ASU Senate Regrets Salary Raise

The Arizona State U. Student Senate learned a lesson this year that most Congressmen already knew: Nothing gets you in more trouble than voting yourself a pay

For almost a year, the ASU Student Senate has been trying to pay each of its 20 members \$355 per semester. Those efforts have been vetoed by the Associated Students president, blasted by the student newspaper criticized by student newspaper, criticized by fellow students, held up to ridicule by some state legislators and finally foiled by a campus administrator.

The saga began last spring when the outgoing senate made a lastminute addition to the 1982-83 budget, appropriating \$14,000 to

senate salaries. The tardiness of the change, and the failure to stipulate how senators would earn their pay, led the outgoing ASASU president to veto the measure.

In the fall, a new senate tried making the same appropriation. Again, there was no accountability provision and no explanation of where the money would come from. Again it was vetoed. "I told from. Again it was vetoed. "I told them it was extremely irrespon-sible to vote themselves a paycheck," says ASASU President Neil Giuliano. But the senate overrode that veto, sending the measure on to Betty Turner Asher, ASU's vice president for student affairs. student affairs.

And that's where it gets in-teresting. In making its decision, the senate refused to listen to 12

students who had signed up to speak against the measure. That opened the senate up to a whole new round of criticism. A group of students tried to start an initiative students tried to start an initiative against the senate pay- a senator responded by threatening to sue. State legislators tried to use the pay issue to lobby for control over what Arizona calls "local collec-tions"- the portion of tuition/fee money appropriated by the univermoney appropriated by the univer-sity. ASASU's \$620,000 budget comes from the local collections comes from the local contecturing money. One state senator even asked the state attorney general for a ruling on the legality of the student senate's vote. The issue was only laid to rest in January when Asher announced the would not sign the ann-

she would not sign the ap-propriation. She cited the senate's bad timing and said the bill "would change the whole concept of ser-

vice to other students." Asher agreed with the bill's backers that paying the senators would in-crease the accountability of the senate. "That's a laudable goal," she said.

Giuliano, for one, was relieved at Grunano, for one, was relieved at her decision, saying ASASU would have faced difficult financial times if forced to pay for two semesters of senate work. He also agrees that paying senators is a worth-while goal, but feels the student government would need to reduce while goal, but reers the student government would need to reduce the size of senate first, to make it more workable. After this year's fiasco, however, it might be hard to convince students that senators should get anything. "I think the credibility of the senate is at an all-time low," says Giuliano.

The senate may find that out for itself. The 1983-84 budget sessions are approaching and the issue of paying the senate is expected to come up again.

Pope Puts Pressure On Catholic Colleges

(CPS)--Pope John Paul II has signed a new set of canon laws which may pit Catholic univesities in this country against church of-ficials over the hiring and firing of theology instructors, some Catholic educators fear. At the center of the issue are

several changes in church law that require church officials to approve all theology instructors at the nation's 237 Catholic universities

before they can teach. Although the pope has already officially released the revised officially released the revised canons, educators in this country are still waiting for them to be translated from Latin and distributed before commenting ex-tensively on their ramifications. But unless the pope made significant changes from the original draft of the canons, Catholic educators say, there could be some serious fallout from the

"When we get the documents and see how close they are to the original proposals, as well as how they will be interpreted, we'll be in a better position to evaluate the future,'' says Jerry Fagin, theology department chairman at Loyola University in New Orleans.

"All students are equal." Social, finan-cial and sexual statuses are a few of the many reasons that disprove the statement. Saying that a person's skin color does not distate his or her attitude in given situations is saying that a per-son whose income is \$10,000 a year has the same daily routine as a millionaire. Surely, anyone with common sense can determine the lack of sensibility of such a statement.

Now, let's really apply common sense to a non-projudice way of thinking. Who determines the articles printed in a newspaper, the readers of the diltors and owners? When I read any major city paper, I find a few minor articles that touch the positive activities of its black citizens. I also find dozens of articles about blacks who have contributed to the defiance of the law. It's the "Carolina Peacemaker" and other requivalent papers that correct such situations. Why is there a "Black History Month" What were black doing after the Reconstruction Period and before the Civil Rights Movement? Who was Charles Drew or Marion An-derson? What is the origin of "Rock and Roll" music? The answers to these questions are not printed in most history books. Black History Month has made more people caware of the contribution of blacks in society. Why are the statuses and roles of black actors and actresses so limited? Why aren't there many black ballet dancers? The Harlem Ballet Company and the "Neo Black Society" help correct use mituations. Employment for blacks has increased because the educational opportunities for blacks share improved. The United Nergo College Fund is one of the reasons for such an improvement. Why are blacks still "fighting for freedom? Chainn on the mind are much more derimental than chains on the body. Unemployment among blacks is still mot as useficient an they could be. Working conditions for many black laborers are not as adequate as they should be. The Trauma Of Transparency

By M. ALAN BABCOCK secial to The Caroli

Join me. It is February 3rd, a Thursday, and I take my seat in Taylor Theatre. A Prelude to Death in Venice is the play I am watching and, with artistic sen-sibilities thoroughly bludgeoned by the obscene dummy-ventriloquist act on stage, I walk out into the night. I buy a bottle of wine, drink it all, turn a desk over in my room, break the bottle on the floor, gash h unk of flesh out of my left wrist a hunk of flesh out of my left wrist

a num of nesh out of my left wrist and watch it bleed. Persons often put forward a front that fools no one. I have been such a person. A ventriloquist in a vacuum. An alcoholic. A ven-triloquist who maintained through lightly meeting line that he could slightly moving lips that he could turn off the liquor taps at any time by sheer will and determination. I

was a voice-thrower, an alcoholic. Now sit with me in the Emergency Room of Moses Cone Hospital. It is 4:00 in the morning. I am presently insulting the doctor in a light-hearted way: "Is this guy I am presently insulting the doctor in a light-hearted way: "Is this guy a doctor? A full-fledged doctor? He must be an intern. Nurse, is this guy a doctor?" And then I tell him I will someday earn a Ph.D. (He says: "In what? Killing yourself?") I tell him that the Ph.D. is a more prestigious degree than the M.D.; that it is a research degree. He laughs. He is a doctor, He gives me seven stitches in my left wrist.

Imagins, the is a doctor, the gives me seven stitches in my left wrist. One more stop: the infirmary, 5 a.m. I arrogantly refuse the baggy yellow pajamas they unfold before me. The fat nurse is told to sit at my side. I banish her into the hall on the helind the green deer. She to sit behind the open door. She jokes that this is the first time a man has ever turned her down. I bristle at her kindness and say that

bristle at her kindness and say that "I have had women in my room before." The infirmary becomes quiet. I am stupid. I am still drunk. But enough of the Scrooge-like montages. You are now sitting in some chair, in some building, reading this confession, oblivious to the black ink that is sooting up your index fingers. And I am nearly a mile high in the Idaho

mountains, trying to think rationally, or a short week while explaining to my family how I became what my psychiatrist calls a "confirmed alcoholic." For only now do my lips move broadly. I am transparent. I toss the dummy scide Decole know who I am I to aside. People know who I am. It is traumatic. But it is no great revelation, for the confession of my works antedated the confession of my words. I have been face-down on several floors. Only now do I admit that it was for not great love of green shag or parquet surfaces. Someone once said that misery

Someone once said that misery loves company and, whereas I find no solace in the fact, this is an alcoholic country. Madison Avenue shows another angle: Beer com-mercials portray the young and vibrant and socially-adored as their Class A clientele. Golden Boys on the beach play volleyball and enjoy a non-fattening swig of Wisconsin's famous swill. Full-page magazine ads depict the con-tentment of early middle age: a man, a woman, two smiles, two man, a woman, two smiles, two mixed drinks-what more could we desire?

But digress. Become microscopic in examination. One more film clip: We are entering the cafeteria. On the tables we find printed handbills that announce to printed nanounce to us that we can get x-number of drafts for one dollar on a certain lucky night. Yes, Virginia , there is a Santa Claus. Cotton candy and circus wheels and all that stuff. And the man behind the counter really is over friand really is your friend.

For many Washingtonians, life without WHFS will be akin to confinement in a cell fed continuously with top-40 hits. Weekly "play lists," based on record sales, already dictate what most FM stations air here and in other market markets.

Indeed, as economics pinch budget-conscious stations, many owners have found that outside comparies can select, tape and supply "music packages" more ef-ficiently than an in-house music director. As a result, radio preprogramming is a booming business.

In little more than a year, for example, 200 stations have begun to pay a Dallas-based firm \$1,000 a month to provide 24-hour music via satellite. Subscribers to the Satellite Music Network (SMN)

rebroadcast to local audiences live programs which originate in Chicago. SMN programs include station ID's, news and commercial station 1D's, news and commercial breaks and generic time checks, and come in either rock, country or "beautiful music" formats. Music by satellite isn't exactly free-spirited: Satellite Music officials told our reporter, Michael Duffy, that their rock DJ' stick to a 30-song play list when spinning records. Meanwhile, hundreds of stations

Meanwhile, hundreds of stations routinely purchase reel-to-reel tapes from "music consultants." Tapes produced by TM Produc-tions, of Dallas, can provide con-tinuous play on standard studio equipment for days on end. Station managers can flip a switch and walk away. The technique is about as spontaneous as Muzak.

"It's the McDonald's of radio," "It's the McDonald's or radio, admitted Bernie O'Brien, manager of WWWK-FM, a Warrenton, Va., station which once resembled WHFS in format but now takes its music via satellite. song inte Ozzy, no one can sing a Ronnie Dio tune like Ronnie Dio; he is truly a powerful vocalist. Some of the new songs on the album include "Neon Knights," Children of the Sea" and "Voodoo," a forceful chiller in the classic Sabbath tradition of all that is evil. The band, surprisingly, does not let up through the entire album. Although Iommi's been at it for over ten years, he and his bass-man, Gezer Butler, fiail their instruments mercilessly to produce the go-for-broke effect that has always been a part of Black Sabbath. The energy level on this album is enough to give even a devout Sabbath fan a headache (usually a good sign in Heavy Metal.) Another outstanding aong on the album is the relentless "The Mob Rules," the title track from their last album.

Even the "old" songs come out, for the most part, sounding very viable. Though Dio does not quite capture the spirit of the classic song "Black Sabbath," his per-formance on "N.I.B.," formance on "N.I.B.," "Paranoid" and "Children of the "Paranoid" and "Children of the Grave" is outstanding. Though this band cannot capture the spirit of the old Black Sabbath on old favorites like "War Pigs" and "Iron Man," they generate their own feeling of excitement with songs like "Heaven and Hell," "The Sign of the Southern Cross" and "Children of the Sea." Black Sabbath has always been

Black Sabbath has always been the kind of band you either love or hate, and in most cases they take these emotions to their extremes. Few bands can claim as much Few bands can claim as much allegiance from their fans or as much hatred from the detractors. From their outset, *Black Sabbath* has been identified with the devil, evil, etc. The label, to say the least, evil, etc. The label, to say the least, is getting tiring. These guys were, and still are, a good heavy metal band which has latched onto a gimmick to ride to the top. Any good heavy metal band puts on an uproarious live performance, and Sabbath, being one of the best, is no exception. The music is loud, overblown, assaulting, even ob-noxious. The lyrics deal with things you'd probably rather not think about. That's why Black Sabbath had to be considered great: they did things musically and lyrically that no one else would dare to.

In The Time Of Your Life, a revealing melting pot of charac-ters are all created in a picture of striving hopes and dreams, univer-sal struggle, force, uncontrollable

mistakes, mistaken identities and the awful fate to destroy in order to live. The Time of Your Life, the Pulitzer Prize winning play written by William Saroyan, will be presented in Aycock Auditorium from February 23 to 27. Sonny Bell, professor in the UNC-G Theatre Department, is directing *The Time Of Your Life*, the third production of this 1982-1983 theatre production

this 1982-1983 theatre season. Immediately upon talking with Mr. Bell, one is able to see the im-portance and the special meaning which this play holds for him. Though the play takes place during the heart of the depression, in 1989, Bell sees the play as being play presents us with "a slice of two sides of America." On the one had "we see the labor strife, racism, imminent war and deper sonalized government," while on the other we see "a developing America. The World's Far and the building of the Golden Gate Built is very clear and to the point.

Bell is very clear and to the point

Bein is very clear and to the point when it comes to the themes which this play deals with the ones which he sees of primary importance. "This play deals with the whole conscience of American Dream," said Bell, "and Saroyan's message of telling us to live the time of our life right now."

Bell added that the play asks us a very important question: "Is it possible to live a civil life without hurting any other life? and Saroyan's answer is 'No, not as long as we have people like Hitler around."

Bell said that war is a character in this play. He said that in this play Saroyan presents us with the statement that "if there comes, in the time of your life, a time to kill then kill and have no regrets." Ac-cording to Mr. Bell, Saroyan feels that "we must act-learn to kill, but with grace Dou's would in the that we must accreate to kill, our with grace. Don't revel in the act, do just what is necessary, then no more. When we have exaggerated expectations of what society is to do for us, then that is where the Hitlers rise up from." Bell added, "and when all Americans banded together for a single nurpose in together for a single purpose in World War II, then we were finally Americans."

"The play presents us with a strata of American life," Bell said. He conceives the play as a three ring circus in which there is always something going on. Bell ex-plained, "We have a pinball wizard who plays the pinball machine who plays the pinball machine throughout the play. He believes it is his destiny to beat that machine. One character plays the piano through the entire play. There is a dancer, a juggler, philosophers, poets and a comedian-we have an entire cross-section of immigrant Americans in this play."

Page 3

Bell went on to say that the set itself is a water-front honky tonk. "It is mildewed and below groundthis place is an island alone where these people reveal fragments of their lives.

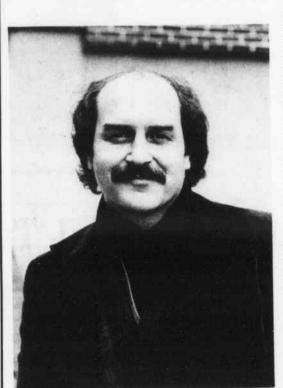

their lives. Bell is keeping this play balanced at its center-dealing with the American Dream. "Every charac-ter," Bell said, "has a dream and all of them are seeking something-some kind of fulfillment."

Bell feels that with this play the actors have an ideal opportunity to work on their craft. "You are in a bar, passing time, trying not to be bored--it is full of wealth that an actor can create from."

He wants the play to entertain and enlighten-he is trying to get across the message that "hope and the future are not bad things. You must live in the time of your life, each and every day."

Sonny Bell feels that the play has "a realistic base with a roman-tic outlook." And that romanticism is expressed in not being af-fraid of the ever-changing present and future. Sonny Bell feels that and nuture, sonny hen leets that Saroyan expressed it best when he said, "The world is always changing and never changes and we are always changing and yet never change." we are alway never change

The Time Of Your Life and Sonny Bell want us to cherish life, work together, not be afraid of change and, for today, live in the time of your life.

Spring Break is a time of year when they get together with students from all over the eastern hemisphere for a nine day celebration representing construc-tive mayhem. The choosing of which spot to frequent is an impor-tant and pressing problem at this time. There are several "hotspots" for the college student to consider.

Daytona Beach, billed as the "world's most famous beach," of-fers a wide stretch of sand on which cars are allowed to travel. The Gulf stream, however, does not reach up this far, so the water is quite cold. You must also con-

One of the most satisfying experiences is partying with a bunch of strangers who have one common goal: to have fun and completely let go of their inhibitions in a nine day jaunt. Even with all the practical reasons that are available for taking a journey to the sunshine state, such as just pain relaxation, many go to Florida for the same reason that the crusty old fisherman kept fishing for his entire life—just for the "halibut."

Spartans Remain In Second Place

By DAVID WELLS

Staff Writer UNC-G won two key contests at home this weekend to remain in second place in the Dixie Con-ference. The Spartans downed Christopher Newport College Friday evening 87-81 and defeated Virginia Wesleyan College Satur-day afternoon in a 70-69 thriller. UNC-G is now 10-2 in the con-ference and 16-6 overall. Thistopher Newport dropped to 5-6 in the conference and 6-14 overall, but the Captains gave the Spartans a brief scare in the first half. A portion of the officiating was, to put it mildly, controversial, in-cluding a technical foul called on Mitchell for hanging on the rim af-the a crowd exciting dunk. Mitchell was fouled on the play, but the referee, judging that Mitchell was not in danger, still assessed the technical foul. UNC-G coach Ed Douma remarked after the game. "He (the referee) said there was no chance of injury, but I don't think be's ever been up there before." Mitchell also received a technical foul for dunking the ball before the game in warmups. Take Two Lady Spartans **Continue Conference Hopes**

By RICHARD MASON

Suff Write After losing to conference rival St. Andrews 77-74, UNC-G still held their fate in their hands in their weekend games against con-ference rivals Christopher Newport and Virginia Wesleyan. Against Christophe Newport, the Spartans played an opening fifteen minutes that brought back fond memories from last year. The Spartan defense choked the Christopher Newport offense until almost the seven minute mark. Christopher Newport offense until almost the seven minute mark. Christopher Newport diffuse some in double digits until 8:45 in the first half. While the Spartan defense was dominating on one end of the court, the Spartan offense was building a lead that would go as high as twenty-two before Christopher Newport got going. Part of the Spartans' domination in the first half was due to the intimidation factor of Coltrane and Blazevich. Thristopher Newport finally got untracked at 6:45 and outscored the Spartans from there until the half, 20-11. Early in the first half, the Spar-tans lost Sherry Sydney to a knee injury that will keep her out of ac-tion for a least a week. In the second half, the Spartans weeve before the Lady Captains came back at the half way point of the second period to trim the lead to as few as four near the 6:30 mark. The Spartans were able to build the twelve point lead in the same fashion as the Lady Captains were able to get back into the game with inside play. In the first ten minutes, Blazevich was an in-timidating factor blocking shots and causing players to alter their shots. Blazevich finished the game with seventeen rebounds and four blocked shots. blocked shots

With the vic-tory, the Spartans moved int first place ahead of the Lady Marlins. In the opening minutes, the Spartans used a stingy defense that caused one turnover and forced the Lady Marlins to take two of their first three shots with less than ten seconds on the shot clock and built an early eight point lead. The Spartans were never seriously threatened in the second half. The closest the Lady Marlins could ever come was fourteen points, while the Spartans were able to build the lead to as high as twents with

able to build the lead to as high as twenty-six. Another promising factor in the game was the balanced scoring which placed five players in double figures. The attack was paced by Coltrane and Blazevich with twen-ty-one and eighteen respectively. Coaches Agree and Highfill felt the team "finally came out of their slump against Virginia Wesleyan." Highfill noted it was the first time in a week the team had "done anything right." Agree commented, "It's great to be back home- both playing at home and playing the way we can." She

Missouri to North Carolina looked promising. "Those Southern belles are just waiting for you," I whispered hopefully into one of Red Dog's floppy ears. No such luck. In 1979 and 1980, I didn't even make January. Let's not talk about 1981 and 1982. It seems like Red Dog wants to spend his entire life a bachelor.

life a bachelor. Meanwhile, Red Dog and I make the best of it. He is thoroughly housebroken, and his barking never disturbs the neighbors. Two years ago, I taught him to roll over. He still can't catch a ball, but no ther ranking can come close but no other canine can come close to Red Dog in the "play dead"

department. Over the years, I've considered alternate methods to rid myself of my puppy pal. One roommate, my puppy pal. One roommate, blessed with both finance and fianblessed with both finance and fian-ce, tempted me sorely when he thrust a crisp 20 dollar bill under my nose. Red Dog sniffed ner-vously at the prospect of new ownership, so I resisted the offer. Another time, in a fit of depression, I nearly paid a local veterinarian to put my pet out of his misery. Sanity prevailed. Valentine's Day 1983. My dog and I grow old together. Red Dor

and I grow old together. Red Dog still sits in the closet, a few wrinkles and a streak of gray indicating that the years are taking their toll. I recently read that the

of contemporary music. Whatever its technological wonders, the dark side of centralized programming may be personified by the rollerskater who, ears wrapped in a Walkman, listens unwittingly to music fed from a tape machine 3.000 miles away.

WE'VE GOT YOUR MONEY-let us know how to spend it! Student concerns and activities committee needs your ideas for bands, festivals and guest speakers. Bring ideas to Room 261 EUC or give them to your dorm senator.

average dog lives 12 years. Eight years with a dog....and still looking for a fox. Red Dog and I maintain hope. Our Valen-tine's Day will come. Some February 14th in the future, I will swing open the closet door, stare at the open space once occupied by at the open space once occupied by my canine companion, and say, "Dog-gone." Author's Postlude: Fate struck

again this past August when I visited Carowinds without a date. Accuracy with softballs netted me two large stuffed pigs. Luck with a ping-pong ball won me a giant stuffed parrot. I gave one pig to the beautiful brunette who ran the milk bottle both. I traded the other pig for an elephant, which I gave to my sister. I took the parrot home as a romantic interest for Red Dog. Red Dog glanced at the multi-colored bird, bared his teeth and ergended Bolly present teeth, and growled.
