night, the following resolu-
tion concerning a more strict observ-
ance of the Sabbath was adopted:

"We, the Greensboro City Union
of Christian Endeavor, believing that
the Sabbath day should be observed
as a day for divine worship, do heart-
ily approve of and pledge our sup-
port to any practical ordinance that
has for its purpose the prohibiting
of unnecessary labor and the sale of
all things on the Sabbath, except
meals or medicine."

CONFERENCE ON PELLAGRA.

National Association Formed at Meet-
ing Held in Columbia.

Columbia, S. C., Nov. 4.—The na-
tional association for the study and
prevention of pellagra was formally
organized here tonight at the conclu-
sion of a two days' conference on pel-
lagra attended by more than 300 phy-
sicians, the first meeting of national
scope held in this country for the
study of this disease. Dr. J. W. Bab-
cock, superintendent of the South
Carolina state hospital for the in-
sane, Columbia, was elected president
of the association; Dr. William A.
White, superintendent of the United
States hospital for the insane, Wash-
ington, D. C., vice president, and Dr.
George A. Zeller, superintendent of
the state hospital for the insane,
Peoria, Ill., secretary-treasurer. Later
a vice president for each state in-
terested in the movement will be
named.

The first annual pellagra congress
to be held under the auspices of the
association is scheduled for June,
1910, in Peoria, Ill., which city was
chosen without a contest.

The association following the pre-
sentation of forty odd addresses and
papers by men prominent in the med-
ical profession, covering a wide range
of investigation of pellagra in the
United States and foreign countries,
unanimously adopted the following
resolutions, presented by Dr. J. How-
ell Way, of the North Carolina board
of health:

"Resolved, That this conference
recognizes the widespread existence
of pellagra in the United States and
urges upon the national government
the necessity of bringing its powerful
resources to bear upon the vital ques-
tion of its cause, prevention and con-
trol."

"Resolved, That while sound corn
is in no way connected with pellagra,
evidences of the relation between the
use of spoiled corn and the preva-
lence of pellagra seem apparent, that
we advise continued and systematic
study of the subject, and, in the
meantime, we commend to corn grow-
ers the great importance to fully ma-
turing corn upon the stalk before
cutting the same."

"Resolved, That the work of this
conference be brought to the atten-
tion of the various state and terri-
torial boards of health, and they
generally be urged to specially inves-
tigate the disease, particularly as re-
gards its prevalence, and that they
also see that the proper inspection
of corn products sold in the various
states be had."

New Trial in Adams-Butler Case.

The Supreme court last week
granted a new trial in the celebrated
Adams-Butler case, which was heard
at the April criminal term of Guil-
ford Superior court, Judge Long pre-
siding. The case will come back for
trial at the December term of court,
but it is not known whether it will
be heard at that time or not.

It will be remembered that the
case grew out of alleged libelous pub-
lications in the Raleigh Caucasian re-
flecting upon ex-Judge Spencer B.
Adams while he was chief justice of
the Indian citizenship court in Indian
Territory. Judge Adams entered
both civil and criminal actions for
libel against ex-Senator Marion But-
ler, president of the company publish-
ing the Caucasian, and his brother,
Lester Butler, managing editor of the
paper. Upon their conviction Judge
Long fined Marion Butler \$500 and
Lester Butler \$250, the costs being
divided between the two.

SUIT IS THREATENED.

Mecklenburg Men Allege Guilford Has Infringed on Their Patent.

Messrs. S. K. Stowe and W. G. Starnes, of Mecklenburg county, who a few years ago patented a movable convict camp, threaten to bring suit against Guilford county for an alleged infringement of their patent. The Charlotte Observer of yesterday had the following notice of the threatened lawsuit:

"Notice has been served by Messrs. Sam Stowe and W. G. Starnes on the county commissioners and highway commission of Guilford county ordering that they cease infringing on the patent held by them covering a movable convict camp. Royalty on the sum of \$750 has been asked, which if not paid, an injunction will be secured restraining said commissioners from using the machine now in operation. It is understood that there are one or more other counties using the Stowe-Starnes portable convict camp without first securing the necessary permits from the patentees. Suits will be entered at once against them."

At the last meeting of the board of county commissioners Messrs. Stowe and Starnes presented a bill of \$750 for the right to make and use their portable convict camp in Guilford, the commissioners referring the Mecklenburg gentlemen to the highway commission.

Mr. John L. King, chairman of the highway commission, says he visited Mecklenburg and inspected the portable camps in use by that county. Mr. Starnes was requested to come to Guilford and build similar camp houses to be used by the highway commission, but the Mecklenburg men explained that he was unable to do so at that time. Whereupon the members of the Guilford highway commission proceeded to have portable convict camps built after their own plans and specifications.

Chairman King asserts that the convict houses in use in Guilford are different from and superior to those in use in Mecklenburg and that the charge of infringement cannot be sustained.

LECTURE ON THE HOOKWORM.

Government Expert Addresses Guilford County Medical Society.

At a well attended meeting of the Guilford County Medical Society Saturday afternoon an address on the hookworm was delivered by Dr. C. W. Stiles, an expert in the employ of the United States government, who has devoted much attention to a study of this disease, which is said to be prevalent in many sections of the South. The address was delivered in the assembly hall of the Carnegie library, and in addition to the physicians present, was heard by a number of laymen.

The address was illustrated by stereopticon views, by means of which Dr. Stiles showed the relative prevalence of the disease in different sections of the country. He paid special attention to the lack of proper sanitary regulations around most rural schools and churches, as well as a large majority of the farms, saying that to this condition is due largely the prevalence of the hookworm disease.

In the course of his lecture Dr. Stiles stated that, during the forenoon, he had, in company with two local physicians, driven through sections of the city and suburbs and had discovered fifteen or twenty well developed cases of hookworm. One of the patients, a girl of 12 or 13 years, was before the physicians and her case was explained by Dr. Stiles.

According to Dr. Stiles, the remedy for hookworm is quite simple and the disease can be eradicated in a short time when the treatment is strictly adhered to.

At the conclusion of the address the society adopted the following resolutions, which were presented by Dr. J. T. J. Battle:

"Whereas, The beneficent and philanthropic Mr. John D. Rockefeller has contributed one million dollars for the study and eradication of the hookworm, which was actuated by the investigation of Dr. C. W. Stiles, therefore, be it

"Resolved, That the Guilford County Medical Society, realizing the great prevalence of this disease among our people, urgently request the commission to establish its headquarters within our state.

"Resolved, second, That this society hereby pledges its hearty co-operation to the work of the commission, and while regretting the infection of so large a proportion of our population with hookworm, yet we have from experience as practitioners to accept as a fact the conclusion of Dr. Stiles and we hereby tender him the thanks of the medical profession for his great service to humanity."

SCHOOL PRINCIPALS MEET.

North Carolina Educators Discuss Matters of Practical Interest.

A meeting of the principals of North Carolina public schools was held in Greensboro Friday and Saturday. The meeting was presided over by State Superintendent Joyner, who, in calling the opening session to order, made a brief address outlining the duties of the high school principals and stressing the importance of this work.

Dr. C. W. Stiles, of the National government, followed Professor Joyner, giving an illustrated lecture on the hookworm.

Following Dr. Stiles was Professor Battle, who made a short but interesting address. Professor Brogdon, of Raleigh, also made a brief speech. At the Saturday morning session considerable time was taken up discussing in an informal way matters pertaining to the welfare of the high school movement, State Superintendent Joyner, Inspector N. W. Walker and several of the principals taking part.

At the conclusion of the morning session an organization was perfected, the following officers being elected:

President, Dr. Stephen B. Weeks, of Trinity high school; vice president, M. B. Dry, of Cary; secretary, E. M. Highsmith, of Chapel Hill; press correspondent, Herbert Scholz, of Macon.

These officers and P. H. McIntyre, of Holly Springs, constitute the executive committee.

The executive committee was given power to act on all matters pertaining to the welfare of the body and especially with reference to the improvement of high school libraries and preparing a constitution for the association.

The matter of applying to the State Teachers' Assembly for recognition on its program was referred to Superintendent Joyner and N. W. Walker.

The public high schools of North Carolina were established under an act of the general assembly of 1907 and the first year these schools enrolled 4,949 pupils; last year 5,282 were enrolled, an increase of 34 per cent. over the first year. This year the number will reach 7,000 or possibly 7,500 in the 175 high schools now in operation.

Meeting of County Superintendents.

Unsolved Mystery Surrounds Death of Winston-Salem Man.

A dispatch sent out from Winston-Salem Friday gives the following information concerning the death of Mr. J. J. Reed, who was well known to many people in Guilford, Rockingham and Forsyth counties:

"J. J. Reed, a local merchant, who was found in the woods in the northern part of town on Monday of last week with a bullet wound in his left breast and one near his temple, died at the hospital here this morning. Attending physicians say paralysis, and not wounds, was the direct cause of Reed's death. The shooting was a mystery and is yet unsolved. Reed told the officers that Ernest Dimott shot him, but yesterday a pistol owned by Mrs. Reed was found by a negro a few feet from where Reed was found, and the belief is now quite general that Reed shot himself. He was unconscious when the pistol was located, hence no further statement could be secured from Reed. Dimott is in jail, but will probably be released after the preliminary hearing."

The remains were conveyed to Stokesdale, the former home of the deceased, where the funeral and interment took place. He was a member of the Baptist church.

(Since the above was put in type Dimott has been released from custody.—The Patriot.)

CUMMINS AFTER CANNON.

Iowa Senator Assails Speaker of House of Representatives.

Chicago, Nov. 6.—Senator Cummins, of Iowa, in an address before the Marquette Club tonight, made a spirited reply to Speaker Joseph G. Cannon, who recently criticized the attitude of the senator and "insurgents" as to the tariff, and declared that Senator Cummins practically proposed to join hands with Bryan.

Mr. Cummins branded the latter assertion as false, declaring it to be "simply an appeal to blind passion, and a senseless prejudice."

Furthermore, he said, there was no intention to accept as final, the revision of the tariff against which the "insurgents" voted.

"I marvel at not only the audacity but the madness which inspires the attack which has been made upon the insurgents, for if Mr. Cannon and his allies shall be successful in putting every man out of the Republican party who would not have voted for the tariff bill had he been a member of Congress, he will have eliminated a majority of the Republicans in every Northern state from Ohio to the Rocky Mountains," declared Senator Cummins.

Further along, the speaker said: "To say that the tariff bill just adopted is not a fulfillment of the Republican platform is only the truth, and it contains no invitation or suggestion to any Republican to forsake his party candidate."

Mr. Cummins said that the Republicans in sympathy with the insurgents intended to reduce the influence of leaders in the party, mentioning Senator Aldrich, Speaker Cannon and Representative Payne in this connection, to that point at which they will feel it necessary to consult rather than command.

"Our struggle," he declared with emphasis, "will not be to exclude anybody from the Republican party; but upon the principle involved, we ask no quarter, and shall give none."

Mr. Cummins said he intended to strengthen a crusade for a tariff commission. Railway rate regulation and the currency question were also discussed by the speaker.

Conductor Held Passenger While Woman Chastised Him.

Thomasville, Ga., Nov. 5.—On a Coast Line train from Albany today, a Mrs. McBride, of New Orleans, delivered several vicious swings upon both cheeks of a man who had accosted her. The man, said to be named Faircloth, is thought to have been intoxicated, and as he was about to leave the train at Camilla, Mrs. McBride complained to Conductor Lewis that the man had insulted her. The conductor forthwith coiled the offender and pinning his arms behind him, held him firmly while Mrs. McBride, who is slight of stature, slapped both cheeks until they were crimson.

The incident was witnessed by all the passengers in the coach and caused considerable excitement.

PARTY READY TO QUIT.

Col. Roosevelt's Strenuous Worries His Companions.

Chicago, Nov. 6.—Members of the party of Theodore Roosevelt on his hunting trip in Africa are "tired to death and ready to quit," according to E. W. Newman, who returned to Chicago today from a tour through East Africa, over the same ground as that traversed by the former president.

Mr. Newman met the Roosevelt party last July at Nairobi, British East Africa, and had a long talk with the former president and his hunting companions. Regret over criticism aroused in America by the slaughter of animals was expressed by Mr. Roosevelt, according to Mr. Newman.

"I regret very much the criticism and claim of want on slaughter of animals which I have heard has come from America," Mr. Newman quotes Col. Roosevelt as saying, "because I have only been killing one specimen and no more, except in the case of lions, a pest to humanity. In the case of the lions I have received the heartiest thanks of the people of the neighborhood in which I have killed the beasts. I am not a good shot, the famous hunter said to the Chicagoan, 'but I shoot often.'"

"The people of the land are amazed at the energy of the former president," said Mr. Newman. "The individual members of his caravan have been marched to death and are anxious to quit."

"The people of British East Africa declare that Col. Roosevelt talks finance to a banker, farming to a farmer, and politics to a politician with equal ease."

"I am having a bully time, and am perfectly delighted with the treatment which I have received in this country," the great hunter said to me on the occasion of my first meeting with him. We did not talk politics, and I did not ask him how many animals he had killed, being warned beforehand that these were questions which were barred."

Victim of Unloaded Gun.

Anderson, S. C., Nov. 6.—A deplorable accident occurred at Iva, this county, late yesterday when Earle Kelly shot and killed Walker Parnell, his intimate friend. The young men were returning from a hunt, when Kelly playfully pointed his gun, which he believed to be unloaded, at Parnell and pulled the trigger. The load entered the young man's face, tearing away the lower jaw and breaking the neck. Death was instantaneous. Both young men are members of well-known families and Kelly is grief-stricken. No arrest has been made.

STOPS AUTO WITH REVOLVER.

John A. Chaloner Compels Chauffeur to Lead Horse.

Cobham, Va., Nov. 6.—John Armstrong Chaloner, divorced husband of Amelle Rives, the authoress, now Princess Troubetzkoy, and brother of Lewis Stuyvesant Chanler, late Democratic candidate for governor of New York, who, a year ago, was exonerated by a jury for the death of John Gilliland, whom he shot and killed in a scuffle with Chaloner in the Merrie Mills, Chaloner's home in Albemarle county, while Chaloner was defending Mrs. Gilliland from an attack by her husband, today came again into the limelight, when he held up an automobile loaded with passengers on a public road, at the point of a revolver, and forced the chauffeur to descend and lead his horse, which had become frightened, around the machine and out of the way of danger.

There is an automobile law in Virginia which requires the drivers of all automobiles to stop on signal from any persons driving an animal, and when so required to dismount and lead the frightened animal around the machine. This is the first time that the law has ever been enforced in such a drastic manner and by a private citizen. Chaloner maintains that the revolver, which he says he is in the habit of carrying, was un concealed.

"I advise all citizens," said Chaloner, "male and female, to carry an un concealed weapon when they go out riding or driving, in order to keep the 'road hogs' in subjection."

Husband Was Too Affectionate.

Chicago, Nov. 5.—Mrs. Anne Ansley Davis, twenty-six years old, daughter of H. C. Ansley, treasurer of the Southern Railway, with offices in Washington, was granted an absolute divorce from David Shelby Davis, in Judge Dupuy's court, this afternoon.

"Shelby idealized me and placed me on a pedestal. After all, I was just a woman, and that caused the trouble between us," so said Mrs. Davis early in the day when testifying.

Mrs. Davis is the young wife who has been accused, and who has admitted, she smoked cigarettes "rather frequently."

Mrs. Davis said her husband refused to allow her to entertain Amelia Bingham, the actress, in her apartments at the Plaza, after she told him that it was generally reported that Miss Bingham was "backed by Duke, the tobacco magnate."

She testified on the night Davis proposed and was accepted, she told him she smoked cigarettes, smoking one then in his presence, but he declared he loved her too much to deprive her of any pleasure, and that he would not object. Later he did object.

Dr. Shoop's Health Coffee is created from pure parched grains, malt, nuts, etc.—no real coffee in it. Fine in flavor—is "made in a minute." No 20 or 30 minutes tedious boiling. Sample free. C. Scott & Co.

GAVE AWAY MILLIONS.

New York Millionaire Makes Greatest Gift Ever Known.

New York, Nov. 5.—John Stewart Kennedy, one of America's little known rich men, who died of whooping cough in his new York residence on Sunday last, left bequests of more than \$25,000,000 to religious, charitable and educational institutions in his will, filed for probate here today. The gift is the largest single contribution of its kind ever made, and the beneficiaries include education and church institutions, north, south, east and west in the country, and several abroad, 60 in all.

Nearly half of the \$25,000,000 goes to institutions connected with the Presbyterian church, of which Mr. Kennedy had been an active member for many years. Other large beneficiaries include the American Bible Society, the Metropolitan Museum of Art, the New York Public Library, the New York United Charities, Columbia University, and Robert College, Constantinople.

Aside from these gifts Mr. Kennedy left approximately \$35,000,000 to his wife, his relatives and a great number of friends and employees. The widow's share will be about \$16,000,000. All of the testator's employees receive gifts of from \$500 to \$2,000 each.

The charitable, religious and educational institutions which receive the largest bequests are to share the residue of the estate left after definite gifts of approximately \$12,000,000 have been paid out.

KANSAS A SUFFRAGE HAVEN.

Sixty-Two Women, Thanks to the Men, Hold County Offices.

Topeka, Kan., Nov. 8.—The women, who now enjoy partial suffrage in Kansas are beginning a campaign for universal suffrage, such as they have in other Western states, by capturing county and municipal offices. According to figures just compiled there are 62 county offices in the state filled by women. Forty-one of them are county superintendents of schools, seven registers of deeds, five clerks of District courts, four county clerks, three county treasurers and one a probate judge and one a county commissioner.

Women do not vote for county offices in Kansas, so the gallantry of the men is attested by the fact that no woman, unless she was a candidate against some other woman, ever has been defeated at the polls.

FARMERS VISIT GREENSBORO.

Representatives of 38 States Spend Friday Afternoon in the City.

Greensboro had the honor Friday of entertaining the delegates in attendance upon the National Farmers' Congress in Raleigh. The visitors comprised over 400 farmers from 38 states, the party reaching Greensboro about 1 o'clock in the afternoon on a special train from Raleigh. Accompanying the farmers were Col. M. V. Richards, land and industrial agent of the Southern Railway, and General Superintendent Westfall, of the Southern. A committee of Guilford citizens joined the party at Burlington and the special train was met at the station in this city by a reception committee.

After taking dinner at the various hotels in the city, the visitors were conveyed by the special train to Guilford Battle Ground, where a short time was spent in viewing the monuments and other points of interest on that historic spot. From the Battle Ground the visiting farmers were carried to White Oak, where some time was spent in going through the world's largest denim mill. A majority of the visitors had never before been inside a cotton manufacturing plant, and what they observed at White Oak was a revelation to them.

After passing through the various departments of the mammoth plant, the visitors were escorted to an improvised assembly hall in the north end of the weaving building, where employees of the mill served lemonade and distributed souvenirs in the form of booklets illustrating the plant and telling of the work done there. Every member of the party was presented with a neat package containing a sufficient quantity of denim to make a pair of overalls.

Col. Benahan Cameron, president of the National Farmers' Congress, presented Hon. E. J. Justice, who delivered a neat and appropriate address of welcome.

Mr. Justice was followed by Hon. James Wilson, secretary of the United States Department of Agriculture, who spoke briefly of the work of his department and its value to the whole American republic. In beginning his remarks he complimented North Carolina upon the wonderful progress the state is making along agricultural and manufacturing lines. The speaker referred to the work of the department in enforcing the pure food law, saying he was especially proud of this accomplishment on account of what it is doing toward safeguarding the health of the public. He gave a brief account of what the government is doing in teaching the value of intensified farming and told how training has enabled many farmers to increase the yield per acre and therefore make more money without so much labor.

After returning to the city the visiting farmers had supper, after which they boarded their special train upon their return to Raleigh, where the congress was to continue its sessions for a day or two.

Among the visiting farmers were a number of people who either emigrated from North Carolina or are descendants of North Carolinians. These people were from Indiana, Illinois, Iowa, Kansas, Missouri and other states. It was noted that Illinois had the largest delegation in the party, the representatives of that state number 136 farmers.

Wrote His Will on Wall.

Savannah, Ga., Nov. 4.—Peter G. Leist, fifty years old, was found at his residence today dead in a chair. Acute indigestion or heart trouble is thought to have been the cause of death.

An indication that Leist feared death would come soon was evidenced by the fact that he had written his will on a wall of the room in which he lived. Leist decreed all his property to his eight-year-old son, Peter G. Leist, Jr., who is now at school at Sharon, Ga., and named Henry or Harry Dreyer, of Brooklyn, N. Y., as his heir in the event of the death of his son.

Petrified Till She Died.

New Orleans, Nov. 7.—Death from gradual petrification, the body slowly hardening for a year, until the flesh became as adamant as marble and proof against incisions, was the report made today in the case of Mrs. Catherine Barrow, 45 years old, of Rosedale, La., who succumbed in the Charity hospital. Physicians were unable to diagnose the malady, but it is believed the woman was afflicted with a form of skin disease involving all the tissues of the body. Medical scientists expressed the belief that embalming was unnecessary, and that the woman's relatives might retain the corpse permanently.

CHANGE IN TEACHERS' MEETING.

Will be Held at Court House Week Later Than Regular Time.

The next meeting of the Guilford County Teachers' Association will be held Saturday, November 20, a week later than the regular time. County Superintendent Foust has mailed the teachers the following letter calling their attention to the change in the time and also in the meeting place:

"Dear Teacher—After consulting quite a number of the teachers whom I have seen during the past four or five days, I have decided to postpone the meeting of the County Teachers' Association one week. As you know, the regular time for our meeting is Saturday, November 13, but we will have it on Saturday, November 20, beginning at 10 o'clock. The meeting will be held at the court house, and not at the Pomona graded school building."

"These two changes are made because I believe, and the teachers whom I have seen agree with me, that it is best to have two weeks' work after our educational rally day, and the court house is much more convenient than the Pomona graded school building. If the Pomona school were in session, and we wanted to do observation work there, then I would not make this change."

"The work of the association at its next meeting will be that part of Hamilton's 'Recitation' which is covered by North Carolina Education in the October and November issues."

"I earnestly urge every teacher in the county, who is not providentially hindered, to be present at the meeting on November 20. I confidently expect the best attendance we have had since the organization of the association, because we are now entering upon a definite work, and no teacher can afford to miss any part of that work."

"All the schools will be running at that time, and when the roll is called of those who are teaching in the county, I shall expect every one to respond when his or her name is called."

"Please call on me whenever I can be of any service to you."

"Sincerely yours,

"THOS. R. FOUST,

"County Superintendent."

Copenhagen Declines Offer.

Copenhagen, Nov. 6.—The proposal of the National Geographic Society that a committee representing the American body be present when the north polar records of Dr. Cook are first examined was declined today by the consistory of the University of Copenhagen.

A message was sent to Prof. Willis L. Moore, president of the National Geographic Society at Washington, as follows:

"The university cannot accept the offered assistance, taking it for granted that the data and records after our examinations will be placed at the disposal of other scientific institutions."

A member of the consistory said later that the university expects to receive Dr. Cook's records soon.

Railroad Shops Burned at Newbern.

Newbern, Nov. 6.—Fire early today almost completely destroyed the plant of the Norfolk & Southern Railroad here. The loss is estimated at \$300,000. In addition to the round house, foundry, blacksmith and boiler shops the flames reduced to scrap two locomotives, two passenger coaches and three freight cars. New machinery, valued at over \$23,000, is included in the loss.

The fire started at or near the boiler room and had made considerable progress before its discovery. By quick and skilful work a number of locomotives were fired and considerable rolling stock was thus moved out of danger. One hundred and fifty men are thrown out of employment. Many of the men lost their tools, and the loss from this source will be \$5,000.

Her Children to Poorhouse.

Pottsville, Pa., Nov. 4.—Pathetic was the appearance at the court house today of Mrs. Stephen Yenkon, of Black Wood, and her family of five children, ranging in age from two years to ten years, who asked to their care because the court had deprived them of the support of their father, who was sent to prison for theft. She said she didn't care so much for herself, but she could not bear to see her little ones starve.

The children were sent to the almshouse, where they will be kept until the father serves out his term.

The mother heroically declined to become a charge on the county, and declared her intention of earning her own living, and she will visit her little ones whenever she gets the opportunity.

Calls Taft a Four-Flusher.

Russellville, Ark., Nov. 4.—"There are some potatoes in every patch that are speckled. There are also some that are rotten. This is the case in the United States senate," said Senator Davis, who addressed a large crowd here, touching on national matters rather than state.

The senator was alluding to a speech in the senate he had made, and concluded that "there are lots of rotten vegetables there that ought to be left at home."

"Taft is down South," said Senator Davis, "trying to make people think he will fix up our channels and waterways. He's four-flushing. I think we will have a Democratic Congress after next session."

STIRRING STOKESDALE.

Substantial Growth of Live and Hustling Community—News Notes.

Correspondence of the Patriot.

Some people form the idea, judging from the name, that Stokesdale is in Stokes county. This is an error. Stokesdale is in the good old county of Guilford and is the metropolitan of that part of Guilford lying north and west of Haw River.

This part of Guilford is perhaps the finest tobacco growing section in the county and contains many excellent people and up-to-date farmers. We have good graded roads, but not a foot of macadam road, notwithstanding we voted for the bond issue and were given to understand that every part of the county would share alike in the benefits.

If we are not given some macadam roads soon, we shall feel like petitioning the legislature to detach us from Guilford and attach us to Forsyth, feeling sure that Forsyth would extend her macadam road into this fine tobacco section without delay.

Stokesdale is a live, growing town. Five years ago we had only five stores; now we have eleven. There are two grist mills, one sawmill, two repair shops and a box factory.

Early in the present year the Stokesdale Commercial Bank opened for business and is doing well.

The best depot building between Sanford and Mt. Airy is to be found here. Quite a number of good dwellings have gone up this year and others are now in course of erection. Three of the new store buildings are of brick and would look all right in the city of Greensboro.

Mr. Eli Thomas, our efficient shoe mender, died October 31, after a long and severe illness. He was an honest, upright man and a good Christian. He will be much missed.

The little child of Mr. and Mrs. Edmondson, of Greensboro, was buried here Tuesday last week.

A Mr. Reed, who died in Winston, as the result of a pistol shot from unknown hands, was buried here Saturday.

Our graded school failed to attend educational day in Greensboro in a body, because neither an extra car or reduced railroad rates could be obtained. Prof. Pegram and a number of the students attended, but not enough to join the procession and make a creditable showing.

The Women's Betterment Association will give an entertainment in the graded school building in the evening of Thanksgiving day, consisting of thanksgiving songs and recitations, to be followed by a box party. The public cordially invited to be present.

The conference year closes with our M. E. and M. P. friends with next Sunday. Our resident ministers—Rev. W. F. Kennett, of the M. P. church, and Rev. Mr. Hendren, of the M. E. church, are each rounding up a good year's work and will both probably be returned for another year.

RAMSEUR ITEMS.

The chrysanthemum show held here on the 3rd and 4th inst. was a very enjoyable and profitable occasion. The first prize—a five dollar gold piece—was won by Mrs. Dr. C. S. Tate.

Mrs. Wade Andrew and child and Miss May Hardin, of Ore Hill, visited friends and attended the flower show here last week.

Mrs. Stephen Willett and children, of Bear Creek, spent the past week with relatives in town.

Mrs. J. C. Marsh and child, of Greensboro, have been visiting Capt. and Mrs. Y. M. C. Johnson.

Miss Annie Black, of the High Point graded schools, spent Saturday and Sunday with her mother and family.

Misses Anthony, of Vandalia, are visitors in town.

Mr. W. E. Hammer has rented the store of Mr. A. L. Jones and has opened up a stock of general merchandise in the western part of town.

Mrs. Roddy Swaim, of Sandy Creek, was the guest of Mrs. W. H. Watkins for several days the past week.

Notice.

All parties owning land on Horse-creek, in drainage district, are hereby notified to remove all obstructions from the channel of said creek, and stop washes that are calculated to fill said creek with sand, etc.

THE NEWS FROM WHITSETT.

Well Represented in Greensboro Friday—Another Telephone Line.

Correspondence of the Patriot.

Capt. J. A. Wimbish, of Loudon, Va., is here on a visit to his son. This is his second visit in some years and he is greatly surprised at the rapid growth of the place.

Mr. J. D. Paul, of Oak Hill school, and Mr. D. P. Clapp, of the Mechanicsville school, are here visiting friends.

Rev. J. D. Andrew preached here Sunday. At his next appointment Rev. Shuford Peeler, of Greensboro, will preach. Rev. Mr. Andrews is just back from Woodstock, Va., where synod met.

The Methodist church services closed Thursday night. Four joined the church and there were a number of conversions. The services were largely attended.

Mr. S. C. Wooten, a prominent young attorney of Greenville, who was so badly hurt in an automobile accident last week, is a graduate of Whitsett and has many friends here.

The Bell Telephone people are getting up a new line to run into this place. One already comes in from Gibsonville.

Whitsett Institute students went to Greensboro last Friday and took part in the parade. All were greatly pleased with the trip, and the occasion will long be remembered. It is much to be regretted that Ambassador Bryce, Dr. Knapp and others of the distinguished visitors did not reach the auditorium to see the thousands of students there gathered and address them, even briefly. (The Whitsett students made a fine showing in the parade and the judges were unanimous in voting them "honorable mention" in awarding the prizes for the best appearance in the line of march.—The Patriot.)

Miss Lula Smith and sister, of Graham, were here Sunday.

Messrs. Robinson and Brown, of Graham, were visitors the first of the week.

Mr. and Mrs. Ernest Clapp were down from Greensboro Sunday afternoon.

Fully two hundred from here were in Greensboro Friday for educational day, besides many from the surrounding country.

Mr. L. A. Carmon is away on a business trip to South Carolina.

Mr. John H. Rankin has purchased the eight-room house formerly owned by Mrs. M. E. Hoffman. It will be for rent at Christmas and is a good home for some nice family.

The Y. M. C. A. has begun work upon an elaborate programme for Thanksgiving.

GUILFORD COLLEGE ITEMS.

The college has been favored with another visit from Miss Sophie Fry, of England, who since her former visit has spent a month in travelling over North Carolina and visiting many of the Friends' meetings. She spoke in a very interesting manner on the subject of peace at the morning collection Thursday. From here she goes to Baltimore and Philadelphia and expects to reach England the latter part of the month.

The various athletic clubs are making excellent use of the continued fine weather, and are enjoying baseball, tennis and field sports. The campus is a lively place from 4 to 6 in the afternoon. The gymnasium, too, resounds with the leaps and bounds of the athlete who prefers such sport to outdoor exercise.

Examinations are on and there is need of level heads and steady nerves, as sandy foundations are liable to be shaken.

Professor White, who is always interesting when he talks of astronomy, gave a most illuminating lecture Saturday evening upon the approaching comet.

Dr. White and bride have arrived at the home of Mrs. Margaret Sims, near the college. Dr. White is the brother of Mrs. Sims, and Mrs. White, formerly Miss Jane Pretlow, is a niece of the well-known publisher, John C. Winston, of Philadelphia.

Dr. Hobbs attended the meeting of the North Carolina Historical Society in Raleigh on the 4th, having been appointed as one of the delegates to receive the distinguished visitors.

There are 41 boys boarding in the club dining room. The perfection of the equipment for girls at New Garden hall but intensifies the desire to see a like building erected for the fine fellows who are zealously pursuing their studies in the cottages.

Miss Maud L. Gaiety is rapidly regaining her strength at her home near Fayetteville. She will resume her work at the college in a short time. During her absence her sister, Miss Elizabeth Gaiety, has filled her place, and has won the esteem of every one about the college.

Did You See That Gasoline Engine?

The one that took the first prize and ran the wood working machinery for the Wysons & Miles Co. at the fair? That was the Alamo, for sale by the Clymer Machine Co., Greensboro, N. C.

This is one of the best workers ever put on this market, and if you want a perfect machine, a hard worker with steady power, call on them. This engine is the farmer's friend.

McLEANSVILLE MATTERS.

Another Veteran Pass a—Teachers of Oak Hill and Merry Oaks Schools.

Correspondence of the Patriot.

Mr. Lacy D. Hines and bride, nee Miss Price, of Greensboro, visited Mrs. Belle Hines and family here last week en route to their future home in Durham.

Mr. James M. Hendrix, of Greensboro, was here on Tuesday overseeing the surveying of some property.

Work on the Central high school building is progressing nicely. Those in charge of the work hope to have it completed by December 1.

Miss Beulah Dick is spending a few days with relatives in Asheboro.

Mrs. Robert Blackwood, who has been on the sick list for several days, is reported some better.

Edgar T. Hines, a student at Eon College, spent the latter part of the week here on business and on a visit to relatives.

We have been fortunate enough to secure the services of two very promising young ladies to take charge of the public school near here. Miss Nettie Malloy, of Reidsville, has accepted the position as teacher at Oak Hill school, while Miss Myrtle McNeely occupies a similar position at Merry Oaks schools.

Mrs. A. E. Fryar, who has been suffering with an inflamed foot, improves very slowly, her condition having been worse recently than it was several weeks ago.

Miss Ida E. Mills, of Guilford College, was here Saturday in the interest of her school work, which she expects to take up the first week in December.

Mr. Oscar W. Hines, of this place, has just returned from a trip to Raleigh to attend the sessions of the National Farmers' Congress and to visit friends at Durham en route home.

Mr. Joseph Denny, a veteran of the Civil war, and a respected citizen of this community, died suddenly Saturday afternoon, having been stricken with paralysis in the forenoon of the same day. The funeral was conducted from Bethel Presbyterian church on Monday at 11 o'clock by the pastor, Rev. J. A. Wilson. Mr. Denny was a very peaceable, neighborly man and will be greatly missed in the community.

MONTICELLO ITEMS.

Miss Mabel Howell spent Saturday and Sunday in High Point.

Miss Hattie Webb visited her aunt, Mrs. M. J. Weatherly, in your city Sunday.

Mr. G. C. Cumble and children, of South Boston, Va., visited at Mr. J. H. Rudd's the past week.

Our beautiful high school building will soon be completed.

Miss Josie Field, of Midlothian, Va., left Tuesday afternoon for her home.

Misses Blanche and Thomas Watlington spent Saturday and Sunday at home with their parents.

Mrs. W. D. Lambeth visited her sister, Mrs. Henry Lambeth, Saturday and Sunday.

Messrs. W. D. Lambeth, G. D. Green, Early and Hilary Green left Saturday to spend a fortnight in the mountains.

Mr. A. D. Hopkins and Miss Clara Rudd, of Benaja, visited at Mr. D. R. Hopkins' Sunday afternoon.

Miss Mamie Woody spent Friday night in your city.

Mr. T. D. Hopkins visited his parents Saturday and Sunday.

Miss Mabel Howell, music teacher of Monticello high school, visited the Normal College Saturday.

Messrs. Shelton Smith, Thomas Hopkins and Mr. Archer have entered the high school here.

President Taft in Wilmington Yesterday.

President Taft was a guest of the city of Wilmington yesterday and the occasion attracted thousands of people from different sections of the state. Governor Kitchen extended a formal welcome on the part of the state in an eloquent address, after which the president reviewed the school children and took a carriage ride over the city. Later he addressed the public at the city hall and in the evening attended a banquet at the Masonic temple.

The president left Wilmington last night for Richmond and will return to Washington tonight.

Rumors are Groundless.

Mombassa, British East Africa, Nov. 7.—The government, which has been investigating the rumors concerning the illness of ex-President Roosevelt, while not successful in getting into direct communication with Colonel Roosevelt and his party, has at least learned sufficient to satisfy the officials that there is no truth in these rumors. The latest dispatch received tonight from officials in the interior says:

"Nothing known here of the rumors. Eldama Ravine reports all well October 30. The Roosevelt party is now on a long safari."

Bloodline Liver Pills cure sick headaches, biliousness, dizziness, dyspepsia and constipation, 25¢ a box, mailed by the Bloodline Co., Inc., Boston, Mass. Helms Drug Store.

Neighbors Care for Crops of Sick Farmer.

Winston-Salem, Nov. 5.—Between 20 and 25 neighbors, with 30 head of horses, gathered at the home of D. M. Raper, at Enterprise, Davidson county, last Tuesday and sowed his wheat crop, gathered, shucked and cribbed his corn, hauled up his winter supply of wood and put his farm work right up to time. Mr. Raper has been in declining health for some time and has had considerable sickness and one death in his family in the past several months.

Make blood and muscle faster than any other remedy. Give health, strength and vitality. Hollister's Rocky Mountain Tea towers above all other remedies for making sick people well, and well people "well." Take it tonight. Howard Gardner.

Hanging Waits on Funeral.

Atlanta, Nov. 8.—In spite of the objection of an undertaker, who offers a free funeral if there's no delay, Governor Brown has granted 72 days' reprieve in the case of Bud Elliott, who was to have been hanged Friday for murder. Elliott's sister wrote the governor begging for delay until she could raise money for the funeral expenses. She explained that her mother will receive her pension check on November 15 and that they wish to take the body to Chattanooga for burial.

What will you take for that Cough you have? I don't want it, but if I had it I would take Bloodline Cough Checker, a 25¢ bottle will cure you. Helms Drug Store.

YOUNG MEN,

LEARN TELEGRAPHY!

Telegraph Operators are in Great Demand!

Boys, this is your opportunity to learn a first-class trade that pays a good salary every month in the year. There will be a greater demand for Telegraph Operators this fall and winter than there has been for many years past. The prominent railroads of the South and other parts of the United States are writing us to qualify as many young men of good character for their service as we possibly can. We trust that the reliable, ambitious boys of the South will rally to this golden opportunity.

Our students qualify for service in only four to six months. We guarantee positions. Graduates begin on \$45 to \$65 per month; easy and pleasant work; permanent employment; rapid promotion.

Our tuition is reasonable; board at low rates; Newman is extremely healthful; fine climate; excellent drinking water. Write at once for our new illustrated catalog. A letter or postal will bring it. IT IS FREE.

THE GUNNISON TUNNEL.

The first as well as the most remarkable of the great irrigation projects undertaken by the United States reclamation service under terms of the Carey Irrigation act is the Gunnison tunnel, which carries the turbulent waters of the lower Gunnison river by a bore 11 by 13 feet through six miles of solid mountains. The work was started several years ago, following a survey of the river by a courageous engineer who made the trip down the raging stream on a rubber raft. But many months preceding were consumed in building a wagon road on which necessary machinery and supplies could be transported to the scene of the work. In constructing the tunnel through the mountains a variety of rock and earth formations was encountered, besides natural gas, hot mineral waters and underground lakes. The tunnel is lined throughout with cement and is practically indestructible. The main canal, which receives the water from the tunnel, is thirty feet wide at the bottom, eighty-three feet wide at the top, and the average depth of water is ten feet. The capacity being 1,300 cubic feet of water per second. The tunnel was formally opened Sept. 23 at Montrose, Colo., on the occasion of President Taft's visit. The cost of the tunnel and distributing canals will be \$5,000,000. The government will be reimbursed by the sale of perpetual water rights to actual settlers at about \$35 per acre, ten years' time being allowed for payment without interest. The system will redeem and give a value of from \$75 to \$300 per acre to 150,000 acres of land that without water would not be worth \$10 an acre. The land is marvellously fertile and with the water which the system will provide will blossom like a garden.

MAKING VINEGAR.

As often as the apple harvest comes round recurs the question of a conversion of the unsalable cull stock into vinegar. After the juice of the apples has been squeezed out the barrels in which the first fermentation is to take place should be filled about two-thirds full and the bung hole filled with a cloth plug to keep out dirt and flies. When the "working" has ceased the clear portion of the liquid should be poured out and strained, if necessary, the barrels carefully rinsed out and the contents replaced, together with a couple of gallons of old vinegar with some mother in each barrel. If a few cakes of commercial yeast are added the process will be hastened, while if the original apple juice locked in sweetness a few pounds of coffee sugar will help matters along. When the second step in the process is completed—the conversion of the alcohol into vinegar—which sometimes takes place in six months and sometimes requires a couple of years, the barrels should be filled full and plugged tightly to prevent further chemical changes. Cider changes to vinegar most rapidly and with the best results under a temperature of about 60 or 70 degrees F.

WATERWITCHING.

Although the world is getting along in years and the days of witchcraft and spooks are supposedly outgrown, yet not a few folk believe firmly in waterwitching as a reliable method for selecting a place for a well. A forked stick cut from a plum or other tree is held in the hand, a fork in each hand and the V of the crotch elevated slightly. Those who have faith in the plan contend that when the person carrying the stick comes to a place where a vein or supply of water is this elevated crotch will bend toward the earth, often with sufficient force to twist the bark from the portion of the branches held tightly in the hands. In the absence of a single physical law or principle which could possibly be cited to account for such a remarkable phenomenon the average person of inquiring mind, like the gentleman from Missouri, would have to be shown before he would believe and even then might not be fully satisfied.

IS IT GRAFT?

A leading northern agricultural journal speaks in a sarcastic vein of the benefits conferred by the Gunnison tunnel because 100,000 acres of the land to be watered belong to private parties and will be worth from \$75 to \$300 per acre as soon as the water is turned on, belittles the pride which government officials feel in the completion of the tunnel and closes with: "Talk about graft—but what's the use? It's love's labor lost to paint the lily." The discerning reader will likely say that this graft—if graft it is—is not essentially different from that perpetrated when the government sold land fifty or sixty years ago for \$1.25 an acre which has benefited individual proprietors to the tune of \$100 an acre.

Georgia has 19,000,000 peach trees, and 13,000,000 of them are said to have been in bearing the past season.

Kerosene poured through the drains will not only cut accumulated grease and filth, but make it hard sledding for the bugs and bacteria that may be in them. It's cheap too.

If the cold storage egg fellows clean up a profit next spring on eggs which have been laid by at from 13 to 22 cents per dozen during the past six months, the consumer will be entitled to public sympathy.

There is seldom a cat so black but some tiny white spot may be found in its coat and rarely a person so depraved but the divine spark of moral sense and capacity to do better exists in him somewhere if one but look closely.

Of all cheap things that a fellow should keep shy of are serums for the treatment of animal diseases. The federal government has a force of men who do little else than hunt down frauds of this character, but findings are published too late to be of help to fellows who have already taken the bait.

An advantage of early fall plowing that is often overlooked lies in the fact that the greener weeds and trash on the land when turned under the larger is the number of seeds which will be killed, while the decomposition of the growth turned under will be more complete. Weeds that do germinate and show head above ground will be nipped by the frost.

The continued difficulty found in securing sufficient help to properly handle quarter section farms and larger is pointing inevitably to a reduction in farm areas as about the only effective way out of the difficulty. When this comes it will mean a more thorough cultivation of the remaining acres, more satisfaction in doing the work and as large a net income when the books are balanced at the end of the year.

If that row of celery cannot be sufficiently protected from the cold by covering it with straw or other litter where it is, it should be dug up with good roots and packed in earth in a box in the cellar. After being placed on a thin layer of soil in the bottom of the box the roots should be moistened and enough earth sprinkled in between the stalks to prevent drying out and to complete the bleaching process.

The women folk should not overlook the matter of tastiness and neatness in their house dresses, for the reason that they are seen in these more than in their street or company gowns. If the kitchen dress looks like a meal sack or worse, with a string at the middle, John can hardly be blamed if he thinks Mary is not quite as careful as she used to be. It might be added, however, that this shoe fits the former as well as the latter.

The question is now and then discussed whether bees do primary damage to fruit—that is, whether they have the ability to make a puncture of the skin and thus render fruit liable to further injury by themselves or other insects. The best opinion seems to be that bees cannot from the formation of their mandibles puncture the skin of fruit, though it is conceded that they will suck the juice from fruit which has already been punctured.

There is some compensation after all in the way climate and temperatures are distributed. From May 1 until Nov. 1 north state folks have a season that could hardly be improved upon, while those of the southwest have dust and dryness and those of the southeast heat and humidity. During the winter months the tables are changed, and the latter have their innings, while their northern neighbors are harassed with coal bills, frozen water pipes and frost-bitten noses. It is perhaps well so if the country is to be uniformly peopled.

A difference of 15 degrees in average winter temperatures as between two localities is a factor which will largely determine whether certain shrubs, fruits and flowers can be successfully grown or not. In latitudes or sections where a winter temperature of 20 below, F., for a considerable period is likely the pear, peach, European plum, many choice varieties of roses and other shrubs are virtually proscribed. In rare instances this lower temperature may come for thirty-six hours in a latitude where the warmer temperatures usually prevail, and as a result havoc is wrought with the tender things.

A long step will be taken ahead in the matter of a discriminating public charity when laws are passed applying to all the country making it an offense to give to the professional tourist beggar. In nine cases out of ten if they are physically able to gain about the country, eating all kinds of grub and drinking all kinds of water, they would be able to stay where they were raised and earn an honest livelihood without prostituting their self respect by launching into the field of confirmed beggary. The eyes of those whose tenderness of heart leads them to give to such folk would be opened could they see the snug sums which they convert into drafts every Saturday night—in many instances more than the weekly wage of those who contribute to them. If travelers of this type want to work for a meal, feed them; if not, direct them to the town or township trustees, who have an arrangement for providing for such folk.

Bonemeal, crushed oyster shell or plaster should be provided so that the fowls can have a feed of it at least once a week.

A pig is a long way better off with hog cholera at three months than a boy is with the cigarette habit at thirteen. Circumstances don't justify one in indulging in very heavy speculation in either case.

The present is distinctively an era in which experts in some one line are winners. In no realm is there greater demand for the expert, the one who is equipped and tried, than in agriculture, and in no fields is toil more healthful or reward for effort more sure.

The eyes and teeth of young people are entirely too precious physical assets to be neglected in the shameful way in which they so often are. If boys and girls doubt the truth of this statement, let them question those who are helpless without their glasses or can't properly chew a square meal without store teeth.

The conditions existing in the cow stable, coupled with the care given the utensils in which the milk is kept, are the chief factors in determining whether the butter product resulting from the dairy operations is gilt edged "western extra" or rancid stuff that is barely fit for food. It is just a matter of filth and bacteria or absence of it that largely determines butter quality.

Owing to conditions of drought prevailing during the growing season in many of the western and southwestern states corn is grown but little and that only where irrigation is possible. Another condition in the coast states that is unfavorable to the proper maturity of a corn crop is the almost universal cool night, the result of the invigorating breezes which set in from the ocean just before sundown.

Land worth from \$150 to \$250 an acre in France and Germany devoted to forestry is so scientifically and wisely managed that it gives a nice interest return on this valuation. In America the landowner begrudges devoting even fifty dollar land to the growing of trees and thinks it is poorly used at that. It is evident that we have much to learn from the foreigner along the line of forestry.

A headache is nature's warning that something is wrong in the physical economy, the pain being the danger signal; hence the taking of any of the so called headache medicines, whose opiate properties kill the pain, do not go to the root of the difficulty at all, but merely patch it up, often working more permanent harm than they accomplish of temporary benefit. The proper course is to right the disorder which is responsible for the ache.

Among other good habits which young people should develop in the formative years is the habit of work—the ability to take hold of a job and carry it through with thoroughness and persistence. There are lots of youngsters who are not bad in the way of having bad habits, yet are not worth a continental when it comes to doing anything definite and positive. In striving to be good there should be a definite purpose to be good for something.

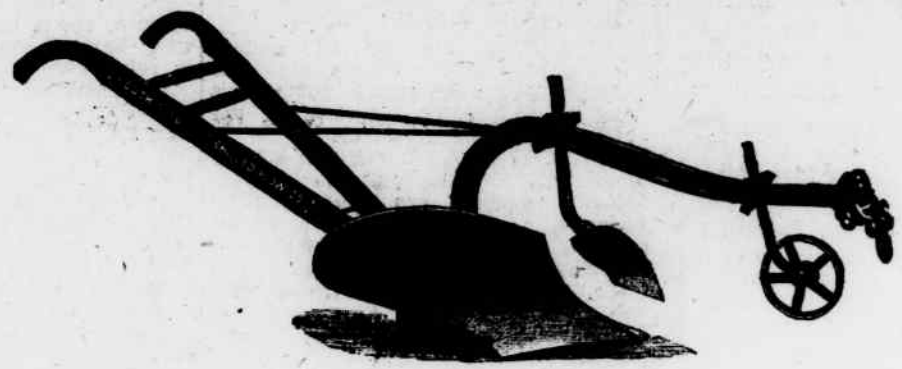

Whether land prices in the newer fruit sections of the west are being boomed beyond a reasonable limit can be pretty readily ascertained by consulting bankers in such localities and finding out just how much per acre they will lend you on a given piece of land after it comes into your possession. If they tell you little or nothing, it is evidence of their belief that in practical operation the land will not give a return which represents a fair interest rate on the price which you are asked to pay. If they are willing to lend generously on the proposition, it is likely not in the boom class.

A whole lot of town and country dogs rush out on passersby as frequently as they do because they are ill bred and either don't know or have not been taught any better. If they were collared two or three times returning from such jaunts as these and taken out behind the woodshed and given a good lashing with a lath, they would soon cultivate better manners. It's all right for a dog to bark and advance toward a stranger when he comes into the yard, but when he chases out into the road and scares passing teams he is an all round nuisance.

There's many a man with gray coming in his hair today who will tell you with all seriousness that he would give almost anything if he could be a boy again and have the opportunities for schooling which he once had, but did not prize and take advantage of. A sad thing about such regrets is that they seldom come until it is too late to rectify the loss. The right time to fully prize the educational opportunities is when the boy is going to school and still has in his hands the saying of whether that which he gets out of them will be much or little. Parents who appreciate their lack of advantages along this line or who did not make use of opportunities that were theirs should do everything in their power to make their boys realize the high value of school days and the wisdom of making the most possible of them.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasantly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Brush your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Notice of Dissolution.

State of North Carolina.

Department of State

To All to Whom These Presents May Come:

Greeting:

Whereas, It appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders deposited in my office, that the South Greensboro Insurance and Real Estate Company, a corporation of this state, whose principal office is situated at No. — Street, in the city of Greensboro, as county of Guilford, state of North Carolina (David White being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of chapter 21, Revisal of 1905, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution.

Now, therefore, I, J. Bryan Grimes, Secretary of State of the state of North Carolina, do hereby certify that the said corporation did, on the 29th day of May, 1909, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In testimony whereof I have hereunto set my hand and affixed my official seal, at Raleigh, this 29th day of May A. D. 1909.

J. BRYAN GRIMES,
Secretary of State.

Administrators' Notice.

Having qualified as administrators of Bonjamin Marley, deceased, late of Guilford county, N. C. this is to notify all persons having claims against said estate of said deceased to exhibit them to the undersigned, or their attorneys, South & McLean, in or before the 30th day of October, 1910, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This 30th day of October, 1909.

BEGINNING FRIDAY, NOVEMBER 12 AT 9.00 A. M.

To Reimburse the Creditors Who Are Clamoring for Their Money.

Gigantic Forced Sale!

This gigantic Forced Sale will be the event of the twentieth century, a colossal feast of bargains that is unparalleled in the history of modern merchandising. The opportunity of a lifetime now stares you in the face. Can you, dare you, do injustice to yourself and family, at prices that would not cover the cost of the raw material, letting the labor entirely out of the question. The entire stock must and will be turned into cash in a hurry as the creditors must and will have their money.

The Globe Clothing Co.'s entire \$40,000 stock consisting of high grade Clothing, Furnishings, Hats, Caps and Shoes for men and boys, will be sold out at 20 per cent. less than cost to manufacture to satisfy the claims of their creditors. The people of Guilford county and its vicinity will benefit by the Globe Clothing Co.'s misfortune in not meeting their obligations. Their entire stock will be at the public's mercy for the next 20 days as this great forced sale positively begins Friday, November 12, 9 A. M., at the Globe Clothing Co.'s store.

Nothing Like It Before!

Nothing like it may ever occur again. It will be the most mighty avalanche of majestic bargains for men, women and children in high grade fall and winter Clothing, Furnishings, Hats and Shoes of every kind ever brought together.

It is not necessary to go into detail regarding the high grade merchandise the Globe Clothing Co. carries as every man, woman and child in Greensboro and its vicinity is well aware of the fact that the merchandise bought of the Globe Clothing Co. is the best money can buy. Remember this forced stock must be sold in 20 days, beginning Friday, November 12 at 9 A. M. Sold regardless of cost.

We hereby guarantee to sell precisely as we advertise and every price we quote is strictly bona fide and every quotation absolutely correct as the entire stock must be sold to reimburse the creditors. It may be hard to believe that a big concern would sacrifice such a big stock. But it is the gospel truth and all we ask is a visit which will convince the most skeptical of the sensational low prices that prevail during this sale. Below we quote a few of the wonderful, marvelous extraordinary bargains we are putting forth and remember there are thousands we cannot mention here.

BRIEF ITEMS OF GENERAL NEWS

A Week's Events of More or Less Interest to the Public.

The supply of chicory from which chewing gum is made is running out. Returns, though still incomplete, indicate a clean sweep for Republicans in Nebraska.

Two prisoners were burned to death when the jail at Lordsburg, N. M., was destroyed.

There are 365,000 members in the union label trades department of the Federation of Labor.

The newly-elected treasurer of Cherry county, Neb., is Miss Gertrude Jordan, 28 years old.

Cotton mills of New Bedford, Mass., employing 17,000 operatives, will curtail operations two hours per week.

The National Ginners' Association reports that 70 per cent. of the cotton crop was ginned up to November 1.

The mayoralty election at Memphis, which E. H. Crump won from J. J. Williams by 79 votes, will be protested.

The Panama-California Exposition managers will raise \$1,000,000 as a nucleus of the fund for the 1915 show.

None of the minor political parties in Massachusetts polled the needed 10 per cent. to secure a 1910 official standing.

Holding to the "unwritten law," a grand jury at Gallatin, Mo., refused to indict Otis Claycomb, who killed John Ward for wrecking his home.

The Cumberland Presbyterian church has begun suit against the Presbyterian church for possession of Missouri Valley College, at Marshall, Mo.

The Mississippi law establishing county agricultural high schools has been declared unconstitutional, because it did not apply to negro children.

Four persons, all of them railroad employees, were killed and six passengers were injured in a collision on the Pennsylvania Railway, near Jersey City, Saturday.

The Ohio State Conference on Charities and Corrections, meeting at Canton, voted in favor of segregation of white and colored children in schools and institutions.

Both houses of the territorial legislature of the Hawaiian islands have adopted resolutions voicing an earnest protest against efforts to secure a federal enactment extending prohibition to the islands.

Forest fires are raging in the vicinity of Winchester, Va., resulting in great loss. Thousands of acres of valuable timber lands have been destroyed. Hunters are charged with responsibility for the fires.

The corn reporting board of the department of agriculture in a preliminary report gives the indicated total production of corn for 1930 as 2,767,316,000 bushels against 2,668,651,000 as finally estimated last year, with the quality as 84.2 per cent. against 86.9 last year.

W. Cameron Forbes, vice governor general of the Philippines, has been named by President Taft as governor general, to succeed the present governor general, James Smith, whose resignation has been accepted to take effect November 11, at the expiration of his leave of absence.

The calendar year 1930 will show a smaller exportation of wheat than any year in the last decade, and an increased home consumption, both in amount and per capita average, says a report of the bureau of statistics on wheat production, exportation and consumption of the United States.

The interstate commerce commission has come into possession of some surprising revelations as to the real cause of the car shortage, about which so much has been printed. Investigation at hand indicates that the trouble is with the railroads and not with the cars. The clamor about car shortages and car surpluses, it would appear, has been raised chiefly to cover up the facts.

Today finds President Taft's journey completed with his return to Washington. Almost immediately he will start on another trip, this being a short one, into New England, where at Middletown, Conn., he will

on Friday attend the installation of Dr. William P. Shanks in as the president of Wesleyan University. The president is also expected to cheer for his own college in New Haven during the Yale-Princeton football game on Saturday.

S. Guyton McLendon, who was dismissed from the Georgia railroad commission by Hoke Smith just before the latter retired from the governorship, on the ground that McLendon was too friendly to the railroads, has been ordered reinstated in office by Judge Charlton in a decision rendered at Savannah. Judge Charlton held that the method employed in removing McLendon was contrary to the laws of Georgia. Gray, who was named to succeed McLendon, will appeal to the Supreme court.

Urban H. Broughton, son-in-law of the late Henry H. Rogers, has been elected president of the Virginian Railway to succeed Mr. Rogers. Mr. Broughton was closely associated in business with Mr. Rogers for a number of years, and was generally looked upon as his logical successor in many enterprises. The Virginian Railway, which was completed and formally opened for trains a short time before the death of Mr. Rogers, was a pet of the deceased, and was built almost entirely from his own resources.

FATAL AUTOMOBILE ACCIDENT.

State Senator Fleming and Harry Skinner, Jr., Killed.

J. L. Fleming, state senator from Pitt county, and Harry Skinner, Jr., son of United States District Attorney Harry Skinner, were killed in an automobile wreck near Greenville Friday afternoon.

Mr. Fleming was thrown from the machine, breaking his neck and dying almost instantly, while Mr. Skinner's skull was fractured. Being rushed to a hospital in Richmond, Va., he died before the train reached Wilson.

Mr. E. G. Flanagan had three friends, Messrs. J. L. Fleming, Harry Skinner, Jr., and S. C. Wooten, out for a ride in his automobile. They had been a short distance in the country and when about a mile from town on their return overtook some lumber wagons in the road. Mr. Flanagan was driving his machine at high speed and in turning out to pass the wagons lost control of the machine and it crashed with terrific force into a tree by the roadside, which turned it over and almost completely wrecked it.

Mr. Fleming was thrown about twenty feet and fell on his head, breaking his neck and killing him almost instantly. Mr. Flanagan was caught under the machine, which crushed him badly, breaking three ribs and inflicting internal injuries. Mr. Skinner's skull was fractured and he was otherwise badly bruised. Mr. Wooten was badly hurt about the head, but sustained the least injury of either of the party.

It is remarkable that all four of them were not killed. Mr. Fleming was state senator of Pitt county and well-known throughout the state. He leaves a wife and three small children.

Many Sudden Deaths From Poisonous Rheumatism.

Rheumatism has for years been regarded as an exceedingly painful disease but it has only been discovered within the last few years that it is this terrible trouble that is either directly or indirectly causing thousands of deaths yearly throughout our country. Rheumatism of the Heart, Neuralgia of the Heart, Paralysis, Uric Acid Poisoning are among the most dangerous forms of the disease. Uric Acid is allowed to stay in the system sudden death can scarcely be averted, but if any sufferer will go at once to Helm's Drug Store and get a bottle of "Bloodine" the guaranteed remedy for Rheumatism, they will positively be cured. Bloodine in large bottles cost 50 cents. In old chronic cases where there is acute pains, "Bloodine Rheumatic Liniment" should be used with "Bloodine."

NEWS OF THE OLD NORTH STATE.

A Survey of What is Transpiring in the Commonwealth.

The town authorities of Jonesboro are arranging to install a waterworks system at once.

The News is the name of a new weekly paper established at Pilot Mountain by F. A. and J. G. Slate.

Ex-Governor Glenn has gone on a trip through South Carolina, Georgia, Alabama and Mississippi on a lecture tour for the home mission board of the Presbyterian church.

While driving a loaded wagon to Littleton Saturday, Jack Crawford, a young man 20 years of age, fell from the vehicle and a front wheel passed over his head. He died shortly afterwards.

Thomas J. Hogan, one of the leading citizens of Orange county, died at his home near Chapel Hill Saturday. He was a Confederate veteran and one of the best farmers in the county.

William Padgett, who killed his father, John Padgett, near Henrietta, about a year ago, was acquitted in the Superior court of Rutherford county Saturday. He made a plea of self defense.

The best part of the residential section of the town of Cherryville, in Gaston county, was burned Friday night. It is believed the fire had its origin from sparks from a passing railway locomotive. The loss approximates \$15,000.

Some one entered the office of the Moore cotton mill, near Lenoir, Friday night and stole \$150 that had been placed in envelopes for the night employees of the plant. Ross Cline, a former employee of the mill, has been arrested charged with the crime.

Learning that the jury could not agree upon a verdict, attorneys for George Brigman, who was tried in the Superior court of Buncombe county last week for the murder of his uncle, late Saturday afternoon agreed to submit their client to a verdict of manslaughter. Brigman was sentenced to the county roads for four years and six months.

A committee of the United Synod of the Lutheran Church, South, will hold a meeting in Charlotte December 1 to decide upon a new location for the theological seminary of the church, at present located near Charleston, S. C. Pressure is being brought to bear to have the seminary removed to Charlotte, which is a stronghold of the Lutheran denomination.

Every minister in North Carolina has been appealed to by Dr. Charles A. Julian, of Thomasville, assistant secretary of the state board of health, to preach a special health sermon on the subject of tuberculosis on Sunday, November 23. Dr. Julian wants the ministers to stir up the people of North Carolina to the dangers of the terrible white plague and to explain to them how this fatal malady may be wiped out by preventive measures.

Dr. C. A. Schenck, former chief forester of the Biltmore estate, has begun suit against G. W. Vanderbilt to recover \$6,000 alleged to be due on back salary, and \$2,000 alleged to be due on an open account; the debts being incurred while Dr. Schenck was engaged in managing saw mills for the Biltmore estate. This suit grew out of the unpleasantness recently regarding a lease of certain lands to a hunting club by Dr. Schenck. Mr. Vanderbilt later repudiating the lease and Dr. Schenck resigning as head of the forest department.

SHOOTS BABIES AND HIMSELF.

Former Mayor Ends Life, Owing to Financial Trouble.

Greensboro, Pa., Nov. 7.—E. J. Perry, former mayor of Greensburg, and a former president of the Pennsylvania State Firemen's Association, today committed suicide, after shooting three of his children—Richard, eight years old; Kenneth, six years old, and Elizabeth, four years old. Elizabeth is dead; the others are fatally injured.

Perry came down stairs this morning, and the maid, Miss Carney, handed him his mail. Taking a revolver from a sideboard, he went back upstairs. He had scarcely reached his room when the maid was startled by four shots in quick succession, and two of the children came running down stairs crying "Papa shot us."

Mr. Perry's mother, who is seventy-three years old, and has been keeping house for him since the death of his wife, about a year ago, was sweeping the sidewalk. Miss Carney called for help. Neighbors rushed in. The little girl was shot through the heart and Richard and Kenneth were struck by bullets very near the heart.

Perry had been in bad financial shape for some time.

Pays Fine for Peonage.

Asheville, Nov. 5.—Robert Christian today pleaded guilty to peonage, and Federal Judge Boyd fined the defendant \$2,500, which was paid.

Christian and W. L. Smith and W. A. Perry, railroad contractors, were indicted for peonage alleged to have been committed by them in Macon county, in 1906, when Christian, a foreman, was alleged to have detained negro employees who sought to escape from the construction camps.

A Dull Looking Church.

In some communities one or more churches present evidence of badly painted exteriors. The beautiful finish and coloring of the L. & M. Paint distinguishes a church painted with it. The L. & M. Paint is Metal Zinc Oxide combined with White Lead, and wears like gold. A liberal quantity of L. & M. Paint is given to every church whenever they paint. This has been done throughout the United States during past 35 years. More churches have been painted with L. & M. Paint than with any other.

Olive, popular young people, were
married in the First Baptist church
Thursday evening at 8 o'clock, the
ceremony being performed by Rev.
Dr. J. L. White. The marriage was
followed by a reception at the home
of the bride's parents, Mr. and Mrs.
J. C. Olive, after which the couple
left on a bridal trip to northern cities.

ness man, holding a responsible posi-
tion with the American Exchange
Bank. His bride is an attractive
and accomplished young woman and
has a wide circle of friends.**THE BRITISH AMBASSADOR HERE**One of the World's Foremost Diplo-
mats Visits Greensboro.Hon. James Bryce, of England,
British ambassador to the United
States and one of the world's fore-
most diplomats and literary charac-
ters, was the guest of Greensboro
for a few hours Friday, and while
here addressed a number of the peo-
ple of this city and section. The dis-
tinguished Britisher arrived at 1
o'clock in the afternoon from Raleigh,
where he had addressed the State
Literary and Historical Society and
the National Farmers' Congress, and
went immediately to the State
Normal and Industrial College to fill
an engagement to speak.Ambassador Bryce was given a
most cordial reception by the students
of the college and a large number of
citizens. As he appeared upon the
stage of the auditorium, the audience
rose to its feet and sang the British
national anthem, "God Save the
King."The distinguished visitor was pre-
sented by President Foust and made
a very happy speech. He expressed
his pleasure that North Carolina has
made such splendid provision for the
education of her young women and
called attention to the fact that there
is no other country on the globe
where so much of the educational
work falls upon women as in the
United States.Mr. Bryce said he was delighted
to know that most of the young wo-
men before him were from the coun-
try, and he hoped they would return
there to live when college days were
ended. He wanted to emphasize two
important things. The first is mak-
ing friends and holding them. The
friendships formed in college days
may be a blessing through life. Paths
diverge, but the memory of the friend-
ships can last, they can and should
be kept up always. Women have as
strong sense of friendships as men
and can draw and hold friends. Col-
lege girls have such admirable oppor-
tunities for choosing congenial friends
and forming associations that may
continue as an inspiration through
life. The second thought he would
impress was the love of knowledge,
not merely gaining knowledge, but
loving it. It is not enough to teach
what you know but to love to do it.
This is the place and now is the time
to acquire that love.Returning from the State Normal
and Industrial College, the ambassa-
dor was driven to the Agricultural
and Mechanical College for the col-
ored race, where he was greeted en-
thusiastically by the students, who
were drawn up in front of the main
building. Mr. Bryce made a two-min-
ute speech to the colored students.Ambassador Bryce left Greensboro
on the eastbound afternoon train for
Chapel Hill, where he had an engage-
ment to address the faculty and stu-
dents of the University of North Car-
olina.Mrs. Louie Hite, 428 Outlen, street,
Danville, Ill., writes, October 1st:
"Foley's Kidney Pills started me on
the road to health. I was treated by
four doctors and took other kidney
remedies but grew worse, and was
unable to do my housework, and the
doctor told me I only could live two
to six months. I am now so much
better that I do all of my own work,
and I shall be very glad to tell any
one afflicted with kidney or bladder
trouble the good results I received
from taking Foley's Kidney Pills." Commence today and be well. Do

FARM LANDS

Safe Investments

We believe that farm lands in
Guilford county will continue to in-
crease in value, and hence are the
safest investment one can make.Believing the above, we began
more than a year ago buying every
farm that was offered to us at a
price we believed to be under value.
We still have several thousand dol-
lars to spend the same way. But
to keep buying, we must sell. What
we want is a reasonable profit on our
investment.Having bought several very desir-
able places 2 miles to 15 miles from
Greensboro VERY CHEAP FOR
CASH we can and will save every
land buyer money, whether he wants
one acre or a thousand. It is to
his interest to see us.**Brown Real Estate Company**
