VOL. 95—NO. 2

## LOCAL NEWS IN BRIEF FORM

### MATTERS OF INTEREST TO THE READERS OF THE PATRIOT FAR AND NEAR.

**Schools Reopen.**—The State Normal and Industrial College and the city graded schools opened for the spring term Tuesday. Work at the Greensboro College for Women was resumed yesterday.

**Mr. Shenk Better.**—Rev. J. E. Shenk, who has been critically ill at his home in this city for some time, is reported to be slightly improved. Mr. Shenk recently resigned the pastorate of the First Lutheran church as a result of his continued illness.

**Miss Page Ill.**—Miss Emma Page, formerly a member of the faculty of Greensboro College for Women, is a surgical patient at St. Leo's hospital. Miss Page recently completed a handsome residence at Irving park and had just moved into it when she was taken ill.

**Teachers' Meeting.**—The Patriot is requested to call the attention of the teachers of the county to the fact that the next meeting of the Guilford County Teachers' Association will be held in Greensboro the third Saturday in January, which will be January 15, instead of the second Saturday.

**Mr. Cooke Confirmed.**—The appointment of Mr. A. Wayland Cooke as postmaster was confirmed by the United States senate yesterday. He will probably not take charge of the office until February 1, as it will be more convenient to start off his administration with the beginning of a month.

**T. A. Wilson Ill.**—Mr. T. A. Wilson, a member of the board of county commissioners, has been quite ill at his home near Stokesdale for several weeks and was unable to attend the meeting of the commissioners this week. His friends throughout the county hope for Mr. Wilson a speedy restoration to health.

**Religious Services.**—The members of the Greensboro Ministers' Association have decided to conduct services regularly at the city and county convict camps and at the county workhouse. For the present the services will be held on the second and third Sunday afternoons. The different ministers will rotate in conducting the services.

**Military Meeting.**—The annual convention of the North Carolina National Guard Association, composed of officers of the National Guard in this state, met here yesterday morning and will be in session through today. About 100 military men are in attendance and the meeting is pronounced one of the most successful in the history of the organization.

**To Sell Bonds.**—The city commissioners have decided to sell part of the bond issue recently voted for the improvement of the streets and the sewer system the latter part of this month or the first of February. The commissioners propose to sell the full street issue of \$50,000 and \$25,000 of the \$75,000 issue of sewer bonds at this time, the remainder of the sewer issue to be held until a later date.

**Can't Get Labor.**—The manager of one of Greensboro's industrial enterprises which employs women principally, at wages ranging from \$7 to \$14 a week, states that the capacity of the plant would be practically doubled at once if it were possible to secure the labor. It would appear from this statement that there is no lack of employment in Greensboro for women at fairly remunerative wages.

**Examination Dates.**—Civil service examinations will be held in Greensboro March 13 and 15 and April 12 to secure eligibles to fill vacancies in the government departments in Washington. Full information as to the examinations, the positions to be filled, salaries, etc., can be had upon application to the secretary of the local examining board, Mr. J. H. Arnfield, chief clerk of the Greensboro postoffice.

**Managers Confer.**—Mr. T. B. Brown, manager of the Brown-Bell Company, was in Charlotte Tuesday night to attend a meeting of the managers of the chain of 12 Bell stores in this state and South Carolina. These meetings are held at stated intervals for the purpose of discussing trade problems and methods of developing business. The Brown-Bell Company's store is one of the largest and most successful of the dozen stores conducted by the Bell interests.

## BIG CARGO OF LIQUOR CAPTURED NEAR OAK RIDGE.

Sheriff Stafford and Deputy Morrow Benbow Tuesday night captured 170 gallons of whiskey in the vicinity of Oak Ridge. The liquor was being transported in a wagon and the officers seized the vehicle and a team of gray mules. The driver of the outfit, a white youth giving his name as Faulkner Plummer, and apparently about 18 years old, was arrested. An unknown white man, supposed to have been the owner of the liquor, who was walking behind the wagon with a watchful eye, discerned the officers in the distance and made a clean getaway.

Sheriff Stafford put up the wagon and mules at his Oak Ridge home and brought the confiscated liquor to Greensboro in his automobile. Plummer was also brought along and is in jail to await a preliminary hearing and a further investigation into the ownership of the liquor.

The young fellow is believed to have been the tool of another in the transportation of the liquor. It has become the fashion of blockaders and blind tigers to employ young fellows under age to haul their liquor about the country the principals keeping themselves in places of safety, so far as possible.

## Can't Provide Open Air School.

The child welfare committee of the Social Welfare League appeared before the city commissioners Monday afternoon and asked that arrangements be made for the opening of an open air school on the roof of one of the public school buildings of the city. The commissioners stated that they were unable to give favorable consideration to the matter at the present time on account of a lack of funds to defray the expense of the experiment, having already exceeded the appropriation for the school buildings now under course of construction. When financially able to do so, the city will probably provide for an open air school. There seems to be no doubt that such a school would be of benefit to many children, especially those of tubercular tendencies.

## Will Renew Efforts.

A Washington dispatch in yesterday's Charlotte Observer has the following concerning a new government building so badly needed in Greensboro:

"Renewed efforts are to be made to secure new postoffice buildings at Greensboro and Mt. Airy. Representative Stedman today stating that he intends soon to reintroduce both these bills.

"The proposed Greensboro office would call for an expenditure of from \$300,000 to \$400,000, and would provide for the construction of a building of beauty as well as service.

"Major Stedman will reintroduce his bill seeking to have the government make a national park of the Guilford Battle Ground."

**Big Stock of Liquor.**—Sheriff Stafford now has in his possession considerably more than 200 gallons of contraband liquor, which is a lot of the ardent for dry times like the present. This is probably more liquor than has been in the possession of any one man in Greensboro at any time since the days of the open saloons. The sheriff also holds two or three pretty good blockade stills. These will be cut up and sold as junk.

**Guilford Second.**—The report of the state tax commission for 1915, copies of which have just been received here, shows that Guilford stands second among the 100 counties in North Carolina as to the aggregate value of all property listed for taxation, the figures being \$30,002,785. Mecklenburg is first with an aggregate valuation of \$32,635,188. These figures are based on the returns made in 1914 and of course would be much higher if they covered the property listed in 1915.

**Work Endorsed.**—The Greensboro Ministers' Association has given its hearty endorsement to the laymen's missionary movement convention to be held in Greensboro January 9-13 by the adoption of the following resolution: "Impressed with the spiritual importance and practical value to our work of the program of the laymen's missionary convention to be held in Greensboro February 9-13, we, as pastors, put on record our hearty interest in this meeting and our purpose to attend the sessions and to lead our men to do so as far as possible."

## COMMISSIONERS IN SESSION

### COUNTY'S BUSINESS RECEIVED ATTENTION AT REGULAR MONTHLY MEETING.

The January meeting of the county commissioners was held Monday and Tuesday, all the members of the board being present except Commissioner Wilson, who was detained at his home by illness. The usual large volume of routine business was transacted, a good portion of the first day's session, being given over to passing on accounts, receiving reports, etc.

The board passed an order for the widening of certain of the public roads leading out of Greensboro to a uniform width of 50 feet, to be laid out 25 feet from the center of these highways as now established. Seven feet on either side will be reserved for the purpose of sidewalks if they should ever be needed. The roads will not actually be widened at this time, the action of the commissioners being taken for the purpose of establishing road lines, so that no trouble will be experienced when the widening becomes necessary.

The order applies to the following roads: Asheboro street extended, from the city limits to the forks near Buffalo school house; the Greensboro-High Point road for the entire distance, and the Greensboro-Winston-Salem road from the Masonic home to Guilford station.

Mr. S. J. Scott was re-elected superintendent of the county home for the ensuing year.

The monthly report of Dr. W. M. Jones, the county health officer, contained the following statistics:

Disinfections, 14; examinations for court, 4; insane examined, 4; charity calls, 11; post mortems, 1; nuisances examined, 2.

Infections reported during the past month were as follows: Scarlet fever, 11; diphtheria, 7; smallpox, 2; whooping cough, 4.

Reporting on the various county institutions, Dr. Jones' statement reads:

"County home—Here one white woman who has been in the insane ward has been sent to Morganton. This was a case of so violent a nature as to necessitate a couple of men to carry her. One negro woman who has been confined in the jail has been sent to the home. Six visits here have been made during the month.

"Workhouse—Here there is nothing on which to report that is in any way out of the ordinary.

"Jail—Here we have several who are sick. All are old, chronic cases. One white man in jail insane and one negro said to be insane.

"Camps—Here there has been about the ordinary amount of work and calls. John Wade, white, who is on the roads for 12 months, and has served two months, is physically unable to work, having what, in my opinion, is a case of chronic appendicitis. He has had a couple of attacks, both being severe, since he has been on the works. Seven visits have been made the camps."

The John Wade referred to in Dr. Jones' report is from High Point and was sentenced to the roads for selling liquor. It is stated that efforts are being made to have him pardoned by Governor Craig. Wade, who was an old offender, was arrested one night at a point on the Greensboro and High Point road near the Jewish cemetery.

Superior court jurors were drawn as follows:

For the criminal term beginning January 31—P. M. Huffines, J. M. Herbin, Ogburn Ingle, J. H. Rankin, W. A. Amick, A. G. Bowman, W. S. Wyrick, John R. Boon, R. W. Sockwell, Sr., F. R. Smith, H. W. Welker, Thomas Causey, T. C. Clymer, C. R. Elmore, J. Alex Coble, R. E. Pierce, B. M. Oettinger, C. E. Thomas, G. H. Payne, O. F. Pearce, Charles W. Fields, J. Henry Fields, C. W. Winfrey, S. P. Clarida, G. S. Boren, C. D. Wilkins, W. L. Ray, L. L. Zink, Oscar Gilbreath, G. Will Kirkman, C. S. Williams, H. H. Wilson, J. F. Gray, W. R. Beeson, M. C. McLunn, Ed Coleman, J. W. Pegram, P. M. Blaylock, M. L. Willard, F. L. Blake, Charles Bolling, J. E. Foust, J. M. Simmerson, J. O. Gibson and D. B. Anderson.

For the civil term beginning February 14—T. J. Brooks, D. F. Kernodle, W. F. Hall, D. R. Shepherd, H. L. Pearson, W. D. Shoffner, W. D. Lambeth, J. M. Weatherly, Ernest Whitsett, W. S. Dick, L. Vance Garrett, Charles A. Smith, L. W. Trotter, B. A. Osborn, R. L. Allred, A. M. Stanton, Charles L. Shaw, W. L.

## OVER THE MEAT LAW

### DISCUSSED AT MEETING OF FARMERS IN THIS CITY SATURDAY.

Discussions are that the meat inspection law of the city of Greensboro will come in for a considerable share of discussion (and perhaps cussing) Saturday, when it is expected that a large number of the county's farmers will meet here to consider the law and other matters. The Guilford County Farmers' Union has a meeting scheduled at the court house for 1 o'clock and at the same hour the monthly meeting of the county farm bureau will be held in the rooms of the Chamber of Commerce.

It is expected that the Farmers' Union and the county farm bureau will hold a joint meeting for the special purpose of considering the meat inspection ordinance and registering opposition to its continued enforcement. This meeting will be open and all farmers, as well as others who may be interested, are invited to attend.

The meat inspection law was the subject of discussion at a meeting of the directors of the Chamber of Commerce Monday night, and after full consideration, the matter was referred to the farm bureau.

Mr. J. C. Forester, the secretary, has sent out the following letter calling attention to Saturday's meeting of the farm bureau:

"Please do not forget that the regular monthly meeting of the Guilford county farm bureau is due to be held in this office Saturday, the 8th, at 10 A. M."

In this connection I want to state that the directors of the Chamber of Commerce, in meeting Monday night, discussed to considerable extent the present city ordinance with respect to inspection of meats sold in Greensboro by farmers, and after discussion the matter was referred to the Guilford county farm bureau. We would like to have as many farmers as possible in attendance at this meeting, as we are anxious to get away from the old practice of regulating the farmers' affairs without giving them an opportunity to express their desire.

In this connection I notice that the Farmers' Union have a meeting scheduled at the same hour on the same day, and it occurs to me that it would be wise to arrange for a joint meeting with the union, if possible, after some preliminary discussion at the meeting of the bureau.

"Will you not kindly endeavor to have as many interested farmers as possible attend our meeting?"

## Burlington Child Kills Itself.

The eighteen-months-old child of Ray Morton, an employee of the Lakeside mill at Burlington, was instantly killed Monday morning when a gun it was playing with discharged its load into the left eye, scattering the pieces of its head and brains over the room. It is not known just how it happened, as no one was present, but it is supposed that the child got hold of the gun which was left sitting by the bed and was dragging it around the room, as the gun was too heavy for the child to lift, and that the hammer caught in a crevice of the floor. The mother was out milking at the time and ran to the house on hearing the explosion, finding the child gasping its last breath.

## Another Baby Abandoned.

Well dressed and securely tucked away in a basket, a baby boy about four weeks old was found on the door steps of Mr. H. G. Lippard, a well known citizen of Woodleaf, Rowan county, Sunday night. There is no clue to the identity of the parents of the child which has apparently been abandoned. The child is well and strong, bears marks of having come from a good family and was discovered before Mr. Lippard and family had retired for the night. They are caring for the waif. A strange woman was seen near the depot about midnight and it is believed the babe was taken from a passing train, though the affair is still a mystery.

## RUSSIANS SAID TO BE MAKING STEADY PROGRESS.

Steady progress is being made by the Russians in their offensive movement on the Galician frontier. It is officially reported in Petrograd that the Austrian troops holding the line northeast of Czernich are falling back before the assault of the czar's forces. Fighting is going on in bitter weather in the snow-filled valleys of the mountains east of the river Pruth. General Ivanoff, who was put in command of a big Russian army when Nicholas took command, is directing operations.

It is reported that the German war office has ordered large detachments of German troops to Bukovina to prevent another Russian drive toward Hungary such as took place last winter. Before the Russians could gain a position which would menace the Austro-German line into the Balkans they would have to cross the Carpathians in the face of many difficulties.

Vienna professes the belief that Russia has concentrated a majority of her first line troops on the front and expects now to look for another German drive on the Dvinsk frontier to offset the pressure against the Teutons further south.

## More Vessels Sunk.

A report was received in London Monday announcing that the Geelong, another British liner, had been sunk in the Mediterranean. She was practically the same size as the Persia. The news of the Geelong loss came as the climax of a day of ill reports from Mediterranean shipping, three other vessels being reported sunk as follows:

The Glengyle, owned by the Glen line of Glasgow, which was sunk en route from Shanghai.

The St. Oswald, of the British and Foreign Steamship Company, out of Alexandria.

The Kankoku Maru, owned by the Insui Shipping Company, of Japan, with a cargo of hemp from Manila.

Of the losses reported Monday the greatest, from a financial viewpoint, is the Glengyle. Her passengers and crew, numbering about 120, were saved with the exception of three Europeans. The survivors landed at Malta. Officials of the Glen line announced there were no Americans on board.

## SALES OF REAL ESTATE RECORDED THIS WEEK.

The following sales of Guilford real estate have been recorded this week:

J. R. and A. L. Phipps to D. L. Donnell, a farm of 131.66 acres in Friendship township, the price not being given further than "\$10 and other valuable considerations."

R. W. H. Stone and wife to Thomas Barker and Mary Barker, a tract 119.5 by 382 feet on the subdivision of the Causey property, Morehead township, \$500.

J. F. Taylor and wife to J. T. Ryan, a lot 99 by 158.46 feet on Poplar street in the city of High Point, \$125.

J. W. Welborn and wife to J. T. Ryan, eight lots in the Best property in the city of High Point, all fronting on Partridge street, \$1,500.

A. Sherrod and wife to R. E. Sale, lot 12 in block A of the W. G. Bradshaw property in the city of High Point, \$250.

M. J. Bullock to J. P. Morris, a tract consisting of 4.11 acres in Gilmertownship, adjoining the lands of William Montgomery, M. J. Bullock and others, \$145 and other valuable considerations.

## To Make Early Appointment.

A report from Washington says that immediate attention will be given to the question of filling the vacancy on the Supreme court bench caused by the death of Justice Lamar. An early appointment is expected to prevent congestion. Among those mentioned as successors are Secretary Lansing, Secretary Garrison and Attorney General Gregory.

## Plans Hobo University.

Chicago, Jan. 4.—A "hobo university" is the plan of James Eads How, the St. Louis hobo, who is here today looking over a Chicago site for the "tramp school." Medicine to keep the hoboes in good health, economics to let them know where they can get jobs, and jurisprudence to keep them out of jail are the purposes of the school.

## THE NEW SUBMARINE CRISIS

### PROMPT ACTION WILL FOLLOW DISCLOSURE OF FACTS IN THE PERSIA CASE.

There was no lessening of the tension in the new submarine crisis with President Wilson's return to Washington Tuesday to take personal charge of the situation, but there were marked indications of the president's intention to proceed carefully and deliberately before committing the United States to the next step in its already strained relations with the Teutonic powers.

At the state department the hope was expressed that there would be opportunity to settle the crisis amicably, and it was stated that the American government believed that Austria's assurances in the last Ancona note were given in good faith.

Two points, it was emphasized, must be cleared up before the next move is made. It must be established whether the British liner Persia actually was torpedoed, and if so, what was the nationality of the submarine.

President Wilson's first act on his return was to issue a statement through Secretary Tumulty promising the country action just as soon as the full facts in the Persia disaster can be learned.

"The president and the secretary of state are taking every means possible to obtain the full facts in this grave matter and will act just as soon as the information is obtained," said the official statement issued at the White House offices.

The president's second step was to direct Secretary Lansing to gather more information from the Persia survivors. The secretary ordered the consuls at Alexandria, Malta and Cairo to obtain affidavits and at once cable summaries of their contents. Until that information is received or Ambassador Penfield reports some result from his inquiry to the Austrian government, the situation, so far as can be seen, will be at a standstill.

Meanwhile, however, there is discussion of what steps the United States may take to make clear to the central power belligerents as allies the extent to which it expects to hold them responsible for submarine operations in violation of international law, be they conducted by Germans, Austrians, Turks or Bulgars.

The latest developments of the crisis for the first time brought the president into conference with the heads of the congressional committees which deal with foreign relations and disclosed that they are to be informed of the coming steps. Approval of this course was expressed by senators and representatives, who all along have been wanting to be taken into the president's confidence without the formality of resolutions. It was indicated as possible that before any drastic step was taken the president might address Congress in person, laying bare all the facts and the steps in the long controversy.

Back of the determination to be deliberate, however, officials say there is no intention of acting any the less firmly and promptly if the facts warrant it. The president and all his advisers are represented as realizing to its full extent that the submarine controversy drawn over nearly a year with perplexing and critical negotiations, often brought to the breaking point, now is at the most critical stage it ever has assumed, and their intention is that the next step shall place the government in a position in which it will be able to maintain the principles of international law and humanity. They are represented as intending that all the facts shall be so fully developed that when a move is made it will withstand whatever eventualities are expected to follow.

## Board of Education Meets.

The monthly meeting of the county board of education was held Monday, being devoted largely to the transaction of routine business. The school account of County Treasurer McKinney for the preceding six months was checked over, every penny of course being accounted for. Mr. W. A. Young was elected a committeeman for the Massey school, in Bruce township, to succeed Mr. W. J. Robinson, who asked to be relieved of the duties of the position after a service of several years.

## BIG QUESTION TO THE FRONT

CONGRESS TAKES UP CONSIDERATION OF MANY MATTERS OF IMPORTANCE.

Congress reconvened Tuesday to begin serious consideration of momentous legislation confronting it. Before the holiday recess little was accomplished beyond organization and extension of the emergency war revenue law.

During the preliminary two weeks there were assurances on every hand that foreign relations incident to the European war, and the subject of preparedness for national defense, would be the dominating features of the session, fraught with far-reaching possibilities.

Important international events since the recess have served to make indications stronger than ever that the legislative branch will seek all available information in possession of the government relating to foreign complications.

The senate committee on foreign relations will take the lead in actual considerations of international affairs.

Pending before the committee now is the resolution by Senator Hoke Smith urging investigation into British interference with neutral shipping, and the Lodge amendment directing that investigation also be made into the law and the facts concerning destruction of the Lusitania, other attacks upon vessels imperiling American lives, and the conspiracy against neutrality "within our borders," to which President Wilson referred in his annual address to the Congress.

About this resolution and amendment will center the committee's deliberations over foreign problems. Senator Hoke Smith has prepared another address on the commercial situation, with cotton as his particular subject.

The military and naval affairs committees of both houses have been studying the national preparedness program during the recess. House committees plan to get to work on these at once, and public hearings which probably will extend for a long period are contemplated. Senate committees, meantime, will study the bills submitted and map out programs of procedure.

The revenue situation also will command immediate attention. Representative Kitchin, majority leader and chairman of the ways and means committee, plans to call his committee together without delay to take up this problem. Senator Simmons, chairman of the finance committee, also contemplates frequent meetings of Democratic members to study fiscal problems.

First to be considered will be amendments to the war revenue law, which was re-enacted hurriedly just before recess, with the general understanding that amendments would be proposed to increase its revenue-producing power. Involved in this are issues likely to provoke wide divergence of views, among them the suggestions to tax gasoline, automobiles, horse-power, steel products and other articles of commerce, and a stamp tax on bank checks. Amendment of the income tax and an inheritance tax also are to be given serious thought.

Much general legislation is on the program for consideration as soon as the preparedness and defense questions are out of the way. A bill to create a land loan banking system and another to develop mineral resources on public lands have been practically completed by house committees during the holidays.

## ROMANCE OF FIFTY YEARS

CULMINATES IN WEDDING.

A report sent out to the papers from Kernersville says:

The culmination of a love affair of more than 50 years ago occurred when Mrs. Malinda Ingram, aged 71 years, was married to Mr. Zachariah Payne, aged 72, of Cana, Va. Mr. and Mrs. Payne were sweethearts in their early childhood days, being in school together, but were separated by the war and had not seen each other for more than 50 years past until last autumn.

Plans had been made for the wedding to take place at the home of Mrs. Sallie Korner, with whom Mrs. Payne had been residing, the bride to be attended by Mrs. Korner, aged 90, after which a wedding supper was to have been tendered them also by Mrs. Korner; but on account of the impatience of the groom, the couple later decided to go to Mount Airy, where they were met by Mr. Payne's children and grandchildren, who accompanied them to Cana, Va., where the marriage ceremony took place.

During their separation of 50 years the groom has been married once and the bride twice.

## SPEAKER CLARK STRONG IN SUPPORT OF WILSON.

A press dispatch sent out from Washington this week says:

Intimates of Speaker Champ Clark said today that friends of William J. Bryan are responsible for the stories recently published of a proposed coalition between the speaker and his political enemy to elbow President Wilson out of the nomination at the forthcoming Democratic national convention. While Speaker Clark has denied the story, placing himself definitely and finally on record in favor of giving the president a second nomination and standing squarely with him on the preparedness issue, the speaker's friends say there is one contingency in which the Missourian would accept the nomination. It is this:

If President Wilson should see fit to announce formally that he does not desire another term, and Mr. Bryan would state publicly that he desires to square his account with Clark for having snatched the nomination from his hand at Baltimore in 1912, then the speaker would be pleased to head the Democratic ticket in 1916. This would give the Missourian the support of President Wilson and his friends, as well as that of the Nebraskan and his following in the party ranks, which still is believed to be considerable.

Under no circumstances will Speaker Clark consent to make a fight against President Wilson's nomination. So far as the president is concerned, he has buried the memories of the 1912 convention. He did not charge the president with responsibility for his downfall in that convention, and when he buried the hatchet it was planted deep and the earth packed over it.

Some of the speaker's friends here go to the extent of declaring that the Missourian would not accept the presidency at the expense of a reconciliation with Bryan, and certainly not unless the Nebraskan took the initiative and acknowledged publicly and formally that he double-crossed the speaker in 1912. They do not think there is even the remotest possibility of a reconciliation between the two men on any such basis, especially in view of Speaker Clark's formal announcement that he stands behind the president's preparedness plans.

## ARIZONA WANTS PART OF MEXICAN TERRITORY.

Phoenix, Ariz., Jan. 4.—A movement launched by various commercial organizations of the state to secure the annexation, virtually by purchase, of sufficient land from Mexico to extend the boundary of Arizona and California to the Gulf of California has been furthered by Governor George W. P. Hunt, who announced today that he had written to Governor H. W. Johnson, of California, asking co-operation.

An offer on the part of the United States to cancel all indemnity claims for loss of life and damage to property during the Mexican revolution in return for this land, which would straighten the Southern boundary line of Arizona and give California a strip of Lower California, is the plan of leaders of the movement. It has been pointed out by those interested in the plan that such an annexation would give Arizona a port on the Gulf of California and also bring under American control the mouth of the Colorado river and the entire Imperial Valley irrigation system, with many thousands of acres of agricultural land in the Mexican territory of Lower California.

## Office Holders Are Barred.

Governor Hanna, of North Dakota, Democratic national committeeman; Rollo Wells, of St. Louis, treasurer of the committee; at least two bank examiners and many directors of federal reserve banks will be ineligible for reelection under a resolution adopted by the federal reserve board.

Persons holding political or public offices cannot be directors or officers of reserve banks, it was decided.

A circular announcing this was sent to federal reserve banks. An addition was made to the original resolution that "while the board is of the opinion that the policy outlined in its resolution should become effective at once, directors of federal reserve banks elected prior to the date of its adoption will not be required to resign until the end of their terms."

## BILLY SUNDAY CHASING THE DEVIL IN TRENTON.

Trenton, N. J., Jan. 4.—Trenton is now the theater for Billy Sunday's race against the devil, and as Billy got off to a flying start against his satanic majesty, it would seem that the old boy was in for a long run. The hard-hitting evangelist will wage a fight here for seven weeks, and it looks as if his cloven-footed rival will have to take another drubbing without getting a share of the gate receipts.

Billy opened fire in the big tabernacle Sunday and slammed away at hyphenates, society women and sons of the idle rich with "not enough brains to amuse a bull pup," indiscriminately. Eugenics also came in for a good lacing.

"A man can get along well enough with an imperfect body if he's got religion!" shouted the former baseball player. "It's God we need, but our civilization only tries to put handcuffs on Him."

Preparedness is a strong plank in the Sunday platform. Billy is for it, all the time—preparedness in the government and preparedness in the home.

"I believe in the biggest gun, the best ship, the biggest torpedo that can spit 250 pounds of guncotton and turn the other fellow's battleships into a junk heap at one smash. In these days either be an American or sail back to Europe!" he said.

"Down here the battering rams of vice hound at the doors of your homes. Down here the devil has forced the issue. You've got to fight! Too many people play at religion. You've got to fight! God's army is not made up of conscripts—it's made up of volunteers. Be a grenadier for God," he thundered.

The meeting wound up with a "chautauqua salute" for God by the crowd, after which Homer Rodeheaver's trombone boomed out and the tabernacle rang to the strains of the "Battle Hymn of the Republic."

About 23,000 persons attended the morning, afternoon and evening sessions, while the total contributions for the day were \$1,110.45. Sunday was not at all pleased with this showing and told the crowd so.

## BETTER BUSINESS PREDICTED

ENCOURAGING STATEMENT HAS BEEN ISSUED BY AMERICAN CHAMBER OF COMMERCE.

The Chamber of Commerce of the United States, which has an enormous membership, including many of the most successful business men of the nation, has issued a very rosy statement on "Better Business Conditions for 1916." The report of this strong commercial organization is very encouraging. Railroad, cotton and lumber enterprises are doing well. The chamber of commerce report gives considerable space to the South and its cotton. The statement says:

"That the outlook for better business for the first four months of 1916 is in striking contrast to that prevailing this time last year is the opinion expressed in a report just submitted by the committee on statistics and standards of the Chamber of Commerce of the United States. There are localities where much caution and conservatism yet remain, and the influence of high prices for the future further accentuates this caution because dealers feel that high prices will curtail buying by the consumer. Broadly speaking, the report goes on, it may be said that the spirit of optimism and hopefulness prevails to a degree that has not been apparent for nearly a decade and the general belief and expectation is for such prosperity during 1916 as will recompense the people of this country for all their past misfortunes.

"Referring specifically to conditions caused by the European war, the report of this committee, of which A. W. Douglas, of St. Louis, is chairman, says:

"The adverse effect of the conflict in Europe still prevails in some sections, though to a very much less extent than at this time last year. There are still scattered fears of the possibility of this country being involved in the gigantic strife; but as against this the large portion of the people are paying less and less attention to the war and more and more are concentrating their thoughts and efforts on domestic matters. Beyond this is the striking fact that the influence of the war at present as a whole is more favorable than adverse, because of the tremendous impetus it has given to certain lines of manufacturing, especially east of the Alleghenies, and likewise to many agricultural products. This influence is a material factor in the present high prices of sheep, cattle, wool, grain and of the products of leather, steel, iron, copper, brass, lead and zinc or spelter. Much of the prosperity in the grain-raising sections is due to the fact that the farmer is selling freely because of remunerative figures for his product, and there seems to be no manner of doubt but that these prices will decline materially in case of peace. While there are many conjectures as to the consequent effect upon business of such a contingency, the general belief con-

ters around the conviction that the war will last for some time and that the part of wisdom is to make the most of the present situation, regrettable as it is, and not take undue thought of the morrow by attempting to forecast the likelihood of what will happen if peace is declared, since there seems to be no stable analogies nor precedents in the past on which to base a sound opinion. The unfavorable effects on some industries have largely been overcome by time and the ingenuity of the manufacturers, but certain other lines of business still languish because of the continuance of the war.

**Cotton and the South.**  
"It seems now well settled that the cotton crop will be one of the smallest for several years, but it is being sold at very remunerative prices, for it was one of the cheapest cotton crops ever raised because of economies of every kind and description enforced by necessity upon the farmers and planters. It is practically all picked, and a very large portion of it is sold and the results of it are seen in the improved conditions in the cotton belt between now and twelve months ago.

"Because of the unusual diversifications in the South during 1915, there resulted the largest grain and forage crops of all descriptions ever known in the history of that section. There are also more hogs, cattle and dairy cows in the South than ever before. The Southern states as a whole are more self-contained than at any time in their history and are apparently on a sure and solid foundation in all agricultural and industrial ways. The optimistic spirit of the people as regards the future is shown in the great revival of business throughout that section, and the general opinion that the South has entered on a lasting period of prosperity. As far as is possible to forecast, it seems more than probable that the system of diversification will be permanent and that there will be more grain and foodstuffs raised in proportion to cotton in the future than in the past. The oil and gas industries have experienced a revival because of much higher prices. This very favorably affects Illinois, West Virginia, Pennsylvania, Ohio, Oklahoma, Texas and Southern California.

"The acreage sown in winter wheat is about 12 1-2 per cent less than last year at this time and the condition is not quite so good. The decrease in acreage to a large extent is in the principal winter wheat growing states of the central West, and is partly due to the ravages of the Hessian fly during the last season. On the other hand, the acreage in the Southern states has been increased because of their fortunate experience in this great cereal during this year.

"There is more live stock in the country at this time than for the same time last year, despite the unfavorable conditions reported in certain sections in the Northwest. The dairy industry continues to grow and expand in all sections of the country. Much the same is true of poultry products. Mining in all forms shows

marked improvement of conditions prevailing a year ago.

"The tobacco crop yields about the same as last year. Sugar beets have not only a larger yield than last year, but command higher figures. The production of fruit throughout the country was very large, but much of it was at unremunerative prices. The present outlook for California and the Southern states for early garden truck is fairly up to the average. Reports from the South and middle Atlantic state fisheries are of slow business, while in New England on the contrary the situation is most excellent."

## ASKS APPROPRIATION TO CHECK SPREAD OF PELLAGRA.

Washington, Jan. 4.—Pellagra has become such a menace to the South that Secretary McAdoo today asked Congress for a rush appropriation of \$100,000 for studies and demonstration work in rural sanitation, with a particular view of checking that disease and typhoid fever. He submitted a report from the public health service which said:

"Increased demonstrations are urgently required to prevent pellagra from becoming a veritable scourge in many rural communities. In Mississippi alone there were 10,954 cases and 1,024 deaths from pellagra last year and in certain other states it has exceeded tuberculosis as a cause of death. It is estimated that there have been approximately 75,000 cases of pellagra throughout the country this past year, with more than 7,500 deaths."

The report states that the country population has not kept pace with urban communities along sanitation lines and that improper food has been shown to have a profound influence on health of populations and to be directly responsible for the increasing prevalence of pellagra.

## GOVERNOR WILL INSPECT STATE CONVICT CAMPS.

Governor Craig is planning to spend next week in the western part of the state, with Asheville as headquarters, visiting and personally inspecting the work being done by the state convicts in highway construction in co-operation with local authorities. These include especially those squads of convicts working on the Hickory Nut Gap link of the Charlotte-Asheville highway; the Ridgecrest end of the Asheville-Ridgecrest highway and the Madison county highway construction. Each of these has separate contracts with the state under legislative enactments for working convicts from the state's prison. There are about 150 convicts assigned to these three camps.

It is understood that there has been some complaint that the local authorities are not providing the equipment required for obtaining the best results from the convict labor, and it is to look into these matters that the governor is making the personal inspection.

## Free With Marks of Distinction.

Carranza is rather free with marks of distinction. He has contracted for 100 gold medals, set with diamonds and emeralds and bearing his portrait in relief, to be distributed among his generals and higher civil functionaries, while 100,000 medals of bronze are to be presented to lesser civilian and military officers. Such honors are valuable in an inverse ratio to their commonness. To be marked as one of a thousand may cause the recipient to swell with pride; but medals given en bloc to 100,000—that number including practically every man in the Carranzist host—would not give any of the wearers cause for being chesty.

## Suggestion of Grim Humor.

There is a suggestion of grim humor in the story from Athens that doctors have gone there to inspect the person of King Constantine and "to examine the wound left by the operation performed in June." The public will recall the general and uncontradicted rumor that the operation alluded to was performed by the queen of Greece with a knife in the course of an animated domestic controversy regarding the policy of the country in relation to the great war. And since this operation the king has been notably peaceful, reticent and indisposed to combat or activities of any kind.

## SURVIVOR DESCRIBES THE PERSIA DISASTER.

Charles Grant, of Boston, one of the two Americans known to have been on board the Persia when she was torpedoed last Thursday, has arrived in Alexandria, Egypt. He gave to the Associated Press the most detailed account yet received of the disaster.

"I was in the dining saloon of the Persia at 1.05 P. M.," he said. "I had just finished my soup and the steward was asking what I would take for my second course when a terrific explosion occurred.

"The saloon became filled with smoke, broken glass and steam from the boiler, which appeared to have burst. There was no panic on board. We went on deck as though we were at drill and reported at the life boats on the starboard side, as the vessel had listed to port. I clung to the railing. The last thing done was to tie on Captain Sprickly's life belt. "As the vessel was then listing so badly that it was impossible to launch the starboard boats, I slid down the starboard rail into the water. I got caught in a rope which pulled off a shoe, but I broke loose and climbed on some floating wreckage, to which I clung.

"The last I saw of the Persia she had her bow in the air, five minutes after the explosion.

"After floating about on the wreckage until 4 o'clock in the morning I saw five boats. I was pulled into one of them. We rowed about looking for other stragglers.

"The boats became overloaded and the occupants were redistributed. Four boats were tied together by their painters and the fifth followed some distance away.

"My boat left the others in order to search the more frequented steamship channels for help. We rowed for three hours. Then we saw a cruiser and called out: 'We are English.' We explained that we were survivors of the Persia and gave directions to the cruiser as to where the other boats were. They were soon found and the occupants were taken off immediately by the English sailors.

"Robert McNeely, American consul at Aden, sat at the same table with me on the voyage. He was not seen probably because his cabin was on the port side.

"It was a horrible scene. The water was black as ink. Some passengers were screaming, others were calling out good-bye. Those in one boat sang hymns."

## Canada's Splendid Example.

If Canada, with a population not exceeding 7,500,000, sends 500,000 men to the European war, as she proposes to do, she will show a degree of patriotism that should put the English "slackers" to shame. Great Britain is fortunate in her colonies, which are likely to prove her salvation. Will she be properly grateful to them when peace shall be restored?

### NEIGHBORHOOD NEWS

#### SUMMERFIELD.

The Christmas holidays passed off very quietly and pleasantly, with only a few visitors in the village.

Miss Pauline Smith and brother Herbert, of Ramseur, spent the entire week with their aunt, Mrs. John McDearls.

The Christmas trees at both the churches were enjoyed by large crowds.

It seems that every body had the Christmas spirit more than ever before. Everybody wanted to give some one a present. It seemed to be a week of giving and receiving. We hope that some poor soul was made happy, for it was the gladdest time of the year and a good time to do good unto others.

Misses Ione DeBoe and Lelia Patterson, of Greensboro, took Christmas dinner with Mrs. Byrd.

Prof. Martin Wright and family, of Edenton, spent the holidays here with his brother and mother.

"Aunt" Dinah Calhoun, who had been very feeble for some time, died

last Saturday and was buried at the Baptist church Sunday.

Mrs. James Fox, of Siler City, and Mr. W. S. Highfill and daughter Leslie, of Guilford College; Mr. Nick Johnson, of Greensboro, and Mrs. B. W. Johnson, of Stokesdale, visited Mrs. Jere Highfill during the holidays.

Mr. Buck Wilson has moved into his new bungalow down on Depot avenue.

The health of the community is very good at present. We know of no serious sickness anywhere near us.

We wish The Patriot a happy new year and may this be the best year of its life.

#### Rev. J. W. Wellons 90 Years Old.

Elon College, Jan. 4.—Rev. J. W. Wellons, D. D., the oldest living minister in the bounds of the Southern Christian Convention and a resident of this place, has passed his 90th birthday anniversary and bids fair to live out a full century of usefulness. Mr. Wellons on his birthday anniversary received 96 personal letters from his friends scattered throughout all parts of the United States.

#### SUMMER.

Mrs. Mary Coy, from Florida, has returned to her home after a short visit with her sister, Mrs. J. L. Layton.

Mrs. R. G. Beason, who has had a very serious case of pneumonia, is improving slowly.

Mr. Stiner Layton is improving very slowly.

The Sunday school convention at Concord was attended by a large crowd, considering the weather.

Mr. and Mrs. N. R. Kirkman, of Pleasant Garden, have returned home after a week's visit to her mother, Mrs. Layton.

Mr. and Mrs. O. S. Short are all smiles; it's a girl. They have named her Helen Frances.

Miss Mattie Clark gave a rook party in honor of her cousin, Mr. Howard Hoover, last Wednesday night.

Mr. Walter Short has returned to the Summerfield school after spending Christmas with his parents.

Mr. W. O. Oliver, from Climax, visited his sister, Mrs. W. O. Little, Sunday.

Mr. Roy Tuttle, of Stokes county, has returned to his home after a short visit to his uncle and aunt, Mr. and Mrs. Y. Little.

Mr. Willie Shelly and Miss Lilly Barber were united in marriage last Thursday night.

Miss Hazel Witty visited her cousin, Miss Ruth Davis, last Friday.

Mr. Silas King spent Christmas with his parents, Mr. and Mrs. J. W. King.

#### VANDALIA.

Mr. and Mrs. J. A. Kirkman visited their son, Mr. Earl Kirkman, of Burlington, last week.

Mrs. Norman is on the sick list.

Mr. Ernest Taylor, of High Point, visited Mr. M. D. Taylor recently.

Rev. C. F. Sherrill, of Pleasant Garden, visited in the neighborhood this week.

Mrs. Rufus Barnes and children, of Summer, visited her parents this week.

Little Miss Ruth Huffman, of Elon College, visited her aunt, Mrs. D. W. Ramseur, last week.

Mrs. Coletrane, of Greensboro, visited her sister, Mrs. Louise Witty, during the Christmas holidays.

Mr. L. McGee, of Norfolk, visited friends here last Sunday.

Miss Eula Anthony is spending some time at home with her mother, Mrs. G. L. Anthony.

#### MARRIAGES.

Mr. Joseph Michael, of New Brunswick, N. J., a son of Mr. and Mrs. W. C. Michael, of Elon College, was married Saturday to Miss Ava Bell Brumley, of Concord. Mr. Michael and his bride visited his parents at Elon this week.

Mr. William A. Balsley, of Reidsville, and Miss Mary Blackburn, the attractive daughter of Mr. and Mrs. W. J. Blackburn, were married last night at the home of the bride's parents on North Elm street. Rev. Dr. Melton Clark was the officiating minister. The marriage was followed by an elaborate reception from 9 to 11 o'clock, and during these hours a large number of friends called at the Blackburn home to shower congratulations upon the young couple. Mr. and Mrs. Balsley left on a late train last night for Palm Beach and Miami, Fla., where they will spend their honeymoon. They will reside in Jacksonville, Fla., where the groom has his headquarters as a traveling salesman.

#### SOUTH BUFFALO.

Miss Norie Parker and little brother Charlie are very sick with pneumonia.

Mr. Gideon Foust and son Egbert still remain on the sick list.

Mr. and Mrs. John Phipps and daughter Bessie spent Saturday at Mr. George Forsyth's.

Mr. and Mrs. Will Reynolds, from Greensboro, spent last week at Mr. O. M. Fogleman's.

Master Edsel Jobe spent Thursday night with Master Millard Fogleman.

Mr. Lacy Hardin and Miss Eva Jobe were married at the parsonage at Tabernacle December 30. Rev. T. M. Johnson performed the ceremony.

Mr. Monroe Gresson visited at Mr. J. W. Fogleman's recently.

#### Hon. C. B. Watson Seriously Ill.

The friends throughout the state of Hon. Cyrus B. Watson will learn with regret of his serious illness at his home in Winston-Salem. He is suffering from a severe attack of erysipelas in the face and his condition is such as to occasion uneasiness on the part of his family and friends.

#### William Aycock Dead.

William Aycock, the oldest and last surviving brother of the late Governor Charles B. Aycock, died last week at his home in Florida, where he had resided for many years. He leaves a widow, but no children.

NOTICE BY PUBLICATION.  
North Carolina, Guilford County.  
In the Superior Court.  
P. F. Yates

The defendants, H. Brantley Yates, Charles F. Yates, Mamie Y. See and her husband, Harry P. See, Martha Yates Reed and her husband, George H. Reed, Hattie Yates Cody and her husband, Howard S. Cody, Margaret Yates Franklin and her husband, F. B. Franklin, and Willie L. Yates, will take notice that an action entitled as above has been commenced in the Superior court of Guilford county; that said cause of action relates to real estate, and the defendants are proper and necessary parties thereto, and the relief demanded consists partly in extending said defendants from any interest therein. And the said defendants will further take notice that they are required to appear at the term of the Superior court in said county, to be held Monday, the 17th day of January, 1916, at the court house of said county, in Greensboro, N. C., and answer or demur to the complaint in said action; that the plaintiff will apply to the court for relief demanded in said complaint.

This December 8, 1915.

## SERIOUS EPIDEMIC OF GRIP ALL OVER COUNTRY.

Influenza is spreading over the United States from coast to coast in the most serious epidemic of its kind ever known, taking a large toll in lives and causing economic loss by incapacitating workers in all walks of life.

Reports from public health service officers made public by Surgeon General Blue show that already the disease has created a grave problem for many of the larger cities, and is spreading to the rural communities.

New York, Chicago, Boston, San Francisco, Seattle, Cleveland and Detroit reported the disease widely prevalent. Cleveland and Detroit each have probably 100,000 cases. Of the larger cities, Buffalo, Pittsburgh, Baltimore, San Diego, Dallas and Mobile reported no signs of an epidemic.

There is practically nothing the federal government can do toward aiding in suppression of the epidemic. It must be dealt with by local authorities and they, in turn, it is said, are almost helpless without co-operation from the public. Surgeon General Blue said Tuesday he had called for reports from all parts of the country with the hope that publicity would tend to stimulate this co-operation.

Some of the reports were summarized by Surgeon General Blue as follows:

Norfolk, Va.—Influenza prevalent. Pneumonia not increased.

Wilmington, N. C.—About 80 cases, mild form.

New York—Disease widely spread. Marked increase in pneumonia mortality.

Chicago—Last week there were 57 deaths from influenza, 39 deaths week before. There were 1,440 cases of pneumonia in December with 666 deaths of which 201 occurred in the last four days.

San Francisco—Epidemic of influenza widespread and most severe since 1891.

Philadelphia—Influenza epidemic here. In five weeks ending December 31, 141 deaths, of which 72 occurred the last week. During December 881 cases of pneumonia. Deaths from pneumonia the last week, 284.

Memphis—Estimated 7,000 or 8,000 cases, but outbreak declining rapidly.

## HORSE MEAT NOT POPULAR AS A DIET IN NEW YORK.

New York, Jan. 5.—A week has passed since the health department raised the ban on horse meat as an article of food, but an official of the department said yesterday that there had been no application for permits to butcher horses for food. New York is too prosperous just now, he thought, to turn to the horse for a source of food supply.

The regulations allowing sales of horse meat went into effect yesterday, but, so far as could be ascertained, not a pound was put on sale in the retail shops. Emil Joseph, a butcher of Washington market, has been on the outlook for horse flesh ever since the health authorities announced its sale would be permitted. Mr. Joseph is French and has no prejudices against horse meat. Like the health authorities, however, he believes its entry into the market should be carefully regulated.

Mr. Joseph suggested that every butcher selling the new food should be forced to keep his supply separated from his other stock and that he also be required to place outside and inside his shops a sign of a horse's head, as is done abroad, to signify to the customer that horse meat is for sale there.

The suggestions of Mr. Joseph have found favor with the health officials.

## Ford Not in Good Humor.

New York, Jan. 3.—Henry Ford returned to Detroit tonight to complete plans for a propaganda against national preparedness. Whether he will become active in a fight against Mr. Wilson or merely furnish funds has yet to be determined. In a public interview Mr. Ford gave a broad hint as to his plans. Reiterating that his peace seed has fallen on good ground in Europe and that results are expected later, Mr. Ford paid his compliments to the American government in a left-handed manner.

## Constipation Cured Overnight.

A small dose of Po-Do-Lax tonight and you enjoy a full, free easy bowel movement in the morning. No gripping, for Po-Do-Lax is Podophyllin (May Apple) without the gripe. Po-Do-Lax corrects the cause of constipation by arousing the liver, increasing the flow of bile. Bile is nature's antiseptic in the bowels. With proper amount of bile, digestion in bowels is perfect. No gas, no fermentation, no constipation. Don't be sick, nervous, irritable. Get a bottle of Po-Do-Lax from your druggist now and cure your constipation overnight.

## KEPT LAMPS BURNING AT POINT OF STARVATION.

When the Ward Line steamship Mexico arrived yesterday from Havana and Vera Cruz Captain O'Keefe reported that he had stopped the ship in the Gulf of Mexico to land provisions for the keeper of the West Triangle light, which is on a small island 150 miles west of Progreso.

When Second Officer Hassell reached the lighthouse he found that one woman, the wife of a keeper, had died of starvation eight days previously, and two men, a woman, and three children were on the brink of succumbing when the Mexico came along and saved their lives.

Captain O'Keefe said the lighthouse was kept up by the Mexican government and a boat was supposed to call with provisions every two months, but in the continuous revolutions the lightkeepers at West Triangle had been forgotten for four months. They kept the light burning brightly.

The Mexico was on her way to Progreso on December 23, passing about five miles from the island at 1.30 P. M., when the captain said he noticed a signal hoisted from the lighthouse, which he saw through the glass was "N. J.," meaning in the international signal code, "I am in distress. Want immediate assistance." Realizing that it was probably provisions that were needed, Captain O'Keefe had a quantity of beef, flour, sugar, coffee, butter, eggs, and other things placed in a boat and went close in to the West Triangle and sent the second officer in charge to investigate.

He found the two men and the surviving woman and children so weak from want of food that they could scarcely move. The boat's crew landed the provisions and carried them to the lighthouse, which is about the only part of the island that remains above water at high tide.

The supplies gave out three weeks ago, the survivors said, and since that time they had lived on water, and sometimes a little fish when they had the luck to catch any. Nothing grows on the island, Captain O'Keefe said, not even seaweed. There was plenty of oil for the lamps, the lighthouse keeper told the second officer, so they were enabled to keep them burning.

Enough provisions were left at the West Triangle to last the people for a week, and Captain O'Keefe reported their plight when he arrived in Progreso on Christmas eve.—New York Times.

## BRYAN PROTESTS PAYING HIS FARE TO NEW YORK.

New York, Jan. 4.—William Jennings Bryan vigorously protested to-day against the law of New York state, because he was required to come here at his own expense and give testimony in a suit for libel.

"I am here under duress," declared Mr. Bryan, "because it is the only way I can avoid contempt proceedings."

Mr. Bryan was examined in an action brought against a Greek newspaper. He was questioned concerning the sale by the United States to Greece of the old battleships Idaho and Mississippi, but said he knew nothing of the details. He denied that he gave any secrets of gunfire control to the Greek government, or that while secretary of state he had seen any letter written to influence him against Agamemnon Schliemann, former Greek minister to the United States. He also said he had not heard criticisms alleged to have been made of him by Schliemann.

According to Mr. Bryan, the sale of the battleships was a matter which rested entirely with the navy department.

## Kaiser Has Cancer Symptoms.

It is stated that the German emperor is not suffering from a malignant carbuncle but from alarming eruption of the skin, which, it is feared, is symptomatic of cancer, since the lips are particularly affected and the surrounding tissues of the mouth and throat are becoming involved.

The court physicians disagree both as to the diagnosis and treatment. A surgical operation has not yet been decided on, but lest the removal of the affected parts should become imperative an artificial palate is held in readiness.

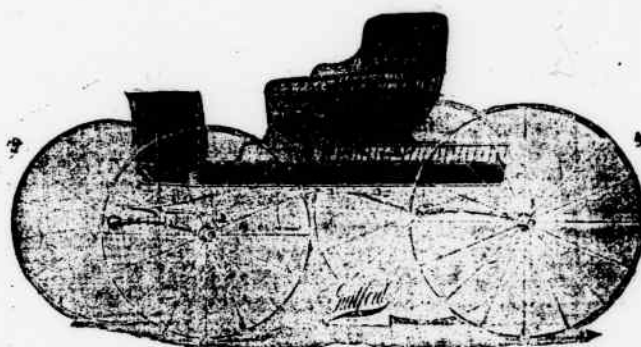

## An Effective Cough Treatment.

One-fourth to one teaspoonful of Dr. King's New Discovery, taken as needed, will soothe and check coughs, colds and the more dangerous bronchial and lung ailments. You can't afford to take the risk of serious illness, when so cheap and simple a remedy as Dr. King's New Discovery is obtainable. Go to your druggist today, get a bottle of Dr. King's New Discovery, start the treatment at once. You will be gratified for the relief and cure obtained. adv.

## FARMERS ARE ADVISED TO GROW INDIGO THIS YEAR.

It may be of some interest to people of the state to know that before the Revolutionary war the production of indigo was a leading industry in North Carolina and South Carolina. In 1777 over a million pounds were produced in the Carolinas for the purpose of making the dyestuffs that we now get, or fail to get, from Europe.

Economic conditions caused the production of this crop gradually to cease, but the commissioner of agriculture of North Carolina feels that the recently changed economic conditions furnish a very strong argument in favor of reviving this abandoned industry among the farmers, and thus not only render our textile manufacturing industry independent of Europe but place in the hands of our farmers whatever profits might accrue from the production of the plants from which the dyestuffs are made as well as the cotton from which the cloth is made—the salt as well as the pork.

The commissioner, therefore, advises the growth of indigo, in a small way, at least, among the farmers of the state during the coming season. Seeds may be secured from the leading seed men and instructions for growing the crop may be secured by application to the commissioner of agriculture.

## HUNDREDS IN OHIO ARE MADE HOMELESS BY FLOOD.

Several hundred persons were driven from their homes and considerable property damage was done by floods throughout Ohio Monday. No loss of life was reported, but the situation in several cities, particularly in the northern part of the state, was regarded as serious. Heavy rains, which fell almost continuously, and melting snow caused many rivers to rise rapidly.

More than 200 families were made homeless at Tiffin when the Sandusky river overflowed its banks. Mechanicsburg, a village near Tiffin, was reported to be five feet under water. Damage there was estimated at \$100,000, with the river still rising.

Fremont, north of Tiffin reported a further rise of three feet would flood its business section. Merchants and manufacturers were busy moving their stocks.

Water was three feet deep in the factory district at Lima, on the Ottawa river, at noon, but began to recede later.

## Father Killed in Row Over Child.

J. B. Spier, 38 years old, of Atlanta, was shot and killed on a street there Monday after what the police said was an altercation between him, his divorced wife, her father and brother over possession of the Spiers' nine-year-old daughter, Dorothy. Dr. J. V. Bishop, of Burwell, Ga., Mrs. Spier's father, and her brother, H. A. Bishop, of Atlanta, who were with her, were arrested. They told the police that Spier tried to take Dorothy from her mother and threatened the woman with a pistol when she sought to restrain him. Spier was shot five times.

## AFTER THE LOBBYIST.

Gone are the days when national legislation was made in the corridors and committee rooms of the national capitol. Gone is the picturesque and much denounced institution known as the lobby. Proponents or opponents of legislation before Congress must tread the straight and narrow path or beware an investigating committee. And now Representative C. B. Smith, of New York, proposes to go further and to regulate closely the activities of all concerned in putting measures through Congress. Representative Smith will press a bill proposing "to suppress lobbying and to provide for the registration of persons employed to advocate or oppose legislative measures and to regulate the method of such advocacy or opposition."

Representative Smith's bill would provide that every person, firm, corporation or association employing any one to advocate or oppose legislation in Congress must register with the secretary of the senate and the clerk of the house. In registering the interested persons would be required to furnish information as to their business, their interest in legislation, and the names of the persons employed to press or oppose such legislation. The lobbyist employed would be given a certificate by the secretary of the senate or the clerk of the house, upon the payment of a \$3 fee. No lobbyist would be allowed to appear before committees or otherwise seek to influence legislation unless provided with such a certificate.

Both employers and employees in lobby work would be required by the Smith bill to file itemized, detailed accounts showing all of the money expended or collected in connection with influencing legislation. No lobbyist would be allowed to accept employment to seek to influence legislation upon a contingent fee. All of the records of the lobby registration would be at all times open to the public.

The bill would provide for the imposition of a fine of from \$200 to \$5,000 or imprisonment for not less than one or more than two years, or both, as a penalty for all violations of the act.

Representative Smith's measure is now before the house judiciary committee and the New York representative has made representations seeking an early hearing on the bill. He asserted that insidious lobbying still continues, despite the efforts to prevent it, and that only the registration of every lobbyist will clear up the situation.

Another step in the fight for nation-wide prohibition was taken Tuesday, when Congressman Webb introduced in the house of representatives a resolution looking to the abolition of the liquor traffic in the United States by constitutional amendment. As Mr. Webb is chairman of the judiciary committee, to which the resolution was referred, little trouble is anticipated in having the matter promptly reported to the house for a vote. A similar resolution will be introduced in the senate and the prospect of favorable action by the present session of Congress is encouraging to the prohibition forces. It is altogether probable that the present session will pass a law providing for prohibition in the District of Columbia.

The name of Hon. William R. Allen, one of the associate justices of the Supreme court of North Carolina, is being mentioned in connection with the vacancy in the Supreme court of the United States caused by the death of Associate Justice Lamar. Senators Simmons and Overman and the Democratic representatives from this state called on President Wilson yesterday and formally presented his name for the appointment. Judge Allen is one of the ablest jurists in the country and his elevation to the nation's Supreme court bench would bring great pleasure to the people of North Carolina.

**North Carolina Leads in Rediscounts.**  
Richmond, Va., Jan. 4.—Additional information regarding the operation of the Richmond reserve bank for the year was made public today by Governor Seay, of the bank.

A statement issued by Mr. Seay shows that the bank rediscounted more paper for member-banks in North Carolina than for those of any other state in the district, the North Carolina discounts being \$16,979,578.

For South Carolina banks paper amounting to \$15,686,783 was discounted. The rediscounts in Virginia were \$11,000,000. The discount business with the District of Columbia was \$1,583,000, with West Virginia \$1,376,000, and with Baltimore only \$699,822.

The expenses of the bank were \$159,644.56. Of this amount \$60,730 for directors' fees and \$32,369 for current and incidental operating expenses.

The total earnings of the bank amounted to \$319,579.66. The net earnings were \$159,935.10. From this a 5 per cent dividend of \$151,939.69 was paid to the member-banks.

## Boy Sentenced to Attend School.

A press report sent out from High Point Monday says:

In recorder's court this morning a young white boy was given an unusual sentence by Recorder Dalton. The lad, who is only 13 years of age, was charged with breaking into the Bethel Reformed church parsonage and taking several articles of value, including communion cups. When he was called in court this morning, the recorder was struck with the bright appearance of the boy and proceeded to question him. This revealed the fact that, while the boy was above the average in natural intelligence, he was not attending school. Immediately the recorder sentenced the boy to attend school every day for the balance of the school year. If he does not attend every day or present a physician's certificate showing that he was not physically able to attend, the court will see what other and harsher punishment can be meted out to him.

## Peace Society Meeting.

To consider ways and means of creating a stronger peace sentiment in North Carolina and to plan for the next meeting of the North Carolina Peace Society, the executive committee of that society met in Raleigh Monday, in the office of Governor Locke Craig, the honorary president of the organization. It was decided to hold the next meeting of the society about March 10. Invitations for the meeting were received from Raleigh and Durham, the selection of the place being left with a committee.

In addition to Governor Craig, the meeting was attended by Dr. Charles Lee Smith, president; Mr. John D. Berry, secretary; Mr. Joseph G. Brown, treasurer; Dr. J. Y. Joyner, Dr. L. L. Hobbs, president Guilford College; Dr. T. O. Harrison, A. and M. College; Dr. J. J. Hall, one of the secretaries of the American Peace Society.

## Britain May Halt Our Wool.

A report from London says: Abnormal purchases by Americans of wool in Australia and New Zealand have caused much comment in trade circles here, and the view has been strongly expressed that the re-imposition of the embargo on export raw material from the colonies of Great Britain to the United States is necessary.

There is a very general impression that America is buying wool to manufacture for the German market goods, which, immediately peace is declared, will be shipped across in the German ships interned in United States harbors. In this way, it is believed, the American trader hopes to get ahead of the British manufacturer.

Mr. H. Clay Brittain, of Summerfield, who recently spent some time in St. Leo's hospital, following the amputation of the only sound leg he had, was in the city Tuesday on business. He has recovered from the severe ordeal through which he passed.

## DEATHS.

Mrs. M. K. Debnam, an aged woman, died yesterday morning at the home of her son, Mr. T. C. Debnam, on Reed street. The body was carried to Durham, where the funeral and interment took place today.

Mrs. John Allen Robbins, aged 21 years, died yesterday morning at St. Leo's hospital. She is survived by her husband, her parents and three brothers. The funeral was held from the Glenwood Presbyterian church this afternoon at 2 o'clock, followed by interment in Greene Hill cemetery. Rev. Dr. Melton Clark conducted the services.

Mr. David Stadlem, a well known Hebrew citizen of Greensboro, died Tuesday night at his home on South Elm street. He had been ill for some time, suffering from rheumatism and complications. The funeral was held from Temple Emanuel yesterday afternoon at 3 o'clock, followed by interment in the Jewish cemetery southwest of the city. The services were conducted by Rabbi Philip Berlin, of Winston-Salem. Mr. Stadlem was 62 years old and a man of considerable means. He is survived by his widow and eight children.

Mrs. Edward T. Kearns died at her home in High Point Monday, after a lingering illness of more than two years. She is survived by her husband and three children, two girls and a boy. She was a daughter of Jesse and Mary Welborn and was born near Hopewell church, Randolph county, August 4, 1876. She was married to Mr. Kearns in 1900 and had resided in High Point since that time. She was a woman of great strength of character, and her amiable disposition won for her a host of friends. The funeral was held from Wesley Memorial Methodist church, in High Point, Tuesday afternoon, the services being conducted by the pastor, Rev. Dr. G. T. Rowe.
