THE EXPECTED GERMAN DRIVE BEGAN MONDAY

THE ENEMY BROKE IN RETREAT UNDER STRONG AMERICAN COUNTER ATTACK.

With the American Army on the Marne, July 15.—A strong American counter-attack south of the river bend completely upset the Germans, who broke in retreat. The American troops drove the enemy back all the way to the railway skirting the Marne in the region southwest of Jaulgonne. This position now is being held.

In the counter attack many prisoners were taken. They included a major, two captains and 400 men, so far counted.

The French general commanding the group of armies on this sector sent a congratulatory message this afternoon to the American general commanding the forces which beat back the enemy.

At 5 o'clock this evening the Germans were heavily shelling the American forces, but were getting shell for shell in return, and their fire seemed to be diminishing. The Vaux district is comparatively calm now.

On the American right heavy fighting is in progress. American machine gunners along the river assisted materially in breaking up the early boche plans, for they stuck to their posts and poured deadly streams of bullets into the enemy and only withdrew when their guns were so hot they could not be fired. One group of machine gunners happened to be in a place where the Germans were anxious to erect a bridge, but their efforts were fruitless. The American bullets piled up the German dead on the opposite side of the river every time the enemy started to cross.

South of Jaulgonne the enemy crossed the Marne this morning on six pontoon bridges hurriedly thrown over the stream and masses of infantry swarmed forward. The artillery constantly had the bridges under the heaviest fire and at least two direct hits were made, two of the bridges being blown up.

After sharp artillery work, German troops advanced behind a great smoke cloud, which completely obscured them for a time from view. The low visibility also aided the enemy in his operations.

The fighting continues with fierce intensity in this district, while the battle rages with equal ferocity on the right, where the French are reported to have delivered a smashing blow against the enemy. From this section of the battle front it appears that the German offensive at least for the time being, has been badly shattered.

The Americans now command the river front at the bend. At the left of the bend, the famous German tank division has made repeated attempts all day to cross, but the assaults have been smashed by the splendidly directed fire of the American gunners, and not a single German had succeeded in getting over at this point up to 9 o'clock tonight.

The Day's War Story.

The expected renewal of the German offensive in France has begun. Fierce battles are in progress on both sides of the famous cathedral city of Rheims, which since the last offensive along the Marne has stood the apex of a sharp salient into the German line.

West of Rheims the Germans with the pressure of large numbers of troops, the unleashing of which was preceded by a veritable hail of high explosives and gas shells, have been enabled to cross the Marne at several places.

On 65 Mile Front.

East of the city, however, they have been held for the smallest of gains by the tenacious resistance of the defenders of the line. Altogether the two battle fronts aggregate about sixty-five miles in length.

American troops are fighting valiantly on the sectors they have been holding and at two points have met with notable success. At Vaux they not alone broke down a violent attack by the enemy, but drove him back several hundred yards and only returned to their former positions when the advance of the Germans southeast of Chateau Thierry across

the Marne made the reoccupation of their trenches of strategic value.

Americans Drive Back Enemy.

Along the Marne, between the town of Fossey and the river Surmelin, where the Germans crossed the Marne, the Americans in a strong counter attack forced back the enemy to the right bank of the stream. At other points along the river they used to the greatest advantage their machine guns against enemy elements which were crossing the river on pontoon bridges, killing or wounding many of them. In the counter attack near Fossey between one thousand and fifteen hundred Germans were made prisoner by the Americans. The captured contingents included a complete brigade staff. The French general in command on this sector sent a congratulatory message to the general in command of the American troops.

The Germans in addition to their tremendous expenditure of explosive and gas shells used numerous tanks against the lines of the defenders and also opened with numerous naval guns bombardments of towns and cities far behind the battle line, dropping upon them shells from 10 and 12 inch pieces.

GENERAL CROWDER ISSUES FRESH CALL FOR MEN.

Washington, July 17.—Forty-six thousand men from all states and the District of Columbia were called to the colors tonight by Provost Marshal General Crowder. They are to be all white registrants. Movement into camp will be between August 5 and August 9.

This is the first general call for August, during which month the military program provides for the enlistment of 300,000 white men. Special calls already issued account for 19,941 of this number.

Southern states' quotas and camp assignments follow:

Virginia, 100; Camp Wadsworth, S. C.; North Carolina, 2,500; Camp Wadsworth, S. C.; South Carolina, 800; Camp Wadsworth, S. C.; Alabama, 1,100; Camp Shelby, Miss.; Georgia, 500; Camp Greenleaf, Fort Oglethorpe, Ga.; Florida, 100; Camp Shelby; Louisiana, 300; Camp Shelby; Mississippi, 1,000; Camp Shelby; Tennessee, 1,100; Camp Shelby; Texas, 1,800; Camp Cody, N. M.

NORWEGIAN VESSEL IS SUNK BY A SUBMARINE.

Washington, July 17.—Information came to the navy department today that the Norwegian sailing ship Marosa was sunk by a German submarine 1,200 miles east of New York on July 7. Previous reports said the vessel was destroyed off the coast of Newfoundland. The crew had been landed at Nova Scotia.

On the following day and in the same general locality, the department's announcement said, the steamship Manx King was held up by a submarine and after the crew had taken to the boats the Germans put bombs on the vessel. The crew, however, did not see the ship sink.

FIVE HUNDRED OF CREW LOST ON JAPANESE SHIP.

Tokio, July 16.—The Japanese battleship Kawachi of 21,420 tons displacement, blew up and sank in Tokoyama Bay, 150 miles northeast of Nagasaki on July 12. Five hundred members of the crew lost their lives.

The battleship Kawachi was built at Kure in 1912. She carried a complement of 950 officers and men. The ship was 500 feet long, 84 feet beam and drew 28 feet of water. Her armament consisted of twelve 12-inch guns, ten 6-inch guns, eight 4.7-inch guns and twelve 12-pounders. She also was equipped with five 18-inch torpedo tubes.

HALF THE AMERICANS SENT OVER IN BRITISH BOATS.

London, July 17.—Of the \$37,527 American troops brought to Europe in the months of April, May and June, 350,956 were carried in British ships, according to a statement made in the house of commons today by Sir Leo Money, parliamentary secretary to the ministry of shipping. He added: "Arrangements are being made whereby we hope to carry larger numbers in the future."

DESPERATE FIGHTING TUESDAY ON MARNE

BREAKS PUT ON GREAT GERMAN DRIVE BY AMERICANS, FRENCH AND ITALIANS.

Paris, July 16.—The war office announces the recapture of St. Agnan and La Chapelle-Monthodon today and the advance of the Franco-American lines to heights dominating the Marne valley at various points.

Desperate fighting is reported in several sectors of the new battle front, particularly south of the Marne, where ground was given only foot by foot, when the allied line was obliged to bend back.

Fighting Continued While Storm Raged.

Paris, July 16.—The German offensive has taken on a great scale equal to that launched on the 21st of March, says a dispatch filed from the Marne battle front today at noon by the correspondent of the Temps. Fighting continued this morning, the dispatch says, in a violent storm of thunder and lightning. The weather was clearing at noon. An impression of confidence throughout the armies is indicated by the latest dispatches from various parts of the battle front.

German Official Statement.

Berlin (via London, July 16).—"On the Marne front the enemy has delivered violent counter attacks," says the German official communication issued this evening. "There were some local successes to the southwest of Rheims.

Germans Claim 13,000 Prisoners.

Berlin (via London, July 16).—The Germans claim the capture of 13,000 prisoners in the official communication from headquarters issued today. The army of Gen. Von Boehm, it is added, crossed the Marne between Jaulgonne and east of Dormans.

Day's War Story.

The German offensive east and west of Rheims has had the brakes vigorously applied to it by the strong resistance of the American, French and Italian armies.

Nowhere has the enemy found it possible, as in days gone by, to press forward and tear his way through opposing positions to points of vantage chosen as early objectives.

True some gains have been made by the Germans but they are infinitesimal when compared with those of other attacks. Instead of in miles they may be reckoned almost in yards. And from some of the positions captured the enemy has been ejected summarily under vicious counter attacks delivered by the American troops fighting alone as a unit and Americans fighting shoulder to shoulder with their French comrades in arms.

Germans Concede It.

Tacit admission that the enemy hordes have been retarded in their assaults, if not halted, seemingly is contained in the latest German official communication, which, in dealing with the fighting of Tuesday asserts that the allied troops on the Marne front have delivered "violent counter attacks" and that to the east of Rheims "the situation is unchanged."

The claim made to any success by the Germans is that there were "some local successes to the southwest of Rheims."

Franco-American Successes.

The successes of the Americans and the French give back to them points of strategic value on the heights dominating the Marne valley. The Americans alone recaptured Fossey and Crezaney, east of Chateau Thierry and at one point near Fossey drove back the enemy across the river and took a number of prisoners. Aided by the French, the recapture of St. Agnan, Hill 223 and La Chapelle-Monthodon, south of Dormans, was accomplished.

Heavy Fighting South Marne.

Throughout the region lying to the west of Rheims, especially south of the Marne, the Germans made desperate attempts on various sectors to increase their penetration of the allied front, but where they were able to gain any advantage it was

THE GREAT BATTLE IS STILL IN PROGRESS

BUT THE ALLIES ARE HOLDING THEIR OWN ALL ALONG THE LINES.

Although the Germans are still attacking the allied lines viciously on both sides of the Rheims salient, what gains they are making continue to be small ones on isolated sectors and seemingly are confined to the region along the Marne and immediately southwest of Rheims.

Eastward from the cathedral city through Champagne the French report that they everywhere are holding the enemy and keeping their line intact, notwithstanding the prodigious expenditure of shells by the Germans and the determination with which their troops are delivering their thrusts.

Everywhere the battles are being stubbornly contested, and where the French and Italians have been compelled to give ground it has been only after the infliction of extremely heavy casualties on the invaders. The Americans nowhere have been forced to withdraw. On the contrary near Fossey, near the bend of the Marne between Chateau Thierry and Dormans, they have made further improvements in their positions. Like their French comrades in arms, the Americans also have been engaged in violent fighting with the enemy.

French Reserves Brought Up.

It is reported that French reserves have entered the fighting line along the Marne and that to the north of La Chapelle-Monthodon they have recaptured lost territory. The Germans also, as was expected, have brought up fresh forces in an endeavor to push forward their project in this region. There is a veritable deluge of shells from the guns of both sides along the entire Marne front.

In Albania the French and Italian troops continue to make progress against the Austrians and in the Italian sector, up in the mountains, repeated Austrian attacks have been repulsed by the Italians.

On the British front in northern France and Flanders the Germans are keeping up violent bombardments on various sectors using both gas and high explosive shells. Gas has been used extensively on the Villers-Bretonneux sector, where the British for several days past have been delivering successful patrol attacks and taking prisoners. The Albert sector is coming in for an increased shower of shells of all kinds. Nowhere, however, has the German command seen fit as yet to start an infantry engagement, if one is contemplated.

only a foot at a time, the French meeting their onslaughts with the greatest bravery and making the enemy pay dearly for every inch of ground he took.

Eastward from Rheims hard fighting is still going on almost to the western fringes of the Argonne forest, but apparently the enemy here also is meeting with ill success. Attacks attempted near Prunay and Suippes came to naught under the French fire, while further east, near Croisnes and Tehure, efforts to break the French line were repulsed with heavy losses.

Prisoners by Both Sides.

The German official communication in dealing with the fighting of Monday says the Germans took 13,000 prisoners. The French on their part are reported to have taken thousands of captives and it is known that the Americans have made prisoner of between 1,000 and 1,500 Germans. In addition, the Americans, French and Italians have inflicted terrible losses on the enemy by the accuracy of their cannon, machine gun and rifle fire.

German Reserves Expected.

Although the allied troops seemingly have the situation well in hand, it is not improbable that the Germans soon will throw large numbers of reserves into the fray. They are known to have thousands of these men behind the battle line, especially northeast of Rheims.

On the other battle fronts only minor operations are in progress but on various sectors held by the British in northern France and Flanders the Germans are carrying out spirited bombardments which may be the forerunners of early infantry attacks.

QUENTIN ROOSEVELT KILLED IN AN AIRPLANE FIGHT.

Paris, July 17.—Lieut. Quentin Roosevelt, youngest son of the former president, has been killed in an airplane fight, the semi-official Havas news agency announces. His machine fell into the enemy lines.

Oyster Bay, N. Y., July 17.—A ray of hope that Lieut. Quentin Roosevelt may not have fallen to his death in a combat with a squadron of German airplanes, was brought to Colonel Roosevelt and his wife tonight in a cable message sent from Paris by Mrs. Theodore Roosevelt, Jr., in which she said the report was "absolutely unconfirmed," there. The former president felt, however, that there only is a slight possibility that his youngest son may still live.

The message from Mrs. Roosevelt, who is doing Red Cross work in the French capital, contained nothing but the simple statement that she had been able to get no information of Quentin's death and Colonel Roosevelt feared there was little room to doubt the accuracy of the press dispatches which said the young flyer had met a soldier's fate.

Thousands of telegrams of condolence, were received today at Sagamore Hill. Colonel Roosevelt had nothing to add, however, to the brief statement he issued earlier in the day, in which he expressed for himself and his wife a sad pride that their son had been given an opportunity to show the stuff of which he was made before he died.

All Oyster Bay mourned with its most distinguished citizen. In Townsend Park flies the service flag of the village, with a blue star for each of its sons in the service of the nation. Just at sundown a gold star was placed on the flag to mark the first death among the village's young warriors.

JAPAN TO HELP US BUILD MORE SHIPS.

Washington, July 16.—The United States, turning to its associates in the Orient for aid in meeting the shipping crisis, has let new contracts for ships to Japan, which will make a total of more than \$100,000,000 to be spent for tonnage in the Island Kingdom and in China.

Announcement was made today of the awarding of contracts for 30 vessels to 13 Japanese yards. All of the ships will be of 5,500 tons or more and the total tonnage will be 253,000. These ships are in addition to 127,000 tons purchased from Japan and 150,000 tons chartered, at a total cost of \$78,000,000, of which \$20,000,000 has been expended.

First contracts awarded by the United States to a Chinese yard were made public Saturday cailling for the building of 120,000 tons at a cost of approximately \$30,000,000.

Japan will deliver to this country about 130,000 tons of ships by September 1, and will continue deliveries at regular intervals as the United States supplies the steel for these vessels. Altogether about 135,000 tons of steel will be sent to Japan. Some of the ships will be put immediately into the war zone service, while others will be used in the coastwise and South American trades.

All camouflaging of ships built for the shipping board will be supervised hereafter by the navy department.

French Entrenched Behind River Vesle.

London, July 16.—The French this afternoon were entrenched at Prunay behind the River Vesle, two miles back of the original line, the Evening Standard states. This, it adds, is the deepest penetration the enemy has effected in the region east of Rheims.

A statement issued this evening by the Central News says:

"The only progress the Germans have been able to make since yesterday has been to the east of Rheims, in the Prunay sector, where, in spite of terrible losses, the enemy has compelled the French to retire to the southward behind the River Vesle."

Paris Bombarded.

London, July 15.—The bombardment of Paris with the German long range guns began again this afternoon according to an Exchange Telegraph dispatch from the French capital.

FEDERAL CONTROL OF THE TOBACCO INDUSTRIES

MAY RESULT FROM DEMAND OF ALLIES AND UNITED STATES FORCES ABROAD.

Washington, July 16.—Government control of the tobacco industry of the United States may result from the heavy requirements of the allies and the American military forces abroad. Rationing of the American population is believed to be a possibility.

The war industries board announced today that it has been conducting an investigation to determine the requirements abroad and the amount that must be conserved in this country to meet the situation. It estimates that approximately two-thirds of the leaf tobacco raised in this country in 1917 will be available for American manufacturers. Out of this must come cigarette and pipe tobacco for troops not yet overseas and exports of manufactured tobacco in addition to cigarettes and tobacco purchased here for Belgium.

The crop of 1917 was 1,195,000,000 pounds, and of this the board estimates that 850,000,000 pounds will be available this year for United States manufacturers, while 348,000,000 pounds of leaf will be available for export to the allies.

Tobacco issued to the military forces of England, France and Italy amounts to approximately 159,000,000 pounds a year, the board said. England and France each allot 40 per cent of their entire consumption to the army and navy, while Italy allows her military forces 45 per cent. The total yearly consumption of the entire populations of these countries, the board estimates at 387,000,000 pounds, or 41,000,000 more than this country is able to export.

Supply For U. S. May Run Short.

Persons who pointed to possible government control in order to assure tobacco for the allies and American forces, declared that it is more than probable that with the allied armies consuming between forty and forty-five per cent of the total consumption in allied countries, American forces would use more than fifty per cent of the total amount used in the United States.

Allies Depend on U. S.

The war industries board quotes the annual per capita consumption of the United States and the allies as follows:

Italy, two pounds; France three and a half pounds; Great Britain, four pounds, and the United States seven and a half pounds.

England, France and Italy are now chiefly dependent on imports from the United States as their imports from other tobacco-growing countries have been materially reduced through lack of shipping and inability to import from Turkey and Bulgaria.

Wants Pension to Buy Coffin.

Charlotte, July 16.—Clerk of Court C. C. Moore was placed in a quandary yesterday by the questions of a Confederate veteran who was seeking the wherewithal to pay for having a metallic coffin made to measure and according to his specifications. This veteran was L. A. Smith, an inmate of the county home and a man said to be about 100 years of age. He told Mr. Moore he wanted his coffin made at once, as he expects to live only about two months longer and does not want this particular work done in a hurry.

BENEDICT ASKS EXEMPTION FOR YEAR; QUOTES BIBLE.

Richmond, Va., July 17.—Quoting Deuteronomy 24:5, a draft registrant has written to the local board demanding deferred classification for army service.

After advising the board that recently he became a benedict, the registrant, who happens to be in class 1, calls attention to the Biblical quotation: "When a man taketh a new wife he shall not go to war, neither shall he be charged with any business; he shall be free at home for one year, and shall cheer his wife which he has taken."

The registrant promises the board that after the conclusion of the year he will be ready to enter the service in any capacity the war board should deem him best fitted.

BEIGIANS ROBBED BY HUNS, BUY OWN PROPERTY BACK.

The Hague, July 16.—Stealing
what the Belgians have, calmly sell-
ing it back to them and stealing it
all over again are links in an endless
chain of extortion being practiced by
the German invaders.

Officers in the hun army have sold
to Belgians stolen linens and other
articles, pointing out that large prof-
its can be made from their resale.
When the goods have been paid
for and stored away the canny offi-
cers give a hint to the German com-
mandeering officials, who then go to
the house concerned and demand to
know why the goods have not been
properly listed. And they confiscate
them without payment.

IRON WITHOUT A HOT FIRE

There are many occasions during the week when you
desire to do a little ironing, and if you are using the old
style sad iron it necessitates building a fire in the stove
or range. Then, too, besides using fuel, the trouble of
tending it and the heated kitchen, your irons are contin-
ually cooling and must be reheated.

The Comfort Self-Heating Gasoline Iron

which we are now featuring does away with all the above
inconveniences and may be kept at any desirable tem-
perature for hours.

This Comfort Gasoline Iron is Double Pointed, making
both ends front ends—a new feature in irons.

Weights six and one-half pounds and operates 5 hours
on one filling, the capacity being three quarters of a pint.

LOOKING TO REVOLT IN THE DUAL MONARCHY

WASHINGTON OPINION ON THE
SITUATION ALONG THE COAST
OF ALBANIA.

Washington, July 16.—While military critics both here and abroad regard the Franco-Italian offensive along the coast of Albania as of little moment from a purely military viewpoint, some officials regard it as having possibilities from a political standpoint which ultimately may bear heavily upon the military situation.

The immediate purpose of the offensive has not yet been made clear, but in some quarters it is believed to be designed primarily for the psychological effect it may have upon the disaffected subjects of Austria-Hungary in Bosnia and in Herzegovina toward which countries the drive is headed.

Thorn in Side of Austria.

Reports reaching Washington from official sources indicate that the successes attained by the allied troops already have increased the hostility of the Jugo-Slavs in southern Austria, who, with the Czechoslovaks and Poles have proved thorns in the side of the Dual Monarchy throughout the war.

Would Have Widespread Effect.

In the opinion of those officials who have made a study of the situation, a military drive that could bring the allied armies in Albania into contact with the Jugo-Slavs might lead not only to an open revolt there, but also by the disaffected peoples in other parts of the Dual Monarchy.

Would Drain Austrian Army.

An uprising of such consequences, it is claimed, would have serious effect upon the whole military situation because of the drain upon the Austrian army that would result from returning from the front sufficient forces to prevent an internal disintegration.

At the outbreak of the war the Jugo-Slavs in southern Austria and Hungary numbered more than 6,000,000, while the Czechoslovaks and Poles in the northern part of the Dual Monarchy numbered more than 12,000,000. The unrest among these peoples has been growing and at places has led to open revolt.

The oppressed peoples are determined upon freedom, in the official opinion here. Thousands of Jugo-Slavs who deserted from the Austrian armies are fighting with the Italians against their ancient enemies. While some 60,000 Czechoslovaks who either deserted to the Russians or were captured are heading through Siberia to the western front to join in the fight against the Germans.

Whether there is a serious intention of attempting to affect a juncture between the allied armies in Albania and the Italians on the Italian front is not known here, but because of the great distance separating the two forces it is not believed to be probable. In some quarters however, it is regarded as possible that once the Franco-Italians actually reach the southern border of Austria an effort at a juncture might be attempted. Both the force from Albania and that from Italy, it is contended, would be welcomed by people hostile to the government and army of the invaded country, thus increasing the difficulties of the defense.

STEEL SHORTAGE IS FEARED BY GOVERNMENT.

Washington, July 16.—Government demands for steel has reached such proportions, it was learned today, because of the growth of the war program, that officials of the war industries board fear present sources of supply soon will prove inadequate.

Action was taken at today's meeting of the board to prevent steel from finding its way to industries not holding war contracts through re-selling. Manufacturers were warned that those who have obtained steel on priority orders for war work and later were found to be re-selling it to non-war manufacturers would have their supply cut off. This practice has been in vogue, the board learned.

All private consumers of steel and steel products may be required to submit sworn inventories of their stocks on hand. It was found that many manufacturers had obtained large quantities of steel before the government took control of the entire output. By means of these inventories J. Leonard Replogle, director of steel supply of the war industries board, will be able to keep a close check on all steel in the country.

A shortage of steel already is being felt in some shipyards. Others have more steel than they need, while officials believe is the result of the "cost plus" system of contracts under which the builders felt free to expend large sums on materials not needed for many weeks. Recently an inventory of stocks was taken with a view to equalizing the supply of material, but no great help was forthcoming from the facts revealed and Chairman Hurley has ordered another inventory, as a check on the first.

Other departments of the government also are checking up their supplies of material. A "tendency to hoard" has been observed on the part of some government agencies, as well as the public, which it is hoped to prevent in the future by exact knowledge of requirements and strict allotment of output.

Additions to steel mills now being made will add 750,000 tons to the annual output in a few months, but officials do not believe that will be sufficient to take care of the increased demand.

Big Increase in Southern Wheat.

Atlantic City, July 16.—A bright agricultural outlook with every possibility of a fifty per cent increase in wheat production of the South was reported today before the annual sessions of the National Fertilizer Association here. Wheat, corn and cotton crops are "encouraging" in all sections of the country, according to the reports. The assistance rendered by the women's motor corps service of the national council of defense, in teaching women how to drive tractors and other power implements and the patriotic response of the women to the call to the farms has greatly ameliorated the labor situation, according to Horace Bowker, New York, president of the association.

American Airplanes Sent Abroad.

Washington, July 16.—Four hundred and fifty American-built battle planes have been sent abroad or delivered at ports for shipment on July 5, the date of the latest complete official report reaching the war department. In announcing this figure today, Secretary Baker disclosed also that deliveries of liberty motors of all classes on the same date had reached 2,514.

WITH THE AMERICANS IN THE BATTLE ZONES

GERMAN INFANTRY NO MATCH
FOR OUR BOYS—CAPTURE
1,500 PRISONERS.

With the American Army on the Marne, July 15.—The correspondent talked with some American soldiers now in hospitals who were in the thick of the fighting this morning. They were in complete agreement that the German infantry was no match for the Americans.

This is evidenced by the reports from all the American hospitals there being only a few cases of wounded from rifle and machine gun fire, while most of the men are suffering from shrapnel wounds. Some of these cases are serious.

Americans Capture Complete Brigade Staff.

With the American Army on the Marne, July 15.—The German prisoners captured in the counter-attack by the Americans at the bend on the Marne number between 1,000 and 1,500. They include a complete brigade staff.

French War Office Gives Americans Credit.

Paris, July 15.—In the desperate fighting which is reported in the official communication from the war office tonight the American troops are given the credit for driving back the Germans who had succeeded in crossing the Marne southeast of Fosseoy.

Repeat Their Heroic Deeds.

With the American Army on the Marne, July 15.—Along the front as far as the eye can see the big guns were still flashing and roaring tonight and the battle gave no signs of diminishing. American staff officers nevertheless expect that the position will be even more improved by morning.

Along one extended sector of the Marne front, the Americans were in the open ground, making use as best they might of whatever shelter offered; the Germans were on hills on the opposite side of the river, showering high explosives and gas shells upon them. But the boys from the United States went forward nevertheless, with gas masks adjusted, and crawling at times for considerable distances on all fours.

In this way they advanced bit by bit, and when they came within range close enough to come to grips with the Germans, they drove the enemy back in quick order.

In a measure they repeated today the heroic deeds of those who defended the road to Paris in the second battle of the Marne.

Attack Quickly Beaten Back.

With the American Army on the Marne, July 16.—West of Chateau Thierry, between Vaux and Hill 204 the enemy launched a small local attack against the American forces today, but was speedily beaten off with losses.

This operation subsided quickly and the enemy contented himself for the remainder of the day with laying down of the heaviest bombardments over the positions, which availed him nothing.

Attempt to Shell American Hospitals.

With the American Army on the Marne, July 16.—The Germans apparently deliberately attempted to shell several of the American hospitals near the Marne front today. A number of shells fell intermittently a short distance from them. They did no damage beyond disturbing the patients.

London Compliments Americans.

London, July 16.—The brilliant contribution of American troops to the allied defense at Fosseoy figures conspicuously in the battle reports under big heads and is made the subject of special mention in the editorial columns of the morning newspapers.

"Splendid men" is the description contained in the Times, while another paper calls the American defense "the most encouraging feature of the day's fighting."

St. Agnan Recaptured.

With the American Army on the Marne, July 16.—French and American forces fighting together have recaptured the village of St. Agnan, Hill 223, to the northwest, and La Chapelle-Montbodon.

In co-operation with the French the Americans launched a heavy counter-attack this morning between these two villages, driving the enemy steadily back.

On the American right the French made rapid progress and all through the section the Germans were fiercely attacked by the allies, with the result that they have withdrawn for

a considerable distance. Comparatively large forces of Americans have been engaged, especially in the region of Descriptive, where they were brought up to support the attacking French. Within a short period the Americans were hotly engaged in the fighting.

THE RUSSIAN SITUATION PRESENTING NEW PHASES.

Washington, July 16.—Although overshadowed by the tremendous developments on the western front the situation in Russia and Siberia is daily presenting new phases. At no less than three widely separated points have the opposition to the Soviet government greatly strengthened their positions, thus heavily taxing the inadequate military machine of the Bolsheviks.

On the shores of the Arctic and White Seas, the small international entente force which has been holding a railroad terminals at Kola and Murmansk has been considerably reinforced and is understood to be advancing southward along the railroad toward Vologda and Moscow. It is admitted officially that there are some American sailors and marines in the neighborhood of Kola but it is not known that they are participating in the southward movement and it is doubted whether in the absence of special instructions, they would do so, unless it were necessary as a defensive measure.

Finnish Refuse to Fight For Germans.

Reports from reliable sources in Sweden indicate a surprising change of sentiment among the Finnish people toward their German-controlled government, making it impossible for that government to raise any volunteer troops to attack the entente force on the line of the Kola-Moscow railroad. This has greatly relieved the minds of officials who realize that this railroad could be held only by a very large force if attacked from Finland. Cutting off communication that way would greatly endanger the position of the entente forces on the Murmansk coast when winter comes.

Belgians Living in England.

London, July 16.—The Belgian official committee reports that there are 170,000 Belgian refugees still in England, 60,000 of them in London. More than 80 per cent of them are working, 40,000 on munitions. They have their own newspapers and schools.

Anniversary Celebration!

The recurrence of the eventful date on which this business was founded finds us keenly sensible of the prime importance and sterling value of the first and central principle around which it was builded; a principle on which we have concentrated our energies and abilities persistently, namely, "Fair Profits and No Misrepresentation." In the past these words have meant everything to us and to you. And they shall mean much to both of us in the future, also. "Fair"—just in our dealings and with equitable pricing. "No Misrepresentation"—the plain, unvarnished facts about goods; simply the truth about them.

AS WE REACH THE 8TH MILESTONE
WE PAUSE TO EXPRESS APPRECIATION OF YOUR LOYAL PATRONAGE.

EDITORIAL

We do not nourish the illusion here that a store grows big from big profits. Fair and square pricing—money's worth for money spent—willingness to take back goods and refund money—a service that leaves as little as possible for the customer to feel has not been rendered. Those are the cardinal points here that we consider first of all.

With passing days we see more clearly that to be all sufficient as a trading place, this store should be more closely on the watch to avoid mistakes. A store is only as satisfactory as the service it gives.

Begins To-day—Ends Monday, July 29th.

Prices That Fear No Competition.

Tempting Low Price Offerings

Full Taped Vests, four for 25c—limit 4 to a customer. Infants' Soft Soled Shoes 10c pair. Medic-ted Toilet Soap 4 cakes 25c, value 15c cake—limit 4 cakes.

EDITORIAL

A customer may easily be lost to the store that pays but scant attention to requests for information about goods and prices because the employee was apparently too busy to give the consideration that is always the customer's due.

We are never too busy here to listen attentively or answer intelligently—to give heed to the need. What the customer wants to know is of as much importance to us as to the customer. Our interests are identical. We are never too busy to listen here.

You say that it is something every day—a subscription, a contribution or a prohibition—but have you thought that they who fight over there don't stop after they fight one battle, and take their own time to fight the next one?

You say that it is a call for money or service or sacrifice every day over there, but have you thought that it is life and blood and wounds over there? Take your choice.

It may be taxes one month. Red blood the next, liberty bonds the next, Y. M. C. A. funds the next and savings the next, over here; but over there, it is gas today, shrapnel tomorrow, machine gun fire day after tomorrow, and hell every night. Let our boys over there do not get four per cent compound interest on the investment they make of their life and limb. Which will you choose?

WHAT SAMUEL SAYS.

Saying Samuel says, hearken to me, son: When it comes to making a bee, the butterfly has got a whole lot on the bee, but no man ever saw a butterfly with honey saved up.

Moreover, son, don't get the idea that what you could save "wouldn't amount to enough to wad a shotgun." Every cent makes a sound nowadays.

And, remember, son, that the fellow who blows the piccolo never leads an orchestra, and four dollars and fifteen cents ain't much, but it will buy a heap of ammunition for Kaiser.

What is still short and sugar is better but nobody is worried—these summer blues only harden American.

Elon College now has 400 of her sons with the colors. Her enrollment five years ago was by the board of trustees fixed at 400 per year, and now she has furnished the nation with a number equal to her annual enrollment. The authorities of Elon College are rejoiced thus to serve the cause of righteousness and freedom. The Elon faculty identifies religion and patriotism in this war, in this war, and in this thought they have the united support of the board of trustees, one member of which, Mr. D. R. Fonville, is now in France as a Y. M. C. A. secretary and who was recently cited for personal bravery under fire.

The increase in the cane syrup crop in North Carolina last year amounted to tens of thousands of gallons. There will be an even greater increase this year and the sugar situation continues as it is at present, farmers who took the precaution to plant sorghum for syrup will certainly have no trouble in disposing of their product.

The amount of the sales of war savings stamps in the state to the present is \$7,543,090. The amount of pledges is \$28,537,000. The total of sales and pledges is \$36,080,090. Twenty-five counties have not yet been heard from, and it is believed that when these counties make their reports, the state will indeed make a fine showing.

"You are a sacker, a hog and a near-traitor and not fit to mingle in the company of decent citizens." This is the line a red-blooded American handed to a fellow guest in a Raleigh restaurant when the unpatriotic one piled five teaspoonsful of sugar into his cup of coffee. No defense was offered.

By order of the adjutant general of the U. S. army, the soldiers in camp and barracks will live up to the food administration's conservation program. Certainly the patriotic citizen at home cannot expect more liberal treatment than the boys who are offering their lives.

President Wilson has signed the bill providing for the equipment of the United States penitentiary at Atlanta for the manufacture of government supplies and the compensation of prisoners for this work.

The food administration plans to lay up a reserve of 200,000,000 bushels of wheat as insurance against a short crop next year. The necessity for wheat conservation therefore continues.

With a population of 40,000,000 France is mothering more than 2,000,000 refugees.

BODIES OF MEN KILLED TO BE BROUGHT HOME AFTER WAR

Frequent inquiries are made as to whether the bodies of officers and men who are killed in battle in France will be brought home. The best answer that can be given to this inquiry is that soon after he arrived in France General Pershing recommended that bodies of deceased officers and soldiers should not be sent to this country until after the close of the war. The war department accepted this recommendation, and the general belief is that when the war is over, bodies of all men from this country that can be located will be returned here for burial. The dead are buried and their graves are marked so that the place can be identified when the war is over.

In connection with the announcement that bodies are to be brought home, some very striking lines have been written by the poets of the war. Below is some of this poetry:

Sleep, laddie, sleep.
By Elbert Robb Zaring.
Under the lilies of France they lie,
Silently taking their last long rest;
And the soft breeze murmurs in passing by,
While rivulets echo the tender behest.
Sleep, laddie, sleep.

While onward shall pour the victorious band,
And the teuton be crumpled behind his frontier.
Tho' the hoarse shout of triumph shall fill all the land,
And an eagerly listening world shall hear,
Sleep, laddie, sleep.

When our boys shall at last sail back o'er the deep
With freedom established forever and ay,
They shall not be unmindful, O lad, in your sleep
But tenderly stooping shall bear you away,
So sweetly sleeping.

And under the lilies of home you shall rest
Where nature seems poised in tenderest prayer;
And the thought of a lad who went over the crest
Shall render that mound surpassingly fair
While you sleep, laddie, sleep.

If I Should Die.
By Robert Garland.
If I should die in Flanders field,
If I should die in France,
Oh, take me out and bury me
Beneath some friendly poplar tree
(Those poplar-trees of France!)
Oh, keep me near, where I can hear
Those roaring guns of France.

If I should die in Flanders field
Beneath the sod of France,
There let me stay till victory
Is come, and all the world is free
(God grant this boon to France!)
Oh, let me stay to see the day
That freedom comes to France.

Then take me far from Flanders field
When freedom comes to France;
Return me to the very land
I love the best, my Maryland
(It's sweeter far than France!)
Oh, bring me home to Maryland
And say: "He died for France."

Monument Enough.
By Ray Gauger.
Where I shall fall upon my battle-ground
There may I rest—nor carry me away!
What holier hills could in these days be found
Than hills of France to hide a soldier's clay?
Nor need ye place a cross of wooden stuff
Over my head to mark my age and name;
This very ground is monument enough!
'Tis all I wish of show or outward fame.

Deep in the hearts of fellow countrymen
My fast immortal sepulcher shall be,
Greater than all the tombs of ancient kings,
What matter where my dust shall scatter then?
I shall have served my country overseas
And loved her—dying with a heart that sings

Hats Off to American Tanks.
Hats off to the American tanks!
A hundred thousand tractors are doing the work of 200,000 men and 800,000 horses on American farms. They are assisting in winning the war.—Los Angeles Times.

Vegetables not only give variety to the diet but they are tonic and above all things at this time they save freight. Eat vegetables.

EASILY MATCH FOR SPIDER

Letter Insect Has No Chance When It Enters into Combat With Fero-cious Mud Hornet.

I once saw on the porch of my resi-dence on Lake Hopatcong a mud hornet deliberately fall into and entangle itself in a spider web, Hudson Max-son writes in the North American Re-view. The spider, perching upon an upper corner of the web, instantly attacked at the hornet, then stopped and decided that it did not want to tackle the hornet and returned to its perch. After waiting a while for the spider to come to the attack the hornet freed itself very easily from the web, and watched her fly several times in cir-cles and then deliberately alight in an-other nearby web and entangle herself in it. Instantly the alert spider, evi-dently either more hungry or less cau-tious than the other, sprang upon the hornet, when, with an alacrity that would shame the lightning, and with a precision developed beyond the contin-uous error, that hornet seized the spider, lubbed her sting into it, and maneuvered it. Then she took it up nice-ly and carried it away.

I learned afterward, in the study of insects, that this is the regular habit of the mud hornet—that she catches spiders in this manner, paralyzing them with her sting. She places them some after another in a mud pocket that she has constructed for the purpose until she has enough canned spiders to feed her young when they hatch out in the spring. The spiders do not die, but remain alive in their prison until attacked by the larvae of the hornet and eaten at the proper time. Rather hard on the spiders—but the habits of the spiders themselves are not such as to elicit much sympathy.

KNEW WHAT WOULD HAPPEN

Penurious Old Fellow Had Somewhat Odd Reason for Not Purchasing Those Fine Apples.

In a certain midwestern town lived an aged and wealthy old citizen, who amassed his fortune by skimping and saving. It is said that his children never knew what it was to eat a good square meal in their father's house, because he was such a poor provider.

Seven days a week, every week in the year, that old man worked in his shop until ten o'clock at night. About all he spent was a dime a week for tobacco, with which to stoke his vile old corn-cob pipe.

One night, to purchase some tobacco, he stopped at a fruit stand quite late. While the merchant was reaching for the tobacco, the old fellow gazed, with hungry eyes, upon a barrel of North-ern Spies that stood nearby.

Seeing the prospect of a sale the fruit vendor drew near, and picking up a few of the rosiest apples, he held them out to the penurious old man and said: "You'd better take a dime's worth of those apples home with you. They are the best apples we have had this winter. Shall I put you up a small sack of them?"

The old man was tempted, but his stinginess came to his rescue just in time and he said, as he turned away: "No, I guess I won't buy any of them tonight. It wouldn't be any use to take them home anyhow; the damned kids would just eat them up."

Spring Sports.

The coming of spring is celebrated first by marbles. Groups of boys, and sometimes groups of girls, also, will be found in sunny spots out of doors playing this fascinating game. But it will last only a few weeks; it is distinctly a seasonal game.

Some persons are disturbed when they see children playing for "keeps" because they think this will develop a gambling propensity. But playing for "keeps" is not the same as play-ing with cards or dice or the like. This game does not depend upon chance; it depends upon skill almost entirely, and we regard it as proper for anyone, young or old, to retain what he merits by the exercise of his skill, provided that he plays according to the rules of whatever game he plays. So the boy who can shoot mar-bles more skillfully than his rivals thinks he is entitled to profit by his superior judgment and accuracy; and in this respect he will not be doing anything which will not be proper for him to do in principle later on. On the other hand, if he were tossing pennies or dice for gain, or winning in any other way that depended solely upon chance, he would be developing ten-dency to trust to luck, and this would be a serious injury to his intellectual life and his disposition.—The Moth-er's Magazine.

Building Time Table.

Before a real steel building is com-menced nowadays a regular time table is arranged for the work, like that of a railroad train. Unlike the train, how-ever, the work is not allowed to get ahead or behind time even for a few hours, although the building may take many months.

Every minute of time is utilized, and if the building does not arrive at a cer-tain point of completion on schedule money. The time table must be fol-lowed with the greatest care from the hour the ground is broken until the last workman walks out of the com-pleted building.

HAVE COMFORT IN THEATER

Chinese Enjoy Repast While They Are Witnessing the Performance on the Stage.

We ascend by way of narrow, rick-ety stairs and find ourselves in a three-sided balcony with boxes in tiers. The space near the wall is left for a pas-sage way. Our box will seat about 18 persons, and contains very comfort-able chairs and a nice little shelf for the teacups and eatables, with a gutter attached to receive the debris. We are no sooner seated than the ticket man approaches. After a polite in-quiry as to the state of our health and hoping we shall enjoy the performance and assuring us of the honor we are bestowing upon the theater by being present, he would appreciate very much our handing over the required amount for the tickets. We ask him the sum total of this important transac-tion, and he replies, "Six dimes for the ticket and six cents for the ushers and coolies, for each person. Ushers and coolies are allowed one cent for every ten cents paid." After his gen-erous thanks and "Begging your pardon for disturbing you," he takes his departure, but is quickly followed by a coolie bringing teapots and cups. He places these on the little shelf and leaves without a word. As soon as he has disappeared another coolie arrives, bringing a number of small dishes, each filled with the delicacies of the season, but always including the wa-ter-melon seed. You notice the same performance going on all about you and you wonder just how a Chinese gentleman would feel if he had to sit through some theatrical performance without his teapot and melon seed.—"The Chinese Theater" in Asia Mag-azine.

SENT HIM HOME IN HURRY

Proof That There Is More Than One Way to Get Hubby to Defer His "Business."

"Don't wait for me at dinner this evening, dearie," he said when his wife answered his telephone call.

"What is the matter?" she asked.

"I have a business engagement—very important—which will keep me down town pretty late."

"Oh, pshaw! Can't you get out of it?"

"No, I'm awfully sorry, dear."

"Try to put it off till tomorrow."

"It's impossible. There's a man here from New York specially to see me, and he's going away on the midnight train. There's a whole lot of busi-ness I've got to go over with him be-fore he gets away."

"When did he come?"

"Just got in."

"I didn't know there was a train from New York this late."

"Oh, yes. There are trains from New York every little while."

"What is his name?"

"Say, honey, I don't like to have you speak to me like that. You evi-dently doubt my word. His name is Davidson. If you must know—Wil-liam Davidson—say, who's there with you?"

"Why, nobody, dear."

"Yes, there is. I heard him calling you his daisy. I'll be right home!"

Without waiting for her to answer, he hung up. Then she stepped over to the phonograph and took off the Harry Lauder record.—Sam Kiser in Dayton News.

Satiety Not Happiness.

But happiness is also mental. When the mind is cloaked with sordid de-sires there can be no happiness. Yet some folks would like to be the constant recipients of bonities, bon bons, and bon mots ad infinitum. They think that gives them pleasure. It may of the charity sort. They are the constant examples of obligations. The poor mortals do not realize that it takes little of such stuff to satiate and stagnate the soul. The very blessings they crave clog their spirits until they cannot appreciate real hap-piness. What a blessing it would be if they could only realize that what goes out and what comes in makes happiness.—Exchange.

To Take Castor Oil.

Much of the nausea connected with castor oil is caused by its thick-ness. It will solidify when kept in a bottle. Before giving, therefore, heat it for a moment by placing it in hot water or holding over a candle. In its pure liquid state infants and young children will take it easily if a little brown sugar is sprinkled on its sur-face. For elders, it is best to beat it up in a cupful of milk, either warm or cold. The former is better, as it aids in its work. It should be beaten until it is frothy and sweetened with a lump of sugar. Few children fail to swallow or keep down castor oil when prepared as recommended.

First Veterinary College.

The first school of veterinary medi-cine in the world was opened in 1742 at Lyons, France, by Claude Bourge-lat. Originally a lawyer, he abandoned that profession after having gained an unjust suit for a client, and devoted himself to the study of the disease of animals. The school he established soon received the title of the "royal school" and became famous through-out Europe. As a youth Bergiat had served in a cavalry regiment and this was the beginning of his love for horses. The London Veterinary col-lege, the first of its kind in England, was founded at Camden town in 1791, and the New York veterinary college in 1857.

PERSONAL MENTION.

Mrs. Myrtle Ashworth has gone to Hendersonville to spend some time at Indian Cave camp.

Dr. W. E. Crutchfield has returned from Boston, where he attended the National Osteopathic Association.

E. H. Milton, formerly of High Point, now superintendent of the soldiers' home at Raleigh, was in the city Monday for a short while.

Mr. and Mrs. H. C. Rudd have re-turned to their home at Pleasant Garden from a visit to their son, Ser-geant E. R. Rudd, at Camp Sevier.

E. Ray Hodgins has resigned his position with the Hodgins Motor Com-pany and has gone to Boston, Mass., where he will enter the merchant marine.

Miss Mary Mendenhall, who was injured by an automobile while visit-ing at Greenville, S. C., is recovering rapidly. She is the daughter of Mr. and Mrs. L. D. Mendenhall.

Mrs. M. H. Newlin, Jr., has gone to Washington to join her husband, who is in the government service as a motor mechanic. Mrs. Newlin was Miss Beulah Brady before her mar-riage several months ago.

Winifree W. Alderman, formerly with the Southern Life and Trust Company, has given up his position and left Tuesday for Richmond to enlist in the United States marines. He will be in training for some time at Paris Island, S. C.

John C. Cutts is recovering rapidly from the operation which he re-cently underwent at St. Leo's hospi-tal. It is expected that he will be able to resume his duties as district plant chief of the Southern Bell Tele-phone and Telegraph Company with-in a few weeks.

"BLUE DEVIL" SAYS WAR MUST END IN TWO YEARS.

Norfolk, Va., July 16.—"The world war cannot last another five years, for the French people could not and would not endure so long a time," declared Lieut. Thierry Mal-le, of the 120th Chasseurs, widely known as the Blue Devils of France, in addressing an audience of over 12,000 sailors, soldiers and civilians this afternoon, celebrating Bastille day, on the city hall square and ave-nue.

"The war will end in two years, with victory for the entente allies, for they stand for right, justice and God," continued the speaker, amid tumultuous cheering. "While the French have never once thought of giving in, we now have hope, with American manpower, and we are more certain of the future—that vic-tory will be ours. We belong to na-tions that cannot be crushed out of existence. We are going to see this war through. We are going to win it, whatever may be required in sac-rifice. We shall overthrow unbridled militarism and conquer a permanent peace for the children of the world. Thus shall we be able, in a little while, to join in the celebration of the deliverance of the nations and the freedom of the world."

Must Tell Age to Get Shoes.

Amsterdam, July 16.—Germans can't get boots or shoes now unless they produce a birth certificate and, if married, a marriage license. This is "to prevent unauthorized persons from obtaining footwear."

Big British Force in France.

Paris, July 12.—The British fight-ing forces in France now aggregate 2,000,000 men, says the Havas cor-respondent on the British front. This equals the number on the front in 1917.

ANNOUNCEMENT

The officers of the Greensboro National Bank are pleased to announce that we are now back in our old building, corner of South Elm and Washington Streets, the inside of which has been remodeled so that you would scarcely realize it to be the same place we occupied last year. We have four and a half times more space, both for convenience of the public and in which to conduct our business.

Wherever a machine can be used to advantage we have installed it, even to a machine to count money. It counts nickels, dimes and pennies, and it can count 50 pennies in five seconds.

Our Savings Department is complete, and we would like to number every person in Greensboro as depositors in this department.

Come to see us. If you have not already seen them we would like to show you the improvements.

Greensboro National Bank,

E. P. Wharton, Pres. Neil Ellington, Vice-Pres. A. H. Alderman, Cashier

LOCAL NEWS IN BRIEF FORM

MATTERS OF INTEREST TO THE READERS OF THE PATRIOT FAR AND NEAR.

Death of Robert Berry.

Robert Edward Berry, the one-year-old son of Mr. and Mrs. J. F. Berry, died at the family home, Seventeenth street, White Oak, Tuesday afternoon at 12:30 o'clock. The funeral was held Wednesday afternoon at 2 o'clock from Lee's chapel by Rev. W. B. Whiteley.

Protracted Meeting.

A protracted meeting will begin at Peace Lutheran church, four miles east of McLeansville, next Sunday. Rev. H. W. Jeffcoat will preach Sunday afternoon at 4 o'clock, and two services will be held daily during the week. The public is most cordially invited to attend all these services.

Wrights-Redwine.

Miss Bessie Wrights and Charles F. Redwine were married Wednesday at the office of D. H. Collins, justice of the peace, on West Market street. Mrs. Redwine is a native of Forsyth county and Mr. Redwine comes from Rowan county. They will make their home in Williamsburg, Va.

G. Sam Bradshaw III.

Mr. G. Sam Bradshaw, of this city, is suffering from plural pneumonia at the home of W. C. Hammer, in Asheboro. Dr. Long, of this city, went over to see Mr. Bradshaw last night, and it is stated that as yet Mr. Bradshaw's condition is not thought to be alarming. His family is with him.

Must Have New Licenses.

Commissioner of Public Safety Phipps announces that all automobile owners in the city of Greensboro, who do not have both state and city licenses will be arrested. No arrests were made up to July 15 in order to give all drivers and owners abundant time in which to secure the same.

Bishop-Hussey.

Bennett Hussey and Miss Daisy Bishop were married last night by Magistrate B. F. Touchstone, at the home of the bride, No. 21 Maple street, White Oak. Mr. and Mrs. Hussey both have numerous friends in the community. He is in training for the naval service now and will return to New York after a fortnight.

Major Ray Dead.

One of the best known and most highly respected negroes of the city, Major Ray, died at his home Sunday night. He had been in the employ of the Southern Railway Company for forty years. He was industrious, trustworthy, and the owner of valuable property. The funeral was held Monday and the body carried to Raleigh for burial.

Y. M. C. A. Officers Elected.

At the July meeting of the board of directors of the Y. M. C. A. Monday evening the following officers were re-elected: J. Norman Wills, president; Milliam H. Preyor, vice president; Vander Liles, recording secretary, and W. E. Blair, treasurer. The board authorized General Secretary J. A. Addison to accept his appointment as district manager for Guilford, Davidson, Rockingham and Randolph counties in the approaching Y. M. C. A. and Y. W. C. A. war work campaign.

Negro Race is Loyal.

As indicating the loyalty of the negro race to the government, it is announced that Haywood Lodge of the negro Knights of Pythias is the owner of liberty bonds and war savings stamps. Nearly all members are subscribers to the Red Cross fund. A committee has been appointed to buy a service flag for the lodge, which will have a goodly number of stars.

Death of Mrs. J. B. Jobe.

Mrs. J. B. Jobe died yesterday morning at 9 o'clock at her home about two miles east of McLeansville, after an illness of about four months. She is survived by her husband, two small children, her father and one sister. The funeral services will be held today at 3 o'clock at Peace church conducted by Rev. Mr. Whiteley. Interment will be held in the church cemetery.

Death of Mrs. Womble.

Mrs. Lydia J. Womble died yesterday morning after an illness of five weeks, age 83 years. Funeral services were held today at Bear Creek, conducted by Rev. Victor Andrews. She is survived by three children, Luther Womble, Jr., of Chatham county; Mrs. J. R. Coggins, of Guilford College, and Peter Womble, of this city. She had lived in Greensboro for nearly ten years.

Death of Mrs. Barnes.

Mrs. S. J. Barnes, who recently suffered a stroke of paralysis, died Tuesday at noon at the home of her son, W. N. Barnes, on Fifth avenue. She was 89 years old, and seven sons and one daughter survive. One of the sons is O. B. Barnes, formerly of Elon College, but now of Greensboro. The funeral was held at the home Tuesday night and the body was carried to Virginia for interment.

Resigns as Superintendent.

L. M. Clymer, who has been superintendent of the Masonic and Eastern Star Home for four years has resigned that position, effective August 1, and will move his family back to the city. H. C. Butler has been selected as resident superintendent. Mr. Clymer has been elected secretary and treasurer to succeed John J. Phoenix, who has entered the Y. M. C. A. war work. Mr. Phoenix sailed this week for France.

Sunday School Convention.

The Pentress Township Sunday School Convention was held at Bethlehem church Sunday afternoon and was largely attended. Among the speakers were Miss Mary E. Moxey, of Boston University, who is an instructor at the State Normal summer school; Mrs. Charles L. Van Noppen, of this city, and Rev. C. S. Kirkpatrick, of Spring Garden M. E. church. Officers elected for the coming year are M. L. Alfred, president; J. R. Ross, vice president, and Miss Beatrice Neeley, secretary-treasurer.

Death of Mrs. Harry.

Mrs. D. R. Harry died Wednesday evening shortly after 8 o'clock at her home on West Market street, following a stroke of paralysis in the afternoon. Her death was sudden, but her family had known for some time that her health was in a serious condition. Surviving Mrs. Harry are her husband and four children, Misses Elizabeth and Frances Harry, Richard and Reece P. Harry. Reece P. Harry is with the American forces in France, while Richard Harry is in Toronto, Canada. Mrs. Harry was born in Rowan county, near Salisbury.

bury, and was the daughter of Frank Neely and Amanda Hall Neely. Mr. and Mrs. Harry have lived in Greensboro for nineteen years, and have many warm friends here. Mrs. Harry was a member of the First Presbyterian church of this city. Funeral arrangements have not yet been made.

Having Examinations.

Many young men of the county have been in the city during the last ten days taking their physical examinations under the local exemption board. Very few of the men in the last registration were married and most of them are strong men physically, so it is not believed that many of them will be given deferred classification. Many of them have waived claim for exemption, and are anxious to get into the service. This registration will be reached next month, and the young men who are not given deferred classification will be leaving for camp during August, September and October.

Hearing in Ice Matter.

The city commissioners have designated Wednesday, July 24, as the date for a hearing in the matter of prices for ice in the city of Greensboro. It will be remembered that prices were considerably increased this spring by both companies. County Food Administrator Vanstory has said that the prices were approved by him and he will be invited to attend the hearing. It is learned that the majority stockholders have agreed to sell their stock in the Piedmont Ice and Coal Company to the minority stockholders and that when this deal is consummated the Piedmont Ice Company will put its prices at the old schedule. If this is done the hearing by the city commissioners may not be necessary.

Sons of Veterans Meet.

The annual meeting of Guilford Camp, Sons of Confederate Veterans, was held Tuesday night in Chamber of Commerce room, with Commandant A. M. Scales presiding. Officers for the ensuing year were elected as follows: Charles A. Hines, commandant; Dr. L. G. Coble, first lieutenant; C. M. Waynick, second lieutenant; G. O. Coble, adjutant; Dr. W. E. Cole, surgeon; C. Austin Hancock, quartermaster; Rev. R. Murphy Williams, chaplain; P. M. Dillon, treasurer; Joe S. Phipps, color sergeant; G. Sam Bradshaw, historian. It was decided to have a meeting of members at a luncheon or supper early in September, and at that time delegates will be elected to the annual reunion to be held in Tulsa, Oklahoma, the last week in September.
