ONLY CONTEST IN COUNTY IS FOR SCHOOL BOARD

FOUR MEN HAVE ANNOUNCED
FOR BOARD OF EDUCATION—
THREE TO SERVE.

Entries for the county primary closed Saturday night. The Republican ticket was printed a few days ago and it will be nominated without opposition and will not have to be voted upon. There are four candidates for the justice of peace in Washington township, and three are to be nominated.

The primary will be held June 1, which will be Saturday week. Any Democrat of the county can vote in the primary, and all Democrats are urged to go and decide between the four men, Messrs. Whitsett, Ireland, Peacock and Gilmer, for county board of education. Vote for three.

TO RAISE VOLUNTEER'S AGE LIMIT TO 55 YEARS.

Washington, May 25.—Another move towards full utilization of the country's man-power was made today when Secretary Baker sent to Congress the draft of a bill proposing to raise the maximum age limit for voluntary enlistment in the army from 40 to 55 years. All men over 40 so enlisted would be assigned to non-combatant service.

Baker's Argument.
In a letter to Speaker Clark asking that the bill be pushed, Secretary Baker said:

"Every man above the age of 40 years who is enlisted in non-combatant branches of the service will make available for duty with the line troops a man within the prescribed age limit for all troops."

"Many men whose long experience as mechanics and artisans will make them particularly valuable to the various staff corps and departments may be thus secured instead of younger men without such experience and the efficiency of the staff corps and the departments thus will be increased."

Over Seven Million of Them.

There probably are 7,500,000 men between the ages of 40 and 55 and many thousands of them already have attested their desire to serve by bombarding the department with applications. While the great majority of the men in this class undoubtedly will be restrained from enlisting by family and business ties, the number at liberty to join the colors is expected to be more than sufficient to meet the purpose in view.

Older Men Well Suited.

Stiff corps positions include many duties behind the front. Every headquarters unit includes a number of positions for which the older men would be just as well suited as the present occupants who, under the new plan, would be released for line duty.

Official estimates are that a modern army, to be maintained as an efficient unit, must have between 40 and 45 per cent of its actual strength on duty behind the fighting zone. This means that of the first 1,000,000 men sent to France, 400,000 serve along the lines of communication in hospitals or at the various headquarters and debarkation bases.

SOLDIERS RECLAIMING LAND AT SPARTANBURG.

Spartanburg, S. C., May 26.—Farming operations on a large scale on land reclaimed by United States soldiers in this vicinity will soon begin. Several tracts of land near Camp Wadsworth are being reclaimed by soldiers, and it is expected that the acreage of waste land saved will be large. The plans for the work were suggested by Colonel Grimstead, of the quartermaster department. The land reclaimed will be planted to potatoes and beans. The crops will be used by the soldiers at camp. It is stated that the crops will be cultivated by soldiers unfit for overseas duty, or interned Germans. In case the latter are used it will be necessary to establish a detention camp near Camp Wadsworth.

Americans to Help Defend Paris From Hun.

Paris, May 25.—An American escadrille, composed of aviators chosen from among the best American pilots, in the future will defend Paris against enemy air raids. Offer for this help was made spontaneously by the chief of the American aviator service and accepted by the French government.

Arizona Ratifies Dry Amendment.

Phoenix, Ariz., May 25.—The lower house of the legislature passed the joint resolution ratifying the prohibition amendment to the federal constitution by a vote of 29 to 3. The resolution passed the senate unanimously yesterday.

Jamestown—Andrew F. Johnson, John A. Suits, John T. Suits.
Oak Ridge—R. W. Jones, Charles Case, D. L. Donnell.
Deep River—J. Lee Charles, J. J. Smith, T. P. Farrington.

ANOTHER WEEK PASSES AND NO BIG DRIVE YET

THE BLOW MAY BE LAUNCHED
AT ANY TIME—THE ALLIES
PREPARED.

Still another week has passed, and the Germans have not begun their expected new offensive against the allied forces in Flanders and Picardy. And, as yet, there is nowhere any indication that it is the early intention of the enemy again to try to break the battle front and reach the channel ports.

It is not improbable, however, that the blow will be launched at any moment. Aviators winging their way in reconnaissance behind the German lines still report a continuation by the Germans of their work of bringing up fresh troops, guns and stores for what is believed everywhere will be their greatest attempt to win a decisive victory.

Meanwhile, the allies are not idle. Every hour is being utilized by them to strengthen strategic positions and every hour finds them the better prepared to withstand an enemy onslaught. The morale of the troops is of the highest and confidence reigns among the men of the unified command of General Foch that the enemy will not be able to carry out his program to the full, and that whatever ground he may gain will be dearly paid for.

In the work of strengthening the battle front the Americans are playing no secondary role. The steady stream of khaki clad lads from overseas to the fighting line has served greatly to reassure the British and French contingents that have heretofore so valiantly held their own against tremendous odds. Those of the Americans already in the trenches have given and are still giving a good account of themselves, harassing the Germans with their artillery and outgunning them in combat in the open.

AN AMERICAN PATROL DRIVES THE FOE BACK.

Washington, May 26.—General Pershing's communique for Sunday issued tonight by the war department tells how an American patrol of an officer and 20 men in the Lorraine sector last night drove back and inflicted losses upon an enemy patrol armed with light machine guns and assisted by machine gun fire from the enemy lines.

The communique for Saturday, delayed in transmission, says:
"Yesterday in Picardy our troops executed a successful silent raid and inflicted on the enemy a number of losses in killed and prisoners. There is nothing else of importance to report."

Following is today's statement:

"In the course of patrol encounters our troops drove back the enemy and inflicted a number of casualties. Last night in Lorraine one of our patrols, consisting of an officer and 20 men, gained contact with an enemy patrol of about equal strength which was supplied with light machine guns and assisted by machine gun fire from its own lines. In the fighting which ensued our patrol drove back the enemy, killing several of them."

Louisiana Refuses to Ratify Amendment.

Baton Rouge, La., May 25.—Louisiana is the first state to refuse to ratify the federal prohibition constitutional amendment. The state senate, by a vote of 20 to 20 tonight defeated a house resolution adopted a few hours previously, 70 to 44. Legislatures of 10 states have ratified the amendment.

American Soldiers For Italian Front.

New York, May 25.—Secretary of War Baker announced in an address here tonight in celebration of Italy Day that American infantry, American machine gun units and American artillery soon would be fighting shoulder to shoulder with the Italians on their front.

German-Airmen Bomb Hospitals.

With the British Army in France, May 25.—German airmen again have bombed heavily British hospitals in the area behind the lines and this time have killed and wounded some hundreds, among the personnel and patients of many different hospitals in the group.

MILLIONS IN TOLL OF STARVATION AND DISEASE

AMERICA MUST FURNISH MORE
FOOD AND SUPPLIES TO THE
ALLIES.

New York, May 24.—The greatest human decimation in Europe has not been wrought by German bullets but by starvation and its attendant diseases in the districts overrun by the German military power, declared Food Administrator Hoover in an address to the National Dairy League here today. Pointing out the service which the dairymen of the nation "are morally drafted to fulfill," he said he was convinced that "if the war were to cease tomorrow the toll of actual dead from starvation and attendant diseases would double or treble the 5,000,000 or 6,000,000 killed by Germany and her allies."

Calling upon the dairymen to do their part in maintaining the United States as a "reservoir of food," Mr. Hoover said:

"It is worse than folly to put 5,000,000 of our boys into France if the civilian population of our allies is not also to be maintained in strength and morale with our food."

"During this fiscal year North America will have supplied approximately 50 per cent in nutritive values of the foodstuffs imported by the allies and 50 per cent come from more remote markets. Before the war we contributed probably less than 10 per cent."

"North America stands unique in one great particular. We are independent of sea transport for feeding stuffs for our animals. We grow them side by side. Here lies the great economic difference between ourselves and Europe and this is one reason why we can and must be the great final reservoir of supplies."

"WILD FIRE" GIVING TROUBLE TO FARMERS.

Washington, May 25.—Wild fire, a new tobacco plant disease, is giving considerable trouble to tobacco planters, according to a bulletin issued today by the department of agriculture. Nineteen counties in North Carolina and three in Virginia are affected.

Plants in many sections perished necessitating a replanting a second or third time. Warm weather checked the disease. However, a rainy period following caused a second epidemic.

This disease was first definitely recognized in 1917. In that year the epidemic spread so rapidly that it was given the name of wild fire. It is considered the most destructive disease that attacks the plant.

HEAVY LOSS INFLICTED ON AMERICAN PATROLS.

Amsterdam, May 26.—"Heavy losses" were inflicted upon the Americans on the Picardy front in the repulse of strong American patrols yesterday west of Montdidier, it is claimed in a semi-official German report received today in a Berlin telegram.

The report in the course of a description of yesterday's military operations says:

"West of Montdidier strong American patrols advanced against our front. One American patrol was entirely cut up by our fire. The others were thrown back by counter attack. The Americans thereby suffered heavy losses."

Gored by Bull He Lies on Death Bed.

Danville, Va., May 24.—W. M. Cardwell, a prominent farmer of near Milton, N. C., is in a dying condition in a Danville hospital today as the result of being gored by a bull last evening. The animal shoved his horns several times through the man's body and trampled on him. Mr. Cardwell is more than 70 years old and his death is momentarily expected.

Americans Carry Out a Silent Raid.

With the American Army in France, May 25.—American forces in the Montdidier region carried out a silent raid upon enemy positions yesterday, killing six men and capturing one. Without the assistance of the artillery the Americans slipped into the enemy trenches and quickly accomplished their work.

THE AMERICAN AIRMEN GETTING FINE RESULTS.

With the American Army in France, May 25.—The activities of the American air squadron operating in the sector northwest of Toul seem to have had results even more effective than was anticipated. When it first began its work there were between 30 and 50 summonses to activity coming in to our aviators daily. Gradually the number of calls has dwindled until for several days the average has been only two a day.

From a strictly technical military standpoint the operations of the American airmen have two objects. The first is to kill off the opposing airmen, while the second is to keep the enemy from trying his machines on the American side of the line and thus preventing him from taking photographs, regulating artillery fire, or in any way securing information. The American airmen have done much toward accomplishing both objects.

The records show that the new squadron has already taken a creditable toll of enemy pilots and observers, while for a German airplane to come over the American lines now is a rare occurrence. This situation contrasts sharply with that which prevailed when these aviators first started operating. It was a rare occasion then when one or more enemy airplanes was not circling over or behind the American lines, operating with almost complete freedom.

Moreover, according to information obtained from a German officer aviator brought down within the last few days, the fear of the American aviators has been instilled into the German flying corps. This prisoner furnished the information that the line from St. Mihiel to Pont-a-Mousson, within which the American airmen are operating had come to be regarded as a dangerous place for German pilots. Our fighting aviators could not possibly have heard a more welcome tribute.

TIRED FIGHTING FOR THE KAISER, SURRENDERS.

With the American Army in France, May 26.—An American patrol had an engagement last night in the Lunerville sector with a German patrol carrying light machine guns, and routed the enemy in a sharp fight. Several of the Germans were killed; their bodies were dragged back by their comrades. There were no American losses.

On the same sector a German sergeant crept into the American lines, holding up his hands and shouting "Kamerad." He said he had had enough of fighting for the kaiser and von Hindenburg. He was sent to the rear.

The artillery action generally was light in the Toul and Lunerville sectors. American airmen concluded several missions successfully without encountering any German machines.

REJECTED FOR SERVICE ON ACCOUNT OF TEETH.

St. Paul, May 26.—John Paul Wesley, a patriotic young man of this city, is mad. In fact he is not only fighting mad, but greatly disappointed.

The cause for John Paul's said anger and disappointment is that he was rejected for the U. S. marine corps because of defective teeth. "Sherman said war is h—l," stormed John Paul, "but I think your examination is even worse. Just because I'm not able to bite the kaiser, I'm rejected. What do you want me to do, kill 'em and then eat 'em too?"

"Sorry, old man," said Sergeant Frank Buok. "Go see a dentist and then come back. Maybe there'll be a chance then."

Some Quick Traveling.

New York, May 25.—A record was established today in the aerial mail service when the trip from Washington to this city was made in two hours and fifteen minutes by airplanes equipped with liberty motors. Notwithstanding fog and rain encountered near Philadelphia the plane flying to that city from the capital made excellent time and after the pouches had been transferred to another machine piloted by Lieut. Bonsal, it required only fifteen minutes to complete the trip to New York. Most of the time the plane travelled at more than two miles a minute.

AMERICAN TROOP SHIP TORPEDOED AND SUNK

FIFTY-SIX SOLDIERS KILLED IN
THE EXPLOSION—SUBMARINE
ESCAPED.

London, May 24.—The British armed merchant troop ship Moldavia, with American troops on board, has been torpedoed and sunk, according to an official bulletin issued by the admiralty this evening.

Fifty-six American troops on the Moldavia have been unaccounted for, says the official statement which was issued this evening by the British admiralty. The text of the admiralty statement follows:

"The armed mercantile cruiser Moldavia was torpedoed and sunk yesterday morning."

"There were no casualties among the crew but of the American troops on board 56 up to the present have not been accounted for. It is feared they were killed in one compartment by the explosion."

They fell calmly into line and awaited orders. When it was seen that the Moldavia was settling down all on board were taken off by the escorting ships.

The men lost all of their belongings, but were supplied with new clothing at the different naval ports where they were taken.

The Moldavia is of 9,800 tons gross and owned by the Peninsular and Oriental Steam Navigation Company. She was built at Greenock in 1903 and is 520 feet long.

The Moldavia was torpedoed without warning. It was a moonlight night and although a good lookout was kept the attacking submarine was not sighted before the torpedo struck. Most of the men aboard were in their hammocks when the explosion occurred amidships. The sailors and soldiers alike showed no panic.

Queenstown, May 24.—The Cork steamer Inniscarra, bound from Fishguard to Cork, was torpedoed and sunk. Thirty-seven members of the crew are missing and are supposed to have been lost.

Five survivors of the disaster have been landed. They are the captain, the chief officer, one steward and two sailors.

The Inniscarra was struck amidships. She listed immediately and foundered in four minutes.

The Inniscarra was a vessel of 412 tons. She was built in 1903 and belonged to the City of Cork Steam Packet Company.

Naval Ensign Amongst Lost.

Washington, May 24.—Ensign W. W. Lovell, of Brooklyn, N. Y., Fireman Bernard F. Stiefvater, of Everett, Washington, and Water Tender Charles R. Moore, of Somerset, Pa., were lost recently in the sinking of the American steamer William Rockefeller, recently torpedoed in the war zone.

AN AMERICAN SHIP SUNK IN A COLLISION.

Washington, May 24.—The United States ship Wakiva, a converted yacht, was sunk in European waters in a collision on May 22, with a loss of two men. W. B. Hoyt, carpenter's mate, Etteboro, Mass., and Joseph M. Farley, fireman, Chicago, were the men lost. An announcement today by the navy department says the Wakiva, formerly owned by H. S. Harkness, collided with a navy cargo carrier. She was rated at 863 tons, and probably was in a patrol squadron.

The Moldavia is the third transport carrying American troops to be torpedoed and the fifteenth troop ship sunk by the Germans. Of the vessels carrying Americans, the Ontonagon was the first to meet with destruction by a U-boat. She was sunk October 17 last when returning to this country from Europe and seventy lives were lost. The second was the Tuscania, which was sent to the bottom off the north of Ireland February 5, with a loss of life totalling 101.

The only other serious attack made on American transports occurred last June when vessels carrying some of the first expeditionary units, under a convoy commanded by Rear Admiral Gleaves, narrowly escaped disaster in the mid-Atlantic.

"Put Me Down for 100 of These Cultivators"

said a Nebraska implement dealer after putting a new leverless cultivator "through its paces." He had just demonstrated the machine to five leading farmers, every one of whom ordered one or more of the cultivators for spring. The cultivator we are talking about is

B. F. Avery & Sons Leverless

The radical improvement that distinguishes the Avery from other leverless cultivators is that it combines in one machine the leverless feature with a pivot pole and lateral shifting arch.

The seat bar pivots horizontally as well as vertically, so the vertical movement of the gangs is controlled by the vertical movement of the seat and the horizontal movement of the gangs by the horizontal shifting of the seat.

The operator's weight balances the gangs in such a way that one gang can be

raised absolutely independently of the other. When you want to clear one gang of trash, you simply release the foot pressure on that gang and it rises automatically without in the least disturbing the other gang.

On a side hill the operator's weight causes the seat bar to angle down hill. This gives the wheels and gangs a corresponding angle up hill, thus overcoming the tendency to work away from the row.

We can't describe on paper the wonderful easy action of this cultivator, so come in and see for yourself.

HAS LARGELY IGNORED POLITICAL AFFILIATIONS.

Washington, May 21.—Any charge that President Wilson has selected partisans to help him conduct the war cannot be sustained. The truth is he has paid very little attention to political affiliation when choosing men to do big work.

Among the men named and the places they fill are:

William Howard Taft, chairman national labor war board, Republican.

Charles E. Hughes, assistant to Attorney General Gregory in the aircraft investigation, Republican.

John D. Ryan, director of aircraft production, Democrat.

Edward R. Stettinius, assistant secretary of war, Republican.

Bernard M. Baruch, chairman of the war industries board, Democrat.

Charles M. Schwab, director general of ship production, Republican.

Edward N. Hurley, chairman of the United States shipping board, Democrat.

Frank A. Vanderlip, chairman of the war savings committee, Republican.

Drs. William J. and Charles H. Mayo, members of the general medical board, Democrats.

Daniel Willard, chairman of the advisory commission, council of national defense, Republican.

Samuel McRobert, chief of the procurement division, ordnance department, Republican.

Henry P. Davison, chairman of the war council, American Red Cross, Republican.

Herbert C. Hoover, food administrator, Republican.

Harry A. Garfield, fuel administrator, Republican.

Vance McCormick, chairman war trade board, Democrat.

Many Democrats feel that the president has gone too far in forgetting his party when handing out big plums. The president's purpose has been to get the best man for the place. He has missed the bull's eye.

then but as a rule his aim was true.

GERMAN WOMEN MUST REGISTER NEXT MONTH.

Washington, May 26.—German women in the United States are required to register with chiefs of police or postmasters between June 17 and 26 under regulations issued today by the department of justice.

In cities of 5,000 or more population the census, the registration is to be conducted by police and in smaller communities and country districts by postmasters, under the same rules as governed the registration of German males three months ago. Finger prints will be taken, but every effort will be made to give courteous treatment to the women and avoid the impression that the registration process implies any suspicion of guilt.

It is estimated that about 400,000 German women, classed as enemy aliens, live in the United States. This number includes many women born in the United States but married to Germans who never were naturalized. Since women assume the nationality of their husbands, these women will have to be considered subject to registration. Women whose husbands or fathers have been naturalized, or who have become naturalized in their own names, are not included in the class required to enroll.

The women will be asked to give full information concerning their family relationships, their ages, places of residence and occupation. After registering, they will not be permitted to move from one locality to another without notifying the registration officer and obtaining his approval. On going to another place of residence, they will be required to report at once to the registering officer there.

FRENCH PLAYING HAVOC WITH GERMAN AIRPLANES.

With the French Army in France, May 26.—Thirty-seven German airplanes have been destroyed, 60 others have been forced to land badly damaged within their own line and eight captive balloons have been destroyed by French aviators since the weather became favorable. In the period between May 15 to May 18 there were 105 aerial combats. American and Italian squadrons have participated in the aerial operations. On May 16 the work continued in broad daylight, the bombing machines being protected by 75 chaser airplanes, which swept all the enemy machines out of the sky in a large area.

In the period between May 15 and May 18 the allied squadrons dropped 160 tons of bombs on enemy depots and other establishments.

THIRD LIBERTY LOAN
OVER FOUR BILLIONS.

Washington, May 21.—The total of the third Liberty Loan is \$4,170,019,650, an oversubscription of 39 per cent above the three billion minimum sought. The number of subscribers was about 17,000,000. Every federal reserve district oversubscribed, the New York district 124 per cent, being the lowest.

These figures, the treasury department explained, may be changed slightly by later reports.

"This is the most successful loan the United States has offered, both in number of subscribers and in the amount realized," said Secretary McAdoo in a statement. "Every subscription was made with the full knowledge that allotment in full was to be expected, unlike the first loan, when allotments were limited to \$2,000,000,000, and the second loan, when allotments were limited to one-half the over-subscriptions. I congratulate the country on this wonderful result which is irrefutable evidence of the strength, patriotism and determination of the American people."

Total subscriptions to the second loan were \$4,616,000,000 and the amount accepted was \$3,808,000,000. Pledges to the first loan ran above \$3,000,000,000, but the loan was limited to \$2,000,000,000. Subscribers to the second loan numbered about 9,500,000 and to the first loan about 4,500,000.

Mr. Gilmer Endorsed.

To The Editor of The Patriot:

For a long time the people have been demanding that the county board of education be elected by popular vote, as distinguished from an election by the general assembly. In obedience to this demand, the last general assembly modified the law, so far as Guilford is concerned, and for the first time the people are allowed to express their preference in the primaries as to who shall constitute the board.

Dr. C. S. Gilmer, of the lower side of the county, has announced himself as a candidate for a position on the board. Dr. Gilmer is a first-class man in point of character and qualifications for this position, and is very popular where known, and will doubtless add much strength to the ticket, if he shall be endorsed at the primaries.

Mr. Ireland is a candidate from the central part of the county, and Mr. Peacock is likewise a candidate from the western part of the county. The east is fairly entitled to representation on this board, and a large number of the best people of eastern Guilford, together with a number of people in Greensboro, have prevailed upon Dr. Gilmer to become a candidate. I have known Dr. Gilmer for twenty years probably, and I have no hesitancy in recommending him to the voters of Guilford for this important place. I therefore trust that the voters throughout the county will, at the primaries on June 1, endorse him by their vote.

Wives Active in Getting Husbands
Into Service.

Winston-Salem, May 25.—A member of the city exemption board reports that several married men who were placed in Classes 3 and 4 upon the plea of dependents have been transferred to Class 1 and will be sent away with the next delegation to the war training camp. The wives of these men have gone to the exemption board and asked that the class of their husbands be changed, stating that after they signed the support claim for them the husbands stopped providing for their families.

Daniels Thinks Cyclops Will Yet be
Heard From.

Washington, May 26.—Secretary Daniels has not abandoned hope that the big naval collier Cyclops, missing since early in March, will be heard from. He said today, however, that he had no information which would lead him to expect an early solution of the mystery. The Cyclops still remains on the navy list and the loss of the ship's company will not be recognized officially until the full three months allowed under the war risk act has elapsed.

THE PATRIOT'S BUSY FRIENDS

—A working family wanted. Good house and pleasant surroundings. See Mr. Young's notice in the bargain column.

—The M. G. Newell Company handle only quality standard goods for farmers, and about every implement needed on a farm, including a tractor, can be found here. They are not "on the road" but are in the warehouses ready for your selection. This is really a farmers' supply house. See Mr. Newell's new ad. on the second page today.

—The Messrs. Mendenhall, of the Guilford Lumber Company, are showing their patriotism this week by paying for a page announcement in The Patriot in the interest of the second Red Cross campaign. The city of Greensboro and High Point have contributed liberally, and we know that the farmers will do their full duty in this most worthy and humane cause. Speakers were in every part of the county yesterday informing our people of the objects and aims of the Red Cross, and a canvas of the rural sections will be made this week under the direction of Chairman Latham. Read the announcement on the seventh page and lend your immediate aid to the campaign.

—"A good name is rather to be chosen than great riches," is an old proverb that is as true today as a hundred years ago. The reputation of Thacker & Brockmann for fair and square dealing with their fellow man is second to no firm in the state, and is a household word in thousands of homes in Guilford and adjacent counties. A Greensboro man, traveling for a large manufacturing concern up North, said to a member of this firm the other day: "Why they (the manufacturers) have a reputation all over the United States just exactly like what Thacker & Brockmann have here in Guilford county." This naturally made Mr. Brockmann and Mr. Thacker feel good, for it made them feel that the twenty-odd years they have been in the mercantile business in Greensboro have not been spent in vain. When you buy an article at Thacker & Brockmann's store you can rest assured that you are getting a square deal with the full worth of your money. See their new ad. on the eighth page today.

—Ben Butler once said that God could create more people but that no more land would be made, and that the best investment a young man could make would be that put into real estate. An opportunity will be offered our people next Wednesday to purchase a slice of perhaps the most fertile farm in Guilford county—the J. Elwood Cox 125-acre farm on the Greensboro-High Point asphalt road. This elegant farm has been placed in the hands of the American Realty and Auction Company to sell, who have subdivided it into small tracts in order that all may have a chance to get a few acres of it for suburban home sites at their own price. These will be sold at public auction on Wednesday, the sale beginning at 10 o'clock in the morning, and everybody is most cordially invited to attend. Bid on this property and meet their friends. Good music will be furnished by Richardson's band and the ladies of the Red Cross will serve a dinner on the ground. In addition to the sale of the land all the stock and farming implements belonging to Mr. Cox will be sold at the same time. Farm Demonstrator Bivins has been invited to be present and mingle with farmers on this occasion. Make your arrangements to attend and let nothing keep you away. See page announcement of this sale in today's Patriot.

Look for the man on the roll

There are two ways of telling the real RU-BER-OID from its 300 imitators:

1. Genuine RU-BER-OID has the "Ru-ber-old Man" on the wrapper of every roll.
2. Genuine RU-BER-OID gives long and satisfactory service.

Many RU-BER-OID roofs laid 20 years ago are still giving perfect service.

Genuine RU-BER-OID, made by the Standard Paint Co., contains no tar, sand, wood fibre, or other cheap substitutes that quickly wear out.

The safest way is to look for the RU-BER-OID Man on the roofing that lasts.

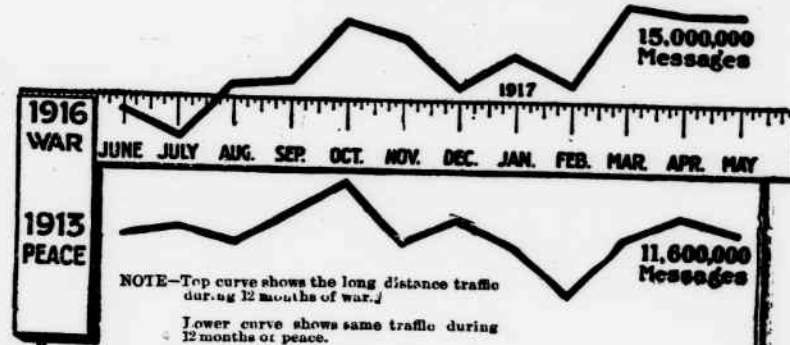

Buildings of every kind in every climate are roofed with RU-BER-OID Roofing and RU-BER-OID Shingles.

High Tide In Telephone Traffic

This chart shows the extraordinary growth of long distance traffic on the Bell system under war conditions. The difficulties in keeping pace with such demands may be appreciated when it is understood that the cost of material entering into the manufacture of telephone equipment has practically doubled, in addition to the abnormal increase in the price of labor and the shortage of both labor and material with which to add to our facilities.

Upon the declaration of war, the Bell system pledged its entire service unreservedly to the government. The demand from that source is already great and is increasing hourly; moreover the extraordinary increase in telephone traffic due to the unprecedented commercial and industrial activity incident to the war is also making itself felt.

The problem before us is a serious one and we realize the service may probably be slowed down during the coming months. We want you also to understand the situation and to know that the operators are serving you cheerfully and to the extent of their ability, but under difficulties for which there is no immediate remedy and which you cannot realize without visiting the operating room.

We ask that you co-operate with us by observing patience and care in the use of the telephone and by eliminating useless and frivolous calls.

Facts About the American Red Cross

Did you know that—

It has established and is operating twenty dispensaries in the American Army Zone in France to care for the needy families there and to improve health conditions in that section ready for our troops?

It is housing and feeding thousands of children in the War Zone to keep them away from the danger of gas and shell fire?

It has divided the entire War Zone into six main districts, with Red Cross workers at each point to distribute cooking utensils, agricultural implements, beds, bedding, food and clothing?

It provides builders and ready-to-put-up buildings to house the homeless in the devastated regions, often before the walls of the destroyed homes have cooled?

It is bringing over two hundred tons of supplies every day into Paris, from which one hundred and twenty-five tons are reshipped to branch warehouses over France?

It is providing an artificial limb factory outside of Paris, in addition to special plants for the making of splints?

What will *you* give to keep this Hand of Mercy at its work?

Every cent of every dollar received for the Red Cross War Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the higher executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country.

It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.
It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities, it is serving as America's advance guard—and thus helping to win the war.

Congress authorizes it.
President Wilson heads it.
The War Department audits its accounts.
Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-two million Americans have joined it.
