

GERMANS ARE NOW HELD AT EVERY POINT

UNABLE TO MAKE FURTHER ADVANCES—ONLY MINOR ATTACKS MADE.

With the French Army in France, June 7.—The Germans, it is generally believed, are now held at every point of their recent advance. They seem unable to execute more than minor attacks which are invariably repulsed, whereas the counter-attacks which the allies are making are proving notably successful nearly always bringing about an improvement in positions.

Throughout the day time yesterday except in the sector northwest of Chateau-Thierry, where the French and Americans made their brilliant incursion into the enemy lines and on the Champlatt-Bligny line, southwest of Rheims, where the French and British co-operated in opposing a German attack, there was little activity along the battle line by the infantry.

As for the artillery, the enemy has increased in his volume during the last few days, but he confined his attentions chiefly to bombing the rear of the allied positions. In return the allied cannon left the enemy positions very little peace, constant showers of shells being thrown in.

Americans Force Fighting.

Wherever the Americans were engaged they gave fresh proof of their rapid adaptation to modern war conditions and they displayed the greatest initiative.

While the Americans were fighting to the north of Lucy-Le-Boage, 5 1-2 miles northwest of Chatea-Thierry, their front lines were greatly harried by a German machine gun. When the position had been located an American patrol made a daring advance, reached the emplacement, killed all the enemy machine gunners and brought back the weapons.

British Report.
London, June 7.—The British official report issued this evening says: "The French troops improved their line in the neighborhood of Lore early this morning by successful local attacks in which they captured a few prisoners."

"A small party of our troops raided a German post in the Strazels sector by daylight this morning and captured nine prisoners and a machine gun. We had no casualties.

"Beyond artillery activity on both sides of the different sectors there is nothing further to report from the British front."

Official German Communication.
Berlin, via London, June 7.—The German official communication issued today says that north of the

Aisne and northwest of Chateau Thierry the Germans repulsed attacks by allied forces. The text of the communication follows:

"On the battle field the fighting activity remained restricted to local actions. North of the Aisne and northwest of Chateau Thierry local attacks by the enemy were repulsed.

"Southeast of Sarcy we captured, after strong artillery preparation, enemy lines on the banks of the Andre river. We took 300 prisoners.

"Artillery duels have been revived at intervals and there has been lively reconnoitering activity. During an advance into the French lines west of Kemmel we captured two officers and fifty men."

Berlin, via London, June 7.—The evening official communication from general headquarters follows:
"The situation is unchanged."

FEDERAL COURT PUNISHES THOSE WHO ARE DISLOYAL.

In United States District court Thursday, August Dressler, a native German, was sentenced to 18 months imprisonment in the federal prison at Atlanta, for making treasonable remarks. Dressler was formerly employed at the tobacco factory of R. J. Reynolds & Co., at Winston-Salem, and has been in custody for some time.

Dressler was reported as saying that the draft law was unconstitutional and that he negroes could not be made to go into training as they were given no privileges and were hardly citizens. He said that the government of the United States was more autocratic than that of Germany, and that the whole government at Washington was rotten. He also said that all Americans who went to the war were fools as they would certainly be killed, and that Germany was sure to win in the combat.

A. Hohman, of near Salisbury, who has been employed for some time at the Spencer railroad shops, was tried on the same charge. Hohman was reported as saying that the negroes could not be made to go in training and advised several negroes against registering. It was also reported that he was extremely cruel to his family, many times driving them out in bitter cold weather, regardless of the consequences which resulted to them.

Fletcher, James and William Smith were charged with conspiracy and obstructing an officer while in pursuance of his duty.

R. M. Robinson, a colored preacher of Mt. Gilead, was charged with making treasonable statements. He was stated as having told the negroes of his section that they did not have to go to camp, and that there was no law which could force them to go.

Charles Day, of Orange county, charged with illicit distilling, was given an additional 30-day sentence along with another sentence which he was serving and was fined \$100.

Sentence was passed on Gill Laws, Arthur Jones and Frank Derern for illicit distilling. Laws and Derern were each fined \$100 and sentenced to imprisonment in the federal prison at Atlanta for one year and one day, and James was fined \$100 and sentenced to 18 months' imprisonment.

Will Saunders, charged with illicit distilling, made the plea that he had a crop to harvest and judgment in his case was suspended until next court.

CORBETT, DESERTER FROM CAMP, IS KILLED IN PITT.

Greenville, June 9.—W. M. Corbett, a deserter from Camp Sevier, was killed last night at the home of W. H. Corbett, his father, about nine miles east of here. The sheriff and a posse went to arrest him and had to break into the house. While capturing Corbett, senior, young Corbett started to enter the room with a gun. He was shot dead by the officers.

He had made threats that he would never be taken alive, it is said, and prepared the house for defense, putting iron bars across the windows and making portholes at several places.

Corbett, senior, had to be knocked down, receiving a severe head wound, and is now held in jail for harboring and aiding a deserter. He will probably be given a trial before United States commissioner tomorrow. An inquest was held and the verdict was that young Corbett was killed by officers in the discharge of their duty.

A moonshine still and outfit was also found near the house.

TOO MUCH CAMOUFLAGE.

"There is too much camouflage in this country today," said a public speaker recently, "in the way of noise and bluster, and in the lack of real practical patriotism. 'God bless the brave boys' is alright to say when you really feel it, but such expressions don't go far in winning battles unless they are backed up with deeds of action and service.

"Denouncing the Hun and pouring forth wrath at every fresh atrocity committed by the Hun is a way," said the speaker, "many people have of camouflaging. They would make it appear from their volley of bitter words that they would fight the enemy to his endless destruction, whereas, a real test would show that words are all he would have to contribute

to the cause of defeating Prussianism and all the atrocities for which it stands."

Another charge made by the speaker was that Americans love praise more than service and sacrifice. "But not yet," he said, "are they ready for congratulations, for not yet have they gotten into the game as it is going to be required of every American citizen before the war is ended. We do a little," he says, "and then stand off as if waiting for someone to praise us before we start again. The trouble is we have not yet realized what we are up against in this war. Recent reverses on the battle front and apparent victories of the enemy show plainly what must be done not only by our boys already over there but by every individual over here. We must throw ourselves as never before into winning this war regardless of what it costs. Delays and differences must not interfere with our speedy action in getting over there and getting there well equipped.

"America should have no other business than that of winning the war. All her interests should now be centered on her preparations for playing the big part that she is destined to play before victory is won. Her government programs must have right-of-way. Her war plans must not be interfered with. Her loans must be taken by the people, not once but as often as she says, and her people must continue to save and lend their money to the government if the war is to be won by the allies."

A hoarded dollar represents idle power; a wasted dollar represents wasted power; a dollar saved represents power saved, labor saved, materials saved. Loaned to your government, it represents power, labor, and materials in action, on the firing line, over the top. And more—it represents reserve power, energy stored, purchasing power conserved for its owner.

NITRATE SODA FOR NORTH CAROLINA FARMERS.

Washington, June 7.—Senator Simmons had up again today with the department of agriculture the matter of getting nitrate of soda to the farmers of North Carolina at once, particularly to the sections where the crops are earliest and the need most urgent. He urged upon the department the necessity of immediate action, especially in view of the fact that under advice from the government, farmers have relied upon a supply from the department of agriculture and have not provided supplies from other sources.

The department advises that three ships from Chile, to-wit, the Margaret, the Sutherland and the Sacramento, have just discharged cargoes of nitrate of soda at Wilmington and the same are now being distributed to North Carolina farmers. At the request of Senator Simmons, the department today wired its agent at Wilmington, instructing him that shipments to the section most in need of fertilizer be facilitated in every way possible. It is the department's opinion that it will be able to supply 45 per cent of the quantity called for by North Carolina farmers; and an effort is being made by the department of agriculture to increase the amount available for this purpose by diverting shipments originally intended for other departments, applying them to further satisfy the reasonable demands of the farmers. No assurance is given as to the success of this effort to divert supplies. One other ship, the Redondo, has not left Chile for Wilmington with a cargo of nitrate but the department, on account of war conditions, is unable to guarantee the certainty or date of its arrival.

Some day peace will come. Thousands—millions of men—will suddenly be thrown back again into civil life. Consider the vastness of the adjustment that will be necessary. Look back at the period of reconstruction after our own Civil war. Prepare for this new period of reconstruction. The day of reckoning to come. Begin to save now. Thrift is the need of the present, the hope of the future. Liberty loan bonds, war savings, the safest securities in the world, are a wise provision for the day peace comes.

ADMINISTRATOR PAGE AFTER PROFITEERS

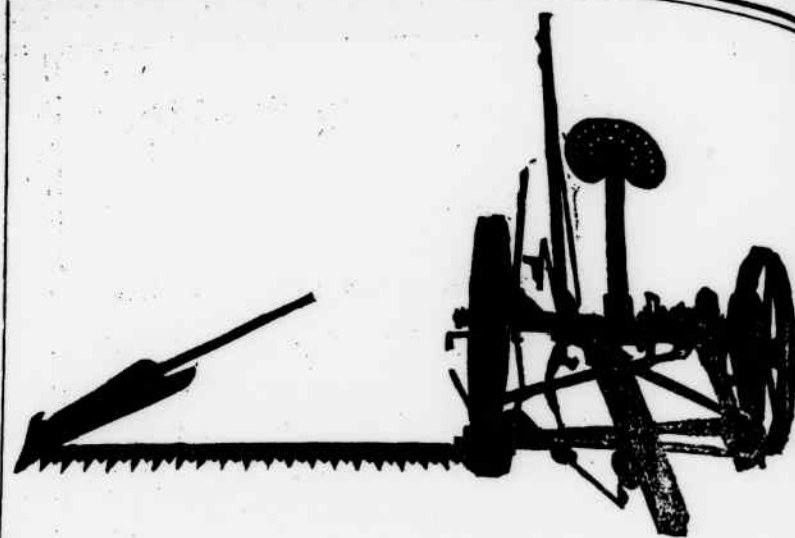

DEALERS CHARGING MORE THAN FIVE CENTS FOR MEAL FIRST VICTIMS.

Raleigh, June 8.—Millers and dealers who have been taking advantage of the scarcity of flour and the "combination sale" order of the food administration are likely to have a "run-in" with State Food Administrator Henry A. Page, according to a statement issued to the trade in the official bulletin of the food administration which was issued today. According to this statement the conservation of wheat has been held back and discouraged to a considerable degree by profiteering in corn meal and other cereal substitutes and the food administration is determined to call a halt on such business.

State Food Administrator Henry A. Page, after an investigation of corn prices in North Carolina and with knowledge of the cost of the corn imported into the state, and with due regard to the legitimate margins that may be charged by millers and retailers, announced definitely that hereafter any price for corn meal to the consumer above five cents a pound will invite investigation, and dealers found to be charging an unreasonable margin will be disciplined. The only justification for a price higher than five cents a pound will be high freight rates or unusual cost of handling due to some extraordinary circumstances.

This procedure is in line with the new policy of the food administration to begin investigations at the consumers' and retailers' end, instead of with the manufacturers and jobbers. If there is any profiteering on any product anywhere along the line of distribution it will be indicated in the price to the consumer and with a number of competent inspectors in the field it will be easier and decidedly more effective to begin investigations of apparent profiteering with the retailer.

In some markets in North Carolina corn meal is selling for approximately as much as wheat flour. The food administration holds that there should be at least a difference of 20 per cent between the two products.

A CONSPIRACY TO COMMIT TREASON

TWO GERMANS AND FIVE AMERICANS INDICTED IN NEW YORK.

New York, June 9.—Five Americans and two subjects of the German empire, one of them a woman, are named as fellow conspirators in a plot to overthrow the government here today. Indictments returned by a grand jury here today. Involvement declared their operations to be of a national character by the grand jury since the war began.

The indictments allege conspiracy to commit treason and conspiracy to obstruct justice. The assembling of a committee of information relative to American's prosecution of the war, the destruction of American ships, docks, and troop transports with the hope of destruction of quick war in this country to hamper the manufacture of munitions, and the raising of funds in this country with which to finance these operations, and destruction of munitions, factories, and mines in Great Britain are charged as ramifications of the conspiracy.

Broad Scope of Charges.
The wording of the indictments, comprising thirty pages, intimates that the conspiracy may be of even broader scope. This is suggested by a paragraph in the treason indictment which says that in July last the one of the defendants sent a letter to a German official in Switzerland.
The principal named in the indictment is:

Jeremiah A. O'Leary, prominent American, now a fugitive from justice on charges of espionage, was named as distributor of alleged anti-war literature in the magazine "The Patriot," of which he was formerly editor.

Other Defendants.
"Madame" Marie K. De Victoria, alias Barbara Von Kretschman, a blonde German woman of striking appearance and about 40 years of age.

Carl Rodger, who claims Swiss citizenship, but who is alleged to have come to this country from Germany under a fraudulent passport.

aged 30, and under suspended sentence for seditious "soap box" oratory here in behalf of Sinn Fein interests.

John T. Ryan, a Buffalo, N. Y., attorney alleged to have been active in spreading Sinn Fein propaganda in this country.

Albert Paul Eriks, a Mount Vernon, N. Y., toy manufacturer, whose affairs are now being administered by Alien Property Custodian Palmer.

Emil Kipper, prominently identified with Sinn Fein activities in New York city.

Rudolph Binder and Hugo Schweitzer, both of whom died last year, are the other two "citizen defendants" named in the indictments.

The seven individuals listed are charged with complicity in both conspiracies.

"Madame" De Victoria, Rodger, Robinson, Fricke and Kipper pleaded "not guilty" to both indictments before Judge Augustus N. Hand and were remanded to the toms to await trial late today.

SUMMARY OF CASUALTIES TO AMERICANS IN FRANCE.

Washington, June 9.—Casualties among the American expeditionary forces thus far reported by General Pershing including today's list, total 7,315, the war department announced today in making public the first of regular weekly summaries of casualties. Deaths in action, diseases, accidents and all other causes number 2,927, while 4,046 men have been wounded and 342 are missing in action including men held prisoners in Germany.

The department's recapitulation follows:

Killed in action (including 291 at sea) 1,033.

Died of wounds, 310.

Died of disease, 1,192.

Died of accidents and other causes, 392.

Wounded in action, 4,046.

Missing in action (including prisoners), 342.

Total 7,315.

While no official explanation was given for the decision of the department to advise the country weekly of the exact total casualties since the landing of the first American forces in France last June, it is understood that it resulted largely from widespread reports that casualties had been very heavy and that total figures were being withheld from the public.

THE HOSPITAL BOMBERS WORSE THAN BARBARIANS.

The fundamental and theoretical objective in warfare is not to slaughter but to disable the enemy, and when a foe is rendered hors de combat the objective of the opposing combatant is attained.

Hence belligerents from the beginning of civilized government have recognized and deferred to the principle that when a combatant is wounded or taken prisoner or otherwise removed from the fighting he is immune from further attack so long as he remains powerless to engage in combat.

Indeed, it remained for the Hun to render that international rule of warfare a bit of traditional rubbish, so far as he is concerned, just as it remained for him to make of a solemn international treaty a worthless "scrap of paper."

Thus from time to time the news dispatches from the war zone carry reports of Germans shelling field dressing stations well behind the fighting lines and of Hun aviators dropping bombs on military hospitals and killing helpless nurses and wounded men.

Nothing could be more revolting to the sensibilities of any civilized human being, and no civilized human being in command of an army would permit it.

Yet the Hun commanders not only permit, but glorify such barbaric conduct; in fact, they order it!

It is a wonder that any nation—however remote from the scene of war, or however weak—can remain neutral with such atrocities going on in the world!

But a day of reckoning is on the way!

The respicable beastiality that makes war on wounded soldiers, sick men, innocent women and helpless babies has no rightful place even in savage tribes, to say nothing of civilization; and it must and will be eradicated from the world before this war is over!—Atlanta Constitution.

"Do you consider it unlucky to borrow money on Friday?" asked Cadgar.

"I would if you borrowed it from me," replied Rounder.

A. & E. Catalogue.

We have received a copy of the catalogue of North Carolina State College of Agriculture and Engineering at West Raleigh. That great technical college is doing a fine work. The college offers full four-year courses in agriculture, chemistry, civil engineering, mechanical engineering, electrical engineering and textile industry.

Mr. Collins and several other men had gone out to spend the day with Judge Adams. Heat probably caused Mr. Collins to become faint, and he fell, rolling down a cliff about twenty feet and dropping fifteen feet further into water. He was unconscious for some time. He is now able to be out but has one arm in a sling.

May Get Presbyterian College.

Business men of Greensboro are endeavoring to raise \$50,000 to offer the consolidated Presbyterian college which will be located in Raleigh, Charlotte or Greensboro. For every \$1 raised outside the Presbyterian churches of the city the Presbyterians will give \$2. This means that the city will have \$150,000 in money to offer the college if it is located here, while it is understood that one or more sites will probably be offered free of cost. Of the \$50,000 to be raised by those outside of the Presbyterian church, more than \$40,000 has already been subscribed. The city of Greensboro Friday afternoon subscribed \$500.

First Bird He Shot Was a Squirrel.

A son of Erin once described his first day's shooting in the following way: "The first bird I ever shot was a squirrel, and the first time I hit him I missed him altogether, and the next time I hit him in the same place. After that I took a stone and dropped him from the tree, and he fell into the water and was drowned, and that was the first bird I ever shot!"
