Whisper a Blessing for Me.

The shadows of twilight are creeping. Soft over the brightness of day; The flowers of the wildwoods are weeping. Farewell to the sun's parting ray! My spirit is wandering to thee tove, In visions all gloriously bright! Then whisper a blessing for me, love, A blessing, a kiss, and good night!

In heaven now the pure stars are smiling, Like angel eyes watching me here; And music the lone heart beguiling. Steals gently and low on my ear! My spirit is smiling on thee love, And murmuring a song of delight! Then whisper a blessing for me, love, A blessing, a kiss, and good night!

Yeung voices in earnest tones blending. Rise clear through the still evening air; And angels their pinions are bending, To catch the low breathing of prayer! The printing press is the grandest invention since the death of "Tubal Cain" "It is a printing press," said a boy, standing by the ink trough, with a cueless turban of brown paper on his head. "A printing press?" I queried, musingly to myself. "A printing press?" "What do you print?" I asked. "Print?" said the boy, staring at me doubtfully, "Why, we print thoughts!" "Print thoughts!" I slowly repeated after him; and we stood looking at each other in mutual admiration, he in absence of an idea, and I in pursuit of one. "But, my boy," I asked in honest soberness, "What are thoughts, and how can you get hold of them to print them?" "Thoughts are what comes out of peoples minds," he replied; "Get hold of them, indeed!-Why, minds ain't nothing you can get hold of, nor thoughts either. All the minds that ever thought, and all the thoughts that mind ever made, wouldn't make a ball as big as your fist. Minds, they say, are first like air: you can't see them; they don't make any noise, nor have any color, they don't weigh anything. Bill Deepcut, the sexton, weighs as much when his mind is gone out of him as he did before. No, sir, you may drive round about twelve all the minds that ever lived, wouln't weigh an ounce troy." DR. MORSE'S INDIA V ROOT PILLS.—DR. MORSE, the inventer of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in travelling, have ing visited Europe, Asia, and A ica, as well as North America—has spent these years a mong the Indians of our Western country, it was in this way that the Indian Root Pills were first discovered. Dr. Merse was the first man to establish the fact the all diseases arise from IMPURITY OF THE BLOOD. that our strength, health and list depended upon the vital fluid.

When the various passages I come elog-

ged, and do not act in perfect harmony with the different functions of the body, the blood losses its action, becomes thick, corrupted and if nature is not assisted in browing of the stagmant humors, the blood will become choked and cease to act, and thas our light portant then that we should keet the various passages of the body free and open. And how pleasant to us that we have it in our powerte put a medicine in your reach, namely, Mor-se's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of dispased man, One of the roots from which it ese Pills are made is a Sudorific, which ope s the pores of the skin, and assists Nature in throwing out the finer parts of the corru ion wabia. The second is a plant which is \$1 Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing performs its duty by throwing off phlegm, and other humors from the lungo by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encor raged they draw large amounts of impurity from the blood, which is hen thrown out bountifully by the urinary d water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in punitying the blood; the coarser particles of impuny which cannot pass by the other confets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Mosse's Indian Root Pills pot only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly head ty; consequently all sickness and pain is driven from the system, for they cannot reme u when the body becomes so pure and clear.

The reason why people are an distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence a large quantity of food and other matter is lodged, and the gromach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreesblood, which throws the corrected matter through every vein and artery, ugill life is taken from the body by disease. Dr. Morse's Pills have added to themselves frictory upon victory, by restoring millions of the sick to take away al. sickness, pam and angoish but it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease-that dead a enemywill take its flight, and the flush of youth and beauty will again return, and the prospect of tate of North Carolina, Guit- a long and happy life will cherish and brighten your days.
