BOHEMIANS ON BATTLEFRONT

NOW FIGHTING WITH THE ITALIANS AGAINST AUSTRIA—OUTLOOK OPTIMISTIC.

London, May 2.—The Daily Mail's correspondent at Italian headquarters says that Bohemian troops are joining the Italian troops against Austria and that the first detachments are already on the Italian fighting line wearing Italian uniforms.

No Further Infantry Onslaughts.

Having been defeated with enormous losses in every phase of the fighting around Ypres, the Germans have attempted no further onslaughts. Inaction prevailed Wednesday before the positions held by the British and French troops, especially those in the hands of the British, which it had been the ambition of the Germans to capture.

Since Monday, what activity there has been in this region was carried out by the British and French, both of whom have materially bettered their positions—the French near Loos and the British at Meteren. On both sectors ground was captured and prisoners were taken. The pause in the offensive, however, apparently is not to be taken as meaning the end of the German attempts to crack the allied line. All along the front the big guns are roaring and shells of all calibres are plunging the terrain and the areas far behind them, and fresh German reserves, to take the places of the thousands of men killed, wounded or made prisoners, are being hurried to the front.

Indeed, advices from the British front in Flanders are to the effect that another furious drive by Von Arnim is in immediate prospect. Emperor William has been at the front delivering flamboyant speeches to the troops in an endeavor to spur them on to victory.

Meanwhile British and French artillerymen are sending a veritable rain of shells on Mount Kemmel, the chief point of vantage gained by the Germans in the Ypres sector. Thus far the allied guns have held back all attempts by the enemy to reinforce his men on the hill, and if the good work is kept up the hilltop is likely to soon prove to be a death trap for its captors.

Nothing as yet has been vouchsafed regarding the inter-allied war council which is holding sessions at Versailles which are expected to bring forth decisions of great moment. Representatives of all the allies are in attendance.

Great faith in the ability of General Foch and the allied commanders on the western front again has been expressed by M. Clemenceau, the French premier. Returning from a visit to the front the premier said he considered the line stable, and that as a result of the steps taken by the various commanders it was outside the realm of immediate danger.

LOYALTY DECLARED

BY LUTHERAN SYNOD.

New York, April 30.—No assistance or guidance has ever come to the American Lutheran church from the Hohenzollerns, who have not been Lutherans since 1614, or from any other sources in Germany, and accusations of disloyalty to the United States of American Lutherans are attributable to either ignorance or malice, according to resolutions adopted at the annual convention of the Atlantic district of the Missouri Lutheran synod here today.

More than 165,000 Lutheran men now are engaged in American war service, the resolutions declare, adding "there is no more democratic institution in the world than the Lutheran church."

Political Parties Fail to Agree.

Richfield, April 30.—The Democratic and Republican committees, appointed to negotiate on the proposition to eliminate a political campaign in Rockingham county, met at Wentworth Saturday and conferred over the plan. After discussing the matter at length the committees failed to reach an agreement. So the usual county political campaign will take place next fall. Many men of both parties had hoped the bickering and strife of county politics could be avoided, but their hopes are apparently doomed to disappointment.

GERMAN EFFORTS FRUITLESS

BRITISH AND FRENCH YIELD NO GROUND—TERRIFIC FIGHTING.

With the British Army in France, April 29.—This has been one of the bitterest days of fighting that the Flanders battle ground has seen since the present offensive began. Since early morning Von Arnim has been flinging great numbers of German troops against the allied lines between Zimbeke Lake and Bailleul, with the hills east of Mount Kemmel as his ultimate objective.

Germany's armies are hurling themselves against a granite wall on three sides of the ruined city of Ypres. After fighting of the most terrific nature the British and French lines are still intact and the enemy has lost terribly in his repeated assaults against the lines where the allies stand at bay.

The objective of the fighting that now is going on is the capture of Ypres where since 1914 the British have held their positions. Two years ago the allied lines were carried forward and the salient in front of the city was wiped out, but from those positions the British retired a week ago to the trenches where they stood during the terrific fighting in the spring of 1915, when they stopped the Germans in their first drive for the channel ports.

Fruitless of Results.

The present battle opened with a bombardment of the British and French lines from Meteren to Voormezele, a distance of twelve miles. Then came reports of a spread of the fighting around the curve in the line in front of Ypres until the Belgian armies north of the city were involved. Field Marshal Haig's official report, anxiously awaited, brought the news that the utmost efforts of the Germans had been fruitless all along the line.

Enemy Paid Great Price.

The field marshal's statement said that the teutons had paid a great price and had gained virtually nothing.

The battle still continues along the front, but there is little indication that an immediate withdrawal from Ypres is contemplated by the allies, at least not until they have exacted from the enemy a great sacrifice of human lives.

The only point at which the Germans made any gains was on the hilly section of the front back of Kemmel Hill, where the French are standing. At some points the enemy was able to occupy portions of the line but from the greater part of the city were driven out by the French who re-established their defenses. Frontal attacks on Ypres would seem to indicate that there is little confidence in the German general staff that the Ypres positions can be outflanked from the south.

Allied Lines Strong.

The lines as they stand today are very strong and withstood the onset of the Germans in 1914 when the teuton emperor's army was a much different machine than it is today.

The bloody repulse of the Germans in their great plunge forward will mean much in further operations in that sector of the battle line.

Allies Repulse German Attacks.

London, April 29.—Field Marshal Haig tonight reports that powerful attacks by the Germans against the French and British positions between Meteren and Zimbeke today were repulsed, the Germans losing heavily. The British line held absolutely, but at various points the Germans gained a foothold in the French positions, only to be driven out later from the greater part of this territory.

The Belgians also repulsed heavy attacks, inflicting severe casualties on the enemy.

A Patriotic Tar Heel Woman.

Washington, April 29.—A message from Richmond said that one woman in North Carolina had sold her farm for \$50,000 and invested the proceeds in liberty bonds. It also said that the campaign among negroes was bringing good results.

"The navy is not only ready to fight, but it will also give everything possible to aid in other ways," said a radio message today to Rear Admiral Cowie, navy liberty loan officer, from Admiral Mayo, commander in chief of the Atlantic fleet.

CASWELL FARMER ASSAULTED

ASSAILANT RUSHED TO PENITENTIARY FOR SAFE KEEPING UNTIL TRIAL.

Durham, April 30.—John Lewis, a small, black negro, was this afternoon rushed to Raleigh in an automobile by Deputy Sheriff Sparrow, of Orange county, to avoid his being taken from the Orange county jail and lynched. He will be held in the state penitentiary for safe-keeping.

Lewis is charged with having yesterday afternoon committed a bold and deliberate murderous assault upon Nat Wilson, a prominent young tobacco farmer of the Cedar Grove section of Caswell county. The assault was made by Lewis, whose motive was supposed to be the theft of an automobile belonging to Wilson. Wilson is at the Watts hospital, in this city, in a critical condition as a result of the assault. He has two shot wounds in his abdomen and numerous cuts and bruises about the head. His front teeth are out.

How It Occurred.

The Lewis negro for several days had been negotiating with Mr. Wilson for the purchase of an automobile belonging to the young farmer. Yesterday afternoon they agreed upon a price. The negro told Mr. Wilson that they would ride to his home in the machine and get the money.

Near the negro's home and in a secluded spot, Lewis told Mr. Wilson to stop. "My father will meet us here," the negro is said to have told him. The young man brought the machine to a stop and turned to look down the road. When he turned Lewis drew his pistol and as the white man again turned began firing.

The Assault.

Lewis fired two shots. Both of them entered Mr. Wilson's abdomen. Realizing the negro was trying to kill him, the white man jumped from the machine and struggled with his assailant. His wounds, however, and loss of blood weakened him. He dropped to the road. Not satisfied the negro procured a stick and beat him over the head, cutting several deep gashes and abrasions, as well as knocking out his victim's teeth.

Doubtless thinking the young man dead, the negro dragged him along the road and through the woods to a nearby creek. He then threw his body into the water, and covered it with plank and huge rocks.

Cold water stopped the flow of blood and brought fresh life to Mr. Wilson. He struggled from underneath the improvised cover, and reached the bank. Hardly able to stand, the young man half walked and half crawled to a farm house more than a quarter of a mile away. He gave the alarm.

Brought to Durham.

After Mr. Wilson was given first aid, he was rushed to Durham in an automobile. Dr. L. S. Booker operated upon him last night, and today he is said to be improving. Dr. Booker reported that the young man's condition is encouraging. It was stated by the surgeon, however, that the victim of the assault is badly injured.

Hunt Negro.

Armed posses immediately after the alarm began the hunt for the negro. Last night they surrounded him in a strip of woods near the Cedar Grove section. He was armed, but outnumbered in force, his capture was without bloodshed. The negro was surprised when informed that the young man had removed himself from the creek. In custody of the sheriff, Lewis was taken to the Orange county jail at Hillsboro, where he is held pending the fate of the young man assaulted.

Senate Passes Overman Bill.

Washington, April 29.—Rejecting all amendments designed to limit the president's authority, the senate late today passed the Overman bill with its general grant of power for the executive to co-ordinate and reorganize government departments and other agencies during the war.

The vote on final passage of the measure, which now goes to the house, was 63 to 13 and was regarded as complete success of the administration in the fight with its opponents who have so long sought specific limitation of the president's authority.

GREAT WAVES OF GERMANS

FAIL IN ATTEMPTS TO BREAK THROUGH THE BRITISH-FRENCH LINES.

With the British Army in France, April 30.—Further desperate smashes by Von Arnim's army against the allied lines on the Flanders battle field yesterday afternoon and evening met with no more success than the enemy's futile and costly attempts earlier in the day to break through and capture the hill positions west of Kemmel.

Reclaim Lost Territory.

Not only did the British and French maintain their positions at virtually all parts in the face of furious onslaughts, but during the night they reclaimed several bits of territory on which the enemy had succeeded in getting a hold.

Loos had again fallen into German hands late yesterday but the French once more made a dashing counter drive, and thrust the enemy out of the important place.

Awful Price Paid by Enemy.

The allied lines in Flanders this morning were to all intents the same as when the Germans surged forward yesterday and in front of the defensive positions gray uniformed men lay in great numbers, representing the awful price paid by the Germans.

North of Kemmel the British and French, countering in conjunction also pushed forward somewhat during the night and bettered their positions. At one time yesterday the Germans actually had some men on the lower slopes of both Mount Rouge and the Scherpenberg, after they succeeded in driving a small wedge into the French line between these two elevations.

Fiercest fighting continued about Loos all day and the enemy sacrificed great numbers of men in an attempt to push through here.

In the Kemmel-La Clytte the flanks were held brilliantly against successive shocks. A particularly bitter battle was waged astride the Kemmel-La Clytte highway, near the junction of the French and British. Here the enemy tried his favorite trick of dividing the two forces, but he found no weak spots.

All-Day Battle at Ridge Wood.

At Ridge wood, west of Voormezele, heavy fighting also continued throughout the day, the Germans losing great numbers of men, both killed and wounded. It is impossible to say how many attacks the enemy made at this point during the course of the day; they came forward in waves throughout long hours. There was no cessation of the terrible battle. The wonder is that the allied troops were able to hold in the face of such onslaughts by superior numbers.

The German artillery which had been greatly augmented for this attack, pounded the back areas incessantly, and the duel between the opposing guns of all calibres from Saturday evening until last night was appalling.

The British improved their position slightly before Villers-Bretonneux. The enemy artillery was very active in this region, and the enemy guns were increasingly busy from Vimy northward.

Thus far the German capture of Kemmel has done them little good, for the allied artillery has kept the crest of the hill so smothered with shell fire that it has been impossible for the enemy to occupy it in force.

Americans Repulse and Slay Germans.

With the American Army in France, May 1.—A heavy German attack launched yesterday against the Americans in the vicinity of Villers-Bretonneux was repulsed with heavy losses for the enemy. The German preliminary bombardment lasted two hours and then the infantry rushed forward, only to be driven back, leaving large numbers of dead on the ground in front of the American lines.

Greensboro Man Lands.

Washington, May 1.—W. J. Sherrod, a lawyer of Greensboro, was today appointed to a position in the investigating department of the department of justice. The fixed compensation of such services is \$4 a day salary and \$3 a day allowed for expenses.

GERMAN ATTACKS A FAILURE

THE GROUND ALONG THE BATTLE FRONT COVERED WITH DEAD TEUTONS.

Paris, April 30.—In the sector of Noyon the Germans in attacks today made gains in advanced French trench elements, but later were driven out and the French re-established their lines, according to the official communication issued by the war office tonight.

In the region of Hangard, there has been a violent bombardment.

Again there has come a pause in the battle of Flanders where the ground everywhere is covered with the gray-clad bodies of German dead and the British and French are holding securely to all their positions.

From Saturday until well into Monday night Gen. Von Arnim's forces continued their efforts to break the British lines on the Ypres salient and to press back the British and French from the high ground to the southwest, but everywhere their efforts were fruitless. True, they gained their objective and again captured Loos, but a counter thrust forced them out again and at last accounts the French were holding the village.

In the hilly region just to the north of Loos the British also pushed back the enemy at several points, notably between Kemmel and La Clytte.

Much of the snap of the German attacking forces has been absent from the maneuvers they have been carrying out in Flanders under the stiffened line of the entente troops, which has been apparent since last Sunday.

Failed at Amiens.

To the south near Amiens and to the east around Noyon the enemy likewise has failed in all his attempts to push farther forward. The British east of Villers-Bretonneux, which lies directly east of Amiens, have advanced their front and in the Noyon sector the French have re-established their lines which the Germans previously had captured from them. The Germans on various sectors of the line are still hurling tons of steel against the British and French positions, but the allied guns are everywhere answering them in kind.

Allied Counter Attack About Due.

While the present halt in the battle possibly may indicate the near approach of the throwing into the fray of the great reserve army which General Foch has gathered, that such is the intention of the supreme commander of the allied forces has not become apparent. It is not improbable, however, that at a meeting of the inter-allied war council in Paris Wednesday which will be attended by the American, French, British and Italian representatives, measures having in view the turning of the tide of the battle will be uppermost in the discussions. In all the various war theaters except the western the situation remains relatively calm so far as fighting is concerned. All along the front in Italy reciprocal bombardments continue and small maneuvers by reconnoitering parties are being carried out.

Five Years For German Publisher.

Kansas City, Mo., April 29.—Carl Gleeser, publisher of the Missouri Staats Zeitung today pleaded guilty in Federal court before Judge A. S. Van Valkenburgh, to a charge of violating the espionage act. He was sentenced to five years in the Federal penitentiary at Leavenworth.

With Jacob Frohwerk, connected with the same German language newspaper, Gleeser was indicted by a federal grand jury recently as a result of articles appearing late last year in the publication attacking the administration and covertly defending Germany in the war.

Enemy Aliens Are Given Tar Coats.

Johnston, Pa., April 29.—Twenty aliens, the majority of them Austrians, were tarred and feathered by residents of Conemaugh, a suburb, when they refused to contribute to a fund being collected to purchase uniforms for home guards. The men, it is said, had refused to purchase liberty bonds of any of the issues, to join the Red Cross or to participate in any movement which had patriotic as its incentive. The tarred and feathered men were paraded through the streets and later were arrested.

AMERICAN TROOPS AT AMIENS

SAMMIES ARE NOW FACING THE GERMAN FORCES AT THIS POINT.

Washington, April 29.—Official announcement that American troops are in the trenches in the Amiens region was welcomed by officials here. It has been known for some time that a considerable force had been assembled in that vicinity but the fact that the Americans were actually in line, facing the German army at this point where the final battle is being staged, had not been communicated.

East of Amiens.

The only statement as to the ground occupied by the American forces is that it is east of Amiens. Since unconfirmed dispatches describe the sector as not directly involved in the present fighting at Hangard and Villers-Bretonneux, however, it is assumed that the new comers have been placed somewhere along the line to the southeast of Hangard, toward Noyon. If so, officers here believe that these American units may share in the ultimate triumph of the allied armies directly, as it is from this flank of the Picard battlefield that it has always been anticipated any great counter movement would be launched.

Number Not Revealed.

The number of American troops in this part of the line and their organization has not been revealed, but the presence of American artillery indicates tactical units of considerable size. The force serves to relieve veteran French units for employment by Gen. Foch as a mobile reserve to back up hard-pressed sectors of the French and British fronts or to be held in readiness for counter blows.

Increased Army Program.

The increased army program, necessitated by the German drive, it is learned probably will be laid before Congress by Secretary Baker within the next few days. The whole question of available equipment, quarters and transport tonnage has been reviewed recently in preparation for submitting these figures.

Add a Million Men.

There are some indications that efforts will be made to add a million men to the army at the earliest possible time, supplementing the million and a half already in colors and the 800,000 previously scheduled to be mobilized this year. The result would be the necessity of providing low, funds for a force of more than 3,000,000.

If a large increase in the number of divisions now organized or in process of organization is planned, it will be necessary to secure an amendment to the selective service act removing the present restriction of the draft to two units of 500,000 men each. While the act places no limit upon the raising of replacement troops as may be necessary officials hold that no legal right exists for the organization of additional line units.

GERMAN DEMANDS ONLY HEALTHY PRISONERS.

Washington, April 29.—Germany has demanded of Russia an exchange of prisoners and has threatened to take Petrograd unless the Russian government agrees to the terms advanced, the state department here has learned.

The German government, so the state department's dispatch says, is sending to Russia a commission of 115 members to present the German demands.

The German demands, as outlined, call for the immediate release of all German prisoners who are in good health; that those who are ill shall remain in Russia under the care of neutral physicians and that the Germans on their side will release only those Russian prisoners who are ill or incapacitated.

Cuba Doing "Her Bit."

Washington, April 29.—Cuba's enthusiastic liberty loan drive by which it is expected to raise more than the \$1,660,500 subscribed in the last liberty loan campaign has begun with so much energy, and has been attended by so much encouragement so far, that the members of the Havana general committee are confident that the previous total will be exceeded by a large margin.

JUDGE URGES PATRIOTISM

IN CHARGE TO GRAND JURY HE TALKS OF WAR—SUPERIOR COURT WORK.

Judge W. J. Adams in Superior court Monday morning took occasion to deliver a powerful charge to the grand jury and a thoughtful patriotic address. He spoke of the special duties of the time of war, and said it is necessary for the men in the field to know that those at home are standing loyally to the cause.

Judge Adams said historians have shown the essential difference between the Celt and the Teuton. From centuries back the German race has fought for conquest, for booty; while the Celt has stood throughout for liberty and justice. While the Celt fights to liberate the weak, the teuton destroys the weak and takes possession of his possessions.

These racial tendencies have come down through the ages, transmitted from generation to generation and they are dominant now, the judge stated. God put the two contending forces in the world, and they have survived somehow, despite the constantly changing mental attitudes of men.

The German worships his "superman," and underlying all his art, literature and theology, the love of brute force remains clearly observable. He worships not the God we worship, but one of overriding power and cruelty to the helpless.

Judge Adams referred to a letter from a German school girl in Switzerland, in which she expressed the sentiment that the Germans only have the right to live and that all who oppose them are criminals. She said all others are "weeds" and the great emperor has decided to exterminate the weeds.

He spoke of the statement of the German admiral to Admiral Denny in 1898, to the effect that Germany would be at war 15 years, would enter Paris two weeks after the beginning of the struggle, and would follow success with success until New York should be taken and indemnity collected from the United States.

Judge Adams said he directed the attention of the jury to these things not that they should fight but that they should be on duty at home, ready to support the conflict with every service they could render. He urged the buying of liberty bonds, savings stamps and the rendering of service wherever the government directed.

The grand jury which has been serving for several months has as its foreman John J. Phoenix, and the members are W. H. Smith, W. J. Blair, R. L. Small, C. L. Kirkman, C. W. Canada, Charles E. Hanner, P. W. Coble, J. A. Heath, W. J. Stafford, Jerome Leonard, Frank Gurley, L. C. Scott, T. D. Whittington, J. A. Dol, R. L. Coble, J. S. Ingold and James A. Cook.

John C. Bower, of Lexington, the solicitor, presented the docket. The business of Monday was dispatched rapidly. R. C. Ray, a white man, pleaded guilty to the charge of speeding and was fined the case.

Sharp Curry, a small negro, admitted his guilt of the charge of "maiming," confessing he bit the ear of policeman Wray.

Ollie Sellars, a negro woman, who appealed from a sentence of six months for retailing, was convicted by the jury but was not sentenced.

Berkley Williamson, a small negro, frankly confessed that he stole money from the Elm Street Pharmacy. The charge was breaking and entering. The court has not disposed of the case.

Fred Ledwell, a negro prosecuted with J. M. Freeman, a white neighbor, as the chief witness, was acquitted of the larceny of some corn from Freeman's field.

E. F. Clodfelder, a young white man who was charged with larceny was released.

M. M. Levy, white, who was charged with assault by his wife from whom he is separated, appeared in court to respond to call in a case on the docket and to show compliance with the judgment in the case tried in another term of court, was presented with nol pros in the remaining case. He was ordered to renew his bond to assure his appearance again next April. He said that his wife was allowing him to see his two children occasionally, as ordered by the court.

George Harvell and John Fields, two white boys, were convicted of the larceny of about \$100 worth of brass from the Revolution cotton mill. They were not sentenced.

Tuesday the grand jury found a "true bill" in the indictment of Ned Dorsett, a 70-year-old negro, charged with criminal assault. The chief prosecuting witness is a negro girl, Rosa Culbertstone. The trial will be held this week.

Oscar Garner and June Massey, of Revolution mills, the two white men

who were tried Monday for affray, were convicted by the jury. Judge Adams did not sentence them.

Charlie Holt, white, who has fallen and been given a new chance and fallen again, time after time, was in court on a retailing charge. The defense was that he got the whiskey from another, and the evidence hopelessly inveigled the jury into discussion. After hours together, the 12 men were discharged from this particular task, entirely disagreed. The case was continued for trial later.

Pleading guilty to forcible trespass when he was charged with larceny, Jack Mitchell, a negro, escaped easily, paying the court costs.

Clarence Gordon and Lewis Coletrane, two white young men, figured as defendants in a case wherein the charge was receiving and disposing of stolen property. They were acquitted. Gordon pleaded guilty to carrying a concealed weapon.

Charged with the murder of Jesse James, a friend, Theodore Matthews went on trial yesterday afternoon. The deceased and the defendant were both negroes. The latter is not on trial for his life, as the solicitor yesterday indicated that he would not hold for a first degree murder verdict.

Boyd Smith, white, of High Point, was tried for an assault on two girls. They testified that the young man invited them to take a ride with him and sought to embrace them after they had accepted. He was not convicted.

J. M. Matthews, white, for letting his dog run at large in High Point, was acquitted.

Admitting his guilt of perjury, Andrew Garrett, white, of High Point, all the costs and gave bond in the sum of \$100 for his appearance next year to show good behavior.

Robert Faust, a negro, was found guilty of assault. He was not sentenced.

James Southern, a white man, was convicted of distilling near Summerville. He was convicted on the evidence of a former associate in the illegal business, Sam Reid, who turned state's evidence. Neither was sentenced yesterday.

The term will adjourn sometime May 10.

GROUP OF NEGRO SELECTMEN GO TO CAMP JACKSON.

Many negroes from North Carolina joined the colors Tuesday and left for Camp Jackson, Columbia, S. C.

Lieut. Henry Foust arrived early Sunday from Columbia to accompany them. He had in his company nearly 600 men before the train reached its destination. Included were selectmen from all the counties surrounding Guilford and from others down to the South Carolina border, taking in Gaston county.

Monday the men appeared for induction. Only five of the men summoned, including one of the alternatives, failed to appear. Those who did appear were as follows: Lieut. Foust, with him as assistant. They will command under Lieutenant Foust.

The board at the time of induction, 2 o'clock Monday afternoon, placed Robert Jones in charge of this particular group, with Asbury Jackson, Paul Cross, George Bond and J. M. Sharpe as assistants. They will command under Lieutenant Foust.

Those from Guilford board No. 1 were: Bethel Douglass, Edmond Turner, Cornelius McCollum, Joseph H. Gibson, Golden A. Wiley, Lemie D. Young, Allen Love, Dewitt T. McMarrow, Geater Radcl, Walter D. Burton, Henry Foust, John Nichols, James A. Neal, Walter L. Hayer and Fletcher Robertson.

From Greensboro the following went: Bernice Davis, a teacher; Herbert Cowan, driver; Waddell Leach, cook; Ernest Kearns, fireman; Ed Watkins, John Haughton, Thomas Lymer, Arthur Long, Leslie Bradshaw, James Lemley, all laborers; John E. Clark, farmer; William Simpson, driver; John McCauley, Jr., cafe proprietor; John Haynes, laborer; Asbury F. Simpson, porter; Willie Rodgers, farmer; Robert E. Jones, elevator operator; Walter Atwater, ice cream manufacturer; Paul Crews, butcher; Nathaniel Robinson, railroad laborer; George W. Doak, janitor; Robert Emerson, teamster; John Sharpe, waiter; Henry Sharpe, cook; John Humbert, cook; James Ray Blackwell, farmer; Percy Winchester, laborer; Wesley Dilworth, laborer.

The alternates who responded were Nathan Clapp, laborer; David Curry, delivery man; Cornelius Young, cook, and Genile Mock, painter.

Lieut. R. W. Glenn, of this city, has arrived in France.

IT IS IMPERATIVE TO GROW MORE CORN THIS YEAR.

West Raleigh, April 30.—There is imperative necessity for the growth of a large corn crop in the state to meet the needs of our own people this year, states Mr. C. B. Williams, of the division of agronomy, North Carolina experiment station. Here, before we have been depending too largely on certain sections, upon buying corn from outside the state. This has not been to our best interests even in time of peace. At the present time, when our country is making every effort possible to send as much wheat as we can possibly spare to our allies in Europe, it is of the highest importance that we grow corn.

Heretofore, we have not produced enough wheat to meet our own demands. It is probable that notwithstanding the increased acreage devoted to this latter crop this year, much of it will be needed, and needed badly, to be sent abroad for the armies of our own soldiers and our allies. To spare this wheat, it will be necessary for us to provide more corn than we have produced heretofore, for there is every indication to lead us to believe that we will have to, in our own homes, depend more and more upon corn as a material for bread-making.

There should be an increased production in this state this year of at least 10 per cent. Twenty per cent would be decidedly better. In increasing the acreage, we should see to it, too, that the land, if possible, is better prepared than heretofore and the right kind and amounts of manures and fertilizers are used for the corn. By observing these precautions there should be not only an increase in the yield due to an increase in the acreage, but an increase brought about by better cultivation and fertilization per acre. The latter increase is the increase that is going to be secured at the smallest price per acre when the corn is properly handled.

CYCLOPS STILL MISSING NOT LEAVING A TRACE.

Washington, April 30.—As the final phase in the search for the missing naval collier Cyclops, the navy department announced today numerous boat crews are being landed by warships to question fishermen along the coasts of the West Indian Islands near the route taken by the collier when she sailed from Barbados nearly two months ago.

Not one of the many vessels engaged in the search has reported the finding of wreckage or of any other clue that would aid in solving the mystery. Navy officials admit that the time is drawing near when they must formally give up for lost the big collier with nearly 300 persons on board.

"SOLDIERS OF THE SEA" PRAISES GEN. PERSHING.

Atlanta, Ga., April 29.—"Believe me, there is not a marine in France who would not go through hell for General Pershing." This is the grim and heroic manner in which the "soldiers of the sea" pay tribute to the American leader, according to a letter Mrs. W. M. Walton, of this city, received from her son, James, who is a member of the corps now fighting in France. General Pershing has frequently praised the marines on various inspection tours, and has thereby endeared himself to the men of that service. "Squareheads" are what the marines call the Germans, writes Private Walton, who wears a sniper's medal.

AMERICAN SOLDIERS RECEIVE WAR CROSSES.

With the American Army in Lorraine, April 29.—On a hillside a few miles from the trenches the one hundred and fourth regiment and the one hundred and twenty-two Massachusetts men received the Croix De Guerre this afternoon for bravery and valor in repelling the German attack on Apremont wood (Toul sector) in the three days, beginning April 10. This was the first American regiment to receive the French war cross. All the traditions of Bunker Hill, Lexington and Concord were upheld by these modern "minute men."

It was an inspiring sight, as this entire regiment formed three sides of a square, leaving vacant places for their wounded and fallen comrades. The regimental band played "The Star Spangled Banner" and the "Marseillaise." The crosses were pinned on the men by French and American general officers, who shook the hand of each recipient. The entire regiment then marched by the hill crest, with the band playing and Old Glory waving.

"It is the best flag in the world, boys," exclaimed a young lieutenant. It was a dull day in the American trenches so far as infantry actions were concerned, but the dull boom of American and German guns furnished a fitting obligation for the impressive ceremony.

A PILOT MOUNTAIN SPRING SNAKE STORY.

Pilot Mountain, April 30.—Dr. Flippin's little daughter, Joyce, had an interesting experience yesterday afternoon. The doctor and his wife, accompanied by their son and daughter, Sam and Joyce, had gone over into the fields back of Dr. Flippin's residence to inspect the plant bed. While the older ones were looking at the plant bed, little Joyce was attracted by an old rabbit gum, which was some distance from the bed. After examining it for some time she decided that there was something in it alive and called Sam to investigate. After a time Sam went to relieve her suspense and to satisfy her curiosity. He raised the door and a large highland moccasin ran out. While he was killing it another crawled out and after it another and another, making four in all, which were promptly killed by Sam, who then investigated the gum to make sure that there were no more.

His Friends Are "Over There."

Anniston, Ala., April 29.—Wallace Elston, negro farmer of McFall, Ala., near here, was called from his plow by a member of the liberty loan committee and asked to subscribe for a bond. The bond issue was explained in detail and he was told that the bank would let him buy it on payments. "Jest write me down fo' \$50 boss," said the negro, as he drew a heavy-laden wallet from his pocket. Looking over the contents, he said: "Make it a hundred, and I doan want no bank credit. I've got \$400 more here in dis wallet an' ef Uncle Sam needs it, yo' jest call around. I's got friends fightin' 'over there!'"

Thousands to be Refunded.

Raleigh, April 29.—In the prosecution of Joel F. Armistead, of Atlanta, on the charge of fraudulent stock sales for the Empire Steel Company, chartered in Delaware and North Carolina, the state insurance department agrees to an adjustment whereby \$15,000 is refunded the purchasers of the stock. Armistead to plead guilty and receive a suspended judgment.

COULD TRAIN 3,000,000 TROOPS IN ONE YEAR.

Washington, April 30.—America can put 3,000,000 men on the fighting line in France within a year if ships are ready, according to Adjutant General McCain before the house military affairs committee.

"I do not see any reason, if we could get the ships, why we could not send over three million men after giving them sufficient training in this country," he said.

"If we have to have five million men and get sufficient ships, could we have five million men over there in two and one half years?" asked Representative Morin.

"I think we can do it before that, if we are willing to take a chance here and there—willing to go in without fear of making a mistake," replied General McCain.

He said his estimates were based on giving the men three months' training in this country and about the same time in the "war atmosphere" over there, as he called it.

Questioning as to his opinion of increasing the draft age to 40, the adjutant general said he "saw no objection to it."

Other testimony before the military committee revealed that America is building 375 hospitals of 1,000 beds each in France and the United States. The cost of each, according to General Black, chief of engineers, will be about \$350,000. Based on French and British experience, this number will suffice for an army of number will suffice for an army of

SHIPBUILDERS RESPOND TO SHIPPING BOARD'S DEMAND.

Washington, April 29.—American shipbuilders have responded to the shipping board's urgent demand for speed in production. In the week ending today, they launched 41,105 tons, making a total of 1,405,000 tons since the building program got under way. Nearly 500,000 tons of completed ships were delivered during the week.

Three steel ships aggregating 18,305 tons and one wooden ship of 3,500 tons were launched in one day.

One of the four wooden ships put into the water during the week, the Caponka, of 3,500 tons, was launched by the Grant, Smith, Porter Company, Portland, Oregon, in 50 days from the time the keel was laid, the shortest time ever recorded for launching a hull of that size.

X. P. WILFLEY TO SUCCEED SENATOR STONE.

St. Louis, April 29.—Xenophon P. Wilfley, member of the St. Louis board of election commissioners and a well known Democrat of Missouri, tonight was tendered by Governor Gardner the seat in the United States senate vacated recently by the death of Senator W. J. Stone. Wilfley announced he would accept the appointment and left for Jefferson City to confer with the governor.

Wilfley is the fourth man to be offered the senatorship by the governor. David R. Francis, ambassador to Russia, was first offered the place, but Secretary of State Lansing was not in favor of his accepting it as it would take him from his present important duties. Champ Clark, speaker of the house of representatives, next was tendered the appointment and he declined. Chief Justice W. W. Graves, of the Missouri Supreme court, also declined the appointment.

Father and Son Killed.

A Selma special says that Mr. Robert Webb and his son, Robert Webb, were killed Saturday afternoon at a grade crossing there by a north-bound Atlantic Coast Line train. Mr. Webb and his son were in a wagon, which was being drawn by a mule. The animal was also killed and the wagon demolished. The accident occurred at 12:07. Young Webb was killed instantly. Mr. Webb lived for two hours. Mr. Webb was about forty years of age and his son was about sixteen. He was a farmer and lived at the Grantham place in Boone Hill township. He is survived by an invalid wife and three children.

Inhuman Treatment Gets Protest From Belgians.

Washington, April 30.—An official dispatch from Holland says that the Telegraaf publishes a letter sent by the Belgian senators and deputies to the general protesting against the treatment of Belgians. Many of the population, some of them under 16 and others over 50 years of age, have been taken from their homes to the Flanders front or to the north of France to work while exposed to bombs and shell fire.

Samuel Gompers Seriously Ill.

Montreal, April 30.—Samuel Gompers, president of the American Federation of Labor, was taken suddenly ill while addressing a mass meeting of labor representatives here last night.

TOTAL OF 240,000 TONS OF SHIPPING IN APRIL.

Washington, April 30.—A total output of 240,000 tons of new shipping for the month of April was reported to the shipping board today by Commissioner of Navigation Chamberlain. Two-thirds of the tonnage was constructed in the last half of the month.

At that rate the output for the year would approach 3,000,000 tons, but shipping board officials are looking to much higher monthly totals as building gets under way. The best previous month's construction was in June of last year, when 228,154 tons were built. The total in March was 163,700 tons.

The shipping board's own figures on April construction will not be announced until complete reports have been received from all shipyards. Those from Pacific coast yards may not be in hand before the middle of next week.

"To the lay mind unaccustomed to shipbuilding figures," said a statement by the board making public Mr. Chamberlain's report, "this total of 240,000 tons may not seem very impressive. But it means that during the 26 working days in the month there were turned out on an average 9,000 tons of ship construction a day."

BUTLER URGES PEOPLE TO BUY LIBERTY BONDS.

Clinton, April 30.—Ex-Senator Marion Butler yesterday at the noon recess of court addressed a large gathering of the people of Sampson, his home county, in the court house on the war and the purchase of liberty bonds. He made an able and effective speech and strongly impressed upon the people the patriotic duty of buying all the bonds they can take. He was heartily applauded during his address and at the close more than ten thousand dollars were taken in bonds in addition to the twenty-six thousand taken last Friday at a meeting.

The county of Sampson has passed the \$100,000 mark in liberty bond subscriptions and has also taken some \$15,000 in war savings stamps.

There is no slacking here or room for a slacker. The people are of one mind and one determination to do their part in winning the war. Senator Butler will probably speak at other points in the state in behalf of the present bond issue.

Greeks Buy Bonds Liberally.

Durham, May 1.—Durham Greeks purchased \$5,000 liberty bonds in the campaign just closed, according to completed reports. The Greeks in every city in the country have responded in a similar manner. In New York they have purchased more than half a million dollars worth, and in Chicago over a million dollars worth.

Figures obtained by members of the Greek colony in this city are as follows:

Heffing, Minn., \$25,000; Marlboro, Mo., \$8,500; St. Louis, Mo., \$88,000; Chicago, Ill., \$1,180,000; Oklahoma City, \$13,000; Fall River, Mass., \$17,900; Boston, Mass., \$10,850; and Gurney Point, \$17,000.

ARE YOU TAKING THE WAR SERIOUSLY?

Are the people of North Carolina taking the war seriously enough? Are they taking the work of the war savings campaign seriously enough? Do they know that every bit of needless material they use for their own comfort is taking something away from those who are supplying the ships, the shells, the cannons, the aeroplanes, the rifles, the army clothing and the machine guns which are needed, and need now, to win this war? The thunder of the German guns on the western front and the victories they have recently won should arouse every North Carolinian to the need of instant sacrifice.

Germany is making a gigantic effort to overwhelm the allies before America can get ready and get there in full force. The kaiser knows that if he gives America time to build up a big war machine, he is lost. The lesson to us is plain. It is that we must hurry. We must deny ourselves everything possible, that the government shall not lack what it needs and must have. We should save, save, save, and we should invest every cent we can spare in government securities. Every man, woman and child in the country is asked to save \$20 and invest it in war savings stamps. Those who can do more should do so at once. Delay will cost us thousands of lives of our young men and may in the end cost us our victory.

WE "MUST" WIN.

Herbert Quick, the able editor of Farm and Fireside, puts it this way: "Never since the Turks threatened to overwhelm Europe, perhaps not even then, was the world in such danger as now. Germany is not yet defeated. We must defeat her this year. Unless we win, our place in the world is lost and our history as one of the 'servient nations' begins. We must withhold nothing from the support of the war. We must give our sons. We must bring forth food in abundance, multiply our labor to that end. We must give into the treasury of the United States every cent we can spare. This summer the support of the war is up to the farmers; and Uncle Sam has never called upon the farmers in vain!"

AN ATTRACTIVE SIGN.

The National Cash Register Company at its own expense is going to produce 600,000 attractive signs reading "How Much of Your Change Do You Want in Thrift Stamps?" These signs will be corded and placed in the hands of all National Cash Register agents with instructions that they hang one on every customer's cash register whom they visit.

Served as Courier For Jackson. Richmond, Va., April 30.—Theodore A. Pace, 75, a courier for Stonewall Jackson during the Civil war, died at his home here today. He at one time commanded Stonewall's camp of the Confederate veterans at Staunton.

ANOTHER CONCORD SENSATION IS SPRUNG.

A dispatch from Concord says that as a sequel to the famous case growing out of the killing of Mrs. Maud A. King, widow of the late James C. King, Chicago millionaire near there last August 29, and the subsequent notable trial last December of Gaston B. Means, her financial agent, who was acquitted of the charge of having murdered her, a sensation was sprung there when it developed that a state warrant had been issued by Justice of the Peace C. A. Pitts, for the arrest of C. B. Ambrose, who was prominently identified with the development of the case against Means last fall.

Ambrose is charged with misrepresenting himself as being in the service of the United States department of justice during the months of August, September and October, 1917. It is understood that the warrant was issued at the instance of parties representing Means.

Killed by "German Spy?"

In connection with the action against Ambrose it developed that persons close to Means are advancing the theory that Mrs. King was killed by a German spy, who is alleged to have shadowed Means during several weeks prior to the death of Mrs. King, and it is asserted that a warrant will very probably be issued for the arrest of a "mysterious" German who was in Concord for several weeks prior to the killing of Mrs. King and visited Misenheimer Spring the scene of the tragedy, a day or two prior to her death. From the same source comes the statement that the bullet which killed Mrs. King is now believed on the strength of investigations made since the Means trial to have been intended for Gaston Means, the only person with the woman at the time she was shot.

Will of Mrs. King Filed.

Another interesting development was the filing of the will of the late Mrs. King with the clerk of the court of Cabarrus county. Mrs. Mary C. Melvin, sister of the deceased, is named as administratrix and she and her mother, Mrs. Anna Robinson, now at Jacksonville, Fla., and two brothers, William and Paul Robinson, are named as beneficiaries.

In connection with the action against Ambrose subpoenas have been issued for Solomon Smith, Arthur Heurteley and William S. Miller, president, secretary and attorney, respectively, of the Northern Trust Company, of Chicago; Mrs. Robinson and the Robinson brothers.

Investigation by Federal Agents. Statement from authoritative sources were to the effect that agents of the department of justice were in Charlotte at the recent term of the Federal district court conferring with District Attorney W. C. Hamner and other officials as to the activities of Ambrose in connection with the Means case.

ALIEN CHARGED WITH THE MURDER OF MRS. KING.

Concord, May 1.—A warrant for the arrest of Otto Schumann, an interned enemy alien, charging him with the murder of Mrs. Maud A. King, was issued here today. The warrant alleges that Mrs. King was killed by a bullet fired at Gaston B. Means. The death of Mrs. King occurred at Blackweider Spring, near here, last August. The local prosecuting attorney, who caused the warrant to be issued, stated two persons claim to have seen Schumann hurry away from Blackweider Spring after Mrs. King was shot.

The warrant was issued by Police Justice A. B. Palmer upon affidavit of M. H. Caldwell, attorney for Gaston B. Means, in the notable trial last fall.

Honor For Honest Toil.

Let us learn to tip our hats as politely to the young lady who sews for a living or earns it by any honest toil as to the one who teaches French or chews gum in seven different languages. Let us give a warm clasp to the hand of the tiller of the soil, the fireman or brakeman as we do to the lawyer or doctor. Let us recognize honesty and industry wherever found, and the time will soon come when there will be an army of bright intelligent, honest young men and women at the bottom of the ladder, ready to labor at any honorable calling. Let us remember that the most beautiful lives have blossomed in the darkest places, as pure, white lilies full of fragrance in the slimy, stagnant waters. Wealth, birth and official station may and do secure to their possessors an extreme, superficial courtesy; but they never did nor never can command the reverence of heart. The most beautiful flowers are hidden in some shady nook; so the most beautiful lives are often found in an humble home at the foot of the ladder. —Hickory Times Mercury.

TOBACCO WILDFIRE IN TOBACCO PLANT BEDS.

The tobacco disease called wildfire, which was so destructive in many sections of the state last year, has already appeared in the plant beds. It can be recognized by the presence, particularly on the lower leaves, of small, light brown spots. The tissues surrounding these spots are yellowish green in color. Affected plants may either remain stunted, or may die in the plant bed. Last year's experience has shown conclusively that plants will not recover. If they are set into the field many will perish within a few days, and those which survive will bear a diseased crop. If, therefore, diseased plants are transplanted, and if several rainy periods occur during the growing season, the crop can be expected to be, at best, injured to the extent of 30 to 50 per cent, and may even be a total failure.

Growers should carefully examine their plant beds now. The presence of brown spots is not to be regarded as frost injury, but as certain evidence of wildfire. Plant beds, where diseased plants occur throughout the bed, should be abandoned. Great care should be taken to avoid carrying the disease on one's hands, shoes, or otherwise from diseased beds to healthy ones.

It is advisable, where only a few plants are diseased, to dig them out immediately, with all nearby plants, in the hope that by so doing one may prevent the spread of wildfire over the entire bed. Subsequent examinations will show whether or not it is safe to use plants from such beds.

It is believed, but time has not yet been afforded to establish proof, that one can grow a crop free from wildfire if he starts with healthy plants. Many farmers have such healthy plants, sufficient perhaps for our entire crop. See if they can be had from a neighbor. Even if he refuses early plants get those from a later sowing. The danger of failure is too great to risk planting diseased plants.

WHAT IS AMERICANISM? IS FULLY ANSWERED.

"What is Americanism any way?" asks a man struggling up the hill of wanting-to-know. One of the answers seen comes from the Austin, Texas, Statesman: "Americanism! It is to love this country; to be willing to fight for it and to die for it; to believe in freedom and democratic government—that is Americanism. It is not necessary that one should continually say, 'me, too,' when officials in high places suggest a policy. It is not necessary that one should approve incompetency because the incompetent happens to be an official. It is not necessary that one should believe that every officer, from constable to president, is infallible, in order to be a patriot."

"Webster's unabridged dictionary defines patriotism as 'love of country,' and that is the only meaning of patriotism which can be ascribed by sane men. The nonsense which is spread about by men of little ability and little learning, the nonsense which decides debate in many legislatures, has nothing to do with essential Americanism. They who love America best will insist upon the best laws and the best leadership for America. They will not need argument to persuade them to stake their all, life and property for America. And they will not agree that servility is patriotism."

Message of Condolence Deferred.

The kaiser—from a safe distance, we may be sure—watched the final taking of Kemmel Hill by his troops, and then reviewed what was left of two divisions that had taken a particularly heavy part in the engagement. He gave them much praise and told them he owed this victory "above all others, to 'the Divine grace bestowed upon our leaders and fighters,' who 'are conquering militarily and economically' to such an extent that Germany now 'has before her, though not an easy, strong future.' He purposely, no doubt, deferred anything in the shape of a message to the German people and to the thousands of kaiser-made widows, giving consolation for the sacrifice of life that was the price for the taking of a hill which gives him what he believes to be "not an easy, but a strong future." —Charlotte Observer.

Lutherans to Meet in Winston.

The Evangelical Lutheran Synod and Ministerium of North Carolina will assemble for its one hundred and fifteenth annual convention in Augsburg Lutheran church, in Winston on Wednesday, May 8, at 11 o'clock, and will continue in session through the 11 o'clock service Sunday morning. The public is cordially invited to attend all sessions of the convention.

CEDAR GROVE SENDS FLOUR TO SOLDIERS.

Raleigh, May 1.—A considerable number of North Carolina flour mills have been grinding flour for export to Europe, but the first rural community in North Carolina to offer a car load of flour of its own production for export to our soldiers and the soldiers and civilian population of our allies in Europe, is Cedar Grove, in Orange county. Through the patriotic co-operation of the wheat growers of the community, the Cedar Grove Milling Company has offered a car load of flour to the food administration and this will be ground, packed and shipped in the immediate future.

Dr. C. M. Hughes, one of the owners of the Cedar Grove mill, declares that the people of his community are thoroughly alive to their duty under the present food situation and that they are consuming considerably less than one-half the normal quantity of wheat flour. Thus, they are able to help out the boys who are fighting for them on the other side.

"We are just delighted to be able to send a car load of flour from our community to the boys 'over there,'" declared Dr. Hughes to a food administration official today.

MORMONS PLAN WORLD DRIVE WHEN WAR ENDS.

New York, April 30.—As the result of the tremendous slaughter of the men of this generation, the Mormon church plans polygamy for all the world, according to Dr. E. L. Mills, of the board of home missions of the Methodist church.

He declared that reports from their semi-annual conference held in Salt Lake City recently suggests that they are only waiting for the end of the war to start out on their world campaign.

An exhortation by Joseph F. Smith in his presidential address before the conference, that all widowers who are not too old should feel it their duty to marry again is considered by Dr. Mills as significant.

"Just as soon as the war is over," said Dr. Mills, "they are going to make a tremendous drive to spread polygamy all over Europe, because they realize, of course, that the tremendous surplus of women over men in all the belligerent countries will offer such an opportunity for their propaganda as they have never had before."

THIS IS NO TIME FOR PARTISANSHIP IN POLITICS.

We hope every voter among our Progressive Farmer readers will give careful and unbiased consideration to the patriotic appeal made by Governor Bickett, of North Carolina. According to the constitution and tradition, we must have an election this year, but it ought to be a different sort of election from any we have ever had before. While our sons are fighting for a great cause beyond the troubled seas is indeed no time for Americans at home to divide up into miserable, little, bitter factions fussing about offices and party lines. "There must be but one industry in America in 1918—that of winning the war," said Secretary Daniels on New Year's day, and it is a good thought for all of us to keep in mind.

President Wilson set a good example recently when he endorsed for re-election United States Senator Nelson, a Republican representing the Republican state of Minnesota. A noble example has also been set by Taft and Hughes in their generous and loyal support of the president ever since war began.

Now all over America earnest men are feeling that in state, county and local politics we ought to follow the example set by these great men. In counties and districts admittedly Republican this year, why should Democrats put out a ticket? In counties and districts admittedly Democratic, why should Republicans put out a ticket? Where two parties or factions are both strong, why not arrange for a fair division of the offices? Let's eliminate partisanship, office-hunting, electioneering, and campaigning just as much as possible this year—just as we want to eliminate everything else that does not help toward hastening victory and peace. And wherever strife-breeding office-hunters haven't sense and decency enough to subordinate their selfish ambitions to the demands of patriotism, the people should rise up and administer a deserved swatting to the guilty parties. —Progressive Farmer.

Cost of Salvation.

A colored preacher had just concluded a sermon on "Salvation Am Free" and announced that a collection would be taken up for the benefit of the parson and his family. A member in the audience objected to the paradoxical nature of the proceedings, and received this bit of negro logic in response:

"S'pose yo' was thirsty an' come to a river. Yo' could kneel right down an' drink your fill, couldn't yo'?"

An' it wouldn't cost yo' nothing. Dat water would be free. But s'pose yo' was to hav' dat water piped to yo' house, yo'd have to pay, wouldn't yo'?"

Waal, brudder, so it is wid salvation. De salvation am free, but it's de habin' it piped to yo' dat yo' got to pay fo'."

Of North American countries Canada showed the greatest gain in the 1917 imports as compared with those of 1914.

THE PATRIOT'S BUSY FRIENDS

Attention is directed to the notice of summons by publication in the case of W. L. Wharton, executor, against James Holt, in another part of today's Patriot.

Attention is called to the notice of sale of a valuable piece of property by the Greensboro Loan and Trust Company, trustee, in the eastern section of the city, in another column.

If you have any claims against the estate of the late W. J. Clymer, Mr. J. W. Pugh, the administrator, would be glad for you to present them to him at once for payment. See his notice in the bargain column.

The Odeh Hardware Company invites you to attend a fire fighting demonstration at their store next Saturday. A fire prevention expert will show you how to make your home, barn or other buildings safe against fire and save you a good sum on your auto fire insurance. The demonstration is free, and you are cordially invited and urged to attend. See announcement on the second page.

Tomorrow afternoon will be a gala occasion for those seeking small farms and home building sites almost within site of the court house, when the Messrs. Thomas Bros., original twin auctioneering force will sell the beautiful farm—subdivided—of Mr. Dodson, on East Market street extension, and adjoining the Fountain McLean place, which also will be sold in small tracts at the same time. Both of these farms are within a short distance of the Bessemer high school, where so many bright minds have been prepared for the duties of life. The sales will take place at 2 o'clock P. M. and the Messrs. Thomas want you to meet them at court square at 1:30 and they will furnish machines to take you out to the sale. Here are two good opportunities for home-seekers to secure elegant sites at their own price. Read their interesting announcement on the seventh page.

Mr. A. P. Frazier, manager of the Frazier Piano Company, announces that until further notice, as a special stimulus to the sale of Liberty bonds, he will accept Liberty bonds in payment for Schomacker, Emerson and Lindeman pianos—the world's oldest and best pianos. Buy your Liberty bonds that helps Uncle Sam and the American soldier boys at the battle front in France, and then take them to Mr. Frazier and exchange them for one of the best pianos made. Thus you serve two purposes. Patriotism is the keynote of the times, and Mr. Frazier is accepting these bonds now to encourage their buying by those living in the rural districts and who have been saving for the purpose of buying a piano for their family. Every home should contain a good piano, and Mr. Frazier is doing everything to make this possible. Whether you buy a piano now or not, he wants you to call at his music emporium, 113 West Market street, and get acquainted with three of the best pianos made. See his announcement on the sixth page today.

GOV. SCALES APPOINTED WALTER CLARK JUDGE.

The Roanoke News, of Weldon, in its department of "Thirty-Three Years Ago" last week reproduces its news story of April 23, 1895, of the appointment of Judge Clark as a Superior court judge. The article reads:

Judge Clark.

"On Thursday last Governor Scales appointed Walter Clark, Esq., judge of the Superior court in the fourth judicial district. Judge Clark was born in this county on the 19th of August, 1846. He entered the Confederate army when merely a boy as lieutenant in Pettigrew's regiment and was afterwards appointed adjutant of the regiment commanded by Senator Matt. W. Ransom and was engaged in several fights. He resigned and entered Chapel Hill where he graduated in 1864 at the head of his class. He then re-entered the army as lieutenant colonel and was with the army surrendered by Gen. Joe Johnston."

Judge Clark served as Superior court judge until 1895, when he became an associate justice of the Supreme court. He has been chief justice since January 1, 1903.

Huggins' Cabbage Patch.

Mr. F. M. Huggins, who lives on North Pine street, has a half-acre of cabbage headed ready for the market. He set the cabbage last November and they were unprotected during the winter. Mr. Huggins has refused \$200 for his cabbage patch. He sold last year more than \$400 worth of vegetables from the half-acre where the cabbage is growing. —Lumberton Rebeonian.

EUROPEAN CORN BORER MAKES ITS APPEARANCE.

According to the Lowell, Mass., Courier-Citizen, a destroyer of corn fields has appeared in the eastern part of the United States and warnings have been issued against it. The Courier-Citizen says: "Karl M. Perham, chairman of the committee on food production of this town, is in receipt of a notice from Austin D. Kilham, stating that the European corn borer has been found in alarming numbers in sweet corn stubble and stalks in Suffolk county and asking that gardeners here make a thorough examination and burn all stalks immediately while the borer is still in the stalks. Last summer corn plants for 100 square miles in the vicinity of Boston were seriously affected by this pest, in many cases whole crops of corn being destroyed before the corn matured. The corn borer has long been regarded as one of the most serious enemies to corn culture in Europe, and if not checked immediately it will become a serious menace to America's great corn crop. There is apparently no hope of destroying the pest in the summer by insecticides, as all its transformation take place within the plant. The only hope of control is in complete destruction by burning all corn stubble and stalks which have been left in the ground in the winter. Action should be taken by every person who has a garden, and he should also see that every one in his immediate neighborhood complies with this request of the committee. Under no circumstances should the corn stubble be plowed into the land. If immediate action is taken millions of the borers and their eggs will be destroyed, as they have wintered in the stalk and early in May will change into the caterpillar which lays its eggs in the new plant."

MR. FARMER!

If you never saw a "JANEVILLE" Double Row 2-Horse CORN PLANTER in action, you've yet to see one of the most wonderful tools that human ingenuity has ever devised to help the farmer secure better results. The "JANEVILLE" does what no other planter today can do--drops 2, 3 or 4 grains to the hill, just as the soil appears to call for it. Think what the one exclusive "Janeville" feature means in the way of a more even growth and better crops.

And besides this, the "Janeville" will do all any other planter will do. It will hill or drill, drop grains edgeway or flat. There is no possibility of mixing hills with this planter. It is absolutely accurate in checking, too. Uneven travel of the team has no effect in producing imperfect checking. Go slow, go fast--it makes no difference, as it is an absolute impossibility, with the sliding plunger valves, to mix the hills or dribble the corn between them.

Above are only a few of the many good features of the "Janeville" Corn Planter, and you must see it to appreciate them all. Come in and let us show you this wonderful Planter and explain how it does such satisfactory work--how it will be a veritable money-maker for you.

BEALL HARDWARE & IMPLEMENT CO.

WOULD SELL AT \$50 BARREL

BUT FOR UNCLE SAM CONSUMERS WOULD BE PAYING HIGH FOR FLOUR.

New York, April 30.—If the government had "allowed the commerce in wheat to take its untrammelled course," flour would be selling at the mill door today for \$30 to \$50 a barrel instead of \$10 to \$10.50, and probably "rioting would have been experienced in all our centers of congested population, of a violence that leads to blood in our gutters," asserted Herbert Hoover, federal food administrator, in an address here today.

Talk to Grain Dealers.

Mr. Hoover spoke at a conference of 160 representative American grain dealers and officials of the food administration's grain division, called to discuss grain exports and regulation of cereal consumption in this country.

Asserting that when flour went to \$16.75 a barrel at the mill doors last May and resulting hardships dislocated our entire economic life, Mr. Hoover said he did not accuse the grain trade of having been responsible for the situation but rather blames the fact that the allies had to have wheat and were prepared to pay any price for it.

"A series of speculations sprang up that were deplorable beyond words," he said, "but only a microscopic portion of this speculation was of deliberate or vicious nature. There was no concerted manipulation. There was a total disturbance to the law of supply and demand."

Why Not Corn For Allies.

Taking up the question of why the allies cannot use more corn and leave the wheat for Americans, Mr. Hoover said that corn was short lived and difficult to ship in the wintering season and that the allies, with little equipment for home baking, are ignorant of the art of making corn bread. He added that while the United States now is exporting 50 per cent of its mill output, the allies have done their part by reducing their cereal consumption 30 per cent to provide America with crops for more soldiers.

Stating that this government could have reduced consumption here by rationing, by "allowing the market to take its untrammelled course," or by voluntary conservation, he asserted that "any system of positive rationing in the United States bristles with difficulties. Any national ration would be filled with inequalities and injustices to be avoided to the last moment."

Value of Government Control.

If price levels had been allowed to rise without restraint, the poor would have paid in suffering and the rich in price, he said, adding that "any repetition of rising price levels such as those of the 1916-1917 harvest year would have meant an enormous profit to the middleman and would have inspired the foundation of social discontent from this reason alone, if no other."

"Therefore," he said, "the government had placed reduction in consumption on a voluntary basis."

Bountiful Harvest Year.

"At the present moment, our crop prospects look anything from 800,000,000 to 900,000,000 bushels of wheat. The harvest of the allies also look promising. With this prospect we now have ground for hopes for plenty for ourselves and our allies, and instead of famine, we can look forward to an entirely different economic situation this year from that which confronted us in the summer of 1917."

N. C. REPRESENTED ON WAR FINANCE CORPORATION.

Washington, April 29.—A. W. McLean, national Democratic committeeman from North Carolina, president of the North Carolina Bankers Association, and distinguished citizen of Lumberton, was today appointed by President Wilson as one of the four directors of the \$500,000,000 war finance corporation. The other members of the board of directors are Wm. P. G. Harding, of Alabama; Allen B. Forbes, of New York, and Eugene Meyer, of New York.

The finance corporation, which bestows vast power upon Secretary of the Treasury W. G. McAdoo, was delivered through the senate by Senator F. M. Simmons, and through the house of representatives by Majority Leader Claude Kitchin. Their untiring efforts were instrumental in getting the bill through, and North Carolina is justly recognized on the board of directors. The original draft of the corporation bill vested the power of appointing the board of directors in the hands of Secretary McAdoo, but was later transferred to appointive powers of the president.

SAVE RYE, CLOVER AND VEGETABLE SEED.

Raleigh, April 30.—During the severe weather of the past winter, much clover was killed. Growers, therefore, should make a strenuous effort to save all the clover seed they can, otherwise there will not be a sufficient amount in the state to plant the desired acreage this fall. A clover seed harvester such as described in farmers' bulletin No. 646, can be made at home easily by any farmer who can handle tools. It is inexpensive, practical, and efficient, and should be used freely this spring states Mr. C. R. Hudson, chief, division of farm demonstration work. This bulletin may be obtained from the agricultural extension service, Raleigh, N. C., or from the United States department of agriculture on application, as long as the supply lasts.

Another important crop that seed should be saved from in large quantities is that of rye for planting winter cover crops. Rye has the advantage in that it can be planted several weeks later in the fall than clover, and does not winter kill. In order to plant every acre possible to cover crop, and every acre should have a cover crop, it is important that this matter be given attention. The best variety of rye is the Abruzzi, because it furnishes grazing much quicker than ordinary varieties, and also makes a larger growth. It is splendid for holding the soil, for preventing washing, and reducing the leaching of soluble plant food from the soil.

All people who have available planting space are urged also to plant beans, peas, and other crops to be used to obtain seed from this year. Enough of these crops should be planted to supply the demands of canning, preserving, or drying with an increased amount for seed production.

Further, it would pay many farmers to have a patch of corn, especially for seed. This should be planted on soil of medium fertility with good preparation, distance, and cultivation, so that the ears may develop properly, and so that each stalk may have an opportunity to show its tendency to prolificacy. A seed patch of one acre will produce enough for planting a corn crop of an ordinary size farm, with a surplus to furnish neighbors who do not give the matter attention. If properly selected, this seed will be valuable, and will bring higher prices than ordinary commercial corn.

DOUBLE CELEBRATION OF BURLINGTON-GRAHAM.

Burlington, April 29.—A patriotic demonstration surpassing anything ever held in the county was staged here and in Graham Saturday when the liberty loan parade and speaking was held.

Upon reaching Graham the parade gathered around court square and mingled with the hosts assembled there and listened to speeches by L. B. Williamson, county liberty loan chairman, and J. D. Long. Mr. Williamson presented to the county the honor flag.

On reaching Burlington, the cars went through the principal streets and were viewed by thousands. They came to a halt in the square where Main and Davis streets intersect and a speaker's stand had been built. E. B. Parker, of Graham, was the first speaker. He presented the flag to L. B. Whitted, town chairman of the loan committee. Mr. Whitted received it and E. S. W. Dameron made a speech of thanks. The quota for the town is \$110,900, and the subscriptions amount to \$137,850. Mr. Parker announced that Elon College, Haw River and Mebane have also gone "over the top" in selling bonds. Rev. John Benner Gibbs offered a short prayer.

To Protect Soldiers' Insurance.

Camp Sevier, Greenville, S. C., April 29.—Notices have been posted in many places about the camp calling the soldiers' attention to the fact that the government will protect from lapse during foreign service life insurance policies taken out by them before entering the service. One year after return is allowed in which to repay the premiums.

This service is entirely separate from war risk insurance, which is issued by the government itself, and applies only to ordinary insurance which the soldiers held before entering the army, being designed merely to protect it from loss.

Elon Goes Over Top.

Elon College, April 29.—In the liberty loan campaign for the third series as in the former two issues Elon went over the top. The aspiration of the committee now, which is headed by Miss Bessie Urquhart, is to secure at least one star on the banner.

DEDICATE ACRE TO VICTORY

PLANT EXTRA ACRES OR DEDICATE ACRES ALREADY PLANTED TO WIN WAR.

Winston-Salem, May 1.—While it is yet planting time, Col. F. H. Fries, on whose shoulders rests the responsibility of raising North Carolina's quota of \$50,000,000 of war savings, is asking the planters of the state to do one of two things, either plant an extra acre for the cause of victory or dedicate to this cause an acre that has already been planted. While it cannot be said that Colonel Fries is choice as to the kind of acre that he wishes set apart for victory, he feels that every farmer's patriotism should be sufficiently strong as to direct him to make one of his best acres his "victory acre."

Colonel Fries is appealing to his one hundred county chairmen to take immediate action in regard to securing as many farmers and their tenants in their respective counties as possible to plant the most profitable crop, preferably grain, while it is yet planting season. He suggests that a "victory acre committee" be appointed in every school district to encourage this work and that this committee keep a list of the farmers co-operating in the movement, which list with the amount received and invested in war savings stamps when the crop is harvested, will be forwarded to state headquarters.

Colonel Fries goes a step further and suggests that farmers adopt some way of designating their "victory acres," as by having a flag waving over them, or in some other way that will make known their purpose. He says this will be the means of not only raising better and bigger victory acres, but it will stimulate others to plant them and to keep them cultivated as they should be. "It would be a sorry sight," he says, "for a poorly cultivated acre to be pointed out as Uncle Sam's acre, particularly at this time, when his needs are the greatest."

Colonel Fries advocates the planting of extra acres for two reasons. The first is because the country is greatly in need of food. The second is, there are people who have no other way of securing the means of buying thrift and war savings stamps. The victory acre will not only increase the food supply, it will afford many people their only opportunity of rendering their country a needed service at a most imperative time.

NEGRO COMPANY BUYS \$65,000 LIBERTY BONDS.

Washington, April 29.—Secretary William G. McAdoo today received the following telegram from C. C. Spaulding, general manager of the North Carolina Mutual and Provident Association, of Durham, N. C.: "The North Carolina Mutual and Provident Association, the largest negro life insurance company in the world, has purchased through the liberty loan committee of Durham \$65,000 worth of bonds. The company purchased \$35,000 of the two other issues, making in total holdings \$100,000. We are doing our bit to help our country win the fight for democracy, and you can depend on the loyalty, patriotism and sacrifice of the negroes of the South."

The treasury department has never received a more substantial expression of the patriotism of the negro race in the South than evidenced in this subscription. It is probably the largest subscription in government securities ever taken by a company comprised of members of the negro race. This insurance company somewhat reflects the sentiment of the leaders of the negro race in the South inasmuch as it operates in most of the Southern states.

Germans Pray For American Victory.

Topeka, Kan., April 30.—Governor Simon Bamberger, of Utah, a German-born American, declared here today that "the people of Germany, millions of them, are hoping and praying that America will win the war."

"The real people of Germany, the slaves of autocracy, are bound down by iron rule. The only relief offered them comes from America—America victorious in this great conflict," he said.

Fox Pelts Bring \$1,000 Each.

St. Louis, April 30.—The largest collection of silver fox offered in the last twelve years, were the only furs auctioned today at the April fur sale. Twelve hundred of the pelts were sold during the day for a total of \$362,000. Buyers from the east paid top prices, the prices ranging from \$250 to \$1,000 for each pelt. Total sales for the three days of the auction amount to more than \$1,500,000.

UTILIZE REFUGEES FROM EUROPE AS LABORERS.

Washington, April 30.—J. E. McLaughlin, of Boston, has an original idea about securing labor for the farmers of the country.

"This plan has been previously advanced," he says, "but it so far has not come under my observation. In the present war situation, especially as it affects farmers, it has occurred to me that a feasible plan could be devised whereby the United States could use the troops and other transports on their return to Europe, in bringing them back to America.

"Where the government has depleted farms, and government construction has been practically monopolized by labor, their plans could be made more effective by utilizing the surplus of the overpopulation of Europe and Africa.

"The United States is called upon to feed and clothe a homeless and hungry world. The government has a surplus of labor, and the surplus of the overpopulation of Europe and Africa.

"It would be a good thing to have a surplus of labor, and the surplus of the overpopulation of Europe and Africa.

"Not only would the surplus of labor be utilized, but the surplus of the overpopulation of Europe and Africa.

"The surplus of labor would be utilized, and the surplus of the overpopulation of Europe and Africa.

"The surplus of labor would be utilized, and the surplus of the overpopulation of Europe and Africa.

LIBERTY BOND CAMPAIGN DRAWING TO A CLOSE.

Washington, April 30.—Liberty loan subscriptions yesterday totaled \$174,443,000, the record for any single day in the campaign, and the beginning of what the treasury hopes will be a banner week to drive the loan far above the \$2,000,000,000 minimum.

The campaign total tonight was \$2,467,744,000, not including today's business, which appeared large judging by reports from all parts of the country of a final intensive canvass under special instructions from the treasury to get subscribers to "buy another bond," and to place a bond in every home.

Many subscribers are yet to come in, according to available returns. Particularly, corporations and employers of a large number of men, with arrangements for selling bonds to employees on multiple installment basis, have not reported the sums they wish in hundreds of cases, these conditions, although recognized by headquarters and local campaign committees, will not be allowed to slacken efforts to round up every possible pledge, and to reduce the number of "slacker dollars" to a very low figure.

TINY TWO-YEAR-OLD TALKS, READS AND TELLS TIME.

San Francisco, April 30.—A tiny two-year-old baby girl here holds the world's record in mental development.

The infant prodigy is Marsha Springer, twenty-six months old daughter of Mr. and Mrs. John E. Springer, of Mountain View.

The child can read like an eight-year-old. The father says the child has a normal mind which already has been developed by pen and training.

At a recent meeting of college professors and experts in pedagogy and psychology the child for forty minutes read, counted and told the time by the clock and talked with the men who were observing her. Her baby brain did not sag and she appeared to enjoy the long interview.

All were unanimous in declaring that the baby's case indicates that geniuses are made, not born. The child reads and speaks with a vocabulary of about 2,000 words. She is large for her age and eats and sleeps well.

CONTRACTS FOR OVER A THOUSAND LOCOMOTIVES.

Washington, April 30.—Contracts for 1,925 freight and passenger locomotives, the largest single order ever placed in the history of American railways, were let today by the railroad administration to the American Locomotive Company and the Baldwin Locomotive Works.

The entire order represents a cost of about \$60,000,000, or an average price of a little less than \$60,000 for each locomotive. The profit to manufacturers, who will divide the work about equally will be between five and six per cent, less than half the rate of profit represented in the original bids.

Deliveries will begin in July and continue through the year, and most of the new engines, it is understood, will be assigned to eastern roads where the shortage of motive power is greatest. They will bear only the initials "U. S." and identifying numbers, and will be virtually the first lot of engines to be owned jointly by all railroads under government management.

Although the railroad administration declined to announce the precise number of engines ordered from each of the companies, it is understood the American company will build 550 and the Baldwin 475.

URGES TRAINING OF MEN BEYOND DRAFT AGE.

Norfolk, Va., April 30.—In an open letter today addressed to the men of Norfolk and Tidewater Virginia who are subject to the draft law, or who may become liable to service by the extension of the military age to 45 years, Rear Admiral A. C. Dillingham, urges immediate organization and training fitting them for early service. To make this possible, he places at the disposal of such companies the trained officers of the army and navy stationed in this naval division. He urges that such training should take precedence over all other matters, as manpower will be necessary to win this war.

ADMINISTRATOR'S NOTICE.

North Carolina, Guilford County. Having qualified as administrator of the estate of Rebecca Harris, deceased, late of Guilford County, N. C., this is to notify all persons having claims against the estate of said deceased to exhibit same to the undersigned at his office at the American Exchange National Bank on or before the 20th day of April, 1918, or this notice will be pleaded and bar their recovery. All persons indebted to said estate will please make immediate payment. This April 20, 1918. 33-43. F. C. BOYLES, Adm'r. of Rebecca Harris.

"Put Me Down for 100 Of These Cultivators"

said a Nebraska implement dealer after putting a new leverless cultivator "through its paces." He had just demonstrated the machine to five leading farmers, every one of whom ordered one or more of the cultivators for spring. The cultivator we are talking about is

B. F. Avery & Sons Leverless

The radical improvement that distinguishes the Avery from other leverless cultivators is that it combines in one machine the leverless feature with a pivot pole and lateral shifting arch.

The seat bar pivots horizontally as well as vertically, so the vertical movement of the gangs is controlled by the vertical movement of the seat and the horizontal movement of the gangs by the horizontal shifting of the seat.

The operator's weight balances the gangs in such a way that one gang can be

raised absolutely independently of the other. When you want to clear one gang of trash, you simply release the foot pressure on that gang and it rises automatically without in the least disturbing the other gang.

On a side hill the operator's weight causes the seat bar to angle down hill. This gives the wheels and gangs a corresponding angle up hill, thus overcoming the tendency to work away from the row.

We can't describe on paper the wonderfully easy action of this cultivator, so come in and see for yourself.

Bays Valuable Lot.

Marshall C. Stewart has purchased from the Jefferson Standard Life Insurance Company the lot at the corner of West Washington and South Greene streets, at the price of \$30,000. The property is 100x104 feet and has no building on it.

Services at Peace Lutheran Church.

Announcement is made that there will be preaching at Peace Lutheran church next Sunday afternoon at 4 o'clock by Rev. H. W. Jeffcoat. A congregational meeting will be held after the services, and all members are urgently requested to be present.

Shower For Mrs. Gibbs.

Last Saturday afternoon the missionary society of Holt's chapel gave a miscellaneous shower for Mrs. J. M. Gibbs, nee Miss Carolyn Holt, at her home, Valley View farm. Mrs. N. W. Whittington made a short talk expressing the regard of the members for Mrs. Gibbs, and wishing her a life full of happiness.

May Pay More For Telephones.

The Southern Bell Telephone Company is asking the corporation commission to permit increase in telephone rates in Greensboro as follows: Business phones, from \$4 to \$5.00; residence phones from \$2.50 to \$3.75. Corresponding increases are asked for as to duplex and party lines. The petition will be opposed.

Increase School Tax.

The board of education of the city of Greensboro at a meeting Tuesday afternoon decided to increase the tax rate for schools in Greensboro to the maximum allowed under the amendment to the city charter, which is 50 cents on the \$100 worth of property and \$1.50 on the poll. The old rate was 30 cents on the \$100 and 90 cents on the poll.

Southern Officials Here.

President Fairfax Harrison and Vice President and General Manager E. H. Coe, of the Southern Railway, were here for a short while Tuesday en route from Selma to Spencer and points South. They were traveling in Mr. Harrison's private car No. 1, which was attached to train No. 21. These officials are on one of their regular trips of inspection.

Received Into Presbytery.

A call meeting of Orange Presbytery was held at the First Presbyterian church Tuesday afternoon for the purpose of receiving Rev. G. Whitley, who comes from Albemarle Presbytery. He has accepted a call to Bethel and Springwood churches in the eastern part of the county. He will preach at Bethel the second Sunday afternoon and at Springwood the third Sunday afternoon in this month.

Mr. Ferguson Better.

Mrs. G. S. Ferguson, Jr., has returned from Washington where she was called on account of the serious illness of her husband, and she reports that his condition is much improved, and that he will be able to come to Greensboro in a few days to recuperate. One of the children of Mr. and Mrs. Ferguson is ill at their home here. Mr. Ferguson recently decided to leave Greensboro for Washington to practice law in that city.

Chautauqua Next Week.

Redpath Chautauqua, which has been coming to Greensboro for several years, has fixed May 8 to 15 as the date for this year's event. The place has not been decided upon, as the Cone field which has heretofore been used is not available, but it will probably be upon the Teague field opposite the State Normal College. Tickets are now on sale for the Chautauqua, which is declared to be the best the company has ever presented.

Has Bad Accident.

W. E. Grimsley, a well-known farmer who lives on the McConnell road east of the city, lost his left foot Monday, following an accident with a pea sheller. While at work with the machine his foot became entangled, and was so badly crushed that amputation was necessary. He is at St. Leo's hospital, and is getting along nicely. Mr. Grimsley came here from Greene county a few years ago, and is a brother of President George A. Grimsley, of the Jefferson Standard Life Insurance Company.

Woman's Auxiliary Meets.

The Woman's Presbyterial Auxiliary of Orange Presbytery met last evening in Westminster Presbyterian church, and will adjourn with this evening's session. An interesting program had been prepared, including addresses by notable speakers, the transaction of important business, and a number of social events. One or two returned missionaries were among the speakers: Mrs. O. G. Jones, of this city, is president of the organization, and Mrs. Lynn E. Williamson, of Graham, is secretary.

Mrs. Pell Dies Here.

Mrs. Edward Leigh Pell died at the home of her daughter, Mrs. A. M. Scales Monday at noon, following an illness of several days. She had come here from her home in Richmond to visit her daughter, and fell sick shortly after her arrival. She is survived by her husband, a well-known Methodist minister and writer. Mrs. J. B. Gunter, of this city, is a sister of Dr. Pell, and Judge George P. Pell, of the corporation commission is a brother. Mrs. Scales and two other children survive. The funeral was conducted from the Scales home Tuesday afternoon by Drs. Bain and Myers, and the body was carried to Richmond for interment.

Donnell-Jones.

Miss Eunice Marian Donnell was married to Robert Henry Wellons Jones, of Mebane, at the home of the bride's father, James D. Donnell, four miles northeast of the city Tuesday afternoon. Only a few relatives and close friends witnessed the marriage. The parlor was decorated with cedar and ivy and an altar decorated with green and white was used. The ceremony was performed by Rev. E. Frank Lee, pastor of Buffalo and Midway Presbyterian churches. Miss Annette Donnell sang "Because I Love You," prior to the ceremony, with Miss Florine Robinson, of Burlington, as the pianist. Refreshments were served by Misses Cora Donnell, Lillian Wimble, Kate McLean and Mary Whitsett. Mr. and Mrs. Jones will make their home at Mebane. The bridegroom is an alumnus of the State A. & E. College, while his bride is a graduate of the State Normal College, and has taught school for two years.

Instructor of German Arrested.

Poughkeepsie, N. Y., April 30.—Miss Agathe Wilhelmina Richrath, instructor of German at Vassar College, was tonight taken into custody by federal agents charged with circulating pro-German propaganda. Miss Richrath is charged with justifying the sinking of the Lusitania on the ground that it was loaded with bullets "to kill our German fathers." She also is charged with justifying the invasion of Belgium. It has been known by the federal agents that she had had frequent meetings with Dr. Joseph Stutz and Heinrich Bokisch, two Poughkeepsie residents taken into custody by the federal agents a week ago.

Sixty-Six Lost When Steamer Sunk.

An Atlantic Port, May 1.—Sixty-six persons lost their lives, when the steamship City of Athens, bound from New York for Savannah, was rammed and sunk by a cruiser off the Delaware coast at 1 o'clock this morning. The missing include ten men and two women who were passengers, seven out of twenty-four United States marines who were on board, fourteen out of twenty French soldiers and thirty-three members of the crew.

Three Long Range Guns Passed Through Belgium.

Amsterdam, April 29.—Three long range German guns made at Dusseldorf for the bombardment of Paris, according to the correspondent at Maastricht of Les Nouvelles, passed through Belgium last Friday in the direction of France.

Higher Rate Schedules Postponed.

Washington, April 30.—The interstate commerce commission today ordered a postponement until August 1 of increased rates scheduled for the interstate transportation of grain, seed, hay and straw, which would have gone into effect tomorrow.

PERSONAL MENTION.

Mrs. W. C. Ogburn is visiting Mrs. S. S. Blackburn at Semmerfield. Rev. S. M. Rankin has been ill for a few days at his home on Tate street.

Dr. and Mrs. J. B. Walker, of Gibsonville, are the parents of a nine-pound daughter.

J. E. Lambeth, of Reidsville, a native of Guilford, was here Wednesday on business.

J. C. Geringer and J. R. Kernodle, of Washington township, were in the city this week on business.

Mrs. E. T. Davis has gone to St. Antonio, Texas, to spend some time with her husband, who is in the aviation service at Kelly Field.

Mrs. W. H. Osborn and mother, Mrs. B. A. Cunningham have returned from Washington to their home here. Colonel Osborn, who resigned as commissioner of internal revenue last fall, will arrive soon.

G. W. Pritchett, southern representative of the Morse Chain Company, left Monday night to attend a meeting in New York of men representing textile interests from every part of the United States. Mr. Pritchett will also visit Ithaca, N. Y. He will be away for two weeks.

NEW CALL FOR MEN HAS REACHED LOCAL BOARD.

Three white men departed last night for the war, being Lee Ralls, Jesse F. Case and George Alex York, all bound for Fort McPherson, Ga., where they will enter Dr. J. W. Long's base hospital unit.

Yesterday afternoon the local board of the city, sent away James H. Swaim and Ben Moore, to Camp Jackson, the latter being transferred from the local board's jurisdiction in Heppner, Oregon.

A call was received yesterday for eight men to be sent to Ford Scriven, Ga., from among the white registrants of Greensboro. Called to assemble at headquarters of the board May 10, at 2 o'clock in the afternoon, to fill this quota, are Earl C. Oliver, Seth T. Walsh, Carl M. Hayes, Clark A. Ritter, Orlando B. Southard, Roy E. Jobe, I. L. Allred and Luther R. Edmondson. The alternates are Cary Brisson and Phillip David Berlin.

One of the men called has \$6,000 worth of liberty bonds purchased. He is Mr. Berlin.

Three American Seamen Killed.

Washington, April 30.—Three members of the crew of the American steamer Chincha were killed, the navy department announced today, in the ship's fight with a submarine March 21.

Previous reports had said several men were injured, but made no mention of any having been killed.

The Chincha beat off the submarine after firing about 30 shots. One shot from the submarine dropped the Chincha mast, killing Seaman A. S. Edwards, of Augusta, Ga., and two others not named.

Republicans Denounce LaFollette.

Denver, Col., April 30.—The Colorado Republican state committee meeting here late today to elect a chairman passed a resolution denouncing United States Senator Robert M. LaFollette for his war attitude and demanding his expulsion from the senate. The resolution also denounced Colorado representatives in Congress who voted against war with Germany although not giving their names.

Tornado at Danville Does Much Damage.

Danville, Va., April 30.—A tornado, sweeping a small area near here this evening, which old residents claim the worst experienced in their recollection, blew house tops off, swept barns away and damaged other buildings, besides having laid low hundreds of pine trees and telegraph poles. No deaths or injuries are reported, but the damage done is considerable, besides the damage done to the fruit crop.

To Increase Railway Wages.

According to a circular issued to railroads throughout the United States, William G. McAdoo, secretary of the treasury and director general of railroads, announces that he will declare the general wage increase to all railroad employees, as recommended by the railroad wage commission, immediately on his return to Washington May 4 from his current tour on behalf of the liberty loan. This announcement should prove a stimulant, where needed, to railroad men to invest in the loan.

Earthquake at El Centro, Cal.

El Centro, Cal., April 30.—An earthquake shock lasting 30 seconds was felt here at 9.35 tonight. Doors and windows rattled and residents fled to the open for safety. The damage is described to have been slight.

KICKED ON LEG BY MULE AND HIS ARM BROKEN.

Roxboro, April 30.—Sam Coleman, son of Dr. Ira Coleman, of Hurdle Mills, had the misfortune Saturday while on leave of absence to break his arm, at the home of his father. The peculiar feature of the accident was the manner in which it occurred. The young man came in too close contact with the heels of a mule by the name of Maude, and was kicked on the leg, the consequence of which, his arm was broken. Just how this happened to break his arm is not stated. Mr. Coleman is a member of the field artillery of company C, Camp Sevier.

AMERICANS IN MEXICO BUY LIBERTY BONDS.

Mexico City, April 30.—Americans in Mexico have subscribed approximately \$500,000 to the third liberty loan, according to an estimate made today by the American embassy. Three teams in Mexico City obtained subscriptions for more than \$350,000.

The total of the subscriptions from other parts of the country has not been received, but it is assured that it will amount to enough to bring the total for the country well up to the half million mark. Mexico's quota was \$150,000.
