## ALL TEUTON ATTEMPTS FAIL

CROSSINGS OF PIAVE RIVER FRUSTRATED BY ITALIAN TROOPS.

Rome, Nov. 18.—Further attempts by the enemy to force crossings of the Piave river were frustrated by the Italian troops yesterday and in a brilliant counter-attack the Austro-German forces which previously had gained a footing on the west bank, in the Sagare zone were completely swept out of this area, the war office announced today.

The Austro-German forces hemmed in at the Zenson Loop tried to break out but were repulsed with heavy loss and ultimately driven further back into the loop.

The Italian line on the Asiago plateau is withstanding extremely violent attacks, the defensive units displaying brilliancy in their resistance and in successful counter-attacks.

The text of the official statement reads:

"On the Asiago plateau on the night of November 16-17 the enemy, insisting upon his attempt to force our line from Monte Slemol to Monte Castelgomberto, attacked in the direction of Monte Zemo east of Gallio. The attack, repeated four times with extreme violence was completely broken up by the gallant Liguria brigade. More to the north in the direction of Cazera and Meletta d'Avanti, our parties of the Perugia brigade retook with great courage some advanced elements lost during the previous days, capturing 500 prisoners.

Between the Brenta and the Piave the enemy pressure has been increasing from the evening of the sixteenth. The masses of the enemy obliged our troops at some points not to prolong the defense at some advanced positions, which have been abandoned in an orderly withdrawal after fierce resistance and brilliant counter-attacks. North of Quero, the Como brigade has again shown its valor.

Yesterday along the Piave, parties of the Cazera brigade together with elements of other units in an irresistible advance completely swept the enemy from the Fagare zone. The Spinerole brigade repulsed with great loss for the enemy an attack attempted by the troops closed in at Zenson, driving them further back into the loop of the river. Attempts to cross the river carried out at other places were promptly frustrated.

"On the right bank of the Piave during November 16 and 17 a total of 51 officers, 1,212 men and 27 machine guns was captured."

## THREE DEATHS AT SEVIER SUNDAY FROM PNEUMONIA.

Greenville, S. C., Nov. 18.—Three deaths occurred at Camp Sevier today from pneumonia following measles. The names and organizations of the men follow:

Private Hardy Lawson, company E, 117th infantry.

Private Herbert E. Tharington, supply company, 120th infantry.

Private George K. McCollum, company B, 117th infantry.

Three soldiers also succumbed to this disease Saturday, it was announced at divisional headquarters today. They were as follows:

Private Lee Lane, company E, 117th infantry.

Private David C. Arent, company H, 120th infantry.

Private Joe Copper, company B, 119th infantry.

## Guard of Women Fliers.

St. Louis, Nov. 17.—A million women to act as home guards is the aim of the Women's National Aviation Home Guard of North America. Just organized here. The total organization already has 1,000 young women members under the leadership of Mrs. Anna Leimbach, and branches have been organized in Arkansas, Pennsylvania, Colorado, Kansas, Oklahoma and Texas.

Headquarters for the present will be in St. Louis, and Capt. John Berry, widely-known aviator, has offered his private aviation field in East St. Louis for training purposes. In addition to aviation, the women will be given military training and taught wireless telegraphy.

## GERMAN WIVES WANT TO JOIN THEIR HUSBANDS.

Asheville, Nov. 17.—Will the United States government have to take in and feed all the wives of interned German officers now detained at Hot Springs?

This is a question that is seriously agitating government officials at the present time as the women declare that they are going into the camp to their husbands, and defy the government to stop them.

It is stated that the steamship companies for which most of the Germans interned at Hot Springs worked have decided to cut off the three-quarters pay allowed the officers and which has been used by them to keep their wives at Hot Springs near the camp.

The German women claim that this will leave them without support, and that as soon as the pension money ceases to arrive they are going into the camp and live with their husbands, regardless of whether the government extends the necessary permission.

Government officials are at a loss how to deal with this situation, should the women attempt to make it good. There are no orders regarding the women and children dependent on the Germans interned at the summer resort, and likewise there is no provision for their upkeep.

At the same time the United States government is most emphatically not making war on women and children a practice left exclusively to the Boche, and the women have announced that they will get into the camp regardless. When the irresistible force meets the immovable body, etc., is a problem that the guards at the camp may be called on to solve in the very near future.

## BRITISH FORCE TEUTONS TO GIVE UP REDOUBT.

British Front in Belgium, Nov. 17.—During last night the British carried out a small, successful operation northwest of Passchendaele, on the Goeburg spur, by which they advanced a section of their line and forced the Germans to give up Vocation Farm, a strongly fortified redoubt which has been the scene of bitter fighting recently.

The attack was delivered on a very narrow front for the purpose of improving the British positions so as to make the present line across Passchendaele ridge one more easily held.

Vocation Farm, which was heavily equipped with machine guns, had been giving the British much trouble in the past few days. A number of prisoners were captured in the operation.

## AMERICAN SOLDIER SHOT BY FIRING SQUAD.

Washington, Nov. 17.—An American soldier of General Pershing's forces, found guilty by court martial of the criminal assault and murder of a French woman, has been executed by a firing squad.

AH details of this, the first death penalty imposed since the troops landed in Europe, are being withheld by the war department.

When a full report has been received from General Pershing it probably will be published, as officials of the department want the world to know how the American army deals with men who commit such crimes. Secretary Baker said today that General Pershing had full power to carry out the sentence of the court martial without referring the case to the president.

## BRITISH PURSUED THE GERMANS TO HELGOLAND.

London, Nov. 18.—German light cruisers which fled through Heligoland light yesterday before British warships of similar type, were pursued to within 30 miles of Heligoland, where they came under the protection of the German battle fleet and mine fields, the admiralty announced today.

One of the German light cruisers was observed to be in flames and the machinery of another seemed to be damaged. One German mine sweeper was sunk.

The British light forces returned without losses, with but little damage to the ships and slight casualties among the personnel.

## ALEXANDER WAS RE-ELECTED

FARMERS' UNION ADJOURN AFTER PLEDGING \$10,000 FOR NEXT ISSUE OF BONDS.

Winston-Salem, Nov. 15.—Dr. H. Q. Alexander was again elected president of the North Carolina Farmers' Union at the session this morning with only one dissenting vote. His action in preparing patriotic resolutions and resolution for the union to purchase \$10,000 in liberty bonds indicate a change from his accreted attitude of opposition to war and resisting the draft.

Dr. Clarence Poe, editor of the Progressive Farmer, Raleigh, who was considered an opponent to his re-election, was not re-elected as a member of the executive committee, but was made a delegate to the national union. The other officers were re-elected.

National President C. S. Barrett was present and addressed the union at the morning session.

The Farmers' Union convention adjourned this afternoon about 3 o'clock after passing a resolution of thanks for the steps taken by the Congress of the United States authorizing the president to use \$10,000,000 in the purchase of nitrate of soda to be imported for the use of the farmers and to be furnished to them at cost. The executive committee was authorized to appoint a committee to go to Washington to confer with the agricultural department concerning the best method of distributing this soda. National President C. S. Barrett has consented to accompany the committee. The text of the resolution is as follows:

"Whereas, the Nash County Farmers' Union did, at their meeting in August, strongly petition the Congress of the United States to enact a law enabling the agricultural department to import nitrate of soda for distribution to farmers at cost, and

"Whereas, this petition was followed up with much painstaking correspondence with both Congress and the agricultural department, and

"Whereas, Congress did on or about the 10th of August, 1917, enact a law authorizing the president of the United States to use \$10,000,000 of the national funds to purchase soda;

"Therefore, we, the North Carolina Farmers' Union, do resolve that we tender our sincere thanks to the national Congress for its action in this regard and to the Nash county union as well for its intelligent efforts.

"Second, that a memorial be sent to the agricultural department at Washington urging that no stone be left unturned to the end that ships be provided for the landing of this soda in our country before next spring.

Committee to Washington.

"Third, that it is the sense of this body that a committee be appointed, to go to Washington, if the necessity arises, to confer with the agricultural department as to the best manner of carrying out plan of distribution of soda, the chief labor of which has been delegated to Mr. M. R. Wilkinson, now of Washington, D. C., but formerly of Atlanta, Ga.

"Fourth, that a committee be appointed also by this body to help work out a plan of assisting the federal government in the distribution of this material within our own state."

The insurance committee introduced a resolution, which was adopted, recommending the Farmers' Mutual Fire Insurance Company as the most suited to the farmers. Several county unions have already endorsed this company as the one best suited to the needs of their members.

The committee on legislation recommended that the demands made for certain legislation that was not enacted at the last legislature be renewed.

The union voted thanks to the board of trade and to the citizens of the city for the hospitality and courtesy shown during the two days sessions.

School Fire Believed Incendiary. Salisbury, Nov. 17.—The North Main Street graded school building here was burned early this morning, entailing a loss of about \$34,000. There is a suspicion that the building was set on fire by unknown parties. The officers are endeavoring to secure a clue to the guilty parties. The building was new and had been occupied less than a month.

## MORE AMERICAN CASUALTIES

NUMBERS OF OUR BOYS KILLED OR WOUNDED IN RECENT SHELLING ON THE FRONT.

With the American Army in France, Nov. 15.—(By the Associated Press.)—A number of American soldiers have been killed or wounded in the recent shelling of the American trenches by the Germans. One shell which dropped into a trench caused several casualties.

The American artillery fire has been heavy recently and there is good reason to believe that it has accounted for a considerable number of the enemy.

A number of American infantrymen, suffering from shell wounds, arrived today at the base hospital. All the casualties were caused by the same shell.

A group of Americans were in a shack in the reserve when the Germans began shelling heavily. The officers ordered the men to a dugout, but before they could get there a large shell dropped on the position and exploded. The American artillerymen concentrated their fire on the communicating trenches of the enemy and it is believed that their shells caused considerable casualties and damage.

## GAVE HER "MITE" TO THE CAUSE OF LIBERTY.

Durham, Nov. 16.—"Old Lady, 1c paid"—these brief, choppy words are the only official testimony bearing witness to the puniest and yet most bountiful gift in Durham's campaign to raise \$20,000 for the Young Men's Christian Association war fund. The donor, like the widow's mite of Biblical record, is unknown yet the deed is glorified by the generosity of the giver and the conditions of the mite.

She is a toiler in the mills, and but a scant living is the reward of her efforts of ascending hours and unremitting labor. The "Old Lady" lived in the Pearl mill section, in North Durham, and the exhaustive house-to-house canvass of the campaign workers exempted no possibility to obtain war funds. This elderly woman was visited at her unpretentious cottage. Tidy, but scantily provided with furniture, the mill home offered no inducements to the war-fund solicitors to tarry.

But the customary invitation was extended the prospective giver. Mrs. W. K. Boyd, wife of Prof. W. K. Boyd, of Trinity College, tendered the opportunity to the elderly woman to contribute. The toiler amid spindles and looms made the brief but impressive reply, "That she had already given her all—her only son—for services in the war against Germany."

Impressed with the reply as sufficient unto itself the campaign workers turned away—they, too, possibly felt the quickening pulse of patriotism, already so generously bestowed by this woman. The canvassers were departing from the narrowly-restricted yard of this mill cottage when the old woman hurried after them. She inquired, "Will you all take a small contribution?" They answered in the affirmative. The "Old Lady" handed them a penny—it was her mite, her all, and upon the altar of American democracy it weighs heavily in scales of warfare against German autocracy.

## Has Plan to End War.

Washington, Nov. 17.—Soon the war will be over. An Ohio man will end it. He has suggested to United States marine corps officials here that they direct their aviators to drop potato bugs over Germany. He declares there are no potato bugs in the Kaiser's realm, and since the "spud" is absolutely essential to Germany's economic welfare, the dropping of "Murphy destroyers" over the Rhine country would quickly terminate hostilities.

## For Equestrian Statue of Lee.

Baltimore, Nov. 17.—An equestrian statue of Gen. Robert E. Lee in Druid Hill park, this city, is provided for in the will of Mrs. Elizabeth Garrett White, died today. The cost will be between \$25,000 and \$30,000. Washington and Lee University, Lexington, Va., is bequeathed \$10,000; Randolph Macon College, Ashland, Va., \$5,000, and the University of Virginia at Charlottesville, Va., \$5,000.

## CAMP JACKSON HORSES HAD A BIG STAMPEDE.

Columbia, Nov. 17.—Fifteen horses died at Camp Jackson from pneumonia in consequence of exposure from stampeding Tuesday night. The total loss will in all probability never be known as the frightened animals tore through four corrals and checking from the general melee becomes increasingly difficult.

The bursting a water main at the corral and the consequent flourish of a stream of water frightened the horses and started them to weaving and neighing and kicking and a column of the animals "milled" against the fence which was swept aside by the compound weight of horse flesh. With the stockade torn down a thousand horses and a few equally sensitive young mules tore through the camp like an unmounted cavalry charge, lifting their heels to the evening stars and leaving huge clouds of dust in their wake.

Running madly through the cantonment the horses drove off in every direction and some of them were caught ten and twelve miles out in the rural districts. Lawns in Columbia yards were neatly cropped by a stray horse here and there, rustling for provender which the government didn't provide.

Some of the horses struck across the swamp where firm footing could not be established and a considerable number of these will in all probability be lost.

Recently another stampede took place at the stockades when four animals were lost. Three were killed by a train and one fell through tree-tie. There are now approximately 1,000 horses and mules at the remount depot.

## HENRY FORD JOINS THE SHIPPING BOARD STAFF.

Washington, Nov. 16.—Henry Ford joined the staff of the shipping board today to lend his talent for standardization of production, in speeding up the building of a merchant fleet. He was made a special assistant to Charles Piez, vice president of the board's emergency fleet corporation.

Mr. Ford will begin work next week. His particular task will be to introduce into shipbuilding the multiple production methods he has used with such success in producing automobiles. He will give special attention to organizing the manufacture of ship parts.

Already Mr. Ford has begun to turn over to the government the facilities of his plant at Detroit for the manufacture of war materials. His factory is now making 2,500 airplane cylinders, a large number of parts of Liberty motor trucks and soon will be put to making equipment for merchant vessels.

The fleet corporation is undergoing a complete reorganization with widely known business men in charge of its chief departments. They are gradually taking over the work heretofore done by naval officers under Rear Admiral Capps, who, though still serving as general manager of the corporation, is limiting his activities to technical matters.

## PARTY OF AMERICANS FIRED ON BY MEXICANS.

El Paso, Tex., Nov. 17.—A party of Americans, including a number of El Paso city riflemen, was fired upon today by armed Mexicans while hunting on an island in the Rio Grande river near Fabens, Tex., 35 miles southeast of here. Jeff Graves, of El Paso, was shot through both legs.

There were 10 Americans in the party, according to their story. They were hunting on the island when the Mexicans appeared about 10 o'clock this morning. J. H. Harris, an El Paso lawyer, said 40 shots were fired at him. He was not wounded. He said the Mexicans appeared to be soldiers.

Harris said the Americans did not return the fire. They rescued Graves from where he was lying wounded in the water. In the fighting, Jesse Manigold, one of the party, was overpowered and robbed of money and part of his clothing, it was said.

The party managed to make its way to a cavalry camp and the soldiers made a rush for the island and the Mexicans dispersed into Mexico, as they ran. The island is American territory. Graves was brought to Fort Bliss base hospital.

## ITALIANS STIFFENED FRONT

NOWHERE HAVE TEUTONS MADE GAINS OF IMPORTANCE—QUIET ON OTHER FRONTS.

On the Italian front, which is the only theater in the war where intensive fighting is in progress, the Italians daily continue to stiffen their front from the region of Lake Garda to the Adriatic sea. Nowhere have the teutonic allies been able to penetrate their front for new gains of great importance. On the other hand their attacks have met with fierce resistance and ultimate repulse, except in the north where the town of Cismone, on the east bank of the Brenta river, and several hill positions have been taken by the invaders.

All along the Piave a furious artillery action is in progress, and Italian airplanes again have come into the fray and are doing notable work in dropping bombs on the enemy lines.

To the south near the mouth of the Piave, in the region known as the "Holland of Italy," the Italian engineers have opened the dikes against the enemy forces which crossed the stream at Grisolera, who possibly have been trapped by the inrush of the water. The inundation, at all events, will make harder the task of the enemy in bringing up guns with which to shell Venice from the north-east.

The British in Palestine continue to press forward against the Turks. They now have reached a point three miles south of Jaffa and are meeting with only slight resistance. Since the operations began October 31 more than nine thousand Turks have been made prisoners.

A new French cabinet has been formed under the leadership of Georges Clemenceau, one of France's most virile statesmen. Mr. Clemenceau in addition to his post as premier, has assumed the portfolio of minister of war.

The situation in Russia is still clouded by uncertainty owing to interrupted communication with Petrograd, where at last reports the Bolshevik faction was in control and fighting was in progress in the streets.

A belated dispatch to the Associated Press, sent from Petrograd last Wednesday morning, reiterated that the forces of Alexander Kerensky, premier of the provisional Russian government, met with defeat at the hands of the Bolsheviks south of Petrograd while endeavoring to march upon Tsarskoe-Selo and were compelled to retreat back to Gatchina, whence they started for this attack.

A more belated communication dispatched from Petrograd last Tuesday—contained more hopeful news concerning Kiev, where it was said the Cossacks and military cadets had gained control of the city after considerable fighting, during which the leaders of the recalcitrants were arrested. Moscow, however, was partly in the hands of the government troops and partly under the control of Bolsheviks—the government contingents holding the central portion of the city and the Bolsheviks its environs. The casualties in Moscow as the result of street fighting were estimated at from 700 to 2,000.

## Women on Railroad Payroll.

Philadelphia, Pa., Nov. 17.—Approximately three per cent of the entire force of employees of the Pennsylvania railroad lines east of Pittsburgh are women, according to a report of the general manager. All told, there are slightly in excess of 5,000 women on the payroll today as compared with 1,945 June 1.

These women hold positions from train dispatcher to section hand, the list including signal tower operators, station cleaners, draughting station agents, machinists, watchers at dangerous crossings, drawbridge, attendants clerks, stenographers and telegraph and telephone operators.

## War Tax Made an Excuse.

Washington, Nov. 17.—War taxes have been made the excuse of many retailers for price advances far in excess of the taxes and in many cases for making additional charge for articles not subject to tax, according to reports from many localities and reaching the internal revenue bureau. The legal division today was asked to investigate and determine whether the practice can be stopped by legal means.

### NOTICE BY PUBLICATION.

North Carolina, Guilford County. In the Superior Court Before the Clerk, Mrs. T. E. Hocking, administratrix of the estate of Emma Phillips, deceased, and individually, T. E. Hocking, husband of Mrs. T. E. Hocking, Mrs. Bettie Jones, and her husband, O. L. Jones, vs.

Thomas H. Phillips and his wife, Josie Phillips, Wallace H. Phillips and his wife, Edith Phillips.

Mrs. Edith Phillips, one of the defendants above named, will take notice that an action entitled as above has been commenced in the Superior Court of Guilford county, before the clerk, for the purpose of settling lands to create assets to pay debts, and that she is a necessary party to such proceeding. The said defendant will further take notice that she is required to appear before the Honorable M. W. Gant, clerk of the Superior court of Guilford county, at his office in Greensboro on Monday, November 26, 1917, at 10 o'clock a. m., and there to answer or appear to the petition in said action already filed, or the plaintiffs will apply to the court for the relief demanded in said petition.

This October 26, 1917.  
M. W. GANT, Clerk of Court.  
C. C. FRAZIER, Attorney for Plaintiff.

## "Jammed!"

"The second bird got away! The gun wouldn't work!"  
Every sportsman has heard that bitter story—many have had the actual experience.

The difference between good sport and no sport at all, is in the gun. And the feeling of confidence you get from a good gun is half the sport.

In rain or snow, heat or cold, in the salt air of the seashore or the hot winds of the dusty plains, the Winchester repeating shotgun will never fail you.

The Winchester Repeater repeats. Whatever the weather conditions, it is a sure-fire, sure-to-work gun. It will not jam, catch or fail to extract the empty shell.

We have a stock of Winchester we want you to know about. Come in and look them over. Feel the balance of the Model 12 hammerless take-down Winchester. That is the gun that has been classed by critical experts "the perfect repeater".

It is absolutely reliable, strong, light and beautifully balanced. It "feels right", "comes up right", and is right.

It is made in the standard 12, 16 and also in the 20 gauge.

If you prefer a hammer gun, we have the Model 97, practically the same as the Model 12, but with hammer action.

Come in today and just fit these guns to your shoulder.

RUSSIA'S ENORMOUS  
FARMING ACREAGE.

Russia's economic resources are of a richness and variety fully commensurate to her extent. In fact, Russia is a land of great latent opportunities, for lack of capital, bad political and social conditions, and insufficient means of transportation have hitherto notably retarded her economic progress. How far Russia's production lags behind its potentiality is strikingly illustrated by the state of Russian agriculture. Russia is pre-eminently an agricultural country. Seven-eighths of the population of European Russia are engaged in agricultural pursuits of one kind or another, 81 per cent of the people being officially listed as "peasants." The area devoted to cereal crops and stock-raising is enormous. In 1913 the area under cultivation for these purposes alone totalled 368,000,000 acres, divided as follows: Cereal crops, 257,000,000 acres; potatoes, 11,000,000 acres; flax and hemp, 5,500,000 acres; meadows, 96,000,000 acres. The output of this acreage yields imposing totals. In 1913, reckoned in pounds (1 pound 36 pounds) they were: Cereals, 5,636,000,000 pounds; potatoes, 2,191,000,000 pounds; sugar, 106,000,000 pounds; hay, 3,246,000,000 pounds. Besides these major crops, Americans would do well to note that Russia is also a large-scale producer of cotton and tobacco. In 1914 the cotton acreage in Central Asia and the Caucasus was 1,800,000 acres, yielding 1,250,000 500-pound bales, while in 1913 the tobacco acreage was 154,000, yielding 6,500,000 pounds. As might be inferred from the size of the hay crop and the extensive stock-ranges in the steppe-lands of the empire, Russia is also a great producer of live-stock and dairy products. In 1914, Russia possessed 25,000,000 horses, 52,000,000 horned cattle, 72,000,000 sheep and goats and 15,000,000 pigs.

Now at first blush these figures would seem to indicate great agricultural prosperity, especially when we remember that the great "black earth" belt of South-Central Russia is akin to our best prairie soil, while vast areas in Siberia are the counterparts of the wheat lands of the Canadian Northwest. Certainly, even as things stand, Russia is one of the leading agricultural producers of the world. And yet, when we come to examine social conditions, we find such ignorance of modern scientific farming, antiquated methods, lack of capital, and general inefficiency that the Russian peasant is usually poor, overworked and threatened with chronic starvation. That Russia, under these handicaps, can still produce so much, shows what Russian agriculture might accomplish under methods similar to those prevailing in America.—From "Russia: A Bird's-Eye View," by T. Lothrop Stoddard in the American Review of Reviews for November, 1917.

## Do Anything That Means Food.

Plant wheat, prepare for setting an orchard, do anything that means food for yourself or for others. The world is facing a famine. Of course, Sampson county people will not be confronted with famine conditions, but we shall need more food than the county has ever made, and what can be spared will be in greater demand than ever before.—Sampson Democrat.

## Home Raised Packing House Stock.

The Cotton Valley Farm, two miles from Terboro, Edgecombe county, is shipping 400 fine hogs for market and also will ship some prime Aberdeen-Angus beef cattle this winter. This is the farm where the farm firm of Hudderness & Shook are demonstrating "farming efficiency" and exhorting the "pigs, peanut and tobacco" slogan.—Wilmington Star.

## She Is From Missouri.

There can be only one oldest volunteer for war service. At present honor belongs to a woman of Edgecombe, Mo., who was a nurse in the war days, and who is now a married and three years old. She picked eight blocks the other day for a duty that may be assigned to her.

## Fine Potato Yield.

Mr. W. C. Broom, of Jackson township, made 11 1-2 bushels of fall Irish potatoes from a peck and a half of seed. He had some fine potatoes on exhibition here last Tuesday, the largest one weighing two pounds and ten ounces.—Monroe Enquirer.

## Money in Tobacco.

People have the tobacco fever in this section. This soil has proven to be a good tobacco land and people from a distance are asking about the land. One man had two acres in tobacco near here that netted him \$240.—Bennett Correspondence.

EARNED \$1,866 FOR FATHER  
BY GOING TO COLLEGE.

A man who opposed his son's desire to go to an agricultural college says in the November Farm and Fireside:

"I know how it has been in my own family. Jim was ambitious to go to the agricultural college, and I was perfectly willing; but I wanted to try him out, so for a time I pretended to be opposed to it. My idea was to make him earn his way. He did it, too—paying for his board by waiting on table at the mess hall and for his room by taking care of the furnace in the private house where he lived, and doing chores. The result was that his education really cost an average of \$250 a year for four years, or \$1,000 altogether. Let me show you some of the results in dollars and cents:

"A part of our farm land was extremely low, subject to overflow every spring; some of it was under water practically all the year around. I had it drained, and found the investment a good one. But I would never have increased the yield as it has been increased if it had not been for Jim. He took a sample of the soil to college with him one year and tested it. He found it to be lacking in potash. I had been opposed to commercial fertilizers all my life, but Jim was so in earnest about it that I let him take a try.

"That was last year. The year before my corn ran 35 bushels to the acre; it sold for 50 cents, a total of \$17.50 to the acre. Jim applied muriate of potash (I'll admit I had never heard of it until he told me about it and read me a lot out of one of his textbooks) just before the last cultivation of the ground before planting and that year we got 65 bushels of corn off the very fields which had run 35 bushels the year before. Part of that corn we sold last fall for 80 cents a bushel; part of it we carried over until this spring and sold for \$2 a bushel. I guess it would be fair to say that we averaged \$1.25 a bushel. The 30-bushel increase meant \$27.50 an acre. The fertilizer cost us \$6.35 an acre. Here was a clear gain, in one year, of \$31.11 an acre, or \$1,866.60 on the 60 acres."

JUDGE BOYD GIVES  
IT TO THEM STRAIGHT.

An Asheville dispatch of the 14th says that one of the most impressive patriotic addresses ever heard in Asheville was delivered by Judge James E. Boyd, during the course of his charge to the grand jury at the opening of United States District court. Judge Boyd scathingly denounced the Hohenzollerns and all of the German tribe who follow in their footsteps, and paid a splendid tribute to the united America which is now facing the foe.

"We have lived," he said, "to see the day when 'Dixie' and 'The Bonnie Blue Flag' are mingled with 'America' and 'The Star-Spangled Banner' as the national airs of a reunited republic, and when every man stands by his country and his flag—and every man who is not loyal to that flag is an infamously traitor and should be run out of the country."

The judge stated during his remarks that before we entered the war, it was perfectly proper for anyone to have an opinion regarding the advisability of going to war, "but now that we are in it," he declared, "it is every man's duty to stand by the government and by the United States, for we are at war with the most cruel, diabolical, cowardly, inhuman country on the face of the earth, utterly regardless of every emotion or the existence of feeling, and willing to resort to any inhuman means to dominate the world and control its commerce."

## He Sho' Would Do His Best.

Springfield, Mo., Nov. 17.—Morris Sharpe, a negro recruit of the national army, today was under sentence to "slay a thousand Germans." He was brought before City Judge O. H. Travers on a charge of fighting and testified that he was under orders to report to Camp Funston. When sentence was passed Sharpe grinned widely and promised "I sho' will do my best, judge."

## Two of Tallest Men.

Dunn, Nov. 13.—This town offers a challenge to the state for two of the tallest men. Mr. R. G. Taylor has two young men clerks, that measure six feet seven and six feet four in their socks. They are Mr. J. A. Poole and Mr. Jesse Hargrove. They both work in the dry goods store, and can easily step over the counters.

GOV. BICKETT PARDONS  
SEVEN, REFUSES TWO.

Raleigh, Nov. 16.—Governor Bickett declined two and gave seven pardons today, one of the luckless ones being a citizen of Burke county which is not now distinguishing itself in making Burke unsafe for blockaders and retailers.

J. Gorman Garrison was sentenced to eight months on the Guilford road; from Burke. Declining the appeal for clemency, Governor Bickett declares "there has been a decided unwillingness on the part of a number of people to obey the prohibition laws of the state. The officers have great trouble in suppressing the liquor traffic, and I want it thoroughly understood that when a jury of Burke county convicts a man for selling whiskey there will be no executive interference with the judgment of the court unless the petition is signed by both judge who tried the case, the solicitor who prosecuted it, and the members of the jury."

Samuel Rector, of Buncombe, likewise fails of release from a sentence of five years on the county roads of Buncombe for larceny. The judge, the solicitor and the loser of the stolen property decline to ask clemency and the governor thinks the record is all right.

## Variety in Canned Stuff.

The display of canned goods by Mrs. Joe Regan, who lives on Route 1 from Lumberton, was astonishing. She had 72 different varieties of canned stuff selected from 500 cans put up by herself. Especially noticeable were corn on the cob, sliced squash, whole okra, apples stuffed with raisins, potatoes, apples cut in squares, English peas—but one would have to go through the whole list. No wonder she got a lot of prizes.—Lumberton Robesonian.

## THEY WILL MAKE MONEY WORK

The farm loan bank of Houston, Texas, reports that farmers have received such large amounts for their crops this year that they have been able to pay off their indebtedness from the proceeds and therefore have not had to take advantage of the opportunity to borrow money from the farm loan banks.

This is one of the most striking indications of the prosperity which the farmers are enjoying under war prices. Still there will be a great field for the farm loan banks. It has been only the farmer here and there in the past who has had the advantage of capital at a reasonable cost. Now is the time for more farmers to get money under the comparatively easy terms provided by the farm loan banks.

There never was such a call for agricultural products. That the demand will continue is certain. A great number of farmers should in the next few years place themselves in comfortable circumstances, but to do this they will have to take advantage of the opportunities to borrow money for the purchase of homes and machinery.

Capital for the farmer is now available as it is for the manufacturer. It is a safe prediction that he will make money work for the feeding of the nation.

## MEETING NATIONAL LEAGUE.

Messrs. W. C. Boren, A. M. Seales, C. H. Ireland and J. H. Wadler have been appointed by Governor Bickett as delegates to represent Guilford county at the convention of the National Anti-Saloon League of America to be held in Washington city, on December 10 to 13, inclusive.

Quite an array of prominent speakers will be present and address the convention, among them from North Carolina being Hon. Josephus Daniels, secretary of the navy, ex-Gov. R. B. Glenn, Congressman Edwin Yates Webb and others. A very large delegation from all over the country is expected to attend.

A \$50 Liberty Bond has been offered by Mr. J. B. Ivey, of Charlotte, as a prize to the person who submits to him by December 1 the best article on food conservation. The article is limited to one fool's cap page of typewritten matter, the length and date being the only restrictions. The state food administration has brought Mr. Ivey's offer to the attention of all county food administrators and has urged upon them its possibilities as a means of stimulating interest in food conservation.

By furnishing plenty of meat and fat to the allies the great American hog can fight quite as formidable as his wild-boar ancestor.

The allies should be thankful that Americans eat turkey for their Thanksgiving-day feast instead of pork.

## MAKES \$3,000 A YEAR FROM 75-ACRE FARM.

Mr. W. H. Thorp has this to say in last week's Progressive Farmer: My experience shows the possibilities of a small farm properly managed, and an economical way of increasing soil efficiency. I have 75 acres, 60 of which are under cultivation. Every foot is fertile and tillable, and everything is made to count. The farm is divided into three fields: Field A, 30 acres; field B, 20 acres; field C, 10 acres.

I follow a carefully planned system of rotations, and find that this, with the manure from my livestock, keeps the soil up to a high state of fertility. The rotation is as follows: First year, field A, wheat, followed with clover, peas, etc. Field B, corn 15 acres, oats 5 acres. Field C, cotton. Second year, field A, corn, 20 acres, cotton, 10 acres, both followed with rye, vetch, etc. in the fall. Field B, wheat. Field C, oats. Third year, field A, wheat followed with legume crops. Field B, corn 10 acres, cotton 10 acres. Field C, clover. With this schedule the areas of the different crops very slightly, and the varying conditions of feed are met by varying the number of livestock retained and fattened on the farm, and balancing, as far as possible, the feeds given. With the exception of cottonseed hulls and meal, I never find it necessary to purchase feed of any kind.

Following are some average yearly yields of crops and production of livestock for sale: Wheat, 30 bushels an acre; corn, 40 to 60; oats, 60 to 85; cotton a bale an acre; hay sufficient for own use; potatoes, 200 bushels an acre; livestock sold, 20 hogs, three two-year-old mules; three cows with first calves; 300 dozen eggs; 1,000 pounds butter; 200 to 300 bushels potatoes, both Irish and sweet; fruit and vegetables in varying quantities, besides sufficient for home use, both fresh and canned. My yearly income from the 75 acres is better than \$3,000, and I do practically all the work myself, do not work over time, am never rushed, and can always find time for rest and recreation. I attribute my success to maximum soil efficiency as a result of proper handling. In any case, semi-intensive farming has paid handsomely.

## The December American Magazine.

Dr. Frank Crane, the famous editorial writer, has written for the December American Magazine an article called "If I Were Twenty-One the Things I Would Do." Every young man in America should read it. Holworthy Hall begins a series of short stories with "Straight From Headquarters." "Getting Next to People" will help you to do so. "The Boy That Helped Me Most" is full of good things; and "Russet and Gold," a love story by William Dudley Pelley will hold you from first to last.

Louis K. Lizgett, the famous drug-store man, has written an article filled with good suggestions for business men; Marguerite Clark tells about her experience on the stage and in the movies; and "Detroit" is the second city to be dealt with in "The Flavor of the Cities." H. C. Witwer has a funny story in this number, and with the other articles and stories, an excellent number is completed.

## The Prune Club.

"A certain woman of my acquaintance always reminds me of a railroad," said the young man with the red tie coming to the boarding house breakfast table.

"On account of her curves," I suppose?" suggested the thin boarder.

"No, no," came from the first speaker.

"Because her trains are always behind," mentioned the blonde typewriter.

"Nixy," came from behind the red tie.

"You can't mean because she has so many switches?" chuckled the old maid boarder.

"No! listen. Because whenever I meet her in the street it seems to suggest 'Stop. Look. Listen!'"—Exchange.

## Not Short on These.

North Carolina may be short on open air schools, as announced by the state board of health, but it cannot be said to be short on hot air schools.—Raleigh News and Observer.

## Felt Clean.

"Bobbie, your face wants washing. Did you look at it in the glass this morning?"

"No, mother, but it seemed all right when I felt it."

## Being Driven Around.

## M. P. CONFERENCE AT MEBANE THIS WEEK.

The 92nd annual session of the North Carolina Conference of the Methodist Protestant church will meet at Mebane Wednesday morning at 10 o'clock. Rev. W. F. Kennett is pastor of the Mebane church.

Two items that are always important are the election of a president and the assignments to the various charges. Rev. G. W. Holmes, of Graham, has been president for two years and it is likely that his friends will present his name for re-election and it is also likely that the friends of Rev. R. M. Andrews, of Greensboro, and Rev. C. A. Cecil, of High Point, will present these men. In regard to the appointments the conference does not have a time limit, however, each man must be re-assigned each year. The conference embraces all the territory in the state and is made up of one minister and one lay delegate from each of the 60 pastoral charges.

There are about 23,000 communicants in the state. The conference sermon Wednesday morning will be preached by Rev. J. H. Norton, of Faison, and the ordination sermon the following Sunday will be preached by Rev. W. M. Pike, of Liberty.

While no statistics are available at present, good reports have been made to the church paper during the year and it is supposed that there will be a considerable gain made both in numbers and in finances.

## EXPRESS COMPANIES WILL HELP WITH GIFT BOXES.

The Southern Express Company and other express companies of the United States, have reached an agreement for the re-routing and forwarding of all express and mail matter intended for Christmas presents to the American Expeditionary Force at Hoboken, N. J. These articles will be sent there in care of "Commanding General, Hoboken, N. J."

Boxes must be fully, correctly and legibly addressed and marked conspicuously as "Christmas Box." To address of the consignee, with his company and regimental design (if possible) written plainly, and must be written on the reference to the commanding general. The name and address of the sender should appear in the upper left corner of the address space. The contents of the box should be declared as "books, clothing, tobacco." The government undertakes to transport the boxes from New York free of charge.

Personal articles should not be sent. "Merry Christmas" or similar inscription may be written on the box. All shipments by express must be packed in wooden boxes.

to 20 pounds in weight, measure not more than two cubic feet in volume, well strapped and with hinged or sawed top to facilitate opening for other than those enclosed in cans or glass jars should be packed in any such shipments.

December 5 is the last day for shipments in time for the holidays.

## Pains, Dizzy Spells

Mrs. G. P. Cartwright, of Whitwell, Tenn., writes: "I suffered with bearing-down pains. . . The dizzy spells got so bad that when I would start to walk, I would just pretty nearly fall. Was very much run-down. I told my husband I thought Cardui would help me. . . He got me a bottle. . . It helped me so much that he got me another bottle. I got a whole lot better. The dizzy spells and the bearing-down pains . . . left me entirely."

### Saved by a Jolt.

This story comes from the Canadian front in France, and is vouched for by a star officer:

"An officer out from the trenches was enjoying a hot bath in the divisional bath room when a big shell burst against the wall. Knowing the enemy's habit of following it up with another shell in the same place a few seconds after the first, he grabbed his clothes and, without waiting to put all of them on, rushed out and jumped on a passing cart.

"A few yards from the bath his clothes were jolted off the cart. He slid off to recover them, and before the cart was 20 feet from him a shell made a direct hit on it and driver and horse and cart disappeared, blown to pieces."—Toledo Times.

## THE PATRIOT'S BUSY FRIENDS

Attention is called to the notice of summons by publication in the case of Madison Palmer vs. Ledona Palmer in another column today.

—Mr. George W. Fulp has qualified as administrator of the late Laura Cassand, notice of which will be found in another column today.

—Mr. B. S. Coletrane, of Jamestown, has qualified as administrator of J. R. Coltrane, notice of which will be found in another column today.

—When you want some real nice and substantial jewelry for a wedding or birthday present drop in at Schiffman's Jewelry Store and you will have no trouble in finding just what you want. Mr. Schiffman carries one of the largest and best stocks of jewelry in the state, and guarantees every article to be as represented. See ad. in another column.

—The best way to make your fortune care after you and make it perform your cherished wishes is to place it in trust with the Greensboro Loan and Trust Company. Many men labor hard all their lives to accumulate a fortune to have it dissipated after they are gone through mismanagement, ignorance or extravagance. If you haven't already done so, make your will at once, appointing the Greensboro Loan and Trust Company your trustee and executor, and your every wish will be carried out to the letter. See ad. on the fifth page.

—Jammed! The second bird got away! The gun wouldn't work! Every sportsman has heard that little story—many have had the actual experience. But those who use a Winchester from Odell's never have a complaint to make, for the Winchester is safe and sure and can always be counted on in emergencies. In rain or snow, heat or cold, in the salt air of the seashore to the hot winds of the dusty plains, the Winchester repeating shot gun will never fail you. At the Odell Hardware Company's gun department you will find any model desired. Drop in and let Walter Smith or Lou Hartsock tell one of these guns to your shoulder. See ad. on the second page today.

—Tobacco is as high now as it has been this season, and there is no indication that it will go higher the remainder of the season, and Messrs. King, Aydelette & Lambeth, of the Center Brick warehouse, can make you as good an average for the same grades of tobacco as you have ever made. They had an excellent sale Friday, in fact one of the best during the season. The farmers all returned home well satisfied and not a single one had a kick at the prices and accommodations accorded them at the Center Brick. The season is now drawing to a close, so be wise and sell what you have left as soon as you can get it to town. See their list of averages made during the past few days in another column.

—Owing to the unsettled condition of the market our merchants are not buying in as large quantities as formerly. No merchant can afford to carry goods, particularly shoes, over from one season to another without taking great chances of loss. Hence Messrs. Thacker & Brockmann are advising their friends throughout the county to buy what shoes they need this winter at once, while stocks are full and prices as low as they will be until after the war. They give notice in our advertising columns that they will not buy any more work shoes this winter. If you are wise you will heed this good advice and buy now. Their lines of men's, women's and boys' shoes are now complete, and the prices are very reasonable, quality considered.

—Thursday morning, beginning at 12 o'clock, Col. R. L. England will sell the household goods of the late Mrs. East, Mr. Moore and Mr. Howard at public auction in front of the court house door. These goods are all of the best, and consists of all kinds of household and kitchen furniture, including some fine silver and glassware. This will be one of the largest sales of goods of this character ever held in Greensboro, and if you are seeking bargains here's your opportunity to get them, as every article must be sold at some price. At the same time and place Col. England will sell several good horses, wagons and buggies. You could not invest some of your tobacco money to better advantage than by patronizing this sale. See large ad. on the third page for particulars.

—The indications at this writing are for rain pretty soon and there is no better time to set out frost proof cabbage plants than right now. The Scott Seed Company are pulling some mighty fine home grown plants these mornings and you can get all you need at 25 cents per hundred, or \$2 per thousand. They are pulled immediately after your order is received and shipped at once, insuring them being fresh and fine. They are also cutting some mighty fine cheese these days and can give you a good price on it in five or ten pound "chunks." Stop in and get some—it will keep a long time this cool weather. Messrs. McLean and Scott believe that the best is none too good for their friends, hence they handle only the best goods. See their new ad. in another part of today's Patriot.

## MR. HAROLD SCHIFFMAN OPENS OFFICE HERE.

Mr. Harold A. Schiffman, a graduate of Columbia University in optometry, has opened attractive and well equipped offices in the Schiffman building on South Elm street, and will begin the practice of his profession in this city.

Mr. Schiffman is a Greensboro boy, a son of Mr. and Mrs. S. Schiffman, and one of the many splendid products of the Greensboro high school. From the high school he went to the State University and from there to Columbia for a special two years' course in optometry. At Columbia as nearer home, he was popular, receiving the high honor of election as president of his class and graduated with first honors. Just after completing the extensive Columbia course he came to North Carolina and received his state license after examination before the board. He returned then to New York and passed the board of examiners with high honors, despite the fact that the New York examination is very severe and it is unusual for even a college graduate to pass on the first attempt.

Mr. Schiffman also remained in New York for a time under the eye of experts of that city, practicing actively under their direction. He returns to his home city well equipped for his work and his many friends here predict for him a brilliant success in his chosen work.

### Nothing Wrong With Corn Meal.

The Cleveland Star says that "Abraham Lincoln ate cornbread and grew to greatness on it," and suggests that people in humbler walks of life do likewise as a war measure. Henderson county corn meal was introduced to national fame when Congressman Grant, our fellow townsman, was in Congress, and there's not a thing wrong with eating this wholesome grain.—Hendersonville Hustler.

Anyway the shortage of sugar will teach some folks how a good many things taste without it.

## PRISONERS WITNESS MOVIES

GOOD PICTURES THOROUGHLY CHARM WHITE AND BLACK INMATES AT STATE PRISON.

Governor Bickett sat with more than a hundred prisoners in the little chapel of the state prison. Thursday night, says the Raleigh News and Observer, when the prison administration put on the first of its series of Wednesday night movie shows for the convicts. "The Tar Heel Warrior" was the feature film, bringing guffaws of delight from the negroes and rapt attention from the whites. The story was thrilling from the beginning, and aside from that, presented, through the impressions it evidently made upon the black spectators, interesting studies in negro psychology.

The chapel was well-filled for the event and the prisoners were expectant. A number of guests were present to witness the first demonstration of an innovation that promises to brighten and cheer lives locked up behind prison walls. Governor and Mrs. Bickett, the governor's private secretary, Mr. Stanford Martin and Mrs. Martin, prison officials, their wives and a few others sat grouped at the rear of the hall around the movie machine, safely enclosed in a metal compartment. Governor Bickett was delighted at the exhibition and said so, a verdict of pleasure passed by the other spectators including the hundred and twenty odd prisoners.

The prisoners were all there, save the few who are confined in the hospital or the ward for the dangerously insane. The seventy odd negroes sat on one side and the half hundred whites on the other, with the women in front. Many in the lot had never seen a movie before, many had seen one only in months past. The silent acceptance of the treat from the white prisoners was efficient compliment to the humanity of the things.

Before the program started the prisoners sang religious songs such as "Draw Me Nearer," and "Almost Persuaded." But not until the leader started up "Old Time Religion" did the blacks really get into the swing. Governor Bickett grinned broadly as the negroes rocked back and forth in the harmony of the song that is truly their own.

There were all sorts of prisoners in the hall for varying crimes and for varying terms: life termers, men and women, those who have been taken from the electric chair by the staying hand of the governor to spend the remainder of their natural lives behind prison walls. Mrs. Ida Bell Warren, committed from death sentence to life imprisonment by Governor Craig, and now becomes a leader among the women of the prison as well as young Sallie Bryson, Jackson county girl, serving a term for the murder of her mother, and who has recently given a statement exonerating her father, convicted with her. There was old "Aunt Nancy," too, a prison figure for years, sitting with arms folded and little eyes blinking at the guests as they filed out. Johnnie Teacher, Raleigh boy, sentenced for house-breaking, operated the movie machine.

## EX-GOV. CRAIG IS NOT EXPECTED TO LIVE

Asheville, Nov. 16.—While those close to former Governor Craig have made no statement to the press save that made yesterday the impression persists that the patient is very ill. The probability of issuing official bulletins was under consideration today. Mrs. Craig was inclined to parry this course, but others thought it would be just as well to wait further developments in the efforts being made by the physicians to bring relief to the patient. Senator Lee S. Overman, who was here today, agreed with those who took this view.

Mr. Long and Collector Watts came from Statesville to see Mr. Craig. Eustice Arthur Craig was in the hospital today but reported to his ship today but remained here on account of his father's condition. George Craig, who is at Fort Oglethorpe, is expected here tomorrow.

## For the Boys in France.

More than a hundred hearts were made glad in the ranks of the most deserving of our American citizens, the boys in khaki, when recently Mr. W. E. Jeffries declared to a local warehousemen, "Sell that 68 pound pile in the name of the boys in France tobacco fund." This 68 pound pile really gave the local fund a great big help in the right direction for that made it a target for all the buyers and the warehouseman handled it without cost and today the treasurer of the fund—Mr. R. L. Huffman—has a check for \$30.64 for that pile sold for 45 cents a pound. —Rocky Mount Telegram.

## FIVE OR MORE PERISH IN FIRE AT ASHEVILLE.

Asheville, Nov. 16.—Five known dead, with a possibility that the number will be increased to eight is the toll claimed by flames which today destroyed the Catholic Hill negro school house 20 minutes after the children had been put through the fire drill.

Three of the bodies have been identified, and two more at the morgue cannot be identified as yet, but five more children are missing, and it is practically certain that the bodies are those of two of the missing children. The firemen have not been able to search the ruins thoroughly yet and it is feared that all five of the missing children are dead, which brings the death-list to eight.

In addition to the list of dead, there are seven children in the hospitals suffering from injuries, one of whom, Helen Davis, may die.

The fire was discovered about 20 minutes before noon, and seems to have made considerable headway before the alarm was turned in. The school was situated on a high hill, making access by the fire truck difficult, but the department was quickly on the job, battling against what, from the first, was a hopeless task.

The teachers, it is stated, tried to make the children form for fire drill, but the little negroes, excited, refused to obey orders. One teacher locked the door, but the children broke it down and escaped. Two firemen were slightly injured in the battle against the flames. As soon as the flames were under control, search for the missing began. Four little bodies were found huddled together in the furnace room, having evidently instinctively drawn together for protection when the fire broke out.

In justice to the Asheville department it must be stated the fire had burned 19 minutes before the alarm was turned in. That a greater toll of life was not taken was due to the fact that the children on the first and second floors were led out of the building by their teachers. The children on the third floor, however, became panic-stricken and "broke" in all directions, according to testimony given at the municipal inquiry held tonight.

## Passport Required.

Douglas, Ariz., Nov. 17.—Ives G. Levelev, local Mexican consul, announced here tonight that on and after November 15 all persons entering Mexico from the United States must present passports before they will be permitted to cross the international boundary line. Mr. Levelev said the arrangement was due to a mutual agreement between the two countries.

## NINETY-THIRD BIRTHDAY POLLY ISELEY PATTERSON.

Burlington, Nov. 16.—There was a noted gathering at the old homestead of the late William A. Patterson, eight or 10 miles southwest of Burlington, today, it being the 93rd birthday of his widow, Mrs. Polly Iseley Patterson. The religious exercises were under the management of Dr. Daniel Albright Long, assisted by Revs. H. W. Jeffcoat, R. S. Troxler and J. A. Burgess. Many neighbors and friends joined the children, grandchildren and great-grandchildren in making the occasion one long to be remembered. Mrs. Patterson has two living sisters, Barbara Iseley and Margaret Iseley Bryant. Her three brothers, Austin, Leonard and George, died some years ago. Her father was Christian Iseley and her mother Nancy Whitesell Iseley. Her grandfather was Malachi Iseley and her grandmother Kitty Heart Iseley. Her great-grandfather was also named Malachi, and his wife was named Magdalene. They both came from Germany long before the Revolutionary war.

The long table was loaded with about every kind of food to be found in North Carolina. A jollier, happier congregation seldom assembled in Alamance county.

## Dodged Doctor For Years.

Thomas Street, of Spokane, Wash., is 98 years old and his only call on the services of a doctor was a couple of years ago, when he fell out of an apple tree and broke a leg.

Mr. Street is hale and hearty. Practically his entire life has been spent on the farm. He was born in England and came to America in 1854.

"Certainly I expect to live to be 100. Why shouldn't I? I never felt better in my life," says Mr. Street.

The fall which brought his first experience with the doctor was the result of climbing a tree to put up a bird house for some of the children in the neighborhood. He stepped on a dead limb. Then came the doctor. His fractured bone is now as good as new, according to his own word. —Spokane Chronicle.

## SPECIAL FALL SUBSCRIPTION OFFER!

From Now Until Dec. 1st

THE PATRIOT will accept new subscriptions at the rate of \$1.00 a year, cash in advance. No subscription for less than a year taken at this price, and no clubbing offer made on this basis.

This offer is to be open until Dec. 1st in order to add new names to our list. The regular price of THE PATRIOT remains at \$1.50 a year, which will prevail at the end of this offer.

We believe this plan will appeal to the people, and that they will take advantage of this offer, which is merely giving to the people what an agent would get if the subscription was taken by him. Come in or send the \$1 by mail and get this commission yourself.

This is a great offer: The Patriot 52 weeks, twice each week, 104 numbers, for \$1.

## TO OLD SUBSCRIBERS:

Present subscribers may have the advantage of the above offer before Dec. 1st, provided they pay all arrearages and for at least one year in advance also. Present subscribers whose subscriptions expire between now and Dec. 1st, or at any future time, may have their subscriptions extended for one year from present expiration by paying \$1.

## SEND THE PATRIOT TO SOLDIER BOYS.

Until Dec. 1st we will accept subscriptions at \$1.00 for The Patriot to be sent one year to any soldier in the United States Army. It will be to them like a letter from home. No better way to please them.

## REMEMBER:

This offer ends Dec. 1st. It applies to new subscribers, and old subscribers who pay any arrearages and one year additional in advance. Use this form and send in the \$1.00 and your name before you forget it:

## NOTICE OF DISSOLUTION.

State of North Carolina, Department of State. To All to Whom These Presents May Come—Greeting:

Whereas, it appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Carolina Motor Equipment Company, a corporation of this state, whose principal office is situated in the city of Greensboro, county of Guilford, state of North Carolina, (John R. Ingram being the agent therein and in charge thereof, upon whom process may be served), has complied

with the requirements of Chapter 21, Revision of 1905, entitled "Corporation Act," preliminary to the issuing of the certificate of dissolution. Now, therefore, I, J. Bryan Grimes, secretary of state of the state of North Carolina, do hereby certify that the said corporation did on the 20th day of October, 1917, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law. In testimony whereof, I have hereunto set my hand and affixed my official seal at Raleigh, this 20th day of October, A. D. 1917. J. BRYAN GRIMES, Secretary of State. 995-101.

## Must Pay Meter Rate.

The city commissioners won the Supreme court decision in a case brought against them by H. Smith Richardson, who sought to compel the city to furnish his residence with water at the flat rate instead of meter rate, which he had asked for.

## Banner Farm Sold.

The J. G. Hanner farm on the Greensboro-High Point highway, just beyond the fair grounds, was sold Thursday at an auction conducted by the American Land Company. The forty acres brought about \$20,000. The sale was considered a success in every way.

## Back on a Visit.

Hugh W. Smith, a native of this city, but who has been living for the past 15 years in San Francisco, Cal., where he holds a position as immigration inspector, is here on a visit to his sister, Mrs. C. O. Forbis, and his brothers, Prof. W. C. Smith, Irving Smith and Fuller Smith.

## Meeting Well Attended.

The meeting of merchants' association secretaries here Thursday was well attended and it is believed that the organization will be productive of much good. At the banquet Thursday night H. E. Cartland presided as toastmaster and several short speeches were made.

## Will Try Again Soon.

It is said that those who favor a bond issue for Greensboro township for better school buildings have not given up because of defeat of the proposal at the polls last Saturday a week ago, but within the next few months a petition will be presented asking for another election.

## Attend Farmers' Union.

Several Guilford farmers attended the state meeting of the Farmers' Union in Winston-Salem last week. G. T. Weatherly was re-elected on the executive committee. J. C. Kennet offered the motion to invest \$10,000 of the union funds in liberty bonds. Both are of Pentrich township.

## Two New Ordinances.

The city commissioners Friday passed two new ordinances. One takes \$10 off the annual license fee of the dealer who wants to sell oysters but not to deal in fish. Hereafter the license has cost \$25 for fish and oysters, hereafter for oysters alone it will be \$15. The other ordinance provided that the commissioner of public safety must supply a number plate to each licensed automobile driver, and the plate must be nailed on the front of the car.

## Attend Dealers Conference.

R. E. Steele and John R. Foster spent Thursday in Raleigh, attending the meeting of the state food administration and wholesale dealers. Mr. Steele was appointed on a committee of eight to assist Food Administrator Henry Page, of Aberdeen, in the regulation of food in the state.

## Religious Census Taken.

More than 500 men and women, representing Sunday schools of the city yesterday took a complete religious census of Greensboro. Colored people co-operated and a census of each race was taken by members of the race. The information will be available to all churches of the city.

## Spencer-House.

Miss Mary Alice Spencer, the pretty daughter of J. F. Spencer, of Randolph county, and A. Cicero House, of Greensboro, were married here Thursday afternoon at 5 o'clock. The ceremony was in the home of Rev. W. R. White, pastor of Asheboro Street Baptist church, the officiating minister.

## Sugar Supply Coming.

Wholesalers of the city say that they have enough sugar in transit to relieve the shortage now existing in the city. A number of the wholesale houses have orders en route which have been on the way since the middle of October, but are now held up because of congested conditions on the railways.

## For Armenian and Syrian Relief.

The collections offered by the congregation of the Friends' church, at Center on Sunday, November 11, for the Armenian and Syrian relief fund amounted to \$10.65, which has been forwarded to the treasurer of said fund at Madison avenue, New York city, by Roxie D. White, custodian of offerings, of Guilford College.

## Burial of Mrs. Casand.

The body of Mrs. Laura Ann Casand, who was found dead in bed at her home five miles north of the city, Wednesday morning, was buried Thursday afternoon at 3 o'clock at Hopewell church, services being conducted by Rev. Albert Peele. Mrs. Casand was 70 years of age. It is thought that her death was from natural causes.

## Fire Truck Purchased.

A white automobile pumper was purchased Saturday by the city for the West End fire company in the Greensboro department, this putting the entire department on a motor basis. The pumper, 72-horsepower with a guaranteed capacity of 500 gallons a minute, is to cost the city about \$7,500, being \$7,250 and the 2 per cent war tax.

## Double Marriage Saturday.

Justice of the Peace B. E. Jones officiated at a double marriage, solemnized Saturday in the register of deeds' office at the court house, when Miss Minnie Martin and Travis Sharon and Miss Lottie Sharon and Wright Roberts were united in marriage. All of the newly-weds live near Madison, and two of them, Mrs. Roberts and Mr. Sharon, are cousins.

## Work of Exemption Board.

Don H. Must, son of a widowed mother; Charles Lee, negro, and Thomas R. Ward, married, were discharged Thursday by the Greensboro local board. Alfred A. Williams, who was drafted and didn't claim discharge, was certified for the army. George Henry Martin, negro, and Emmett Richardson were denied discharge. Ransom L. Parker was also denied it. He was married in June.

## Patriotic Exercises Held.

Patriotic music and speeches featured the flag-raising and the observance of arbor day at South Buffalo school Friday. The principal speaker on the program as arranged for the day was Aubrey L. Brooks. The Juniors of Greensboro presented the beautiful flag which was presented to the school with the usual exercises. The planting of trees for the beautification of the campus was in charge of the Woman's Club of Greensboro. The building has been finished a short time only and the patrons and teachers feel a great pride in it. The exercises Friday, in which the school children participated, gave the public an opportunity to inspect the building, which is one of the best designed and constructed in the state. It is located a short distance south of Greensboro on the Asheboro street extension.

## Rabbi Cohen Resigns.

Rabbi Simon Cohen has tendered his resignation as rabbi of the Jewish synagogue on East Lee street, and he expects to leave Greensboro about December 1 for Providence, R. I., to engage in similar work in a large synagogue in that city. Rabbi Cohen has been in charge of the Jewish synagogue here for the past 15 months and during that time he and Mrs. Cohen have won a large number of friends.

## Mrs. Miller's Sudden Death.

Mrs. Sarah Jane Miller, of Jefferson City, Tenn., died suddenly yesterday morning at 7:45 o'clock at the home of her son, C. E. Miller, 507 Park avenue, where she had been visiting for the past three weeks. Mrs. Miller, who was 61 years old, was apparently in good health until a few minutes before the time of her death. It is thought that she died from heart trouble. The body was carried to Jefferson City.

## Dr. Dees Back in City.

Dr. Ralph E. Dees, who enlisted for service in the reserve officers medical corps and was ordered to Fort Oglethorpe, Ga., five and a half months ago, has returned to Greensboro and resumed his practice. After serving at the training camp at Fort Oglethorpe for nearly half a year Dr. Dees made application to be placed in detached service and his application was granted, though he is subject to recall into active service should his services be needed.

## Loses His Case.

W. H. Bennett, a prominent farmer and merchant of Greene township, was plaintiff in a suit against the A. & Y. Railway tried in Superior court last week. He was suing for damages because a train ran into his automobile and injured him, when the automobile stalled on a crossing near Julian. The jury decided that Mr. Bennett was not entitled to damages. It was really a bad accident, but the jury could not find that the railroad company was negligent. Mr. Bennett's frank statement of the case was favorably commented upon.

## Automobile Burned.

The five-passenger Maxwell automobile owned by J. T. Platt was burned Saturday afternoon when Mr. Platt and Council Wyrick were returning from Stokesdale, where they spent the day on business. When the car was two miles on the Greensboro side of Stokesdale Mr. Platt noticed flames entering the car from under the windshield. Water, mud and sand were used in an effort to put out the fire but it had gained such headway that it was impossible to extinguish them. The car was in such condition that it could not be brought to Greensboro.

## Hilton-Gordon Case.

J. C. Hilton can continue to drink water from the spring which he has used for a long time. Judge Harding in Superior court decreed it so Saturday. The case of Hilton vs. Gordon has been in the courts for some time, the litigation over title to a parcel of ground near both of them, 10 miles north of Greensboro. Neither lives on the land in dispute, but Mr. Hilton has been using water out of a spring located on it. The receiver of the property, Mr. Grant, had said that he must cease this until the case was settled, but the court ruled otherwise on a motion in the matter Saturday.

## Death of J. T. Wooters.

Following an illness of a month, John T. Wooters died Sunday morning at his home on Asheboro street. For several days he had been unconscious. The funeral was conducted this morning at the home by Rev. C. E. Hodgkin. Interment was in Greene Hill cemetery. He is survived by Mrs. Wooters and five children, Mrs. H. Floyd Coble, Mrs. L. E. Smith, of Greensboro; Mrs. G. P. Phillips, of Carthage; J. K. Wooters, Winston and E. M. Wooters of Salisbury. Four sisters and two brothers also survive. He was in the Civil war in company A, 53 N. C. regiment, which Col. J. T. Morehead commanded.

## Fined For Perjury.

Final judgment was entered Thursday in the cases against Janie Dick, Lillie Dick and Nina Dick, negro women who were convicted of perjury when tried in police court Wednesday morning. Janie Dick, who is the mother of the other women, was fined \$55, Lillie Dick was fined \$25 and Nina Dick was fined \$15. The sentence of four months in the workhouse, which had been imposed on Janie Dick for having whiskey for sale, was suspended on condition that she pay the costs in the case and report to show good behavior every 90 days for a year. The case grew out of the arrest of Janie Dick for having whiskey for sale.

## We are Holding Prices Down

Furniture like all other merchandise has advanced over last years prices. To say that our prices are as low as they were last year would not be true. But we do claim that our prices today are as low as those usually quoted last year by the average furniture house.

## We Do This By Cutting the Cost of Doing Business

By doing a strictly cash business we have no bookkeepers to pay.

We have no collectors to pay.

We have no lost accounts to add to business cost.

We can turn our money at least three times as fast as we could were we doing a credit business.

Mr. Farmer, hundreds have found that we sell for less and if you are not a customer of this store a look through our lines will make you one.
