

THE GREENSBORO PATRIOT

PUBLISHED EVERY MONDAY AND THURSDAY

ESTABLISHED 1821

GREENSBORO, N. C., THURSDAY, JULY 26, 1917

VOL. 96—NO. 69

ADDITIONAL DRAFT NAMES

THE FINAL INSTALLMENT OF NAMES DRAWN LAST WEEK FOR GUILFORD COUNTY.

Below is given an additional list to the one published in Monday's Patriot of the names of young men in rural Guilford in the order of their liability for service. It is to be remembered that all names of those registered have been drawn, but The Patriot has only attempted to publish the names in their order of liability. Those who will likely be called in the first, second and third drafts. If anyone's name is not in Monday's or today's list, it means that they will likely be among the last called. The first draft, for which rural Guilford is to furnish only 122 men, is expected to be called out the first of September. No one can say when the second and third drafts will come. For the first draft the exemption board will call double the quota, that is 244 men, to be examined, and if out of this number, the necessary 122 are not secured for military service, additional men will be called before the board until the desired quota of 122 is secured.

The exemption board, upon receipt of the official chart of those drawn in the order of their liability for service, will post the names of those who are to first appear before the board. A notice will also be mailed to each person called to be examined for the first quota, but the posting of the names at the office of the exemption board in the court house annex will be deemed sufficient notice to charge those called for examination with the duty of presenting themselves. Watch the lists at the office of your board and see when you are called for examination.

Upon being called before the board the prospective soldier will be first given a physical examination. If he is adjudged physically unfit, he will be discharged; if he is found physically fit, he will be asked if he has grounds for exemption. If exemption is claimed, the board will furnish the necessary blanks to be filled out. Ten days will be given the applicant for exemption in which to get up his proofs. All matter submitted to the exemption board will have to appear in writing in the form of affidavits. Blanks that are easily filled in, will be furnished in all cases. No oral testimony will be given before the board. All claims for exemption will be decided within three days after the affidavits, or proof, is filed. In case the local board's judgment is questioned, appeal to the district board may be had. Claims for exemption on the account of the work in which one is engaged, must be presented to the district board and not to the local board.

The local exemption board it is expected will post this week the names of those called for examination for the first quota. Those whose names appeared at the head of the list in Monday's Patriot will, of course, be the first called for examination. The list additional to the one published Monday follows:

UNABLE TO CHECK RETREAT

INSPIRING EXAMPLE OF WOMEN SOLDIERS FAIL TO STOP RUSSIAN COWARDICE.

Even the actual entry of women soldiers into battle on the eastern front has been insufficient to imbue the ranks of the recalcitrant Russians with patriotism. They are still deserting in large numbers in Galicia, leaving a virtually free road open for fresh advances by the Germans and Austrians.

From the Baltic to the Black Sea only at one point along the line in the southern Carpathians—have the Russians risen to the occasion and shown some of their old fighting spirit. Here, fighting shoulder to shoulder with their Rumanian allies, they have attacked and captured several villages from the Germans and broken the heavily fortified teuton line on a wide front.

In Galicia, the precipitate retreat of the Russians continues almost everywhere from the Carpathian foothills to the region around Tarnopol, the government apparently not yet having had time to put in force its strong repressive measures which Mr. Kerensky, the head of the government has promised to apply in order to stay the retreat.

Nadvorna, in the fringe of the foothills, Stanislaw and Tarnopol and numerous smaller towns have been taken by the teutons, who are now approaching the important railroad junction of Bucacz, which lies some 30 miles east of Halicz. The German emperor was an observer of the battle on the Sereth front and saw his men put down the only effort of moment that was made to hold them back—an attack by the Russians between Tarnopol and Trembowla.

Since the penetration of the German lines on a wide front near Krevo, in which the "Command of Death," composed of women, took a notable part, despite which large numbers of the Russians ignominiously retreated to their old positions without even the vestige of harassment by the enemy, the Russians have not stirred from their trenches to face the foe.

The hostilities on the Aisne front, where for weeks the Germans have wasted men by thousands in ineffectual attempts to break through General Petain's front, have ceased and only artillery duels are now in progress. Early Wednesday morning was the last attempt of the crown prince to gain his objective. This was on the Californie plateau, where an attack was completely repulsed.

The Germans have been successful in winning 200 yards of trenches from the British east of Monchy-le-Preux, which they had bombarded violently for several days past. In the capture of the position the enemy again resorted to the use of liquid fire. Along the front in northern Belgium the heavy artillery duel continues, but as yet there has been no sign of either the British or the Germans starting an infantry attack. British airmen have bombed and caused severe damage to the German submarine base at Zeebrugge and also to the town of Bruges.

German submarines or mines last week were responsible for the sinking of 21 British merchant vessels of more than 1,600 tons each and three of less than 1,600 tons. In addition a submarine has sunk the British merchant cruiser Otway with the loss of ten men killed, while a German report says that a teutonic U-boat has accounted for a British underwater craft.

German Airmen Hunted U. S. Camp.

American Training Camp, France, July 24.—(Passed by Censor.)—German aeroplanes have been trying to locate the American camp. They have been unsuccessful. Today an attempt of the German flyers was frustrated by the French.

American officers in a touring car far from the camp witnessed fifteen air machines fight in the sky. The Germans were driven off.

Death of Aged Lady.

Mrs. Harriett W. Wyant, aged 78 years, died at 5 o'clock Wednesday afternoon at the home of her daughter, Mrs. Alice W. Byrd, on Walker avenue. The funeral will be held this afternoon at 5 o'clock and interment will be had at Greene Hill cemetery. The services will be conducted by Rev. C. S. Hilliard, of the Forest Avenue Baptist church.

NO HOPE OF SHORT STRUGGLE

RUSSIAN BREAKDOWN CAUSES AMERICA TO SEE THE TASK BEFORE HER.

Washington, July 25.—No attempt is made here to minimize the seriousness of the situation in the war theaters in Europe. The United States is in the war and will go through with it; but any hope of a short struggle has gone glimmering with the apparent almost complete collapse of the Russian war machine.

The development was not unexpected by many army officers. When the offensive of July 1 was started by the Russian forces, the most frequent comment heard here was that it was probably the dying kick of the old Russian machine.

For the United States, the Russian collapse may have an immediate and direct bearing. It will, if the German general presses its advantage, release additional German forces to bolster up the western front where American troops are to be engaged.

The German line in the west has not been seriously impaired at any point, officers believe. They do not claim to know the situation all along the battle front, but they are unable to see that the British and French have wrested from the Germans any key position of such importance that it can be used next year to hurl the enemy back.

It has been noted, in fact, that the one strategic advantage gained in recent fighting was gained by the Germans. Many officers here believe that when a small sector of the British line in Belgium was overwhelmed and its defenders nearly all captured or killed the Germans improved the situation on their weakest front materially. That view is based on the opinion that the only hope of decisive attainments for the allies in the west lies in rolling up the German right flank, where it reaches the sea in Belgium.

If that could be done, it is argued that the U-boat bases could be stamped out and the only offensive instrument of the German be eliminated entirely or made ineffective.

The big question is whether it could be done. It would require combined army and navy operations on that part of the Belgian coast held by the Germans, for it would be necessary to force a landing behind their line and force the whole right flank back from the sea as a result. The price of a victory of this nature against the U-boats and German shore batteries probably would be appalling, and there is nothing to indicate that the effort is being seriously considered at the present. However, many army men, both here and in Great Britain, favor some such desperate attempt to bring the struggle to a conclusion.

Reports received from France give no cheering picture of what must be done. There appears to be no doubt that the allied lines can stand against any force Germany can bring against it. Even the Russian disaster does not affect that situation, but to gather the necessary strength for a successful offensive will take time and ample sea transportation facilities, if the United States is to furnish the needed surplus of men, airplanes, munitions and food.

The transportation problems before the United States, both on land and sea, are constantly increasing in scope. It seems to be certain now that whole railroad systems will have to be set up in France to give the American line the flow of war materials and men that it must have to press home an attack.

There is an old military rule that a fortified position cannot be taken by direct attack, but must be turned or isolated entirely. Some observers here say the allied offensive has consisted only of direct attacks against a line of fortifications stronger than any fort of former days. The maze of trenches, entanglements, armored strong posts and fortified villages extending miles back of the front on both sides, so that in effect a fortified belt stretches from the sea to the Swiss border that is perhaps more than 100 miles wide.

Military men here believe that no breach can be made for many months through the German line, of sufficient width to permit such operations in the rear as would force a rolling-up of the entire German front.

Admitting all these points, there is no sign of discouragement among American officials. President Wil-

son's declaration that the nation, not merely an army, must be made ready, for war is being carried out determinedly and apparently with confidence that in time men and supplies can be got to France in sufficient force to make certain the result.

RUSSIAN PEASANTS

HOLDING TO WHEAT.

Petrograd, July 24.—How is Russia to induce its peasant farmers to part with their precious stocks of wheat. That is the question which is wringing the brow of the minister of supply, M. Peshebonoff. Discussing the subject before the All-Russian Congress of Workmen's and Soldiers' delegates, he said:

"The greatest difficulty of the food situation just now is that the peasants refuse to give up their wheat. In the old days, wheat was to be had in exchange for money. But now money is cheap, and there is little to be got for it. The peasant is therefore, extremely unwilling to exchange his wheat for more money. The peasant population has lost its faith in money and stocks to the one thing which it has in its hands."

"There are plenty of things which the peasant needs more than he needs his wheat, but unless you can make these things available to him in his markets you won't be able to get his wheat. The forcible seizure of wheat from many million peasants is impossible. Yet something must be done to prevent starvation in our cities. If starvation should come to Petrograd, no power on earth could prevent the collapse of whatever government happens to be in power."

"The task before the ministry of supply, then, is to secure for the peasants supplies of manufactures and wares which they need. It is getting back to first principles of barter. The task will be difficult because of the lack of raw materials and the disorganization of industry. Meanwhile the peasants are hiding their wheat in caches so unsuitable that serious loss is certain to result."

OVER SIXTY PER CENT OF LIBERTY LOAN IS PAID IN.

Washington, July 24.—More than 60 per cent of the \$2,000,000,000 liberty loan already has been paid in to the treasury. Today's treasury statement, the first issued in 24 days, shows payments June 30 on the liberty loan account of \$1,385,024,456.

Only 20 per cent of the loan, or \$400,000,000, was due June 30, the two payments of two and 19 per cent, respectively, being due June 15 and June 28. The amount thus voluntarily paid into the treasury by subscribers ahead of time totaled but \$15,000,000 under a round billion dollars.

Out of the proceeds and other revenues, the government had redeemed treasury certificates of indebtedness, issued in anticipation of the loan, amounting to \$626,000,000 June 30. The balance was deposited in federal reserve and national state banks and trust companies throughout the country in accordance with Secretary McAdoo's plan of distributing the deposits among as many institutions as possible. A total of \$560,662,218 was deposited in banks other than federal reserve banks June 30.

WHEAT AND CORN BOTH SOLD HIGHER.

Chicago, July 24.—No. 2 hard winter wheat sold at \$2.60 to \$2.65; No. 2 red winter at \$2.59 to \$2.60 today. Millers paid these prices and they stood ready to absorb additional amounts. The market for September wheat showed a gain of 3-4 cents and the July future was up 4 cents.

The corn market was one-eighth and one-fourth cents higher and the cash article made another new high level with sales of No. 3 white at \$2.23.

While there were declines of one-eighth and one-half cent in the oats market there were advances of 12 1-2 and 45 cents for hog products. In provisions there was early buying of ribs by packers which with the advance in the price of hogs drove many shorts to cover.

Patriotic Social by K. of P's.

Knights of Pythias of Greensboro will have a patriotic social in their hall tonight. Dr. Byron Clark, of Salisbury, grand chancellor of the lodge, will be the guest of honor, and deliver the address. The program arranged is a most attractive one.

EXPORT SHIPMENTS STOPPED

NO SUPPLIES FOR COUNTRIES SUSPECTED OF EXPORTING TO GERMANY.

Washington, July 23.—The American government's control of exports has resulted in an absolute embargo on cargoes destined to the northern European neutral countries. Since the control was made effective a little more than a week ago not one cargo, it was learned today, has been licensed for shipment to these nations.

The policy enforced is described as temporary, to be changed as soon as it is possible to put the neutrals on a rationing basis. Despite submission of much information by the neutrals affected, the government considers that it lacks convincing evidence regarding exports from those countries to Germany and it wants to take no chances of permitting American goods to go through to the enemy.

Goods destined for the allied countries are licensed without question, as are commodities that go to most other neutrals. Some shipments have been permitted to go forward to Switzerland, but not until the character of the consignee was established beyond question.

Meanwhile, the government is negotiating with the British for an arrangement by which the export control will supersede the British system of granting letters of assurance. For the present, an export control license is no guarantee against British seizure and American exporters must satisfy the British authorities of their own good faith and that of the receivers of their goods.

The Dutch minister, Mr. Van Rappard, has taken a particularly vigorous stand against the government's policy toward the European neutrals. Without awaiting the arrival of the special mission to leave Holland soon to negotiate here on the subject, he has laid before the exports council detailed statistics to refute charges that Holland has been developing an enormous export trade to the central powers. The minister told the council the total of Holland's exports has decreased considerably since 1914.

Hit Germany Hard.

London, July 23.—That the high German command had based its calculations on food supplied which America has been sending to neutrals became known, according to the Daily Mail, through the famous speech of Herr Erzberger, head of the Catholic party in the Reichstag, made before a secret session of that body. The newspapers referred to this address as a "bomb shell." Herr Erzberger remarked that although America's entry into the war was of little military value, it was important owing to the extent to which Germany was dependent on the neutrals for food and other supplies.

He said that America had decreed that she would not permit exports to neutrals as long as these neutrals exported to Germany. Consequently, Herr Erzberger said, Germany would very shortly lose its source of supply. The terrible fact, he said, had to be faced that the military authorities had entirely figured on those supplies and that no body in authority could find an answer or give any idea from where these supplies were to come.

FIVE KILLED IN EXPLOSION UPON THE SUBMARINE A-7.

Washington, July 25.—An explosion yesterday on the submarine A-7 at Cavite, Philippine Islands, killed five and injured three of the officers and crew. The dead and injured are: Dead: Lieut. Arnold Marcus, Mill Valley, Cal.

Machinist's Mate Harold H. Lang, Dorchester, Mass.

Gunner's mate Otho Hopewell, Brushy Knob, Mo.

Chief Electrician Jesse M. Currie, Richmond, Va.

Machinist's Mate Joseph A. Kunz, Cameron, Tex.

Injured: Chief Electrician Theodore Schaiblin, Greenwood, Mo.; Fireman Arthur M. Jacobs, Rigby, Idaho; Machinist's Mate J. P. Hixon. Hixon's injuries are slight. The others were seriously burned.

The explosion from a preliminary examination, appeared to be due to the ignition of gas within the ship. The cause of the ignition of the fumes has not been reported.

IRON WITHOUT A "HOT FIRE"

There are many occasions during the week when you desire to do a little ironing, and if you are using the old style sad iron it necessitates your building a fire in the cook stove or range.

Then, too, besides using fuel, the trouble of tending it and the heated kitchen, your irons are continually cooling and must be reheated.

The Comfort Self-Heating Gasoline Iron

which we are now featuring does away with all the above inconveniences and may be kept at any desirable temperature for hours.

THIS COMFORT GASOLINE IRON IS DOUBLE POINTED—making both ends front ends—a new feature in irons. Weighs six and one half pounds and operates five hours on one filling, the capacity being three-quarters of a pint.

RETAIL PRICE, \$3.00.

ANOTHER LARGE CREDIT IS EXTENDED TO THE RUSSIANS.
Washington, July 24.—The United States today emphasized its faith in the Russian government by extending it a further credit of \$75,000,000.
This is the second Russian credit, the first, for \$100,000,000, having been established soon after the United States entered the war. It is understood most of the \$100,000,000 already has been spent for railroad supplies and that much of the \$75,000,000 will be used in the same manner.
An additional credit of \$60,000,000 to France also was authorized today by Secretary McAdoo, bringing the total advanced to all the allies up to \$1,523,000,000, or more than half of the \$3,000,000,000 authorized by Congress. The first loan was made April 25 and the total loaned represented advances made by this government in less than three months.
The contest between the wets and the dry in Congress seems to be endless, with the drys on the verge of a war victory, at least.

ENGLAND SPENDING MANY MILLIONS DAILY.

London, July 24.—Andrew Bonar Law, the chancellor of the exchequer, announced in the house of commons this afternoon that for 112 days the average British expenditure was £6,795,000 daily.
The chancellor said the total advance made by Great Britain to her allies and the dominions was £1,025,000,000.
Mr. Bonar Law said the net increased expenditure was £33,500,000, not including advances to Great Britain's allies, which represented an increase of £200,000 daily.
It was obvious, he said, that the budget estimate must be exceeded. He declared he would not be surprised if by the end of the fiscal year the excess was not approximately the same as that of the last fiscal year.
Mr. Bonar Law introduced a vote of credit of £650,000,000, the nineteenth vote since August, 1914, and the largest since the outbreak of the war. This opened general debate on the war, the discussion being expected to last two days.

NOTICE OF SALE.

Under and by virtue of an order of the Superior court of Guilford county made in the special proceeding entitled Annie Jane Shatterly vs. Minnie Shoffer and others, the same being upon the special proceeding docket of said court, the undersigned commissioners will on
Monday, August 13, 1917,
at 1:30 o'clock P. M., at the court house door in Greensboro, N. C., offer for sale to the highest bidder said tracts or parcels of land described as follows:
Adjoining the lands of the Horner estate, Bob Amick and others, bounded as follows, viz:
Beginning at a stone on Calvin Johnson's line running north 13 east 45 chains 25 links to a stone in the line of Daniel Bowman and Dove Cable's corner; thence north 13 east 4 chains and 10 links to a stone; thence south 47 east 13 chains 75 links to a stone; thence south 45 east 4 chains to a stone; thence up the creek as it meanders to a beach on the south side of the creek; thence south 1 east 4 chains 30 links to a stone; thence Calvin Johnson's corner; thence south 51 degrees west Johnson's line to the beginning containing 47 acres more or less.
Also on the lot of land known as the Potran lot, beginning at a stake on north side of Shilling Quarter creek; thence south 62 east 3 poles and 2 links to a maple in the north bank of said creek as it now runs; thence up said creek south 7 west 6 1-2 poles to a willow; thence south 1 east still up said creek as it now runs to the fork of the big and little creek below the deep hole 8 poles 15 links to a stake in the creek at the fork; thence up the little creek; thence south 75 west 2 poles to a stake where the creek formerly forked; thence down the old current north 43 west 3 poles to a stake in the bed of the old creek; thence still down the old creek bed north 2 1-2 east 11 poles to a stake in old bed; thence north 47 east 4 poles 8 links to the beginning containing 43 poles.
One other lot of land known as the Horner land, beginning at a stone in the corner of the Horner estate, running north 13 west 75 poles to a stone south bank of little creek, Shoffer line, in the fork; thence north 67 1-2 west 2 poles to a stone; thence south 13 east 2 poles 17 links to a stone; thence south 55 west 12 poles to a stone; thence south 51 west 12 poles to a persimmon bush; thence south 6 degrees west 4 poles 5 links to persimmon bush corner; thence south 22 1-2 east 53 1-2 poles to a stake in the public road near church; thence south 87 1-2 east 27 poles 15 links to a stone; thence with Hutson line north 5 degrees east 79 poles 8 links to beginning, containing 50 acres, more or less.
The said lands may be divided in two or more tracts, having a view to making desirable lots for prospective purchasers and at sale the said lots will be sold separately and then as a whole, upon the following terms to-wit:
One-fourth of purchase price in money down; the other three-fourths in equal installments at six, twelve and eighteen months. Deferred payments to bear interest at six per cent per annum, from date of confirmation until paid, title reserved until purchase price is paid in full. Sale subject to advance bid and confirmation by the court.

You Can Afford Good Light

You up-to-date farmers who own your property—take pride in your home and love your good wife and children—you should have good light.

The day has passed when good light in the farm home could be considered a novelty or expensive luxury. Nor is it a matter of big investment. Today good light is an inexpensive necessity.

Pilot-Carbide-Outdoor Lighting and Cooking Plants

have totally changed the old fashioned methods of house and barn lighting and cooking in the country home.

Hundreds of thousands of progressive farmers in all parts of the country have selected the PILOT because they were quick to recognize the value of good light—its safety and the convenience it brings them and their families. These country home owners—men like yourself—found they could easily afford the moderate investment for their PILOTS.

So can you afford it.

You can afford that new mowing machine, seed drill, and sulky plow. You can afford all the improvements that make your place a model farm, because they save you time and work.

Think of your good wife. She is your business partner. Her duty has been to make your home. She has done it well. She has contributed as much to your success as you have yourself.

The PILOT is going to save her a lot of hard work—dirty work—filling, cleaning and carrying lamps about the house—the meanest work a woman has to do. Think, too, what a gas cook stove will mean to her on hot days and when quick meals are wanted in a hurry.

If you can afford improvements for your farm, surely you can afford this one great improvement for your home—your wife—and your children. It is the one thing that you and your whole family will enjoy every night—365 times—every year.

Consider the PILOT from every standpoint—safety, comfort, convenience and better living. Your decision will be what 300,000 other country home owners have decided—you can't afford to be without it.

Write for illustrated catalogs and descriptive booklets giving all the facts. Find out, today, about the PILOT.

The TRACTOR ON THE FARM

There is no question but that practically every farmer in the country is today keenly interested in the matter of Tractor Plowing. The interest shown at the various public demonstrations has certainly indicated that literally hundreds of thousands of farmers are mightily seriously considering the use of Tractors for this purpose in addition to the thousands who are already doing so.

When it comes right down to a comparison between plowing with horses or a reliable Tractor there can be but one answer—the uniform success of all good Tractors on this class of work. Too many, however, are willing to grant that a good Tractor can be profitably used in plowing deeper, quicker, at the right time, etc., but feel that here stops to a very large degree the usefulness of the machine. The horse can be used on so many other jobs that you are almost satisfied to keep your money tied up in a considerable number of them, keeping the barn well stocked with expensive grains and hay for feeding them during the long, dreary winter months when they are doing nothing.

THE SANDUSKY TRACTOR

Has proved itself capable of satisfactorily handling Four 14-inch Mold-board or Six 26-inch Disc Plows, Discing, Harrowing, Drilling, Harrowing, Cultivating, Harvesting, Threshing, Hauling, and Furnishing Power for any necessary purpose on the Farm.

THE SANDUSKY TRACTOR is "The Farmer's Friend." We are anxious to demonstrate its usefulness to any interested Guilford farmer.

THE WAR TAX BILL WAITING

MCADOO TELLS SENATE AN ADDITIONAL \$5,000,000,000 IS NEEDED.

Washington, July 24.—Plans worked out in Congress for raising war revenue were overturned today by announcement of forthcoming additional estimates for war expenditures aggregating more than \$5,000,000,000, principally in anticipation of assembling a second army of 500,000 men under the selective draft.

Secretary McAdoo, at a special meeting of the senate finance committee, revealed that the war department alone is preparing estimates to cover additional expenditures of nearly \$5,000,000,000, and asked the committee to hold up the \$1,670,000,000 war tax bill, until the detailed estimates of all departments are submitted. The committee agreed to the request.

The new estimates, including \$500,000,000 additional for the shipping board and \$100,000,000 for the navy department, are to be submitted to the committee this week. Then there will begin another revision of the war revenue measure probably resulting in an increase of the bill's gross tax levy by from \$350,000,000 to \$1,500,000,000. Further credits may also be authorized in the form of bonds or indebtedness certificates.

Besides the additional sums needed for the American war program, Secretary McAdoo told the senate committee that the \$3,000,000,000 authorized for loan to the allies probably would last only until October and that about \$2,000,000,000 for their further assistance would be needed.

The secretary made no recommendations as to what part of the total should be raised by taxes and what part by bond issues or other credits. It was reported, however, that the treasury department would favor raising \$1,000,000,000 more than had been planned in taxes, making the tax bill total \$2,670,000,000.

As to the tax sources to be tapped to meet the new estimates, the committee for the present is entirely at sea. Mr. McAdoo's announcement came entirely without warning and more than one committee man expressed himself as completely staggered by the size of the forthcoming estimate. The first disposition was to turn to new taxes on war excess profits and incomes.

"There are many great sources of revenue open for a great and rich people like ours," said Chairman Simmons, but he would not predict what the committee would do. At today's meeting a resolution was adopted calling for submission of new estimates by all departments, so that the whole war expenditure program may be considered in connection with the pending war tax legislation.

Predicts Bumper Corn Crop For the State.

Washington, July 24.—"If they keep growing corn in my section," said Representative Robinson today, "they will have more than they can handle. They are saying now that they will not have enough houses to put the corn in. That section never had such a crop before. The prospects for cotton are bad because of so much rain. The people are responding cheerfully to the appeals for full crops."

Representative Small, who has been to the eastern part of the state, said the people have good crops, but that excessive rains have been hard on cotton planters.

"RUSS" RETREAT CONTINUES

GAINS NEARLY ALL LOSS AND RETIREMENT SEEMS UNABATED, WITH HEAVY LOSS.

Notwithstanding the threat of Premier Kerensky that a policy of "blood and iron" is to be applied without restraint against the seditious Russian troops in East Galicia whose defection has made null almost all the brilliant gains they had achieved under his personal leadership early in the month, the Russians continue their retirement, virtually pell mell, before the German and Austro-Hungarian armies. From the wooded Carpathians to the region of Tarnopol, the forces of Gen. Korniloff almost everywhere are in disorderly retreat, hardly anywhere making an attempt to hold back the on-coming enemy.

Already the losses of the Russians in men killed, wounded or made prisoner and in guns and stores captured are extremely heavy, and these undoubtedly will become greater unless the hoped-for stiffening on the morale of the Russians is realized soon.

Stanislau, the principal junction for commercial activities in the Crownland of Galicia and an important grain and manufacturing center, is being evacuated by the Russians, while Podhaytse, Talicz and other towns have been taken by the Germans. Tarnopol, one of the chief towns in the Crownland, is more seriously menaced than ever, if it has not already been retaken, by the enemy crossing the river to the south.

Including the hostilities in Galicia the entire eastern front from the Baltic virtually to the Black Sea is the scene of big operations, but with the Russians standing firmly against the enemy only in the Rumanian theater.

As in Galicia the Russians to the north around the region of Dvinsk and Vilna continue to show signs of disaffection. Although they had attacked and captured German positions along the Dvinsk-Vilna railway, the Russians could not be induced to press their advantage and retired unhindered by the Germans to their old positions. In the repulse of attacks with large forces near Krevo, which was recaptured, and south of Smorgon, the Germans cut entire regiments to pieces with their gallant fire of the infantry and machine guns.

The Germans having ceased their violent infantry attacks against the French troops along the Chemin-Des-Dames in France, General Petain's forces have assumed the initiative and have taken back from the enemy the small advantages gained in Tervain during his weeks of tenacious assaults. The lost ground on the California plateau and the Casemates plateau has all been recaptured, and the French, in spite of vicious counter-attacks by tried regiments of the German crown prince, have even pushed their line forward at several points in the latter region.

The artillery battle in northern Belgium, which has been in progress for some time, has reached an intensity never before experienced. While the British official communication as yet has only barely mentioned the fact that the big guns are hammering away, the probability is that General Haig is preparing for another of his great drives, similar to those made on the Arras and Lense fronts, which worked great havoc on the Germans and their positions and gave the British forces bases of important strategic value from whence to continue their operations.

GERMANS TRIED TO HIT THE BANK.

An American Port, July 24.—German airmen made strenuous efforts to destroy the Bank of England in the great raid on London July 7, according to passengers arriving from England today.

A squadron of nearly 20 planes swooped down upon the bank while anti-aircraft guns from high buildings in the neighborhood poured in a hot fire. The Germans threw down dozens of bombs, but none of them struck the Bank of England. One struck the Swiss bank, where a number of persons had sought refuge, and injured several persons.

Halts Negro Exodus.

Wilmington, July 24.—More than 1,000 laborers, men and women, mostly negroes, have been placed upon the farms of New Hanover county through the efforts of the New Hanover food conservation commission. Negro laborers have been leaving Wilmington by the score until recently, when the food conservation commission applied itself to the labor situation and established an employment bureau with the result indicated. A few have since left for the North, but the movement has practically ceased.

JULY CROP REPORT FOR NORTH CAROLINA.

Washington, July 24.—The July crop report has some interesting figures on North Carolina.

To begin with the honey crop is much better than that of last year.

The corn crop promises a yield of 53,277,000 against 53,650,000 last year, and the price is \$1.92 against 94 cents last year.

The estimate for the winter wheat crop is 10,344,000 against 9,975,000 last year. The price is \$2.47 against \$1.21 a bushel last year.

The oat crop forecast is for 5,760,000 against 5,131,000 last year, and the price is 91 against 64 cents.

The rice crop will be 7,000 against 6,000 bushels last year.

The tobacco crop yield will be 207,821,000 against 176,000,000 pounds for last year.

The potato estimates are 3,394,000 against 3,230,000 bushels last year. The prices are \$2.15 per bushel against 93 cents last year.

The sweet potato estimate is 8,950,000 bushels against 9,309,000 bushels, and the prices are \$1.25 against 72 cents last year.

Rye will yield 635,000 against 534,000 last year, and the price is \$1.58 against 98 cents.

Hay is 565,000 tons against 551,000 last year; price \$18.30 against \$16.30.

Sorghum 1,086,000 gallons against 950,000 gallons last year.

North Carolina growers will harvest 574,000 crates of cantaloupes this year.

It will be seen from these figures that North Carolina producers will take in much more money for crops this year than they took in in 1916.

France is cheering the American flag and the flag not to be outdone is doing a lot to cheer France.

Like a Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor says Nuxated Iron is greatest of all strength builders. Often increases the strength and endurance of delicate, nervous folks 100 per cent. in two weeks' time.

New York, N. Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was notwithstanding his age. The secret he said was taking iron—Nuxated Iron had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly all in. Now at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run down, instead of forcing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, prevent it becoming organic in thousands of cases, and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which started their diseases was nothing more than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how

long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or inunction of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like Nuxated Iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron.—E. Sauer, M.D.

NOTE—Nuxated Iron recommended above by Dr. E. Sauer is one of the newer organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The Manufacturers have each great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 100 per cent. or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by all good druggists.

Flies Breed in Filth

—then come into your home

FILTH MEANS DISEASE and flies are born in filth, feed on filth and carry filth with them wherever they alight. Flies hatching today in an outhouse, stableyard or in garbage, may bring distress to your family later on in the summer. They may bring typhoid fever, summer complaint, consumption, malaria, or perhaps infantile paralysis. The fly is almost the exclusive conveyor of diarrhoea and dysentery among children and babies.

Red Devil Lye

Eats Filth and Destroys the Fly Eggs

This wonderful Lye eats up filth and leaves absolutely nothing for flies to feed on or breed in. Just sprinkle it once or twice a week in the privy outhouse. It does the work. Encourage your neighbor to clean his outhouse also, because what's good for yours is good for his.

RED DEVIL LYE is also simply wonderful for making soap, conditioning hogs, and for making compost for fertilizer.

RED DEVIL LYE is sold by all grocers. Demand 10c. cans. One dime can contains more than two nickel cans. Send Postal For Free Booklet.

PRESIDENT ENDS SHIPPING BOARD ROW.

Washington, July 24.—President Wilson brought the shipping board row to an abrupt termination today by eliminating the two principals, William Denman, chairman of the board, and Major General Goethals, manager of the board's emergency fleet corporation in charge of construction.

The resignation of General Goethals, tendered some days ago, was accepted, and Mr. Denman was asked by the president to follow suit that the government's building program might go forward without embarrassment.

Edward N. Hurley, of Chicago, former chairman of the federal trade commission was named by the president to succeed Mr. Denman to become chairman of the board, and Bainbridge Colby, of New York, was appointed successor to Capt. John E. White, of Kansas City, another board member whose resignation, offered to the president a month ago, also was accepted. Rear Admiral Washington L. Capps, chief constructor of the navy, will succeed General Goethals as manager of the fleet corporation, taking immediate charge of the building program.

The nominations of Mr. Hurley and Mr. Colby went to the senate this afternoon and were referred to the commerce commission. Their prompt confirmation was predicted by both Democratic and Republican leaders.

Mr. Denman sent his resignation to the White House immediately after receipt of the president's letter requesting it.

The Farm Thresher!

The 24x32½ "Waynesboro Eclipse Thresher" exactly meets the requirements of the Farmer who has a 4 or 6 H. P. Steam Engine, or 7 or 10 H. P. Oil Engine of his own. With this Light Weight Thresher—which weighs about twenty-eight hundred pounds—included in his farm equipment, he can Thresh Wheat, Oats, Rye, Barley, Buckwheat, Peas and Beans, and do so just at the right time, when these crops should be garnered. "No waiting." But thresh fast or slow as best suits the conditions. This is a good Thresher for the thresherman, who goes from farm to farm to THRESH for his neighbors. It has good capacity.

We can furnish you a long list of satisfied customers, if you will only write us.

Farmers, Threshermen—with an estimated shortage in the wheat crop of 430,000,000 bushels, and 300,000,000 bushels already contracted to Europe, will it not pay you to operate a Thresher? The price of grain is going to remain high. WRITE US FOR PRICES AND TERMS.

Will Sell Tobacco in Baskets Only.

Wilson, July 24.—At a called meeting of the tobacco board of trade held in the rooms of the Wilson Chamber of Commerce Monday afternoon, a resolution was offered and unanimously adopted that in the future the plan of selling tobacco on baskets, instead of dumping piles on the warehouse floors as heretofore, will be adopted. The baskets will be placed in rows on the warehouse floors and sold in the same manner as piles on the floor were previously sold. This is a labor-saving plan as the weed will not have to be taken from the floor and placed on the baskets, and will enable buyers to keep warehouse floors clean and have a tendency to prevent "block-sales."

Lightning Hits Barn; Kills Two Mules.

Louisburg, July 24.—Two fine mules belonging to Redin R. Perry, of Mapleville, were killed yesterday afternoon during a storm, which blew a large oak across the stables, killing both mules instantly. Some months ago Mr. Perry had the misfortune to lose his saw mill by fire. He had started up business again about five miles below Mapleville, where the accident occurred yesterday afternoon.

Eggs Thirty Cents a Hundred in Peking.

Peking, China, July 1.—(By mail)—Hark! ye diners of palatial hotels and travelers of leisure, hark! and list to a tale of far-away China, the land of mystery, which incidentally revolutionizes the much-touted "high cost of living."

Again the United States marines are heard from but this time in regard to "eggs!" Let it be suffice to say that they are living good for eggs are now selling here for thirty cents a hundred!

We Convert Your Property Into Cash!

WHERE EXPERIENCE COUNTS WE WIN!

Organized Fifteen Years Ago, the AMERICAN REALTY & AUCTION COMPANY—THE THOMAS BROTHERS—originators of the Land Auction Business, has demonstrated its ability to Transact Business Successfully Anywhere and Everywhere. This ability has been shown through operations covering some Thirty States of the Union, the total sales during this period mounting into Many Millions of Dollars. While Greensboro is the Headquarters of this Company—its home—the World is its Territory. And the reason we have sold more property than any two other similar companies in North Carolina is because of our exceptional facilities for handling it. We have our own Field Force, our own Surveyors, our own Advertising Force, and the Premier Twin Auctioneering Force of the World; in fact a Superb Equipment of Experienced and Successful Men in Every Department, enabling us to take any piece of Land, lay it out into Lots, advertise it, draw the crowds, sell the goods, and always please. We boast for ours the most unique organization of its kind in the world; and the first of its kind to offer its services to the people. We have proven to the satisfaction of hundreds of satisfied patrons that those services are the best to be had anywhere.

If it be true that that man is a benefactor who causes two blades of grass to grow where but one grew before--what must we call a man who causes an old field to be "transformed" into a community of Happy Homes?

Such "Transformations" have been effected in all parts of this country during the past few years by the American Realty & Auction Company—Thomas Brothers—with profit to thousands. Why not call on them to help you and your community?

Thomas Brothers, the Original Twin Auctioneering Force. Left to Right: G. J., C. E., J. C., J. R. and I. R. Thomas.

LOCALITY NO LONGER A QUESTION

Time has been overcome and space annihilated in these days, and the American Realty and Auction Company, with Thomas Brothers, the original twin auctioneering force, cares nothing about from whence the call comes. If a man lives in California and wants our service he can get it—all that is necessary is to arrange the date. This company began its operations in North Carolina, and for a time confined them to this state; but now it operates everywhere, and with equal success, north or south, east or west.

In a word, locality makes no difference. All the possible trouble that could be anticipated is a conflicting date; but if negotiations are begun sufficiently far in advance we can make a contract to go anywhere.

Without wishing to boast, we feel that the reputation that we have already made almost nation-wide will very soon become entirely so. We are leaders and pioneers of this business, our plan is different; and as a result we are confident that our business will eventually extend all over the United States. We have the "goods" to deliver; and those who want their property converted quickly into cash can realize their desires by communicating with us. We point you the way.

There From Start to Finish

The American Realty and Auction Company does it all—except to furnish the land. From start to finish we are in evidence. We go over the land, lay it out, survey it, plat it; suggest to the owner what is most desirable, what is the best bargain—in a word, what he should do. We are advisers. Then we advertise the sale most judiciously. We use newspapers freely, because it is the most progressive element in every case that we want to reach. In addition to that we distribute large handbills—full sheets proclaiming the advent of the twin auctioneering force. We tell the day and date of the sale; and then we distribute thousands of cards asking people to come. Inducements are offered them to come; and our methods seem to appeal irresistibly. If it is a big sale we prepare dinner. We get the crowd; and then take care of it. Some people attend half through curiosity—but most usually they buy!

We have sold property of practically every description—city and suburban lots and undeveloped farm property. And following our every sale the man with whom we dealt has taken pleasure in expressing his appreciation for our honorable and successful way of doing business.

SYSTEM, EXPERIENCE and KNOW-HOW

The first thing to be understood about the American Realty and Auction Company is that our success did not come without a plan. In the first place everything is reduced to an absolute system. In the second place the men composing the organization are all experienced and all work in harmony. Every point is understood and every point guarded. The advertising is properly planned. The prices are never exaggerated. There is no misrepresentation. The man who buys one lot, or a dozen lots, always feels good over it. He is never tricked by an auctioneer. There is no by-bidding. Everything is open and above-board. Our company values its reputation because it is worth thousands of dollars a year to it; wherefore it is zealously guarded.

No one ever saw a more interesting sight than one of our sales. There is novelty all the way through; in the selling, in the manner of handling the crowd. A lot is often "handed" to someone just to show that real estate is "moving." But all the attractive features are thoroughly legitimate; this company will stand for no other kind. That is why you never hear of any dissatisfaction following our sales. "System, experience and the know-how," tells the story of our wonderful and continued success.

Dayton Universal Starter for Ford Cars

A MECHANICAL STARTER OUT OF SIGHT ENTIRELY WITHIN THE HOOD.

The starter is entirely mechanical. It is built on the simplest and most efficient principle known to mechanics—the Lever. The system of leverage is so distributed as to produce great power. It is operated by a foot pedal and absolutely independent of generators and batteries, with their complicated wirings.

It is quickly installed on Model "T" Ford Cars by any ordinary mechanic, without tearing down your motor or doing any machine work.

The Dayton Universal Starter is guaranteed for a year, but built to outlast your car.

FEW EXEMPTIONS WILL BE MADE.

Washington, July 24.—The draft
has passed from the hands of the
government into control of the
states.

The final word to each state is:
"Allow few exemptions. Be strict
and investigate each case carefully."

Provost Marshall General Crow-
der, father of the draft, set this ex-
ample today himself at the same time
blasting hopes of thousand of fed-
eral employees who believed their
names on government payrolls would
exempt them.

General Crowder refused exemp-
tion claims for six of his civilian em-
ployees, men who had aided him in
preparing for the draft and who
themselves were drafted for the first
call. He refused to make affidavit
that the men were vitally necessary
to the conduct of his work, as is re-
quired by the law. One of the men
was his personal stenographer. As a
result the men, if physically fit, will
have to serve.

General Crowder's action is a di-
rect blow at hundreds of wealthy
youths who flocked to what they con-
sidered the protection of a govern-
ment payroll when the selective con-
scription law was passed. They work-
ed for small wages in menial posi-
tions because of the report that all
employees of the government would
be exempted in a body. Strange as
it may seem a large proportion
sought refuge in the war department
itself.

CARPENTERS CONTINUE IN GREAT DEMAND.

Durham, July 24.—The allure-
ments incident to working for Uncle
Sam and the enticing wage of \$6.50
a day have conspired to draft upon
Durham and Orange counties for 35
skilled carpenters. The organized
delegation of workmen will leave
Sunday night for Norfolk, where they
will be employed in the construction
of the aviation corps camps at James-
town. They will begin work Mon-
day morning. The particular sub-
contract to be executed by these Dur-
ham and Orange carpenters will be
supervised by O. F. Wilkinson and
Bernice Bowles, Durham contractors.
The city of Durham will feel the
drain due to this migration of skilled

SUNDAY SCHOOL CONVENTION

WILL OPEN SATURDAY AT BETH-
EL CHURCH, MONTICELLO
AND REHOBETH.

The season for the township Sun-
day school convention of Guilford
will open next Saturday, July 28, at
Bethel church in the Jefferson town-
ship. On the next day, July 29, two
conventions will be held, one at Mon-
ticello for the Madison township, the
other at Rehobeth church for the
Sumner township.

All of these conventions have been
well planned and run programs
which will have institute features
on subjects which are related vitally
to the local school problems and pos-
sibilities.

In all the series of conventions
from the world's, international, state
and township, there is no convention
more important than the one which
brings the schools of all denomina-
tions of a community together for
the study of local conditions. In this
day of community enterprises much
is said about bringing the people to-
gether for the study of various sub-
jects. The township Sunday school
convention is the oldest of these en-
terprises and has been in existence
for nearly seventy-five years.

The Sunday schools of Guilford
county have been organized along
this line for a number of years, but
the new educational emphasis which
has been given to the movement
with the organization of the Board
of Religious Education is giving
new impetus to the work and the
character of the subjects discussed
in the conventions of today justify
the prediction that the Sunday
schools of this county will in a few
years be doing as definite and as pro-
gressive work as are the public
schools beside caring for the evan-
gelistic cause of the church in a nor-
mal manner, reaching the child dur-
ing the years of the opening religi-
ous life.

The county association officers
have sent out from their office in
Greensboro a list of institute sub-
jects which will be used in the town-
ship conventions during the summer
and fall season. These subjects are
practical and to the point, and the
program which have come to our
hands show that the Sunday school
leaders of this county are going to
put on a new type of Sunday school
work if the local schools will adopt
the suggestions made in the conven-
tions.

Already a number of schools are
making very definite advancements
in grading and introduction of the
graded lessons. More than two-thirds
of the schools of Greensboro have in-
troduced the graded lessons and a
number of the rural schools are do-
ing so as rapidly as the leaders can
make the change.

RUSSIA'S STRONG MAN GIVEN SUPREME POWER.

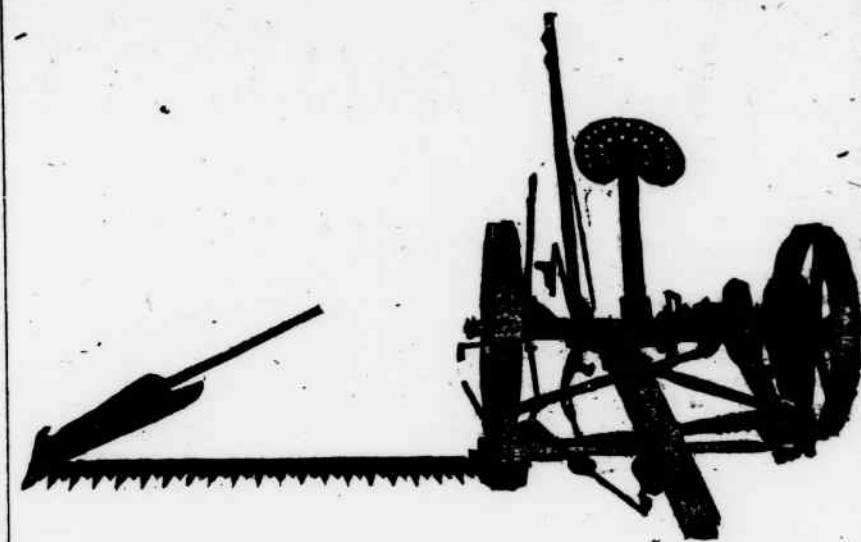

Alexander F. Kerensky, the man
of the hour in Russia—the man who
early in July started the brilliant of-
fensive against the Germans and
Austro-Hungarians in Galicia which
gave the Russians notable gains—
has been made virtually dictator in
Russia and given the tremendous
task of putting down the disaffection
of the troops which has resulted in a
retreat along the front in Galicia,
and otherwise to end the anomalous
situation that prevails in Russia.

By an almost unanimous vote the
council of workmen's and soldiers'
delegates and the peasants' congress,
realizing that a man of ability of the
highest order was required at the
present juncture to strengthen the
morale of the Russian troops, has
given "unlimited powers" to M. Ker-
ensky and his government, and he
already is on his way to Galicia,
where he soon may be expected to
use all the force at his command
against the recalcitrant troops and
again bring them face to face with
the foe.

THE GERMANS CANNOT STAND UP AGAINST STEEL.

Permanent Camp of the American
Expeditionary Army in France, July
24.—Pershing's Sammys are keen
on bayonet practice. The American
soldiers have been impressed with
the fact that the enemy fears cold
steel worse than bullets. The French
government presented the army with
a bottle of champagne and a liter of
red wine for every soldier. Wine
doesn't figure in the American com-
missariat, so the officers were unde-
cided about its distribution, although
returning thanks to the French of-
ficials. One battalion, however, did
not waste any time, but consumed
its quota right away. The camp has
a comfortable feeling every day in
the anti-aircraft gun practice.

A Pennsylvania storekeeper shot
at rats with a shot gun, but part of
the load glanced off a rock and kill-
ed a year old baby.

LOCAL NEWS IN BRIEF FORM

MATTERS OF INTEREST TO THE READERS OF THE PATRIOT FAR AND NEAR.

To Have Luncheon Together.

Chairmen of the various patriotic associations and similar organizations of public spirit in Guilford county, have been invited to meet in Greensboro Saturday for luncheon together. The object of the call is to organize a county committee of women in the council for national defense. Mrs. R. L. Justice is temporary chairman. The luncheon will be served in the dining room of the State Normal and Industrial College.

Prayer Service for Soldiers.

A prayer service for members of the ambulance company who leaves today for Fort Oglethorpe, was held Wednesday evening at 9 o'clock in the Municipal theater. Rev. R. Murphy Williams, of the Church of the Covenant, presided and nearly all of the other ministers of the city took part in the service. As the service followed the regular church prayer meetings, attendance upon these went direct from their churches to the service in the theater.

Proposed City School Bonds.

The city commissioners Wednesday afternoon passed an ordinance submitting to the voters of the city the proposed amendment to the charter, creating a school board of seven members, and authorizing an increase in the tax rate for schools not to exceed 50 cents on the one hundred dollars valuation of property, and \$1.50 on each taxable poll. It is believed that the amendment will be adopted by the voters of the city on September 18, the day scheduled for the election. The matter has been under discussion for several days, but the details were not agreed upon until yesterday. The present tax rate is only 30 cents on the \$100, and 90 cents on the poll. The amendment provides that the rate shall not exceed the new maximum but it may be less than this amount.

E. Sternberger Speaker.

E. Sternberger, of the Revolution mills, in an address before the Rotary Club Tuesday afternoon declared that he believed in international militia the only feasible plan to assure peace to the world. Each nation would have soldiers for its own policing, but all nations should contribute to the army that would be for policing the world. Mr. Sternberger's idea is based on his knowledge of the solidarity of the German empire, which he thinks is due in a large measure to this plan on a small scale. Discussing the business conditions that will follow the war, Mr. Sternberger expressed the opinion that America should seek to build up a trade in South America rather than make such a tremendous effort for business in Europe. He thinks the trade in South America would be permanent, whereas any European trade would be only for a few years.

TOLL OF SUBMARINES SHOW AN INCREASE.

London, July 25.—Twenty-one British vessels, of more than 1,600 tons each, and three of less than 1,600 tons each, were sunk last week by mines or submarines, according to the weekly admiralty report on shipping losses.

One fishing vessel was also sunk. The admiralty's statement follows:

Arrivals, 2,791; sailings, 2,791. British merchantmen sunk by mines or submarine, over 1,600 tons, including two previously, 21; under 1,600 tons, three.

British merchant vessels unsuccessfully attacked, including three previously, 15.

British fishing vessels sunk, one.

The announcement of the British admiralty given above shows an increase of seven vessels of more than 1,600 tons sent to the bottom, as compared with the report of the previous week, when 14 were sunk. In the smaller category the loss is one less than that given in the report of the previous week—three—while there was a falling off by seven in the number of fishing vessels sunk.

GERMAN SUBMARINE BASE IS BOMBARDED BY AIRMEN.

London, July 25.—A dispatch to the Exchange Telegraph Company from Amsterdam says a telegram from the frontier announces that English airmen during the past two nights have bombed Zeebrugge, the German submarine base, and the town of Bruges, Belgium. Explosions and fires followed the attacks. A submarine shed at Zeebrugge was damaged, according to the dispatch, and it is probable that a submarine was blown up.

—Land wanted. See the notice of the England Real Estate and Auction Company in the bargain column.

—Mr. R. S. Phipps has a fine eighty-five acre farm for sale or rent. See his notice in the bargain column.

—Mr. C. C. Townsend wants 10 to 15 cords of good sawed oak wood, two feet long. See his notice in the bargain column.

—Special attention is called to the sale notice of Mr. J. A. Idol, commis-

—The England Realty and Auction Company will conduct a large sale of furniture and household goods at Graham's warehouse, on North Greene street, Saturday next, July 28. See notice elsewhere.

—It matters not what you need at home or on the farm you are mighty apt to find it at the Greensboro Auction and Sales Company's warehouses on South Elm and Depot streets. Manager Silver is a close and experienced buyer and always gives his patrons the benefit of his "good picks" in bargains. See his ad. in another part of today's Patriot.

—Messrs. Poole & Blue, the funeral directors, have just added a handsome automobile hearse and an automobile ambulance to their already well equipped undertaking business. A very good picture of the hearse is given in our advertising columns today. When you need the services of an undertaker just call Mr. Blue and you will get a prompt response.

—The interest in the big clearance sale which started at Brown-Bell's last week is still unabated, and this big double store is crowded daily with economical bargain seekers. The sale will continue all this week, and if you have not taken advantage of Mr. Brown's liberal clearance prices you should do so at once before the sale closes. Special values are being offered in each department every day. See ad. on the fourth page today.

—On account of failing health Mr. N. J. McDuffie has decided, as stated before, to retire from the furniture business, and has consigned his entire stock to the Ideal Auction Company, with Mr. J. I. Thomason as auctioneer, to be closed out quickly. Auction sales began this morning and will continue from day to day until the stock is disposed of. It will be to your interest to attend these sales, for many good bargains will be offered. See announcement in another column today.

—"Back to the Farm," is the slogan now. More of our people must be producers if we expect to win this world's war that we have been unwillingly drawn into. The Brown Real Estate Company has a large list of most desirable farms for sale in all sections of Guilford county that can be bought at very reasonable prices. If you are interested be sure and read the partial list of Messrs. Brown and Johnson in another part of The Patriot today. They have plenty of others not advertised.

—The Messrs. Thomas Brothers, of the American Realty and Auction Company, have cut up the large farm of Mr. J. Cook, on the main road between Greensboro and Reidsville into small tracts and will sell them at auction to the highest bidder, on very easy terms, on Friday, August 3, the sale beginning at 10.30 o'clock in the morning. Here's a mighty good opportunity to get a small farm at your own price and on mighty easy terms. See the announcement of the sale in another part of today's Patriot.

—The big reduction sale of Mr. Isaacson, the South Elm street clothier and furnisher, is still in progress, and hundreds of Guilford county people have taken advantage of Mr. Isaacson's liberal reduction in prices and are wearing "Isaacson" clothes and hats. The sale will continue all this and next week, and if you need clothing or hats and value the worth of your dollar you will attend this sale on your next trip to the city and secure some of these good bargains before the sale closes. Mr. Isaacson has made a reduction of from 25 to 50 per cent on these goods, which in many instances are lower than present wholesale prices. See his ad. on the eighth page today.

—Fifteen years ago Messrs. J. R. Thomas, C. E. Thomas, J. C. Thomas, I. R. Thomas and G. J. Thomas, of this city, organized the American Realty and Auction Company, for the purpose of subdividing large tracts of land into small farms and town lots and selling them at auction to the highest bidder. The venture has been a success from the start, and these hustling young men have conducted sales in more than thirty states in the union since beginning business, giving entire satisfaction in each instance. If you have a farm or

large tract of land you would like to convert into money the Thomas Brothers can get you the maximum price for it. As a side line and just to keep their minds employed between times the Messrs. Thomas have taken the agency in this section for the "Dayton Universal Starter" for Ford cars, a mechanical starter cut of sight and entirely within the hood of your car. This starter has proven a great success and is indispensable to the up-to-date Ford owner. See their page announcement elsewhere today for full details.

GREENSBORO COMPANIES MOBILIZED YESTERDAY.

Greensboro companies of the national guard mobilized yesterday for the purpose of being mustered into service. The companies are the Guilford Grays of the coast artillery corps, and the company of engineers which is a part of the battalion formed in North Carolina. Capt. Roy B. Case commands the artillery company, and Captain E. W. Myers is head of the company of engineers. The coast artillery men have their armory on West Market street, while the engineers use the Center Brick warehouse. These companies will be here at least two weeks before they are ordered to one of the cantonments. Major E. D. Kuykendall, commander of the battalion of coast artillery, and his staff, also went on duty today.

The Greensboro Red Cross company also mobilized yesterday. Members reported to H. P. Foust in the afternoon at 2 o'clock. The half of the company formed at Winston-Salem came in on the 4 o'clock train. This company will leave on train No. 43 this evening for Salisbury, and from there by special train the company will be conveyed to Fort Oglethorpe. The captain of the company is Dr. C. S. Lawrence, of Winston-Salem.

The Chamber of Commerce entertained yesterday evening in honor of the ambulance company and also for the other enlisted men of the town. A buffet supper at 6 o'clock was given. Only the soldiers were guests at the dinner, but a large number of citizens were in attendance for the exercises and dancing which followed. Comfort bags, made by ladies of the Greensboro Red Cross Society were given to each and every member of the three companies.

E. J. JUSTICE DIED SUDDENLY YESTERDAY.

Mr. E. J. Justice, formerly of Greensboro, died suddenly Wednesday afternoon at San Francisco where he had been for several years engaged in work for the United States department of justice. Mr. Justice had been intrusted by the government with the task of regaining for the government control of valuable lands in the West which had been gobbled up by the railroads. News of Mr. Justice's death was brought to Greensboro in a wire to Mr. Broadhurst, Mr. Justice's law partner. It is not yet known if the body will be brought back to Greensboro for interment. With Mr. Justice at the time of his death were his wife and children. It is expected that they will return to Greensboro to make their home.

The deceased was one of the state's distinguished sons. He had represented Guilford county in the legislature on different occasions, and had once been speaker of the lower house. His reputation as a lawyer was equal to that of any member of the bar in the state, and his work for the department of justice has been such as to often evoke the praise of government officials and the newspapers. His death is a distinct loss not only to his hosts of friends but also to his state and nation.

NOTICE.

By virtue of the power vested in me by a decree of the Superior court of Guilford county in a special proceeding entitled H. E. Osborne, individually, and as administrator et al against D. E. Osborne et al, I will on

Saturday, August 4, 1917, at 12 o'clock, noon, sell at the court house door in Guilford county, at public auction, to the highest bidder, upon the terms hereinafter designated, the following tracts of land situated in Summer township, Guilford county, N. C., and known as the Daniel Osborne lands:

Beginning at a stone in Robert Osborne's line and running thence south 92 1-2 poles to a dogwood; thence west 124 poles to a hickory tree; thence north 88 1-2 poles to a double post oak; thence 124 poles to the point of beginning, containing 69 3-4 acres, more or less.

Second Tract: Beginning at a black oak stump in Robert Osborne's line and running thence west 70 poles to a stone and white oak; thence north 132 poles to a stone; thence east 70 1-2 poles to a stone; thence south 132 poles to the said black oak stump, the balance in two years from the date of sale.

Terms of Sale: Payments to be made one-third cash; one-third in twelve months; and one-third in the balance in two years from the date of sale.

This sale is being made for the reason that ten per cent advance bids have been placed on the bids of the previous sale.

This July 15, 1917.

LAND SALE.

By virtue of an order of re-sale made by the clerk of the Superior court of Guilford county in the special proceeding therein pending entitled J. A. Idol, executor, vs. Bessie Pendry, et al, which said order of re-sale is made because of a better bid having been placed on the property heretofore sold, the undersigned commissioner will sell at public auction to the highest bidder on the premises, at 12 o'clock M. on Saturday, August 11, 1917, the following described tracts of lands: Lying and being in Guilford county, Deep River township, adjoining the lands of Jasper Smith, Julius Macey, O. A. G. Wood, and others, to-wit: Tract No. 1. Beginning at a stake, Chipman's corner; thence south 54 poles to a stone; thence east 40 poles to a stone near the public road; thence south 20 poles to a stone; thence north 26 degrees east 80 poles to a black oak; thence west 75 poles to the beginning, containing 21 acres and 42 rods, be it more or less.

Tract No. 2. Adjoining the above tract and described as follows: Commencing at a stone corner of C. T. Robertson and B. Y. Clark in J. J. Smith's line near church spring, running south east 42 rods and 16 links to a stone near Friendship road, corner with C. T. Robertson and B. Y. Clark; thence north 14 rods and 11 links to stone near smith shop; thence west 13 rods to stone, beginning corner, containing two acres, more or less, known as the Sykes land. Said land will be sold in two parcels. That parcel lying east of the public road will be sold as Tract No. 3. It contains about an acre. That portion of the said land lying west of the public road will be sold as tract No. 4. It contains about 22 acres. The amount which tract No. 1 brings shall be deducted from \$345.00, and whatever sum it makes shall be the price at which tract No. 2 shall start. Terms of sale cash. This July 21, 1917. J. A.
