GREENSBORO, N. C., THURSDAY, JULY 19, 1917

VOL. 98—NO. 67

## GERMAN ATTACKS REPULSED

TEUTONS SUFFER ENORMOUS LOSSES IN VAIN ATTEMPTS TO STORM RUSSIAN LINES.

Washington, July 18.—Heavy attacks by German troops on the Russian lines near Riga, on the Baltic sea, have been repulsed with great losses to the teutons. It was announced at the Russian embassy here today. Monday the Germans began a military preparation with tremendous fire from their big guns and then launched a series of assaults upon the Russian entrenchments. Three times they swept forward, each time to meet a deadly fire from the Russian rifles. The repulse was complete, cable messages to the embassy said.

German attacks on the north end of the line were designed to relieve Russian pressure against the Austro-Germans on the southern sector, it is believed. In the south the fighting continues heavy, the Russians under Korniloff being forced to give ground. British and Belgian armed motor cars are now being used in large numbers against the enemy in Galicia and much of the speed of Korniloff's advance is attributed to the successful operation of these machines.

French Push Back Germans. Paris, July 18.—Repeated attacks by the enemy in fruitless attempts to recapture ground gained in yesterday's French drive around Verdun were reported in today's official statement. The Germans bombarded Verdun positions violently, and throughout the night sent their attacking waves against the new line held by General Petain's men. The enemy lost heavily and gained nothing. Around Cerny the war office reported a violent artillery battle. In the Aronne German raids were repulsed.

German crown prince is back where he started more than a year ago, trying to take Verdun. Dispatches from the front today, describing the full extent of the victory achieved in the French drive on the left banks of the Meuse, showed that the French had retaken all the ground gained around Hill 304 in the German attacks of June 28-29.

## EIGHTEEN BRITISH BOATS ARE SUNK BY SUBMARINES.

London, July 18.—Fourteen British ships of over 1,600 tons were sunk by submarine or mine in the last week, according to the official report tonight. Four British vessels under 1,600 tons were sunk, and eight fishing vessels.

The official report follows: "Arrivals, 22nd sailings, 2,920. "British merchant ships sunk by mine or submarine over 1,600 tons, including one previously, 14; under 1,600 tons, four. "British merchant vessels unsuccessfully attacked, including three previously, 12. "British fishing vessels sunk eight."

The admiralty report of the previous week announced the sinking of 14 vessels of over 1,600 tons and one of less than 1,600 tons. The fishing vessels lost numbered seven.

## 30,000,000 POUNDS OF POULTRY IN COLD STORAGE.

Chicago, Ill., July 17.—West More of a firm dealing in poultry, said today that there are 30,000,000 pounds of poultry in storage in Chicago. A huge stock, he said, was accumulated to take care of orders for the British government. The latter, he said, was unable to obtain refrigerating ships and turned back most of the order.

"Soldiers are attempting to dispose of the load at from 22 to 25 cents, we are having a hard time of it because of the capacity of the retailing," said Mr. More. "Dealers are trying to get all the way from 33 to 40 cents a pound and one in my neighborhood asked me 43 cents the other day."

## Twenty People Are Hurt When Train Leaves Track.

Bloomington, La., July 18.—Twenty or more persons were injured, some seriously, late today when two coaches on a train on the Louisiana and Northwestern left the track near Hamer, and rolled down a 10-foot embankment.

## ANOTHER "LIBERTY LOAN" WILL PROBABLY BE MADE.

Washington, July 17.—Unless the unforeseen develops, Congress probably will be asked before adjournment of the present session to authorize another gigantic loan to the allies. The present authorization of \$3,000,000,000 will be exhausted within from three to four months, at the rate at which the government is lending money to entente governments.

Indications are that the amount of the second authorization will be no less than the first, and may go as high as \$5,000,000,000.

There is every reason to believe that the administration's policy of financing the allied governments for purchases they made in this country will be continued during the period of the war, and that the vast sums to be loaned them in the future will be loaned as in the past, at the same rate of interest the American government will have to pay for the money and on the security of entente government bonds to be deposited in the treasury.

While no official announcement has been made of what the government intends to do towards continuing to finance the allies when the present authorized loan of \$3,000,000,000 is exhausted, and none is likely to be made until after the flotation of the next liberty loan some time during the fall, it is pointed out that nearly one-half of the \$3,000,000,000 already has been exhausted. The amount of credits placed to foreign governments already is \$1,303,000,000, or approximately forty-three per cent of the total and this covers the financing of only two months and twenty days.

## NITROGEN PLANTS TO BE BUILT AT ONCE.

Washington, July 16.—Secretary Baker announced today that plants for the production of nitrate from atmospheric nitrogen would be constructed immediately at a cost of about \$4,000,000 and that water power would not be used. Sites have not been selected.

Further discussion by localities desiring to be considered as possible sites is closed temporarily, the announcement says, while the site committee of cabinet officers is making further engineering studies.

It has been assumed ever since the great nitrate project was proposed that a vast supply of water power would be needed. Consequently, sites with water power have been supposed to be the only ones likely to get consideration. Muscle Shoals, of the Tennessee river, was one of the places most strongly urged during the debates in Congress.

Congress appropriated \$20,000,000 for the project. Apparently the entire expenditure contemplated by the war department is one-fifth of that sum.

Informally, officials explained that today's announcement did not mean that the idea of building a water power nitrate plant was permanently abandoned; although it would not be pressed for the present. It would require several years to build the enormous plant required for the utilization of water power, and for that reason it was determined to adopt one of the more expensive processes of producing nitrates.

## FRENCH WOUNDED TO BE SENT TO AMERICA.

Savannah, Ga., July 17.—Reports are current here that women of Savannah Red Cross are making preparations to care for French wounded soldiers who will be brought here in ships and given temporary treatment in Marine hospital and private homes before being transferred to base hospitals, which are to be established in Atlanta and Augusta, Ga., and Charleston, S. C.

Private citizens have agreed in writing to take convalescents into their homes while the worst cases will be given rooms in the hospitals, the capacity of which is limited. Hospitals will be established on decks of ships and be maintained under military guards. Crowded conditions of French hospital stations are said to be responsible for the determination to transfer minor cases to this country. The injured men, it is reported, will be carried here on transports returning from France after landing American Sammies.

## GIVEN SIXTY-DAY SENTENCES

THE SUFFRAGISTS REFUSE ALTERNATIVE OF PAYING A NOMINAL FINE.

Washington, July 17.—Sixteen women suffragists, arrested while participating in the woman's party battle day demonstration in front of the White House were sentenced in police court today to serve sixty days in the District of Columbia work house for obstructing the sidewalks.

The women were given the alternative of paying a \$25 fine, but they promptly refused the offer and were taken to the work house at Occoquan, Va., and turned over to a matron who saw that each got a shower bath and exchanged her clothes for a heavy one-piece prison dress. Tomorrow they will be assigned to the sewing room of the prison where they will work seven hours daily.

Tonight the party's headquarters here was in flurry of uncertainty over the question whether the women should be permitted to serve their sentences without protest or whether the cases should be appealed. Early in the evening there was a positive announcement that there would be no appeal, but later that was recalled and it was said there probably would be no decision until tomorrow.

## Malone to Act as Counsel.

Although no one at the headquarters would confirm it, there were indications that the course of the women's friends might be determined finally by the attitude of Dudley Field Malone, collector of customs at New York, who came here to testify for the women and later asked the court to be permitted to act as their counsel. The request was granted. Police Judge Mullowny giving him temporary authority to act as a member of the Washington bar, but instead of taking any legal steps on behalf of the women, Mr. Malone went to the White House for a long conference with President Wilson.

What happened at the conference was not revealed, but Mr. Malone came away visibly perturbed and there were many rumors that he had resigned his collectorship and would take up actively the fight of the suffragists who repeatedly have been in police court during recent weeks for their demonstrations at President Wilson's doorstep. These rumors Mr. Malone himself would neither deny nor affirm.

The collector spent nearly an hour with Mr. Wilson. When he departed from the executive offices his face and manner showed evidence of great emotion and he walked rapidly away, leaving a taxi cab which had brought him from his hotel standing at the gate.

## FENG KWO CHANG, NEW PRESIDENT OF CHINA.

Washington, July 17.—The accession of acting President Feng Kwo to the presidency of China as a result of President Li Yuan Hung's decision not to resume office has reopened a wide field of speculation as to China's future. Feng has always been a military man and has held many officers under the old empire, but in the two great crises which recently have swept China he practically caused the defeat of the monarchists by failure to give them active support.

When Yuan Shi Kai sought to make himself Emperor Feng, as military governor of Nanking, refused to march against the southern provinces which had risen in revolt. Yuan consequently gave up his monarchical ambitions and the movement died. Similarly, when the other military governors formed their secessionist government at Tien Tsin he refused to throw in his lot with them.

Whether he will continue to follow out the indicated policies of supporting a constitutional republic is conceded here to be an open question of great importance.

## Old Warrior Enlists.

Washington, July 18.—Quana Washosha, Comanche Indian, has a medal the kaiser once gave him for expert marksmanship. This will not keep him from trying some of that shooting ability on the kaiser's "graybacks," however. The redskin's American name is Captain Henry B. Hicks. He visited President Wilson and offered his services to the government. "I'm seventy-four," he said, "but I can shoot as straight as ever."

## TWO ARE KILLED IN WRECK

DELIBERATELY PLANNED ON THE SOUTHERN RAILWAY NEAR CHARLOTTE.

Charlotte, July 17.—Fireman Ernest Kistler, of Barber's Junction, was killed and Engineer J. C. Lanyce, of this city, badly injured at Caldwell station, fifteen miles from here when Southern passenger train No. 26, Charlotte to Winston-Salem, was completely overturned, the engine and three cars being hurled over an embankment at 5 o'clock this morning.

J. E. Walker, colored passenger, head of the printing department, Straight University of New Orleans, was also killed.

Dr. Adam Fisher, of this city, and Walter Sloan, of Statesville, were seriously injured and other occupants of the first-class coach were shaken and shocked to such an extent that medical aid was necessary.

J. Choate, mail clerk, was badly bruised on hips and legs.

The more seriously injured were brought to a Charlotte hospital.

It is indicated that the train was deliberately wrecked.

## Eleven Spikes Removed.

Washington, July 17.—Removal of eleven spikes by unknown persons caused the wreck of Southern Railway passenger train No. 26 at Caldwell station, N. C., today, with the loss of two lives.

Reports to Southern headquarters here say all spikes were drawn for a full rail length on the west side of the track. Special agents are investigating but no clue to the identity of the wreckers or their purpose has been discovered.

## TRAIN HITS AUTO, THREE ARE KILLED.

Smithfield, July 17.—A horrible accident occurred in front of the Smithfield cotton mill this morning at 6 o'clock when No. 83, the Florida Special of the Atlantic Coast Line, smashed into an automobile driven by J. G. Greenlee, instantly killing Greenlee and his son Dewey, aged about 18, and fatally injuring Ray Crump, 18 years old, son of E. F. Crump, young Crump dying about five hours after the accident. Greenlee and son boarded at the hotel and young Crump drove the car after them to go to work in the mill, where J. G. Greenlee was superintendent and young Greenlee was employed.

Mr. Greenlee bought his machine last Thursday and was not familiar with it. The car choked on the track fifty yards in front of the train, which was approaching so fast none of the occupants of the car could escape.

Greenlee came here from Fayetteville last October as superintendent of the mill. He has a wife and five children at Fayetteville. His body and that of his son have been embalmed and will be shipped to Fayetteville for burial tomorrow.

The father of young Crump is visiting in Mecklenburg county and had not been located tonight, so funeral arrangements for his son have not been made.

The car was completely demolished and all three men were carried on the pilot of the engine two hundred yards to where the train stopped. A patch of high corn doubtless hid the train from the view of the driver until the car was on the track.

## One American Soldier is Killed in a Train Wreck.

Marshall, Tex., July 18.—One American soldier, William Stone Breaker, was killed and five other soldiers injured, only one seriously, when four coaches of a troop train turned completely over and three other cars were derailed at Shamrock, near Victoria, La., on the Texas and Pacific railway at 2 o'clock this afternoon. Railroad officials here say the train was running about 12 miles an hour when the accident occurred. The cause has not yet been determined.

A special was made up here carrying physicians to the scene. The injured were later taken to Alexandria, La.

Rev. and Mrs. J. S. Burnett, Thomas Burnett and Carl Blessing, of Chattanooga, Tenn., are visiting here at the home of Mrs. Burnett's sister, Mrs. G. L. Anthony, on Ashboro street extension. The trip from Tennessee was made in Rev. Burnett's touring car.

## GREECE NOW ACTUALLY AT WAR WITH TEUTONS.

Washington, July 17.—Uncertainty as to Greece's status in the world war was cleared away today with the receipt of official information that the Greek government not only has severed relations with all four of the central powers but is actually in a state of war with them.

Information has reached the state department that the Greek minister in Paris has notified the French government Greece considers herself a full belligerent and will act accordingly. He said it was not necessary to issue a formal declaration of war, as the government feels it is bound by the declarations previously issued at Saloniki by Premier Venizelos, who took with him to Athens all the responsibilities and commitments of the temporary Saloniki government.

As a belligerent, Greece is expected to lose no time in mobilizing her war resources and joining effectively in the common allied operations in the Balkans. The strength of the Venizelos army is placed at about 60,000 men, and the remnants of the former regular army, while not over 30,000 now, has at times been mobilized to a total of 200,000 men and is capable of reaching 300,000 if munitions are provided. The regulars practically were demobilized by the allies when former King Constantine held the organization as a threat to the allies' rear, but can quickly be called to the colors again.

While it is understood the new government has not yet mobilized this army, the classes of 1916 and 1917, previously prevented by the allies from being called out, were called to the colors about two weeks ago. A Greek mission may be sent to the United States, not only to negotiate for supplies for this army, but also to present Greece's situation as to the general world reconstruction after the war. For the present, it is probable Greece will be munitioned by the allies.

It is understood here that while some pro-German, anti-war spirit remains in Greece a great majority of the people are happy that a flat decision has at last been made and that the perils and uncertainties that have beset the nation's attempt to be neutral are ended.

## DENATURING COMPANY MAKES POTASH FROM WASTE.

New Orleans, July 17.—Announcement was made today by the Jefferson Distilling and Denaturing Company that it has evolved a new process for the utilization of former waste in distilling alcohol from molasses by which its plant now produces 20 tons of potash per day. According to an official of the company, the plant's waste matter, which formerly was poured into the Mississippi, is run through quadruple effects where the water is evaporated and the substance remaining is put through a kiln and incinerated, producing potash.

Prior to the war potash, which was obtained almost exclusively from Germany, was worth \$8 per ton in this country, and today it sells for \$400 a ton. The distillery began its experiments about a year ago and the successful results have been reported upon by government experts.

## Governor Glenn Becomes Very Ill on Lecture Platform.

Fayette, Iowa, July 17.—While delivering his address, "Our Country—Its Dangers and Possibilities," on the Vawter chautauqua platform here, Hon. Robert B. Glenn, former governor of North Carolina, was taken suddenly ill. During his speech Governor Glenn felt a numbness in one of his limbs and lost control of it for a few moments. He was finally able to finish his address and was taken to his hotel by Dr. J. D. Parker. After being examined by Dr. Parker, Governor Glenn decided to cancel his engagements on the chautauqua platform and left for his home in North Carolina.

## Offered \$400 For Clover Crop.

Durham, July 18.—Ike Terry, of Bahama, the Durham county farmer who is a diversified specialist, was tendered \$400 today for 40 bushels of new crimson clover seed. He refused the offer on the prospect of commanding higher prices for his entire crop of 56 bushels. The Durham market thus puts a premium on the production of clover.

## CAPTURES 3 GERMAN SHIPS

FOUR OTHERS WERE SUNK AND THREE STRANDED WHEN ATTACKED BY BRITISH.

London, July 17.—The admiralty announces the capture of four German steamers by British destroyers in the North Sea.

Two other German steamers were with the four vessels later captured when the group was signalled by the British war craft. All six made for the Dutch coast and two of them reached the shore. These two were badly damaged by gun fire.

A Reuter dispatch from Ymuiden says four German ships have been sunk by British destroyers in the North Sea, four captured, three stranded and three forced to return to Rotterdam.

Since Saturday seventeen German steamers have sailed from Rotterdam, three at one time and fourteen at another, the dispatch says. Of the first group one, the Magdalena Blumenthal, 1,536 tons gross, was wrecked off Zandvoort. Of the second group, owing to the action of British destroyers, not one vessel was able to proceed, eight being captured or sunk and three succeeding in putting back to Rotterdam. Of the three remaining steamships, which were stranded, two were afire.

A Reuter dispatch from Ymuiden, dated July 16, says that according to official information it has not yet been ascertained whether the British attack upon or pursuit of the German steamers occurred within Dutch territorial waters. Eye witnesses are quoted as declaring that the steamers were attacked at least four miles from the coast. The Dutch naval authorities, it is added, are investigating.

Although an official statement regarding the place of the attack is still lacking, the Amsterdam Handelsblad, says a dispatch from that city takes it for granted that "British destroyers flagrantly violated Dutch territorial waters. The violation," it adds, "was still worse because the British did not hesitate in its execution, despite the danger to the inhabitants of a district which might have been bombed. The government will not fail to protest."

The newspaper prints the story of an eye-witness of the attack, the manager of the local hotel at Bergen-Aan-Zee, who says a considerable number of destroyers were firing at the German ships. A number of shells fell in the neighborhood of Bergen, but so far as is known without injuring anyone. One shell, according to the story, fell in Bergin-binnen, a trifle inland from Bergen.

## DR. MICHAELIS TO SAY "PEACE" PAPER STATES.

Basel, Switzerland, July 18.—The Neueste Nachrichten, of Munich, says that the declaration of new German chancellor, Dr. Michaelis, before the Reichstag tomorrow will be for peace, having the same general trend as the resolution prepared by the parties of the left.

The resolution referred to probably is the one drawn up by the radical, socialist and Catholic deputies in the Reichstag before the resignation of Dr. Von Bethmann-Hollweg. This resolution which the majority bloc decided to introduce unchanged upon the reassembling of the parliament, stated that the Reichstag was laboring for peace and reconciliation, that forced acquisitions of territory and political, economic and financial violations were incompatible with such a peace, that economy peace must be assured and that the Reichstag would promote the creation of international jurisdictional organizations.

## Speaks at 3 P. M.

Berne, Switzerland, July 17.—Private Berlin dispatches state that the speech to the Reichstag which Dr. George Michaelis, the new chancellor, is preparing will be delivered at 3 o'clock Thursday afternoon.

It is reported that German parliamentary circles are still uncertain regarding his attitude.

## Flooded by Heavy Rainfall.

Knoxville, Tenn., July 16.—The heaviest rain fall in Knoxville in twenty-eight years has done hundreds of thousands of dollars damage, blocked railroad traffic, flooded one hundred homes, many mills, factories and business houses and impaired street car traffic.

## NOTHING SHOULD BE LOST

GOV. BICKETT URGES NORTH CAROLINIANS TO DRY OR CAN ALL SURPLUS CROPS.

"That nothing may be lost," Governor Bickett yesterday gave out a statement which is an appeal to the people of the state to save all the fruit and produce that has been made, it being a sequel to his planting day proclamation. Large crops have been made in response to the governor's appeal; and in order that nothing may be allowed to go to waste, the governor urges that every means be used to preserve that which is not used in its green state.

In order to impress the preserving campaign on the people of North Carolina the governor has coined this slogan, which he wants to ring out throughout the state during the next sixty days:

"Good morning! Are you going to dry today? If not, what are you going to do?"

The governor's appeal follows: "On the 16th day of March I issued my planting day proclamation. The appeal made therein reached a people who had 'ears to hear,' and a record-breaking crop of fruits and vegetables is at hand. The plain duty of the hour is to save all that has been made, and to 'gather up the fragments, that nothing be lost.'"

"My information is that the United States government will, in all probability purchase the entire output of all the commercial canneries in the country. Therefore, if our people are to have canned and dried fruits and vegetables during the coming winter they must put them up in their own homes. I urge the people not to do this work spasmodically, but to make it a part of the daily program in every home to 'put some-thing up.'"

"The press of the state has been generous and patriotic to the last degree. Its intelligent co-operation has made the campaign for increased food production a notable success. I call upon the press to now unlimber its batteries in the campaign for saving what has been made. Waste is always folly; today it is a crime. Let every issue of every paper in the state, during the next sixty days, carry this salutation: 'Good morning! Are you going to dry today? If not, what are you going to do?' Some such daily reminder will spell the difference between poverty and plenty in many homes. Let every household secure copies of extension circulars Nos. 59 and 11, issued by the agricultural extension service. Write Dr. B. W. Kilgore, director, Raleigh, N. C., for these circulars, as they give all necessary information about drying and canning fruits and vegetables.

"I desire to call specially attention to the use of tobacco barns in drying fruits and vegetables. The method is simplicity itself. The only thing necessary is to prevent contact between the fruit and vegetables and any of the old wood or poles inside of the barn. The fruit or vegetables to be evaporated are placed in pans, dishes or on clean boards and placed inside of the tobacco barn. The pans, dishes or boards can be conveniently rested on the poles on which the tobacco sticks are hung. Every tier in the barn can be filled with the fruit or vegetables to be evaporated, just as they were filled with tobacco, except instead of hanging like tobacco, the boards, pans or dishes are placed on the poles. Fire is then built in the furnace just as for tobacco, and the heat regulated according to the rules required in evaporating each of the fruits or vegetables, and generally one day is sufficient to dry all except unusually pulpy fruits or vegetables, like blackberries or peaches. The drying can be accomplished in a small fraction of the time required for air-drying. And the evaporating can be accomplished as quickly as with a high-priced evaporator, and a very much larger quantity can be evaporated on one time than in any evaporator on the market for individual use.

"Ordinarily, only one kind of vegetable or fruit should be evaporated at one time, for the different kind require different degrees of heat, and the evaporation of peaches and berries requires much longer time than apples and some kind of vegetables.

"There is a better way to preserve cabbage than putting it up as sauerkraut. The cabbage head should be quartered, put into barrels or casks and covered with brine, the water being so salty that it will float an egg. The cabbage are weighted down in the barrel by a board or barrel top, so as to keep it submerged in the brine, and it will keep indefinitely. When desired for use, the cabbage is soaked or boiled until the excess of salt has been removed, and then cooked as other cabbage would be cooked. Cabbage so cooked is difficult to distinguish from fresh cabbage.

"Let me close this appeal by giving you the salutation that I hope

will greet you every morning for sixty days: 'Good morning! Are you going to dry today? If not, what are you going to do?'

## PLUNDERING MUST CEASE IN AMERICA.

Plunderers are to cease to plunder, not only the American government, but the American people. This is the decree of President Wilson, much to the dismay of those who, finding that they would not be allowed to rob the government by extortionate prices, were, until disillusioned, happy in the thought that there remained the people upon whom they could prey.

There was no ambiguity in the recent appeal of the president to the business interests of the country in which he asked them to be satisfied with reasonable and just profits. This warning, which accompanied the appeal, must have burned its way into their seared consciences:

"Those who do not respond, who do not respond in the spirit of those who have gone to give their lives for us on bloody fields far away, may be safely left to be dealt with by opinion and the law—for the law must, of course, command these things."

When it becomes necessary for the government to commandeer the life-blood of the country to protect its interests and the lives of its citizens, it is justified immensely more to commandeer material things and lay a heavy hand, if necessary, on the human vultures, safe from the storm of battle, who in the nation's necessity would gnaw the very vitals of the people.

Clear-headed and far-sighted as he is President Wilson says the people need the strong protection of the law, in the abnormal condition existing, against the plunderer more so than the government. Let us charge big prices and let the government take the excess profits? proposed the vultures. But the president would have none of it.

Realizing the vital necessity for this protection for the people, and aroused by the attempts to defeat the food control bill, the president has assumed command of the fight to induce the senate to pass the measure. It is said that among those who are trying to prevent the passage of the measure are the "big business" concerns of the country, headed by the meat packing and cold storage interests of New York, Chicago, Omaha and Kansas City, the Standard Oil and other important fuel concerns (including coal) and the speculators in wheat and other cereals who are opposed to both the principle and method proposed in the food control bill, particularly that feature of it relating to the fixing of prices.

But Americans can feel assured that the president will win and that the people's interests will be safeguarded.—Raleigh News and Observer.

## A NOBLE BOY WANTED TO DO "HIS BIT."

When young Alec Shuping, whose parents live on a lot adjoining that of Dr. Riddle, left for the war, Bennett, the 14-year-old son of Dr. and Mrs. Riddle, and very much attached to Alec Shuping, went over to Mrs. Shuping's and said to her, "Mrs. Shuping, Alec has gone to the war; I am not old enough to go, but I want to do something for my country and I loved Alec, so I want to do his work for you. I will come over every morning and deliver your milk to your customers." Mrs. Shuping was tenderly touched by the loving loyalty of Bennett to her son and his country and she said, "Bennett, I will be glad to have you do this and will pay you what you think it is worth." Bennett replied, "No, Mrs. Shuping, I did not offer to do this for pay, but because I love Alec and my country."

The heroic spirit of self-sacrifice displayed by this noble boy should be an inspiration to the young men and the older ones in Burke to undergo freely any service for their flag and country in this day of stress and storm.—Morganton News-Herald.

## A War Month.

July is a war month. July 4 was the date of the American Declaration of Independence and the surrender at Vicksburg. The battle of Gettysburg occurred on July 1, 2 and 3, and the battle of Santiago on July 1 and 2. Cervera's fleet was destroyed on July 3. On July 1 a year ago began the successful Somme offensive. In July, 1914, Germany secretly massed her forces on the Belgian and French frontiers, although her quarrel on the surface was only with Russia because of the latter's desire to protect the kindred nation of Serbia. History is apt to repeat itself and before July ends this year we are likely to hear of stirring events, possibly including the first blow struck by Uncle Sam on the European battle front.—Winston-Salem Journal.

## SALISBURY COLORED WOMAN PUT HARNESS ON HER PIG.

Sanitary Officer W. W. Poole, of Salisbury, ran across something unusual in his rounds last week. The Post says: He was in the lower Dixonville section looking after hog pens and located several near homes and which he ordered removed to points nearer the creek. However, one old colored woman put one over on the sanitary officer. There is an ordinance regulating "hog pens," and wherever this is being violated the officer interferes. This old woman was found to be keeping a pig but maintaining no pig or hog pen. She simply had her young swine hooked up in regular bull dog harness and would lead it about or tie it to a stake, using different grazing places. She avowed that she maintained no pig pen or hog lot, and Mr. Poole, seeing it was up to him, told the old woman she would probably be able to eat hog meat this winter. This particular pig has developed into a regular pet.

## The August American Magazine.

An August magazine is usually devoted to fiction, but the articles in the August American Magazine are fully up to the standard set in the other months. Thomas E. Wilson, the Chicago packer, tells how he picks and handles men; Jack Lait writes about how he feels at thirty-five; B. C. Forbes contributes an article on the effect of war on business in England and the United States; Jane Cowl has something to say about the handicap of beauty in the theater, and Grantland Rice sings of "Sunny Tennessee" in verse.

The fiction is at a high mark because it includes stories by such writers as William Dudley Pelley, H. C. Witwer, Ellis Parker Butler, Marjorie Benton Cooke, David Grayson. The Interesting People, Family Money, and "Sid Says" are filled with useful and entertaining hints, and the results of the contest "What I Would Sacrifice For My Country" are also published.

## Wheat Prices Higher.

Chicago, July 18.—Strong demand, fewer offerings and offerings of shorts to cover today sent the wheat market up from three to fifteen cents from yesterday's close. July opened seven cents up at \$2.17 and later advanced eight. September opened three higher at \$1.96 and later was up nine.

These three essentials are assured if you favor us with your Prescription patronage. In compounding Prescriptions the greatest care is taken, the Best and Purest Drugs are used, and you are given all Prompt Service.

## IRON WITHOUT A "HOT FIRE"

There are many occasions during the week when you desire to do a little Ironing, and if you are using the old style sad iron it necessitates your building a fire in the cook stove or range.

Then, too, besides using fuel, the trouble of tending it and the heated kitchen, your irons are continually cooling and must be reheated.

## The Comfort Self-Heating Gasoline Iron

which we are now featuring does away with all the above inconveniences and may be kept at any desirable temperature for hours.

THIS COMFORT GASOLINE IRON IS DOUBLE POINTED—making both ends front ends—a new feature in irons. Weighs six and one-half pounds and operates five hours on one filling, the capacity being three-quarters of a pint.

**RETAIL PRICE, \$3.00.**

### SUPER-WHEAT IS PROLIFIC

BURBANK PERFECTS GRAIN WHICH WILL QUADRUPLE AMERICA'S CROP.

Santa Rosa, Cal., July 17.—Luther Burbank, the world's greatest agriculturalist, today announced the perfection of a "super wheat" which he believes will go far toward solving the universal problem of grain shortage. Its yield is five times as much for each acre as the average product of the United States today.

Where fifteen bushels are now garnered, forty to seventy is the measure of the new Burbank variety. It is as if this genius of the plant kingdom had suddenly extended many fold America's wheat acreage. The promise of this achievement for a hunger-threatened world can scarcely be overestimated.

It is the product of ten years' extensive and expensive experimenting to combine into a wonderful new grain the best food qualities, hardiness and fecundity of many strains of wheat selected from all parts of the earth.

It has been carefully tested in comparison with sixty-eight of the world's best wheats and excels every one of them in productiveness. Burbank until now has kept his discovery a secret for fear the result of his labors would be appropriated by exploiters. "I have," he said, "perfected and ready for the market the most productive wheat ever evolved by man. I say that without qualification, and I'll back it up. The average yield will run about fifty to seventy bushels to the acre. It is hardy, hard-boiled, smooth and milky, and will grow anywhere in the temperate zone.

"Were it universally planted, the same acreage today under cultivation should yield many times as much wheat." No man's time is of more value to the nation than Luther Burbank's. Identified with the national emergency food garden commission, he is working feverishly against time to bring his new wheat to the market as soon as possible, giving the world the benefit of his genius. He is a quiet, smiling man whose face is as gray as his hair and whose clothes were stained with the dust from his garden.

"This country has raised 500,000,000 bushels of my potatoes since I produced them in 1873," resumed the former Massachusetts farmer who has become the world's plant wizard. "Twenty-seven million carloads. According to official statistics more than 85 per cent of all apples and pears annually shipped out of California in fresh state are my own creations. But I make the confident prediction that my new wheat will do as much or more for the nation than the Burbank potato and the fruits." He showed a sheaf of the super grain, fondling it with the scientist's passion for his creation. The heads were like clotted cream—long, heavy and amazingly big.

"Protein," he resumed, "is the important food element in wheat. I am now working to increase the protein in this new type and in other Western varieties of grain which are particularly lacking in it. With that element greatly augmented, the yield per acre would be taken in meeting the world's cry for bread. And now newspapermen, hurrying back into the garden which is far more precious than any arsenal to the government, that must feed the legions fighting to make the world safe for democracy.

### GERMAN POSITIONS TAKEN

FRENCH TAKE ENEMY LINES ON FRONT OF MILE AND A HALF.

Paris, July 17.—A powerful attack by the French this morning on the left bank of the Meuse resulted in the capture of German positions on a front of more than a mile and a half to a depth of about two-thirds of a mile.

The war office statement announcing this gain says that the Germans offered an energetic defense and suffered heavy losses, especially in their counter-attacks.

There has been no relaxation in the intensity of the fighting between the French and Germans on various sectors of the Southern line in France from the region of Soissons eastward through the Champagne and into the district northeast of Verdun centering about the famous Hill 304.

Victories are recorded for both sides—for the Germans along the Laon-Soissons road in the penetration and destruction of French trenches and in Champagne, north of Mont Teton, where the forces of the crown prince previously had been repulsed with heavy casualties, and for the French in the Verdun sector, where General Petain's forces in a mighty effort took enemy lines on a front of a mile and a half to a depth of about two-thirds of a mile.

The success of the Germans north of Mont Teton was obtained through persistent counter attacks on positions they had lost last Saturday in which the losses had been extremely heavy. While the German war office asserts that all the old German positions were recaptured the Paris official communication declares that the troops of the crown prince only regained a footing at certain points in the trench elements.

Artillery duels and small operations carried out by raiding parties continue to feature the situation on the line where the British are facing the Germans. Intensive air fighting is still in progress in this region, in the latest of which six German machines were driven down and three others forced down out of control by British airmen, whose machines all returned from their forays.

The Russians in East Galicia have been forced for strategic reasons to evacuate the town of Kalusz and take up positions on the southern side of the Lomnic river. The important crossing of the Lomnica was made secure by the troops of General Brusiloff after they made their retreat. Previous to retiring the Germans had carried out persistent attacks on Kalusz, but the Russians had repulsed all of them. Serious fighting has taken place in this immediate region for the village of Novica, the Austro-Germans capturing it, but later driven out on the arrival of Russian reserves.

Heavy artillery fighting continues along the northern front around Riga, Dvinsk, and Shorgon, but as yet the extent of the operations has not been revealed in any of the official communications.

In Russia, along the Danube, Russian scouts captured the village of Dunaveev and most of its defenders, but later abandoned the position.

In none of the other theaters has there been a battle of any great moment.

#### Give Both a Licking.

Chicago, July 18.—"Lick the plate and lick the kaiser" is the official slogan for the food conservation workers of Lake Forest, spreading among the ranks of Chicago conservators today.

### MEXICO SEEKS BETTER AGRICULTURAL CONDITIONS.

Mexico City, July 17.—A project recently was submitted to Rafael Nieto, under secretary of finance, which evolved a new idea for the financial betterment of the poorer agricultural classes of Mexico. Among the employees of the department of finance it is known as "The Noah's Ark Bill." It proposes that the government either give to each agricultural family or aid each family to buy two pigs, two goats, two rabbits, a hen and a rooster, a duck and a drake and pairs of other farm yard animals. The project asserts that with but little care and expense the natural increase of these families would speedily drive the wolf from the doors of the Mexican agriculturists.

#### Heavy Crops of Corn.

Washington, July 17.—"Patriotic response of the South to the appeal for food and feed stuffs to meet the crisis brought about by the war is shown by the United States agricultural department's forecast of the yield of corn this year," said President Fairfax Harrison, of the Southern Railway system, today. "For the states of Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Kentucky and Tennessee, this year's corn crop is estimated at 601,262,000 bushels, as compared with 495,230,000 bushels last year, showing an increase of 106,026,000 bushels, or 21 per cent.

#### Edney Ridge Promoted.

Raleigh, July 17.—The adjutant general announced today that Private Edney Ridge, of the first infantry, had been commissioned second lieutenant and assigned to the machine gun company.

Lieutenant Ridge is a Greensboro boy, and was a private in the regular army and with a company under General Pershing. He was granted a discharge in order that he might enlist in the guard and become eligible for a commission.

### Germany Drops Zeppelins and is Building Airplanes.

London, July 17.—It is reported in an Exchange telegraph dispatch from Lausanne, Switzerland, that no more Zeppelins are being constructed at Friedrichshafen. The workmen who hitherto have been employed in building airships are said to be engaged in the construction of a large number of airplanes.

#### SALE OF REAL ESTATE.

By virtue of authority in the undersigned vested by an order of the Superior court of Guilford county in the special proceedings entitled Leonora C. Johnson and her husband, R. P. Johnson, against Sherman Morched, John H. Byers et al. the undersigned will sell for cash at public auction to the highest bidder on

Saturday, July 21, 1917.

at 12 o'clock M., at the court house door in the city of Greensboro, in said county, a tract or parcel of land located on the north side of Gaston street, in said city, and bounded as follows:

Beginning at Hezekiah Edwell's corner on Gaston street; thence west 67 feet to John A. Gilmer's corner; thence north with his line 91 feet to C. M. McAdoo's line; thence east 67 feet to Edwell's line; thence south 91 feet to the beginning on Gaston street. See book 77, page 73.

This June 21, 1917.

G. S. BRADSHAW, Commissioner.

#### NOTICE OF SUMMONS.

North Carolina, Guilford County. In the Superior Court, Clerk's Office. Sarah E. May as administratrix of Carrie L. J. Friddle, Deceased, Plaintiff, vs. Simpson Friddle, John Friddle, John Shaw and wife, Julia Shaw, Mary Eaton, and all other persons who are heirs of Carrie L. J. Friddle, Deceased, Defendants.

The defendants above named and all other persons who claim an interest at law of Carrie L. J. Friddle, will take notice that an action entitled as above has been commenced in the Superior court of the county and state above mentioned, (clerk's office) to sell certain lands lying in Guilford county, N. C., and belonging to Carrie L. J. Friddle at the time of her death to create assets to pay her debts and cost of administration, and the said defendants and all other persons claiming to be heirs of the said Carrie L. J. Friddle will further take notice that they are required to appear before the undersigned at his office in the county court house in Greensboro, county and state first above mentioned, on the 7th day of August, 1917, and answer or demur to the petition in said action, or the plaintiff will apply to the court and the court will grant leave, according to the prayer of said petition.

Done at the office in Greensboro on this 14th day of July, 1917.

M. W. GANT, Clerk of the Superior court of Guilford County, N. C. 64-70.

#### MORTGAGE SALE.

By virtue of the power of sale contained in a mortgage deed made by Ella Foster to the undersigned on the 5th day of November, 1915, duly recorded in book 279, page 866, of the register of deeds office of Guilford county, N. C., default having been made in the payment of the money thereby secured, the undersigned will on

Saturday, August 4, 1917,

at 12 o'clock noon, at the court house door of Guilford county, in the city of Greensboro, N. C., sell at public auction to the highest bidder for cash that certain tract or parcel of land in the county of Guilford and state of North Carolina, Gilmer township, adjoining the lands of W. B. Windsor, J. M. Smith and others and more particularly described as follows:

Beginning on the west side of High street 50 feet south of East Lee street, thence west 90 feet; thence south 50 feet to W. B. Windsor's corner; thence east 90 feet to High street; thence north 50 feet to the beginning; being the same property conveyed to Henry Foster by M. Smith and wife, recorded in book 519, and devised to Ella Foster by said Henry Foster.

This July 3, 1917.

M. W. GANT, Mortgagee.

## Some Farmers Still Use Oil Lanterns to Light Their Barns

Of course—back in the old days—30 years ago—you couldn't get anything better. But—these last few years have so changed living conditions that up-to-date farm families won't be satisfied any longer—with poor light.

The modern farmer is quick to see the value of good light—its safety and the convenience it brings him and his family. There are now hundreds of thousands of farmers who have chosen the

## Pilot-Carbide-Outdoor Lighting and Cooking Plants

for it gives them not only all the fine, bright, inexpensive light they can use—but cooking fuel as well.

This wonderful machine stands out of doors—on top of the ground, anywhere. It has totally changed the old-fashioned methods of barn and house lighting.

You can now flood your barn with safe brilliant light—*instantly*. No matches needed. No dangerous lanterns to tip over or upset.

Think what this means to you! Think how much better and quicker you can work, with plenty of good bright light in place of a smoky, dim oil lantern.

You will find the barn lighting feature alone worth the entire investment for the PILOT. And its use in the house, as well,

means added happiness—safety—comfort and convenience for your whole family.

Just because your father and grandfather used oil lamps and lanterns is no reason why you should, any longer, put up with their danger and poor light. Light the modern way, the safe way, with the PILOT.

Find out today about this modern light plant. You owe it to yourself. You owe it to your good wife and to your children. You can well afford the little it will cost.

Write for our illustrated catalogs and descriptive booklets giving all the facts.

#### MORTGAGE SALE.

Pursuant to the powers contained in a certain mortgage deed executed by W. R. Hamilton and his wife, Ella Hamilton, to the Bank of Kernersville, mortgagee, dated March 3, 1917, and recorded in book 294, page 248, in the office of the register of deeds of Guilford county, default having been made in the payment of the note thereby secured and the conditions of the said mortgage, whereby the same became operative, the undersigned will on

Tuesday, August 7, 1917.

at 12 o'clock noon, or as soon thereafter as may be, sell the lands conveyed in said mortgage deed, at the court house door, in the city of Greensboro, to the last and highest bidder, for cash, the said lands being more particularly described as follows:

Lying and being in Guilford county, the state of North Carolina, Oak Ridge township, adjoining the lands of S. A. Cook, M. H. Holt estate, and others, and bounded as follows: Beginning at a stone, side of the Danville and Salisbury road, near a persimmon tree, running north 14 degrees west 25 poles to a stone; thence north 75 degrees east 13 poles and 5 feet to a stone; thence south 7 poles and 15 links to a stone; thence south 18 degrees east 10 poles to a stone, side of Salisbury and Danville road; thence 57 1-2 degrees east with road 13 1-2 poles to the beginning, containing 2 1-2 acres, more or less.

This July 5, 1917.

BANK OF KERNERSVILLE, Mortgagee.

D. L. DONNELL, Assignee.

#### ROAD NOTICE.

A petition having been presented to the board of county commissioners of Guilford county by citizens and taxpayers of Friendship township, asking that a road be made public beginning at N. H. Robinson's residence on Pleasant Ridge road, running in a southeasterly direction following the present road over the lands of N. H. Robinson, the land of W. E. Long to the residence of W. E. Long in a southerly direction to the Guilford College road on north side of Brush creek, this is to notify all persons objecting to the same to appear before the board at its next regular meeting on Tuesday, August 7, and state said objection.

This July 5, 1917.

W. C. BOREN, Chm. B. C. C.

## KUTTYHUNK BLUE

A stick makes a quart of finest washing blue. It's all blue—saves the cost of use—less bottles and boxes.

For Sale at all Grocers. Discount, McDowell & Co., 202 N. 4th St., Tallahassee.

## The Farm Thresher!

The 24x32½ "Waynesboro Eclipse Thresher" exactly meets the requirements of the Farmer who has a 4 or 6 H. P. Steam Engine, or 7 or 10 H. P. Oil Engine of his own. With this Light Weight Thresher—which weighs about twenty-eight hundred pounds—included in his farm equipment, he can Thresh Wheat, Oats, Rye, Barley, Buckwheat, Peas and Beans, and do so just at the right time, when these crops should be garnered. "No waiting." But thresh fast or slow as best suits the conditions. This is a good Thresher for the thresherman, who goes from farm to farm to THRESH for his neighbors. It has good capacity.

We can furnish you a long list of satisfied customers, if you will only write us.

Farmers, Threshermen—with an estimated shortage in the wheat crop of 430,000,000 bushels, and 300,000,000 bushels already contracted to Europe, will it not pay you to operate a Thresher? The price of grain is going to remain high. WRITE US FOR PRICES AND TERMS.

## Integrity, Responsibility and Good Judgment Regarding Investment

Knowledge of the law respecting trusteeship, executive ability—and all of these sustained without interruption—are necessary under modern conditions before a trustee can be considered wholly competent.

The Greensboro Loan and Trust Company possesses all of these qualifications of a competent trustee, including assured existence throughout generations of beneficiaries. It will afford complete protection to your estate if appointed executor and trustee under your will and its service will cost no more than that of an individual.

Phone 179. An officer will be glad to talk over with you any trust or banking matters you may have in mind.

## NEIGHBORHOOD NEWS

### SUMMERFIELD.

Dr. Hockett and wife, of Pleasant Garden, have located in the village. We are glad to have a doctor to take the place of Dr. Wilson, who has gone to Oglethorpe. We welcome them in our town and wish for them much success.

Mr. Bryant Smith, of Oklahoma, is spending the summer here at his old home. We are glad to have him back home again and glad that his health is almost entirely restored.

Miss Platter, of Statesville, visited Miss Byrd last Saturday and Sunday. Miss Kate Smith, who has been sick for several weeks, is out again and is now visiting relatives and friends at Guilford College.

Mrs. Delap, of Midway, spent several days here recently with her daughter, Mrs. Bob Harris.

Miss Mary Ladd and Miss Mary Searrell spent a week at Mrs. Brown's, at Statesville, recently.

Prof. Carroll, of Reidsville, visited at Mrs. Charles Gamble's this week.

Prof. Short, of Pleasant Garden, was in the village on school business this week.

Miss Novella Lloyd is visiting Miss Melona Patterson at Burlington.

The ladies of the Betterment Association are getting up a play, "Mrs. Briggs of the Poultry Yard," which they expect to give in the near future.

Miss Mabel Wilson is attending the summer school at the Normal, in Greensboro.

Mrs. Sallie Walker, of Greensboro, spent several days here recently with Mrs. Ladd.

Mr. George Winfrey, who has been sick for several months, is slowly improving.

Capt. Jim Robertson is very smily, fit another fine boy.

Rev. Sherrell and family are visiting relatives and friends at China Grove this week.

Miss Mary Ayers will entertain the Ladies' Aid Society next Tuesday afternoon.

Mrs. Blackburn entertained the book club last Wednesday afternoon. Everybody enjoyed the games and the refreshments very much.

The health of the community is right good at present. We know of no very serious sickness at this writing.

Miss Sue Willis, of Stonesville, stopped for a few days at Mrs. Bob Harris' last week.

Miss Laura Wilson is spending some time at Stokesdale, with relatives.

Miss Elizabeth Frogdon, of Greensboro, is visiting her aunt, Mrs. Joe Frogdon, this week.

Mrs. Can London, of Pomona, visited Mrs. Betty Rhodes last week.

### HINTON.

Mr. W. C. Rankin is on the sick list.

Miss Alice Hockett, of Pleasant Garden, has been visiting her sister, Mrs. Will Causey.

Mr. and Mrs. Ernest Sharpe and two sons visited at Mr. Tom Gladstone's Sunday.

Mrs. R. M. Gladstone visited her mother, Mrs. G. L. Anthony, at Vandalia, recently.

Mr. and Mrs. Will Reynolds and little son, who reside in Michigan, arrived here last week for a visit to relatives and friends. Mrs. Reynolds before her marriage was Miss Irene Fogleman.

Miss Jennie Gorrell will leave Friday for Asheville to visit relatives.

Mrs. Early Apple and little daughter are on a visit to Mrs. Apple's parents, Mr. and Mrs. J. D. Gorrell.

### CENTER.

On last Tuesday, July 10, at 6.45 P. M. we had the most severe hail-storm that this section has witnessed in many years, extending as far east of here as Three Forks school house. The corn blades were split up badly and vegetables were in places cut to pieces. The hail stones, some of them, were as large as ordinary acorns. But the stuff is coming out good.

The relatives of Mrs. Robert Harroll, whose death was noted in last week's Patriot, have the sympathy of many friends.

Miss Alma Barker commenced a two months school at Three Forks last Monday.

Mr. C. A. Osborn is not for Wilson anymore, it's a boy.

Those who have been threshing wheat report the yield as being good.

Last Friday the writer and madam took a few days off to visit Deer Lake Fruit Farm, at Spout Springs, and might say that the visit was satisfactory, if an appetite for peaches counts anything. The earlier varieties, such as Mayflower, Alexandria, Connet's Hodgkin, Carmine and others are pretty well gone, and the Elberta that the Northern people prize so high are just coming in this week. Mr. Hodgkin has more than 200 of them and they are fine. Mr. Hodgkin raises a lot of vegetables for which he finds sale for most of them right at home to the natives, who are too lazy and skeptical to try to grow for themselves. Mr. Hodgkin has bought a small farm in the suburbs of Sanford and will open up another fruit farm at that place. On Saturday morning we were taken for a spin over some of Harnett county's good roads to the Lindley nursery, which rivals in beauty that of Pomona. The stock looks healthy and lots of it. The soil in the lowland or bottoms is a black sand loam and down here is lots of both peach and apple stock. In the center and at either end of a very long bottom the corn is fine and ought to convince any one what push, pluck and perseverance will do. Near the little station called Overhills is the Jordan-Kent Company club house and golf links. The golf links is a very large open field prepared for the game, but not being up on the game we did not try a hand. The land in this section lies for the most part level, with no rocks to contend with and it is not so much trouble to build good roads as it is in Guilford and Randolph. All in all we had a fine trip, but go where you will you will find on your return home that no dog wags his tail so friendly as your own.

### VANDALIA.

Mr. Harry Taylor has returned from Dr. Long's hospital where he underwent an operation for appendicitis.

Mrs. J. C. Hanner continues quite feeble.

The Betterment Society of the new Moriah school met with Mrs. Van Kirkman last Friday evening. Eleven members were present.

Those that attended the birthday dinner of Mrs. Ed. Ferguson, of Liberty, last Sunday were Mrs. A. T. Curtis and children, Mr. and Mrs. Van Kirkman and children, Mr. and Mrs. Cecil Moser and children, Mr. and Mrs. Sidney Moser and son, of this place; Mrs. Mary Moser, Mr. and Mrs. Rufus Dalton, Miss Fannie Moser, Messrs. W. A. Moser and Tom Manley and Buddie Whittsett, of Greensboro, and Mr. John Foust, of Pleasant Garden.

Mrs. E. E. Kirkman and daughter is spending some time visiting relatives in Burlington.

Mrs. John Moore is reported to be getting along fine.

Mrs. J. A. Armfield, of Hill Top, visited her daughter, Mrs. L. C. Kirkman, recently.

Mrs. Sam Pickett, of Greensboro, visited her daughter, Mrs. Cecil Moser, last week.

The Betterment Society of Moriah school will give a lawn party next Saturday night at Mr. Mark Witt's for the benefit of the new Moriah school. Come and have a good time.

### Take Charge of the Hogs.

The farm herd of swine offers a splendid opportunity for farm boys to help their country. Too young to enlist in the army or navy, too small to stand up under the hard work of a farm hand, they can help to win the war by taking over responsibility for lighter work, and so relieve men for the harder work. By taking charge of the hogs on the farms boys will be helping to solve the farm labor problem. They will be helping to produce a very important food for the men in the army and navy.—Leaksville Gazette-Observer.

Always bears the Signature of *Dr. J. C. Hanner*

### GUILFORD COUNTY BUSINESS MEN HOLD MASS MEETING.

At a mass meeting of Guilford county business men held Tuesday night in the court house, there was a full discussion of the proposed war-excess profits tax now before Congress. The sense of the meeting was practically unanimous in condemning the proposed measure, and the following resolutions were adopted condemning the proposed tax:

"Resolved by the citizens of Guilford county in a mass meeting assembled at the court house at Greensboro on Tuesday, July 17, 1917, that we consider the proposed excess profit tax an unscientific, unjust and discriminatory tax, and that the said proposed tax works a great hardship upon many of the leading industries of our state and section.

"Resolved further, that we do not object to an equitable tax, however large it may be, for the purpose of winning the war, and we most cheerfully pledge all that we have in men and means to carry on the war to a victorious and happy conclusion, but we do demand that the taxes shall be as nearly as possible just and equitable.

"Resolved further, that in our opinion the proposed excess profit tax favors the large, overgrown and watered stock corporations of the country, and bears hardest upon smaller corporations, and especially upon certain industries that were much depressed during 1911 and the other years mentioned in this proposed tax law.

"Resolved further, that we protest to our senators and representatives in Congress against the proposed measure and that copies of this resolution be forwarded by the secretary of this meeting to our senators and representatives in Congress from this state."

These resolutions will be sent to Washington by two delegates from the meeting who have not yet been named.

### Onion Raising.

S. G. Sawyer, of Harbinger, has an onion patch that will average over a bushel to every ten feet in the row and 150 bushels to a half acre. "It beats everything down my way," says Mr. Sawyer, who was in the city Wednesday. "Can you match it in Pasquotank?"—Elizabeth City Advance.

## Real Shoe Values

Throughout the store we have marked Low Shoes for summer down for Clearance, the values being unusual. It is doubly good for the public because the sale comes this year almost at the beginning of the season for Low Shoes.

In addition to the general reduction on all Men's, Women's and Children's Shoes for summer, we call particular attention to our

**\$1.00 BARGAIN COUNTERS \$1.50**

On these two counters we have placed extraordinary values in odd lots of PUMPS, SLIPPERS, Etc. One counter offers your choice at \$1.00—the other your choice at \$1.50. NO SUCH SHOE VALUES HAVE EVER BEFORE BEEN OFFERED.

THURSDAY, JULY 19, 1917.

## LOCAL NEWS IN BRIEF FORM

MATTERS OF INTEREST TO THE  
READERS OF THE PATRIOT  
FAR AND NEAR.

## Professor Lahser to Wed.

A marriage of interest to his friends all over the state is that of Prof. Conrad Lahser, professor of music at the Greensboro College for Women. Professor Lahser's fiancée is Miss Ethel Barbour, of Asheville. The happy event will take place in the near future.

## Plays at the Normal.

The Clifford Devereux's players will be at the State Normal College Friday afternoon and Saturday afternoon. This famous company will give three plays, "Much Ado About Nothing," "Richard Brinsley Sheridan's 'School for Scandal,'" and Moliere's "Learned Ladies."

## Mr. J. B. Bradley Married.

The popular proprietor of Bradley's Elm Street Pharmacy, Mr. J. B. Bradley, was married this morning at Burlington to Miss Lula Florence Tisdale, of that place. Following the ceremony Mr. and Mrs. Bradley left for a honeymoon trip through the western part of the state. They will make their home in Greensboro, at 408 West Washington street.

## Booth-Morrisette.

Friends of Mr. Irelee Booth, formerly of Greensboro, will be interested to learn of his marriage in Richmond, Va., Monday to Miss Edith Morrisette, of that city. The bride and groom left for Greensboro after the ceremony for a visit to the bridegroom's mother, Mrs. F. P. Booth. While here they will also visit Mr. Willis Booth, a brother of the bridegroom.

## Joins Aviation Corps.

Ben S. Robinson, Jr., a Greensboro boy who went into the United States army in the summer of 1916, has been recently successful in passing the examination for first lieutenant in the aviation section of the officers reserve corps of the United States regular army. The aviation corps seems to be quite popular with the Greensboro boys. Several besides Lieutenant Robinson have entered this branch of the service.

## Y. W. C. A. Chooses Site.

The site has been chosen for the Y. W. C. A. building by the committee and directors. It is what is known as the Clark property, near the First Presbyterian church at the intersection of Church and Davis streets. The lot chosen is large and well located. The building committee plans to go ahead immediately with its work. The architect, Mr. Harry Barton, has been chosen, and expects to have the plans for the building soon completed.

## Against Hog Ordinance.

Greensboro city commissioners are still being importuned by citizens of the city to put the hog ordinance again on the books. Said hog ordinance is one forbidding the raising of porkers within a quarter of a mile of the city limits. Mr. E. P. Wharton, assistant health officer, and the official fly-swatter of Greensboro, has been forced into taking the lead in the movement to again get the hog ordinance on the city statute book. Mr. Wharton states that it took Greensboro citizens four years to get such an ordinance, and if necessary there are people who will work on it four years more to get it back on the books.

## New Principal Elected.

Greensboro's new city superintendent of schools, Frederick L. Archer, has recommended Mr. O. A. Hamilton, of Raleigh, for the principalship of the city high school. Mr. Hamilton will draw a salary of \$1,800 a year. He is a University man of the class of 1910. Mr. Archer also recommended Mr. C. A. Bosman, of Enfield, for the English department of the high school. Miss Mildred Moses, sister-in-law of Dr. E. K. Graham, of the University, was chosen for the first grade of the West Lee graded school.

## Transferred to Canada.

Edwin C. Klingman, son of Mr. and Mrs. O. C. Klingman, of this city, sends word to his parents here that he has been transferred from the officers training camp at Fort Oglethorpe, Ga., to Toronto, Canada, at which place he will take training with the Royal Flying Corps. Soon after going to Fort Oglethorpe, young Klingman made application for admission to the aviation corps. His transfer to Canada comes as the result of his own choice. Mr. Klingman expects to be in Canada only a few months before leaving for the front in France.

## Mrs. Ella Rudd Dead.

Mrs. Ella K. Rudd died at her home eight miles north of the city Monday afternoon. Mrs. Rudd is survived by her husband, S. R. Rudd, five sons and one daughter. The sons are S. G., A. H., Reuben, S. R., Jr., and H. K. Rudd. The daughter surviving is Mrs. H. G. Sinclair. Funeral service over the remains were held Wednesday morning at 11 o'clock at Lee's chapel, Rev. T. B. Johnson, assisted by Rev. Mr. Hooker, conducting the services. Mrs. Rudd was a woman of beautiful character and was greatly beloved by all who knew her.

## Uncle Sam Wants Stenographers.

Mr. J. H. Armfield, secretary of the board of examiners, has been requested to renew and double his endeavors to obtain applicants for stenographers and typewriters for the government. The following statement explains itself: "The U. S. government needs, and needs badly, great numbers of stenographers and typewriters, both men and women, for service in the department at Washington, and the situation in federal offices outside of Washington is scarcely less urgent. The examination may be taken any Tuesday. Apply at once at the local postoffice for application blanks."

## Somewhere in France.

Clyde Crews, perhaps the first Greensboro lad to land in France with the American force, has written to his mother, Mrs. J. E. Crews, something of his experiences of his trip over, and his impressions of his new surroundings. His letter was postmarked "Somewhere in France." He sailed from Hoboken, N. J., and arrived at a port in France June 27. The voyage across the Atlantic was fourteen days, and for the most part was humdrum and tiresome, with the exception of a thrill every now and then when they were called to the deck with their life-belts on. Once they were fired at by a submarine. The young Greensboro soldier was much impressed by the need of the Belgian people, and asked his mother to do whatever she is going to do in the way of charity for the Belgians. He stated his intention of dividing his salary with the suffering Belgians.

## Declines Principalship.

Prof. H. L. Koontz, former principal of the Asheboro Street graded school, and who was the leading candidate for the superintendency of the city schools, announced to the city commissioners, that he will not accept the principalship of the city high school, which was offered to him in lieu of the superintendency. Mr. Koontz and former superintendent, W. C. A. Hammel, were backed by different factions for the superintendency. Neither was chosen for this position as the commissioners thought it wise to pass over factional candidates. As has been previously announced, Prof. Frederick Archer, formerly of the Selma schools, was chosen to succeed Mr. Hammel. Quite a fight has been made on Mr. Koontz since he was tendered the principalship of the high school, and in passing up this position, Mr. Koontz announces that he does so because he believes that it will be for the best interests of the schools of the city. The general opinion seems to be that the city suffers a great loss in the going of Mr. Koontz, and it is greatly to be regretted that his friends got him complicated with a factional fight. The administration of the city schools with both Prof. Koontz and Mr. Hammel removed, will be practically new for the coming year.

## Mr. Hobbs to Go to France.

Two of Guilford county's young Quaker citizens left Monday night for Havertford, Pa., where they will join a Quaker contingent that will leave for France within five weeks. The two young men leaving here are Richard J. M. Hobbs, of Guilford College, son of Dr. and Mrs. L. L. Hobbs, and Mr. Knight, son of Mrs. Cornelius Knight, also of Guilford College. The Quaker expedition which they have joined is partially supported by the church and partially by the United States government. The purpose of the expedition is to work over as much of the devastated territory of France as they can, and make it fit once more for human habitation. This work of rehabilitation undertaken by the Quakers is thoroughly in keeping with the ideals of their church. Mr. Hobbs has been practicing law in Greensboro for about two years, and leaves a bright prospect in his profession to go with the Quaker expedition to France. The expedition will be made up of one hundred young men, who will receive only their actual expenses during the time they are in France. Nothing in the way of a salary will be paid them. The leader is Charles J. Rhoades, former president of the Federal Reserve Bank, of Philadelphia. He leaves his office which paid \$25,000 a year to lead the Quakers without pay. Mr. Hobbs is a young man of splendid attainments, is a graduate of Guilford College, and of Havertford College, and took his law degree in Columbia University. He has been most successful in the practice of his profession.

## Gould's Transgression.

The girl that young George Gould married was a country girl, too, thus making his offense intensely offensive in the eyes of the moneygluts. What right has a rich man's son to marry an honest and unassuming country girl, when he might reflect glory and credit upon his parents by marrying a fashionable swell girl who drinks cocktails and smokes cigarettes?—Houston Post.

## Both Should Shut Up.

Germany and Austria-Hungary should quit talking about "waging a defensive war." Such josh as that is enough to make a horse laugh, except that now it is a defensive war to keep from getting what is coming to them.—Raleigh News and Observer.

## Times Have Indeed Changed.

It is strange that Illinois the home state of Abraham Lincoln, who freed 3,000,000 negroes, should be the state to shoot them to death, on their first visit to her borders. Times have indeed changed wonderfully since those days, and these negroes will now know that Dixieland is their best habitat after all. Still this stain upon the state of Lincoln will not help her history.—Concord Observer.

## PEOPLE'S BARGAIN COLUMN

Advertisements inserted under this heading at the rate of one cent a word for each insertion. Persons and firms who do not have advertising contracts with the paper will be required to pay cash in advance.
